REQUESTED ACTION

Authorize the Department of Administrative Services to enter into a **Sole Source** amendment to an existing contract (Contract #8003413) with Affinity Global Solutions, LLC (VC #209648), Bismark, ND for consulting and technical services by increasing the price limitation by \$170,000 from \$80,000 in an amount up to and not to exceed \$250,000 and by extending the completion date from September 30, 2024 to September 30, 2025 effective upon Governor and Executive Council approval. The original contract was approved by Governor and Executive Council on February 21, 2024, item #181. 100% General Funds.

EXPLANATION

This amendment is **Sole Source** because the requested increase to the current limitation exceeds 10% of the original contract price limitation amount.

As previously stated, the original contract was approved by the Governor and Executive Council on February 21, 2024, item #181.

The Department of Administrative Services is requesting to enter into a **Sole Source** amendment with Affinity Global Solutions (AGS). AGS is the software developer of the State's current Budget and Reporting System (BARS) which is used to develop the State's biennial budget in accordance with RSA 9 as well as to process daily appropriation changes administered through the Bureau of Accounting Services. AGS's software is propriety and software modifications to BARS is needed to accommodate changes to the State's personnel classification system as well as to improve efficiencies in system readiness for the budget. Only AGS can make the needed modifications. The modifications will allow the State's Budget Office to properly project payroll and benefits for the upcoming FY2026-FY2027 biennium as well as to ensure continuity with the Department's upgrade of its enterprise resource planning (ERP) system to CloudSuite. The original contract is sole source because only AGS, as the software publisher, can provide the services necessary to ensure continued system functionality and to develop software application modifications and functionality enhancements required due to

changes in the State's employee classification system and other needed modification to accommodate the conversion to CloudSuite.

Under the original contract and this amendment, AGS will provide services to modify the budgeting system to accurately and efficiently calculate payroll and benefit projections by position for use in budget preparation for the FY2026-2027 biennial operating budget, including, but not limited to: changes to software, coding, architecture, inbound and outbound loads and interfaces, staging tables, and reporting. The primary focus will be on modifications necessary as a result of the changes to the State's employee classification system and Collective Bargaining Agreements. The following categorical changes are anticipated: job codes, pay schedules, pay progression, and in-band advancements. Other enhancements are expected to include modifications to allow for budget interfaces, allowing for a streamlined data keying experience.

The amendment takes into consideration further modifications to allow for continuity as the State moves to implement Infor, LLC's CloudSuite Enterprise Resource Planning (ERP) system. The implementation from an on-premise server environment to a system management that will be hosted offsite will allow the State to take advantage of technology advancements. As the budgeting system is not a module within the CloudSuite product line, the State will need to ensure that the State's enacted budget can be interfaced with the financial system of the ERP and needed reports from the budget system are available to Agency and Legislative users of the budgeting system.

Based on the foregoing, I am respectfully recommending approval of the **Sole Source** amendment with Affinity Global Solutions, LLC.

Respectfully submitted,

Charles M. Arlinghaus

FIRST AMENDMENT TO THE CONTRACT BETWEEN
AFFINITY GLOBAL SOLUTIONS, LLC
AND
THE STATE OF NEW HAMPSHIRE,
DEPARTMENT OF ADMINISTRATIVE SERVICES,
FOR CONSULTING AND TECHNICAL SERVICES
CONTRACT # 8003413

This First Amendment (hereinafter referred to as the "Amendment"), dated this 17 day of May, 2024, is by and between the State of New Hampshire, Department of Administrative Services (hereinafter referred to as "the State") and Affinity Global Solutions, LLC (hereinafter referred to as "the Contractor") for consulting and technical services.

WHEREAS, pursuant to an agreement effective February 21, 2024 (G&C Item #181) set to expire September 30, 2024, (hereinafter referred to as "the Agreement"), the Contractor agreed to perform certain consulting and technical services for the State in consideration of payment by the State of certain sums as specified therein; and

WHEREAS, pursuant to Section 18 of the Agreement, the Agreement may be amended by an instrument in writing executed by both parties;

NOW, THEREFORE, for and in consideration of the mutual promises set forth in this Amendment and the underlying Agreement, the parties do mutually agree as follows:

1. Delete in its entirety Form Number P-37, item 1.7 Completion Date and substitute the following:

1.7 September 30, 2025

2. Delete in its entirety Form Number P-37, item 1.8 Price Limitation and substitute the following:

1.8 \$250,000.00

3. Exhibit A (Special Provisions) is deleted in its entirety and replaced with the following:

The Contract shall be effective retroactively to February 1, 2024, upon approval by the Governor and Executive Council through September 30, 2025.

