

THE STATE OF NEW HAMPSHIRE  
DEPARTMENT OF TRANSPORTATION

28

William Cass, P.E.  
Commissioner

David Rodrigue, P.E.  
Assistant Commissioner  
Andre Briere, Colonel, USAF (RET)  
Deputy Commissioner

His Excellency, Governor Christopher T. Sununu  
and the Honorable Council  
State House  
Concord, New Hampshire 03301

Bureau of Construction  
August 20, 2024

**REQUESTED ACTION**

1. Authorize the Department of Transportation to enter into a contract with Evroks Corporation (Vendor 155652) of Northfield, NH, on the basis of a sole bid of \$11,146,028 for bridge rehabilitation of State Red List (BR. No. 177/148) carrying NH 175 over Pemigewasset River in Woodstock (Project: Woodstock #27713), from the date of Governor and Council approval through November 6, 2026, unless amended by the Department in accordance with the Standard Specifications. 100% Federal Funds.

Funds are available in the following account for Fiscal Year 2025, and are anticipated to be available in Fiscal Years 2026 and 2027, upon the availability and continued appropriation of funds in the future operating budgets, with the authority to adjust encumbrances between fiscal years within the price limitation through the Budget Office, if needed and justified:

Funding is available as follows:	<u>FY 2025</u>	<u>FY 2026</u>	<u>FY 2027</u>
04-96-96-963515-3054			
Consolidated Federal Aid			
400-500870 Highway Contract Payments	\$5,055,519.78	\$4,299,182.16	\$1,791,326.06

2. Further authorize that a contingency in the amount of \$891,682.24 be approved for payment of latent conditions, which may appear during the construction of the project. The contingency requested is 8% of the contract amount.

Funding is available as follows:	<u>FY 2027</u>
04-96-96-963515-3054	
Consolidated Federal Aid	
400-500870 Highway Contract Payments	\$891,682.24

**EXPLANATION**

This project is part of the State's Ten-Year Transportation Improvement Plan, under the Bridge Rehabilitation & Reconstruction Tiers 3 & 4 Program. This project will rehabilitate the existing State Red List bridge (Br. No. 177/148) carrying NH 175 (Eastside Road) over Pemigewasset River in Woodstock, NH. The bridge is located approximately 300 feet east of the intersection of NH 175 and

US 3. The project limits begin approximately 185 feet west of the bridge on NH 175 and continue approximately 575 feet easterly on NH 175 across the bridge.

The existing bridge, built c. 1939, is a single span steel through-arch with a tied-arch design and a length of 175'-0" between abutments. The bridge is eligible for the National Register of Historic Places. The existing bridge deck is in serious condition and the superstructure is in poor condition. The bridge has been on the Department's State Red List of deficient bridges since 2013. On numerous occasions the Bureau of Bridge Maintenance has had to make repairs to the open steel grid decking, most recently in July 2022. A detailed inspection in June 2019 revealed areas of significant stringer deterioration and in January of 2020 the bridge was down posted to 20 Tons. In July 2022 due to continued deterioration of the open steel grid decking and the overall poor condition of the floor system the bridge was reduced to an alternating one-lane stop-sign-controlled condition and down posted to 3 Tons, Passenger Cars Only. The scope of work involves bridge rehabilitation including replacement of the floor system, wire rope ties, and cleaning and painting of the structural steel. The existing open steel grid decking will be replaced with a solid surface decking. Roadway work involves full depth reconstruction of NH 175 for approximately 200 feet at each approach to the bridge. This bridge rehabilitation project will remove the bridge from the Red List, restore its capacity to legal loads with two lanes of traffic, and extend its service life.

We seriously underestimated and did not fully appreciate the complexity and risks in the rehabilitation of the truss and maintaining the stability of the structure during construction. This is the only wire-tied arch in NH making this relatively uncommon.

