142. Modify Exhibit B, Section 6.2.12, to read:

145. Modify Exhibit B, Section 6.3.1.2, to read:

6.3.1.2 In the event the MCO's MLR for any single reporting year is below the minimum eighty-five percent (85%) requirement as reported by the MCO in accordance with Section 6.3.2 of this Agreement, or determined by the State's actuary or the State's contracted MLR examiner required under CMS rule, the MCO shall provide to the Department a rebate, no later than sixty (60) calendar days following the Department notification, that amounts to the difference between the total amount of Capitation Payments received by the MCO from the Department multiplied by the required MLR of eighty-five percent (85%) and the MCO's actual MLR.

146. Modify Exhibit B, Section 6.3.4.1.1, to read:

6.3.4.1.1 High-Cost Pharmacy Risk Pool. The Department will provide an actuarially sound High-Cost Pharmacy Risk Pool (HCPRP) funded though the MCO capitation rates that will allocate HCPRP funding to each MCO based on the qualifying pharmacy claim payments for Members with annual pharmacy claim payments over a specified threshold. The HCPRP will offer the Department and the MCOs protection for Members with total pharmacy spend exceeding a predetermined

threshold. Any pharmacy costs above the threshold are included in the HCPRP pool amount and first subject to an at-risk coinsurance amount that is the responsibility of the MCOs. The remaining HCPRP amount will be redistributed across MCOs based on actual experience of the remaining pharmacy expenses (i.e., in excess of the threshold after coinsurance is applied). All associated pharmacy funding, including the HCPRP amounts, will be prospectively included in the capitation rates by rate cell. The HCPRP amount will be subject to a separate HCPRP risk corridor to provide further protection from under or over funding of the HCPRP amount.

147. Modify Exhibit B, by adding Section 6.3.4.1.1.1, to read:

6.3.4.1.1.1 During the contract year, the MCO will be required to pay pharmacy claims as normal.

6.3.4.1.1.2 Reconciliation and reallocation of HCPRP amounts will be based on actual HCPRP expenditures as described in separate guidance.

148. Modify Exhibit B, by adding Sections 6.3.4.1.1.4 and 6.3.4.1.1.4.1, to read:

6.3.4.1.1.3 The HCPRP includes threshold, coinsurance, and risk corridor features, as follows:

6.3.4.1.1.3.1 For the September 1, 2024 through June 30, 2025 rating period and annually thereafter, the threshold is set at $250,000 total drug spend per Member.

149. Modify Exhibit B, by adding Section 6.3.4.1.1.4.2 and Sections 6.3.4.1.1.4.2.1 through 6.3.4.1.1.4.2.3, to read:

6.3.4.1.1.4.2 For the September 1, 2024 through June 30, 2025 rating period, the MCO is at-risk for coinsurance across all eligible rate cells, as follows:

6.3.4.1.1.4.2.1 30% coinsurance for members with a total drug spend of $250,000 - $750,000;

6.3.4.1.1.4.2.2 20% coinsurance for members with a total drug spend of $750,000 - $1,250,000; and

6.3.4.1.1.4.2.3 10% coinsurance for members with a total drug spend greater than $1,250,000.

150. Modify Exhibit B, Section 6.3.4.1.1.4. by adding the following text and table:

6.3.4.1.1.4. For the September 1, 2024 through June 30, 2025 rating period, the Department shall implement a risk corridor around the HCPRP to offer additional protection against under/over funding of the HCPRP, as follows:

Under/Overfunding	DHHS Share	MCO Share
Less than Pool Fund -10%	100%	0%
Pool Fund -10% to -5%	50%	50%
Pool Fund -5% to +5%	0%	100%
Pool Fund +5% to +10%	50%	50%
Greater than Pool Fund +10%	100%	0%

151. Modify Exhibit B, Section 6.3.4.2.2.1, to read:

6.3.4.2.2.1 For the September 1, 2024 through August 31, 2025 rating period, the Department is committed to reviewing more mature emerging experience to evaluate the need for additional modifications to the acuity adjustment factors that could be required due to a potential deterioration of the aggregate program MLR.

As part of the Amendment #2 capitation rate development process, the Department will request additional information from the MCO and conduct a review of recent MLR results. If these results show a material deterioration of the program MLR in aggregate, the Department and its actuaries may implement corrective adjustments to address this deterioration in financial performance retroactive to September 1, 2024.

152. Modify Exhibit B, Section 6.3.4.2.11 and Sections 6.3.4.2.11.1 and Sections 6.3.4.2.11.1.1 and 6.3.4.11.1.2, to read:

6.3.4.2.11 The projected overall MCO MLR for at-risk services excludes the impact of the separate payment term directed payments and the 2.0% premium tax allowance in both the numerator and denominator of the MLR calculation. The following overall MCO MLRs are projected under this Agreement:

6.3.4.2.11.1 For the September 1, 2024 through June 30, 2025 rating period, at-risk services are projected as follows:

6.3.4.2.11.1.1 90.9% for the Standard Medicaid population and 89.9% for the GAHCP population which includes an overall 7.6% administrative cost allowance for the Standard Medicaid population, and 8.6% for the GAHCP population; and 1.5% risk margin applied as a percentage of revenue prior to the directed payments and the premium tax allowance; and

6.3.4.2.11.1.2 The minimum MLR is set on a program-wide basis for each major population, such that maximum profit achievable is 4%, which is equal to the 1.5% target margin plus the amount between the target MLR and the minimum MLR (2.5%). Based on the target MLRs in this letter, the minimum MLR will be 88.4% for the Standard Medicaid population and 87.4% for the GAHCP population. The maximum MLR is also set on a program-wide basis for each major population 3.5% above the target MLR, such that MCOs will have a maximum loss of 2.0%. Based on the target MLRs in this letter, the maximum MLR will be 94.4% for the Standard Medicaid population and 93.4% for the GAHCP population.

153. Modify Exhibit B, Section 6.3.4.2.12, to read:

6.3.4.2.12 Other MCM program risk mitigation provisions shall apply prior to the minimum and maximum MLR calculation (i.e., High-Cost Drug Risk Pool, Boston Children's Hospital risk pool, prospective risk adjustment, and retrospective acuity adjustment), if applicable, as described in the State's capitation rate letter, exhibits, and certification filed with the Centers for Medicare and Medicaid Services for the period.

154. Add Exhibit B, Section 6.3.4.3, to read:

6.3.4.3 CMH Programs: For the September 1, 2024 through August 31, 2025 rating period, the Department shall mitigate the MCO and Department gains and losses due to significant changes under the new CMH Program payment model when experience is above or below the actuarial estimate of a 14.0% adjustment for the three-month lookback. Specifically, the Department shall review whether the CMH Program outreach efforts targeted at serving more members within the three-month lookback period are higher or lower than the estimate included in the rating period's capitation rates. To compensate for higher or lower utilization estimates, a risk corridor around the 14.0% adjustment for the three-month lookback shall be included in the development of the CMH Program specific capitation rates for the period. The risk corridor shall reduce or increase overall MCO capitation payment funding for the CMH Programs if actual experience is outside a plus or

minus 2% range for the three-month lookback adjustment factor of 14.0%.

