ASSISTANT COMMISSIONER

ROBERT L. QUINN  
COMMISSIONER

January 8, 2024

His Excellency, Governor Christopher T. Sununu  
and the Honorable Council  
State House  
Concord, New Hampshire 03301

### REQUESTED ACTION

Pursuant to the provisions of NH RSA 4:8, Gifts to the State, authorize the Department of Safety (DOS), Division of Emergency Services and Communications (DESC), to accept a donation of used radio site equipment valued at \$8,257.57 from Wireless Partners LLC., of Concord, NH, as per the list below. These items will be accepted for use only upon Governor and Council approval.

### EXPLANATION

DESC has been offered the following pieces of radio equipment, from Wireless Partners, LLC., to include an ice bridge, waveguide ladder, equipment platform, ice bridge over equipment platform, H-Frame with PPC Cabinet and fiber pull box, and all underground conduits for utilities at the Errol, NH radio site. Wireless Partner's LLC. is decommissioning their equipment on Vertical Bridge's Errol #3 site and have proposed to Vertical Bridge that they be allowed to leave the equipment at the site and donate it to DESC. Vertical Bridge, as the landowners, have approved. If DESC is authorized to accept this donation, it will save the State of New Hampshire approximately \$27,025.00 from having to pay to purchase all new equipment, have the area trenched for electricity and fiber connections. Additionally, it will allow for a much quicker installation of the public safety radio equipment as part of the New Hampshire State Police Troop F radio enhancement project.

Attached is a detailed list of all pieces of equipment that Wireless Partners, LLC. would like to donate to DESC along with their original cost.

Respectfully Submitted,

Robert L. Quinn  
Commissioner of Safety

Brandon McGorry, ENP  
Chief of Administration  
New Hampshire Department of Safety  
Division of Emergency Services and Communications  
110 Smokey Bear Boulevard  
Concord, NH 03305

Brandon,

Wireless Partners Networks is currently in the process of decommissioning the equipment installed at the communications facility located at 365 Upton Rd in Erroll, NH. After discussing with DESC staff, it is our understanding that the State of NH has received approval to install LMR communications equipment at the same site. Wireless Partners Networks is offering to leave the ground equipment intact for the state to utilize during the installation. The ground equipment will include the steel platform, ice bridge and H-frame to include PPC cabinet and fiber pull box. All underground conduits for power and fiber will also stay in place for use.

Wireless Partners Networks is willing to donate these items to the State of NH to help improve public safety communications in the North Country.

Please feel free to reach out to us if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Patrick Robinson". The signature is fluid and cursive, with a long horizontal stroke at the end.

Patrick Robinson
