

The State of New Hampshire
Department of Environmental Services

Robert R. Scott, Commissioner

55

July 19, 2024

His Excellency, Governor Christopher T. Sununu
and The Honorable Council
State House
Concord, NH 03301

REQUESTED ACTION

Approve Benjamin Solky's request to perform the following work on Lake Winnepesaukee in Alton pursuant to NH Department of Environmental Services (NHDES) Wetlands Bureau permit #2024-00629, and in accordance with RSA 482-A:3. No comments were submitted by the Alton Conservation Commission regarding the project as proposed.

Impact 418 square feet along 22 feet of bank in order to construct a 70 square foot permeable patio, resurface the existing steps and install a concrete anchoring pad and a 6 foot x 40 foot seasonal pier on an average of 515 feet of frontage along Lake Winnepesaukee in Alton.

NHDES imposed the following conditions as part of this approval:

1. In accordance with Env-Wt 307.16, all work shall be done in accordance with the revised plans, revision dated May 30, 2024 by Belknap Landscape LLC, as received by the NH Department of Environmental Services (NHDES) on June 5, 2024.
2. This permit shall not be effective until it has been recorded in the Belknap County Registry of Deeds and a copy of the recorded permit has been provided to the department as required pursuant to RSA 482-A:3, and Env-Wt 314.02.
3. The concrete pad shall be constructed landward of the normal high water line (Elev. 504.32) as required per Env-Wt 513.13, (d).
4. Any subdivision of the property frontage will require removal of a sufficient portion of the docking structures to comply with the dock size and density requirements in effect at the time of the subdivision as required to maintain compliance with Env-Wt 314.02 and Env-Wt 513.12.
5. Only those structures shown on the approved plans shall be installed or constructed along this frontage as required per Env-Wt 513.22, (a).
6. All portions of the docking structures shall be located at least 20 feet from the abutting property lines and no watercraft shall be secured to the docking facility such that it crosses over the imaginary extension of the property lines over the surface water as required by RSA 482-A:3, XIII.
7. All seasonal structures, including watercraft lifts, shall be removed for the non-boating season as required per Env-Wt 513.22.
8. The seasonal dock shall be removed from the water prior to applying any paint, stain, or other preservative coating, and not returned to the water until after such coating is dry as required per Env-Wt 513.22(b)(4).

29 Hazen Drive • PO Box 95 • Concord, NH 03302-0095

NHDES Main Line: (603) 271-3503 • Subsurface Fax: (603) 271-6683 • Wetlands Fax: (603) 271-6588

TDD Access: Relay NH 1 (800) 735-2964

9. The owner understands and accepts that should these docking structures be found to have an unreasonable impact on the ability of abutting owners to use and enjoy their properties or the public's right to navigation, passage, and use of the resource for commerce and recreation the structures shall be subject to removal pursuant to RSA 482-A:1, RSA 482-A:11, II, and Env-Wt 513.03(a).
10. All development activities associated with any project shall be conducted in compliance with applicable requirements of RSA 483-B and Env-Wq 1400 during and after construction as required pursuant to RSA 483-B:3.
11. Pursuant to RSA 483-B:9, V(a)(2)(D), (v), this permit does not authorize the removal of trees or saplings within the waterfront buffer that would result in a tree and sapling point score below the minimum required per RSA 483-B:9, V(a)(2)(D), (iv).
12. Work authorized shall be carried out in accordance with Env-Wt 307 such that appropriate turbidity controls are in place to protect water quality, that no turbidity escapes the immediate dredge area, and that appropriate turbidity controls shall remain until suspended particles have settled and water at the work site has returned to normal clarity.
13. Pursuant to RSA 482-A:14, RSA 482-A:14-b, and RSA 482-A:14-c, NHDES is authorized to take appropriate compliance actions should it be determined that, based upon additional information which becomes available, any of the structures depicted as "existing" on the plans submitted by or on behalf of the permittee were not previously permitted or grandfathered.

