EXPLANATION

This request is **Sole Source** because MOP 150 requires all amendments to agreements originally approved as sole source to be identified as sole source. The Contractors are the only authorized contractors able to provide the necessary services. The Department contracts for mental health services through these Community Mental Health Centers, which are designated by the Department to service towns and cities within specified geographic regions, as outlined in the NH Revised Statutes Annotated (RSA) 135-C, New Hampshire Mental Health Services System, and NH Administrative Rule He-M 403, Approval and Operation of Community Mental Health Programs.

The purpose of this request is to correct the payment terms for the Assertive Community Treatment and Modular Approach to Therapy for Children services to ensure the Department can reimburse the Contractors for these services. The current payment terms for these services only allow payments to be drawn down on the prior State Fiscal Year and not for the full term of the contract. The Department is requesting to revise the payment terms to remove references to prior SFYs. This will allow the Contractors to invoice for payments through the contract completion date. The funding for the Contractors' payments is already encumbered in their individual price limitations.

The Assertive Community Treatment program offers treatment, rehabilitation, and support services using a person-centered, recovery-based approach to individuals who have been diagnosed with severe and persistent mental illness. The Contractors are paid for these services based on active participation in the monthly consultation and skill training events or for completion of a fidelity measures reviewed by the Department. The Modular Approach to Therapy for Children program is an industry standard treatment that employs a cognitive-behavioral framework to address common childhood behavioral health concerns including depression, anxiety, conduct problems, and trauma for youth ages 6-12. This modularized approach allows for flexibility and encourages clinicians to tailor treatment to individual treatment needs. The Contractors are paid for these services based on a per person rate. The Assertive Community Treatment and Modular Approach to Therapy for Children program scope provisions align with Mental Health Services required by NH RSA 135-C and with State Regulations applicable to the mental health system as outlined in He-M 400, as well as in compliance with the Community Mental Health Agreement (CMHA).

Approximately 20,700 individuals are served annually by the Contractors listed above. The populations served include children with Serious Emotional Disturbances and adults with Serious Mental Illness/Serious and Persistent Mental Illness, including individuals with Mental Illness and co-occurring substance use disorders per NH Administrative Rule He-M 401 Eligibility Determination and Individuals Service Planning.

The Department will continue to monitor services by:

- Conducting performance reviews and utilization reviews as necessary and appropriate based on applicable licensing, certifications, and service provisions.
- Conducting quarterly meetings to review submitted quarterly data and reports to identify ongoing programmatic improvements.
- Reviewing monthly financial statements provided by the Contractors for ongoing evaluation of program fiscal integrity.

Should the Governor and Executive Council not authorize this request, the Department will be unable to reimburse the Contractors for Assertive Community Treatment and Modular Approach to Therapy for Children services, which aligns with the scope of services.

Respectfully submitted,

Lori A. Weaver
Commissioner

Amendment #1

This Amendment to the Mental Health Services contract is by and between the State of New Hampshire, Department of Health and Human Services ("State" or "Department") and Northern Human Services ("the Contractor").

WHEREAS, pursuant to an agreement (the "Contract") approved by the Governor and Executive Council on June 14, 2023 (Item #31), the Contractor agreed to perform certain services based upon the terms and conditions specified in the Contract and in consideration of certain sums specified; and

WHEREAS, pursuant to Form P-37, General Provisions, the Contract may be amended upon written agreement of the parties and approval from the Governor and Executive Council; and

NOW THEREFORE, in consideration of the foregoing and the mutual covenants and conditions contained in the Contract and set forth herein, the parties hereto agree to amend as follows:

1. Modify Exhibit C, Payment Terms; Section 7.5, to read:

   7.5. Assertive Community Treatment Team (ACT) Adults: The Contractor shall be paid based on an activity and general payment as outlined below. Funds support programming and staffing defined in Exhibit B, Scope of Work, Adult Assertive Community Treatment (ACT) Teams.

ACT Costs	INVOICE TYPE	TOTAL COST
Invoice based payments on invoice	Programmatic costs as outlined on invoice by month	$960,000
ACT Enhancements	1. ACT Incentives of $6,250 may be drawn down in December and May for active participation in COD Consultation. Evidence of active participation by the ACT team in the monthly consultations and skills training events conducted by the COD consultant will qualify for payment. OR 2. ACT incentives may be drawn down upon completion of the SFY Fidelity Review per SFY. A total of $6,250 may be paid for a score of 4 or 5 on the Co-occurring Disorder Treatment Groups (S8) and the Individualized Substance Abuse Treatment (S7) fidelity measures.	$25,000

2. Modify Exhibit C, Payment Terms, Section 7.7., to read:

   7.7. MATCH: Funds to be used to support services and trainings outlined in Exhibit B, Scope of Services. The breakdown of this funding per SFY is outlined below.

TRAC COSTS	CERTIFICATION OR RECERTIFICATION	TOTAL COST
$2,500	$250/Person X 10 People = $2,500	$5,000

All terms and conditions of the Contract not modified by this Amendment remain in full force and effect. This Amendment shall be effective upon Governor and Council approval.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors of
Northern Human Services, Inc.

Report on the Financial Statements

Opinion

We have audited the accompanying financial statements of Northern Human Services, Inc. (a New Hampshire nonprofit organization), which comprise the statements of financial position as of June 30, 2023 and 2022, and the related statements of cash flows, and notes to the financial statements for the years then ended, and the related statements of activities and functional expenses for the year ended June 30, 2023.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Northern Human Services, Inc. as of June 30, 2023 and 2022, and its cash flows for the years then ended, and the changes in its net assets for the year ended June 30, 2023 in accordance with accounting principles generally accepted in the United States of America.

Basis of Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Northern Human Services, Inc. and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Northern Human Services, Inc.'s ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditors' Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions,

misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Northern Human Services, Inc.'s internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Northern Human Services, Inc.'s ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedule of functional revenues and expenses on pages 28 – 36 and accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* on page 37, are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of functional revenues and expenses and schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated March 30, 2024, on our consideration of Northern Human Services, Inc.'s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Northern Human Services, Inc.'s internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Northern Human Services, Inc.'s internal control over financial reporting and compliance.

Report on Summarized Comparative Information

We have previously audited Northern Human Services, Inc.'s 2022 financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated May 30, 2023. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2022, is consistent, in all material respects, with the audited financial statements from which it has been derived.

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General

Northern Human Services, Inc. (the Organization), is a New Hampshire nonprofit corporation, and was created to develop and provide a comprehensive program of mental health, developmental disabilities, and rehabilitative care to the residents of Northern New Hampshire.

Basis of Accounting

The financial statements of Northern Human Services, Inc. have been prepared on the accrual basis of accounting and, accordingly, reflect all significant receivables, payables and other liabilities.

Basis of Presentation

The Organization is required to report information regarding its financial position and activities according to the following net asset classifications. The classes of net assets are determined by the presence or absence of donor restrictions.

Net assets without donor restrictions: Net assets that are not subject to donor-imposed restrictions and may be expended for any purpose in performing the primary objectives of the Organization. These net assets may be used at the discretion of the Organization's management and board of directors.

Net assets with donor restrictions: Net assets subject to stipulations imposed by donors and grantors. Some donor restrictions are temporary in nature; those restrictions will be met by actions of the Organization. Other donor restrictions are perpetual in nature, whereby the donor has stipulated the funds be maintained in perpetuity.

As of June 30, 2023 and 2022, the Organization had net assets with donor restrictions and net assets without donor restrictions.

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Contributions

All contributions are considered to be available for use without donor restrictions unless specifically restricted by the donor. Amounts received that are restricted by the donor for future periods or for specific purposes are reported as support with donor restrictions, depending on the nature of the restrictions. However, if a restriction is fulfilled in the same period in which the contribution is received, the Organization reports the support as without donor restrictions.

Cash Equivalents

The Organization considers all highly liquid financial instruments with original maturities of three months or less to be cash equivalents.

Accounts Receivable

Accounts receivable are stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible amounts through a charge to activities and a credit to a valuation allowance based on historical account write-off patterns by the payor, adjusted as necessary to reflect current conditions. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to accounts receivable. The Organization has no policy for charging interest on overdue accounts nor are its accounts receivable pledged as collateral.

It is the policy of the Organization to provide services to all eligible residents of Northern New Hampshire without regard to ability to pay. As a result of this policy, all charity care write-offs are recorded as reductions of revenue in the period in which services are provided. The accounts receivable allowance includes the estimated amount of charity care and contractual allowances included in the accounts receivable balances. The computation of the contractual allowance is based on historical ratios of fees charged to amounts collected.

Property and Depreciation

Property and equipment are recorded at cost or, if contributed, at estimated fair value at the date of contribution. Material assets with a useful life in excess of one year are capitalized. Depreciation is provided for using the straight-line method in amounts designed to amortize the cost of the assets over their estimated useful lives as follows:

Vehicles	5 – 10 years
Equipment	3 – 10 years

Costs for repairs and maintenance are expensed when incurred and betterments are capitalized. Assets sold or otherwise disposed of are removed from the accounts, along with the related accumulated depreciation, and any gain or loss is recognized.

