

The State of New Hampshire
Department of Environmental Services

Robert R. Scott, Commissioner

October 1, 2024

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
State House
Concord, New Hampshire 03301

REQUESTED ACTION

Authorize the Department of Environmental Services to amend an American Rescue Plan Act (ARPA) grant (PO#1088532) to South Main Street Water District (VC #157856-B001), Warren, NH, by increasing the grant limitation by \$150,000 to \$736,000 from \$586,000 for water system improvements, effective upon Governor and Council approval through December 31, 2025. The original grant was approved by Governor and Council on September 7, 2022, Item #80, and amended on May 1, 2024, Item #5C. 100% Federal Funds.

Funding is available in the account as follows:

03-44-44-440010-2476-072-500574	<u>FY 2025</u>
Dept Environmental Services, ARPA DES Loans, Grants Federal	\$150,000
Activity Code: 00FRF602WB44010	

EXPLANATION

The District had originally requested a total of \$579,000 in Drinking Water State Revolving Fund (DWSRF) loan and \$386,000 in ARPA grant funding and \$200,000 in Drinking Water and Groundwater Trust Fund grant funding, totaling \$1,165,000 for needed water system improvements. We are requesting approval of this amendment to provide the District \$150,000 in additional ARPA grant funds to complete water system improvements that will improve water supply quality and reliability.

The District was awarded funding to make significant improvements to their water system, including a new gravel pack well, upgrades to the existing well, pump station improvements, installation of water treatment equipment, and installation of new distribution mains throughout the water system. The increase in grant funds is needed to cover an unexpected increase in costs for the distribution system improvements. The previously approved funding was insufficient to award their construction based on actual bid prices. To date, \$62,218.56 of the ARPA grant funds have been spent.

In the event federal funds become no longer available, general funds will not be requested to support this program. This grant amendment has been approved by the Attorney General's Office as to form, substance, and execution.

We respectfully request your approval of this item.

Robert R. Scott
Commissioner

ITEM # 5C

REQUESTED ACTION

Authorize the Department of Environmental Services to amend an American Rescue Plan Act (ARPA) and Drinking Water and Groundwater Trust Fund (DWGT) grant (PO#1088532) to South Main Street Water District (VC #157856-B001), Warren, NH, by extending the completion date to December 31, 2025, from June 1, 2024, for water system improvements. The original grant was approved by Governor and Council on September 7, 2022, Item #80. This is a no cost time extension. 66% Federal Funds. 34% Drinking Water and Groundwater Trust Fund.

EXPLANATION

The purpose of this amendment is to authorize the South Main Street Water District (District) to extend the grant completion date which was originally approved by Governor and Council on September 7, 2022, Item #80. The District has a total of \$579,000 in DWSRF loan, \$386,000 in ARPA grant funding and \$200,000 in DWGT grant funding, totaling \$1,165,000 from NHDES for needed water system improvements. We are requesting approval of this amendment to provide the District additional time to complete water system improvements that will improve water supply quality and reliability.

The District was awarded funding to make significant improvements to their water system, including a new gravel pack well, additional development and upgrades to the existing overburden well, pump station improvements, installation of water treatment equipment, purchase of an easement for sanitary protection of the wellhead, installation of distribution valves and flushing hydrants, and installation of new distribution mains throughout the water system. Design for the project was delayed due to significant leaks in the distribution system, resulting in a change in system demand and well yield. Extension of the completion date is needed to allow for more time to complete the design and construction of the project now that well yield data has been reviewed and various source options have been assessed. To date, \$22,670.37 of the ARPA grant funds have been spent.

In the event that other funds become no longer available, general funds will not be requested to support this program.

We respectfully request your approval of this item.

EXPLANATION

The South Main Street Water District (District) requested a total of \$1,165,000 in funding from NHDES for needed water system improvements. Funding through the American Rescue Plan Act of 2021 (ARPA), the Drinking Water and Groundwater Trust Fund (DWGTF), and the Drinking Water State Revolving Loan Fund (DWSRF) has been arranged with the District to provide the full \$1,165,000 in a combination of grant and loan funds.

The South Main Street Water District will use the ARPA, DWGTF, and DWSRF funding to make significant improvements to their water system including a new gravel pack well, additional development and upgrades to the existing overburden well, pump station improvements, installation of water treatment equipment including backwash disposal, sanitary protective easement purchase, installation of distribution valves and flushing hydrants, and the installation of new distribution main through the water system.

ARPA is a \$1.9 trillion economic stimulus bill passed by the 117th United States Congress and signed into law by President Biden on March 11, 2021, to speed up the United States' recovery from the economic health effects of the COVID-19 pandemic and the resultant recession. The Act defines eligible uses of the state and local funding, including responding to public health emergencies, responding to workers performing essential work during the COVID-19 emergency, providing revenue relief to states and making investments in water, sewer, and broadband infrastructure. In accordance with the final rule from the US Treasury Department for water and wastewater infrastructure investments, project eligibility is aligned with the Environmental Protection Agency's Clean Water State Revolving Fund (CWSRF) and Drinking Water State Revolving Fund (DWSRF). The District will use the \$386,000 ARPA grant for the drinking water system improvements which is an eligible DWSRF infrastructure project. This is an allowable use of ARP FRF funds under Section 602 (c)(1)(D) to make necessary investments in water, sewer, or broadband infrastructure.

The DWGTF was created in 2016, using \$276 million of MtBE trust judgement funds, as authorized by RSA 485-F. The purpose of the Trust Fund is to provide sustainable, long-term funding for the protection, preservation, and enhancement of the drinking water and groundwater resources of the state. The Drinking Water and Groundwater Advisory Commission was established to administer the Trust Fund and to provide guidance to the State on the use of the Trust Fund. On December 13, 2021, the Advisory Commission voted to authorize \$200,000 as a grant to the District to fund the drinking water system improvements in conjunction with the ARPA grant and DWSRF loan.

The DWSRF loan amount will be based on the total DWSRF funds disbursed and may be less than \$579,000. The loan interest rate may be adjusted downward if the DWSRF loan rate in effect upon project completion is less than the current annual rate of 1.256% for thirty years. The District is eligible for principal forgiveness under the 2021 DWSRF Intended Use Plan. The amount of principal forgiveness will be determined when the aggregate principal amount is established, and the project is complete. There is currently a balance of \$48,791,786 in the DWSRF available for new loans.

Changes to the Scope of Services require NHDES approval in advance. All work must be completed prior to the completion date (section 1.7) in this Grant Agreement to be eligible for reimbursement.
