The Grantee identified in Section 1.3 of the General Provisions agrees to comply with the provisions of Executive Office of the President, Executive Order 12529 and 45 CFR Part 76 regarding Debarment, Suspension, and Other Responsibility Matters, and further agrees to have the Grantee's representative, as identified in Sections 1.11 and 1.12 of the General Provisions execute the following Certification:

#### CERTIFICATION REGARDING DEBARMENT, SUSPENSION, AND OTHER RESPONSIBILITY MATTERS - PRIMARY COVERED TRANSACTIONS

##### *Instructions for Certification*

- (1) By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
- (2) The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Energy (Department) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
- (3) The certification in this clause is a material representation of fact upon which reliance was placed when the Department determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, may terminate this transaction for cause or default.
- (4) The prospective primary participant shall provide immediate written notice to the Department to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
- (5) The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76.
- (6) The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the Department.
- (7) The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by the Department, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
- (8) A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Non-procurement List (of excluded parties).
- (9) Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
- (10) Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, the Department may terminate this transaction for cause or default.

**CERTIFICATION REGARDING DEBARMENT, SUSPENSION, AND OTHER  
RESPONSIBILITY MATTERS - PRIMARY COVERED TRANSACTIONS, cont'd**

*Certification Regarding Debarment, Suspension, and Other  
Responsibility Matters - Primary Covered Transactions*

  - (c) are not presently indicted for otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in paragraph (l) (b) of this certification; and
  - (d) have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.
  
- (12) Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal (contract).

*Certification Regarding Debarment, Suspension, Ineligibility and  
Voluntary Exclusion - Lower Tier Covered Transactions  
(To Be Supplied to Lower Tier Participants)*

By signing and submitting this lower tier proposal (contract), the prospective lower tier participant, as defined in 45 CFR Part 76, certifies to the best of its knowledge and belief that it and its principals:

### CERTIFICATION REGARDING BUILD AMERICA, BUY AMERICA (Buy America) COMPLIANCE

The Grantee identified in Section 1.3 of the General Provisions agrees to comply with the provisions of the Build America, Buy America Act (Buy America) Pub. L. No. 117-58, §§ 70901-52 under the Infrastructure Investment and Jobs Act (IIJA), Pub. L. No. 117-58, as well as the *Initial Implementation Guidance on Application of Buy America Preference in Federal Financial Assistance Programs for Infrastructure* memorandum from the Office of Management and Budget (OMB) dated April 18, 2022, and further OMB or US Department of Energy (US DOE) guidance once issued.

Buy America seeks to strengthen Made in America Laws and bolster America's industrial base, protect national security, and support high-paying jobs. Buy America requires that the New Hampshire Department of Energy (Department) and the Grantees of federal funding shall ensure that "none of the funds made available for a Federal financial assistance program for infrastructure, including each deficient program, may be obligated for a project unless all of the iron, steel, manufactured products, and construction materials used in the project are produced in the United States."

#### Definitions:

**Infrastructure** includes, at a minimum, the structures, facilities, and equipment for, in the United States:

- Roads, highways, and bridges;
- Public transportation;
- Dams, ports, harbors, and other maritime facilities;
- Intercity passenger and freight railroads;
- Freight and intermodal facilities;
- Airports;
- Water systems, including drinking water and wastewater systems;
- Electrical transmission facilities and systems;
- Utilities;
- Broadband infrastructure;
- Buildings and real property; and
- Facilities that generate, transport, and distribute energy.

Further, the "infrastructure" in question must either be publicly owned or serve a public function; privately owned infrastructure that is not open to the public, such as a personal residence, is not considered "infrastructure" for purposes of this requirement. In cases where the "public" nature of the infrastructure is unclear, the Grantee should contact the Department. The Department will consult with the US DOE which will render a determination.

**Project** means the construction, alteration, maintenance, or repair of infrastructure in the United States.

**Construction Materials** includes an article, material, or supply – other than an item of primarily iron or steel; a manufactured product; cement and cementitious materials; aggregates such as stone, sand, or gravel; or aggregate binding agents or additives – that is, or consists primarily of:

- Non-ferrous metals;
- Plastic and polymer-based products (including polyvinylchloride, composite building materials, and polymers used in fiber optic cables);
- Glass (including optic glass);
- Lumber; or

- Drywall.