155. Modify Exhibit B, Section 6.4, to read:

6.4 Financial Responsibility for Members with Other Insurance

156. Modify Exhibit B, Section 6.4, by adding Section 6.4.3 and Section 6.4.4, to read:

6.4.3 For all medical and pharmacy claims with other insurance payment (e.g., commercial, Medicare Advantage), excluding Medicare Part A, Part B, and Part D, the MCO shall use the lessor logic described below unless otherwise stipulated in this Agreement:

6.4.3.1 The patient responsibility amount (deductible, Copayment, or coinsurance), or

6.4.3.2 The difference between the amount paid by the primary payer and the Medicaid allowed amount, if less than the patient responsibility amount, or

6.4.3.3 If the Member responsibility amount is "0" then the MCO shall make no payment.

6.4.4 For all claims (medical and pharmacy) with other insurance or Medicare Advantage plans, the MCO shall follow the primary insurance claim process in paying as secondary unless otherwise stipulated in this Agreement.

157. Modify Exhibit C Payment Terms, by replacing it in its entirety with Exhibit C Payment Terms, Amendment #1, which is attached hereto and incorporated by reference herein.

158. Modify Exhibit N Liquidated Damages Matrix, by replacing it in its entirety with Exhibit N Liquidated Damages Matrix, Amendment #1, which is attached hereto and incorporated by reference herein.

159. Modify Exhibit O Quality and Oversight Reporting Requirements, by replacing it in its entirety with Exhibit O Quality and Oversight Reporting Requirements, Amendment #1, which is attached hereto and incorporated by reference herein.

All terms and conditions of the Contract not modified by this Amendment remain in full force and effect. This Amendment shall be effective September 1, 2024, upon Governor and Council approval.

1.2.5. If at any time the Department determines that any MCO will not be ready to begin providing services on the MCM Program Start Date, at its sole discretion, the Department may withhold enrollment and require corrective action or terminate the Agreement without further recourse to the MCO.

4.4.20.6 The MCO shall recognize that no one interpreter, language, or assistive service (such as over-the-phone interpretation) will be appropriate (i.e. will provide meaningful access) for all Members in all situations. The most appropriate service to use (in-person versus remote interpretation) or assistance will vary from situation to situation and shall be based upon the unique needs and circumstances of each Member.

To ensure compliance with Title VI of the Civil Rights Act of 1964, the MCO shall take reasonable steps to ensure that LEP Members have meaningful access to the MCO's programs.

4.4.20.15 Meaningful access may entail providing language assistance services, including oral and written translation, where necessary. The MCO is encouraged to consider the need for language services for LEP persons served or encountered both in developing their budgets and in conducting their programs and activities. Additionally, the MCO is encouraged to develop and implement a written language access plan to ensure it is prepared to take reasonable steps to provide meaningful access to each Member with LEP who may require assistance.

4.15 Alternative Payment Models

4.15.1 General

4.15.1.1 The Department is committed to implementing clinically and actuarially sound incentives designed to improve care quality and utilization. The Department will define a Medicaid APM Strategy that may include supporting guidance, worksheets, and templates that will build upon the parameters set forth in this Agreement.

4.15.1.2 The Department will implement strategies to expand use of APMs that promote the goals of the Medicaid program to provide the right care at the right time, and in the right place through the delivery of high-quality, cost-effective care for the whole person, with a focus on engaged primary and preventive care model and in a manner that is transparent to the Department, Providers, and the stakeholder community.

4.15.1.3 In developing and refining its APM strategy, the Department relies on the framework established by the Health Care Payment Learning and Action Network APM framework (or the "HCP-LAN APM framework") in order to:

4.15.1.3.1 Clearly and effectively communicate the Department requirements through use of the defined categories established by HCP-LAN;

4.15.1.3.2 Encourage the MCO to align MCM APM offerings to other payers' APM initiatives to minimize Provider burden; and

4.15.1.3.3 Provide an established framework for monitoring MCO performance on APMs.

4.15.2 Prior to and/or over the course of the Term of this Agreement, the Department shall develop the Department's Medicaid APM Strategy, which shall result in additional guidance, templates, worksheets, required provider contractual provisions and other material that elucidate the requirements to which the MCO is subject under this Agreement.

4.15.3 The MCOs shall develop APMs consistent with guidance in the Department's Medicaid APM Strategy including, but not limited to:

4.15.3.1 Incentivize primary care clinicians to engage attributed Members in Primary and Prevention Focused Model and Provider Delivered Care Coordination.

4.15.7 For any APMs that direct the MCO's expenditures under 42 CFR 438.6(c)(1)(i) or (ii), the MCO and the Department shall ensure that it:

4.15.7.1 Makes participation in the APM available, using the same terms of performance, to a class of Providers providing services under the contract related to the reform or improvement initiative;

4.15.7.2 Uses a common set of quality performance measures across all similarly situated Providers as directed in the Department's Medicaid APM Strategy;

4.15.7.3 Does not set the amount or frequency of the expenditures; and

4.15.7.4 Does not permit the Department to recoup any unspent funds allocated for these arrangements from the MCO. [42 CFR 438.6(c)]

4.15.8 Required Use of Alternative Payment Models

4.15.8.1 The MCO shall ensure through its APM Implementation Plan as described in Section 4.15.10 (MCO Alternative Payment Model Implementation Plan), and confirmed through Exhibit O: Quality and Oversight Reporting Requirements, reporting that fifty percent (50%) of all Covered Services medical expenditures are in Qualifying APMs, as defined by the Department, subject to the following:

4.15.8.1.1 If the MCO is newly participating in the MCM program as of the Program Start Date, the MCO shall have twelve (12) months to meet this requirement; and

4.15.8.1.2 If the MCO determines that circumstances materially inhibit its ability to meet the APM implementation requirement, the MCO shall detail to DHHS in its proposed APM Implementation Plan an extension request: the reasons for its inability to meet the

requirements of this section and any additional information required by DHHS.

4.15.8.2 If approved by DHHS, the MCO may use its alternative approach, but only for the period of time requested and approved by DHHS, which is not to exceed an additional six (6) months after the initial 12-month period.

4.15.8.3 The MCO shall implement the Qualifying APM models as directed by the Department in the Department's Medicaid APM Strategy including, but not limited to, directed payments with quality incentives for achieving statewide outcomes for Community Mental Health Centers and providers, total cost of care models with large providers including quality metrics incentivizing Provider-Delivered Care Coordination and Primary Care and Prevention Focused care.

4.15.8.6 The MCO shall be subject to incentives, at the Department's sole discretion, and/or penalties to achieve improved performance, including preferential auto-assignment of new Members, use of the MCM Withhold and Incentive Program (including the shared incentive pool), and other incentives.

4.15.9 **Qualifying Alternative Payment Models**

4.15.9.1 A Qualifying APM is a payment approach required and approved by the Department as consistent with the standards specified in this Section 4.15.9 (Qualifying Alternative Payment Models) and the Department's Medicaid APM Strategy.

Implementation Plan and the Department's Medicaid APM Strategy.

4.15.9.4 The Department shall determine, on the basis of the Standardized Assessment of APM Usage described in Section 4.15.12.3 (Standardized Assessment of Alternative Payment Model Usage) below and the additional information available to the Department, the HCP-LAN Category to which the MCO's APM(s) is/are aligned.