EXPLANATION

NHDES approved this project on June 12, 2024. NHDES supported its decision with the following findings:

1. This is a major impact project per Administrative Rule Env-Wt 513.24(c)(2), the dock proposed is part of a major docking system.
2. The applicant has an average of 515 feet of frontage along Lake Winnepesaukee.
3. A maximum of 7 slips may be permitted on this frontage per Rule Env-Wt 513.12, Frontage Requirements for Private and Non-commercial Docking Structures.
4. The proposed docking facility will provide 6 slips as defined per RSA 482-A:2, VIII, and therefore meets Rule Env-Wt 513.12.
5. The NHDES finds that because the project is not of significant public interest and will not significantly impair the resources of Lake Winnepesaukee a public hearing under RSA 482-A:8 is not required.
6. No concerns were received from abutters nor the local Conservation Commission related to the project.
7. The NHDES finds that the project as proposed and conditioned meets the requirements of RSA 482-A and the Wetlands Program Code of Administrative Rules Chapters Env-Wt 100 - 900. No waivers of RSA 482-A or the Wetlands Program Code of Administrative Rules Chapters Env-Wt 100 - 900 were requested or approved under this permit action.

NHDES Wetlands Bureau permit #2024-00629 application documents are enclosed for review by the Governor and the Executive Council in consideration of this request and in accordance with RSA 482-A:3, II(a), as it is a major project located in New Hampshire public waters.

We respectfully request your approval of this item.

Robert R. Scott
Commissioner

STANDARD DREDGE AND FILL WETLANDS PERMIT APPLICATION

Water Division / Land Resources Management
Check the Status of your Application

LAND RESOURCES MANAGEMENT

A person may request a waiver of the requirements in Rules Env-Wt 100-900 to accommodate situations where strict adherence to the requirements would not be in the best interest of the public or the environment but is still in compliance with RSA 482-A. A person may also request a waiver of the standards for existing dwellings over water pursuant to RSA 482-A:26, III(b). For more information, please consult the Waiver Request Form.

SECTION 1 - REQUIRED PLANNING FOR ALL PROJECTS (Env-Wt 406.05, RSA 482-A:3, (NHP))

Please use the Wetland Permit Planning Tool (WPP) of the Natural Heritage Bureau (NHB), Designated Soil (the Accord Restoration Mapper), or other sources to assist in identifying key features (e.g., Priority Resource Area (PRA), protected species or habitats, coastal areas, designated rivers, or designated prime wetlands).

<p>Has the required planning been completed?</p>	<input checked="" type="radio"/> Yes <input type="radio"/> No
<p>Does the property contain a PRA? If yes, provide the following information:</p> <ul style="list-style-type: none"> • Does the project qualify for an Impact Classification Adjustment (e.g. NH Fish and Game Department (NHFG) and NHB agreement for a classification downgrade) or a Project-Type Exception (e.g. Maintenance or Statutory Permit-by-Notification (SPN) project)? See Env-Wt 407.02 and Env-Wt 407.04. • Protected species or habitat? <ul style="list-style-type: none"> ○ If yes, species or habitat name(s): ○ NHB Project ID #: • Bog? • Floodplain wetland contiguous to a tier 3 or higher watercourse? • Designated prime wetland or duly-established 100-foot buffer? • Sand dune, tidal wetland, tidal water, or undeveloped tidal buffer zone? 	<input type="radio"/> Yes <input checked="" type="radio"/> No <input type="radio"/> Yes <input checked="" type="radio"/> No
<p>Is the property within a Designated River corridor? If yes, provide the following information:</p> <ul style="list-style-type: none"> • Name of Local River Management Advisory Committee (LAC): • A copy of the application was sent to the LAC on Month: Day: Year: 	<input type="radio"/> Yes <input type="radio"/> No

For dredging projects, is the subject property contaminated? • If yes, list contaminant:	<input type="radio"/> Yes <input checked="" type="radio"/> No
Is there potential to impact impaired waters, class A waters, or outstanding resource waters?	<input type="radio"/> Yes <input checked="" type="radio"/> No
For stream crossing projects, provide watershed size (see <u>WPPT</u> or Stream Stats):	
SECTION 2 - PROJECT DESCRIPTION (see W-01-04(II)) Provide a description of the project and the purpose of the project, intended for the proposed impacts, all anticipated areas of influence of the proposed work to be performed, and whether impacts are temporary or permanent.	
<p>Total Impact of 418 s.f. Construction of a Seasonal Dock/water access- 6' width by 40' length- for the purposes of swimmers safely entering water deep enough to cover dangerous rocks. Construction of a small (approx 70 s.f.) pervious Observation Patio, to observe client's children while in lake. This Patio will use stone walls from stone on site and will be connected to the dock and existing Stairway, all of which will have the approximate elevation of 506.40'. These will be connected by an Anchoring Block, which will cover the last three (3) existing steps lakeside- this will bring all three structures (Stairwell, Observation Patio & Seasonal Dock) to the aforementioned elevation. All construction work will done by barge, with the exceptions of planting the slope immediately behind said Patio & the resurfacing of the Stairwell's treads. All surface materials and plantings TBD. A concurrent Shoreland permit application will handle the enlargement of the upper Patio (existing). No construction work shall take place in areas above 25% slope.</p>	
SECTION 3 - PROJECTIONS Separate Wetland permit applications must be submitted for each municipality within which wetlands are located.

