EXPLANATION

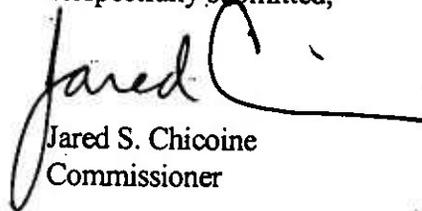

This contract is **SOLE SOURCE** because of the US Department of Energy's (US DOE) grant guidance (10 CFR 440.15) giving Community Action Agencies preferred status for the Weatherization Assistance Program due to their non-profit status, their role providing a range of services to clients eligible for WAP, and their historical performance delivering the weatherization program.

The Department is responsible for administering New Hampshire's statewide Weatherization Assistance Program (WAP). The objective of the program is to reduce energy consumption and the impact of energy costs in low-income households. Priority is given to the elderly, disabled, households with children, and households with high-energy usage. The funding in this contract will augment WAP work.

These amendments to the federal BIL WAP contracts will optimize the federal allowances for ACPU and H&S expenditures, clarify policy requirements, and provide production capacity relief for CAPBM. These outcomes will streamline CAPBM's efforts to increase the number of homes receiving full weatherization services effectively and efficiently in the program years that began on July 1, 2022, and expires June 30, 2027.

In the event Federal Funds are no longer available, General Funds will not be requested to support this contract.

Respectfully submitted,

Jared S. Chicoine
Commissioner

6. COMPLIANCE BY CONTRACTOR WITH LAWS AND REGULATIONS/ EQUAL EMPLOYMENT OPPORTUNITY.

6.1 In connection with the performance of the Services, the Contractor shall comply with all applicable statutes, laws, regulations, and orders of federal, state, county or municipal authorities which impose any obligation or duty upon the Contractor, including, but not limited to, civil rights and equal employment opportunity laws. 8.1.1 failure to perform the Services satisfactorily or on schedule;

8.1.2 failure to submit any report required hereunder; and/or

8.1.3 failure to perform any other covenant, term or condition of this Agreement.

8.2.1 give the Contractor a written notice specifying the Event of Default and requiring it to be remedied within, in the absence of a greater or lesser specification of time, thirty (30) days from the date of the notice; and if the Event of Default is not timely cured, terminate this Agreement, effective two (2) days after giving the Contractor notice of termination;

8.2.2 give the Contractor a written notice specifying the Event of Default and suspending all payments to be made under this Agreement and ordering that the portion of the contract price which would otherwise accrue to the Contractor during the period from the date of such notice until such time as the State determines that the Contractor has cured the Event of Default shall never be paid to the Contractor;

No express failure to enforce any Event of Default shall be deemed a waiver of the right of the State to enforce each and all of the provisions hereof upon any further or other Event of Default on the part of the Contractor.

9: TERMINATION:

9.1 Notwithstanding paragraph 8, the State may, at its sole discretion, terminate the Agreement for any reason, in whole or in part, by thirty (30) days written notice to the Contractor that the State is exercising its option to terminate the Agreement.

RSA chapter 281-A and any applicable renewal(s) thereof, which shall be attached and are incorporated herein by reference. The State shall not be responsible for payment of any Workers' Compensation premiums or for any other claim or benefit for Contractor, or any subcontractor or employee of Contractor, which might arise under applicable State of New Hampshire

Workers' Compensation laws in connection with the performance of the Services under this Agreement.

1. 2 CFR 200, as amended, (Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards), 10 CFR 440 dated February 1, 2002 (Weatherization Assistance Program), the New Hampshire Weatherization Assistance Program-BIL (NHWAP-BIL) State Plan, NHWAP Policies and Procedures Manual (P&PM), and NHWAP Field Guide are all considered part of this contract by inclusion and shall be legally binding and enforceable documents under this contract. The New Hampshire Department of Energy (NH Energy) reserves the right to use any legal remedy at its disposal including, but not limited to, disallowance of costs, withholding of funds, suspension of agency personnel, disbarment of agency personnel, disbarment of agencies and/or subcontractors from present or future contracts, and such other legal remedies as determined to be appropriate by the New Hampshire Department of Justice in the enforcement of rules and regulations pertaining to the Weatherization Program.

2. An audit shall be made at the end of the Contractor's fiscal year in accordance with 2 CFR 200, Subpart F - Audit Requirements. This audit report shall include a schedule of revenues and expenditures by contract or grant number of all expenditures during the Contractor's fiscal year. The Contractor shall utilize a competitive bidding process to choose a qualified financial auditor at least every four years.

The audit report shall include a schedule of the prior year's questioned costs along with a response regarding the current status of the prior year's questioned costs. Copies of all management letters written as a result of the audit along with the audit report shall be forwarded to NH Energy within one month of the time of receipt by the Contractor accompanied by an action, if applicable, for each finding or questioned cost.

