

The State of New Hampshire
Department of Environmental Services

Robert R. Scott, Commissioner

54

July 05, 2024

His Excellency, Governor Christopher T. Sununu
and The Honorable Council
State House
Concord, NH 03301

REQUESTED ACTION

Approve Winmiir Condominium Association's request for a five-year permit time extension of NH Department of Environmental Services (NHDES) Wetland Bureau permit #2019-01727, to perform the following work on Lake Winnepesaukee in Tuftonboro, in accordance with RSA 482-A:3, XIV-a. This project was previously approved by the Governor and Executive Council on September 18, 2019, Item #76. No comments were submitted by the Tuftonboro Conservation Commission regarding the project as proposed.

Dredge 66 cubic yards of material from 2,350 square feet of lake bed adjacent to, and within the slips provided by, a major docking system on an average of 568 linear feet of shoreline frontage along Lake Winnepesaukee in Winter Harbor in Tuftonboro.

NHDES imposed the following conditions as part of this approval:

1. All work shall be in accordance with plans by Folsom Design Group dated July 19, 2019 and received by the NH Department of Environmental Services (NHDES) on July 19, 2019.
2. All dredged and excavated material and construction-related debris shall be placed outside of the areas subject to RSA 482-A. Any spoil material deposited within 250 feet of any surface water shall comply with RSA 483-B.
3. Appropriate siltation and erosion controls shall be in place prior to construction, shall be maintained during construction, and shall remain until the area is stabilized. Temporary controls shall be removed once the area has been stabilized.
4. Appropriate turbidity controls shall be installed prior to construction, shall be maintained during construction such that no turbidity escapes the immediate dredge area, and shall remain until suspended particles have settled and the water at the work site has returned to normal clarity.
5. This permit shall not preclude the NHDES from taking any enforcement or revocation action if the NHDES later determines that any of the structures depicted as "existing" on the plans submitted by the applicant were not previously permitted or grandfathered.
6. All activities shall be in accordance with the Shoreland Water Quality Protection Act, RSA 483-B. The owner is responsible for obtaining any Shoreland Permit that may be required per RSA 483-B, for construction, excavation or fill that will occur within the Protected Shoreland.
7. Work shall be carried out in a time and manner to avoid disturbances to migratory waterfowl breeding and nesting areas.

8. Work authorized shall be carried out such that there are no discharges in or to spawning or nursery areas during spawning seasons. Impacts to such areas shall be avoided or minimized to the maximum extent practicable during all other times of the year.

EXPLANATION

NHDES approved this project on June 17, 2024. NHDES supported its decision with the following findings: Per Rule Env-Wt 314.05(b), the permittee submitted a written request to the department for an extension of permit [2019-01727] prior to the expiration of the permit.

Per Rule Env-Wt 314.05(b), the permittee submitted a written request to the department for an extension of permit [2019-01727] prior to the expiration of the permit.

Per Rule Env-Wt 314.05(c)(2), the submitted request included a statement, signed and certified in accordance with Env-Wt 311.11, that: the permit for which extension is sought has not been revoked or suspended without reinstatement; extension of the permit would not violate a condition of law or rule; the project is proceeding towards completion in accordance with plans and other documentation referenced by the permit; the applicant proposes reasonable mitigation measures to protect the public waters of the state from deterioration during the period of extension; and the wetland delineation is still valid pursuant to Env-Wt 406.01(b).

Per Rule Env-Wt 314.05(d), as specified in RSA 482-A:3, XIV-a(a), the department finds the permittee has submitted the request as specified in Env-Wt 314.05(b) and (c) and the mitigation measures proposed by the permittee are adequate to protect public waters from deterioration. The department therefore grants one extension of 5 additional years for permit [2019-01727].

NHDES Wetlands Bureau permit #2019-01727 application documents are enclosed for review by the Governor and the Executive Council in consideration of this request and in accordance with RSA 482-A:3, II(a), as it is a major project located in New Hampshire public waters.

We respectfully request your approval of this item.