SECTION 7: RESOURCE-SPECIFIC CRITERIA ESTABLISHED IN Env-Wt 400, Env-Wt 500, Env-Wt 508, Env-Wt 509, 510, 511, 512, 513, 514, 515, 516, 517, 518, 519, 520, 521, 522, 523, 524, 525, 526, 527, 528, 529, 530, 531, 532, 533, 534, 535, 536, 537, 538, 539, 540, 541, 542, 543, 544, 545, 546, 547, 548, 549, 550, 551, 552, 553, 554, 555, 556, 557, 558, 559, 560, 561, 562, 563, 564, 565, 566, 567, 568, 569, 570, 571, 572, 573, 574, 575, 576, 577, 578, 579, 580, 581, 582, 583, 584, 585, 586, 587, 588, 589, 590, 591, 592, 593, 594, 595, 596, 597, 598, 599, 600, 601, 602, 603, 604, 605, 606, 607, 608, 609, 610, 611, 612, 613, 614, 615, 616, 617, 618, 619, 620, 621, 622, 623, 624, 625, 626, 627, 628, 629, 630, 631, 632, 633, 634, 635, 636, 637, 638, 639, 640, 641, 642, 643, 644, 645, 646, 647, 648, 649, 650, 651, 652, 653, 654, 655, 656, 657, 658, 659, 660, 661, 662, 663, 664, 665, 666, 667, 668, 669, 670, 671, 672, 673, 674, 675, 676, 677, 678, 679, 680, 681, 682, 683, 684, 685, 686, 687, 688, 689, 690, 691, 692, 693, 694, 695, 696, 697, 698, 699, 700, 701, 702, 703, 704, 705, 706, 707, 708, 709, 710, 711, 712, 713, 714, 715, 716, 717, 718, 719, 720, 721, 722, 723, 724, 725, 726, 727, 728, 729, 730, 731, 732, 733, 734, 735, 736, 737, 738, 739, 740, 741, 742, 743, 744, 745, 746, 747, 748, 749, 750, 751, 752, 753, 754, 755, 756, 757, 758, 759, 760, 761, 762, 763, 764, 765, 766, 767, 768, 769, 770, 771, 772, 773, 774, 775, 776, 777, 778, 779, 780, 781, 782, 783, 784, 785, 786, 787, 788, 789, 790, 791, 792, 793, 794, 795, 796, 797, 798, 799, 800, 801, 802, 803, 804, 805, 806, 807, 808, 809, 810, 811, 812, 813, 814, 815, 816, 817, 818, 819, 820, 821, 822, 823, 824, 825, 826, 827, 828, 829, 830, 831, 832, 833, 834, 835, 836, 837, 838, 839, 840, 841, 842, 843, 844, 845, 846, 847, 848, 849, 850, 851, 852, 853, 854, 855, 856, 857, 858, 859, 860, 861, 862, 863, 864, 865, 866, 867, 868, 869, 870, 871, 872, 873, 874, 875, 876, 877, 878, 879, 880, 881, 882, 883, 884, 885, 886, 887, 888, 889, 890, 891, 892, 893, 894, 895, 896, 897, 898, 899, 900, 901, 902, 903, 904, 905, 906, 907, 908, 909, 910, 911, 912, 913, 914, 915, 916, 917, 918, 919, 920, 921, 922, 923, 924, 925, 926, 927, 928, 929, 930, 931, 932, 933, 934, 935, 936, 937, 938, 939, 940, 941, 942, 943, 944, 945, 946, 947, 948, 949, 950, 951, 952, 953, 954, 955, 956, 957, 958, 959, 960, 961, 962, 963, 964, 965, 966, 967, 968, 969, 970, 971, 972, 973, 974, 975, 976, 977, 978, 979, 980, 981, 982, 983, 984, 985, 986, 987, 988, 989, 990, 991, 992, 993, 994, 995, 996, 997, 998, 999, 1000

Describe how the resource-specific criteria have been met for each chapter listed above (please attach information about stream crossings, coastal resources, prime wetlands, or non-tidal wetlands and surface waters):

The proposed seasonal dock/water access will conform to Env Wt 407.02, as the total impact of area will be less than 3,000 s.f. total and impact less than 50 linear feet of the waterfront. It will also address Env Wt 513.11 (1) a, due to its dimensions as well as Env Wt 513.12 (a), because the client has well over 400 linear feet of waterfront.