3. The costs charged under this contract shall be determined as allowable under the cost principles detailed in 2 CFR 200 Subpart E - Cost Principles as amended by 2 CFR Part 910.

4. Program and financial records pertaining to this contract shall be retained by NH Energy and the Contractor for 3 (three) years from the date of submission of the final expenditure report or, for awards that are renewed quarterly or annually, from the date of the submission of the quarterly or annual financial report, as stated in 2 CFR 200.334 - Retention Requirements for Records.

5. CLOSE OUT OF CONTRACT. All final required reports and reimbursement requests shall be submitted to the State within forty-five (45) days of the completion date (Agreement Block 1.7).

6. RESTRICTION ON ADDITIONAL FUNDING. It is understood and agreed between the parties that no portion of the "Grant" funds may be used for the purpose of obtaining additional federal funds under any other law of the United States, except if authorized under that law.

7. ASSURANCES/CERTIFICATIONS. The following are attached and signed: Certification Regarding Drug-Free Workplace Requirements; Certification Regarding Lobbying; Certification Regarding Debarment, Suspension and Other Responsibility Matters; Certification Regarding the Americans With Disabilities Act Compliance; Certification Regarding Environmental Tobacco

Smoke; Assurance of Compliance Nondiscrimination in Federally Assisted Programs; and Certification Regarding the Federal Funding Accountability and Transparency Compliance; Buy America Build America, and Certification Regarding NHPA and NEPA Compliance for WAP-BIL.

8. **COPELAND ANTI-KICKBACK ACT.** All contracts and subgrants in excess of \$2,000.00 for construction or repair shall include a provision for compliance with Copeland "Anti-Kickback" Act (18 USC 874) as supplemented in Department of Labor Regulations (29 CFR, Part 3). This Act provides that each contractor, subcontract or subgrantee shall be prohibited from inducing, by any means, any person employed in the construction, completion or repair of public work, to give up any part of the compensation to which he is otherwise entitled. The subgrantee should report all suspected violations to NH Energy.
9. **PROCUREMENT.** Subgrantee shall comply with all provisions of 2 CFR 200 Subpart D – Post Federal Award Requirements – Procurement Standards with special emphasis on financial procurement (2 CFR 200 Subpart F – Audit Requirements) and property management (2 CFR 200 Subpart D – Post Federal Award Requirements – Property Standards.)
10. **STATE INSPECTION:** Without limiting the rights established under paragraphs 7 and 9 of the general provisions, NH Energy, USDOE, Health and Human Services, the Comptroller General of the United States, or any duly authorized representatives shall be permitted to inspect project and program sites, interview workers, and inspect and monitor financial payroll records and transactions, and shall be permitted access to any books, documents, papers, and records of the Contractor or its subcontractors or grantees, which are directly pertinent to this contract for the purpose of making audits, examinations, excerpts, and transcriptions.
11. **FOREIGN NATIONAL INVOLVEMENT:** Project participants (including subrecipients and contractors) who anticipate involving foreign nationals in the performance of an award, may be required to provide DOE with specific information about each foreign national to satisfy requirements for foreign national participation. A foreign national is defined as any person who is not a U.S. citizen by birth or naturalization. The volume and type of information collected may depend on various factors associated with the award.
12. **PRIVACY PROTECTIONS:** Grantee is required to treat all requests for information concerning applicants and recipients of WAP funds in a manner consistent with the federal government's treatment of information requested under the Freedom of Information Act (FOIA), 5 U.S.C. 552, including the privacy protections contained in Exemption (b)(6) of the FOIA, 5 U.S.C. 552(b)(6). Under 5 U.S.C. 552(b)(6), information relating to an individual's eligibility application or the individual's participation in the program, such as name, address, or income information, are generally exempt from disclosure.

A balancing test must be used in applying Exemption (b)(6) in order to determine:

- i. whether a significant privacy interest would be invaded;
- ii. whether the release of the information would further the public interest by shedding light on the operations or activities of the Government; and

- iii. whether in balancing the privacy interests against the public interest, disclosure would constitute a clearly unwarranted invasion of privacy.

A request for personal information including but not limited to the names, addresses, or income information of WAP applicants or recipients would require the state or other service provider to balance a clearly defined public interest in obtaining this information against the individuals' legitimate expectation of privacy.

Given a legitimate, articulated public interest in the disclosure, States and other service providers may release information regarding recipients in the aggregate that does not identify specific individuals. However, a State or service provider must apply a FOIA Exemption (b)(6) balancing test to any request for information that cannot be satisfied by such less-intrusive methods.

- 13. The Contractor shall comply with the US DOE Interim Conflict of Interest Policy Requirements for Financial Assistance, Department of Energy Financial Assistance Regulations, Financial Assistance Letter No. FAL 2022-02 dated December 20, 2021, which implements 2 CFR 200.112 by June 18, 2023.
- 14. Funds shall not be used to assist projects, in whole or in part, in multifamily buildings with more than four units.
- 15. This agreement consists of the following documents: a completed P-37 form, and Exhibits A, B, C, D, E, F, G, H, I, J, K and L. All exhibits are incorporated herein by reference as if fully set forth herein.
- 16. These provisions shall be required of all sub-contractors and subgrantees.