4.15.9.5 Under no circumstances shall the Department consider as a Qualifying APM a payment methodology that takes cost of care into account without also paying providers for achieving quality outcomes consistent with those set forth in the Department's Medicaid APM Strategy. Providers participating in Qualifying APMs shall have the opportunity to share in cost savings through a formula that is no less than 50/50 split in favor of the participating providers and shall incorporate a opportunity to share up to an additional #% of total payments paid through the APM as provider incentive payments for achieving quality outcomes as part of the Qualifying APM.

4.15.9.9.1.2. At least one (1) APM that promotes greater use of Medication for treatment of substance use disorders through a bundled payment as set forth in the Department's Medicaid APM Strategy.

4.15.9.10 Accommodations for Other Providers

4.15.9.10.1 The MCO may develop Qualifying APM models, appropriate for other primary care Providers, and Federally Qualified Health Centers (FQHCs), as further defined by the DHHS Medicaid APM Strategy to incentivize engaged primary and preventive care.

4.15.9.10.2 For example, the MCO may propose to the Department models that incorporate pay-for-performance bonus incentives and/or per Member per month payments related to Providers' success in meeting actuarially-relevant cost and quality targets.

4.15.9.11 Alignment with Existing Alternative Payment Models and Promotion of Integration with Behavioral Health

4.15.9.11.1 The MCO shall incentivize Providers participating in the Qualifying APMs by paying incentives for achieving quality outcomes established by the Department in the Department's Medicaid APM Strategy.

6.1.2 The MCO shall maintain a risk-based capital ratio to meet or exceed the NHID regulations, and any other relevant laws and regulations.

6.1.3 With the exception of payment of a claim for a medical product or service that was provided to a Member, and that is in accordance with a written agreement with the Provider, the MCO may not pay money or transfer any assets for any reason to an affiliate without prior approval from the Department, if any of the following criteria apply:

6.1.3.1 Risk-based capital ratio was less than two (2) for the most recent year filing, per RSA 404-F:14 (III); and

6.1.3.2 The MCO was not in compliance with the NHID solvency requirement.

6.1.4 The MCO shall notify the Department within ten (10) calendar days when its agreement with an independent auditor or actuary has ended and seek approval of, and the name of the replacement auditor or actuary, if any from the Department.

6.1.5 The MCO shall maintain current assets, plus long-term investments that can be converted to cash within seven (7) calendar days without incurring a penalty of more than twenty percent (20%) that equal or exceed current liabilities.

6.1.6 The MCO shall submit Confidential Data on the basis of which the Department has the ability to determine that the MCO has made adequate provisions against the risk of insolvency.

6.1.7 The MCO shall inform the Department and NHID staff by phone and by email within five (5) business days of when any key personnel learn of any actual or threatened litigation, investigation, complaint, claim, or transaction that may reasonably be considered to have a material financial impact on and/or materially impact or impair the ability of the MCO to perform under this Agreement.

6.1.8 The MCO shall prohibit clawback business arrangements whereby Pharmacy Benefit Managers (PBM) and other Subcontractors for Covered Services reimburse network pharmacies and other Providers an initial reimbursement amount and dispensing or other fees, and subsequently the

PBM or other Subcontractor receives remuneration for a portion of that fee that is unreported to the Department and its actuary.

6.2 **Capitation Payments**

6.2.1 Capitation payments made by the Department and retained by the MCO shall be for Medicaid-eligible Members. [42 CFR 438.3(c)(2)]

6.2.1.1 The per member per month (PMPM) capitation rates for the current contract period are shown in Exhibit C: Payment Terms.

6.2.1.2 For each of the subsequent years of the Agreement, actuarially sound per Member, per month capitated rates shall be paid as calculated and certified by the Department's actuary, subject to approval by CMS and Governor and Executive Council.

6.2.1.3 Any rate adjustments shall be subject to the availability of State appropriations.

6.2.1.4 Capitation rates shall be based on generally accepted actuarial principles and practices that are applied to determine aggregate utilization patterns, are appropriate for the population and services to be covered, and have been certified by actuaries who meet the qualification standards established by the Actuarial Standards Board. [42 CFR 457.10]

6.2.2 In the event the MCO incurs costs in the performance of this Agreement that exceed the capitation payments, the State and its agencies are not responsible for those costs and shall not provide additional payments to cover such costs.

6.2.3 Capitation rates shall use an actuarially sound prospective risk adjustment model to adjust the rates for each participating MCO.

6.2.3.1 The risk adjustment process shall use the most recent version of the CDPS+Rx model to assign scored individuals to a demographic category and disease categories based on their medical claims and drug utilization during the study period. The methodology shall also incorporate a custom risk weight related to the cost of opioid addiction services, as deemed necessary by the Department and its actuary. Scored individuals are those with at least six months of eligibility and claims experience in the base data. The methodology shall exclude diagnosis codes related to radiology and laboratory services to avoid including false positive diagnostic indicators for tests run on an individual. Additionally, each scored member with less than 12 months of experience in the base data period shall also be assigned

a durational adjustment to compensate for missing diagnoses due to shorter enrollment durations, similar to a missing data adjustment.

6.2.3.2 Each unscored member shall be assigned a demographic-only risk weight instead of receiving the average risk score for each MCO's scored members in the same rate cell. The risk adjustment methodology shall also incorporate a specific adjustment to address cost and acuity differences between the scored and unscored populations, which shall be documented by a thorough review of historical data for those populations based on generally accepted actuarial techniques.

6.2.3.3 Members shall be assigned to MCOs and rate cells using the actual enrollment by MCO in each quarter to calculate risk scores in order to capture actual membership growth for each MCO.

6.2.3.4 The Department and its actuary reserve the right to modify the risk adjustment methodology.

6.2.4 The MCO shall report to the Department within sixty (60) calendar days upon identifying any capitation or other payments in excess of amounts provided in this Agreement. [42 CFR 438.608(c)(3)]

6.2.5 The MCO and the Department agree the Capitation Rates may be adjusted periodically (at least annually) to maintain actuarial soundness as determined by the Department's actuary, subject to approval by CMS and Governor and Executive Council.

6.2.6 The MCO shall submit Confidential Data on the basis of which the State certifies the actuarial soundness of capitation rates to an MCO, including base Confidential Data that is generated by the MCO. [42 CFR 438.604(a)(2); 42 CFR 438.606; 42 CFR 438.3; 42 CFR 438.5(c)]

6.2.7 When requested by the Department, the MCO shall submit Encounter Data, financial data, and other Confidential Data to the Department to ensure actuarial soundness in development of the capitation rates, or any other actuarial analysis required by the Department or State or federal law.

6.2.8 The MCO's CFO shall submit and concurrently certify to the best of their information, knowledge, and belief that all Confidential Data and information described in 42 CFR 438.604(a), which the Department uses to determine the capitation rates, is complete and accurate. [42 CFR 438.606]

6.2.9 The MCO has responsibility for implementing systems and protocols to maximize the collection of TPL recoveries and subrogation activities. The MCO may retain such recoveries, subject to the parameters in the Agreement, since the capitation rates are calculated net of expected MCO recoveries.

6.2.10 The Department shall make a monthly payment to the MCO for each Member enrolled in the MCO's plan as the Department currently structures its capitation payments.

6.2.10.1 Capitation Payments for all standard Medicaid Members shall be made retrospectively with a one month plus five (5) business day lag.

