EXPLANATION

This request is **Sole Source** because it was not competitively bid. The Contractor is part of the larger nationally recognized Project Walk program, with a New Hampshire location providing activity-based therapy. These services are available after medical rehabilitation.

The purpose of this request is to provide activity-based therapy services to Medicaid beneficiaries who are impacted by neurological illnesses and/or disorders affecting their mobility who are not are not eligible for coverage of these services under a Home and Community Based Services (HCBS) waiver. Currently, each of the four HCBS waivers offer beneficiaries coverage of Project Walk services, should they elect to pursue the services, under a non-medical model. This agreement will enable coverage of equivalent services for beneficiaries who have similar diagnoses, utilizing state funds and subject to Department utilization management authorization.

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
Page 2 of 2

Approximately 25 individuals will be served during State Fiscal Year 2025.

The Contractor will provide activity-based therapy services to individuals who have significant mobility challenges. Services would include strength training, balance/coordination training, proprioception training, management of pain, among other activities. The Contractor's staff will devise programming for individuals geared toward enhanced functional mobility. The Department intends to conduct a Medicaid quality project to compare medical services utilization before and after beneficiaries participate in the activity-based therapy services.

The Department will monitor services by meeting with the Contractor a monthly basis, at minimum, and reviewing quarterly reports provided by the Contractor.

As referenced in Exhibit A, Subparagraph 3.3. of the attached agreement, the parties have the option to extend the agreement for up four (4) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and Governor and Council approval.

Should the Governor and Council not authorize this request, the Department will be unable to improve access to activity-based therapy for individuals with significant neurological mobility challenges who are not covered under a HCBS waiver program. Activity based therapy services can improve quality of life for beneficiaries suffering from mobility challenges. Additionally, without access to these services, these beneficiaries may incur greater medical costs within the Medicaid program.
