Funding shall be provided through individual agency expenditures, none of which shall be permitted unless there are sufficient appropriated funds to cover the expenditure.

EXPLANATION

The Department of Administrative Services (DAS), through the Bureau of Purchase and Property (BoPP), issued request for bid (RFB) 2861-24 on January 8, 2024, with responses due on March 4, 2024, and RFB 2902-24 on April 4, 2024, with responses due April 17, 2024. These RFB's were issued to replace the expiring contracts covering the janitorial cleaning services for State of NH agencies. RFB 2861-24 reached 79 vendors through the NIGP registry with an additional 18 directly sourced. RFB 2902-24 reached 82 vendors through the NIGP registry with an additional 21 directly sourced. There were 22 compliant responses received with Rudiarius Management Company LLC dba City Wide Facility Solutions providing the lowest cost for nine of the ninety-one locations.

This contract reflects a \$51,766, or 28.82%, annual cost decrease when compared to the currently contracted pricing for the nine locations.

The estimated annual spend is calculated from the pricing provided in the bid response. The price limitation of \$421,964.40 will cover the full term of the contract and includes a 10% allowance for per occurrence services such as floor stripping and waxing.

Contract financials	
Estimated annual spend	\$127,868.00
Estimated 3-year term spend	\$383,604.00
Add allowance for balance of product line (10%)	\$38,360.40
Price limitation	\$421,964.40

Based on the foregoing, I am respectfully recommending approval of the contract with Rudiarius Management Company LLC dba City Wide Facility Solutions.

Respectfully submitted,

Charles M. Arlinghaus
Commissioner

These costs may be for security services performed by State personnel or by third parties on behalf of the State. These costs shall be the actual third-party costs or in the case of State personnel, a cost of fifty (50) dollars an hour.

The Vendor shall establish and implement methods of ensuring that all keys issued to the Vendor by the State are not lost or misplaced and are not used by unauthorized persons. No keys issued to the Vendor by the State shall be duplicated. The Vendor shall report the loss of keys or access cards to the Contracting Officer. In the event keys are lost, the Vendor shall be required, upon direction of the Contracting Officer, to rekey or replace the affected lock or locks; however, the State, at its option, may replace the affected lock or locks or perform rekeying. When the replacement or locks or rekeying is performed by the State, the total cost of rekeying or the replacements of the lock(s) shall be deducted from the monthly payment due to the Vendor. In the event a master key is lost or duplicated, all locks and keys for that system may be replaced by the State and the total cost deducted from the monthly payment due to the Vendor. It is the responsibility of the Vendor to prohibit the use of keys issued by the State by any persons other than the work staff.

The Vendor and its work staff shall report fires, hazardous conditions, and items in need of repair, including but not limited to burnt-out lights, leaking faucets, slow drains, and toilet stoppages.

The movement of furniture to allow accessibility for the performance of cleaning services is entirely the responsibility of the Vendor.

Failure by the Vendor to adhere to the "Definitions of Work and Work Standards" and Location Requirements shall be subject to payment deduction for non-performance.

Definitions of Work and Work Standards:

All work performed under this contract shall be accomplished in accordance with the following definitions. The accompanying standard shall be used in the evaluating the work to determine its acceptance or rejection.

Burnishing (aka Spray Buffing): shall be accomplished with a high-speed buffing machine and a Tampico brush and periodic buffing with a cylindrical floor machine using fine steel wool pads to remove traffic marks, heavy soil, etc.

A floor is considered properly burnished when all waxed or acrylic finished areas have been buffed sufficiently for a maximum gloss, the surface dirt has been removed and the floor has a uniform appearance.

Carpet Cleaning: shall be accomplished by using an approved commercial steam or hot water extractor type machine using a detergent compatible with the type of carpet being cleaned. All furniture must be removed prior to the start of work and replaced when the carpet is dry.