NEW HAMPSHIRE DEPARTMENT OF ENERGY

EXHIBIT B

SCOPE OF SERVICES

1. Community Action Program of Belknap-Merrimack Counties, Inc. (CAPBMCI), hereinafter "the Contractor," agrees to utilize the Bi-Partisan Infrastructure Law (BIL) funds, which are the subject of this contract, to provide eligible clients with Weatherization Assistance Program (WAP) services, including heating system repair and replacement services, which meet the requirements and standards for the NH WAP. In addition, all expenditures for work completed using BIL funds will be in accordance with the fiscal requirements of regulations set forth in 2 CFR 200 as amended and will be guided and implemented as directed by the New Hampshire Department of Energy (NH Energy) in this contract and, from time to time, in Subgrantee Notices or other communications. Contractor agrees to incorporate changes to the rules regarding the expending of NH WAP BIL money from time to time, as prescribed by NH Energy, to improve program delivery. Contractor further agrees to perform all weatherization services in a manner that will successfully interact with utility administered energy efficiency programs for low-income households in order to provide the best collaborative services for those households.
2. This BIL contract period, to be known as "NH WAP BIL," will commence upon approval of this contract by the Governor and Executive Council and will have a completion date of June 30, 2027.
3. BIL funds, which are the subject of this contract, shall have all of the characteristics – and limitations – of the Congressionally allocated annual WAP dollars, that is: some dollars will be allocated for program production (weatherized homes), some for administration, some for health and safety expenses, some for training and technical assistance activities. See Exhibit C of this contract.
4. Some portion of the BIL funding in this contract is set aside for training and technical assistance (T&TA) activities. Contractor may use these funds for appropriate training and technical assistance activities, such as to recruit and train new personnel, maintain and strengthen the knowledge, skills, and abilities of existing weatherization personnel, whether direct employees of the Agency, or employees of subcontractors, etc. Appropriate back-up documentation and justification for the use of those funds will be required by NH Energy prior to reimbursement.
5. During the contract period, the Contractor agrees to complete weatherization services on the number of dwelling units that is the result of dividing the Contractor's BIL production allocation by \$8,000. NH Energy understands that the actual number of BIL completions will likely differ from that number due to the unpredictability of labor and materials costs over the five-year period of performance, but NH Energy expects to see monthly BIL payment requests from the Contractor in order to monitor BIL spending progress. Unit completions will comply with the standards and expectations presented in WAP guidance documents, this contract, the NH WAP Field Guide, the NH WAP *Policies and Procedures Manual*, and the NH WAP BIL State Plan which has been approved for the particular program year in which any one completion is being presented for reimbursement.
 - a. The number of dwelling units and the amount of funds to be expended shall conform to the provisions of this contract. NH Energy reserves the right to review progress under this contract at any time and may utilize information from such reviews to alter dwelling unit goals and funds to be expended.

Exhibit B

Award # DE-EE00100001, CFDA #81.042

- b. All funds provided to the Contractor under this contract agreement must be expended by June 30, 2027.
6. Effective April 1, 2015, all work performed under the federal Weatherization Assistance Program (WAP) in New Hampshire is required to meet the minimum specifications defined in the US Department of Energy's Quality Work Plan (QWP) guidance and in the associated Standard Work Specifications (SWS). The BIL money which is the subject of this contract, because it, too, is considered to be WAP money, shall be managed to the same specifications and for the same outcomes.
 7. Client eligibility for BIL-funded weatherization work will be the same as for the annually funded WAP weatherization work: client household income, in order to be eligible for WAP BIL services, is to be no greater than 60% of the state median income (SMI).
 8. Residential dwelling (building) eligibility for BIL-funded weatherization work will be the same as residential dwelling eligibility under the rules for annually funded WAP weatherization work. However, the two WAP funding streams – annual and BIL – cannot be combined on any one job.
 9. BIL money may be “leveraged” (used in combination) with any other weatherization funding source *except annual WAP money*.
 10. WAP completions using WAP BIL funds are to be achieved using the same definition of “completion” as used in the WAP annual funds program: If the Subgrantee wishes to count a project as a WAP BIL completion, then the project must have at least one energy conservation measure that meets the SIR test, that measure (or those measures) must be paid for with WAP BIL dollars (and there must be no WAP annual fund dollars anywhere in the project), and the final inspection of the whole job must be done by a current BPI-certified Quality Control Inspector (QCI) and declared “WAP complete, ready for reimbursement.”
 11. The rules governing expenditure of WAP BIL money on any one project are the same as those governing WAP annual money: There is no absolute ceiling on single project expenses, but at the end of the BIL period of performance (June 30, 2027), the average cost per unit completed in the state, aggregated over all five Subgrantees, must not exceed \$8009.
 12. WAP BIL production includes:
 - a. Weatherization upgrades which are commensurate with a work plan developed from a thorough dwelling energy audit and a software model of the building using the audit software tool that is approved by US DOE for use in New Hampshire. That software model must be prepared by a qualified (BPI-certified) Building Analyst or Energy Auditor or Quality Control Inspector who has developed the work plan (the energy conservation measures – ECMs – to be installed) using either the “benefit/cost ratio” (B/C) methodology as defined by the utilities’ Home Energy Assistance (HEA) program or the “savings to investment ratio” (SIR) methodology as defined by the US DOE for use in WAP. The SIR methodology must be used to justify the installation of any ECMs which are to be paid for with WAP funds from either WAP funding stream.
 - b. Final inspections which determine:
 - i. Whether the project’s work plan was appropriate and complete, taking into account the methodology – B/C or SIR – used by the energy auditor to select the ECMs to be installed, the pre-weatherization condition of the building, etc.

