EXPLANATION

This request is being made to transfer funds out of Class 040 Indirect Costs within the ARPA DHHS Fiscal Recovery Fund to cover the costs in Class 042 Post Retirement Benefits. The transfer is necessary to allocate funds for the temporary position established under the Healthcare Workforce Capacity – Underserved Populations project funded by ARPA funds. This class line was depleted last fiscal year due to another project’s use. The funds were not replenished before the end of last fiscal year. This transfer will allow for the continuation of program service contracts through the end of the grant period.

The following appropriation adjustments are being requested:

Class 040 Due to some projects not spending at originally anticipated levels, there are funds available to transfer out.

Class 042 The funds will be used to pay for post-retirement expenses for the full-time temporary position established under the Healthcare Workforce Capacity project.

Area served: Statewide

Source of Funds: 100% Federal funds from the ARPA Grant.

If Federal Funds become no longer available, General Funds will not be requested to support the program expenditures.

Respectfully Submitted,

REQUESTED ACTION

Pursuant to RSA 14:30-a, VI and RSA 124:15, the Department of Administrative Services (DAS) is seeking approval on behalf of State Agencies to amend the accept and expend of American Rescue Plan Act (ARPA) State Fiscal Recovery Funds (SFRF) requests by extending the end date for funding, new positions, and/or new Class 046-Consultants, created in relation to the acceptance of ARPA SFRF funds, from June 30, 2023 to June 30, 2024, effective upon approval of the Fiscal Committee and the Governor and Executive Council. 100% Federal Funds.

EXPLANATION

The Department of Administrative Services is seeking approval, on behalf of the State Agencies listed in Attachment A, to extend the effective date of the attached items from June 30, 2023 to June 30, 2024. This extension is allowable under the "procedural rules amendment" approved at the previous Fiscal Committee meeting on April 21, 2023. All items included in the attachment have been previously submitted by the respective state agency responsible for the program and approved by both the Fiscal Committee and Governor and Executive Council. In addition, the Governor's Office of Emergency Relief and Recovery (GOFERR) has reviewed the attachment and concurs with the extensions requested.

While all ARPA SFRF must be obligated by December 31, 2024, and expended by December 31, 2026, this request only serves to authorize agencies' program balances that are unspent as of June 30, 2023, as well as positions and consultants created pursuant to RSA 124:15, to carry forward into FY24 and reauthorize projects or programs that were already intended to continue utilizing authorized ARPA SFRF into the next biennium. This will also grant agencies in coordination with GOFERR time to further evaluate projects and programs as the ARPA SFRF obligation deadline approaches in order to

The Honorable Ken Weyler, Chairman
Fiscal Committee of the General Court

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
Page 2 of 2

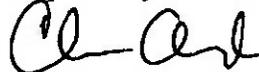

ensure any funds that may need to be reallocated to other uses have sufficient time to do so. Any request to reallocate an existing budget or repurpose funds for new or existing projects will require future Fiscal Committee and Governor and Council approvals and are not contemplated in this item.

If this item is not timely approved, the State would need to issue layoff notices to employees hired into these federally funded positions, created under the original ARPA request, agencies would halt work on time-sensitive projects or payments on existing contracts, and ongoing programs would be unable to issue or follow through on awards. Further, each agency would then need to submit a retroactive request to July 1, 2023 for approval to reauthorize the positions and funding; however, the retroactive requests would not eliminate the need to issue layoff notices in June 2023.

Typically, agencies budget for known federal grants in the upcoming biennial budget; however, the budget guidance issued in August 2022 instructed Agencies to exclude all COVID-related funding from their FY24-FY25 budget submissions in order to maintain the authorization methodology, compliance protocols, and audit trail that had become standard for use and oversight of ARPA SFRF. Moreover, although the funding is authorized by the federal government beyond June 30, 2023, including this one-time funding would have erroneously inflated the FY24-FY25 State budget.

In the event that Federal Funds are no longer available, General Funds will not be requested to support these programs. The Department of Administrative Services seeks approval of this request.