SECTION 8: AVOIDANCE AND MINIMIZATION

Impacts within wetland jurisdiction must be avoided to the maximum extent practicable (Env-Wt 313.03(a)).* Any project with unavoidable jurisdictional impacts must then be minimized as described in the Wetlands Best Management Practice Techniques For Avoidance and Minimization and the Wetlands Permitting: Avoidance, Minimization and Mitigation fact sheet. For minor or major projects, a functional assessment of all wetlands on the project site is required (Env-Wt 311.03(b)(10)).*

Please refer to the application checklist to ensure you have attached all documents related to avoidance and minimization, as well as functional assessment (where applicable). Use the Avoidance and Minimization Checklist, the Avoidance and Minimization Narrative, or your own avoidance and minimization narrative.

*See Env-Wt 311.03(b)(6) and Env-Wt 311.03(b)(10) for shoreline structure exemptions.

SECTION 9: MITIGATION REQUIREMENT (Env-Wt 311.02)

Unavoidable jurisdictional impacts require mitigation. A mitigation pre-application meeting must occur within 30 days but not more than 60 days prior to submitting the standard dredged fill Permit Application.

Mitigation Pre-Application Meeting Date: Month: Day: Year:

N/A - Mitigation is not required

SECTION 10: THE PROJECT MEETS COMPENSATORY MITIGATION REQUIREMENTS (Env-Wt 313.03(a)(1))

Confirm that you have submitted a compensatory mitigation proposal that meets the requirements of Env-Wt 800 for all permanent unavoidable impacts that will remain after avoidance and minimization techniques have been exercised to the maximum extent practicable: I confirm submittal.

N/A - Compensatory mitigation is not required

SECTION 11: IMPACT AREA (Env-Wt 311.04(g))

For each jurisdictional area that will be/has been impacted, provide square feet (SF) and, if applicable, linear feet (LF) of impact and note whether the impact is after-the-fact (ATF; i.e., work was started or completed without a permit).

SECTION 13: PROJECT CLASSIFICATION (Env. Wt. 306.05)		
Indicate the project classification:		
<input checked="" type="checkbox"/> Minimum Impact Project	<input type="checkbox"/> Minor Project	<input type="checkbox"/> Major Project
SECTION 14: REQUIRED CERTIFICATIONS (Env. Wt. 311.21)		
Initial each box below to certify:		
Initials: <i>BS</i>	To the best of the signer's knowledge and belief, all required notifications have been provided.	
Initials: <i>BS</i>	The information submitted on or with the application is true, complete, and not misleading to the best of the signer's knowledge and belief.	
Initials: <i>BS</i>	The signer understands that: <ul style="list-style-type: none"> • The submission of false, incomplete, or misleading information constitutes grounds for NHDES to: <ol style="list-style-type: none"> 1. Deny the application. 2. Revoke any approval that is granted based on the information. 3. If the signer is a certified wetland scientist, licensed surveyor, or professional engineer licensed to practice in New Hampshire, refer the matter to the joint board of licensure and certification established by RSA 310-A:1. 	
Initials: <i>BS</i>	If the applicant is not the owner of the property, each property owner signature shall constitute certification by the signer that he or she is aware of the application being filed and does not object to the filing.	
SECTION 15: REQUIRED SIGNATURES (Env. Wt. 311.04(b); Env. Wt. 311.11)

Re: Review by NH Natural Heritage Bureau of request dated 3/20/2024

Permit Type: Standard Dredge & Fill - Minor

NHB ID: NHB24-0927

Applicant: Doug Surprenant

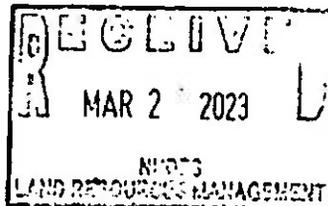

Location: Alton
Tax Map: 57, Tax Lot: 4
Address: 268 Woodlands Road

Proj. Description: Building a Seasonal Dock and small Observational Patio at the base of existing Stairway to House.