- ii. Whether that appropriate work plan was fully and effectively implemented in the dwelling, providing the client with a comprehensive, safe, efficient, and fully operational energy-saving weatherization outcome.
 - c. WAP BIL money, like WAP annual money, may not be used in weatherization upgrades to dwellings which have received WAP-funded or BIL-funded upgrades more recently than the 15-year rolling "look back" time period which governs WAP re-weatherization.
 - d. Re-weatherization may be undertaken with WAP BIL money, but the following should be kept in mind:
 - i. Re-weatherization should be done sparingly, remembering that there are thousands of potential clients who have received no weatherization services at all.
 - ii. Care should be taken, as always, to avoid even the appearance of favoritism.
13. The tracking of WAP BIL jobs will include:
- a. Contractor (Subgrantee) preparation and maintenance of a client file on every WAP BIL job. Contractor will utilize a filing protocol which allows recovery of the file when checking future jobs against previous weatherization work performed at that address, etc., even if no WAP money was used. Future CAP agency WAP Directors need to be able to check on weatherization work completed in dwellings, even when WAP money was not involved.
 - b. The use of a separate BIL reimbursement request spreadsheet package supplied by NH Energy. All jobs with any BIL money invested must be submitted for reimbursement on the BIL set of forms. If a particular job also includes the use of any BWP money, for instance, then that job will have to be submitted for WAP BIL reimbursement as well as BWP reimbursement, on two separate reimbursement request forms. There can never be a single job seeking reimbursement from both the WAP BIL funding stream and the WAP annual funding stream.

NEW HAMPSHIRE DEPARTMENT OF ENERGY

PAYMENT TERMS

In consideration of the satisfactory performance of the services set forth in Exhibit B, the State agrees to pay the Contractor, Community Action Program of Belknap-Merrimack Counties, Inc. up to the total sum of:

\$2,511,040.00	(which hereinafter is referred to as the "Contracted Amount"), of which	
\$225,076.00		may be expended for Administration,

\$2,004,560.00	(the balance), to be spent on weatherization activities (Program Activity)	

Drawdowns from the total contracted amount will be paid to the Contractor only after written documentation of cash need is submitted to NH Energy. Disbursement of the contracted amount shall be made in accordance with the procedures established by the State and 2 CFR 200.305(b) on an advance basis; limited to minimum amounts needed; and be timed to be in accordance with the actual, immediate cash requirements of the Contractor in carrying out the purpose of the program. The Contractor must make timely payments to (sub)contractors in accordance with the contract provisions. Contractor shall submit a payment request to NH Energy for each month of the contract period using the forms to be provided by NH Energy for that purpose. Payment requests from Contractor shall be received at NH Energy no later than the 15th day of each month or the first business day following the 15th day.

Administrative costs are provided in order to support a specified number of unit completions at minimal standards. Administrative funds may be pro-rated by NH Energy if production unit completions do not meet expected production goals.

NH Energy will also be allowed, as a function of its administrative oversight, to modify contracted budget amounts as necessary to ensure the efficient and effective operation of the contract as long as these modified expenditures do not exceed the total "Contracted Amount" as specified above.

All obligations of the State, including the continuance of any payments, are contingent upon the availability and continued appropriation of funds for the services to be provided.

However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
- (3) The certification in this clause is a material representation of fact upon which reliance was placed when NH Energy determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, may terminate this transaction for cause or default.
- (4) The prospective primary participant shall provide immediate written notice to the NH Energy to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
- (5) The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76.
- (6) The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by NH Energy.
- (7) The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by NH Energy, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
- (8) A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Non-procurement List (of excluded parties).
- (9) Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
- (10) Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, NH Energy may terminate this transaction for cause or default.