6.2.10.2 Capitation Payments for all Granite Advantage Members shall be made before the end of each month of coverage.

6.2.11 The capitation rate cell is determined based on the Member characteristics as of the earliest date of Member plan enrollment span(s) within the month.

6.2.12 [Amendment #1:] The Department may adjust the capitation rate based on Member enrollment span changes (e.g., category of eligibility, enrollment termination, age) that occurred during the month that are not otherwise recognized in capitation adjustments. ~~The capitation rate does not change during the month, regardless of Member changes (e.g., age), unless the Member's plan enrollment is terminated and the Member is re-enrolled resulting in multiple spans within the month~~.

6.2.13 Capitation adjustments are processed systematically each month by the Department's MMIS.

6.2.14 The Department shall make systematic adjustments based on factors that affect rate cell assignment or plan enrollment.

6.2.15 If a Member is deceased, the Department shall recoup any and all capitation payments after the Member's date of death including any prorated share of a capitation payment intended to cover dates of services after the Member's date of death.

6.2.16 **Capitation Settlement**

6.2.16.1 The Department has sole discretion over the capitation settlement process.

6.2.16.2 The MCO shall follow policies and procedures for the settlement process as developed by the Department.

6.2.16.3 Based on the provisions herein, the Department shall not make any further retroactive adjustments other than those described herein or elsewhere in this Agreement.

6.2.16.4 The Department and the MCO agree there is a nine (9) month limitation from the date of the Capitation Payment and is applicable only to retroactive Capitation Payments described herein, and shall in no way be construed to limit the effective date of enrollment in the MCO.

6.2.16.5 The Department shall have the discretion to recoup payments retroactively up to twenty-four (24) months for

Members whom the Department later determines were not eligible for Medicaid during the enrollment month for which Capitation Payment was made.

6.2.16.6 For each live birth, the Department shall:

6.2.16.6.1 Make a one-time maternity kick payment to the MCO with whom the mother is enrolled on the DOB.

6.2.16.6.2 This payment is a global fee to cover all delivery care.

6.2.16.6.3 In the event of a multiple birth DHHS shall make only one (1) maternity kick payment.

6.2.16.6.4 A live birth is defined in accordance with NH Vital Records reporting requirements for live births as specified in RSA 5-C.

6.2.16.7 Make a one-time newborn kick payment to the MCO with whom the mother is enrolled on the DOB.

6.2.16.7.1 This payment is a global fee to cover all newborn expenses incurred in the first two (2) full or partial calendar months of life, including all hospital, professional, pharmacy, and other services.

6.2.16.7.2 Enrolled babies shall be covered under the MCO capitated rates thereafter.

6.2.16.7.3 Different rates of newborn kick payments may be employed by the Department, in its sole discretion, to increase actuarial soundness.

6.2.16.7.4 Two (2) newborn kick payments shall be employed, one (1) for newborns with NAS and one (1) for all other newborns.

6.2.16.7.5 Each type of payment is distinct and only one payment is made per newborn.

6.2.16.7.6 The MCO shall submit information on maternity and newborn events to DHHS, and shall follow written policies and procedures, as developed by DHHS, for receiving, processing and reconciling maternity and newborn payments.

6.2.16.8 [Amendment #1:] For the rating period September 1, 2024 through June 30, 2025~~ending August 31, 2024~~ (subject to future rating period extension(s)), DHHS shall make a one-time kick payment to the MCO for each Member psychiatric admission stay with DRG codes 880-887, except as described in Section 6.2.17.3 below.

6.2.16.8.1 The kick payment shall be specific to the corresponding Peer Groups established by DHHS. Separate kick payments exist for Peer Group 01 and 07, Peer Group 02, Peer Group 06, and Peer Group 09.

6.2.16.8.2 Psychiatric admissions for dually eligible Members are not subject to the kick payment and shall be paid out of the capitation rates.

6.2.16.8.3 Psychiatric admissions for Members at New Hampshire Hospital and Hampstead Hospital are not subject to the kick payment and shall be paid out of the MCO's capitation rates.

6.2.16.9 Intentionally left blank.

6.2.16.10 Intentionally left blank.

6.2.16.11 Intentionally left blank.

6.2.16.12 Payment for behavioral health rate cells shall be determined based on a Member's CMH Program or CMH Provider behavioral certification level as supplied in an interface to the Department's MMIS by the MCO.

6.2.16.13 [Amendment #1:] Eligibility for a capitation payment from the MCO to the CMH Program is based on a valid behavioral health certification and the Member having had an encounter in the last three (3) months. ~~The CMH Program or CMH Provider behavioral certification level is based on a Member having had an encounter in the last six (6) months.~~

6.2.16.14 [Amendment #1:] Changes to a Member's behavioral health certification enrollment span are reflected in Capitation Payments as described in Section 6.2.12 of this Agreement. ~~Changes in the certification level for a Member shall be reflected as of the first of each month and does not change during the month.~~

6.2.17 **Capitation Adjustments**

6.2.17.1 After the completion of each Agreement year, an actuarially sound withhold percentage of each MCO's risk adjusted Capitation Payment net of directed payments to the MCO shall be calculated as having been withheld by the Department. On the basis of the MCO's performance, as determined under DHHS's MCM Withhold and Incentive Guidance.

6.2.17.1.1 Details of the MCM Withhold and Incentive Program are described in MCM Withhold and Incentive

Program Guidance provided by the Department as indicated in Section 5.4 (Withhold and Incentive Payment Program).

6.2.17.1.2 The Department shall inform the MCO of any required program revisions or additions in a timely manner.

6.2.17.1.3 The Department may adjust the rates to reflect these changes as necessary to maintain actuarial soundness.

6.2.17.2 The Department shall only make a monthly capitation payment to the MCO for a Member aged 21–64 receiving inpatient treatment in an IMD, as defined in 42 CFR 435.1010, so long as the facility is a hospital providing psychiatric or substance use disorder inpatient care or a sub-acute facility providing psychiatric or substance use disorder crisis residential services permitted by CMS through a waiver obtained from CMS. [42 CFR 438.6(e)]

6.2.17.3 In the event an enrolled Medicaid Member was previously admitted as a hospital inpatient and is receiving continued inpatient hospital services on the first day of coverage with the MCO, the MCO shall receive the applicable capitation payment for that Member.

6.2.17.4 The entity responsible for coverage of the Member at the time of admission as an inpatient (either DHHS or another MCO) shall be fully responsible for all inpatient care services and all related services authorized while the Member was an inpatient until the day of discharge from the hospital.

6.2.17.5 Should any part of the scope of work under this Agreement relate to a State program that is no longer authorized by law (e.g., which has been vacated by a court of law, or for which CMS has withdrawn federal authority, or which is the subject of a legislative repeal), the MCO must do no work on that part after the effective date of the loss of program authority.

6.2.17.6 The State must adjust capitation rates to remove costs that are specific to any program or activity that is no longer authorized by law.

6.2.17.7 If the MCO works on a program or activity no longer authorized by law after the date the legal authority for the work ends, the MCO will not be paid for that work.

6.2.17.8 If the State paid the MCO in advance to work on a no-longer-authorized program or activity and under the terms of this contract the work was to be performed after the date the legal

authority ended, the payment for that work should be returned to the State.

6.2.17.9 However, if the MCO worked on a program or activity prior to the date legal authority ended for that program or activity, and the State included the cost of performing that work in its payments to the MCO, the MCO may keep the payment for that work even if the payment was made after the date the program or activity lost legal authority.