The NH Natural Heritage database has been checked for records of rare species and exemplary natural communities near the area mapped below. The species considered include those listed as Threatened or Endangered by either the state of New Hampshire or the federal government. We currently have no recorded occurrences for sensitive species near this project area.

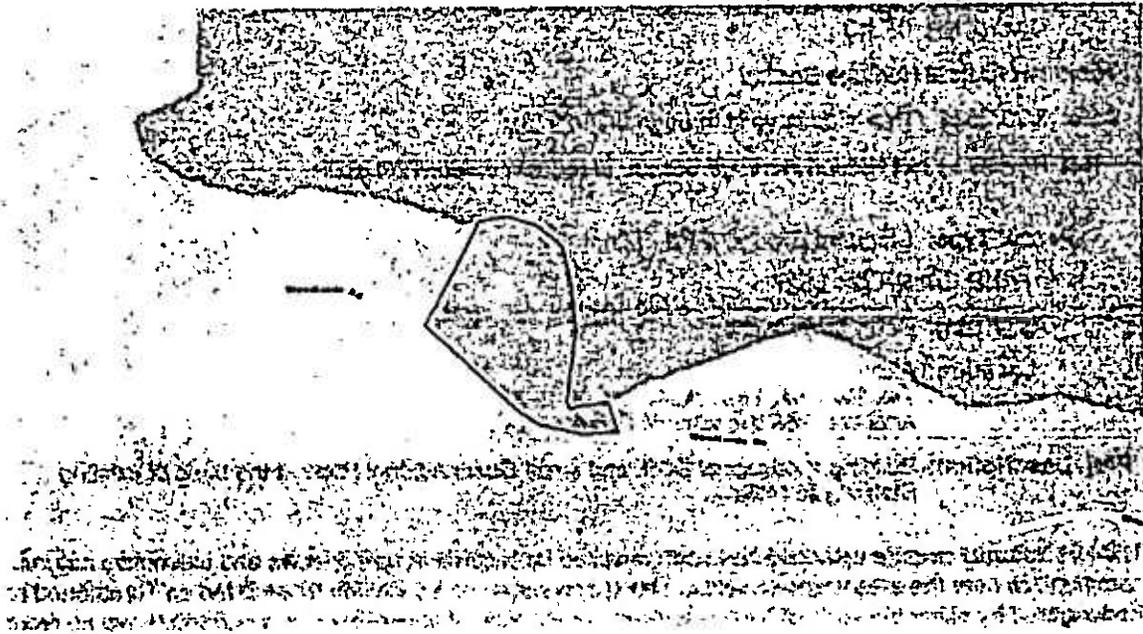

A negative result (no record in our database) does not mean that a sensitive species is not present. Our data can only tell you of known occurrences, based on information gathered by qualified biologists and reported to our office. However, many areas have never been surveyed, or have only been surveyed for certain species. An on-site survey would provide better information on what species and communities are indeed present.

Based on the information submitted, no further consultation with the NH Fish and Game Department pursuant to Fla 1004 is required.

Legend

	Setback & Tree Grid Lines		Existing Proposed Stone Walk
	Existing Terrace		Resurfaced Steps
	Turbidity Curtain		Replanted Proposed Plant Beds
	Proposed Deck/Observation Platform (6' x 40')		Perennial/Temporary Impact Area
	Location/Direction of Photo		Deck Section (see Sheet S1)

- Scope of Work**
- Placement of all anti-erosion devices (Silt Fences, Turbidity Curtains, etc.) will be completed before any and all construction work takes place. These will remain in place until barge work is completed and all lake water is no longer cloudy.
 - Resurfacing of existing Stairwell to Lake. Structure footprint will not be altered - only the steps surfaces are to be masonry. The last three steps before the lake, will be covered by an anchoring block for proposed Deck. (Hardscape surface TBD)
 - Construction of a small pervious Retention Basin, on north end of existing stairs. This will be approximately 65-70 sq. ft. in size (1:1) and will have an elevation of approximately 506.40' - aligning with the height of the existing third step from the lake. Surface of this area to be the same as proposed enlarged Patio (which will be completed by a subsequent sheetland parcel). Plantings will be done in associate areas of this work and shall consist of native species. (Plant TBD)
 - Construction of a seasonal Deck/Lake Access structure. This will measure 6' wide by 40' length and will be approximately 506.40' in elevation - to accommodate the proposed Anchoring Block structure and proposed Observation patio access (see above). It will include an Access Ladder and will be made out of the water and stored on land at season's close - in accordance with NHDES rules.