Investments

Investments consist of mutual funds and interest-bearing investments and are stated at fair value on the statements of financial position based on quoted market prices. The Organization's investments are subject to various risks, such as interest rate, credit and overall market volatility, which may substantially impact the fair value of such investments at any given time.

Accrued Earned Time

The Organization has accrued a liability for future compensated absences that its employees have earned and which is vested with the employees.

Refundable Advances

Grants received in advance are recorded as refundable advances and recognized as revenue in the period in which the related services are provided or costs are incurred.

Program Service Fee Revenue

The Organization has agreements with third-party payors that provide for payments to the Organization at amounts different from its established rates. Payment arrangements include reimbursed costs, discounted charges, and per diem payments. Program service fee revenue is reported at the estimated net realizable amounts from clients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with the third-party payors. Retroactive adjustments are accrued on an estimated basis in the

period the related services are rendered and adjusted in future periods as final settlements are determined.

Advertising
The Organization expenses advertising costs as incurred.

Summarized Financial Information
The financial statements include certain prior year summarized comparative information in total but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the Organization's financial statements for the year ended June 30, 2022, from which the summarized information was derived.

Functional Allocation of Expenses
The costs of providing the various programs and other activities have been summarized on a functional basis. Natural expenses are defined by their nature, such as salaries, rent, supplies, etc. Functional expenses are classified by the type of activity for which expenses are incurred, such as management and general and direct program costs. Expenses are allocated by function using a reasonable and consistent approach that is primarily based on function and use. The costs of providing certain program and supporting services have been directly charged.

Income Taxes
The Organization is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code. In addition, the Organization qualifies for the charitable contribution deduction under Section 170(b)(1)(a) and has been classified as an organization that is not a private foundation.

FASB ASC 740, Accounting for Income Taxes, establishes the minimum threshold for recognizing, and a system for measuring, the benefits of tax return positions in financial statements, and is effective for Northern Human Services' current year. Management has analyzed Northern Human Services' tax positions taken on its information returns for all open tax years (three years) and has concluded that no additional provision for income tax is required in the Organization's financial statements.

New Accounting Pronouncement
In February 2016, the Financial Accounting Standards Board (FASB) issued ASU 2016-02, *Leases*, to increase transparency and comparability among organizations by recognizing lease assets and lease liabilities on the statement of financial position and disclosing key information about leasing arrangements for lessees and lessors. The standard applies a right of use model that requires all leases with a lease term of more than 12 months to recognize an asset representing its right to use the underlying asset for the lease term and liability to make lease payments to be recorded. The Organization elected not to restate the comparative period. The Organization also elected not to reassess at adoption (i) expired or existing contracts to determine whether they are or contain a lease, (ii) the lease classification of any existing leases, (iii) initial direct costs for existing leases. The adoption of ASU 2016-02 resulted in the recognition of an operating right of use assets and operating lease liabilities of $214,606 as of June 30, 2023. Results for periods beginning prior to July 1, 2022 continue to be reported in accordance with the Organization's historical accounting treatment. The adoption of ASU 2016-02 did not have a material impact on the Organization's operations or cash flows.

Revenue Recognition

The Organization derives revenues from services provided to its clients. Service revenue is reported at the amount that reflects consideration to which the Organization expects to be entitled in exchange for providing services. These amounts are due from clients and third-party payors. Revenue is recognized as performance obligations are satisfied. Performance obligations are determined based on the nature of the services provided by the Organization and the contract with the client or third-party and are satisfied when the service is performed.

The Organization determines the transaction price based on standard charges for goods and services provided as well as the state contract rate with third-party payors.

6. FAIR VALUE MEASUREMENTS

FASB ASC Topic No. 820-10 provides a definition of fair value which focuses on an exit price rather than an entry price, establishes a framework in generally accepted accounting principles for measuring fair value which emphasizes that fair value is a market-based measurement, not an entity-specific measurement, and requires expanded disclosures about fair value measurements. In accordance with *FASB ASC 820-10*, the Organization may use valuation techniques consistent with market, income and cost approaches to measure fair value. As a basis for considering market participant assumptions in fair value measurements, *ASC Topic 820* establishes a fair value hierarchy, which prioritizes the inputs used in measuring fair values. The hierarchy gives the highest priority to Level 1 measurements and the lowest priority to Level 3 measurements. The three levels of the fair value hierarchy under *ASC Topic 820* are described as follows:

Level 1 - Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date.

Level 2 - Inputs to the valuation methodology are other than quoted market prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies.

Level 3 - Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

The Organization's financial instruments consist of cash, short-term receivables and payables, and refundable advances. The carrying value for all such instruments, considering the terms, approximates fair value at June 30, 2023 and 2022.

The following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used at June 30, 2023 and 2022.

Mutual Funds: All actively traded mutual funds are valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value (NAV) and to transact at that price. All mutual funds held by the Organization are open-end mutual funds that are registered with the Securities and Exchange Commission.

The table below segregates all financial assets and liabilities as of June 30, 2023 and 2022 that are measured at fair value on a recurring basis (at least annually) into the most appropriate level within the fair value hierarchy based on the inputs used to determine the fair value at the measurement date:

	2023			
	Level 1	Level 2	Level 3	Total

Other funds	2,585	-	-	2,585
Total investments at fair value	$ 2,184,839	$ -	$ -	$ 2,184,839

7. RETIREMENT PLAN

The Organization maintains a retirement plan for all eligible employees. Under the plan employees can make voluntary contributions to the plan of up to 100% of pretax or after tax annual compensation up to the maximum annual limit provided by the Internal Revenue Service. All employees who work one thousand hours per year are eligible to participate after one year of employment, as defined by the plan. During the year ended June 30, 2015, the Organization implemented a 2% discretionary contribution allocated each pay period. During the year ended June 30, 2020, the Organization increased the discretionary contribution from 2% to 3%. Contributions by the Organization totaled $452,001 and $437,620 for the years ended June 30, 2023 and 2022, respectively.

8. CONCENTRATION OF CREDIT RISK

The Organization maintains cash balances that, at times, may exceed federally insured limits. The balances are insured by the Federal Deposit Insurance Corporation (FDIC) up to $250,000 for the years ended June 30, 2023 and 2022. At June 30, 2023 and 2022, the Organization had cash balances in excess of FDIC coverage. However, in addition to FDIC coverage, the Organization maintains a tri-party collateralization agreement with its primary financial institution and a trustee. The trustee maintains mortgage-backed collateralization of 102% of the Organization's deposits at its financial institution. The Organization has not experienced any losses in such accounts and believes it is not exposed to any significant risk with respect to these accounts.

9. CONCENTRATION OF RISK

For the years ended June 30, 2023 and 2022, approximately 85% and 89% of the total revenue was derived from Medicaid, respectively. The future existence of the Organization is dependent upon continued support from Medicaid.

In order for the Organization to receive Medicaid funding, they must be formally approved by the State of New Hampshire, Department of Health and Human Services, Division of Community Based Care Services, Bureau of Behavioral Health, and Bureau of Developmental Services as the provider of services for individuals with mental health illnesses and developmentally disabled individuals, for that region. During the year ended June 30, 2017, the Organization was reapproved as a provider of mental health services with the Bureau of Behavioral Health.

Medicaid receivables comprise approximately 90% and 89% of the total accounts receivable balances at June 30, 2023 and 2022, respectively.

10. LEASE COMMITMENTS

On July 1, 2022, the Organization was required to adopt ASU 2016-02, Leases (Topic 842). As part of implementing ASU 2016-02, the Organization evaluated current contracts to determine which met the criteria of a lease. The right of use (ROU) assets represent the Organization's right to use underlying assets for the lease term, and the lease liabilities represent the Organization's obligation to make lease payments arising from these leases. The ROU assets and lease liabilities, all of which arise from operating leases, were calculated based on the present value of future lease payments over the lease terms. The Organization has elected to discount future cash flows at the risk free borrowing rates commensurate with the lease terms, which was 4.27% at June 30, 2023. At June 30, 2023, the right of use asset and lease liability is $214,606. Common expenses, classified as occupancy costs in the accompanying financial statements, are considered a non-lease component under FASB ASC 842 and are recognized as costs are incurred. The Organization's operating leases are described below:

The Organization has entered into various operating lease agreements to rent certain facilities and office equipment. The terms of these leases range from one to five years. Monthly lease payments range from $290 to $12,755. Rent expense incurred under the lease agreements aggregated $1,047,770 and $995,792 for the years ended June 30, 2023 and 2022, respectively.

The Organization elected to use the risk free rate of 4.27% on all operating leases. The weighted average discount rate is 4.27%; the weighted average remaining lease term for operating lease obligations is 2.89 years.