A carpet is considered clean when all soil and embedded dirt and grit have been removed, it is free of all stains and has been restored to its original appearance as wear and tear will allow. Immediately after cleaning, the carpet is only slightly damp to the touch.

Carpet Vacuuming: shall be accomplished with a commercial type vacuum with a rotary brush or brush/beater bar and shall not cause damage to furniture, doors, trim or other objects. Vacuum all chairs using a clean vacuum brush.

A carpet is considered properly vacuumed when it is free of all dust, grit, staples, paper clips, dirt, lint, and debris (except for embedded dirt and grit), including corners, edges, and under furniture.

Ceiling Diffuser Maintenance: shall be accomplished using a detergent solution suitable for the job and compatible with the material being cleaned. Care should be taken not to stain the ceiling.

A ceiling diffuser is considered clean when it is free of dust, dirt, stains, tarnish, streaks, film, lint, cleaning marks, and has a uniform clean appearance.

Check-off List – Facilities may opt to use check off lists to ensure that work is being completed as defined in the requirements for that facility.

Cleaning (e.g. wall, doors, door grills, ledges, metal surfaces, furniture, and cabinets) – shall be accomplished by damp cleaning of all surfaces of the object using a germicidal detergent solution.

A surface is considered properly cleaned when it is free of film, dirt, stains, tarnish streaks, lint, cleaning marks, and has uniform clean appearance. Painted surfaces must not be unduly damaged. Hard finish wainscoting surfaces must be bright, free of oil, streaks, and deposits. Metal surfaces shall be without deposits.

Cleaning (mats) – shall be accomplished when a commercial type vacuum. All mats shall be lifted, and the surfaces beneath shall be clean and free of dirt and dust. All embedded dirt and grit shall be removed. A mat is considered properly cleaned when it is free of all dust, dirt, lint, and debris including embedded dirt and grit including the area under the mat.

Cleaning (Light Fixtures) – shall be accomplished by dusting all accessible components of incandescent, LED, and fluorescent light fixtures including bulbs and tubes with a cloth or yarn duster. Clean fixtures with a damp cloth.

A light fixture shall be considered clean when all dust has been removed from accessible components and the fixtures are clean and free from lint, streaks, and deposits.

Damp Mopping – shall be accomplished using cotton or sponge yarn mops, appropriate stain removal agents, heated water, and detergent. If required using as small amount of water as possible.

A floor is considered properly damp mopped when all dirt, dust, marks, film, streaks, debris, and standing water has been removed.

Dusting – shall be accomplished with a rag or cloth and dusting compound to minimize airborne dust and bacteria.

Floor Refinishing – consists of stripping and waxing (restorative maintenance). It is used to even out the floor appearance. Stripping and waxing should be performed when interim maintenance does not leave floors to an acceptable level. Unacceptable levels will occur as floors show heavy traffic lane wear, heavy soiling, heavy build-up along edges, etc.

Low Level Dusting – dust all low-level ledges, furniture, and fittings to a height of six (6) feet from the floor. Dust telephones in corridors.

Low level dusting is considered properly complete when all dust, dust streaks, cobwebs, lint, litter, and dry soil shall be removed from surfaces of desks, chairs, file cabinets, other types of office furniture, and equipment, ledges, windowsills, handrails to a line of six (6) feet from the floor.

High Level Dusting – dust all high-level areas including furniture, ledges, ceilings, walls, and structural components above six (6) feet from the floor.

High level dusting is considered properly complete when all dust, cobwebs, dust streaks, lint, litter, and dry soil shall be removed from surfaces of ledges, furniture, ceilings, walls, and structural components to a line above six (6) feet from the floor.

Machine Scrubbing/Floor Recoating – is used to even out the floor appearance by removing top layers of finish and recoating to build the base finish. Scrub and recoating should be performed when preventative maintenance does not leave floors to an acceptable level. Unacceptable levels will occur as floors show slight traffic lane wear, scratches, soil, etc.

