REQUESTED ACTION

1. Authorize the Department of Transportation to enter into a contract with Pike Industries, Inc. of Belmont, NH (Vendor 177300), on the basis of a sole bid received of \$6,344,732.95 for pavement resurfacing on three (3) sections in two (2) Towns (Enfield and Lebanon) in District 2 (Project: Enfield-Lebanon #44751) from the date of Governor and Council approval through August 21, 2026, unless amended by the Department in accordance with the Standard Specifications. 100% Federal Funds.

Funds are available in the following account for Fiscal Year 2025, and are anticipated to be available in Fiscal Years 2026 and 2027 upon the availability and continued appropriation of funds in the future operating budgets, with the authority to adjust encumbrances between fiscal years within the price limitation through the Budget Office, if needed and justified:

Funding is available as follows:	<u>FY 2025</u>	<u>FY 2026</u>	<u>FY 2027</u>
04-96-96-963515-3054			
Consolidated Federal Aid			
400-500870 Highway Contract Payments	\$2,710,931.30	\$3,114,686.98	\$519,114.67

2. Further authorize that a contingency in the amount of \$317,236.65 be approved for payment of latent conditions, which may appear during the construction of the project. The contingency requested is 5% of the contract amount.

Funding is available as follows:	<u>FY 2027</u>
04-96-96-963515-3054	
Consolidated Federal Aid	
400-500870 Highway Contract Payments	\$317,236.65

EXPLANATION

This project is part of the State's Ten-Year Transportation Improvement Plan, under the Pave-T1-Resurf/ADA-Trans Program. This project is part of the Tier 1 Federal Resurfacing program and involves 4.6 miles of pavement resurfacing on three (3) sections in two (2) towns in Maintenance District 2.

- 25216 – Enfield-Lebanon, I-89, Bonded Wearing Course, 2” Full Width Inlay, 1½” Full Width Wearing Course Overlay and Spot Inlay, 3.9 Miles
- 25216A – Lebanon, I-89, 2” Travel Way +2’ Inlay, 2” Full Width Inlay, 0.5 Miles
- 25216B – Lebanon, I-89 Exit 19 SB Off/On ramps, 6” binder/1.5” wearing (Off ramp), 2” Full Width inlay (On ramp), 0.2 Miles

This project will extend the quality life of the pavement, improve guardrail, and delay costlier improvements. The sections will be resurfaced via a full width bonded wearing course (BWC), polymer modified wearing course inlay/overlay, and the removal and replacement of existing pavement. All impacted towns and utilities will be notified.

The proposed contingency amount is 5% of the contract amount. This is to account for calculations that are based on aerial and street view photography, and that the sections will need to endure one additional winter season before the proposed work takes place.

Although the bid costs exceeded the Department's estimate by 13.82% the sole bid received is felt to be reasonable for the work involved. Items that contributed to the higher than anticipated bid were; Item 619.1 Maintenance of Traffic \$355,000, and Item 692 Mobilization \$259,344. Re-advertising this project would result, in our opinion, in higher prices and prevent the completion of the work in a timely manner. The Department considers it to be in the best interest of the State to accept this bid to accomplish these needed repairs.

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available and the bid reasonably conforms to the engineer's estimate in accordance with State procedure. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

This project funding is: 80% Federal funds (PAVE-T1-RESURF/ADA-TRANS), with anticipated utilization of Turnpike Toll Credits for the State's 20% match, effectively using 100% Federal Funds.

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Your approval of this resolution is respectfully requested.

Sincerely,

William J. Cass, P.E.
Commissioner

SUPPLEMENTAL PROJECT INFORMATION SHEET

DESCRIPTION: This project is part of the Tier 1 Federal Resurfacing program and involves 4.6 miles of pavement resurfacing on three (3) sections in two (2) towns in Maintenance District 2.