CERTIFICATION REGARDING BUILD AMERICA, BUY AMERICA (Buy America) COMPLIANCE

The Contractor identified in Section 1.3 of the General Provisions agrees to comply with the provisions of the Build America, Buy America Act (Buy America) Pub. L. No. 117-58, §§ 70901-52 under the Infrastructure Investment and Jobs Act (IIJA), Pub. L. No. 117-58, as well as the *Initial Implementation Guidance on Application of Buy America Preference in Federal Financial Assistance Programs for Infrastructure* memorandum from the Office of Management and Budget (OMB) dated April 18, 2022, and further OMB or US Department of Energy (USDOE) guidance once issued.

Buy America seeks to strengthen Made in America Laws and bolster America's industrial base, protect national security, and support high-paying jobs. Buy America requires that the New Hampshire Department of Energy (NHDOE), contractors, sub-contractors, and sub-grantees of federal funding shall ensure that "none of the funds made available for a Federal financial assistance program for infrastructure, including each deficient program, may be obligated for a project unless all of the iron, steel, manufactured products, and construction materials used in the project are produced in the United States."

Definitions:

Infrastructure includes, at a minimum, the structures, facilities, and equipment for, in the United States:

- Roads, highways, and bridges;
- Public transportation;
- Dams, ports, harbors, and other maritime facilities;
- Intercity passenger and freight railroads;
- Freight and intermodal facilities;
- Airports;
- Water systems, including drinking water and wastewater systems;
- Electrical transmission facilities and systems;
- Utilities;
- Broadband infrastructure;
- Buildings and real property; and
- Facilities that generate, transport, and distribute energy.

Further, the "infrastructure" in question must either be publicly owned or serve a public function; privately owned infrastructure that is not open to the public, such as a personal residence, is not considered "infrastructure" for purposes of this requirement. In cases where the "public" nature of the infrastructure is unclear, the Grantee should contact NHDOE. NHDOE will consult with the USDOE which will render a determination.

Project means the construction, alteration, maintenance, or repair of infrastructure in the United States.

Construction Materials includes an article, material, or supply—other than an item of primarily iron or steel; a manufactured product; cement and cementitious materials; aggregates such as stone, sand, or gravel; or aggregate binding agents or additives—that is, or consists primarily of:

- Non-ferrous metals;
- Plastic and polymer-based products (including polyvinylchloride, composite building materials, and polymers used in fiber optic cables);
- Glass (including optic glass);
- Lumber; or
- Drywall.

Domestic content procurement preference means and refers to the same thing as "Buy America Preference." These terms mean all iron and steel used in the project are produced in the United States; the manufactured products used in the project are produced in the United States; or the construction materials used in the project are produced in the United States.

Buy America Preference:

None of the funds provided under this grant to the Contractor may be used for a project for infrastructure unless:

1. All iron and steel used in the project are produced in the United States—this means all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States;
2. All manufactured products used in the project are produced in the United States—this means the manufactured product was manufactured in the United States, and the cost of the components of the manufactured product that are mined, produced, or manufactured in the United States is greater than 55 percent of the total cost of all components of the manufactured product, unless another standard for determining the minimum amount of domestic content of the manufactured product has been established under applicable law or regulation; and
3. All construction materials are manufactured in the United States—this means that all manufacturing processes for the construction material occurred in the United States.

The Buy America Preference only applies to articles, materials, and supplies that are consumed in, incorporated into, or affixed to an infrastructure project. As such, it does not apply to tools, equipment, and supplies, such as temporary scaffolding, brought into the construction site and removed at or before the completion of the infrastructure project. Nor does a Buy America Preference apply to equipment and furnishings, such as movable chairs, desks, and portable computer equipment, that are used at or within the finished infrastructure project but are not an integral part of the structure or permanently affixed to the infrastructure project.

The Contractor and its subcontractor, subgrantee, or other person, firm, or corporation, will provide the best available documentation illustrating compliance with the Buy America Preference. NHDOE reserves the right to request additional information from the Contractor to further demonstrate compliance with the Buy America preference. Compliance may be met by providing the following:

1. A written statement from the manufacturer demonstrating that the iron, steel, manufactured products, or construction materials purchased from that manufacturer were produced in the United States.
2. Photographic evidence that the iron, steel, manufactured products, or construction materials were produced in the United States.
3. Other documentation pre-approved by the NHDOE.

Waivers:

When necessary, the Contractor may seek a waiver from the Buy America Preference requirements. Any issued waiver is made by the USDOE. The Grantee must contact the NHDOE with its intent to seek a waiver from the Buy America Preference requirements. NHDOE will submit the waiver request on behalf of the Grantee to USDOE. Requests to waive the application of the Buy America Preference must be in writing. Waiver requests are subject to public comment periods of no less than 15 days, as well as review by the Office of Management and Budget (OMB). Current timeframe estimate from request to approval is 45-60 days.