The proposed contingency amount is 8% of the contract amount. The following factor involves higher risks that could potentially increase costs: inability to inspect areas of the bridge that will become exposed when the bridge deck is removed and may reveal hidden deterioration and retrofit work involving both new and existing components.

Although the bid costs exceeded the Department's estimate by 79.92% the sole bid received is felt to be reasonable for the work involved. This is the only wire-tied arch in NH and, because of the unique nature and configuration of this bridge, the rehabilitation of the structural components is complex and limited local expertise exists to do the work. The Department underestimated and did not fully appreciate the complexity and risks in the rehabilitation and maintaining the stability of the structure during construction. The unique work effort combined with a lack of historical costs of this type of work resulted in substantial discrepancies in several items including the following: Item 502. Removal of Existing Bridge Structure \$945,000, Item 550.1 Structural Steel \$635,850, Item 550.3521 Structural Steel Hanger Pin \$171,000, and Item 550.19 Temporary Structure Support System \$126,920. Upon completion of the work the contractor is required to strip and repaint the entire bridge. The bid on painting, which will occur in 3 years at the completion of the bridge rehabilitation was higher than

Page 3

anticipated, Item, 556.101 Painting Existing Structural Steel \$1,175,000 and Item 556.201 Containment and Environmental Protection \$ 875,000. Readvertising this project would result, in our opinion, in higher prices and prevent the completion of the work in a timely manner. The Department considers it to be in the best interest of the State to accept this bid to accomplish these needed repairs.

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available and the bid reasonably conforms to the engineer's estimate in accordance with State procedure.

Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

Project funding is: 80% Federal funds (Bridge Rehabilitation & Reconstruction Tiers 3 & 4 (Bridg-T3-4-Rehab-Rcn)), with anticipated utilization of Turnpike Toll Credits for the State's 20% match, effectively using 100% Federal Funds.

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Your approval of this resolution is respectfully requested.

Sincerely,

William J. Cass, P.E.  
Commissioner

WJC/pcj

## SUPPLEMENTAL PROJECT INFORMATION SHEET

**DESCRIPTION:** This project will rehabilitate the existing State Red List bridge (Br. No. 177/148) carrying NH 175 (Eastside Road) over Pemigewasset River in Woodstock, NH. The bridge is located approximately 300 feet east of the intersection of NH 175 and US 3. The project limits begin approximately 185 feet west of the bridge on NH 175 and continue approximately 575 feet easterly on NH 175 across the bridge.

**FEDERAL FUNDING:** 80% (Bridge Rehabilitation & Reconstruction Tiers 3 & 4 (Bridg-T3-4-Rehab-Rcn)) with 20% Turnpike Toll Credit (TTC) Program.

**CONTINGENCY:** The contingency amount is proposed to be 8% of the construction total. The following factors involve higher risks that could potentially increase costs: inability to inspect areas of the bridge that will become exposed when the bridge deck is removed and may reveal hidden deterioration, and retrofit work involving both new and existing components.