Lease liability maturities as of June 30, 2023 were as follows:

Year Ended June 30	Amount
2024	$ 61,320
2025	59,317
2026	57,816
2027	42,254
2028	12,991
Total undiscounted lease liability	233,698
Less imputed interest	19,092
Total lease liability	$ 214,606

The scheduled future minimum lease payments for operating leases under one year in duration are $847,224 for the year ending June 30, 2024.

See Note 11 for information regarding lease agreements with a related party.

11. RELATED PARTY TRANSACTIONS

The Organization is related to the nonprofit corporation Shallow River Properties, Inc. (Shallow River) as a result of common board membership. Shallow River was incorporated under the laws of the State of New Hampshire on September 13, 1988, for the purpose of owning, maintaining, managing, selling, and leasing real property associated with the provision of residential, treatment, and administrative services for the clients and staff of the Organization.

The Organization has transactions with Shallow River during its normal course of operations. The significant related party transactions are as follows:

Due to/from Related Party

The Organization had a receivable due from Shallow River balance in the amount of $91,582 at June 30, 2023 and a payable due to Shallow River balance in the amount of $422,343 at June 30, 2022, respectively.

Rental Expense

The Organization leases various properties, including office space, and properties occupied by the Organization's clients from Shallow River under the terms of tenant at will agreements. The Organization has the perpetual right to extend the leases. Total rental expense paid under the terms of the leases was $770,034 for each of the years ended June 30, 2023 and 2022. The Organization also leases space from a board member for $1,200 per month.

Management Fee

The Organization charges Shallow River for administrative expenses incurred on its behalf. Management fee revenue aggregated $74,649 for each of the years ended June 30, 2023 and 2022.

Donation

Although not required by agreement between Shallow River and the Organization, Shallow River generally donates the excess of its revenues over expenses to the Organization. For the year ended June 30, 2023, Shallow River did not make a donation to the Organization but retained its surplus of $405,007 due to future plans of acquiring a new building and for use in future renovation projects and maintenance costs. For the year ended June 30, 2022, Shallow River had a net loss of $247,951 and therefore had no surplus to donate.

12. REFUNDABLE ADVANCES, MAINTENANCE OF EFFORT

The Organization maintains contracted arrangements with multiple Medicaid managed care organizations (MCOs) that provide a set per member per month payment for health care services provided. This system helps manage costs, utilization, and quality of services. The Organization is paid prior to services being provided each month and is required to maintain certain levels of performance. A reconciliation is calculated at year end between the Organization and the MCOs to determine if the Organization has been overpaid compared to actual utilization and services performed, which the Organization would then be required to repay. At June 30, 2023 and 2022, the outstanding capitated payment liability totaled $101,803 and $631,469, respectively.

13. COMMITMENTS AND CONTINGENCIES

The Organization receives funding under various state and federal grants. Under the terms of these grants, the Organization is required to use the money within the grant period for purposes specified in the grant proposal. If expenditures for the grant were found not to have been made in compliance with the proposal, the Organization may be required to repay the grantor's funds.

Excess funds generated from state and/or Medicaid funded programs may be expended, at the Organization's discretion, to increase or improve service delivery within the program. The excess funds may not be used to increase spending for personnel, professional fees, fringe benefits, or capital expenditures without prior written approval of the State of New Hampshire.

The Organization has contracts with certain third-party payors requiring specific performance to supervise and document certain events relating to client treatment. These agencies periodically audit the performance of the Organization in fulfilling these requirements. If the payments were found not to have been made in compliance with the contracts, the Organization may be required to repay the funds received under the contract.

The Organization ensures its medical malpractice risks on a claims-made basis under a policy, which covers all of its employees. The Organization intends to renew coverage on a claims-made basis and anticipates that such coverage will be available.

Contracts with the State of New Hampshire and various federal agencies require that the properties supported be used for certain programs and/or to serve specified client populations. If Shallow River or the Organization should stop using the property to provide services acceptable to these grantors, the grantors would be entitled to all or part of the proceeds from the disposition of the property. These stipulations affect substantially all of the properties owned by Shallow River. The affected amount and the disposition are determined by negotiation with the granting authority at the time the property is sold.

14. NET ASSETS WITH DONOR RESTRICTIONS

At June 30, 2023 and 2022, net assets with donor restrictions consisted of the following:

	2023	2022
Certificates of Deposit – Memorial Fund	$ 252,417	$ 252,417
Dream Team Fund	2,736	2,963
Income earned on the Memorial Fund	2,305	2,052
Total net assets with donor restrictions	$ 257,458	$ 257,432

15. ENDOWMENT FUND AND NET ASSETS WITH DONOR RESTRICTIONS

As a result of the June 30, 2006 merger of The Center of Hope for Developmental Disabilities, Inc. (Center of Hope), with and into the Organization, the Organization assumed responsibility for certain assets of Center of Hope that are subject to charitable restrictions and designated for particular purposes, namely the Memorial Fund (the Fund).

The Fund was created by the Center of Hope in 1989 for the purpose of seeking out and funding experiences that make life more interesting and full for people with disabilities. In or around 1992, additional funds were added to the Fund as a result of a testamentary bequest of Dorothy M. Walters, for the purpose of providing "maintenance funds" for programs for individuals with mental and developmental disabilities. The Center of Hope interpreted the terms of this bequest as consistent with the purpose of the Fund, and the bequest meets the definition of an endowment fund.

The Not-for-Profit Entities Topic of the *FASB ASC (ASC 958-205* and subsections) intends to improve the quality of consistency of financial reporting of endowments held by not-for-profit organizations. This Topic provides guidance on classifying the net assets associated with donor-restricted endowment funds held by organizations that are subject to an enacted version of the Uniform Prudent Management Institutional Funds Act (UPMIFA). New Hampshire has adopted UPMIFA. The Topic also requires additional financial statement disclosures on endowments and related net assets.

The Organization has followed an investment and spending policy to ensure a total return (income plus capital change) necessary to preserve the principal of the fund and at the same time, provide a dependable source of support for life-enhancing activities of eligible individuals. The Organization will only distribute income generated by the Fund, leaving the original corpus intact.

In recognition of the prudence required of fiduciaries, the Organization only invests the Fund in certificates of deposits, which ensures that a majority of the balance of the Fund is covered by the FDIC. The Organization has taken a risk adverse approach to managing the Fund in order to mitigate financial market risk such as interest rate, credit and overall market volatility, which could substantially impact the fair value of the Fund at any given time.

As of June 30, 2023 and 2022, the endowment was entirely composed of net assets with donor restrictions.

Changes in endowment net assets (at fair value) as of June 30, 2023 and June 30, 2022 were as follows:

	2023	2022
Certificates of deposit, beginning of year	$ 252,417	$ 252,417
Interest income	253	322
Withdrawals	(253)	(322)
Certificates of deposit end of year	$ 252,417	$ 252,417

16. AMERICAN RESCUE PLAN ACT

During March 2022, the Organization received funds from the State of New Hampshire Department of Health and Human Services from the American Rescue Plan Act to be used for Recruitment, Retention, and Training Programs (RRTP) for direct support workers (DSWs), direct support professionals (DSPs), and immediate supervisors. These were funds allocated for case management agencies for their employees and to pass funds through to subcontractors. During the year ended June 30, 2023, the Organization received and expended $1,303,648 under the grant through payroll and subcontractor expenses. A liability of $1,077,811 related to the program has been recorded in other grants payable on the statement of financial position at June 30, 2023. During the year ended June 30, 2022, the Organization received and expended $802,680 under the grant through payroll and subcontractor expenses. A liability of $1,896,698 related to the program has been recorded in other grants payable on the statement of financial position at June 30, 2022.

17. RECLASSIFICATION

Certain amounts and accounts from the prior year's financial statements were reclassified to enhance comparability with the current year's financial statements.

18. SUBSEQUENT EVENTS

Subsequent events are events or transactions that occur after the statement of financial position date, but before financial statements are available to be issued. Recognized subsequent events are events or transactions that provide additional evidence about conditions that existed at the statement of financial position date, including the estimates inherent in the process of preparing financial statements. Nonrecognized subsequent events are events that provide evidence about conditions that did not exist at the statement of financial position date, but arose after that date. Management has evaluated subsequent events through March 30, 2024, the date the June 30, 2023 financial statements were available for issuance.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Directors of
Northern Human Services, Inc.

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Northern Human Services, Inc. (a New Hampshire nonprofit organization), which comprise the statement of financial position as of June 30, 2023, and the related statements of activities, cash flows, and functional expenses for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated March 30, 2024.

Report on Internal Control Over Financial Reporting
In planning and performing our audit of the financial statements, we considered Northern Human Services, Inc.'s internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Northern Human Services, Inc.'s internal control. Accordingly, we do not express an opinion on the effectiveness of Northern Human Services, Inc.'s internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did identify a deficiency in internal control, described in the accompanying schedule of findings and questioned costs as item 2023-001 that we consider to be a material weakness.