**Domestic content procurement preference** means and refers to the same thing as “Buy America Preference.” These terms mean all iron and steel used in the project are produced in the United States; the manufactured products used in the project are produced in the United States; or the construction materials used in the project are produced in the United States.

Buy America Preference:

None of the funds provided under this grant to the Grantee may be used for a project for infrastructure unless:

1. All iron and steel used in the project are produced in the United States – this means all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States;
2. All manufactured products used in the project are produced in the United States – this means the manufactured product was manufactured in the United States; and the cost of the components of the manufactured product that are mined, produced, or manufactured in the United States is greater than 55 percent of the total cost of all components of the manufactured product, unless another standard for determining the minimum amount of domestic content of the manufactured product has been established under applicable law or regulation; and
3. All construction materials are manufactured in the United States – this means that all manufacturing processes for the construction material occurred in the United States.

The Buy America Preference only applies to articles, materials, and supplies that are consumed in, incorporated into, or affixed to an infrastructure project. As such, it does not apply to tools, equipment, and supplies, such as temporary scaffolding, brought into the construction site and removed at or before the completion of the infrastructure project. Nor does a Buy America Preference apply to equipment and furnishings, such as movable chairs, desks, and portable computer equipment, that are used at or within the finished infrastructure project but are not an integral part of the structure or permanently affixed to the infrastructure project.

The Grantee and its subcontractor, subgrantee, or other person, firm, or corporation, will provide the best available documentation illustrating compliance with the Buy America Preference. The Department reserves the right to request additional information from the Grantee to further demonstrate compliance with the Buy America preference. Compliance may be met by providing the following:

1. A written statement from the manufacturer demonstrating that the iron, steel, manufactured products, or construction materials purchased from that manufacturer were produced in the United States.
2. Photographic evidence that the iron, steel, manufactured products, or construction materials were produced in the United States.
3. Other documentation pre-approved by the Department.

Waivers:

When necessary, the Grantee may seek a waiver from the Buy America Preference requirements. Any issued waiver is made by the US DOE. The Grantee must contact the Department with its intent to seek a waiver from the Buy America Preference requirements. The Department will submit the waiver request on behalf of the Grantee to US DOE. Requests to waive the application of the Buy America Preference must be in writing. Waiver requests are subject to public comment periods of no less than 15 days, as well as review by the Office of Management and Budget (OMB). Current timeframe estimate from request to approval is 45-60 days.

Waivers must be based on one of the following justifications:

1. Applying the Buy America Preference would be inconsistent with the public interest (Public Interest);

2. The types of iron, steel, manufactured products, or construction materials are not produced in the United States in sufficient and reasonably available quantities or of a satisfactory quality (Nonavailability); or
3. The inclusion of iron, steel, manufactured products, or construction materials produced in the United States will increase the cost of the overall project by more than 25 percent (Unreasonable Cost).

Requests to waive the Buy America Preference must include the following:

- Waiver type (Public Interest, Nonavailability, or Unreasonable Cost);
- Recipient name and Unique Entity Identifier (UEI);
- A detailed justification as to how the non-domestic item(s) is/are essential the project;
- A certification that the Grantee made a good faith effort to solicit bids for domestic products supported by terms included in requests for proposals, contracts, and non-proprietary communications with potential suppliers;
- Total estimated project cost, with estimated Federal share and recipient cost share breakdowns;
- Total estimated infrastructure costs, with estimated Federal share and recipient cost share breakdowns;
- A brief description of the project, its location, and the specific infrastructure involved;
- List and description of iron or steel item(s), manufactured goods, and/or construction material(s) the recipient seeks to waive from the Buy America Preference, including name, cost, country(ies) of origin, and relevant PSC and NAICS codes for each;
- A justification statement – based on one of the applicable justifications outlined above—as to why the items in question cannot be procured domestically, including the due diligence performed (e.g., market research, industry outreach) by the recipient to attempt to avoid the need for a waiver. This justification may cite, if applicable, the absence of any Buy America-compliant bids received for domestic products in response to a solicitation; and
- Anticipated impact to the project if no waiver is issued.