4. Modify Exhibit B, Scope of Services, Paragraph 3.3, to add:

H. Integration with INFOR Cloudsuite. In May 2023, the Department entered into a contract with Infor (US) to move to its software as a service Cloudsuite, a shared-tenant enterprise resource planning system. The Cloudsuite system does not have a budgeting module; therefore, it is important to ensure that our current budgeting software integrates with Cloudsuite when the system goes live. Tasks related to the State's transition to the Cloudsuite system include:

- Chart of Accounts: ensure that chart of account changes are compatible with BARS to ensure interfaces and uploads are accurate and seamless.
- Daily Interfaces: it is currently unknown whether on-going appropriation changes after the enacted budget is loaded into Cloudsuite will originate in BARS or Cloudsuite. If the changes originate in BARS, the Contractor will work with the Department to ensure that daily interfaces between BARS and Cloudsuite produce the intended results. At a minimum, the State will require a functional budget interface, as well as an interface which exports unrestricted revenue estimates from BARS.
- Reports: Although the budget software can be used to produce the majority of the Agency Phase budget reports, all Governor Phase and Legislative Phase reports are currently accessed via the current Infor ERP product. The Contractor shall review options available to the State including making the reports available within BARS or developing a portal that will allow the State Budget Office and the Legislative Budget Assistant's Office to run necessary reports.
- Triggers: inventory, review and rewrite any triggers or mechanisms that will keep Cloudsuite and BARS in synch.

- Review and rewrite all files and/or interfaces from Clouduite to BARS that are used in preparing BARS for a new upcoming biennium; including Prior Biennial Year 1 actuals, Prior Biennial Year 2 adjusted authorized, new accounting units, etc:

I. Uploads: The State has identified several uploads that have the potential to save hours of rekeying into BARS. AGS and the State will explore and implement the following uploads:

- **Change Package Uploads:** The Contractor shall work with the State to develop a change package upload. For instance, the State of New Hampshire creates a new change package for new positions. The upload would allow for associated costs of the new position, typically keyed in the Budget Request Summary, to be uploaded and attached to the change package used within the Position Module.
- **Budget Request Summary Upload:** Enhance the current upload used by the Division of Accounting Services to make it more user friendly.
- **Position Upload:** Uploads to add/update position module data (for payroll costs including Class 017 – Special Payment; Class 018 – Overtime; Class 019 – Holiday; Class 050 – Part time; and Class 059 (Full time temporary) to include associated funding.

J. Benefits logic for vacant positions: Modify AGS position data upload process to better assign default benefits for vacant positions, or consider providing the benefits for vacant positions (as the State does now for filled positions).

K. Position Data Detail Module: Modify the position data detail module to ensure that rounding of pennies is managed within the Expense Class for the Accounting Unit.

L. Documentation: the Contractor shall produce and validate budget materials and publications; and support agency staff in the use of BARS.

M. Single sign-on. Assist with changing the logon process for BARS, so that it will automatically use standard state logon credentials.

N. In addition to the services described in the Contract, Contractor shall provide the State the following additional services: 1) migrate patches/fixes from the development environment to the test/production environments; 2) system changes, reports and any additional services requested not subject to the paragraphs listed above in Section 3.3.

5. Amend Exhibit C, Contract Price: Change to the following: \$250,000.00.
6. All other provisions of the Agreement, approved by the Governor and Executive Council on February 21, 2024, shall remain in full force and effect. This amendment shall be effective upon Governor and Executive Council approval.

REQUESTED ACTION

Authorize the Department of Administrative Services to enter into a **Retroactive Sole Source** contract with Affinity Global Solutions, LLC (AGS) (Vendor code 209648), Bismarck, ND in the amount up to and not to exceed \$80,000 for consulting and technical services to modify the State's Budgeting and Reporting System, with the option to renew for an additional one-year period, effective February 1, 2024 upon Governor and Council approval through September 30, 2024.

Funds are available in account Commissioner-Administration as follows:

	<u>FY2024</u>
01-14-14-140010-10420000-103-502664-Contracts for Operations Services	\$80,000

EXPLANATION

The Department of Administrative Services is requesting to enter into a **Retroactive Sole Source** contract with AGS. AGS is the software developer of the State's current Budget and Reporting System (BARS) which is used to develop the State's biennial budget in accordance with RSA 9 as well as to process daily appropriation changes administered through the Division of Accounting Services. AGS's software is propriety and software modifications to BARS is needed to accommodate changes to the State's personnel classification system as well as to improve efficiencies in system readiness for the budget. Only AGS can make the needed modifications. The modifications will allow the State's Budget Office to properly project payroll and benefits for the upcoming FY2026-FY2027 biennium. This contract is sole source because only AGS, as the software publisher, can provide the services necessary to ensure continued system functionality and to develop software application modifications and functionality enhancements required due to changes in the State's employee classification system and other enhancements to improve efficiencies. This request is **Retroactive** to ensure that AGS can start the technical analysis and software modifications to meet the statutory deadlines for the budget in RSA 9.

The Department wants to ensure that we have sufficient time to test the changes prior to opening the budget for agencies in August.

