This request is **Retroactive** due to unanticipated delays in the execution of this Agreement and to align with the start date of the three (3) month fellowship. three (3) months to complete the work, and the funding being available only through August 16th, 2024.

This cooperative project agreement will allow the Department to work with the Contractor by hosting a student fellow to conduct food safety assessments at NH farmers markets. The Department will use the information gathered to develop educational materials for small food producers and to make policy recommendations. The Department will work with the UNH Sustainability Fellow to enhance food safety of local foods by evaluating food safety practices of food producers at New Hampshire farmers markets, summarizing findings, and making recommendations to improve food safety for locally produced foods.

The Department will monitor services by ensuring the Contractor's fellow executes the following capacities:

- Communicates information effectively using the appropriate level of judgment, accuracy, and courtesy with Department constituents.
- Exhibits accuracy, attention to detail, consistency, and ability to meet multiple deadlines in all work efforts.
- Demonstrates ability to synthesize information (quantitative/qualitative) and completes components of preliminary and final reports, including spreadsheets.
- Demonstrates ability to work independently and collaboratively.

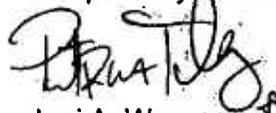

Should the Governor and Council not authorize this request, the Department will have limited capacity to gather data for developing educational materials and policy recommendations to enhance the safety of the state's food supply.

If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
