His Excellency, Governor Christopher T. Sununu  
and the Honorable Council  
State House  
Concord, New Hampshire 03301

**REQUESTED ACTION**

Authorize the Department of Environmental Services (NHDES) to amend a Lead Service Line Inventory grant (PO# 9005973) to the Rye Water District (VC# 160018 B001), Rye, NH by extending the completion date to December 31, 2024 from June 1, 2024, effective upon Governor and Council approval. The original grant was approved by Governor and Council on June 28, 2023, Item# 187. This is a no cost time amendment. 100% Federal Funds.

**EXPLANATION**

We are requesting approval of this amendment to provide the Rye Water District additional time to complete water system improvements that will meet federal lead service line inventory requirements.

The Rye Water District was awarded a \$40,000 grant to conduct an analysis of their current drinking water service line records to identify lead service lines, to construct a searchable database, revise their sampling plan and create a replacement plan to address any lead service lines within their distribution system. The timeline and deliverables of the Environmental Protection Agency's (EPA) Lead and Copper Rule Revision (LCRR) are being adjusted based on new regulatory updates. For this reason, NHDES requests an extension to the grant deadline and a modification to the scope to reflect EPA's new required deliverables and timelines. To date, \$9,621.91 of the original \$40,000 Lead Service Line grant has been spent.

In the event grant funds become no longer available, general funds will not be requested to support this program. This grant agreement has been approved by the Attorney General's Office as to form, substance, and execution.

We respectfully request your approval of this item.

ITEM # 187

REQUESTED ACTION

Authorize the Department of Environmental Services (NHDES) to award a Lead Service Line Inventory Grant to Rye Water District, Rye, NH (Vendor Code #160018 B001) in the amount of \$40,000 to develop and implement drinking water service line inventories at the Rye Water District, effective upon Governor and Council approval through June 1, 2024. 100% Federal Funds.

Funding is available in the following account:

03-44-44-441018-5564-072-500574  
Dept Environmental Services, DWSRF BIL Administration, Grants Federal

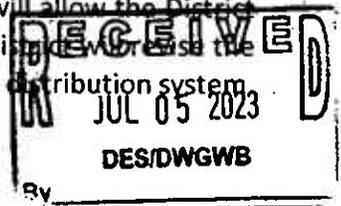

FY2023  
\$40,000

EXPLANATION

The Environmental Protection Agency (EPA) published regulatory revisions to the National Primary Drinking Water Regulation (NPDWR) for lead and copper under the authority of the Safe Drinking Water Act (SDWA). These revised requirements provide greater and more effective protection of public health by reducing exposure to lead and copper in drinking water.

NHDES released a solicitation for Lead Service Line Inventory, Sampling Plan and Replacement Plan Grant applications in September of 2022. A total of 30 communities were identified as potential candidates for this grant (see Attachment A for a complete list). Funding for these grants was established from the Bipartisan Infrastructure Law (BIL) funding. The grants are being awarded on a first come, first served basis. The grant amounts were determined by the number of drinking water service connections within the water system. Projects eligible to receive grant funding include in-house or outside services to create lead service line inventories, sampling plans, and replacement plans, digitizing historic records, building inspections, test pits/potholing, and water quality testing.

Rye Water District will use the funding to conduct a complete data mining of drinking water service line records to identify lead service lines and to construct a searchable database that will allow the District to communicate more effectively with their stakeholders. In addition, Rye Water District will use the sampling plan and a create replacement plan to address lead service lines within the distribution system.

In the event grant funds become no longer available, general funds will not be requested to support this program. The grant agreement has been approved by the Attorney General's Office as to form, substance, and execution.

We respectfully request your approval of this item.

Follow the steps below:**

1. Following a funding offer from NHDES, obtain the authority to accept grant funds and assign an Authorized Representative (AR) from the grantees governing body. This will likely require a vote at a meeting of the governing body. A vote may take place any time prior to execution of the Grant Agreement.
2. Once the Grant Agreement has been received from NHDES, someone other than the AR (who can certify actions taken at the referenced meeting) completes and signs the COV. The AR cannot sign the COV. The COV must be signed and notarized on the same date as, or within 30 days of, when the AR signs the Grant Agreement. The 30-day window applies to either side of the execution date.
