**REQUESTED ACTION**

Authorize the Department of Environmental Services (NHDES) to enter into a contract with the New England Water Works Association, Inc. of Holliston, MA (VC # 161159-B001) totaling \$40,000 to provide training classes for New Hampshire’s certified drinking water operators, effective upon Governor and Council approval through December 31, 2025. 100% Drinking Water Loan Management Fund.

Funding is available in the account as follows with the authority to adjust encumbrances in each of the State Fiscal years through the Budget Office if needed and justified:

**EXPLANATION**

The State of New Hampshire requires the 1,205 public water systems to have certified drinking water operators. These operators must have a requisite amount of experience and education and must pass an exam to become certified. Certification of Water Works Operators administrative rules, Env-Dw 502, further requires certified drinking water operators to attain a minimum amount of continuing education to be eligible to maintain and renew their certifications. NHDES conducted surveys of drinking water operators, public water system owners and managers, and held numerous meetings with the various training organizations, to determine how to best meet current and future training needs of the NH drinking water industry. With this input, NHDES developed a training approach that identified training goals, needs, and types. This approach supports the need to certify and maintain certification for these public health professionals.

NHDES solicited proposals through postings on the NH Department of Administrative Services website and direct correspondence with training providers to train water system operators of small public water systems serving fewer than 3300 people. NHDES evaluated the proposals based on knowledge of state and federal drinking water regulations, demonstrated training experience, and

knowledge of water system operations. Given their extensive knowledge of state and federal drinking water regulations and water system operations, the New England Water Works Association (NEWWA), the sole bidder, was selected for the small public water system operator training program. NEWWA is a non-profit association and has many years of experience in training New Hampshire drinking water operators.

This agreement has been approved as to form, substance, and execution by the Office of Attorney General.

We respectfully request your approval.
