**REQUESTED ACTION**

**EXPLANATION**

This request is **Retroactive** to avoid delays or gaps that would result in reduced or loss of access and supports for individuals in need of this critical service. The Federal awarding agency notified the Department on September 24, 2024, of the availability of funding beyond the contract's completion date of September 29, 2024. Due to the delayed notification from the Federal awarding agency, the Department was unable to present this request to the Governor and Council prior to the contracts expiring. This request is **Sole Source** because the Department is requesting to extend the contract, which was originally competitively bid, beyond the completion date and there are no available renewal options. Due to the limited timeframe between the funding notification from the Federal awarding agency and the contract expiration date, there are no known viable alternatives to the services provided by this Grantee, who has expertise with providing access to room and board services for individuals with opioid and/or stimulant use disorders and who are receiving Medicaid. This request will allow the Grantee to continue to provide these services without gaps or delays in service.

The purpose of this request is to allow the Department to add funding and extend the contracts beyond the available renewal options to avoid a gap in services while the Department reprocures for room and board services for individuals with opioid and/or stimulant use disorder.

The services provided by the Grantee are highly variable due to individual needs and insurance payor and this additional funding will ensure up to 36 bed nights remain available each day for individuals with an Opioid or Stimulant Use Disorder, through September 29, 2025. The average Medicaid utilization for the prior twelve months is 36 bed nights per day.

The Centers for Medicare and Medicaid Services prohibits the use of Medicaid funding to cover room and board; however, room and board is an integral part of residential treatment services. As a result, the NH Medicaid rates for residential services are not sufficient to cover the full cost of care. This agreement will continue to help fill the gap by providing \$100 per bed night, per eligible individual, for the cost of room and board. The Grantee will continue providing expanded access to residential treatment for individuals who receive Medicaid, have a clinical diagnosis of an opioid or stimulant use disorder, and who are receiving low or high intensity

residential treatment services, as defined by the American Society of Addiction Medicine. Access to the appropriate levels of care is recognized as a critical component in increasing treatment retention and completion rates, thereby reducing the costs of active substance misuse on individuals, families, and communities.

The Department will continue monitoring services through the review of monthly invoices and supporting documentation to ensure requests are for allowable costs.

Should the Governor and Council not authorize this request, individuals with a diagnosed Opioid or Stimulant Use Disorder, who receive NH Medicaid and who are in need of residential treatment services, may experience gaps in services, which could result in individuals not receiving the treatment, support, and services needed to enhance and sustain recovery which could lead to poor health outcomes for the individual, their family, and community.

Area served: Statewide

Source of Federal Funds: Assistance Listing Number #93.788, FAIN H79TI087843

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Lori A. Weaver  
Commissioner

**EXPLANATION**

The purpose of this request is continue expanded access to residential treatment for individuals who receive Medicaid, have a clinical diagnosis of an Opioid or Stimulant Use Disorder, and who are receiving low or high intensity residential treatment services, as defined by the American Society of Addiction Medicine. Access to the appropriate levels of care is recognized as a critical component in increasing treatment retention and completion rates, thereby reducing the costs of active substance misuse on individuals, families, and communities. The Grantee will continue to use funds through this Agreement to ensure eligible individuals have continued or expanded access to care.

The services provided by the Grantee are highly variable due to individual needs and insurance payor and this additional funding will ensure up to 36 bed nights remain available each day for individuals with an Opioid or Stimulant Use Disorder, through September 29, 2024. The average Medicaid utilization for the prior twelve months is 32 bed nights per day. Services will continue to be available through the Grantee's facility in Bethlehem, NH.

The Centers for Medicare and Medicaid Services prohibits the use of Medicaid funding to cover room and board; however, room and board is an integral part of residential treatment services. As a result, the NH Medicaid rates for residential services are not sufficient to cover the full cost of care. This agreement will continue to help fill the gap by providing \$100 per bed night, per eligible individual, for the cost of room and board.

The Department will continue monitoring services through the review of monthly invoices and supporting documentation to ensure requests are for allowable costs.

As referenced in Exhibit A, Revisions to Standard Provisions, of the attached agreement, the parties have the option to extend the agreement for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties, and governor and Council approval. The Department is exercising its option to renew services for the one (1) remaining year available.

Should the Governor and Council not authorize this request individuals with a diagnosed Opioid or Stimulant Use Disorder, who receive NH Medicaid and who are in need of residential treatment services, may not have expanded access to care, which may lead to negative consequences such as homelessness, increased crime, and increased health consequences, including overdose.

The original contract was approved by Governor and Council on August 17, 2022, item #15.

### EXPLANATION

This request is **Retroactive** because the Department was notified by the Federal awarding agency on September 23, 2022 of the availability of funding beyond the current contract completion date of September 29, 2022. Due to the delayed notification from the Federal awarding agency, the Department was unable to present this request to the Governor and Council prior to the contract expiring.

The purpose of this request is continue expanded access to residential beds for individuals who receive Medicaid, have a clinical diagnosis of an Opioid or Stimulant Use Disorder, and who are receiving low or high intensity residential treatment services, as defined by the American Society of Addiction Medicine.

