			Total	\$122,325

EXPLANATION

This request is **Sole Source** because the Contractor is uniquely qualified to provide a Peer Support Specialist certification program. Through a federal Health Resources and Services Administration (HRSA) grant awarded to Dartmouth Health for rural workforce development, the Department requested to work in partnership with the Contractor and Dartmouth Health to develop the training curriculum for a Peer Support Specialist certification. The HRSA grant enabled the Department to engage with multi-sector stakeholders to co-create a new, New Hampshire-

specific, Peer Support Specialist certification program. The Contractor was identified through the HRSA grant because of their unique ability to serve rural communities and launch the program in the specified timeframe. The intention is to pilot the certification program through this Contractor and, long term, to expand the program to other college systems.

The purpose of this request is to implement an online Peer Support Specialist certificate program to prepare students to enter a peer support role in the mental health workforce. The certificate program is comprised of nine (9) course modules, which is approximately 40–46 hours of online learning. The maximum number of students enrolled in each course will not exceed 24 students, with priority given to NH residents.

Approximately 168 individuals will be served during State Fiscal Years 2024 and 2025.

Individuals with lived experience are a fundamental piece of the mental health workforce. Peer support, which is a growing profession, requires training and professional development to ensure quality service provision. This certification program will provide individuals with lived experience with the training needed to enter the mental health workforce. The Contractor, through this agreement, will cover the cost of student tuition, equipment, technology, curriculum updates, and course facilitation. Additionally, the Contractor will deliver and administer the online certification program, manage student enrollment, and provide technical assistance to students.

The Department will monitor contracted services through:

- Participant course completion reports, and
- Quarterly meetings with the Contractor to discuss enrollment data, program waitlists, student feedback, and any suggested revisions to curriculum.

As referenced in the Cooperative Project Agreement – Exhibit A, Paragraph B, of the attached agreement, the parties have the option to extend the agreement for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties, and Governor and Council approval.

Should the Governor and Council not authorize this request, individuals with lived experience will not receive the fundamental peer support training necessary to enter the mental health workforce to provide essential mental health services and supports to the State's mental health population.

Area served: Statewide.

Source of Federal Funds: Assistance Listing Number 93.778, FAIN N/A.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Lori A. Weaver
Commissioner