Respectfully submitted,

Charles M. Arlinghaus
Commissioner

EXPLANATION

The Department is requesting to accept and expend American Rescue Plan Act (ARPA) funding to expand the current State Loan Repayment Program (SLRP), which provides funds to health care professionals working in areas of the state designated as being medically underserved who are willing to commit to a contract with the State for a minimum of three years (or two if part-time). These healthcare professionals work in primary care, which includes medical care, oral health, and behavioral health services. Primary care plays a key role in health promotion and disease prevention, as well as management of ongoing conditions. COVID-19 has taken a heavy toll on primary care and other healthcare teams who have been on the front lines of the pandemic with many suffering from stress, trauma, burnout and increased behavioral health challenges. Healthcare workforce shortages existed prior to the pandemic and now have been further exacerbated. SLRP has been an effective tool for recruitment and retention of highly qualified clinicians serving rural and underserved regions. If approved, the funding will enable the program to serve increased numbers of providers, including registered nurses, behavioral health providers, oral health providers, and physicians in primary care, behavioral and oral health care settings, hospitals, and schools.

In July 2021, the program expanded to include registered nurses in a primary care setting and behavioral health providers at eligible sites who are under two-year supervision to acquire their license, but the program had to limit each type to ten slots for this year because of funding constraints. If approved, the additional funds will eliminate these slot limits. In June 2021, the program launched the Private Practice Dentist Loan Repayment program to increase the dental capacity available for Medicaid patients and limited it to two slots. The additional funds, if approved, will enable more slots. The proposed funding will also enable the program to expand to include school psychologists in school settings who are licensed by the board of psychology and serving Medicaid enrolled students in the school setting through the Medicaid to Schools and/or Medicaid to Schools for Medical Services Programs. The program will also expand to include Hospitalists at the Critical Access Hospitals who are in great demand and support local primary care providers. The funding will also be used to increase SLRP recruitment by adding funds to an existing Recruitment Center contract to support a national marketing campaign directed towards healthcare workforce and have them coordinate with other programs in the state doing workforce recruitment and economic development. A new staff position will be created in order to accommodate the additional work of supporting the SLRP participants. The funds will be used for costs incurred by the program during the period that begins on March 3, 2021, and ends on December 31, 2024, and award funds for the financial obligations incurred by December 31, 2024 must be expended by December 31, 2026.

The funds are to be budgeted as follows:

- Class 041 The funds will be used to pay for audit fund set aside per State requirement.
- Class 042 The funds will be used to pay for post-retirement expense.
- Class 059 The funds will be used to pay for a full-time temporary Program Assistant I who will be responsible for reviewing applications for the State Loan Repayment Program and processing service verifications.
- Class 060 The funds will be used to pay for benefits to support the above position.
- Class 102 The funds will be used to increase State Loan Repayment Program marketing and recruitment
- Class 103 The funds will be used to increase the number of loan repayment contracts for obligated clinicians serving underserved populations.

The following information is provided in accordance with the comptroller's instructional memorandum dated September 21, 1981:

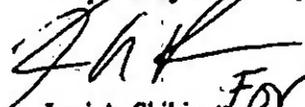

1. List of personnel involved: 1 Temporary full time positions: 1 Program Assistant I
2. Nature, Need, and Duration: The position will provide for the increased needs for the State Loan Repayment Program as a recruitment and retention tool due to healthcare workforce shortages caused by the COVID-19 public health event. The position will be needed for five years while the additional contracts are being supported.
3. Relationship to existing agency programs: This is an expansion of the existing State Loan Repayment Program.
4. Has a similar program been requested of the legislature and denied? No
5. Why wasn't funding included in the agency's budget request? At the time of budget submission the impact of COVID-19 on the healthcare workforce was not known.
6. Can portions of the grant funds be utilized? All grant dollars are being used for this request.
7. Estimate the funds required to continue this position(s):

Positions (Salary & Benefits)	<u>FY 2022</u>	<u>FY 2023</u>
Program Assistant I	\$65,806	\$78,780

In summary, additional funding is requested to aid the Department to maintain a sufficient primary care workforce to provide high quality care for patients and the population in the State of New Hampshire. The Source of Funds is 100% Federal Funds. ARPA Funding is requested to strengthen the healthcare workforce capacity for underserved populations. Healthcare workforce shortages have been exacerbated due to the COVID-19 pandemic. This is thus an allowable use of ARPA State Fiscal Recovery Funds under Section 602(c)(1)(a), to respond to the public health emergency or its negative economic impacts.

In the event that these Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Lori A. Shibette
Commissioner