The Grantee will continue to ensure up to 36 bed nights are available each day for individuals with an Opioid or Stimulant Use Disorder, through September 29, 2023. The average Medicaid utilization for the prior twelve months is 34 bed nights per day. Services will continue to be available through the Grantee's facility in Bethlehem, NH.

Access to the appropriate levels of care is recognized as a critical component in increasing treatment retention and completion rates, thereby reducing the costs of active substance misuse on individuals, families, and communities. The Grantee will continue to use funds through this Agreement to ensure eligible individuals have continued or expanded access to care.

The Centers for Medicare and Medicaid Services prohibits the use of Medicaid funding to cover room and board; however, room and board is an integral part of residential treatment services. As a result, the NH Medicaid rates for residential services are not sufficient to cover the full cost of care. This agreement will continue to help fill the gap by providing \$100 per bed night, per eligible individual, for the cost of room and board.

The Department will continue monitoring services through the review of monthly invoices and supporting documentation to ensure requests are for allowable costs.

As referenced in Exhibit A, Revisions to Standard Provisions, of the attached agreement, the parties have the option to extend the agreement for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties, and Governor and Council approval. The Department is exercising its option to renew services for one (1) of the two (2) years available.

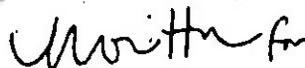

Should the Governor and Council not authorize this request individuals with a diagnosed Opioid or Stimulant Use Disorder, who receive NH Medicaid and who are in need of residential treatment services, will not have expanded access to care, which may lead to negative consequences such as homelessness, increased crime, and increased health consequences, including overdose.

**REQUESTED ACTION**

Authorize the Department of Health and Human Services, Division for Behavioral Health, to award a grant agreement to Bonfire Behavioral Health, LLC d/b/a New Hampshire Delox (VC#340893), Dover, NH, in the amount of \$213,400 for reimbursement for room and board services provided to individuals with an opioid or stimulant use disorder who receive residential treatment services paid for by Medicaid, with the option to renew for up to two (2) additional years, effective upon Governor and Council approval through September 29, 2022. 100% Federal Funds.

Funds are available in the following accounts for State Fiscal Year 2023, with the authority to adjust budget line items within the price limitation through the Budget Office, if needed and justified.

			<i>Subtotal</i>	<i>\$213,400</i>

**EXPLANATION**

The purpose of this request is to expand access to residential beds for individuals who receive Medicaid; have a clinical diagnosis of an Opioid or Stimulant Use Disorder; and who are receiving low or high intensity residential treatment services, as defined by the American Society for Addiction Medicine.

The Grantee will ensure up to 36 beds are available each day for individuals with an Opioid or Stimulant Use Disorder through September 29, 2022. Services will be available through the Contractor's facility in Bethlehem, NH. The scope of services for this program is effective through September 29, 2022, which is the current end date for this funding. However, the Department is seeking a 12-month, no-cost extension from the Substance Abuse and Mental Health Services Administration (SAMHSA), the federal awarding agency, for funds to be utilized after September 29, 2022. This Department expects the no-cost extension to be approved by SAMSHA to allow

His Excellency, Governor Christopher T. Sununu  
and the Honorable Council

for any remaining funds to support project costs for one (1) additional year. The Department will seek Fiscal and Governor and Council approval for the no-cost extension if it is approved and also seek to amend this contract to extend the services beyond September 29, 2022.

The Centers for Medicare and Medicaid Services prohibits the use of Medicaid funding to cover room and board; however, room and board is an integral part of residential treatment services. As a result, the NH Medicaid rates for residential services are not sufficient to cover the full cost of care. This agreement helps to fill the gap by providing \$100 per bed night, per eligible individual, for the cost of room and board.

Access to the appropriate levels of care is recognized as a critical component in increasing treatment retention and completion rates, thereby reducing the costs of active substance misuse on individuals, families, and communities. The Grantee will use funds through this Agreement to ensure eligible individuals have continued or expanded access to care.

The Department will monitor services through the review of monthly invoices and supporting documentation to ensure requests are for allowable costs.

The Department selected the Grantee through a competitive bid process using a Request for Grant Applications (RGA) that was posted on the Department's website from June 23, 2022 through July 11, 2022. The Department utilized a rolling application process to review submitted grant applications. The Department received one (1) response. The Applicant qualification requirements of the RGA and was reviewed by a team of qualified individuals. The Scoring Sheet is attached.

As referenced in Exhibit A, Revisions to Standard Provisions, of the attached agreement, the parties have the option to extend the agreement for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties, and Governor and Council approval.

Should the Governor and Council not authorize this request, the Contractor may have to limit the availability of residential treatment services for individuals with an Opioid or Stimulant Use Disorder, which would delay access to care for those individuals, potentially leading to negative consequences to individuals, families and communities, such as: homelessness, increased crime rate, and increased health consequences, including overdose.

Area served: Statewide

Source of Federal Funds: Assistance Listing Number #93.788, FAIN H79T1083326

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Lori A. Shiblette  
Commissioner

**INSTRUCTIONS FOR CERTIFICATION**

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.
6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.
7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

- 12. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal (contract).