Receptacle Emptying – includes all trash receptacles including sanitary disposal containers. Trash liner replacement is included as required.

Resilient Flooring – is designed to be durable, resistant to stains and water, and comfortable to stand and work on. The most common types of resilient flooring are made from materials like vinyl, linoleum, and rubber.

Routine maintenance (daily/weekly as needed), sweep/vacuum floors regularly to remove loose dirt, sand dust. Prevent stains by wiping spills promptly.

Stripping a Resilient Tile Floor:

1. Walk through area noting problem spots; remove all sticky insoluble substances such as gum.
2. Dust mop the floor to remove any loose soils, paper clips, sand, dust, foreign objects, etc.
3. Strip the base boards and corners using wax stripper and scrub brush.
4. Strip floors, small areas at a time using "floor strippers" according to label directions.
5. Using stripping pads (or equivalent), agitate the area.
6. Remove the stripper using a wet/dry vacuum or mop and bucket with clean water.
7. Flood rinse the area with cool, clean water.
8. Pick up excess water and using a wet/dry vacuum or mop and bucket.
9. A second rinse may be needed.
10. Place caution signs around area until it is completely dry.

Building a Shine on a VCT Resilient Tile Floor:

1. Check floor, making sure that it is totally dry and free of any old finish or stripper residue.

- a) If there is a whitish cast, this could indicate stripper or old finish still remains on the floor. If necessary, re-strip the floor.
2. Floor temperature should be above 54 degrees F for proper curing of finish.
 3. Select and apply the proper floor finish.
 4. Allow floor finish to dry completely.
 5. Apply the proper number of coats of finish per manufacturer's recommendation.

Grout/Quarry/Ceramic Tile Maintenance – Remove soil with broom or non-oily dust mop or vacuum, damp mop or spot clean as necessary using pH-neutral cleaner.

Rinse clean area with clean warm water and allow to dry.

Stubborn stains – fiber or nylon scrubbing pads may assist in removing difficult stains (**do not use steel wool**).

Routine grout maintenance does not differ from tile care. (Note: for stubborn grout stains agitation with a nylon pad or brush and a recommended cleaning solution will assist in removing of stains).

For added protection of cement-based grout, a sealer may be applied according to the manufacturer's instructions. If unsure whether your specific tile requires sealing, stripping, and resealing, contact the tile supplier.

Rubber Tile/Rolled Rubber Floors –

For lightly soiled surfaces:

1. Remove all surface debris, grit, sand, and soil with a broom.
2. Vacuum the entire rubber floor with a high CFM vacuum to assure the finer dirt and grit is removed. **Note:** never use mineral spirits, painter thinners or strippers or any petroleum products to clean the surface.
3. Mop the floor. A regular string mop or a microfiber flat mop with a mild solution of a neutral pH (7-9) cleaner can be used. Taski Profi cleaner or equivalent is an excellent choice for rubber but any neutral clean will work.
4. Damp mop (**ONLY** do not flood) the surface until you have removed all visible dirt, sand, and grim.

For heavily soiled surfaces:

1. Remove all surface debris, grit, sand, and soil with a broom and vacuum with a high CFM vacuum. If the rubber floor is especially dirty it may be necessary to hand mop some of the worst areas before beginning.
2. Depending on the amount of soiling, it may be necessary to clean the surface using only a hand mop or it may require using a power buffer or auto scrubber.
3. When using a buffer or auto scrubber, use only a mild pad or a soft nylon brush. If using a buffer, wet the area and buff only a workable area that can be completely buffed and vacuumed within fifteen (15) minutes.
4. Do not let the cleaning solution stand on the rubber floor for longer periods of time.
5. After the area has been thoroughly buffed, pick-up the solution with a wet/dry vacuum and repeat if necessary. For extremely heavy soils or for restorative cleaning it may be necessary to repeat the process with a more aggressive black pad in order to remove the dirt.
6. Once the surface is satisfactorily cleaned, rinse the surface with clean water. This can be done with a hand mop or an auto scrubber.

