Funds to support this request are available in the following account in State FY 2025 and is contingent upon the availability and continued appropriation of funds in FY 2026 and FY 2027, with the ability to adjust encumbrances between State Fiscal Years through the Budget Office, if needed and justified.

EXPLANATION

The Agreement listed above is one of three (3) Statewide Agreements (44475, 44476, 44477), each of which has specific qualifications in the field of archaeology. The need for such services is in response to the National Environmental Policy Act of 1969, P.L. 91-910, which directs that, during the development of a project, a systematic interdisciplinary approach be used to assess beneficial and adverse social, economic, and environmental effects of projects. It also addresses the requirements of the National Historic Preservation Act of 1966, as amended in 2006, and NH RSA 227-C:9 to identify and evaluate historic resources and the effect of projects upon such resources. Three (3) agreements are proposed to assure timely services as required to meet Department design and construction schedules.

Three (3) existing on-call archaeology services agreements will expire on April 30, 2024.

Monadnock Arch. Consulting, LLC	\$200,000	\$99,605.83

In pursuing this Agreement, the Department followed a pre-qualified, low-bid selection procedure in accordance with the Department's *Consultant Procurement Manual, Section 2.2, Statewide Low Bid Contracts*, dated August 25, 2017, and pursuant to RSAs 21-I:22-c, 21-I:22-d, 228:4, and 228:5-a. To enable proper comparison of bids, a sample project with hypothetical tasks for work to be conducted under the Agreement was provided to all bidders. Bids were received from the five (5) pre-qualified firms. Agreements in the amount of \$200,000 each will be awarded to the A, B, and C low bidders. The contract type of fee is a specific rate of pay at the bid hourly rate for each classification of employee directly engaged in the work. The Agreement will be administered by the Bureau of Environment. The Federal Highway Administration may participate in these costs depending upon the funding of the individual projects undertaken.

The Department met on September 21, 2023, reviewed the qualifications of seven (7) firms submitting a Statement of Qualifications, and prequalified five (5) firms that met the minimum requirements. Invitations to Bid were extended to these firms on October 19, 2023, for the Bid Opening on November 16, 2023.

The firm of Heritage Consultants, LLC is the C low bidder, and is recommended for one of these contracts. This firm has an excellent reputation and has demonstrated its capability to perform the required services in similar contracts previously with the Department and/or with other agencies.

Heritage Consultants, LLC has agreed to furnish the on-call services for an amount not to exceed \$200,000. The cost for individual Task Orders assigned under this contract will be negotiated and use specific rates of pay in accordance with the contract labor rates used on the hypothetical bid tasks. No new tasks may be assigned after the above-noted completion date, however, completion of previously assigned work begun prior to the completion date will be allowed, subject to the written mutual agreement of both parties, which shall include a revised date of completion.

This Agreement (Statewide, 44475 On-Call Archaeological Services) has been approved by the Attorney General as to form and execution. The Department has verified that the necessary funds are available. Copies of the fully executed Agreement are on file at the Secretary of State's Office and the Department of Administrative Services, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

It is respectfully requested that authority be given to enter into this Agreement for consulting services as outlined above.

Sincerely,

10.3 227-C:11 Confidentiality of Archeological Site Location Information.—Information which may identify the location of any archeological site on state land, or under state waters, shall be treated with confidentiality so as to protect the resource from unauthorized field investigations and vandalism. Toward this end, state agencies, departments, commissions, institutions and political subdivisions, permittees and private landowners with preservation and conservation agreements shall consult with the commissioner before any disclosure of information to insure that the disclosure would not create a risk to the historic resource or that it is done in a manner to minimize the risk. Such information is exempt from all laws providing rights to public access. Disclosure for the public record for tax assessment, transfer, sale or other consideration of the property shall receive careful consideration to minimize the risk to the resource.

12.3 All subcontracts shall be in writing and those exceeding \$10,000 shall contain all provisions of this AGREEMENT, including "Certification of CONSULTANT/Subconsultant". A copy of each subcontract shall be submitted for the STATE'S files.

27 APPLICABLE FEDERAL ENVIRONMENTAL RESOURCE LAWS.

27.1 The provisions of 23 CFR 771 and 36 CFR 800, as appropriate, are incorporated into this AGREEMENT by reference. 23 CFR 771 is a Federal Highway Administration regulation that sets forth procedures for complying with other environmental laws, principally Section 4(f) of the Department of Transportation Act, 49 U.S.C. 1653(f) and 23 U.S.C. 138, and provides guidance for the preparation of environmental documents.