Robert R. Scott
Commissioner

11. PROPERTY OWNER SIGNATURE			
As the <u>applicant</u> to the Required Attachment's document for clarification of the below statements:			
By signing the application, I am certifying that:			
<ol style="list-style-type: none"> I authorize the applicant and/or agent indicated on this form to act in my behalf in the processing of this application, and to furnish upon request, supplemental information in support of this permit application. I have reviewed and submitted information & attachments outlined in the <u>Instructions and Required Attachment</u> document. All abutters have been identified in accordance with RSA 482-A:3, I and Env-Wt 100-900. I have read and provided the required information outlined in Env-Wt 302.04 for the applicable project type. I have read and understand Env-Wt 302.03 and have chosen the least impacting alternative. Any structure that I am proposing to repair/replace was either previously permitted by the Wetlands Bureau or would be considered grandfathered per Env-Wt 101.47. I have submitted a Request for Project Review (RPR) Form (www.nh.gov/nhdhr/review) to the NH State Historic Preservation Officer (SHPO) at the NH Division of Historical Resources to identify the presence of historical/ archeological resources while coordinating with the lead federal agency for National Historic Preservation Act (NHPA) 106 compliance. I authorize NHDES and the municipal conservation commission to inspect the site of the proposed project. I have reviewed the information being submitted and that to the best of my knowledge the information is true and accurate. I understand that the willful submission of falsified or misrepresented information to the NHDES is a criminal act, which may result in legal action.. I am aware that the work I am proposing may require additional state, local or federal permits which I am responsible for obtaining. The mailing addresses I have provided are up to date and appropriate for receipt of NHDES correspondence. NHDES will not forward returned

MUNICIPAL SIGNATURES

12. CONSERVATION COMMISSION SIGNATURE

The signature below certifies that the municipal conservation commission has reviewed this application, and

1. Waives its right to intervene per RSA 482-A:11
2. Believes that the application and submitted plans accurately represent the proposed project, and
3. Has no objection to permitting the proposed work.

<input type="checkbox"/>	Print name legibly	Date
--------------------------	--------------------	------

DIRECTIONS FOR CONSERVATION COMMISSION

1. Expedited review ONLY requires that the Conservation Commission's signature is obtained in the space above.
2. Expedited review requires the Conservation Commission signature be obtained prior to the submittal of the original application to the Town/City Clerk for signature.
3. The Conservation Commission may refuse to sign. If the Conservation Commission does not sign this statement for any reason, the application is not eligible for expedited review and the application will be reviewed in the standard review time frame.

13. TOWN / CITY CLERK SIGNATURE

As required by Chapter 482-A:3 (amended 2014), I hereby certify that the applicant has filed four application forms, four detailed plans, and four USGS location maps with the town/city indicated below.

<input type="checkbox"/>	Print name legibly	Town/City	Date
--------------------------	--------------------	-----------	------

DIRECTIONS FOR TOWN/CITY CLERK:
Per RSA 482-A:3

1. For applications where "Expedited Review" is checked on page 1, if the Conservation Commission signature is not present, NHDES will accept the permit application, but it will NOT receive the expedited review time.
2. IMMEDIATELY sign the original application form and four copies in the signature space provided above.
3. Return the signed original application form and attachments to the applicant so that the applicant may submit the application form and attachments to NHDES by mail or hand delivery.
4. IMMEDIATELY distribute a copy of the application with one complete set of attachments to each of the following bodies: the municipal Conservation Commission, the local governing body (Board of Selectmen or Town/City Council), and the Planning Board; and
5. Retain one copy of the application form and one complete set of attachments and make them reasonably accessible for public review.

DIRECTIONS FOR APPLICANT:

1. Submit the single, original permit application form bearing the signature of the Town/ City Clerk, additional materials, and the application fee to NHDES by mail or hand delivery.

IMPACT AREA
 For each jurisdictional area that will be/have been impacted, provide square feet and, if applicable, linear feet of impact.
Permanent: impacts that will remain after the project is complete.
Temporary: impacts not intended to remain (and will be restored to pre-construction conditions) after the project is completed.
Intermittent Streams: linear footage distance of disturbance is measured along the thread of the channel.
Perennial Streams/Rivers: the total linear footage distance is calculated by summing the lengths of disturbance to the channel and each bank.