The US DOE and the Department may request, and the Grantee must provide, additional information for consideration of this waiver. The US DOE's final determination regarding approval or rejection of the waiver request may not be appealed.

- c) Development and installation of energy storage systems, including electrochemical and thermal storage systems, provided that projects adhere to the requirements of the respective applicant's US DOE executed *Historic Preservation Programmatic Agreement (PA)*, are installed in or on existing buildings, (or within the boundaries of a facility, defined as an already disturbed area due to regular ground maintenance), do not require tree removal or tree trimming, do not require structural reinforcement, and are appropriately sized not to exceed 1,000kWh.

The Grantee agrees to assure compliance pursuant to the NEPA Determination EECBG-2023-001; B5.16 Solar photovoltaic systems defined as:

The installation, modification, operation, and removal of commercially available solar photovoltaic systems located on a building or other structure (such as rooftop, parking lot or facility, and mounted to signage, lighting, gates, or fences), or if located on land, generally comprising less than 10 acres within a previously disturbed or developed area. Covered actions would be in accordance with applicable requirements (such as local land use and zoning requirements) in the proposed project area and would incorporate appropriate control technologies and best management practices.

Activities not listed under "Blueprints and additional activities" within this NEPA determination are subject to additional NEPA review and approval by US DOE.

The Grantee is responsible for informing the Department of any extraordinary circumstances, cumulative impacts, or connected actions that may lead to significant impacts on the environment or any inconsistency with the "integral elements" from a particular project. See 10 C.F.R. Part 1021 Appendix B, and the US DOE's online NEPA and historic preservation training at [www.energy.gov/node/4816816](http://www.energy.gov/node/4816816) to reviews these concepts.

Expedited NEPA review based on this NEPA Statement of Work and supporting documents does not preclude US DOE from conducting stewardship activities, including audits, and site visits, or from exercising any other rights under the EECBG program.

By signing below, the Grantee, agrees to follow all the statements and restrictions in this document; review and comply with the *NEPA Determination* (included in their Grantee award documents); review the US DOE's NEPA and Historic Preservation training website, and submit quarterly *NEPA Logs*. US DOE has developed a NEPA and Historic Preservation training website which contains PowerPoint presentations, sample template documents (including a *NEPA Log*, project *scope of work*, and a project *layout*), a Word template of the *Environmental Questionnaire 1 (EQ1)*, and an *EQ1 Submission Guide* at [www.energy.gov/node/4816816](http://www.energy.gov/node/4816816). Grantees are responsible for reviewing these trainings and reviewing the sample documents prior to initiating projects. Grantees must contact their Department Project Officer with any questions. Subgrantees should also review the NEPA and Historic Preservation training website prior to initiating projects.

DAVIS-BACON AND RELATED ACTS REQUIREMENTS

Compliance with the Davis-Bacon Wage Act and Related Acts (DBRA) is required, and it applies to contracts in excess of \$2,000 for the construction, alteration, and/or repair of public buildings or public works, including painting and decorating. DBRA is applicable to all laborers and mechanics, subrecipients, contractors, or subcontractors who must be paid wages at rates not less than those prevailing on similar projects in the locality. If a project involves work at multiple sites, with a different DBRA wage determination, the DBRA wage determination appropriate for each locality must be inserted in each contract. The prevailing wage rates are determined by the Secretary of Labor in accordance with subchapter IV of chapter 31 of title 40, United States Code and published by the US Department of Labor (USDOL).

Cost shall include payroll costs for employees in the direct employ of a contractor in the performance of the work under schedules of job classifications agreed upon by Grantee and Contractor. Such employees shall include, without limitation, superintendents, foremen, and other personnel employed full time on the work. Payroll costs for employees not employed full time on the Work shall be apportioned based on their time spent on the Work. Payroll costs shall include, but not be limited to, salaries and wages plus the cost of fringe benefits, which shall include social security contributions, unemployment, excise, and payroll taxes, workers' compensation, health and retirement benefits, bonuses, sick leave, and vacation and holiday pay applicable. The expenses of performing Work outside of regular working hours, on Saturday, Sunday, or legal holidays, shall be included in the above to the extent authorized by Grantee.

