Dept. Environmental Services, Coastal Resilience, Contracts for Program Services

EXPLANATION

NHDES requests approval to enter into a **SOLE SOURCE** contract with the Rockingham Planning Commission (RPC) to assist with Phase II for the New Hampshire Coastal Flood Risk Model (NH-CFRM) Project (Project). This contract is **SOLE SOURCE** because the RPC was a part of the proposal that was selected by the National Fish & Wildlife Fund (NFWF) National Coastal Resilience Fund (NCRF) for Phase I and Phase II of the NH-CFRM. The goal of the NH-CFRM and its data is to help state and local decision-makers and stakeholders in New Hampshire's Coastal Zone examine the flood risk of tidal flooding, storm surge, and present and future sea-level rise (SLR) on assets, infrastructure and natural resources.

This agreement will enable RPC to work with NHDES to use the NH-CFRM to advance planning and develop best practices for the identification and evaluation of transportation and land use adaptation options to prioritize projects that are low impact and nature-based, are resilient to future flood risks, and reduce community vulnerability. RPC will assist with selection of alternatives analysis project sites and assess adaptation alternatives for select projects in their respective planning region.

Total project costs are budgeted at \$12,598.75. NHDES will provide 100% of the project costs through federal funds. In the event federal funds become no longer available, general funds will not be requested to support this project. A budget breakdown is provided in Attachment A. This agreement has been approved by Office of the Attorney General as to form, substance and execution.

We respectfully request your approval.