Waivers must be based on one of the following justifications:

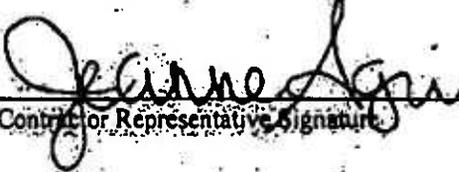

1. Applying the Buy America Preference would be inconsistent with the public interest (Public Interest);
2. The types of iron, steel, manufactured products, or construction materials are not produced in the United States in sufficient and reasonably available quantities or of a satisfactory quality (Nonavailability); or
3. The inclusion of iron, steel, manufactured products, or construction materials produced in the United States will increase the cost of the overall project by more than 25 percent (Unreasonable Cost).

Requests to waive the Buy America Preference must include the following:

- Waiver type (Public Interest, Nonavailability, or Unreasonable Cost);
- Recipient name and Unique Entity Identifier (UEI);
- A detailed justification as to how the non-domestic item(s) is/are essential the project;

- A certification that the Contractor made a good faith effort to solicit bids for domestic products supported by terms included in requests for proposals, contracts, and non-proprietary communications with potential suppliers;
- Total estimated project cost, with estimated Federal share and recipient cost share breakdowns;
- Total estimated infrastructure costs, with estimated Federal share and recipient cost share breakdowns;
- A brief description of the project, its location, and the specific infrastructure involved;
- List and description of iron or steel item(s), manufactured goods, and/or construction material(s) the recipient seeks to waive from the Buy America Preference, including name, cost, country(ies) of origin, and relevant PSC and NAICS codes for each;
- A justification statement—based on one of the applicable justifications outlined above—as to why the items in question cannot be procured domestically, including the due diligence performed (e.g., market research, industry outreach) by the recipient to attempt to avoid the need for a waiver. This justification may cite, if applicable, the absence of any Buy America-compliant bids received for domestic products in response to a solicitation; and
- Anticipated impact to the project if no waiver is issued.

The USDOE and the NHDOE may request, and the Contractor must provide, additional information for consideration of this waiver. The USDOE's final determination regarding approval or rejection of the waiver request may not be appealed.

INDEPENDENT AUDITORS' REPORT

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of Community Action Program of Belknap-Merrimack Counties, Inc. (a nonprofit organization), which comprise the consolidated statements of financial position as of February 28, 2022 and 2021, and the related consolidated statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of Community Action Program of Belknap-Merrimack Counties, Inc. as of February 28, 2022 and 2021, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Community Action Program of Belknap-Merrimack Counties, Inc. and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Community Action Program of Belknap-Merrimack Counties, Inc.'s ability to continue as a going concern within one year after the date that the consolidated financial statements are available to be issued.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the consolidated financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Community Action Program of Belknap-Merrimack Counties, Inc.'s internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Community Action Program of Belknap-Merrimack Counties, Inc.'s ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations, Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the consolidated financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 8, 2022, on our consideration of Community Action Program of Belknap-Merrimack Counties, Inc.'s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Community Action Program of Belknap-Merrimack Counties, Inc.'s internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Community Action Program of Belknap-Merrimack Counties, Inc.'s internal control over financial reporting and compliance.

(the Organization) is a New Hampshire nonprofit organization that serves nutritional, health, living and support needs of the low income and elderly clients in the two county service areas, as well as state wide. These services are provided with the financial support of various federal, state, county and local organizations.

Principles of Consolidation

The consolidated financial statements include the accounts of Community Action Program Belknap-Merrimack Counties, Inc. and the following entities as Community Action Program Belknap-Merrimack Counties, Inc. has both an economic interest and control of the entities through a majority voting interest in their governing board. All significant intercompany items and transactions have been eliminated from basic consolidated financial statements:

- Sandy Ledge Limited Partnership
- CAP BMC Development Corporation

Basis of Accounting

The accompanying consolidated financial statements have been prepared on the accrual basis of accounting in accordance with the accounting principles generally accepted in the United States of America.

Basis of Presentation

The consolidated financial statements of the Organization have been prepared in accordance with U.S. generally accepted accounting principles, which require the Organization to report information regarding its financial position and activities according to the following net asset classifications:

Net assets without donor restrictions include net assets that are not subject to any donor-imposed restrictions and may be expended for any purpose in performing the primary objectives of the Organization. These net assets may be used at the discretion of the Organization's management and board of directors.

Net assets with donor restrictions include net assets subject to stipulations imposed by donors and grantors. Some donor restrictions are temporary in nature, those restrictions will be met by actions of the Organization or by passage of time. Other donor restrictions are perpetual in nature, whereby the donor has stipulated the funds be maintained in perpetuity.

COMMUNITY ACTION PROGRAM BELKNAP - MERRIMACK COUNTIES, INC.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED FEBRUARY 28, 2022 AND 2021**

Donor restricted contributions are reported as increases in net assets with donor restrictions. When restrictions expire, net assets are reclassified from net assets with donor restrictions to net assets without donor restrictions in the consolidated statements of activities.