PUBLIC DISCLOSURE OF BID OR PROPOSAL SUBMISSIONS:

Generally, the full contents of any proposal (including all materials submitted in connection with it, such as attachments, exhibits, addenda, and vendor presentations) become public information upon completion of final contract or purchase order negotiations with the selected vendor. Certain information concerning proposals, including but not limited to scoring, is generally available to the public even before this time, in accordance with the provisions of NH RSA 21-G:37.

Confidential, commercial or financial information may be exempt from public disclosure under RSA 91-A:5, IV. Any and all information contained in or connected to a bid or proposal that a Bidder considers confidential shall be clearly designated in the following manner:

If the Bidder considers any portion of a submission confidential, they shall provide a separate copy of the full and complete document, fully redacting those portions by blacking them out and shall note on the applicable page or pages of the document that the redacted portion or portions are "confidential." Use of any other term or method, such as stating that a document or portion thereof is "proprietary", "not for public use", or "for client's use only", is not acceptable. In addition to providing an additional fully redacted copy of the bid submission to the person listed as the point of contact on Page one (1) of this document, the identified information

considered to be confidential must be accompanied by a separate letter stating the rationale for each item designated as confidential. Marking an entire bid, proposal, attachment or full sections thereof confidential without taking into consideration the public's right to know shall neither be accepted nor honored by the State.

Notwithstanding any provision of this request for submission to the contrary, proposed pricing shall be subject to public disclosure REGARDLESS of whether or not marked as confidential.

If a request is made to the State by any person or entity to view or receive copies of any portion of a proposal, the State will assess what information it believes is subject to release; notify the Bidder that the request has been made; indicate what, if any, portions of the proposal or related material shall be released; and notify the Bidder of the date it plans to release the materials. To halt the release of information by the State, a Bidder must initiate and provide to the State, prior to the date specified in the notice, a court action in the Superior Court of the State of New Hampshire, at its sole expense, seeking to enjoin the release of the requested information.

By submitting a proposal, Bidders acknowledge and agree that:

- The State may disclose any and all portions of the proposal or related materials which are not marked as confidential and/or which have not been specifically explained in the letter to the person identified as the point of contact for this RFP;
- The State is not obligated to comply with a Bidder's designations regarding confidentiality and must conduct an independent analysis to assess the confidentiality of the information submitted in your proposal; and

Routine maintenance (daily/weekly as needed), sweep/vacuum floors regularly to remove loose dirt, sand dust. Prevent stains by wiping spills promptly.

Stripping a Resilient Tile Floor:

1. Walk through area noting problem spots; remove all sticky insoluble substances such as gum.
2. Dust mop the floor to remove any loose soils, paper clips, sand, dust, foreign objects, etc.
3. Strip the base boards and corners using wax stripper and scrub brush.
4. Strip floors, small areas at a time using "floor strippers" according to label directions.
5. Using stripping pads (or equivalent), agitate the area.
6. Remove the stripper using a wet/dry vacuum or mop and bucket with clean water.

9. A second rinse may be needed.
10. Place caution signs around area until it is completely dry.

Building a Shine on a VCT Resilient Tile Floor:

 - a) If there is a whitish cast, this could indicate stripper or old finish still remains on the floor. If necessary, re-strip the floor.
2. Floor temperature should be above 54 degrees F for proper curing of finish.
3. Select and apply the proper floor finish.
4. Allow floor finish to dry completely.
5. Apply the proper number of coats of finish per manufacturer's recommendation.

Rinse clean area with clean warm water and allow to dry.

Stubborn stains – fiber or nylon scrubbing pads may assist in removing difficult stains (**do not use steel wool**).

Routine grout maintenance does not differ from tile care. (Note: for stubborn grout stains agitation with a nylon pad or brush and a recommended cleaning solution will assist in removing of stains).