Report on Compliance and Other Matters
As part of obtaining reasonable assurance about whether Northern Human Services, Inc.'s financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Northern Human Services, Inc.'s Response to Findings
Government Auditing Standards requires the auditor to perform limited procedures on Northern Human Services, Inc.'s response to the findings identified in our audit and described in the accompanying schedule of findings and questioned costs. Northern Human Services, Inc.'s response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of This Report
The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Board of Directors of
Northern Human Services, Inc.

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Northern Human Services, Inc.'s (a New Hampshire nonprofit organization) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Northern Human Services, Inc.'s major federal programs for the year ended June 30, 2023. Northern Human Services, Inc.'s major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, Northern Human Services, Inc. complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2023.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Northern Human Services, Inc. and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Northern Human Services, Inc.'s compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Northern Human Services, Inc.'s federal programs.

Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Northern Human Services, Inc.'s compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment

made by a reasonable user of the report on compliance about Northern Human Services, Inc.'s compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Northern Human Services, Inc.'s compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Northern Human Services, Inc.'s internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Northern Human Services, Inc.'s internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Other Matters
The results of our auditing procedures disclosed instances of noncompliance which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying schedule of findings and questioned costs as item 2023-002. Our opinion on each major federal program is not modified with respect to these matters.

Government Auditing Standards requires the auditor to perform limited procedures on Northern Human Services, Inc.'s response to the noncompliance finding identified in our compliance audit described in the accompanying schedule of findings and questioned costs. Northern Human Services, Inc.'s response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control Over Compliance
A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

FINDINGS - FINANCIAL STATEMENTS AUDIT

MATERIAL WEAKNESS

2023-001 - Reconciliation process and month end close

Criteria: Internal controls should be in place to ensure that all accounts are reconciled every month in a timely manner.

Condition: Significant entries and additional audit procedures were required as timely reconciliations were not being kept as part of the financial statement close process each month and at year end.

Cause: Internal controls were not in place to ensure that monthly reconciliations are prepared in a timely manner each month. In addition, there was substantial turnover in the accounting department during the fiscal year.

Effect: Financial statement information utilized by management in making decisions may not be timely or accurate; errors found in preparing reconciliations and during audit procedures that required significant journal entries were not found until several months after year end.

Recommendation: Procedures should be implemented to ensure that monthly reconciliations for all accounts are being performed in a timely manner.

Views of Responsible Officials:

The reason reconciliations had not been completed in a timely manner was due to the 9-month absence of a CFO and full-time controller. There were also 2 accounting staff vacancies that supported Mental Health and Developmental Disability side of business. These vacancies caused delays in bank reconciliations, expense verifications, and accounting procedures that support month end closing.

The CFO position was filled in July 2022 and our controller position was filled in September 2022. We have promoted internal staff to fill the two vacant accounting positions and filled all positions for both account receivables (A/R) and account payables (A/P). The CFO and controller have created a monthly closing process that helps support bank reconciliation in a timely manner. The Finance department is working to update all fiscal policies and crosstraining finance staff to ensure future vacant positions will not cause delay in the reconciliation process that supports month end closing.

Moving forward the bank reconciliation will be completed monthly prior to month end closing. Monthly closing detail is reviewed by the CFO, controller, and A/R manager to ensure accuracy and support follow-up monitoring in areas of concern.

FINDINGS AND QUESTIONED COSTS - MAJOR FEDERAL AWARD PROGRAMS AUDIT

2023-002

Condition: The 2022 data collection was filed late.

Criteria: The audit is required to be submitted to the Federal Audit Clearinghouse within 30 days of issuance of the report or nine months after year end, whichever is earlier.

Cause: The audit was completed after the data collection due date.

Effect: The Organization was not in compliance with certain grant requirements.

Recommendation: Auditors recommend that the Organization be prepared for the auditors to perform and complete the audit early enough to allow for the data collection to be completed and filed timely.

Response: The Organization will attempt to be more prepared to ensure timely filing moving forward.

EXPLANATION

This request is **Sole Source** because the Contractors are the only authorized contractors able to provide the necessary services. The Department contracts for mental health services through these ten (10) Community Mental Health Centers, which are designated by the Department to service towns and cities within specified geographic regions, as outlined in the NH Revised Statutes Annotated (RSA) 135-C, New Hampshire Mental Health Services System, and NH Administrative Rule He-M 403, Approval and Operation of Community Mental Health Programs.

The purpose of this request is to provide community mental health services for individuals in New Hampshire. Community Mental Health Centers provide community-based mental health services to adults, children, and families to build resiliency, promote recovery, and reduce inpatient hospital utilizations, and improve community tenure. These contracts provide both Federal grant funds and General Funds that enable delivery of services not otherwise covered by Medicaid. For example, technology, training, and system upgrades, delivery of some Assertive Community Treatment services, and care coordination with other systems such as the Division of Children, Youth, and Families, Department of Education, and Division of Long Term Supports and Services. The majority of the General Funds are allocated to ensure that individuals who are uninsured have full access to NH Rapid Response crisis services.

Approximately 20,700 individuals will be served annually.

The populations served include children with Serious Emotional Disturbances and adults with Serious Mental Illness/Serious and Persistent Mental Illness, including individuals with Mental Illness and co-occurring substance use disorders per NH Administrative Rule He-M 401 Eligibility Determination and Individuals Service Planning.

The Contractors will provide crisis services, individual and group psychotherapy, targeted case management, medication services, Functional Support Services; Illness Management and Recovery, supported employment, Assertive Community Treatment, Wraparound services for children, community residential services, and acute care services to individuals experiencing psychiatric emergencies while awaiting admission to a designated receiving facility. All contracts include provisions for Mental Health Services required by NH RSA 135-C and with State Regulations applicable to the mental health system as outlined in He-M 400, as well as in compliance with the Community Mental Health Agreement (CMHA).

The Department will monitor services by:

- Conducting performance reviews and utilization reviews as necessary and appropriate based on applicable licensing, certifications and service provisions.
- Conducting quarterly meetings to review submitted quarterly data and reports to identify ongoing programmatic improvements.
- Reviewing monthly financial statements provided by the Contractors for ongoing evaluation of program fiscal integrity.

As referenced in Exhibit A, Revisions to Standard Agreement Provisions Section 1, Revisions to Form P-37, General Provisions, Subsection 1.2 of the attached agreements, the parties have the option to extend the agreements for up to four (4) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties, and Governor and Council approval.

Should the Governor and Council not authorize this request, approximately 12,300 adults, and 8,400 children in the state will not have access to critical community mental health services as required by NH RSA 135-C:13. As a result, these individuals may experience an increase in symptoms causing them to seek more costly services at hospital emergency departments due to risk of harm to themselves or others and may have increased contact with law enforcement, correctional programs, or primary care physicians, none of which have the necessary services or supports available to provide necessary assistance. Lack of these services may also increase the likelihood of inpatient hospitalizations and death by suicide.

Source of Federal Funds: Assistance Listing Number #93.243, FAIN # H79SM080245; Assistance Listing Number #93.958, FAIN # B09SM087375; Assistance Listing Number #93.043, FAIN #2201NHOAPH; Assistance Listing Number #93.959, FAIN # TI085821; Assistance Listing Number #93.829, FAIN # H79SM087622.

In the event that the Federal Funds become no longer available, additional General Funds will not be requested to support this program.

Respectfully submitted,

Lori A. Weaver
Interim Commissioner

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.

The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.

7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
West Central Services, Inc.
d/b/a West Central Behavioral Health

Opinion

We have audited the accompanying financial statements of West Central Services, Inc. (a nonprofit organization), which comprise the statement of financial position as of June 30, 2024 and 2023, and the related statements of operations and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of West Central Services, Inc. as of June 30, 2024 and 2023, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of West Central Services, Inc. and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about West Central Services, Inc.'s ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of West Central Services, Inc.'s internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events considered in the aggregate, that raise substantial doubt about West Central Services, Inc.'s ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Report on Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying analysis of client service fees, analysis of BBH revenues and receivables, statement of functional revenues, statement of functional expenses and the schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, are presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 25, 2024, on our consideration of West Central Services, Inc.'s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of West Central Services, Inc's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering West Central Services, Inc.'s internal control over financial reporting and compliance.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

West Central Services, Inc. d/b/a West Central Behavioral Health (the Center) is a not-for-profit corporation, organized under New Hampshire law to provide services in the areas of mental health and related non-mental health programs; it is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code (Code). In addition, the Center qualifies for the charitable contribution deduction under Section 170(b)(1)(a) and has been classified as an organization that is not a private foundation under Section 509(a)(2).

Income Taxes

The Center is exempt from federal income tax under Internal Revenue Code Section 501(c)(3) and is not a private foundation. Therefore, no provision for income tax expense has been reflected in these financial statements.