27.2 The Advisory Council on Historic Preservation regulation, 36 CFR 800, governs the process of review and comment for federally supported projects that affect historic properties and serves to implement the provisions of Section 106 of the National Historic Preservation Act of 1966. Section 106 of the National Historic Preservation Act requires all federal agencies and their agents to take into account the impacts of their undertakings on properties eligible for or listed in the National Register of Historic Places and affords the Advisory Council on Historic Preservation the opportunity to comment on the undertakings prior to the project's execution.

EXHIBIT B SERVICES TO BE PERFORMED

The types of technical and professional services required under the terms of the AGREEMENT shall be those archaeological investigations deemed necessary by the STATE to obtain sensitivity assessments and analyses, and if necessary, to implement activities for ensuring avoidance, minimization, or mitigation for impacts to archaeological resources. These services shall include Phase IA Archaeological Sensitivity Assessments, followed, if necessary, by a series of investigations, including Phase IB Intensive Archaeological Investigation, Phase II Determination of Eligibility, Phase III Data Recovery and/or other forms of investigations and mitigation, such as archaeological construction monitoring.

Scope of Work

The CONTRACTOR shall perform, as necessary, archaeological investigations for the STATE in order to acquire data for the environmental analysis of transportation location and design studies and projects required under the National Environmental Policy Act of 1969, Section 106 of National Historic Preservation Act, State RSA 227-C, and Section 4(f) of the Department of Transportation Act. In general, the investigation will initiate studies as there will not have been previous research undertaken for the project area. For some projects, however, where archaeological studies have been previously undertaken, the data collected during that study will be used to supplement the results of the investigations conducted under this AGREEMENT.

The objective of the work proposed under the AGREEMENT is to obtain archaeological and/or historical data in an area where transportation improvements and projects are being considered so that an assessment of the potential existing resources and impacts of a transportation improvement may be addressed.

Studies under this AGREEMENT may consist of preparation of any of the following, using the Standards and Guidelines for Archaeological Investigations in New Hampshire (New Hampshire Division of Historical Resources (NHDHR) March 2018):

- Phase IA Archaeological Sensitivity Assessment;
- Phase IB Intensive Archaeological Investigation;
- Phase II Determination of Eligibility;
- Phase III Data Recovery;
- Archaeological Monitoring and actions for cemeteries and/or unanticipated finds.

A range of activities may comprise these investigations, including:

- Environmental, cartographic and literature research;
- Compilation of historic context;
- Field investigations;
- Data analysis;
- Constraints mapping and narratives in environmental documents summarizing the findings, significance, integrity, and National Register of Historic Places eligibility of archaeological resources within the project area and Area of Potential Effects (APE);
- Processing, analysis, and curation of archaeological materials and associated records to be submitted to the NHDHR laboratory;

- Compilation of submittal documents, including End of Field letters, Bibliography/Short Forms, final reports, Archaeological Inventory Site forms; research design, detailed artifact catalogs, and/or other specified documents;
- Inclusion of historic maps, photographs and other illustrations;
- Summarization of methodology, comparative analysis, study results, recommendations for avoidance, continued studies, and/or preservation in place;
- Development of wording for interpretive signs, exhibit text, websites and other final products; and
- Other related work required by federal and state historic preservation regulations for any assigned project or study.

It is intended that close cooperation be maintained between the CONTRACTOR and the STATE and that the Federal Highway Administration (FHWA), or other lead federal agency as may be determined for a project, shall be afforded full opportunity to observe and review all phases of authorized work.

The number of times a CONTRACTOR is retained to provide the services described in this AGREEMENT is dependent on several factors, namely:

- The current number of projects assigned to the CONTRACTOR, this being at the discretion of the STATE;
- The amount of cultural resources investigation work required for any given project;
- The ability of the STATE to perform the required services with in-house personnel; and
- The STATE'S satisfaction with the performance of the CONTRACTOR'S services.

The work actually assigned to the CONTRACTOR, if any, may vary and may consist of a portion of the steps described herein.

