\$186,000

EXPLANATION

Grant funding totaling \$18,914,000 has been made available to NHDES through the Bipartisan Infrastructure Law (BIL), Emerging Contaminants in Small or Disadvantaged Communities (EC-SDC) grant program administered by the United States Environmental Protection Agency (EPA). NHDES intends to use a portion of the funding to establish an emerging contaminant infrastructure grant program to mitigate the occurrence of emerging contaminants in eligible public water systems. NHDES identified ten public water systems that have exceedances of NH's Maximum Contaminant Levels (MCLs) for PFAS to be eligible for funding. Additional eligible recipients will be identified as funding allows.

NHDES approved grant funding up to \$186,000 for Hollis Montessori School to install a treatment system to address per- and poly-fluoroalkyl substances (PFAS) present within the public water supply. This project will improve water quality and provide safe drinking water to students and staff.

In the event that grant funds no longer become available, General funds will not be requested to support this program. This grant agreement has been approved by the Attorney General's Office as to form, substance, and execution.

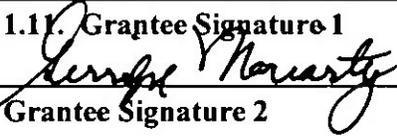

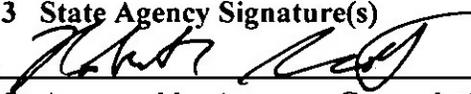

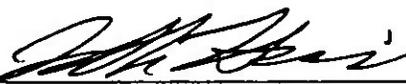

We respectfully request your approval.

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

- a. For the purpose of public safety, security of government facilities, physical security surveillance of critical Page 4 of 29 infrastructure, and other national security purposes, video surveillance and telecommunications equipment produced by Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, or Dahua Technology Company (or any subsidiary or affiliate of such entities).
- b. Telecommunications or video surveillance services provided by such entities or using such equipment.
- c. BUILD AMERICA, BUY AMERICA ACT: BIL creates the Build America, Buy America (BABA) Act domestic sourcing requirements for Federal financial assistance programs for infrastructure, including the drinking water grant programs. BABA expands the emphasis on domestically produced products in federally funded projects beyond AIS. In addition to domestic iron and steel, it requires the use of domestic manufactured products and construction materials to be used in any federal financial assistance program for infrastructure. The sign must be placed at construction sites in an easily visible location that can be directly linked to the work taking place and must be maintained in good condition throughout the construction period. The recipient will ensure compliance with the guidelines and design specifications provided by EPA for using the official Investing in America emblem available at: <https://www.epa.gov/invest/investingamerica-signage>.