Consideration has been given to uncertain tax positions. The federal income tax returns for the years ended after June 30, 2021, remain open for potential examination by major tax jurisdictions generally for three years after they were filed.

Basis of Presentation

The financial statements have been prepared on the accrual basis in accordance with accounting principles generally accepted in the United States of America. The financial statements are presented in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 958 dated August 2016, and the provisions of the American Institute of Certified Public Accountants (AICPA) "Audit and Accounting Guide for Not-for-Profit Organizations" (the "Guide"). (ASC) 958-205 was effective January 1, 2018.

Under the provisions of the Guide, net assets and revenues and gains and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, the net assets of the Center and changes therein are classified as follows:

Net assets without donor restrictions: Net assets that are not subject to donor-imposed restrictions and may be expended for any purpose in performing the primary objectives of the Center. The Center's board may designate assets without restrictions for specific operational purposes from time to time.

Net assets with donor restrictions: Net assets subject to stipulations imposed by donors and grantors. Some donor restrictions are temporary in nature; those restrictions will be met by actions of the Non-Profit Organization or by the passage of time. Other donor restrictions are perpetual in nature, whereby the donor has stipulated the funds be maintained in perpetuity.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Cash and Cash Equivalents
The Center considers cash on hand, cash in banks and all highly liquid debt instruments purchased with a maturity of three months or less to be cash and cash equivalents.

Investments
Certificates of deposit purchased with a maturity of more than three months are classified as "held to maturity" and reported in the financial statements at amortized cost.

All equity securities held by the Center have readily determinable fair market values and are reported at fair value. Realized gains and losses are determined using the first-in, first-out (FIFO) method. Both realized and unrealized gains and losses on equity securities are reported in net income.

Accounts Receivable
Accounts receivable are recorded based on the amount billed for services provided, net of respective allowances.

Policy for Evaluating Collectability of Accounts Receivable
In evaluating the collectability of accounts receivable, the Center uses relevant available information, from internal and external sources, relating to past events, current conditions, reasonable and supportable forecasts, and analyzes trends for each major payer source of revenue for the purpose of estimating the appropriate amounts of the allowance for doubtful accounts. Data in each major payer source is regularly reviewed to evaluate the adequacy of the allowance for doubtful accounts. Specifically, for receivables relating to services provided to clients having third-party coverage, an allowance for doubtful accounts and a corresponding provision for bad debts are established for amounts outstanding for an extended period of time and for third-party payers experiencing financial difficulties; for receivables relating to self-pay clients, a provision for bad debts is made in the period services are rendered based on experience indicating the inability or unwillingness of clients to pay amounts for which they are financially responsible

The Center has tracked historical loss information for its accounts receivable and compiled historical credit loss percentages for different aging categories (current, 1-30 days past due, 31-60 days past due, 61-90 days past due, and more than 90 days past due). The Center believes the historical loss information it has compiled is a reasonable base on which to determine expected credit losses for accounts receivable held at June 30, 2024 because the compositions of the accounts receivable at those dates are consistent with that used in developing the historical credit-loss percentages (i.e., the similar risk characteristics of its services provided to clients have not changed significantly over time). Additionally, the Center has determined that the current and reasonable and supportable forecasted economic conditions are consistent with the economic conditions included in the historical information. As a result, the historical loss rates have not been adjusted for differences in current conditions or forecasted changes.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Policy for Evaluating Collectability of Accounts Receivable (continued)
Charges in the allowance for credit losses for receivables for the years ended June 30, 2024, and 2023 as follows:

	2024	2023
Allowance for Credit Losses, Beginning of Year	$ 127,629	$ 117,843
Provision for credit losses	23,755	52,010
Charge-offs	(36,400)	(31,942)
Recoveries	(341)	(10,282)
Allowance for Credit Losses, End of Year	$ 114,643	$ 127,629

During 2024, the Center increased its estimated percentage in the allowance for doubtful accounts to 27% from 26% of the total patient receivables. The allowance for doubtful accounts decreased to $114,643 as of June 30, 2024 from $127,629 as of June 30, 2023.

New Accounting Standards - Adoption of FASB ASU 2016-13 and Related Standards
On July 1, 2023, the Center adopted FASB ASU 2016-03, Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments, as amended, which modifies the measurement of expected credit losses on certain financial instruments. The Center adopted this new guidance utilizing the modified retrospective transition method. The adoption of this Standard did not have a material impact on the center's financial statements but did change how the allowance for doubtful accounts and credit losses is determined.

Property and Equipment
All property and equipment is recorded at cost, or estimated fair value at date of acquisition. The Center follows the policy of charging to costs and expenses annual amounts of depreciation, which allocates the cost of property and equipment over estimated useful lives. The Center has a policy of capitalizing assets with a cost in excess of $1,000 and a life greater than one year. The Center uses the straight-line method for determining the annual charge for depreciation. Asset lives range from 2-40 years.

Expenditures for repairs and maintenance are expensed when incurred and betterments are capitalized.

The Center reviews the carrying value of property and equipment for impairment whenever events and circumstances indicate that the carrying value of an asset may not be recoverable from the estimated future cash flows expected to result from its use and eventual disposition.

In cases where undiscounted expected future cash flows are less than the carrying value, an impairment loss is recognized equal to an amount by which the carrying value exceeds the fair value of assets. The factors considered by management in performing this assessment include current operating results, trends and prospects, as well as the effects of obsolescence, demand, competition and other economic factors.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Client Service Revenue

On July 1, 2020, the Center adopted ASC Topic 606 with no significant impact to its financial position or operations, using the modified retrospective method.

Client Service Revenue is reported at the amount that reflects the consideration the corporation expects to receive in exchange for the services provided. These amounts are due from patients or third-party payers and include variable consideration for retroactive adjustments, if any, under reimbursement programs. Performance obligations are determined based on the nature of the services provided. Client service revenue is recognized as performance obligations are satisfied. The Center recognized revenue for mental health services in accordance with ASC 606, Revenue for contracts with Customers. The Center has determined that these services included under the daily or monthly fee have the same timing and pattern of transfer and are a series of distinct services that are considered one performance obligation which is satisfied over time. The Center receives revenues for services under various third-party payer programs which include Medicaid and other third-party payers. The transaction price is based on standard charges for services provided to clients, reduced by applicable contractual adjustments, discounts, and implicit pricing concessions.

The estimates of contractual adjustments and discounts are based on contractual agreements, discount policy, and historical collection experience. The Center estimates the transaction price based on the terms of the contract with the payer, correspondence with the payer and historical trends.

Client service revenue (net of contractual allowances and discounts but before taking account of the provision for bad debts) recognized during the year ended June 30, 2024 totaled $6,581,817, of which $6,483,335 was revenue from third-party payers and $98,482 was revenue from self-pay clients.

Third-Party Contractual Arrangements

A significant portion of patient revenue is derived from services to patients insured by third-party payers. The Center receives payment from Medicare, Medicaid, Blue Cross and other third-party payers at defined rates for services rendered to patients covered by these programs. The difference between the established billing rates and the actual rate of payment is recorded as allowances when received and/or billed. A provision for estimated contractual allowances is provided on outstanding patient receivables at the balance sheet date.

State Grants

The Center receives a number of grants from and has entered into various contracts with the State of New Hampshire related to the delivery of mental health services.

Functional Allocation of Expenses

The costs of providing the various programs and other activities has been summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Vacation Pay and Fringe Benefits

Annual vacation allotments are granted to employees that are regularly scheduled to work 20 or more hours per week, if an employee works less than 37.5 hours per week the time earned will be prorated based on their FTE. Eligible employees are able to accrue hours starting at the beginning of each calendar year and accrued time is to be utilized by December 31st; with the exception of up to 5 days that is allowed to be carried over into the new calendar year. Fringe benefits are allocated to the appropriate program expense based on the percentage of actual time spent on the program.

Advertising

Advertising costs are expensed to operating expenses as incurred. Advertising expense for the years ended June 30, 2024, and 2023 was $3,335 and $36,524, respectively.

Concentration of Credit Risk

The Center maintains cash balances at several financial institutions. Accounts at financial institutions are insured by the Federal Deposit Insurance Corporation up to $250,000. At times throughout the year, cash balances with these institutions exceed that amount. The Center has not incurred any losses related to uninsured cash.

NOTE 2 CLIENT SERVICE REVENUES FROM THIRD PARTY PAYORS

The Center has agreements with third-party payors that provide payments to the Center at established rates. These payments include:

New Hampshire and Managed Medicaid

The Center is reimbursed for services from the State of New Hampshire and Managed Care Organizations (MCOs) for services rendered to Medicaid clients. The majority of the payments for these services are received in the form of monthly capitation amounts that are predetermined in a contractual agreement with the MCOs. Additionally, there are payments for services rendered to other Medicaid clients on the basis of fixed Fee for Service rates.

