His Excellency, Governor Christopher T. Sununu
 and the Honorable Council
 State House
 Concord, New Hampshire 03301

REQUESTED ACTION

1. Pursuant to RSA 261:97-c, Use of Funds, authorize the Department of Natural and Cultural Resources, Division of Historical Resources, to award a Conservation Number Plate (Moose Plate) grant to the Bedford Historical Society (VC #223961), in the amount of \$20,000 for rehabilitation of the historic windows at the Stevens-Buswell School, effective upon Governor and Council approval through September 30, 2025. 100% Other Funds (Agency Income).
2. Further, authorize an advance payment in the amount of \$10,000 to the Bedford Historical Society in accordance with the terms of the contract, effective upon Governor and Council approval. 100% Other Funds (Agency Income).

Funds are available in account, Conservation Plate Funds, as follows:

	<u>FY 2024</u>
03-035-035-350010-34050000-073-509074 – Grants Non-Federal	\$20,000

EXPLANATION

The Conservation Number Plate Fund is used to promote the use and conservation of cultural resources in New Hampshire and to preserve the cultural heritage that belongs to all New Hampshire citizens by providing for the preservation of publicly owned historic properties.

The Stevens-Buswell School was built in 1921 as a two-room schoolhouse and expanded in 1938. The Bedford Historical Society holds a long-term lease with the town to rehabilitate the school into a community meeting place. The Stevens-Buswell School was determined eligible for listing in the National Register of Historic Places in 2009.

We are also seeking approval to provide \$10,000 in advance because the Division of Historical Resources' Moose Plate grant pays 50% of the award up front to get the grant-funded project underway, with 50% withheld until the grantee can show that their project has been completed.

The Attorney General's Office has reviewed and approve this grant as to form, substance and execution.

Respectfully submitted,

Sarah L. Stewart
 Commissioner

11.2.2 Give the Grantee a written notice specifying the Event of Default and suspending all payments to be made under this Agreement and ordering that the portion of the Grant Amount which would otherwise accrue to the Grantee during the period from the date of such notice until such time as the State determines that the Grantee has cured the Event of Default shall never be paid to the Grantee; and

11.2.3 Set off against any other obligation the State may owe to the Grantee any damages the State suffers by reason of any Event of Default; and

11.2.4 Treat the agreement as breached and pursue any of its remedies at law or in equity, or both.

2. TERMINATION.

In the event of Termination under paragraphs 10 or 12.4 of these general

12.2. provisions, the approval of such a Termination Report by the State shall entitle the Grantee to receive that portion of the Grant amount earned to and including the date of termination.

In the event of Termination under paragraphs 10 or 12.4 of these general

12.3. provisions, the approval of such a Termination Report by the State shall in no event relieve the Grantee from any and all liability for damages sustained or incurred by the State as a result of the Grantee's breach of its obligations hereunder.

Notwithstanding anything in this Agreement to the contrary, either the State or, 12.4. except where notice default has been given to the Grantee hereunder, the Grantee, may terminate this Agreement without cause upon thirty (30) days written notice.

Scope of Planned Work for the Stevens-Buswell School, Bedford, NH, March 2024

The windows at the former Stevens-Buswell School in Bedford, NH, are some of the most outstanding features of the building. They are characteristic of schools that were designed as a result of the Rosenwald School building program in the early 20th century. These innovative school designs emphasized the addition of good natural lighting and good ventilation, features that were frequently lacking in schoolhouses prior to this program.

Grant funds will support the restoration of ten original school windows on the back of the building. These are very large 47"x94" twelve-over-twelve double-hung windows that flood the striking back room with wonderful western light in the afternoon. The windows currently have older aluminum storm windows, which will be returned and continue to be used.

The windows on the back date from 1938 when this addition was added to the original two-room school that was built in 1921. Unfortunately, no upkeep has been done to the windows for many years, and they are sadly in need of restoration. The proposed work on the windows will meet the requirements stated by *The Secretary of the Interior's Standards for Rehabilitation*.

The ten windows will be removed for the restoration work. Specifically, the hardware will be inspected, bagged, and labeled. The sash will be removed, labeled, and prepared for transport. After being taken to the shop, the restoration of the windows will consist initially of the removal of all the old glaze, and then the old paint will be removed by using a soy-based gel. The sash will next be conditioned with a 50/50 mix of linseed oil and turpentine.

Following this preliminary work, any broken glass will be replaced by age appropriate glass, and all ropes will be replaced. The windows will be reglazed using Sarco glaze, and next the windows will be repainted with two coats of primer and a coat of Sherman Williams top paint for the interior surface and two coats of Sherman Williams exterior paint for the exterior. When the windows are reinstalled, the sash cords will be reattached to the weights. The final installation will include checking for fit and function and making any adjustments that might be needed to make the windows operable.

We are very pleased to have secured the future services of James Munn of Glazed and Reused Windows in Alton, NH. The planned restoration of the very large original windows, a most impressive feature of the former school, will certainly enhance the inherent beauty of this wonderful building.
