His Excellency, Governor Christopher T. Sununu
and the Honorable Council
State House
Concord, New Hampshire 03301

REQUESTED ACTION

Authorize the Department of Environmental Services to amend a grant (PO#1093191) to the Town of Windham, NH (VC# 177507-B003), by extending the completion date to December 1, 2026, from June 1, 2024 to remediate per- and polyfluoroalkyl substances (PFAS). The original grant was approved by Governor and Executive Council on June 28, 2023 Item #196. This is a no cost time extension. 100% General Funds.

EXPLANATION

We are requesting approval of this amendment to provide the Town of Windham additional time to address PFAS exceedances in residential drinking water wells, to include installation and a one-year treatment optimization period for each property addressed. Ongoing sampling as part of the site investigation in this area identified new properties with PFAS exceedances that require the installation of point of entry treatment systems.

NHDES approved grant funding up to \$375,000 for the Town of Windham to finance the installation of point of entry treatment systems to address PFAS contamination originating from the Town's fire department use of aqueous film forming foams. The project includes design, bidding, construction, engineering oversight, the first year of monitoring, and any other associated costs.

To date, \$170,171.50 of the original \$375,000 grant has been spent. This amendment has been approved by the Attorney General's Office as to form, substance, and execution.

We respectfully request your approval of this item.