6.2.18 **Other Reimbursement Considerations**

6.2.18.1 Unless MCOs are exempted, through legislation or otherwise, from having to make payments to the NH Insurance Administrative Fund (Fund) pursuant to RSA 400-A:39, the Department shall reimburse MCO for MCO's annual payment to the Fund on a supplemental basis within 30 days following receipt of invoice from the MCO and verification of payment by the NHID.

6.3 **Medical Loss Ratio (MLR) Reporting and Settlement**

6.3.1 **Minimum MLR Performance and Rebate Requirements**

6.3.1.1 The MCO shall meet a minimum MLR of eighty-five percent (85%) or higher.

6.3.1.2 [Amendment #1:] In the event the MCO's MLR for any single reporting year is below the minimum ~~of the~~eighty-five percent (85%) requirement as reported by the MCO in accordance with Section 6.3.2 of this Agreement, or determined by the State's actuary or the State's contracted MLR examiner required under CMS rule, the MCO shall provide to the Department a rebate, no later than sixty (60) calendar days following the Department notification, that amounts to the difference between the total amount of Capitation Payments received by the MCO from the Department multiplied by the required MLR of eighty-five percent (85%) and the MCO's actual MLR.

6.3.1.3 If the MCO fails to pay any rebate owed to the Department in accordance with the time periods set forth by the Department, in addition to providing the required rebate to the Department, the MCO shall pay the Department interest at the current Federal Reserve Board lending rate or ten percent (10%) annually, whichever is higher, on the total amount of the rebate.

6.3.2 **Calculation of the MLR**

6.3.2.1 The MCO shall calculate and report to the Department the MLR for each MLR reporting year, in accordance with 42 CFR 438.8 and the standards described within this Agreement. [42 CFR 438.8(a)]

6.3.2.2 The MLR calculation is the ratio of the numerator (as defined in accordance with 42 CFR 438.8(e)) to the denominator (as defined in accordance with 42 CFR 438.8(f)). [42 CFR 438.8 (d-f)]

6.3.2.2.1 The calculation of the MLR will be updated to consider new provisions added or amended by CMS through published rules and guidance.

6.3.2.3 Each MCO expense shall be included under only one (1) type of expense, unless a portion of the expense fits under the definition of, or criteria for, one (1) type of expense and the remainder fits into a different type of expense, in which case the expense shall be pro-rated between the two types of expenses.

6.3.2.3.1 Expenditures that benefit multiple contracts or populations, or contracts other than those being reported, shall be reported on a pro rata basis. [42 CFR 438.8(g)(1)(i)-(ii)]

6.3.2.4 Expense allocation shall be based on a generally accepted accounting method that is extended to yield the most accurate results.

6.3.2.4.1 Shared expenses, including expenses under the terms of a management contract, shall be apportioned pro rata to the contract incurring the expense.

6.3.2.4.2 Expenses that relate solely to the operation of a reporting entity, such as personnel costs associated with the adjusting and paying of claims, shall be borne solely by the reporting entity and are not to be apportioned to other entities. [42 CFR 438.8(g)(2)(i)-(iii)]

6.3.2.5 The MLR report must include non-claims costs, which are those expenses for administrative services that are not incurred claims, expenditures for activities that improve health care quality or licensing and regulatory fees or federal and state taxes.

6.3.2.5.1 Revenue and expenses for administrative services should exclude the Health Insurer Tax, any allocation for premium taxes and any other revenue-based assessments.

6.3.2.5.2 Expenses for administrative services may include amounts that exceed a third party's costs (profit margin), but these amounts must be justified and consistent with prudent management and fiscal soundness requirements to be includable when these transactions are between related parties. [42 C.F.R. § 422.516(b)].

6.3.2.6 Health Care Quality Improvement (HCQI) expenses are limited to the portion of salaries and benefits for employees directly performing administrative functions for inclusion in the MLR calculation. Expenses for items such as office space (including rent or depreciation, facility maintenance, janitorial, utilities, property taxes, insurance, wall art), human resources, salaries of counsel and executives, equipment, computer and telephone usage, travel and entertainment, company parties and retreats, information technology infrastructure and systems, and software licenses do not qualify as direct HCQI expenses.

6.3.2.7 The MCO may add a credibility adjustment in accordance with 42 CFR 438.8(h) to a calculated MLR if the MLR reporting year experience is partially credible.

6.3.2.7.1 The credibility adjustment, if included, shall be added to the reported MLR calculation prior to calculating any remittances.

6.3.2.7.2 The MCO may not add a credibility adjustment to a calculated MLR if the MLR reporting year experience is fully credible.

6.3.2.7.3 If the MCO's experience is non-credible, it is presumed to meet or exceed the MLR calculation standards. [42 CFR 438.8(h)(1)-(3)]

6.3.3 **MLR Reporting**

6.3.3.1 The MCO shall submit MLR summary reports quarterly to the Department in accordance with Exhibit O: Quality and Oversight Reporting Requirements. [42 CFR 438.8(k)(2); 42 CFR 438.8(k)(1)].

6.3.3.2 The MLR summary reports shall include all information required by 42 CFR 438.8(k) within nine (9) months of the end of the MLR reporting year, including:

6.3.3.2.1 Total incurred claims;

6.3.3.2.2 Expenditures on quality improvement activities;

6.3.3.2.3 Expenditures related to activities compliant with the program integrity requirements;

6.3.3.2.4 Non-claims costs;

6.3.3.2.5 Premium revenue;

6.3.3.2.6 Taxes;

6.3.3.2.7 Licensing fees;

6.3.3.2.8 Regulatory fees;

6.3.3.2.9 Methodology(ies) for allocation of expenditures;

6.3.3.2.10 Any credibility adjustment applied;

6.3.3.2.11 The calculated MLR;

6.3.3.2.12 Any remittance owed to the State, if applicable;

6.3.3.2.13 A comparison of the information reported with the audited financial report;

6.3.3.2.14 A description of the aggregate method used to calculate total incurred claims; and

6.3.3.2.15 The number of Member months. [42 CFR 438.8(k)(1)(i-xiii); 42 CFR 438.608(a)(1-5); 42 CFR 438.608(a)(7-8); 42 CFR 438.608(b); 42 CFR 438.8(i)]

6.3.3.3 The MCO shall attest to the accuracy of the summary reports and calculation of the MLR when submitting its MLR summary reports to the Department. [42 CFR 438.8(n); 42 CFR 438.8(k)]

6.3.3.4 Such summary reports shall be based on a template provided by the Department within sixty (60) calendar days of the Program Start Date. [42 CFR 438.8(a)]

6.3.3.5 The MCO shall in its MLR summary reports aggregate Confidential Data for all Medicaid eligibility groups covered under this Agreement unless otherwise required by the Department.

6.3.3.6 The MCO shall require any Subcontractor providing claims adjudication activities to provide all underlying Confidential Data associated with MLR reporting to the MCO within one hundred and eighty (180) calendar days or the end of the MLR reporting year or within thirty (30) calendar days of a request by the MCO, whichever comes sooner, regardless of current contract limitations, to calculate and validate the accuracy of MLR reporting. [42 CFR 438.8(k)(3)]

6.3.3.7 In any instance in which the Department makes a retroactive change to the Capitation Payments for a MLR reporting year and the MLR report has already been submitted to the Department, the MCO shall:

6.3.3.7.1 Re-calculate the MLR for all MLR reporting years affected by the change; and

6.3.3.7.2 Submit a new MLR report meeting the applicable requirements. [42 CFR 438.8(m); 42 CFR 438.8(k)]

6.3.3.8 The MCO and its Subcontractors (as applicable) shall retain MLR reports for a period of no less than ten (10) years.