Approximately 90% and 93% of program service fees is from participation in the State and Managed Care Organization sponsored Medicaid programs for the years ended June 30, 2024 and 2023, respectively. Laws and regulations governing the Medicaid programs are complex and subject to interpretation and change. As a result, it is reasonably possible that recorded estimates could change materially in the near term.

As part of the contractual arrangement with the MCOs, the Center is required to provide a specific amount of services under an arrangement referred to as a Maintenance of Effort (MOE). Under the MOE, if levels of service are not met the Center may be subject to repayment of a portion of the revenue received. The MOE calculation is subject to interpretation and a source of continued debate and negotiations with MCOs. This MOE calculation may result in a liability that would require a payback to the MCOs. The Center has accrued an estimated payback of $137,531 and $278,507 for the years ended June 30, 2024 and 2023, respectively. These liabilities are included in other current liabilities on the statement of financial position.

NOTE 3 LIQUIDITY

The following reflects the Center's financial assets available within one year of June 30, 2024 for general expenditures are as follows:

Cash and Cash Equivalents	$ 1,488,420
Accounts Receivable (net)	1,497,694
Certificates of deposit	2,499,497
Investments	1,896,281
Financial assets available within one year for general expenditures	$ 7,381,892

Restricted deposits and reserves are restricted for specific purposes and therefore are not available for general expenditures. Investments in real estate and partnerships are not included as they are not considered to be available within one year.

As part of the Center's liquidity management, it has a policy to structure its financial assets to be available as its general expenditures, liabilities and other obligations come due.

NOTE 7 FAIR VALUE MEASUREMENTS

Professional accounting standards established a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Basis of Fair Value Measurement

Level 1 Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly.

NOTE 7 FAIR VALUE MEASUREMENTS (continued)

Level 3 Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

All investments recorded at fair value are categorized as Level 1 and recorded at fair value, as of June 30, 2024. As required by professional accounting standards, investment assets are classified in their entirety based upon the lowest level of input that is significant to the fair value measurement.

The plan is a defined contribution plan that covers substantially all full-time employees who meet certain eligibility requirements. The Center reinstituted a match which was effective in January, 2020 and all eligible employees receive a 50% match for their first 4% of contributions. During the years ended June 30, 2024 and 2023, the total employer contributions into this retirement plan were of $58,735 and $56,752.

Insurance companies	38	35
Medicaid	46	55
Medicare	8	5
	100 %	100 %

NOTE 14 OPERATING LEASES

The Center leases real estate and equipment under various operating leases. The determination of whether an arrangement is a lease is made at the inception of the lease. Under ASC 842, a contract is (or contains) a lease if it conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Control is defined under the standard as having both the right to obtain substantially all of the economic benefits from the use of the asset and the right to direct the use of the asset. Management only reassesses its determination if the terms and conditions of the contract are changed in a way that eliminates their rights. The allocation of consideration in the contract is recognized on a straight line basis over the term of the lease.

The Center adopted FASB ASC 842 effective July 1, 2022. The Center has elected to apply the short-term lease cost exception to all leases with a term of one year or less. The Center has also elected not to restate comparative periods or separate lease and non-lease components by class of underlying assets.

The adoption of the standard resulted in an increase in operating lease right-of-use (ROU) asset of $1,700,141, an increase in rent expense of $20,209, and an increase in lease liability of $1,720,350.

As of June 30, 2024, the ROU asset had a balance of $1,185,559, as shown in noncurrent assets on the balance sheet, the lease liability is included in current liabilities for $382,571 and long-term liabilities for $835,481. The lease asset and liability were calculated utilizing the incremental borrowing rate at the inception of the lease.

Certain lease agreements include variable payments which are not determinable at the lease commencement and are not included in the measurement of the lease asset and liabilities. Lease agreements do not contain any material residual value guarantees or material restrictive covenants.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Directors
of West Central Services, Inc.
d/b/a West Central Behavioral Health

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of West Central Services, Inc. (a nonprofit organization), which comprise the statement of financial position as of June 30, 2024, and the related statements of activities, and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated September 25, 2024.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered West Central Services, Inc.'s internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of West Central Services, Inc.'s internal control. Accordingly, we do not express an opinion on the effectiveness of West Central Services, Inc.'s internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether West Central Services, Inc.'s financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and questioned costs as items identified in that report as 2024-01.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Board of Directors
of West Central Services, Inc.
d/b/a West Central Behavioral Health

Report on Compliance for Each Major Federal Program

Qualified Opinion

We have audited West Central Services, Inc.'s compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of West Central Services, Inc.'s major federal programs for the year ended June 30, 2024. West Central Services, Inc.'s major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Qualified Opinion on 93.696 –Certified Community Behavioral Health Clinic Expansion Grant.

In our opinion, except for the noncompliance described in the Basis for Qualified and Unmodified Opinions section of our report, West Central Services, Inc.. complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on 93.696 –Certified Community Behavioral Health Clinic Expansion Grant for the year ended June 30, 2024.

Basis for Qualified Opinions

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of West Central Services, Inc. and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified and unmodified opinions on compliance for each major federal program. Our audit does not provide a legal determination of West Central Services, Inc.'s compliance with the compliance requirements referred to above.

Matter Giving Rise to Qualified Opinion on 93.696 –Certified Community Behavioral Health Clinic Expansion Grant.

As described in the accompanying schedule of findings and questioned costs West Central Services, Inc. did not comply with requirements regarding its procurement policy as described in finding number 2024-01 for procurement, and suspension and debarment.

Compliance with such requirements is necessary, in our opinion, for West Central Services, Inc. to comply with the requirements applicable to that program.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to West Central Services, Inc.'s federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on West Central Services, Inc.'s compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about West Central Services, Inc.'s compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding West Central Services, Inc.'s compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.

- Obtain an understanding of West Central Services, Inc.'s internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of West Central Services, Inc.'s internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Other Matters

The results of our auditing procedures disclosed other instances of noncompliance which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying schedule of findings and questioned costs as items 2024-01. Our opinion on each major federal program is modified with respect to these matters.

Government Auditing Standards requires the auditor to perform limited procedures on West Central Services, Inc.'s response to the noncompliance findings identified in our compliance audit described in the accompanying schedule of findings and questioned costs. West Central Services, Inc.'s response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control over Compliance

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we did identify certain deficiencies in internal control over compliance that we consider to be material weaknesses and significant deficiencies.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as items 2024-01 to be material weaknesses.

A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

Government Auditing Standards requires the auditor to perform limited procedures on West Central Services, Inc.'s response to the internal control over compliance findings identified in our compliance audit described in the accompanying schedule of findings and questioned costs. West Central Services, Inc.'s response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

EXPLANATION

This request is **Sole Source** because the Contractors are the only authorized contractors able to provide the necessary services. The Department contracts for mental health services through these ten (10) Community Mental Health Centers, which are designated by the Department to service towns and cities within specified geographic regions, as outlined in the NH Revised Statutes Annotated (RSA) 135-C, New Hampshire Mental Health Services System, and NH Administrative Rule He-M 403, Approval and Operation of Community Mental Health Programs.

The purpose of this request is to provide community mental health services for individuals in New Hampshire. Community Mental Health Centers provide community-based mental health services to adults, children, and families to build resiliency, promote recovery, and reduce inpatient hospital utilizations, and improve community tenure. These contracts provide both Federal grant funds and General Funds that enable delivery of services not otherwise covered by Medicaid. For example, technology, training, and system upgrades, delivery of some Assertive Community Treatment services, and care coordination with other systems such as the Division of Children, Youth, and Families, Department of Education, and Division of Long Term Supports and Services. The majority of the General Funds are allocated to ensure that individuals who are uninsured have full access to NH Rapid Response crisis services.

Approximately 20,700 individuals will be served annually.

The populations served include children with Serious Emotional Disturbances and adults with Serious Mental Illness/Serious and Persistent Mental Illness, including individuals with Mental Illness and co-occurring substance use disorders per NH Administrative Rule He-M 401 Eligibility Determination and Individuals Service Planning.

The Contractors will provide crisis services, individual and group psychotherapy, targeted case management, medication services, Functional Support Services, Illness Management and Recovery, supported employment, Assertive Community Treatment, Wraparound services for children, community residential services, and acute care services to individuals experiencing psychiatric emergencies while awaiting admission to a designated receiving facility. All contracts include provisions for Mental Health Services required by NH RSA 135-C and with State Regulations applicable to the mental health system as outlined in He-M 400, as well as in compliance with the Community Mental Health Agreement (CMHA).

The Department will monitor services by:

- Conducting performance reviews and utilization reviews as necessary and appropriate based on applicable licensing, certifications and service provisions.
- Conducting quarterly meetings to review submitted quarterly data and reports to identify ongoing programmatic improvements.
- Reviewing monthly financial statements provided by the Contractors for ongoing evaluation of program fiscal integrity.