The Organization had net assets with donor restrictions of \$637,529 and \$1,048,832 at February 28, 2022 and 2021, respectively. See Note 14.

Income Taxes

Community Action Program of Belknap-Merrimack Counties, Inc. is organized as a nonprofit corporation and is exempt from federal income taxes under Internal Revenue Code Section 501(c)(3). The Internal Revenue Service has determined them to be other than a private foundation.

The Organization files information returns in the United States and the State of New Hampshire. The Organization is subject to examinations by tax authorities for three years.

CAP BMC Development Corporation (the Corporation) is taxed as a "C" Corporation under the Internal Revenue Code. The Corporation accounts for deferred income taxes under the asset and liability method in accordance with Accounting Standards Codification No. 740 (ASC 740), "Accounting for Income Taxes". The objective of this method is to establish deferred tax assets and liabilities for temporary differences between the financial reporting basis and the tax basis of the Company's assets and liabilities at the enacted tax rate expected to be in effect when such amounts are realized or settled. ASC 740 also requires deferred tax assets and liabilities to be shown separately. There are no deferred tax assets or liabilities. The Corporation has no federal net operating loss carryforwards available at February 28, 2022 and 2021.

Sandy Ledge Limited Partnership is taxed as a partnership. Federal income taxes are not payable, or provided by the partnership. Earnings and losses are included in the partners' federal income tax returns based on their share of partnership earnings. Partnerships are required to file income tax returns with the State of New Hampshire and pay an income tax at the state's statutory rate.

Accounting Standard Codification No. 740 (ASC 740), *Accounting for Income Taxes*, established the minimum threshold for recognizing, and a system for measuring, the benefits of tax return positions in consolidated financial statements. The Organization has analyzed its tax position taken on its income tax returns for the past three years, and has concluded that no additional provision for income taxes is necessary in the Organization's consolidated financial statements.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED FEBRUARY 28, 2022 AND 2021**

Property

Property and equipment is recorded at cost or, if donated, at the approximate fair value at the date of the donation. Assets purchased with a useful life in excess of one year and exceeding \$5,000 are capitalized unless a lower threshold is required by certain funding sources. Depreciation is computed on the straight-line basis over the estimated useful lives of the related assets as follows:

Buildings and improvements	40 years
Equipment, furniture and vehicles	3 - 10 years

Use of Estimates

The preparation of consolidated financial statements in conformity with United States generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

For purposes of the consolidated statements of cash flows, the Organization considers all liquid investments purchased with original maturities of three months or less to be cash equivalents.

The Organization maintains its cash in bank deposit accounts, which at times may exceed federally insured limits. The Organization has not experienced any losses in such accounts and believes it is not exposed to any significant risk with respect to these accounts.

Contributed Services

Donated services are recognized as contributions in accordance with FASB ASC No. 958, *Accounting for Contributions Received and Contributions Made*, if the services (a) create or enhance non-financial assets or (b) require specialized skills and would otherwise be purchased by the Agency.

Volunteers provided various services throughout the year that are not recognized as contributions in the consolidated financial statements since the recognition criteria under FASB ASC No. 958 were not met.

In-Kind Donations / Noncash Transactions

Donated facilities, services and supplies are reflected as revenue and expense in the accompanying consolidated financial statements, if the criteria for recognition is met. This represents the estimated fair value for the service, supplies and space that the Organization might incur under normal operating activities. The Organization received \$592,136 and \$490,035 in donated facilities, services and supplies for the years ended February 28, 2022 and February 28, 2021, respectively, as follows:

COMMUNITY ACTION PROGRAM BELKNAP - MERRIMACK COUNTIES, INC.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The Organization also receives contributed food commodities and other goods that are required to be recorded in accordance with FASB ASC No. 958. Advertising

The Organization expenses advertising costs as they are incurred. Total advertising costs for the years ended February 28, 2022 and February 28, 2021 totaled \$134,193 and \$14,287, respectively.

Inventory

Inventory consists of weatherization supplies and work in process and is valued at the lower of cost or net realizable value, using the first-in, first-out method.

Revenue Recognition

Amounts received from conditional grants and contracts for specific purposes are generally recognized as income to the extent that related expenses and conditions are incurred or met. Conditional grants received prior to the conditions being met are reported as refundable advances. Contributions of cash and other assets are reported as with donor restrictions if they are received with donor imposed stipulations that limit the use of the donated assets. However, if a restriction is fulfilled in the same period in which the contribution is received, the Organization reports the support as without donor restrictions.

Program Service Revenue

Program service revenue is recognized as revenue when the services are performed.

