EXPLANATION

The purpose of this request is to seek the approval of ten (10) agreements for a total of \$405,500 to be used to provide payments to State Loan Repayment Program medical, mental health, substance use disorder, and oral health providers. The funds will be applied to the principal and interest of qualifying educational loans for actual cost paid for tuition, reasonable educational expenses, and reasonable living expenses relating to graduate or undergraduate education of a primary health care provider.

The State Loan Repayment Program provides funds to health care providers working in areas of the state designated as being medically underserved. These medically underserved areas identified as Health Professional Shortage Areas, Mental Health Professional Shortage Areas, Dental Health Professional Shortage Areas, Medically Underserved Areas/Populations, and Governor's Exceptional Medically Underserved Populations are indicators that a shortage of health care professionals exists, posing a barrier to access health care services for the residents of these areas. Organizations/facilities that are funded by programs in the Department of Health and Human Services are also considered eligible sites. Private-practice dentists serving in Medicaid-defined priority areas are considered eligible. As one of several approaches to improve access to health care and mental health services, the State Loan Repayment Program has proven to be a successful short and long-term strategy to recruit and retain physicians, dentists, and other health care professionals into New Hampshire's underserved communities. In addition, the health care provider and practicing site that are participating in the State Loan Repayment Program agree to provide direct primary health care services, oral health, behavioral health services, or substance abuse treatment especially for uninsured residents who are residing in our medically underserved areas of New Hampshire. A significant percentage of New Hampshire residents continue to face difficulty accessing primary care, mental, and oral health care services, due to workforce challenges.

The Contractor must be a U.S. citizen, not have any unserved obligations for service to another governmental or non-governmental agency, be New Hampshire licensed or a behavioral health provider under supervision working toward licensure, and ready to begin full-time or part-time clinical practice at the approved site once a contract has been signed. The Contractor must be willing to commit to a minimum service obligation of thirty-six months (full-time employee) or a minimum service obligation of twenty-four months (part-time employee) with the State of New Hampshire to work in a federally designated medically underserved area, a State sponsored oral, mental health, or substance use disorder program with the Department of Health and Human Services, or a Medicaid-defined oral health priority area. A Contractor who has completed their initial service contract obligation with the State Loan Repayment Program may request a contract extension if funding is available.

All of the ten (10) contractors will be working full-time and have committed to a minimum service obligation of 36 months.

Eligible practice sites include community health centers, community mental health centers, substance abuse treatment centers, health care entities that provide primary health care services to underserved populations, federally qualified health centers, and other systems of care that provide a full range of primary and preventive health and medical services.

As referenced in Exhibit A of the attached contracts, the parties have the option to extend the agreements for up to two (2) additional years contingent upon satisfactory delivery of services, available funding, agreement of the parties, and Governor and Council approval.

To assure that the highest need areas receive priority, the Rural Health & Primary Care Section has implemented an in-house scoring process for all State Loan Repayment Program applications. State Loan Repayment Program applications receive weighted points based on the information required in the program guidelines and application. The criteria are based on: community needs; the specialty of the health professional (ability to meet the needs); the percent of the population served using sliding-fee schedules; bad debt/charity care as a percentage of revenue by the facility; the underserved area being served; the type of facility; indebtedness of the applicant; retention or recruitment needs of the facility; language other than English that is significant to the area; and the applicant's commitment to the community. These criteria may change, as workforce needs of the State change.

The State will make the first payment to the Contractors following completion of their first quarter of work, and quarterly thereafter for the duration of the contract. State payments are made directly to the Contractors to repay the principal and interest of any qualifying outstanding graduate or undergraduate educational loans. Before initiating each payment to the Contractors, the Rural Health and Primary Care Section will contact the respective employers to ensure the contract and Memorandum of Agreement requirements are being met.

Each Contractor entering into any State Loan Repayment Program contract agrees to complete a service obligation that runs the length of the contract and remain at the eligible practice site for the term of the contract. Contractors who fail to begin or complete their State Loan Repayment Program obligation or otherwise breach the terms and conditions of the obligations are in default of their contracts and are subject to the financial consequences outlined in their contracts.

To the extent there exists an agreement between the Employer and the Contractor for a matching contribution by the Employer for the benefit of the Contractor, that agreement is solely between the Employer and the Contractor. The Department is not a party to that agreement and is not responsible for the collection, payment, or enforcement of any matching contribution by the Employer for the benefit of the Contractor.

Should the Governor and Council not authorize this request it may have a critical impact on the ability of New Hampshire health care facilities to recruit and retain qualified primary care health professionals to work in the State's Health Professional Shortage Areas. It is well-established that a sizable number of health care professionals carry a heavy debt-burden as they come out of training and are attracted to serving in those areas where a share of that burden can be taken away. This program serves to attract and retain such providers into underserved areas by relieving some of their financial burden that would otherwise make service in such areas less attractive. This shortage of health care workers can impact health care in a variety of ways, including decreasing quality of care, decreasing access to care, increasing stress in the workplace, increasing medical errors, increasing workforce turnover, decreasing retention rates and increasing health care costs.

Areas served: Grafton, Merrimack, Rockingham, and Sullivan Counties.

If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

In no circumstances can a health care provider leave the employing healthcare practice site without prior approval from the Rural Health & Primary Care Section, or s/he will be placed in default and will be considered in breach of contract.

However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.

The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.

The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. 7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

**New Hampshire Department of Health and Human Services

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.

The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and