TOTAL	2,350 / 200	/ 250

15. APPLICATION FEE: See the Instructions & Required Attachments document for further instruction

Minimum Impact Fee: Flat fee of \$ 200

Minor or Major Impact Fee: Calculate using the below table below

Permanent and Temporary (non-docking) 2,600 sq. ft. X \$0.20 = \$ 520.00

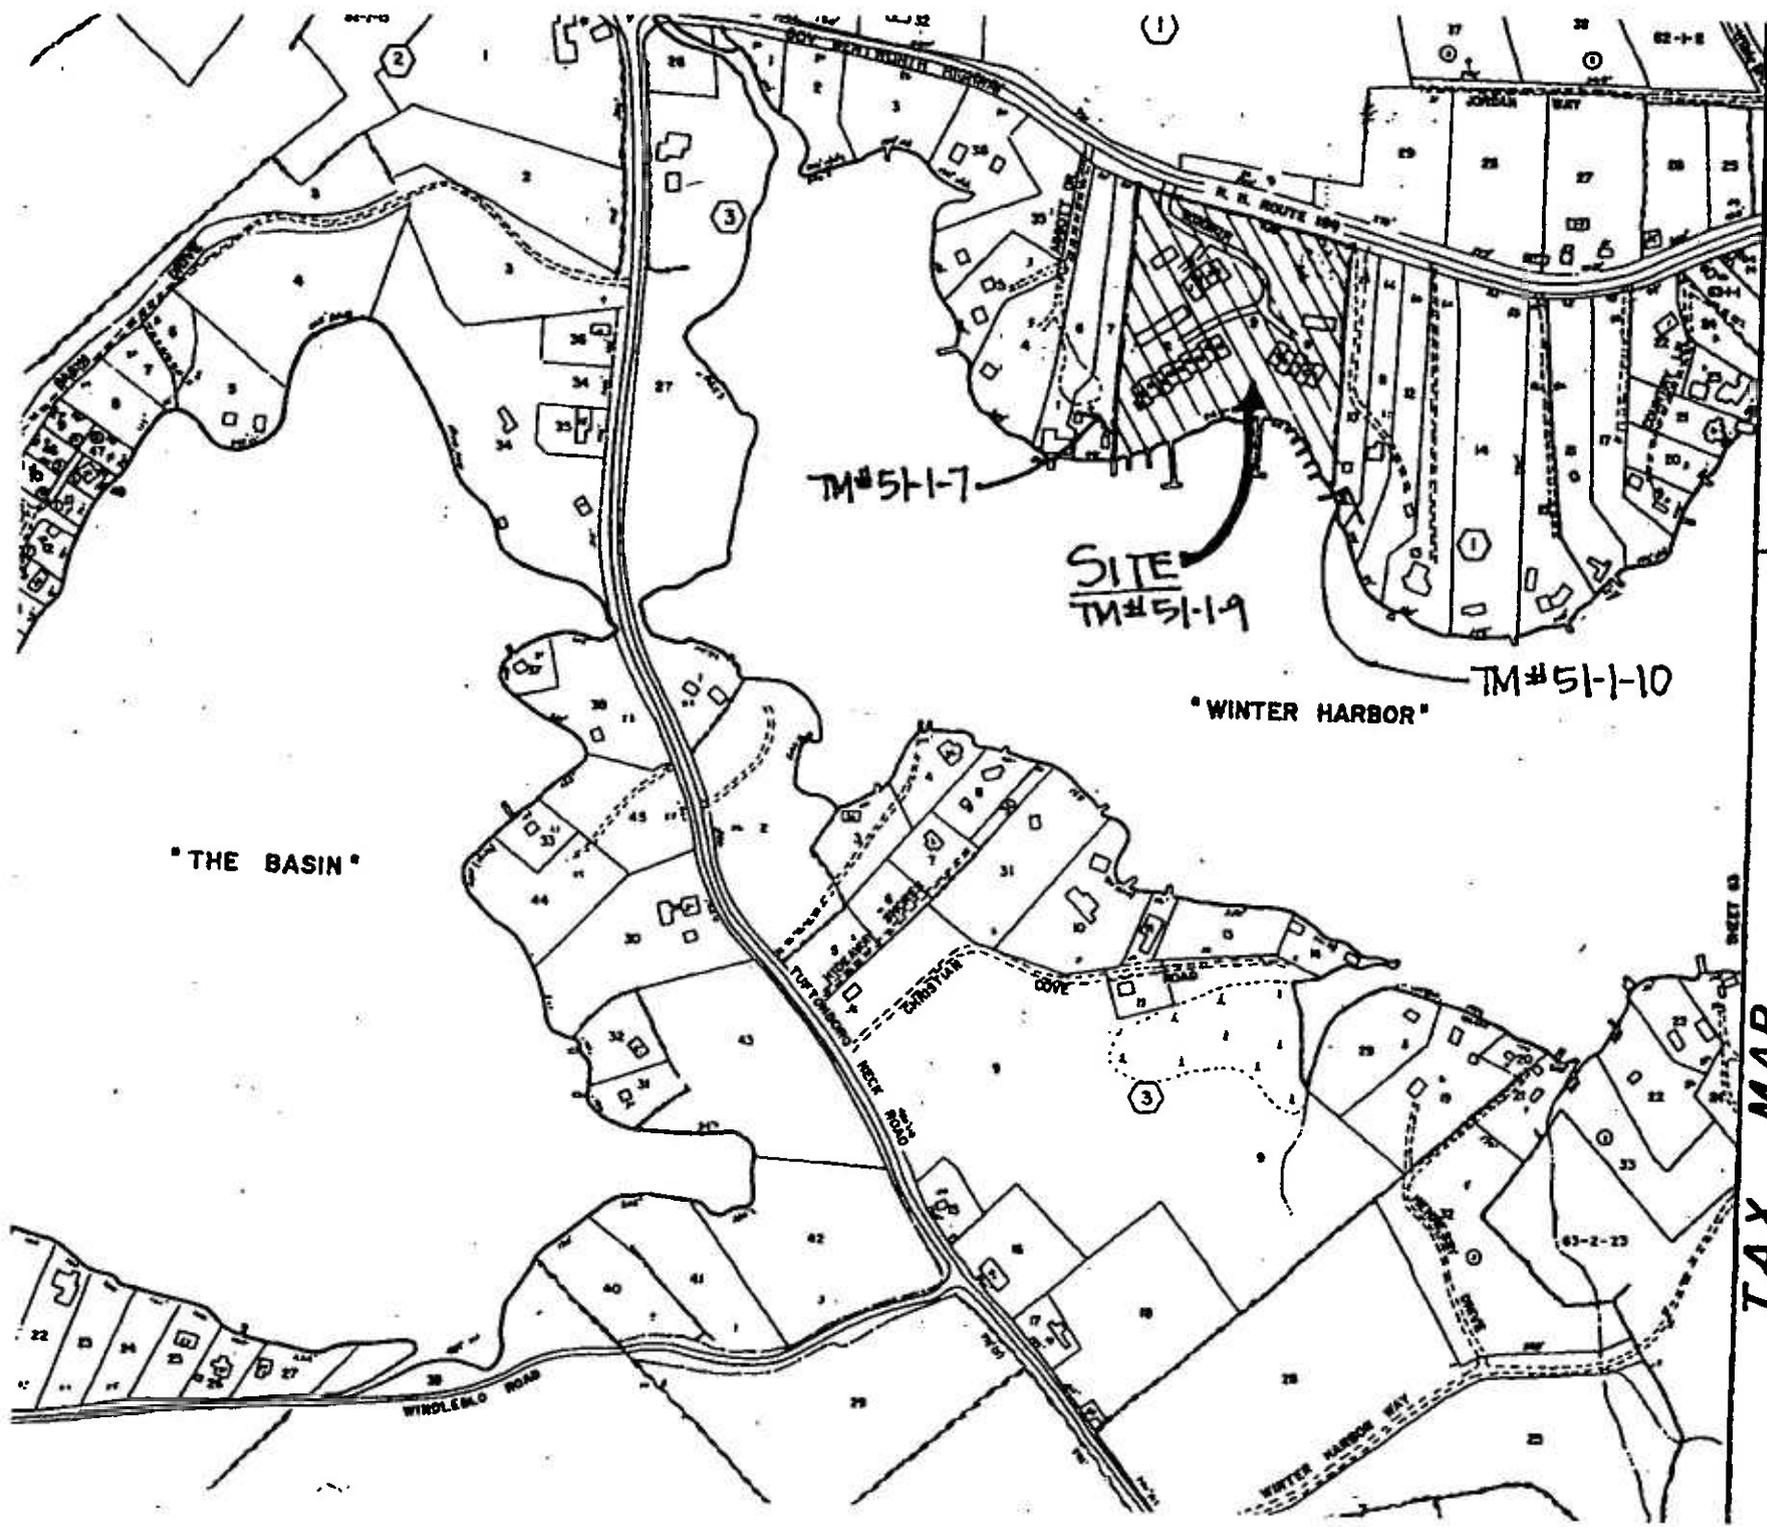

Temporary (seasonal) docking structure: _____ sq. ft. X \$1.00 = \$ _____

Permanent docking structure: _____ sq. ft. X \$2.00 = \$ _____

Projects proposing shoreline structures (including docks) add \$200 = \$ _____

Total = \$ _____

The Application Fee is the above calculated Total or \$200, whichever is greater = \$ 520.00

Project Description: Dredge 66 cubic yards from 2,350 sq. ft. of lake bed adjacent to a major docking system and attach 30 linear feet of skirting to the docking system to prevent sand migration.

The NH Natural Heritage database has been checked by staff of the NH Natural Heritage Bureau and/or the NH Nongame and Endangered Species Program for records of rare species and exemplary natural communities near the area mapped below. The species considered include those listed as Threatened or Endangered by either the state of New Hampshire or the federal government.

It was determined that, although there was a NHB record (e.g., rare wildlife, plant, and/or natural community) present in the vicinity, we do not expect that it will be impacted by the proposed project. This determination was made based on the project information submitted via the NHB Datacheck Tool on 4/26/2019, and cannot be used for any other project.