As referenced in Exhibit A, Revisions to Standard Agreement Provisions Section 1, Revisions to Form P-37, General Provisions, Subsection 1.2 of the attached agreements, the parties have the option to extend the agreements for up to four (4) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties, and Governor and Council approval.

Should the Governor and Council not authorize this request, approximately 12,300 adults, and 8,400 children in the state will not have access to critical community mental health services as required by NH RSA 135-C:13. As a result, these individuals may experience an increase in symptoms causing them to seek more costly services at hospital emergency departments due to risk of harm to themselves or others and may have increased contact with law enforcement, correctional programs, or primary care physicians, none of which have the necessary services or supports available to provide necessary assistance. Lack of these services may also increase the likelihood of inpatient hospitalizations and death by suicide.

2. SERVICES TO BE PERFORMED. The State of New Hampshire, acting through the agency identified in block 1.1 ("State"), engages contractor identified in block 1.3 ("Contractor") to perform, and the Contractor shall perform, the work or sale of goods, or both, identified and more particularly described in the attached EXHIBIT B which is incorporated herein by reference ("Services").

3. EFFECTIVE DATE/COMPLETION OF SERVICES.

3.1 Notwithstanding any provision of this Agreement to the contrary, and subject to the approval of the Governor and Executive Council of the State of New Hampshire, if applicable, this Agreement, and all obligations of the parties hereunder, shall become effective on the date the Governor and Executive Council approve this Agreement as indicated in block 1.17, unless no such approval is required, in which case the Agreement shall become effective on the date the Agreement is signed by the State Agency as shown in block 1.13 ("Effective Date").

4. CONDITIONAL NATURE OF AGREEMENT.

Notwithstanding any provision of this Agreement to the contrary, all obligations of the State hereunder, including, without limitation, the continuance of payments hereunder, are contingent upon the availability and continued appropriation of funds affected by any state or federal legislative or executive action that reduces, eliminates or otherwise modifies the appropriation or availability of funding for this Agreement and the Scope for Services provided in EXHIBIT B, in whole or in part. In no event shall the State be liable for any payments hereunder in excess of such available appropriated funds. In the event of a reduction or termination of appropriated funds, the State shall have the right to withhold payment until such funds become available, if ever, and shall have the right to reduce or terminate the Services under this Agreement immediately upon giving the Contractor notice of such reduction or termination. The State shall have no liability to the Contractor other than the contract price.

5.3 The State reserves the right to offset from any amounts otherwise payable to the Contractor under this Agreement those liquidated amounts required or permitted by N.H. RSA 80:7 through RSA 80:7-c or any other provision of law.

6. COMPLIANCE BY CONTRACTOR WITH LAWS AND REGULATIONS/ EQUAL EMPLOYMENT OPPORTUNITY.

6.1 In connection with the performance of the Services, the Contractor shall comply with all applicable statutes, laws, regulations, and orders of federal, state, county or municipal authorities which impose any obligation or duty upon the Contractor, including, but not limited to, civil rights and equal employment opportunity laws. No express failure to enforce any Event of Default shall be deemed a waiver of the right of the State to enforce each and all of the provisions hereof upon any further or other Event of Default on the part of the Contractor.

9. TERMINATION.

9.1 Notwithstanding paragraph 8, the State may, at its sole discretion, terminate the Agreement for any reason, in whole or in part, by thirty (30) days written notice to the Contractor that the State is exercising its option to terminate the Agreement.

If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
of The Lakes Region Mental Health Center, Inc.

Opinion

We have audited the accompanying financial statements of The Lakes Region Mental Health Center Inc. (a nonprofit organization), which comprise the statement of financial position as of June 30, 2024, and the related statements of activities and changes in net assets and cash flows for the year then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of The Lakes Region Mental Health Center Inc. as of June 30, 2024, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of The Lakes Region Mental Health Center Inc. and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.
In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about The Lakes Region Mental Health Center Inc.'s ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of The Lakes Region Mental Health Center Inc.'s internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about The Lakes Region Mental Health Center Inc.'s ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Report on Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The Analysis of Accounts Receivables, the Analysis of BBH Revenues, Receipts & Receivables and schedules of functional public support, revenues, and expenses on pages 15-18 is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization
The Lakes Region Mental Health Center, Inc. (the Center) is a not-for-profit corporation, organized under New Hampshire law to provide services in the areas of mental health, and related non-mental health programs; it is exempt from income taxes under Section 501 (c)(3) of the Internal Revenue Code. In addition, the Center qualifies for the charitable contribution deduction under Section 170 (b)(1)(a) and has been classified as an organization that is not a private foundation under Section 509(a)(2).

Estimates
The preparation of financial statements in conformity with generally accepted accounting principles require management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Depreciation
The cost of property, equipment and leasehold improvements is depreciated over the estimated useful life of the assets using the straight line method. Estimated useful lives range from 3 to 40 years.

State Grants
The Center receives a number of grants from and has entered into various contracts with the State of New Hampshire related to the delivery of mental health services.

Vacation Pay and Fringe Benefits
Vacation pay is accrued and charged to the programs when earned by the employee. Fringe benefits are allocated on a pro-rated basis to the programs.

Income Taxes
Consideration has been given to uncertain tax positions. The federal income tax returns for the years ended after June 30, 2021, remain open for potential examination by major tax jurisdictions, generally for three years after they were filed.

Revenue
Revenue from federal, state and other sources is recognized in the period earned.

Client Service Revenue
The Center recognizes client service revenue in accordance with ASC Topic 606. Client Service Revenue is reported at the amount that reflects the consideration the corporation expects to receive in exchange for the services provided. These amounts are due from patients or third party payers and include variable consideration for retroactive adjustments, if any, under reimbursement programs. Performance obligations are determined based on the nature of the services provided. Client service revenue is recognized as performance obligations are satisfied. The Center recognized revenue for mental health services in accordance with ASC 606, Revenue for contracts with Customers. The Center has determined that these services included under the daily or monthly fee have the same timing and pattern of transfer and are a series of distinct services that are considered one performance obligation which is satisfied over time.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Client Service Revenue (continued)
The Center receives revenues for services under various third-party payer programs which include Medicaid and other third-party payers. The transaction price is based on standard charges for services provided to residents, reduced by applicable contractual adjustments, discounts, and implicit pricing concessions. The estimates of contractual adjustments and discounts are based on contractual agreements, discount policy, and historical collection experience. The corporation estimates the transaction price based on the terms of the contract with the payer, correspondence with the payer and historical trends.

Client service revenue (net of contractual allowances and discounts but before taking account of the provision for bad debts) recognized during the year ended June 30, 2024 totaled $12,288,840, of which $12,030,409 was revenue from third-party payers and $258,431 was revenue from self-pay clients.

Third Party Contractual Arrangements
A significant portion of patient revenue is derived from services to patients insured by third-party payors. The center receives reimbursement from Medicare, Medicaid, Blue Cross, and other third-party insurers at defined rates for services rendered to patients covered by these programs. The difference between the established billing rates and the actual rate of reimbursement is recorded as allowances when recorded. A provision for estimated contractual allowances is provided on outstanding patient receivables at the balance sheet date.

Basis for Presentation
The financial statements of the Center have been prepared on the accrual basis in accordance with accounting principles generally accepted in the United States of America. The financial statements are presented in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 958 dated August 2016, and the provisions of the American Institute of Certified Public Accountants (AICPA) "Audit and Accounting Guide for Not-for-Profit Organizations" (the "Guide"). (ASC) 958-205 was effective January 1, 2018.

Under the provisions of the Guide, net assets and revenues and gains and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, the net asset of the Center and changes therein are classified as follows:

Net assets without donor restrictions: Net assets that are not subject to donor imposed restrictions and may be expended for any purpose in performing the primary objectives of the Center. The Center's board may designate assets without restrictions for specific operational purposes from time to time.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Net assets with donor restrictions: Net assets subject to stipulations imposed by donors and grantors. Some donor restrictions are temporary in nature; those restrictions will be met by actions of the Center or by the passage of time. Other donor restrictions are perpetual in nature, whereby the donor has stipulated the funds be maintained in perpetuity.

Accounts Receivable
Accounts receivable are recorded based on the amount billed for services provided, net of respective allowances.

Advertising
Advertising costs are expensed as incurred. Total costs were $98,123 at June 30, 2024 and consisted of $40,043 for recruitment and $58,080 for agency advertising.

New Accounting Standards - Adoption of FASB ASU 2016-13 and Related Standards
On July 1, 2023, the Center adopted FASB ASU 2016-03, Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments, as amended, which modifies the measurement of expected credit losses on certain financial instruments. The Center adopted this new guidance utilizing the modified retrospective transition method. The adoption of this Standard did not have a material impact on the center's financial statements but did change how the allowance for doubtful accounts and credit losses is determined.

