### **EXPLANATION**

The purpose of this request is to provide funding for costs borne by Medicaid Personal Care and Home Health Care providers who require resources to prepare for compliance with the 21<sup>st</sup> Century Cures Act Electronic Visit Verification (EVV) requirements. This request represents seven (7) of the Grant Agreements. The Department anticipates presenting the remaining Grantees' Agreements, which received a pass rating at a future Governor and Council meeting.

Electronic Visit Verification is a requirement under the 21<sup>st</sup> Century Cures Act, a federal law that was passed in December 2016. EVV is a beneficiary protection and program integrity tool which providers are obligated to utilize in order to be paid for their home-based services under Medicaid. The Department received capital funding in SFY23 to implement this technology and went through a competitive procurement in 2022-2023. As a result of the implementation timing, The Department has incurred penalties due to the federal deadline of January 2021. Some penalties have been mitigated through Department waiver requests to CMS. This grant funding will enable providers to conduct activities including, but not limited to:

- Procuring devices for workers to access and utilize the EVV system.
- Interface development and testing with the State's EVV solution aggregator.
- Interface development utilizing internal or external consultant/contractor services.
- EVV system training.

The funding for this request is available through the federally approved Home and Community Based Services Spending Plan.

The Department has contracted with First Data Government Solutions, to provide the State's EVV system including a data aggregator, which will connect with any provider's existing EVV system with some modification. The State's EVV implementation is currently estimated to pilot with a small number of providers with implementation statewide for both Personal Care and Home Health Care services beginning in February 2024 with the system being fully implemented in June 2024.

The Department's selected EVV system will collect federally required data elements from each visit, as well as the tasks performed by the direct service provider during the visit. Providers will have the choice to enter data directly into the State's EVV solution, or external EVV visit data, collected by the provider's EVV solution and sent to the State's aggregator. Claims will be produced based on EVV visit data and will be sent via interface file to our Medicaid Managed Care Organizations (MCO), or to the Medicaid Management Information System (MMIS) for claims adjudication.

The Grantee's staff will have access to a mobile application on a smart device that will be the primary method of capturing EVV visit data with landline interactive voice response data capture serving as a backup. GPS within the device will be used as the method for validating location of services. EVV will be required for personal care and home health care services delivered to individuals that are in the DLTSS Home and Community Based Care waivers and Medicaid State Plan. The Department plans to do a soft implementation with all providers. This phase will last about three to six months, during which time providers will have flexibilities to support a transition to the new process. These flexibilities may include, for example, allowing a higher number of manual entries per provider.

The Department will monitor services by:

- Monthly Project Update Reports that include progress to date and any barriers to completion.
- Quarterly Corrective Action Plans for activities not completed, or not demonstrating progress.
- Final Reports to include activity status and/or completion dates, and an impact statement on the success of the activity, which must include supporting documentation.

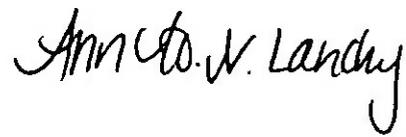

The Department selected the Contractors through a competitive bid process using a Request for Grant Applications (RFGA) that was posted on the Department's website from June 1, 2023 through December 30, 2023. The Department received 17 responses that were reviewed and scored by a team of qualified individuals.

Should the Governor and Council not authorize this request this will prohibit impacted providers from receiving funding to support their compliant implementation of EVV and potentially impair provider compliance and, by extension, Medicaid program integrity.

Source of Federal Funds: Assistance Listing Number #93.778.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

for:

Lori A. Weaver  
Commissioner

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this Agreement is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

See <https://www.govinfo.gov/app/details/CFR-2004-title45-vol1/CFR-2004-title45-vol1-part76/context>.
6. The prospective primary participant agrees by submitting this Agreement that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.
7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties) <https://www.ecfr.gov/current/title-22/chapter-V/part-513>.

However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
