His Excellency, Governor Christopher T. Sununu
and the Honorable Council
State House
Concord, New Hampshire 03301

REQUESTED ACTION

Authorize the Department of Administrative Services to enter into a contract with Coastal Traffic, Incorporated (VC#271153), York, ME, in an amount up to and not to exceed \$1,348,714.31 for traffic signal equipment with the option to extend for up to an additional two years effective upon Governor and Executive Council approval for the period March 1, 2024, through February 28, 2029.

Funding shall be provided through individual agency expenditures, none of which shall be permitted unless there are sufficient appropriated funds to cover the expenditure.

EXPLANATION

The Department of Administrative Services, through the Bureau of Purchase and Property, issued request for bid (RFB) 2825-24 for traffic signal equipment on October 3, 2023, with responses due on October 17, 2023. This bid reached 36 vendors through the NIGP electronic sourcing platform with an additional 16 vendors directly sourced. There were 5 compliant responses received. Coastal Traffic, Incorporated submitted the lowest compliant total pricing for 4 of the 7 categories.

The bid submitted by Coastal Traffic, Incorporated for Section A (Signal Heads, Pedestals, and Hardware), Sections B (Signal Cabinet Devices), Section E (Traffic Signal LED Modules) and Section G (Miovision Equipment) offer the State a combined 8.62% cost avoidance compared to the next lowest bidders for those sections. By approving this requested contract for traffic signal equipment, significant economic benefits can be attained.

The streamlined purchasing processes eliminate the need for multiple vendor quotes, whether for crash repairs or planned in-house projects. This not only saves time but also enables effective forecasting for annual inventory and budgets, while minimizing the impact of current

inflation costs. Coastal Traffic Incorporated's bid also allows for a 10% balance of product line discount saving the State additional funds for future purchases not listed on the bid document.

The expiring contract (Contract #8002814) with General Traffic Equipment Co. only included Section E (Traffic Signal LED Modules) of this bid. During the review period, discussions with the Department of Transportation revealed that it would be beneficial to expand the traffic signal contract to result in 7 total sections to better serve the agency's needs. Compared to the expiring contract (Contract #8002814), there is a 27% increase for Section E (Traffic Signal LED Modules). However, this new requested contract is a 5-year term compared to the expiring contract's 3-year term. Coastal Traffic, Incorporated also offers a 10% balance of product line discount which is an additional benefit with this requested contract.

The forecasted spend amount is the estimated quantity that reflects statewide needs and anticipated purchases over the course of the requested 5-year contract term. While the 5-year contract does allow for price adjustments biannually, the initial prices remain fixed for a 2-year period. After the first 2 years, the contractor may request increases which may not exceed 5 percent. The financial data includes forecasted allowance for price adjustments in year 3 and 5 of the contract term. It should be noted that the contract contains a de-escalation clause whereby price decreases are effective immediately as they become available to the general trade.

Contract financials	
Estimated annual spend	\$259,243.50
Estimated term spend (5 year)	\$1,296,217.50
Add allowance for balance of product line	\$25,924.35
Estimated two-year escalation, capped at 5% per year	\$26,572.46
Recommended price limitation	\$1,348,714.31

Based on the foregoing, I am respectfully recommending approval of the contract amendment with Coastal Traffic, Incorporated.

Respectfully submitted,

Charles M. Arlinghaus
Commissioner
