REQUESTED ACTION

The Department of Transportation, Bureau of Right-of-Way, requests authorization to enter into a **retroactive sole source** agreement with Maine Technical Source, Inc., Yarmouth, Maine (Vendor code 153116), in the amount of \$20,848.36 for the purpose of purchasing peripheral equipment, accessories, and supplies for the total station robotic survey instrument, a Global Navigation Satellite System (GNSS) unit, and the data collectors. The use of these units provides the real-time collection of GNSS data based on the NSRS (National Spatial Reference System) and the NH SPCS (NH State Plane Coordinate System). This agreement is effective upon Governor & Council approval through June 30, 2024. Funding is 100% Highway Funds.

Funding is available based on the following:

FY 2024

04-096-096-962015-3028	
Bureau of Right-of-Way	
030-500307 Engineering and Survey Equipment	\$14,424.35
020-500200 Current Expenses	\$ 1,744.01
038-500177 Technology – Software	<u>\$ 4,680.00</u>
	\$20,848.36

EXPLANATION

The request is **sole source** because Maine Technical Source, Inc. is the only authorized distributor for Leica Geosystems' high-end surveying segment consisting of GNSS, robotic surveying instruments, related field and office software, firmware and customer care plans to serve Connecticut, Maine, Massachusetts, New Hampshire, New York, Rhode Island, and Vermont.

The request is **retroactive** because the purchase order was issued, and then fulfilled by Maine Technical Source, Inc. before the Governor and Council had an opportunity to review the request. The Department accepted early delivery as the equipment was needed for work for the Derry-Londonderry Project #13065 (Exit 4A) and other projects, and the invoice was paid against FY2023 encumbrance (PO#4013801).

The Continuously Operating Reference Stations (CORS) program is our attempt to integrate the latest GNSS technology into the Department's daily construction inspection and surveying operations. These devices utilize the same GNSS real-time data collection service called SmartNet, a subscription service available through Maine Technical Source, Inc. that allows us to use real-time accurate data on our GNSS devices.

The Attorney General has approved this agreement as to form and execution. The Department has verified that the necessary funds are available. Copies of the fully executed agreement are on file at the Secretary of State's Office and the Department of Administrative Services. After Governor and Council approval, the agreement will be on file at the Department of Transportation.

It is respectfully requested that authority be given to enter into this **sole source** agreement on a **retroactive** basis.

Respectfully,

A handwritten signature in cursive script that reads "William Cass".

Commissioner