For added protection of cement-based grout, a sealer may be applied according to the manufacturer's instructions. If unsure whether your specific tile requires sealing, stripping, and resealing, contact the tile supplier.

Rubber Tile/Rolled Rubber Floors –

For lightly soiled surfaces:

1. Remove all surface debris, grit, sand, and soil with a broom.
2. Vacuum the entire rubber floor with a high CFM vacuum to assure the finer dirt and grit is removed. **Note:** never use mineral spirits, painter thinners or strippers or any petroleum products to clean the surface.
3. Mop the floor. A regular string mop or a microfiber flat mop with a mild solution of a neutral pH (7-9) cleaner can be used. Taski Profi cleaner or equivalent is an excellent choice for rubber but any neutral clean will work.
4. Damp mop (**ONLY do not flood**) the surface until you have removed all visible dirt, sand, and grim.

For heavily soiled surfaces:

1. Remove all surface debris, grit, sand, and soil with a broom and vacuum with a high CFM vacuum. If the rubber floor is especially dirty it may be necessary to hand mop some of the worst areas before beginning.
2. Depending on the amount of soiling, it may be necessary to clean the surface using only a hand mop or it may require using a power buffer or auto scrubber.
3. When using a buffer or auto scrubber, use only a mild pad or a soft nylon brush. If using a buffer, wet the area and buff only a workable area that can be completely buffed and vacuumed within fifteen (15) minutes.
4. Do not let the cleaning solution stand on the rubber floor for longer periods of time.
5. After the area has been thoroughly buffed, pick-up the solution with a wet/dry vacuum and repeat if necessary. For extremely heavy soils or for restorative cleaning it may be necessary to repeat the process with a more aggressive black pad in order to remove the dirt.
6. Once the surface is satisfactorily cleaned, rinse the surface with clean water. This can be done with a hand mop or an auto scrubber.

3.2 If the Contractor commences the Services prior to the Effective Date, all Services performed by the Contractor prior to the Effective Date shall be performed at the sole risk of the Contractor, and in the event that this Agreement does not become effective, the State shall have no liability to the Contractor, including without limitation, any obligation to pay the Contractor for any costs incurred or Services performed.

4. CONDITIONAL NATURE OF AGREEMENT. Notwithstanding any provision of this Agreement to the contrary, all obligations of the State hereunder, including, without limitation, the continuance of payments hereunder, are contingent upon the availability and continued appropriation of funds. In no event shall the State be liable for any payments hereunder in excess of such available appropriated funds. In the event of a reduction or termination of appropriated funds by any state or federal legislative or executive action that reduces, eliminates or otherwise modifies the appropriation or availability of funding for this Agreement and the Scope for Services provided in EXHIBIT B, in whole or in part, the State shall have the right to withhold payment until such funds become available, if ever, and shall have the right to reduce or terminate the Services under this Agreement immediately upon giving the Contractor notice of such reduction or termination. The State shall not be required to transfer funds from any other account or source to the Account identified in block 1.6 in the event funds in that Account are reduced or unavailable.

5. CONTRACT PRICE/PRICE LIMITATION/ PAYMENT.

5.1 The contract price, method of payment, and terms of payment are identified and more particularly described in EXHIBIT C which is incorporated herein by reference.

5.2 Notwithstanding any provision in this Agreement to the contrary, and notwithstanding unexpected circumstances, in no event shall the total of all payments authorized, or actually made hereunder, exceed the Price Limitation set forth in block 1.8. The payment by the State of the contract price shall be the only and the complete reimbursement to the Contractor for all expenses, of whatever nature incurred by the Contractor in the performance hereof, and shall be the only and the complete compensation to the Contractor for the Services.

5.3 The State reserves the right to offset from any amounts otherwise payable to the Contractor under this Agreement those liquidated amounts required or permitted by N.H. RSA 80:7 through RSA 80:7-c or any other provision of law.

