REQUESTED ACTIONS

1. Authorize the Department of Environmental Services (NHDES) to amend a Lead Service Line Inventory grant (PO# 9005937) to the Merrimack Village District (VC# 160038 B001), Merrimack, NH by extending the completion date to December 31, 2024 from March 30, 2024, effective upon Governor and Council approval. The original grant was approved by Governor and Council on April 12, 2023, Item# 97. This is a no cost time amendment. 100% Federal Funds.
2. Authorize the Department of Environmental Services (NHDES) to amend a Lead Service Line Inventory grant (PO# 9005924) to the Town of Newmarket (VC# 177449 B003), NH by extending the completion date to December 31, 2024 from March 30, 2024, effective upon Governor and Council approval. The original grant was approved by Governor and Council on March 22, 2023, Item# 93. This is a no cost time amendment. 100% Federal Funds.

EXPLANATION

We are requesting approval of these amendments to provide the Merrimack Village District (District) and the Town of Newmarket (Town) additional time to complete water system improvements that will meet federal lead service line inventory requirements.

The District and the Town were each awarded a \$50,000 grant to conduct an analysis of their current drinking water service line records to identify lead service lines, to construct a searchable database, revise their sampling plan and create a replacement plan to address any lead service lines within their distribution system. The timeline and deliverables of the Environmental Protection Agency's (EPA) Lead and Copper Rule Revision (LCRR) are being adjusted based on new regulatory updates. For this reason, NHDES requests an extension to the grant deadline and a modification to the scope to reflect EPA's new required deliverables and timelines. To date, \$16,610 of the District's and \$ 37,840 of the Town's original \$50,000 Lead Service Line grants have been spent.

and the Honorable Council

REQUESTED ACTION

Authorize the Department of Environmental Services (NHDES) to award a Lead Service Line Inventory Grant to the Merrimack Village District, Merrimack, NH (Vendor Code # 160038 B001) in the amount of \$50,000 to develop and implement a drinking water service line inventory, effective upon Governor and Council approval through March 30, 2024. 100% Federal Funds.

Dept Environmental Services, DWSRF BIL Administration, Grants Federal

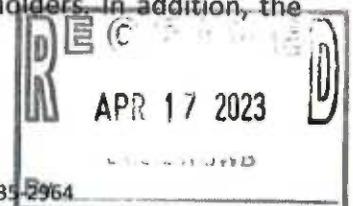

FY2023
\$50,000

EXPLANATION

The Environmental Protection Agency (EPA) published regulatory revisions to the National Primary Drinking Water Regulation (NPDWR) for lead and copper under the authority of the Safe Drinking Water Act (SDWA). These revised requirements provide greater and more effective protection of public health by reducing exposure to lead and copper in drinking water.

NHDES released a solicitation for Lead Service Line Inventory, Sampling Plan and Replacement Plan Grant applications in September of 2022. A total of 24 communities were identified as potential candidates for this grant (see Attachment A for a complete list). Funding for these grants was established from the Bipartisan Infrastructure Law (BIL) funding. The grants are being awarded on a first come, first served basis. The grant amounts were determined by the number of drinking water service connections within the water system. Projects eligible to receive grant funding include in-house or outside services to create lead service line inventories, sampling plans, and replacement plans, digitizing historic records, building inspections, test pits/potholing, and water quality testing.

The Merrimack Village District will use the funding to conduct a complete data mining of their current drinking water service line records to identify lead service lines and to construct a searchable database that will allow the District to communicate more effectively with their stakeholders. In addition, the

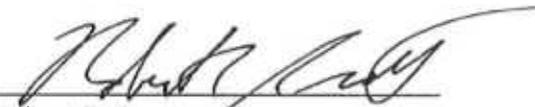

His Excellency, Governor Christopher T. Sununu
and the Honorable Council

Merrimack Village District will revise their sampling plan and create a replacement plan to address lead service lines within their distribution system.

In the event grant funds become no longer available, general funds will not be requested to support this program. The grant agreement has been approved by the Attorney General's Office as to form, substance, and execution.

- 11.2.2 Give the Grantee a written notice specifying the Event of Default and suspending all payments to be made under this Agreement and ordering that the portion of the Grant Amount which would otherwise accrue to the Grantee during the period from the date of such notice until such time as the State determines that the Grantee has cured the Event of Default shall never be paid to the Grantee; and
- 11.2.3 Set off against any other obligation the State may owe to the Grantee any damages the State suffers by reason of any Event of Default; and
- 11.2.4 Treat the agreement as breached and pursue any of its remedies at law or in equity, or both.

DATE 22 March 2023

ITEM # 93

REQUESTED ACTION

Authorize the Department of Environmental Services (NHDES) to award a Lead Service Line Inventory Grant to the Town of Newmarket, NH (Vendor Code # 177449 B003) in the amount of \$50,000 to develop and implement a drinking water service line inventory, effective upon Governor and Council approval through March 30, 2024. 100% Federal Funds.

Funding is available in the following account:

03-44-44-441018-5564-072-500574	FY2023
Dept Environmental Services, DWSRF BIL Administration, Grants Federal	\$50,000

EXPLANATION

The Environmental Protection Agency (EPA) published regulatory revisions to the National Primary Drinking Water Regulation (NPDWR) for lead and copper under the authority of the Safe Drinking Water Act (SDWA). These revised requirements provide greater and more effective protection of public health by reducing exposure to lead and copper in drinking water.

NHDES released a solicitation for Lead Service Line Inventory, Sampling Plan and Replacement Plan Grant applications in September of 2022. A total of 24 communities were identified as potential candidates for this grant (see Attachment A for a complete list). Funding for these grants was established from the Bipartisan Infrastructure Law (BIL) funding. The grants are being awarded on a first come, first served basis. The grant amounts were determined by the number of drinking water service connections within the water system. Projects eligible to receive grant funding include in-house or outside services to create lead service line inventories, sampling plans, and replacement plans, digitizing historic records, building inspections, test pits/potholing, and water quality testing.

The Town of Newmarket will use the funding to conduct a complete data mining of their current water service line records to identify lead service lines and to construct a searchable database that will allow the Town to communicate more effectively with their stakeholders. In addition, the Town of Newmarket

will revise their sampling plan and create a replacement plan to address lead service lines within their distribution system.

In the event grant funds become no longer available, general funds will not be requested to support this program. This grant agreement has been approved by the Attorney General's Office as to form, substance, and execution.

We respectfully request your approval of this item.
