03-44-44-444010-7428-073-500581 Dept. Environmental Services, Drinking Water and Groundwater Trust Fund, Grants Non-Federal	\$400,000

EXPLANATION

Glenclyff Improvement Company requested a total of \$900,000 in funding from NHDES for needed water system improvements. NHDES, through the American Rescue Plan Act of 2021 (ARPA), the Drinking Water and Groundwater Trust Fund (DWGTF), and the Water Infrastructure Improvement for the Nation (WIIN) has offered Glenclyff Improvement Company \$900,000 in grant funds.

ARPA is a \$1.9 trillion economic stimulus bill passed by the 117th United States Congress and signed into law by President Biden on March 11, 2021, to speed up the United States' recovery from the economic and health effects of the COVID-19 pandemic and the resultant recession. The Act defines eligible uses of the state and local funding, including responding to public health emergencies, responding to workers performing essential work during the COVID-19 emergency, providing revenue relief to states and making

investments in water, sewer, and broadband infrastructure. This is an allowable use of ARP FRF funds under Section 602 (c)(1)(D) to make necessary investments in water, sewer, or broadband infrastructure.

In accordance with the final rule from the US Treasury Department for water and wastewater infrastructure investments, project eligibility is aligned with the Environmental Protection Agency's Clean Water State Revolving Fund (CWSRF) and Drinking Water State Revolving Fund (DWSRF). This project is an eligible DWSRF infrastructure project. The ARPA grant funds may not exceed \$180,000.

The DWGTF was created in 2016 using \$276 million of MtBE trial judgement funds, as authorized by RSA 485:F. The purpose of the DWGTF is to provide sustainable long-term funding for the protection, preservation, and enhancement of the drinking water and groundwater resources of the state. The Drinking Water and Groundwater Advisory Commission (Advisory Commission) was established to administer the DWGTF and to provide guidance to the State on the use of the DWGTF. On November 14, 2022, the Advisory Commission voted to authorize \$400,000 in grant funds to Glenclyff Improvement Company.

Grant monies have been made available to the NHDES through the WIIN Act, Assistance for Small and Disadvantaged Communities Drinking Water Grant administered by the United States Environmental Protection Agency (USEPA). NHDES proposes to use the funds to assist a select list of small and disadvantaged water systems to provide funding assistance for improvements to their drinking water systems necessary to comply with the Safe Drinking Water Act (SDWA), address water supply capacity issues or respond to a drinking water contaminant. The Glenclyff Improvement Company was identified as meeting eligibility requirements for the subawards to receive \$320,000 in grant funds. Additional eligible recipients will be identified as funding allows.

The project includes the rehabilitation of the existing 1920's pump station and storage tank to address deficiencies with unsealed storage and bacterial contamination. Work will also include upgrades to the outdated electrical systems, replacement of distribution mains, new services, and flushing hydrants. This project will improve reliability and water quality.

In the event that these funds become no longer available, General funds will not be requested to support this project. This agreement has been approved by the Attorney General's Office as to form, substance, and execution.

We respectfully request your approval of this item.