5.4 The State's liability under this Agreement shall be limited to monetary damages not to exceed the total fees paid. The Contractor agrees that it has an adequate remedy at law for any breach of this Agreement by the State and hereby waives any right to specific performance or other equitable remedies against the State.

6. COMPLIANCE BY CONTRACTOR WITH LAWS AND REGULATIONS/EQUAL EMPLOYMENT OPPORTUNITY.

6.1 In connection with the performance of the Services, the Contractor shall comply with all applicable statutes, laws, regulations, and orders of federal, state, county or municipal authorities which impose any obligation or duty upon the Contractor, including, but not limited to, civil rights and equal employment opportunity laws and the Governor's order on Respect and Civility in the Workplace, Executive order 2020-01. In addition, if this Agreement is funded in any part by monies of the United States, the Contractor shall comply with all federal executive orders, rules, regulations and statutes, and with any rules, regulations and guidelines as the State or the United States issue to implement these regulations. The Contractor shall also comply with all applicable intellectual property laws.

6.2 During the term of this Agreement, the Contractor shall not discriminate against employees or applicants for employment because of age, sex, sexual orientation, race, color, marital status, physical or mental disability, religious creed, national origin, gender identity, or gender expression, and will take affirmative action to prevent such discrimination, unless exempt by state or federal law. The Contractor shall ensure any subcontractors comply with these nondiscrimination requirements.

6.3 No payments or transfers of value by Contractor or its representatives in connection with this Agreement have or shall be made which have the purpose or effect of public or commercial bribery, or acceptance of or acquiescence in extortion, kickbacks, or other unlawful or improper means of obtaining business.

8. EVENT OF DEFAULT/REMEDIES. 8.1 Any one or more of the following acts or omissions of the Contractor shall constitute an event of default hereunder ("Event of Default"):

8.1.1 failure to perform the Services satisfactorily or on schedule;

8.1.2 failure to submit any report required hereunder; and/or

8.1.3 failure to perform any other covenant, term or condition of this Agreement.

8.2.2 give the Contractor a written notice specifying the Event of Default and suspending all payments to be made under this Agreement and ordering that the portion of the contract price which would otherwise accrue to the Contractor during the period from the date of such notice until such time as the State determines that the Contractor has cured the Event of Default shall never be paid to the Contractor;

8.2.3 give the Contractor a written notice specifying the Event of Default and set off against any other obligations the State may owe to the Contractor any damages the State suffers by reason of any Event of Default; and/or

8.2.4 give the Contractor a written notice specifying the Event of Default, treat the Agreement as breached, terminate the Agreement and pursue any of its remedies at law or in equity, or both.

9. TERMINATION. 9.1 Notwithstanding paragraph 8, the State may, at its sole discretion, terminate the Agreement for any reason, in whole or in part, by thirty (30) calendar days written notice to the Contractor that the State is exercising its option to terminate the Agreement.

9.2 In the event of an early termination of this Agreement for any reason other than the completion of the Services, the Contractor shall, at the State's discretion, deliver to the Contracting Officer, not later than fifteen (15) calendar days after the date of termination, a report ("Termination Report") describing in detail all Services performed, and the contract price earned, to and including the date of termination. 10.2 All data and any Property which has been received from the State, or purchased with funds provided for that purpose under this Agreement, shall be the property of the State, and shall be returned to the State upon demand or upon termination of this Agreement for any reason.

10.3 Disclosure of data, information and other records shall be governed by N.H. RSA chapter 91-A and/or other applicable law. Disclosure requires prior written approval of the State.

11. CONTRACTOR'S RELATION TO THE STATE. In the performance of this Agreement the Contractor is in all respects an independent contractor, and is neither an agent nor an employee of the State. Neither the Contractor nor any of its officers, employees, agents or members shall have authority to bind the State or receive any benefits, workers' compensation or other emoluments provided by the State to its employees.

