February 4, 2025

Her Excellency, Governor Kelly A. Ayotte
and the Honorable Council
State House
Concord, New Hampshire 03301

REQUESTED ACTION

Authorize the New Hampshire Department of Environmental Services (NHDES) to amend an American Rescue Plan Act grant (PO#1095431) to the City of Dover, NH (VC# 177380 B005), by extending the grant completion date from March 31, 2025, to December 31, 2025, to conduct a property assessment of the Chapel Street Ravine, effective upon Governor & Council approval. The original grant was approved by Governor and Council on September 20, 2023 Item #128. This is a no cost time extension. 100% federal funds.

EXPLANATION

We are requesting approval of this amendment in order to provide the City of Dover additional time to complete the agreed upon scope of services. The City is conducting a preliminary evaluation of the slope stability, conducting boundary surveys, engaging property owners, and optimizing City easements or acquisitions that are necessary to complete the future construction phase for the proposed Chapel Street Ravine Stormwater Treatment System, which will reduce pollutant loadings and alleviate flooding. The project has been diligently progressing but has experienced delays due to the time and amount of research needed to accurately establish the property boundaries, finalize on-sight field reconnaissance of the complex property boundaries, and obtain responses from key stakeholders for project coordination and property access. The reason for the extension is to allow the City the entirety of 2025 to utilize the remaining grant award to collaborate with project stakeholders to discuss the future use of the property and finalize elements of the property assessment. To date, \$39,416.80 of the original \$100,000 grant has been spent.

In the event federal funds become no longer available, general funds will not be requested to support this program. This grant amendment has been approved by the Attorney General's Office as to form, substance and execution.

We respectfully request your approval of this item.

CITY OF DOVER - RESOLUTION

Agenda Item#: 12.C.1.

Resolution Number: **R - 2023.07.12 - 114**
 Resolution Re: Authorization to Accept and Expend ARPA Chapel St
 Ravine Stormwater Treatment System Property Assessment
 Grant

RESOLUTION BACKGROUND MATERIAL:

In March 2022, the City of Dover and its consulting engineer (Kleinfelder) completed a study (the Chapel Street Ravine Stormwater Treatment System Study), which was financed by a \$75,000 Stormwater Planning Loan from the Clean Water State Revolving Fund (CWSRF) administered by the New Hampshire Department of Environmental Services (NHDES) CWSRF Loan Program. The study included the evaluation of possible options for utilizing the ravine as an area to treat the stormwater naturally before re-entering the closed drainage system at the southern end of the ravine near Chapel Street and discharging to the Cocheco River, thereby reducing pollutant loads to the Cocheco River and improving water quality. The Cocheco River is impaired for a variety of constituents including nitrogen, dissolved oxygen, etc. according to New Hampshire's 2018 303(d) List of Impaired Waters. A stormwater treatment system within the ravine could also provide the ability to attenuate peak flows in the existing closed drainage system.

The study concluded that the existing Chapel Street Ravine holds considerable potential as a location for a green infrastructure-based stormwater treatment system. The study also identified several feasible green infrastructure-based stormwater treatment options (i.e., BMPs), which led to the development of four specific concept plans. A specific concept plan comprised of a forebay followed by a multi-pond detention system was deemed most favorable in terms of balancing expected pollutant loading removal with capital and O&M costs.

FY 2024
\$100,000

EXPLANATION

NHDES selected awardees for the Clean Water Planning projects from pre-applicants who submitted proposed projects to the Clean Water State Revolving Fund (CWSRF) loan program in 2022. Pre-applicants were offered funding for their project utilizing CWSRF ranking criteria, the 2022 CWSRF Project Priority List, and information obtained from a project update solicitation in November 2022.

The City of Dover requested a total of \$100,000 in funding from NHDES for a planning study at Chapel Street Ravine. NHDES, through the American Rescue Plan Act funds has offered the City of Dover \$100,000.

The City will use the grant funding to conduct a preliminary evaluation of the slope stability, conduct boundary surveys, engage property owners, and optimize City easements or acquisitions that may be necessary to complete the future construction phase for the proposed Chapel Street Ravine Stormwater Treatment System. The construction of the stormwater treatment system will reduce pollutant loadings and alleviate flooding. This is an allowable use of ARP FRF funds under Section 602 (c)(1)(D) to make necessary investments in water, sewer, or broadband infrastructure.

The Act defines eligible uses of the state and local funding, including responding to public health emergencies, responding to workers performing essential work during the COVID-19 emergency, providing revenue relief to states and making investments in water, sewer, and broadband infrastructure.

In the event that grant funds become no longer available, General funds will not be requested to support this program. This grant agreement has been approved by the Attorney General's Office as to form, substance and execution.
