and the Honorable Council
State House
Concord, New Hampshire 03301

REQUESTED ACTION

Authorize the New Hampshire Department of Environmental Services (NHDES) to amend an American Rescue Plan Act (ARPA) grant (PO# 1091166) to the City of Manchester, NH (VC# 177433-B017) by extending the completion date to July 1, 2025 from July 1, 2024, for the rehabilitation of Dorrs Pond Dam, effective upon Governor and Council approval. No additional funding is involved in this time extension. The original grant was approved by G&C on February 22, 2023, Item #67. This is a no cost extension. 100% federal funds.

EXPLANATION

We are requesting approval of this amendment in order to provide the City of Manchester (the City) additional time to complete the agreed upon scope of services for the rehabilitation of Dorrs Pond Dam. To date, the City has funded the design and permitting phase of the project, which took longer than estimated. The project has received the necessary permits and will be progressing into the ARPA funded, implementation phase. NHDES, the City and its consultant discussed and agreed upon a new completion date of July 1, 2025. This extension will allow the City the necessary time to finish the project and submit the required reports to NHDES.

The project has completed the design and permitting phase, so implementation is the next phase. To date none of the total grant award of \$578,934 has been spent. No general funds have been or will be requested to support this agreement.

We respectfully request your approval.

DATE 22 February 2023

ITEM # 67

REQUESTED ACTION

Authorize the Department of Environmental Services to award a grant to the City of Manchester, NH (VC# 177433-B017) in an amount not to exceed \$578,934 for the rehabilitation of Dorrs Pond Dam, effective upon Governor & Council approval through July 1, 2024. 100% Federal Funds.

Funding is available in the following account:

03-44-44-440010-2657-072-500574

Dept Environmental Services, ARPA DES Dams, Grants Federal
Activity Code: 00FRF602GS4402B

FY 2023
\$578,934

EXPLANATION

NHDES is requesting approval to enter into a grant agreement using American Rescue Plan Act 2021 (ARPA) funds with the City of Manchester. The city will use the grant funding to rehabilitate Dorrs Pond Dam, a dam that is classified as a High Hazard because its failure would likely result in loss of life downstream. The dam is also currently rated in Poor Condition because it does not have sufficient discharge capacity to safely pass the design flood for a High Hazard dam.

ARPA is a \$1.9 trillion economic stimulus bill passed by the 117th United States Congress and signed into law by President Biden on March 11, 2021, to speed up the United States' recovery from the economic and health effects of the COVID-19 pandemic and the resultant recession. The Act defines eligible uses of the state and local funding, including responding to public health emergencies, responding to workers performing essential work during the COVID-19 emergency, providing revenue relief to states and making investments in water, sewer, and broadband infrastructure. This is an allowable use of ARPA FRF funds under Section 602 (c)(1)(D) to make necessary investments in general government services.

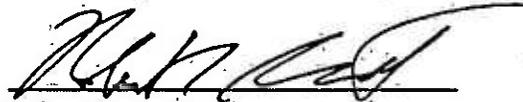

NHDES established a dam rehabilitation/removal grant program for municipally owned High Hazard dams in Poor or Unsatisfactory condition. The goal of the grant program is to assist municipalities in achieving compliance with current state dam safety standards and reduce or eliminate risk to lives and property within inundated areas downstream of those dams. A portion of the grant award may be used

to fund non-construction related activities including, among others, engineering and design, permitting, bidding/construction contract services, and project management and reporting.

NHDES selected awardees for the dam rehabilitation/removal grants from applicants with municipally owned High Hazard dams that are considered to be in Poor or Unsatisfactory condition. Eligible applications, submitted by municipalities, were reviewed and ranked by a NHDES review committee utilizing evaluation criteria that included the downstream population and infrastructure at risk if the dam were to fail, the benefits of the impoundment that would be lost if the dam were to fail, the current condition of the dam, and the ability of the municipality to obligate and expend the grant funds within the deadlines established under ARPA. NHDES intends to fund all nine of the qualifying applications received. See Attachment A for the list of projects.

In the event federal funds become no longer available, general funds will not be requested to support this program. This grant agreement has been approved by the Attorney General's Office as to form, substance, and execution.

We respectfully request your approval of this item.