6.3.4 **Risk Mitigation**

6.3.4.1 Risk Pool Protections

6.3.4.1.1 [Amendment #1:] High-Cost Pharmacy Risk Pool. The Department will provide an actuarially sound High-Cost Pharmacy Risk Pool (HCPRP) funded though the MCO capitation rates that will allocate HCPRP funding to each MCO based on the qualifying pharmacy claim payments for Members with annual pharmacy claim payments over a specified threshold. The HCPRP will offer the Department and the MCOs protection for Members with total pharmacy spend exceeding a predetermined threshold. Any pharmacy costs above the threshold are included in the HCPRP pool amount and first subject to an at-risk coinsurance amount that is the responsibility of the MCOs. The remaining HCPRP amount will be redistributed across MCOs based on actual experience of the remaining pharmacy expenses (i.e., in excess of the threshold after coinsurance is applied). All associated pharmacy funding, including the HCPRP amounts, will be prospectively included in the capitation rates by rate cell. The HCPRP amount will be subject to a separate HCPRP risk corridor to provide further protection from under or over funding of the HCPRP amount~~provide MCO protection for Members with pharmacy claims in access of the attachment point. Detailed program features and parameters will be established on an annual basis in guidance~~.

6.3.4.1.1.1. [Amendment #1:] During the contract year, the MCO will be required to pay pharmacy claims as normal.

6.3.4.1.1.2. [Amendment #1:] Reconciliation and reallocation of HCPRP amounts will be based on actual HCPRP expenditures as described in separate guidance.

6.3.4.1.1.3. [Amendment #1:] The HCPRP includes threshold, coinsurance, and risk corridor features, as follows:

6.3.4.1.1.3.1 [Amendment #1:] For the September 1, 2024 through June 30, 2025 rating period and annually thereafter, the threshold is set at $250,000 total drug spend per Member.

6.3.4.1.1.3.2 [Amendment #1:] For the September 1, 2024 through June 30, 2025 rating period, the MCO is at-risk for coinsurance across all eligible rate cells, as follows:

6.3.4.1.1.3.2.1 [Amendment #1:] 30% coinsurance for members with a total drug spend of $250,000 - $750,000;

6.3.4.1.1.3.2.2 [Amendment #1:] 20% coinsurance for members with a total drug spend of $750,000 - $1,250,000; and

6.3.4.1.1.3.3.2.3 [Amendment #1:] 10% coinsurance for members with a total drug spend greater than $1,250,000.

6.3.4.1.1.4. [Amendment #1:] For the September 1, 2024 through June 30, 2025 rating period, the Department shall implement a risk corridor around the HCPRP to offer additional protection against under/over funding of the HCPRP, as follows:

Under/Overfunding	DHHS Share	MCO Share
Less than Pool Fund -10%	100%	0%
Pool Fund -10% to -5%	50%	50%
Pool Fund -5% to +5%	0%	100%
Pool Fund +5% to +10%	50%	50%
Greater than Pool Fund +10%	100%	0%

6.3.4.1.2 The Department shall implement a budget neutral-risk pool for services provided at Boston Children's Hospital in order to better allocate funds based on MCO-specific spending for these services. Inpatient and outpatient facility services provided at Boston Children's Hospital qualify for risk pool calculation.

6.3.4.2 Minimum and Maximum MLR

6.3.4.2.1 The Department reserves the right to modify its risk mitigation strategies in accordance with actuarially sound practices.

6.3.4.2.2 For each year under this Agreement, the Department and its actuary will determine if a minimum and maximum MLR should be implemented due to unforeseen events that could materially impact the level of uncertainty associated with the financial soundness of the MCM program. The MCM program's target MLR may change in future rate amendments as a result of changes to underlying assumptions, such as enrollment projections, emerging utilization experience, and retroactive acuity adjustments, if applicable, as described in the State's capitation rate letter, exhibits, and certification filed with the Centers for Medicare and Medicaid Services for the period based on the target MLRs determined by the Department.

6.3.4.2.2.1. [Amendment #1] For the September 1, 2024 through August 31, 2025 rating period, the Department is committed to reviewing more mature emerging experience to evaluate the need for additional modifications to the acuity adjustment factors that could be required due to a potential deterioration of the aggregate program MLR. As part of the Amendment #2 capitation rate

development process, the Department will request additional information from the MCO and conduct a review of recent MLR results. If these results show a material deterioration of the program MLR in aggregate, the Department and its actuaries may implement corrective adjustments to address this deterioration in financial performance retroactive to September 1, 2024.

6.3.4.2.3 Other MCM program risk mitigation provisions shall apply prior to the minimum and maximum MLR calculation (i.e., High-Cost Drug Risk Pool, Boston Children's Hospital risk pool, prospective risk adjustment, and retrospective acuity adjustment), if applicable, as described in the State's capitation rate letter, exhibits, and certification filed with the Centers for Medicare and Medicaid Services for the period.

6.3.4.2.4 Minimum MLR settlement operational requirements include:

6.3.4.2.4.1. The numerator for the actual MLR shall include all payments made to providers, such as fee-for-service payments, sub-capitation payments, incentive payments, and settlement payments. The numerator for the actual MLR shall not include costs related to quality improvement activities or Fraud, Waste and Abuse prevention.

6.3.4.2.5 The denominator for the actual MLR shall equal the risk adjusted capitation revenue including risk mitigation settlement amounts as described in Section 6.3.4 (Risk Mitigation).

6.3.4.2.6 Payments and revenue related to directed payments and premium taxes shall be excluded from the numerator and denominator for the actual MLR.

6.3.4.2.7 Any incentive payments made to higher-performing MCOs as part of the Withhold Program shall not impact the minimum or maximum MLR provision of the Agreement.

6.3.4.2.8 The timing of the minimum and maximum MLR settlement shall occur after the contract year is closed and substantial paid claims runout is available.

6.3.4.2.9 Payments or recoupments related to the Withhold and Incentive Program shall be excluded from the MLR settlement. The Withhold and Incentive Program settlement shall occur after the MLR settlement is complete.

6.3.4.2.10 The MLR settlement shall occur after the contract year is closed and sufficient paid claims runout is available.

6.3.4.2.11 [Amendment #1:] The projected overall MCO MLR for at-risk services excludes the impact of the separate payment term directed payments and the 2.0% premium tax allowance in both the numerator and denominator of the MLR calculation. The following overall MCO MLRs are projected under this Agreement:

6.3.4.2.11.1. [Amendment #1:] For the September 1, 2024 through June 30, 2025 rating period, at-risk services are projected as follows:

6.3.4.2.11.1.1 [Amendment #1:] 90.9% for the Standard Medicaid population and 89.9% for the GAHCP population which includes an overall 7.6% administrative cost allowance for the Standard Medicaid population, and 8.6% for the GAHCP population; and 1.5% risk margin applied as a percentage of revenue prior to the directed payments and the premium tax allowance; and

6.3.4.2.11.1.2 [Amendment #1:] The minimum MLR is set on a program-wide basis for each major population, such that maximum profit achievable is 4%, which is equal to the 1.5% target margin plus the amount between the target MLR and the minimum MLR (2.5%). Based on the target MLRs in this letter, the minimum MLR will be 88.4% for the

Standard Medicaid population and 87.4% for the GAHCP population. The maximum MLR is also set on a program-wide basis for each major population 3.5% above the target MLR, such that MCOs will have a maximum loss of 2.0%. Based on the target MLRs in this letter, the maximum MLR will be 94.4% for the Standard Medicaid population and 93.4% for the GAHCP population.