Task Orders

As needs develop, the STATE will issue specific Task Orders to the CONTRACTOR. A Task Order is an individually funded order with its own unique scope of work issued against the basic contract services, terms and conditions, to carry out a specific project for the STATE. These Task Orders may be initiated by a phone call, email, or a Request for Proposal (RFP) letter that may include a detailed description of the project or elements of work, an outline of the services required, responsibilities of the parties, materials to be supplied by the STATE, specified accuracy requirements, and other information necessary to complete the work for the Task Order. The CONTRACTOR shall then submit to the STATE for approval a scope of work and fee proposal and a tentative work schedule and completion date for each Task Order assigned. The STATE will review the CONTRACTOR'S proposal and schedule negotiations, if necessary, to clarify the proposed scope of work, the number of work hours needed, and any other associated proposed costs in order to establish the final not-to-exceed or lump-sum amount for the Task Order. Upon approval of the CONTRACTOR'S proposal by the STATE and FHWA, or other lead federal agency as may be determined for a project (if applicable), the STATE will issue a Task Order Authorization to Proceed Letter. The CONTRACTOR shall sign the Authorization to Proceed Letter and return it to the STATE. A conference may be required to turn over a Task Order to the CONTRACTOR. Costs associated with the CONTRACTOR'S preparation of a scope of work and fee for a Task Order are non-reimbursable.

If revisions to a Task Order scope of work, and/or the fee summary or completion date included in the Task Order Authorization to Proceed is/are required, it shall be documented in writing by a Bureau-level amendment. The amendment will be filed with the Authorization to Proceed in the AGREEMENT.

Submission of Reports, Plans and Documents

Each submission shall be supplemented with such drawings, illustrations, and descriptive matter as are necessary to facilitate a comprehensive review of proposed concepts.

1. Archaeological Reports and Other Work Products

The forms, reports, or other products (including a digital submission to NHDOT and NHDHR, and a hard copy to NHDHR, as well as other copies as specified in the task order as needed) documenting the findings of the work performed shall be filed upon completion of the authorized work. The products shall be filed in a timely manner with the STATE upon completion of the authorized work. Draft products must be reviewed and found acceptable to the STATE, NHDHR and FHWA, or other lead federal agency as may be determined for a project, and final products with requested change may be requested.

2. Disposition of Artifacts Found

The CONTRACTOR will specify the laboratory location to be used during processing, analysis, and temporary storage, and describe provisions for handling the artifacts collected during the work. It will be the responsibility of the CONTRACTOR to deliver and prepare the artifacts for transfer to the approved location, either the private property owner or the NHDHR collection and curation management facility. The expense of shipping objects to the nearest point at which suitable transportation or storage is available and preparing such artifacts may be included in the work provided under this AGREEMENT. Collections must be cared for, managed, and curated according to guidelines specified at 36 CFR 800, the Secretary of the Interior's Standards and Guidelines for Archeological Documentation, the Archeological Resources Protection Act, and 36 CFR 79. In general, artifact collections recovered from State property will be transferred to the NHDHR curation and collection management facility at 99 Airport Road in Concord, NH. The CONTRACTOR will be expected to support its design proposals in any issues resulting from review by the STATE or in the public participation phase (including agency coordination), with alternative studies and reasonably itemized study cost comparisons for alternate schemes.

Deliverables

All work and supporting documents under this AGREEMENT shall be developed by the CONTRACTOR and delivered to the STATE according to the following formats:

Electronic Transfer of Data

The STATE requires the following to ensure compatibility with software used by the STATE and to ensure the efficient and timely exchange of computer files between the STATE and the CONTRACTOR. All files submitted must be fully compatible with the formats listed in this document without any conversion or editing by the STATE. Any files requiring conversion and/or editing by the STATE will not be accepted. All files shall be virus free. All files shall use the STATE'S file naming convention.

Word Processing, Spreadsheet, and Database Files

All relevant files shall be provided in a format fully compatible, as appropriate, with the following:

Word Processing: Microsoft Word 2016 or NHDOT compatible version

Geographic Information System (GIS)

All GIS shapefiles shall be fully compatible with Arc GIS/ArcMap Version 10.3.1 (the version being used by the Department).

These specifications will be updated as necessary to reflect changes in STATE software such as adding new software or updating to new versions of existing software. In such instances, the CONTRACTOR will be promptly notified.

Upon completion of the AGREEMENT, the CONTRACTOR shall turn over all documentation, including, but not limited to, all reports, test results, drawings, plans, and all financial supporting documentation in the formats described above.

The General Services Administration (GSA), Regulation 41 CFR Part 301-4, specifies the FTR automobile mileage reimbursement. Mileage and per diem costs shall be subject to approval by the STATE.