12. ASSIGNMENT/DELEGATION/SUBCONTRACTS. 12.1 Contractor shall provide the State written notice at least fifteen (15) calendar days before any proposed assignment, delegation, or other transfer of any interest in this Agreement. No such assignment, delegation, or other transfer shall be effective without the written consent of the State.

12.2 For purposes of paragraph 12, a Change of Control shall constitute assignment. "Change of Control" means (a) merger, consolidation, or a transaction or series of related transactions in which a third party, together with its affiliates, becomes the direct or indirect owner of fifty percent (50%) or more of the voting shares or similar equity interests, or combined voting power of the Contractor, or (b) the sale of all or substantially all of the assets of the Contractor.

12.3 None of the Services shall be subcontracted by the Contractor without prior written notice and consent of the State.

12.4 The State is entitled to copies of all subcontracts and assignment agreements and shall not be bound by any provisions contained in a subcontract or an assignment agreement to which it is not a party.

13. INDEMNIFICATION. The Contractor shall indemnify, defend, and hold harmless the State, its officers, and employees from and against all actions, claims, damages, demands, judgments, fines, liabilities, losses, and other expenses, including, without limitation, reasonable attorneys' fees, arising out of or relating to this Agreement directly or indirectly arising from death, personal injury, property damage, intellectual property infringement, or other claims asserted against the State, its officers, or employees caused by the acts or omissions of negligence, reckless or willful misconduct, or fraud by the Contractor, its employees, agents, or subcontractors. The State shall not be liable for any costs incurred by the Contractor arising under this paragraph 13. Notwithstanding the foregoing, nothing herein contained shall be deemed to constitute a waiver of the State's sovereign immunity, which immunity is hereby reserved to the State. This covenant in paragraph 13 shall survive the termination of this Agreement.

14. INSURANCE. 14.1 The Contractor shall, at its sole expense, obtain and continuously maintain in force, and shall require any subcontractor or assignee to obtain and maintain in force, the following insurance:

14.1.1 commercial general liability insurance against all claims of bodily injury, death or property damage, in amounts of not less than \$1,000,000 per occurrence and \$2,000,000 aggregate or excess; and

RSA chapter 281-A and any applicable renewal(s) thereof, which shall be attached and are incorporated herein by reference. The State shall not be responsible for payment of any Workers' Compensation premiums or for any other claim or benefit for Contractor, or any subcontractor or employee of Contractor, which might arise under applicable State of New Hampshire Workers' Compensation laws in connection with the performance of the Services under this Agreement.

16. WAIVER OF BREACH. A State's failure to enforce its rights with respect to any single or continuing breach of this Agreement shall not act as a waiver of the right of the State to later enforce any such rights or to enforce any other or any subsequent breach.

17. NOTICE. Any notice by a party hereto to the other party shall be deemed to have been duly delivered or given at the time of mailing by certified mail, postage prepaid, in a United States Post Office addressed to the parties at the addresses given in blocks 1.2 and 1.4, herein.

19.2 Any actions arising out of this Agreement, including the breach or alleged breach thereof, may not be submitted to binding arbitration, but must, instead, be brought and maintained in the Merrimack County Superior Court of New Hampshire which shall have exclusive jurisdiction thereof.

20. CONFLICTING TERMS. In the event of a conflict between the terms of this P-37 form (as modified in EXHIBIT A) and any

other portion of this Agreement including any attachments thereto, the terms of the P-37 (as modified in EXHIBIT A) shall control.

21. THIRD PARTIES. This Agreement is being entered into for the sole benefit of the parties hereto, and nothing herein, express or implied, is intended to or will confer any legal or equitable right, benefit, or remedy of any nature upon any other person.

26. ENTIRE AGREEMENT. This Agreement, which may be executed in a number of counterparts, each of which shall be deemed an original, constitutes the entire agreement and understanding between the parties, and supersedes all prior agreements and understandings with respect to the subject matter hereof.