Rental Revenue

The Organization derives revenues from the rental of apartment units. Revenues are recognized as income, monthly, when rents become due, and control of the apartment units is transferred to the lessees. The individual leases are for a term of one year and are cancelable by the tenants. Control of the leased units is transferred to the lessee in an amount that reflects the consideration the Partnership expects to be entitled to in exchange for the leased units. The cost incurred to obtain the lease will be expensed as incurred.

Alton Housing for the Elderly, Inc.	HUD Property
Pembroke Housing for the Elderly, Inc.	HUD Property
Newbury Elderly Housing, Inc.	HUD Property
Kearsarge Elderly Housing, Inc.	HUD Property
Riverside Housing Corporation	HUD Property

16. FAIR VALUE OF FINANCIAL INSTRUMENTS

Community Action Program Belknap-Merrimack Counties, Inc. has also invested money relating to its Fix-It program in certain mutual funds. The fair value of the mutual funds totaled \$138,793 and \$126,996 at February 28, 2022 and 2021, respectively.

ASC Topic No. 825-10, Financial Instruments, provides a definition of fair value which focuses on an exit price rather than an entry price, establishes a framework in generally accepted accounting principles for measuring fair value which emphasizes that fair value is a market-based measurement, not an entity-specific measurement, and requires expanded disclosures about fair value measurements. In accordance with FASB ASC 820, the Organization may use valuation techniques consistent with market, income and cost approaches to measure fair value. As a basis for considering market participant assumptions in fair value measurements, FASB ASC 820 establishes a fair value hierarchy, which prioritizes the inputs used in measuring fair values. The hierarchy gives the highest priority to Level 1 measurements and the lowest priority to Level 3 measurements. The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

COMMUNITY ACTION PROGRAM BELKNAP - MERRIMACK COUNTIES, INC.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED FEBRUARY 28, 2022 AND 2021**

Level 1 - Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date.

Level 2 - Inputs to the valuation methodology are other than quoted market prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies.

Level 3 - Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

At February 28, 2022 and 2021, the Organization's investments were classified as Level 1 and were based on fair value.

Fair Value Measurements using Significant Observable Inputs (Level 1)

	<u>2022</u>	<u>2021</u>
Beginning balance - mutual funds	\$ 126,996	\$ 109,078
Total gains - mutual funds	<u>11,797</u>	<u>17,918</u>
Ending balance - mutual funds	<u>\$ 138,793</u>	<u>\$ 126,996</u>

The carrying amount of cash, current assets, other assets and current liabilities approximates fair value because of the short maturity of those instruments.

The Organization also had \$1,000 invested in a Partnership, The Lakes Region Partnership for Public Health, at February 28, 2021. During the year ended February 28, 2022, the Organization is no longer a partner and a final K-1 was received.

17. OTHER MATTERS

The impact of the novel coronavirus (COVID-19) and measures to prevent its spread are affecting the Organization's business. The significance of the impact of these disruptions, including the extent of their adverse impact on the Organization's financial and operational results, will be dictated by the length of time that such disruptions continue and, in turn, will depend on the currently unknowable duration of the COVID-19 pandemic and the impact of governmental regulations that might be imposed in response to the pandemic.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON
AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the Board of Directors
Community Action Program Belknap-Merrimack Counties, Inc.
Concord, New Hampshire

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Community Action Program Belknap-Merrimack Counties, Inc. (a nonprofit organization), which comprise the statement of financial position as of February 28, 2022, and the related statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated September 8, 2022.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Community Action Program Belknap-Merrimack Counties, Inc.'s internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Community Action Program Belknap-Merrimack Counties, Inc.'s internal control. Accordingly, we do not express an opinion on the effectiveness of Community Action Program Belknap-Merrimack Counties, Inc.'s internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during

our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Community Action Program Belknap-Merrimack Counties, Inc.'s financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH
MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE
REQUIRED BY THE UNIFORM GUIDANCE**

To the Board of Directors
Community Action Program Belknap-Merrimack Counties, Inc.
Concord, New Hampshire

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Community Action Program Belknap-Merrimack Counties, Inc.'s compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Community Action Program Belknap-Merrimack Counties, Inc.'s major federal programs for the year ended February 28, 2022. Community Action Program Belknap-Merrimack Counties, Inc.'s major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, Community Action Program Belknap-Merrimack Counties, Inc. complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended February 28, 2022.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the audit requirements of Title 2 U.S. Code of *Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Community Action Program Belknap-Merrimack Counties, Inc. and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Community Action Program Belknap-Merrimack Counties, Inc.'s compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above, and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Community Action Program Belknap-Merrimack Counties, Inc.'s federal programs.

Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Community Action Program Belknap-Merrimack Counties, Inc.'s compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Community Action Program Belknap-Merrimack Counties, Inc.'s compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Community Action Program Belknap-Merrimack Counties, Inc.'s compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Community Action Program Belknap-Merrimack Counties, Inc.'s internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Community Action Program Belknap-Merrimack Counties, Inc.'s internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditors Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that have not been identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