6.3.4.2.12 [Amendment #1:] Other MCM program risk mitigation provisions shall apply prior to the minimum and maximum MLR calculation (i.e., High-Cost Drug Risk Pool, Boston Children's Hospital risk pool, prospective risk adjustment, and retrospective acuity adjustment), if applicable, as described in the State's capitation rate letter, exhibits, and certification filed with the Centers for Medicare and Medicaid Services for the period.

6.3.4.3 [Amendment #1:] CMH Programs: For the September 1, 2024 through August 31, 2025 rating period, the Department shall mitigate the MCO and Department gains and losses due to significant changes under the new CMH Program payment model when experience is above or below the actuarial estimate of a 14.0% adjustment for the three-month lookback. Specifically, the Department shall review whether the CMH Program outreach efforts targeted at serving more members within the three-month lookback period are higher or lower than the estimate included in the rating period's capitation rates. To compensate for higher or lower utilization estimates, a risk corridor around the 14.0% adjustment for the three-month lookback shall be included in the development of the CMH Program specific capitation rates for the period. The risk corridor shall reduce or increase overall MCO capitation payment funding for the CMH Programs if actual experience is outside a plus or minus 2% range for the three-month lookback adjustment factor of 14.0%.

6.4 **[Amendment #1:] Financial Responsibility for ~~Dual-Eligible~~ Members with Other Insurance**

6.4.1 For Medicare Part A crossover claims and Medicare Part B crossover claims billed on the UB-04, the MCO shall pay the patient responsibility amount (deductible and coinsurance) for Covered Services.

6.4.2 For Part B crossover claims billed on the CMS-1500, the MCO shall pay the lesser of:

6.4.2.1 The patient responsibility amount (deductible and coinsurance) for Covered Services, or

6.4.2.2 The difference between the amount paid by the primary payer and the Medicaid allowed amount.

6.4.2.3 For both Medicare Part A and Part B claims, if the Member responsibility amount is "0" then the MCO shall make no payment.

6.4.3 [Amendment #1:] For all medical and pharmacy claims with other insurance payment (e.g., commercial, Medicare Advantage), excluding Medicare Part A, Part B, and Part D, the MCO shall use the lessor logic described below unless otherwise stipulated in this Agreement:

6.4.3.1 [Amendment #1:] The patient responsibility amount (deductible, Co-payment, or coinsurance), or

6.4.3.2 [Amendment #1:] The difference between the amount paid by the primary payer and the Medicaid allowed amount, if less than the patient responsibility amount, or

6.4.3.3 [Amendment #1:] If the Member responsibility amount is "0" then the MCO shall make no payment.

6.4.4 [Amendment #1:] For all claims (medical and pharmacy) with other insurance or Medicare Advantage plans, the MCO shall follow the primary insurance claim process in paying as secondary unless otherwise stipulated in this Agreement.

6.5 **Medical Cost Accruals**

6.5.1 The MCO shall establish and maintain an actuarially sound process to estimate Incurred But Not Reported (IBNR) claims, services rendered for which claims have not been received.

6.6 **Audits**

6.6.1 The MCO shall permit the Department or its designee(s) and/or the NHID to inspect and audit any of the financial records of the MCO and its Subcontractors.

6.6.2 There shall be no restrictions on the right of the State or federal government to conduct whatever inspections and audits are necessary to assure quality,

appropriateness or timeliness of services and reasonableness of their costs. [SMM 2087.7; 42 CFR 434.6(a)(5)]

6.6.3 The MCO shall file annual and interim financial statements in accordance with the standards set forth in this Section 6 (Financial Management) of this Agreement.

6.6.4 Within one hundred and eighty (180) calendar days or other mutually agreed upon date following the end of each calendar year during this Agreement, the MCO shall file, in the form and content prescribed by the NAIC, annual audited financial statements that have been audited by an independent Certified Public Accountant.

6.6.5 Financial statements shall be submitted in either paper format or electronic format, provided that all electronic submissions shall be in be sent encrypted, if PHI or PII is included, and PDF format or another read-only format that maintains the documents' security and integrity.

6.6.6 The MCO shall also file, within seventy-five (75) calendar days following the end of each calendar year, certified copies of the annual statement and reports as prescribed and adopted by the NHID.

6.6.7 The MCO shall file within sixty (60) calendar days following the end of each calendar quarter, quarterly financial reports in form and content as prescribed by the NAIC.

6.7 **Member Liability**

6.7.1 The MCO shall not hold MCM Members liable for:

6.7.1.1 The MCO's debts, in the event of the MCO's insolvency;

6.7.1.2 The Covered Services provided to the Member, for which the State does not pay the MCO;

6.7.1.3 The Covered Services provided to the Member, for which the State, or the MCO does not pay the individual or health care Provider that furnishes the services under a contractual, referral, or other arrangement; or

REQUESTED ACTION

Authorize the Department of Health and Human Services, Division of Medicaid Services, to enter into contracts with AmeriHealth Caritas New Hampshire Inc., Manchester, NH; Boston Medical Center Health Plan, Inc., d/b/a WellSense Health Plan, Manchester, NH; and Granite State Health Plan, Inc., d/b/a New Hampshire Healthy Families, Bedford NH, to provide health care services to eligible and enrolled Medicaid participants through New Hampshire's Medicaid managed care program known as New Hampshire Medicaid Care Management, in an amount shared by all vendors not to exceed $1,004,871,237. This Agreement, and all obligations of the parties hereunder, shall become effective upon Governor and Executive Council approval through August 31, 2029, with services to beneficiaries starting September 1, 2024.

Funding sources are as follows:

	Federal	Other / Agency Income	General
Granite Advantage Health Care Program (GAHCP)	90%	10% (as defined in RSA 126-AA:3, I)	0%
Child Health Insurance Program (CHIP)	65%	1%	34%
Standard Medicaid Population (Medicaid Care Management)	51%	24%	25%

Funds are available in State Fiscal Year (SFY) 2025 in the accounts outlined in the attached fiscal details and are anticipated to be available in SFYs 2026 through 2030, with authority to adjust amounts within the price limitation between SFYs through the Budget Office, if needed and justified.

The Centers for Medicare and Medicaid Services (CMS) requires that managed care rate certifications must be done on a 12-month rating period demonstrating actuarial soundness thereby necessitating annual rate reviews in order to determine amounts each state fiscal year and corresponding contract amendments. Given the newly procured Medicaid managed care contracts effective upon Governor and Council approval with beneficiary services commencing September 1, 2024, a 10-month rating period is reflected in the indicative rates. The indicative rates will be amended in an Amendment #1 proposal prior to July 1, 2024. The proposal will reflect more current utilization experience and enrollment data, as well as any further Legislative action impacting rates effective on September 1, 2024, the coverage effective start date of the new

contracts. Thereafter, rates will be updated annually and as necessary for changes in the program enacted by the Legislature.