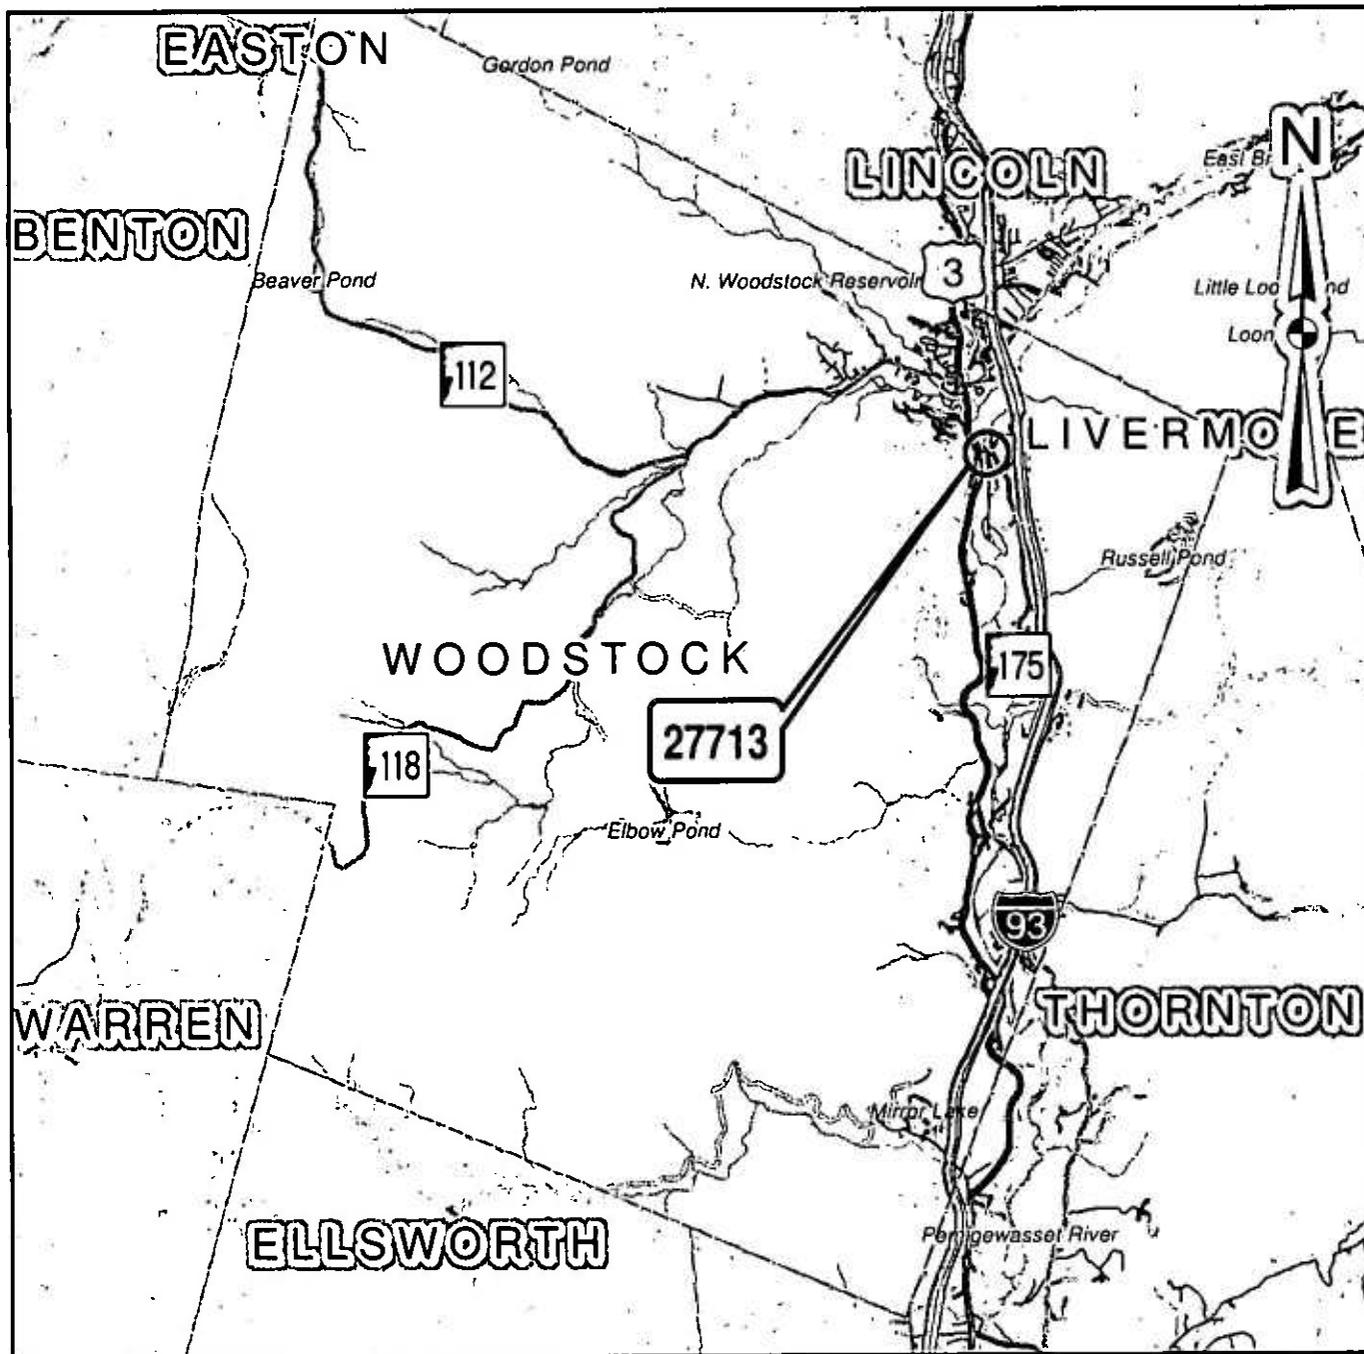

**PROJECT INITIATED:** State's 10-Year Transportation Improvement Plan

**PROJECT EXPLANATION:** The existing bridge, built c. 1939, is a single span steel through-arch with a tied-arch design and a length of 175'-0" between abutments. The bridge is eligible for the National Register of Historic Places. The existing bridge deck is in serious condition and the superstructure is in poor condition. The bridge has been on the Department's State Red List of deficient bridges since 2013. On numerous occasions the Bureau of Bridge Maintenance has had to make repairs to the open steel grid decking, most recently in July 2022. A detailed inspection in June 2019 revealed areas of significant stringer deterioration and in January of 2020 the bridge was down posted to 20 Tons. In July 2022 due to continued deterioration of the open steel grid decking and the overall poor condition of the floorsystem the bridge was reduced to an alternating one-lane stop-sign-controlled condition and down posted to 3 Tons, Passenger Cars Only. The scope of work involves bridge rehabilitation including replacement of the floorsystem, wire rope ties, and cleaning and painting of the structural steel. The existing open steel grid decking will be replaced with a solid surface decking. Roadway work involves full depth reconstruction of NH 175 for approximately 200 feet at each approach to the bridge. This bridge rehabilitation project will remove the bridge from the Red List, restore its capacity to legal loads with two lanes of traffic, and extend its service life.

