Dept. Environmental Services, Drinking Water and Groundwater Trust Fund, Grants Non-Federal	

EXPLANATION

The Drinking Water and Groundwater Trust Fund (DWGTF) was created in 2016, using \$276 million of MtBE trial judgement funds, as authorized by RSA 485-F. The purpose of the DWGTF is to provide sustainable, long-term funding for the protection, preservation, and enhancement of the drinking water and groundwater resources of the state. The Drinking Water and Groundwater Advisory Commission (Advisory Commission) was established to administer and provide guidance to the State on the use of the DWGTF. In 2023, the Advisory Commission awarded \$1,000,000 to the New Hampshire Department of Environmental Services (NHDES) to provide grants for remediation of lead in drinking water in K-12 schools at any outlets testing at 5 parts per billion (ppb) or above. The Advisory Commission approved this funding to be awarded to public and nonpublic schools in New Hampshire for up to 100% of the total lead remediation costs as needed.

The Governor Wentworth Regional School District will use the \$22,725 grant for lead remediation at the Ossipee Central School. Eligible work includes installation of water bottle filling stations, point of use filters, removal and replacement of faucets, fixtures, fountains, solder, piping, plumbing components, and water treatment at any drinking water location available for consumption by children with lead results at 5 ppb or above.

In the event funds become no longer available, general funds will not be requested to support this project. This agreement has been approved by the Attorney General's Office as to form, substance, and execution.

We respectfully request your approval.

Robert R. Scott, Commissioner