A description of how this contract aligns with the state budget process is included in the explanation below. For these reasons, expenditures for the program are identified only for SFY 2025.

See attached fiscal details.

EXPLANATION

The purpose of this request is to extend the Medicaid Care Management (MCM) Program by 5 additional years through recently procured Managed Care Organization (MCO) contracts. Proposals were solicited from qualified organizations to arrange physical health, behavioral health and pharmacy services for eligible and enrolled Medicaid beneficiaries. The three (3) selected MCOs are currently contracted with the Department, and will continue to arrange for the provision of State Plan covered services to approximately 180,000 MCM beneficiaries, including pregnant women, children, non-elderly, non-disabled adults under the age of 65, and individuals who are aged, blind or disabled, among others throughout the term of the contract, effective upon Governor and Council approval with beneficiary services effective September 1, 2024 through August 31, 2029. In advance of program start, the Department and MCOs will collaborate to conduct readiness efforts to launch the new MCM Program.

I. **Procurement Process**

The MCO contracts represent the culmination of the Department's second re-procurement initiative and third generation of the MCM Program since its commencement in December 2013.

In kick-off of the procurement planning, the Department published a draft MCO Request for Proposals (RFP) and MCM model contract for public comment. In addition, the Department held live public information sessions and a virtual session during the recent summer months in Plymouth, Keene, virtually from Concord, and to the State's Medical Care Advisory Committee (MCAC) before it was published to the Department's website for vendor responses. The aim of the procurement and resulting program is to promote optimal health and equitable access to services by better integrating physical and behavioral health care through a more meaningful and holistic role of Providers in the delivery of care.

The three (3) MCOs identified in the opening paragraph of this letter were selected through the competitive process via a Request for Proposals (RFP-2024-DMS-MANAG-02) posted on the Department of Health and Human Services' website from September 8, 2023 through October 30, 2023. A Mandatory Respondents' Conference was held on September 21, 2023. In-person attendance at the conference was a requirement to submit a proposal. The Department received four letters of intent and ultimately three proposals. The proposals were reviewed and scored by a team of individuals with program specific knowledge. The scoring summary is attached.

The MCOs demonstrated a willingness to work responsively with the State, Providers and beneficiaries to provide high-quality, integrated health care on a statewide basis. In their proposals, the MCOs identified ways in which they will meet or exceed MCM Program requirements and goals by offering innovative strategies for building on authentic patient/provider relationships with an emphasis on primary care prevention and provider-delivered care coordination to effectively reduce future illness burden and improve population health in every county of the State. The State and MCO strategies will inform initiatives to be implemented over the 5-year lifecycle of the contracts.

II. **Central Features of the New MCM Program**

New Hampshire's procurement and program objectives include:

- Patient and Provider centric approach to care delivery and preventive services with introduction of a Primary Care and Preventive Services Care Model built on authentic patient/provider relationships and provider-delivered care coordination supported by MCO analytics;
- Focused MCO-Delivered Care Management services for priority populations with an increased focus on priority populations, including:
    - Individuals who have required an inpatient admission for a behavioral health diagnosis within the previous 12 months;
    - Infants, children and youth who are involved in the State's child welfare system, Division for Children Youth and Families (DCYF), including those in foster care and who have elected voluntary services;
    - Babies experiencing low birth weight and/or neonatal abstinence syndrome (NAS); and
    - Individuals who are incarcerated and eligible for participation in the Department's Community Reentry demonstration program, pending CMS approval.
- Safe and effective use of medications, and a high-cost pharmacy risk pool, while providing access to new therapies, and an option starting in year three for a single pharmacy benefit manager starting in year three of the contracts;
- Strengthened alignment of the State's Community Mental Health Center funding with existing behavioral health investments by restructuring the capitation arrangement between the MCOs and CMHCs;
- Improved reliability, quality and safety of Non-Emergency Medical Transportation (NEMT) services with elevated standards and remedies applied to the MCOs' performance of broker and transportation provider oversight; and
- Expanded use of remedies and incentives for key quality and program integrity objectives, for example, statutory lead screenings and investigations of potential fraud, waste, and abuse.
- The Department will monitor MCO services by:
    - Operationalizing Exhibit O: Quality and Oversight Reporting Requirements, the MCM Program's performance monitoring program;
    - Levying financial penalties through its Exhibit N: Liquidated Damages Matrix, when appropriate;
    - Incentivizing program performance via a MCO capitation withhold program and a provider alternative payment model (APM); and
    - Supporting regular meetings with the MCOs.

Should the Governor and Council not authorize this request, Medicaid managed care services for the State's beneficiaries would cease if the contracts are not approved, and alternative Medicaid coverage solution would be necessary to continue health care coverage arrangements for the State's eligible beneficiaries.

Area served: Statewide

Source of Federal Funds: Assistance Listing Number #93.778, FAIN #2405NH5MAP

The Department will request funds from the Standard Medicaid Program General Funds in the event that Federal Funds are no longer available, and services are still needed.

Whereas, under the GAHCP this option is not available statutorily, the GAHCP would end. Further, if the non-federal Other Funds for the GAHCP are insufficient to cover the program, the projected shortfall can be transferred from the liquor commission fund, established in RSA 176:16, as provided for by HB 4 Section 351, of the 2019 NH Regular Legislative Session. Chapter 79, Section 407.

Respectfully submitted,

Ann Ch. N. Landry for:

6.2 **Capitation Payments**

6.2.1 Capitation payments made by the Department and retained by the MCO shall be for Medicaid-eligible Members. [42 CFR 438.3(c)(2)]

6.2.1.1 The per member per month (PMPM) capitation rates for the current contract period are shown in Exhibit C: Payment Terms.

Scored individuals are those with at least six months of eligibility and claims experience in the base data. The methodology shall exclude diagnosis codes related to radiology and laboratory services to avoid including false positive diagnostic indicators for tests run on an individual. Additionally, each scored member with less than 12 months of experience in the base data period shall also be assigned a durational adjustment to compensate for missing diagnoses due to shorter enrollment durations, similar to a missing data adjustment.

6.2.3.2 Each unscored member shall be assigned a demographic-only risk weight instead of receiving the average risk score for each MCO's scored members in the same rate cell. The risk adjustment methodology shall also incorporate a specific adjustment to address cost and acuity differences between the scored and unscored populations, which shall be documented by a thorough review of historical data for those populations based on generally accepted actuarial techniques.

6.2.3.3 Members shall be assigned to MCOs and rate cells using the actual enrollment by MCO in each quarter to calculate risk scores in order to capture actual membership growth for each MCO.

6.2.3.4 The Department and its actuary reserve the right to modify the risk adjustment methodology.

6.2.4 The MCO shall report to the Department within sixty (60) calendar days upon identifying any capitation or other payments in excess of amounts provided in this Agreement. [42 CFR 438.608(c)(3)]

6.2.6 The MCO shall submit Confidential Data on the basis of which the State certifies the actuarial soundness of capitation rates to an MCO, including base Confidential Data that is generated by the MCO. [42 CFR 438.604(a)(2); 42 CFR 438.606; 42 CFR 438.3; 42 CFR 438.5(c)]
