May 20, 2024

His Excellency, Governor Christopher T. Sununu  
and the Honorable Council  
State House  
Concord, New Hampshire 03301

**REQUESTED ACTION**

Authorize the Department of Environmental Services (NHDES) to enter into a grant agreement with the Town of Farmington, NH (VC#177387-B003) totaling \$472,000 for partial funding of two (2) plow truck replacements, effective upon Governor and Council approval through December 31, 2024. 100% NH Volkswagen Environmental Mitigation Trust Funds.

**EXPLANATION**

The New Hampshire Volkswagen Beneficiary Mitigation Plan provides that 50 percent of New Hampshire's allocation of the national Volkswagen settlement funds will be used for the replacement of state and municipal vehicles and equipment to reduce overall diesel emissions and specifically to alleviate excess nitrogen oxide emissions caused by Volkswagen violations. Of that allocation, approximately 60 percent will be utilized to replace eligible vehicles owned by municipal governments. Through a Granite State Clean Fleets Request For Proposals (RFP), conducted from June 9, 2023 through October 13, 2023, NHDES received 32 qualifying proposals and is awarding grants to 16 applicants. Please see Attachment A for ranking and scores.

Under this Agreement, the Town of Farmington will replace (1) Model Year (MY) 2004 and one (1) MY 2007 Class 8 diesel Plow Trucks. The MY 2004 truck has accumulated over 90,000 miles. In the past 12 months, this vehicle has incurred over \$12,000 in repairs, including replacement of springs, hydraulic hoses, body mounts, body control module, body work and removal of its original dump cart. The truck will need further repairs to pass the upcoming state inspection, including replacement of the oil pan, water pump, front spring saddles, and additional body work. This truck was taken out of service due to repair in March 2023 and subsequently for three months from September through November 2023.

The MY 2007 truck has accumulated over 125,000 miles. In the past 12 months, this vehicle has incurred over \$15,000 in repairs, including to the front axle and frame, replacement of the dump body, steering box, and spreader chain, and recurring electrical and turbocharger issues. This truck will also need further repairs to pass the upcoming state inspection, including frame repair, as it is showing signs of separation from the frame rails; replacement of oil pan and coolant lines, as these are leaking from corrosion; and replacement of rear brakes, rear torsion arm bushings, dump piston seals, and the

spreader auger motor, which is also leaking. This vehicle was taken out of service for repairs on fourteen separate occasions in the last ten months. There is no substitute vehicle when either the MY 2004 or 2007 plow trucks are taken out of service for repairs.

Pursuant to the NH Volkswagen Environmental Mitigation Trust (the VW Trust) and the Granite State Clean Fleets RFP, recipients must provide a 20% match for eligible diesel replacement projects. NHDES will provide the Town of Farmington a grant of \$472,000 or 80% of eligible project costs, whichever is less, for the replacement of the MY 2004 and 2007 Class 8 diesel Plow Trucks. All payments will be transferred directly from the VW Trust to the grantee upon NHDES approval of invoices.

This Agreement has been approved as to form, substance, and execution by the Office of the Attorney General. In the event that the VW Trust funds become no longer available General funds will not be requested to support this program.

We respectfully request your approval.