**TRAFFIC IMPLICATION:** The work is anticipated to take one construction season to complete. The bridge will be closed, and traffic detoured during the work. The closure of the bridge will begin no sooner than November 1, 2025.

**COMPLETION DATE:** Friday, November 6, 2026.

### CERTIFICATE

I, David M. Scanlan, Secretary of State of the State of New Hampshire, do hereby certify that EVROKS CORPORATION is a New Hampshire Profit Corporation registered to transact business in New Hampshire on February 07, 1983. I further certify that all fees and documents required by the Secretary of State's office have been received and is in good standing as far as this office is concerned.

Business ID: 59773

Certificate Number: 0006757853

IN TESTIMONY WHEREOF,

I hereto set my hand and cause to be affixed  
the Seal of the State of New Hampshire,  
this 27th day of August A.D. 2024.

A handwritten signature in black ink, appearing to read "David M. Scanlan".

David M. Scanlan  
Secretary of State

**SOLE OFFICER CERTIFICATE OF AUTHORITY**

I, Michael Ferrari, President, hereby certify that I am the Sole  
(Name and Title)  
Officer of Evroks Corporation, which is a corporation registered  
(Name of Corporation)

with the Secretary of State under RSA 349.

I further certify that it is understood that the State of New Hampshire may rely on this certificate as evidence that I currently occupy the position indicated and that I have full authority to bind the corporation. This authority remains in full force and effect for thirty (30) days from the date of this Certificate.

DATED: August 28, 2024    ATTESTED:  Michael Ferrari, President  
(Name and Title)