In 2009, the State completed Phase I of the NH FIRST project which replaced the State's budgeting system. This system has been used to prepare 8 biennial budgets since its implementation. The system has withstood the test of time. AGS has modified BARS slightly over the years to incorporate various changes to the budget law, and changes resulting from Collective Bargaining Agreements. Under this contract, AGS will provide services to modify the budgeting system to accurately and efficiently calculate payroll and benefit projections by position for use in budget preparation for the FY2026-2027 biennial operating budget, including, but not limited to: changes to software, coding, architecture, inbound and outbound loads and interfaces, staging tables, and reporting. The primary focus will be on modifications necessary as a result of the changes to the State's employee classification system and Collective Bargaining Agreements. The following categorical changes are anticipated: job codes, pay schedules, pay progression, and in-band advancements. Other enhancements are expected to include modifications to allow for budget interfaces, allowing for a streamlined data keying experience.

This contract is the only viable option to make modifications to the budgeting system to ensure accurate payroll and benefits projections as well as improve efficiencies for system readiness. Your consideration of this request is greatly appreciated.

APPENDIX A – ADDITIONAL INFORMATION ON MODIFICATION CATEGORIES

The State has conducted a preliminary review of the changes anticipated to BARS and has noted those changes in the appendix herein. It is not intended to detail the scope or tasks required of the Contractor, but rather provide additional information to the Contractor.

A. JOB CODE CHANGES:

Currently, the Budget and Reporting System (BARS) has only 6 characters for Job Code, however the State has made changes to the code and they vary to 8-9 characters. An update to allow a minimum of 9 characters in length is needed. The State's preliminary analysis anticipates the following would be impacted:

- Positions load staging tables and associated interfaces.
- Based production tables storing these codes in a column.
- Stored procedure used by the interface (Run GHRS Interface) to load the position information.
- Any reports such as the custom report DtProj impacted by this change.
- Additional Information about the objects associated with this change is in the Appendices.
 - Appendix 1 provides an overview of the current data extracted for load into the budget system and the potential changes.
 - Appendix 2 provides an overview of the position load and BARS standard tables, as well as other dependencies for these tables.
 - Adjust position import processes to account for the longer job code.
 - Any associated reporting impacted by the longer code.
 - Internal programming logic

B. PAY SCHEDULE—changes to existing pay schedules including changes in format, terminology for advancement between “steps”, and an increase in the number of different pay schedules.

STEPS: Currently BARS has only needed to utilize 1 character for each step but an increase to 12 steps would mean usage of two characters. The application supports 20 steps and load table and the POS_INFO table supports a 2-character step value.

PROGRESSIONS: Step progressions will be changed for all positions. Timing of yearly step advancement intervals will change for these positions and requesting AGS modify the stored procedure to accommodate positions under new design, 1 year 1-7, 2 years 8-11. Some positions based on union affiliation will at this point remain under the existing rules, and a contingency to handle will be needed. It may be possible to handle based on the salary schedule presented as these positions will continue to use existing schedules. All classified positions will have new wage scales.

C. IN-BAND ADVANCEMENTS (IBA)— This is new concept effective for FY24 impacting classified employees. Under certain conditions an employee can receive a salary and progression at a different rate than the prescribed pay schedule for that position. Consideration should be given to determine if an available date field could be utilized with a date to override the standard advancement rules for year two in loading positions.

D. LONGEVITY—the longevity benefit is applied differently by position types. Currently in BARS, the stored procedure for loading positions, called by the “Run GHRS Interface” only allows one Longevity assignment of one type “LONG” which is the longevity code for Classified Employees (POS_TYPE_CD=10). Initially, this may have been used for all positions but now there is a

separate benefit for Unclassified Employees (LONGEVITY UNCLSSFD) and a benefit code LNxx (where xx is 11-15 based on the POS_TYPE_CD of the position being loaded). This may require the position load procedure to handle choosing the proper longevity benefit and subsequent code based on position type.

E. UNION– ability to assign a union affiliation by position in order to accurately account for pay and benefits that are awarded to selective unions. Currently, in the BARS system there is no direct method of tracking a position's union affiliation. In the past, this did not impact how positions were mapped to pay and benefits. Effective for FY24, pay schedules and associated benefits have multiple positions and unions crossing schedules and a one for one relationship that the current system relied upon is no longer valid. As such, BARS needs to have the ability to load the position's union affiliation.

F. BUDGET COLUMN INTERFACES – the current budget column export and load interfaces do not support the needs of the State of New Hampshire because of its reporting level format and no consideration for expense class to funding account usage. It may require the modification to these interfaces or create new versions, which functions similar to the "Load Chg PKG Column" interface AGS was contracted to provide several years ago. The ability to export and load a column to the budget request sub schedule without requiring a change package will have significant benefits during budget development.

Covered Entity shall be considered a direct third party beneficiary of Business Associate's corresponding business associate agreements with any of its contracted business associates, who will be receiving PHI pursuant to this Agreement, with rights of enforcement and indemnification from such business associates.