- 25216 Enfield-Lebanon, I-89, Bonded Wearing Course, 2" Full Width Inlay, 1½" Full Width Wearing Course Overlay and Spot Inlay, 3.9 Miles
- 25216A Lebanon, I-89, 2" Travel Way +2' Inlay, 2" Full Width Inlay, 0.5 Miles
- 25216B Lebanon, I-89 Exit SB Off/On ramps, 6" binder/1.5" wearing (Off ramp), 2" Full Width inlay (On ramp), 0.2 Miles

FEDERAL FUNDING: PAVE-T1-RESURF/ADA-TRANS (80%), Turnpike Toll Credit (20%)

CONTINGENCY: The proposed contingency amount is 5% of the contract amount. This is to account for calculations that are based on aerial and street view photography, and that the sections will need to endure one additional winter season before the proposed work takes place.

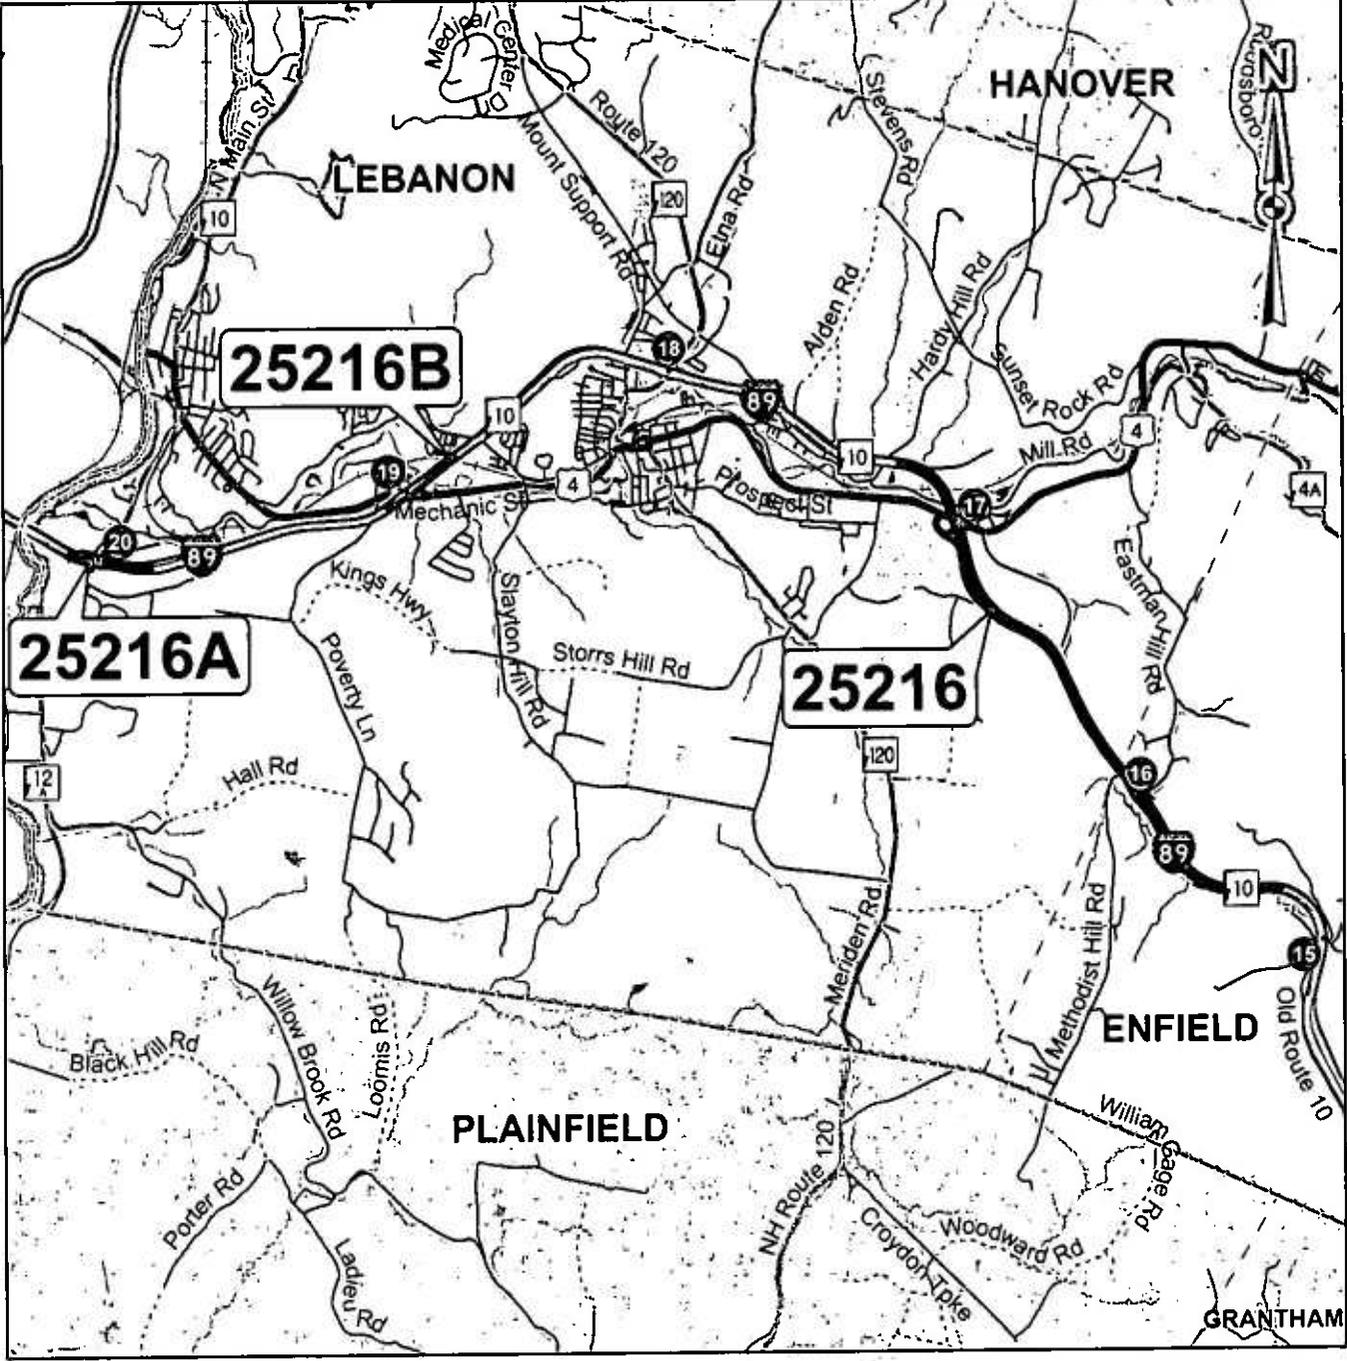

PROJECT INITIATED: This project is part of the 2024 Tier 1 Federal Resurfacing Program. The Pavement Management Section reviewed the road segments included in this project and identified one (1) section of Preservation (3.9 miles), one (1) section of Minor Rehabilitation (0.5 miles), and one (1) section for Major Rehabilitation (0.2 miles).

PROJECT EXPLANATION: This project will extend the quality life of the pavement, improve guardrail, and delay costlier improvements. The sections will be resurfaced via a full width bonded wearing course (BWC), polymer modified wearing course inlay/overlay, and the removal and replacement of existing pavement. All impacted towns and utilities will be notified.

TRAFFIC IMPLICATION: Unless otherwise noted in segment specific requirements, lane and shoulder closure lengths will be limited to one mile with a two-mile separation required between work zones. One lane will be closed at a time on the mainline during construction activities. A 16-foot minimum lane width will be maintained at all times when travel is limited to one lane on I-89. Traffic will be restored to normal patterns at the end of each workday. Most of the ramps will be closed for the duration of their work and traffic will be detoured. All ramps, and mainline work north of Exit 19, will be done at night.

FINAL COMPLETION DATE: August 21, 2026.
