EXPLANATION

The purpose of this request is to provide the Contractor with funding to identify opportunities to develop a comprehensive community-based care system, which supports individuals who are dually eligible for Medicare and Medicaid benefits to stay in the community longer, delaying entrance to institutional care.

The Contractor will provide resources and support for individuals to age in place, with a focus on expanding adult day services, and develop a new comprehensive, community-based care system for adult day services. This will support individuals to stay in their community longer, as opposed to entering institutional care. Individuals who are dually eligible for Medicare and Medicaid benefits will be served by conducting a pilot program to develop and provide services to the target population. The Contractor will be implementing the pilot program based on the development of a detailed Project Plan, subject to Department approval, and will integrate

seamless, quality home and community-based primary, acute, behavioral, and long-term care supports and services.

The Department will monitor services by reviewing quarterly reports, which include, but are not limited to:

- Narratives on development progress of the pilot program, to be implemented within six (6) months of the contract effective date;
- Estimates of the number of eligible populations in the proposed service area; and
- Number of individuals served through the pilot program.

The Department selected the Contractor through a competitive bid process using a Request for Proposals (RFP) that was posted on the Department's website from July 26, 2023 through August 25, 2023. The Department received one (1) response that was reviewed and scored by a team of qualified individuals. The Scoring Sheet is attached. The Contractor agreed to increase the number of individuals to be served from 204, as specified in their original proposal, to 214; the price limitation was therefore adjusted to reflect this increase.

As referenced in Exhibit A of the attached agreement, the parties have the option to extend the agreement for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties, and Governor and Council approval.

Should the Governor and Council not authorize this request the Department will not have piloted and tested data and outcomes to inform achievability and viability of developing programming that defers and delays institutional care for individuals dual-eligible for Medicare and Medicaid benefits.

Area served: Rockingham County.

Source of Federal Funds: Assistance Listing Number #93.778.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Lor A. Weaver
Commissioner