By accepting this award, the Grantee is acknowledging the DBRA requirements and confirming that the laborers and mechanics performing construction, alteration, or repair work on projects funded in whole or in part by awards made as a result of this RFP are paid or will be paid wages at rates not less than those prevailing on projects of a character similar in the locality as determined by subchapter IV of Chapter 31 of Title 40, United States Code (Davis-Bacon Act).

Grantees must comply with all applicable Davis-Bacon Act requirements, including but not limited to:

1. Ensuring that the wage determination(s) and appropriate Davis-Bacon clauses and requirements are flowed down to and incorporated into any applicable subcontracts or subrecipient awards.
2. Ensuring that if wage determination(s) and appropriate Davis-Bacon clauses and requirements are improperly omitted from contracts and subrecipient awards, the applicable wage determination(s) and clauses are retroactively incorporated to the start of performance.
3. Being responsible for compliance by any subcontractor or subrecipient with the Davis-Bacon labor standards.

4. Receiving and reviewing certified weekly payrolls submitted by all subcontractors and subrecipients for accuracy and to identify potential compliance issues through LCPtracker.
5. Maintaining original certified weekly payrolls for three years after the completion of the project and must make those payrolls available to the Department, US DOE, or the USDOL upon request, as required by 29 CFR 5.6(a)(2).
6. Conducting payroll and job-site reviews for construction work, including interviews with employees, with such frequency as may be necessary to assure compliance by its subcontractors and subrecipients and as requested or directed by the Department, US DOE, or USDOL.
7. Cooperating with any authorized representative of the Department, US DOE, or USDOL in their inspection of records, interviews with employees, and other actions undertaken as part of a USDOL investigation.
8. Posting in a prominent and accessible place the wage determination(s) and Department of Labor Publication: WH-1321, Notice to Employees Working on Federal or Federally Assisted Construction Projects.
9. Notifying the USDOL Contracting Officer of all labor standards issues, including all complaints regarding incorrect payment of prevailing wages and/or fringe benefits, received from the recipient, subrecipient, contractor, or subcontractor employees; significant labor standards violations, as defined in 29 CFR 5.7; disputes concerning labor standards pursuant to 29 CFR parts 4, 6, and 8 and as defined in FAR 52.222-14; disputed labor standards determinations; Department of Labor investigations; or legal or judicial proceedings related to the labor standards under this Contract, a subcontract, or subrecipient award.
10. Preparing and submitting to the Contracting Officer, the Office of Management and Budget Control Number 1910-5165, Davis Bacon Semi-Annual Labor Compliance Report, by April 21 and October 21 of each year.

Grantees must also undergo DBRA compliance training and to maintain competency in DBRA compliance. The Contracting Officer will notify grantees of any US DOE, USDOL, or other sponsored DBRA compliance trainings.

The USDOL offers free Prevailing Wage Seminars several times a year that meet this requirement. More information can be found here:  
<https://www.dol.gov/agencies/whd/government-contracts/construction/seminars/events>.

**Contract Work Hours and Safety Standards Act**

The Davis-Bacon Act directs the Department of Labor to determine such locally prevailing wage rates. The Davis-Bacon Act applies to contractors and subcontractors performing work on federal or District of Columbia contracts. The Davis-Bacon Act prevailing wage provisions apply to the "Related Acts," under which federal agencies assist construction projects through grants, loans, loan guarantees, and insurance.

For prime contracts more than \$100,000, contractors and subcontractors must also, under the provisions of the Contract Work Hours and Safety Standards Act, as amended, pay laborers and mechanics, including guards and watchmen, at least one and one-half times their regular rate of pay for all hours worked over 40 in a workweek. The overtime provisions of the Fair Labor Standards Act may also apply to DBA-covered contracts.

Grantees must submit weekly payroll monitoring information via US DOE's online system (LCPTracker) to comply with DBRA standards.

Grantee agrees to submit weekly payroll monitoring information via US DOE's online system (LCPTracker) and to comply with all applicable provisions of the Davis-Bacon Wage Act and Related Acts, the Contract Work Hours and Safety Standards Act, and the Fair Labor Standards Act, as amended, and the provisions of this Certificate.
