REQUESTED ACTION

Authorize the Department of Administrative Services to enter into a **Sole Source** amendment to an existing contract (Contract #8003220) with Northeast Earth Mechanics, LLC (VC#156610), Pittsfield NH, by increasing the price limitation by \$250,000.00 from \$125,000.00 to an amount up to and not to exceed \$375,000.00 for aggregates effective upon Governor and Executive Council approval through April 30, 2026. The original contract (Contract #8003220) was approved by the Commissioner of the Department of Administrative Services on May 17, 2023 and most recently amended with approval of the Commissioner of the Department of Administrative Services on August 23, 2023.

Funding shall be provided through individual agency expenditures, none of which shall be permitted unless there are sufficient appropriated funds to cover the expenditure.

EXPLANATION

This request is **Sole Source** because agency usage is on track to exceed the current price limitation by a factor greater than 10%. The price limitation consumption was discovered during routine reporting conducted by the Bureau of Purchase and Property (BoPP).

As previously stated, this contract (Contract #8003220) was originally approved by the Commissioner of the Department of Administrative Services on May 17, 2023 it was then subsequently amended by the first amendment on August 23, 2023.

Upon approval this contract (Contract #8003220) amendment will allow agencies to purchase aggregate materials including sand/gravel, crushed stone, hardpack, etc. to support the States needs for maintaining roadways and other infrastructure. This requested increase to the price limitation is due to higher than typical agency usage resulting from unexpected weather-related damage. During routine reporting the Department of Administrative Services Bureau of Purchase and Property (BoPP), identified that the price limitation was approaching 50% with more than 4 years remaining in the contract term. Communication with both the Department of Transportation (NHDOT) and the Department of Natural and Cultural Resources (NHDNCR) identified a combined spend stemming from the unprecedented storm

damage was estimated to have been \$1,085,623.54 for FY23 and FY24. There is expected to be a significant need for aggregates during the 2024 construction season and beyond for the heaviest users of these contracts, and not all storm damaged

infrastructure has been repaired to date, as well and in being proactive with more storm occurrences likely moving forward.

The BoPP revised the spend forecast to project future expenditures against this contract (Contract #8003220) for the duration of the current term. It is the BoPP's intention to continue to closely monitor the utilization of this contract (Contract #8003220) to avoid any unforeseen spikes in purchase volume, which will include proactive agency collaboration.

Contract financials	
Current price limitation	\$125,000
For reference: actual spend-to-date	\$71,720
Add this amendment	\$250,000
Requested new price limitation	\$375,000

Based on the foregoing, I am respectfully recommending approval of the **Sole Source** contract amendment with Northeast Earth Mechanics, LLC.

Respectfully submitted,

Charles M. Arlinghaus
Commissioner