Accounts Receivable and Allowance for Credit Losses
In evaluating the collectability of accounts receivable, the Center uses relevant available information, from internal and external sources, relating to past events, current conditions, reasonable and supportable forecasts, and analyzes trends for each major payer source of revenue for the purpose of estimating the appropriate amounts of the allowance for doubtful accounts. Data in each major payer source is regularly reviewed to evaluate the adequacy of the allowance for doubtful accounts. Specifically, for receivables relating to services provided to clients having third-party coverage, an allowance for doubtful accounts and a corresponding provision for bad debts are established for amounts outstanding for an extended period of time and for third-party payers experiencing financial difficulties; for receivables relating to self-pay clients, a provision for bad debts is made in the period services are rendered based on experience indicating the inability or unwillingness of clients to pay amounts for which they are financially responsible.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Center has tracked historical loss information for its accounts receivable and compiled historical credit loss percentages for different aging categories (current, 1-30 days past due, 31-60 days past due, 61-90 days past due, and more than 90 days past due). The center believes the historical loss information it has compiled is a reasonable base on which to determine expected credit losses for accounts receivable held at June 30, 2024 because the compositions of the accounts receivable at those dates are consistent with that used in developing the historical credit-loss percentages (i.e., the similar risk characteristics of its services provided to clients have not changed significantly over time). Additionally, the center has determined that the current and reasonable and supportable forecasted economic conditions are consistent with the economic conditions included in the historical information. As a result, the historical loss rates have not been adjusted for differences in current conditions or forecasted changes. Accordingly, the allowance for doubtful accounts was $1,135,000 for the year ended June 30, 2024.

Total patient accounts receivable increased to $1,508,880 as of June 30, 2024 from $972,748 at June 30, 2023. As a result of changes to payer mix present at year end the allowance as a percentage of total accounts receivable increased to 75% from 69% of total patient accounts receivable.

NOTE 2 CLIENT SERVICE REVENUES FROM THIRD PARTY PAYORS

The Center has agreements with third-party payors that provide payments to the Center at established rates. These payments include:

New Hampshire and Managed Medicaid
The Center is reimbursed for services from the State of New Hampshire and Managed Care Organizations (MCOs) for services rendered to Medicaid clients. Payments for these services are received in the form of monthly capitation amounts that are predetermined in a contractual agreement with the MCOs.

Approximately 84% of program service fees is from participation in the State and Managed Care Organization sponsored Medicaid programs for the year ended June 30, 2024.

Laws and regulations governing the Medicaid programs are complex and subject to interpretation and change. As a result, it is reasonably possible that recorded estimates could change materially in the near term.

NOTE 2 CLIENT SERVICE REVENUES FROM THIRD PARTY PAYORS (continued)

As part of the contractual arrangement with the MCOs, the Center is required to provide a specific amount of services under an arrangement referred to as a Maintenance of Effort (MOE). Under the MOE, if levels of service are not met the Center may be subject to repayment of a portion of the revenue received. The MOE calculation is subject to interpretation and a source of continued debate and negotiations with MCOs. This MOE calculation may result in a liability that would require a payback to the MCOs. For the year ended June 30, 2024, the Center has estimated that it missed one of three MOE requirements with the MCO's and has estimated a total payback of $100,000 which is recorded as an accrued expense. The total payback also includes an amount due from missing one of the three MOE requirements with the MCO's from June 30, 2023.

NOTE 4 FAIR VALUE MEASUREMENTS

Professional accounting standards require a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under these professional accounting standards are described below:

Basis of Fair Value Measurement

Level 1 Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly.

Level 3 Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. All investments are categorized as Level 1 and recorded at fair value, as of June 30, 2024. As required by professional accounting standards, investment assets are classified in their entirety based upon the lowest level of input that is significant to the fair value measurement.

EXPLANATION

This request is **Sole Source** because the Contractors are the only authorized contractors able to provide the necessary services. The Department contracts for mental health services through these ten (10) Community Mental Health Centers, which are designated by the Department to service towns and cities within specified geographic regions, as outlined in the NH Revised Statutes Annotated (RSA) 135-C, New Hampshire Mental Health Services System, and NH Administrative Rule He-M 403, Approval and Operation of Community Mental Health Programs.

The purpose of this request is to provide community mental health services for individuals in New Hampshire. Community Mental Health Centers provide community-based mental health services to adults, children, and families to build resiliency, promote recovery, and reduce inpatient hospital utilizations, and improve community tenure. These contracts provide both Federal grant funds and General Funds that enable delivery of services not otherwise covered by Medicaid. For example, technology, training, and system upgrades, delivery of some Assertive Community Treatment services, and care coordination with other systems such as the Division of Children, Youth, and Families, Department of Education, and Division of Long Term Supports and Services. The majority of the General Funds are allocated to ensure that individuals who are uninsured have full access to NH Rapid Response crisis services.

Approximately 20,700 individuals will be served annually.

The populations served include children with Serious Emotional Disturbances and adults with Serious Mental Illness/Serious and Persistent Mental Illness, including individuals with Mental Illness and co-occurring substance use disorders per NH Administrative Rule He-M 401 Eligibility Determination and Individuals Service Planning.

The Contractors will provide crisis services, individual and group psychotherapy, targeted case management, medication services, Functional Support Services, Illness Management and Recovery, supported employment, Assertive Community Treatment, Wraparound services for children, community residential services, and acute care services to individuals experiencing psychiatric emergencies while awaiting admission to a designated receiving facility. All contracts include provisions for Mental Health Services required by NH RSA 135-C and with State Regulations applicable to the mental health system as outlined in He-M 400, as well as in compliance with the Community Mental Health Agreement (CMHA).

The Department will monitor services by:

- Conducting performance reviews and utilization reviews as necessary and appropriate based on applicable licensing, certifications and service provisions.
- Conducting quarterly meetings to review submitted quarterly data and reports to identify ongoing programmatic improvements.
- Reviewing monthly financial statements provided by the Contractors for ongoing evaluation of program fiscal integrity.

As referenced in Exhibit A, Revisions to Standard Agreement Provisions Section 1, Revisions to Form P-37, General Provisions, Subsection 1.2 of the attached agreements, the parties have the option to extend the agreements for up to four (4) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties, and Governor and Council approval.

Should the Governor and Council not authorize this request, approximately 12,300 adults, and 8,400 children in the state will not have access to critical community mental health services as required by NH RSA 135-C:13. As a result, these individuals may experience an increase in symptoms causing them to seek more costly services at hospital emergency departments due to risk of harm to themselves or others and may have increased contact with law enforcement, correctional programs, or primary care physicians, none of which have the necessary services or supports available to provide necessary assistance. Lack of these services may also increase the likelihood of inpatient hospitalizations and death by suicide.

2. SERVICES TO BE PERFORMED. The State of New Hampshire, acting through the agency identified in block 1.1 ("State"), engages contractor identified in block 1.3 ("Contractor") to perform, and the Contractor shall perform, the work or sale of goods, or both, identified and more particularly described in the attached EXHIBIT B which is incorporated herein by reference ("Services").

3. EFFECTIVE DATE/COMPLETION OF SERVICES.

3.1 Notwithstanding any provision of this Agreement to the contrary, and subject to the approval of the Governor and Executive Council of the State of New Hampshire, if applicable, this Agreement, and all obligations of the parties hereunder, shall become effective on the date the Governor and Executive Council approve this Agreement as indicated in block 1.17, unless no such approval is required, in which case the Agreement shall become effective on the date the Agreement is signed by the State Agency as shown in block 1.13 ("Effective Date").

3.2 If the Contractor commences the Services prior to the Effective Date, all Services performed by the Contractor prior to the Effective Date shall be performed at the sole risk of the Contractor, and in the event that this Agreement does not become effective, the State shall have no liability to the Contractor, including without limitation, any obligation to pay the Contractor for any costs incurred or Services performed. Contractor must complete all Services by the Completion Date specified in block 1.7.

4. CONDITIONAL NATURE OF AGREEMENT.

Notwithstanding any provision of this Agreement to the contrary, all obligations of the State hereunder, including, without limitation, the continuance of payments hereunder, are contingent upon the availability and continued appropriation of funds affected by any state or federal legislative or executive action that reduces, eliminates or otherwise modifies the appropriation or availability of funding for this Agreement and the Scope for Services provided in EXHIBIT B, in whole or in part. In no event shall the State be liable for any payments hereunder in excess of such available appropriated funds. In the event of a reduction or termination of appropriated funds, the State shall have the right to withhold payment until such funds become available, if ever, and shall have the right to reduce or terminate the Services under this Agreement immediately upon giving the Contractor notice of such reduction or termination. The State shall not be required to transfer funds from any other account or source to the Account identified in block 1.6 in the event funds in that Account are reduced or unavailable.

5. CONTRACT PRICE/PRICE LIMITATION/ PAYMENT.

5.1 The contract price, method of payment, and terms of payment are identified and more particularly described in EXHIBIT C which is incorporated herein by reference.

5.2 The payment by the State of the contract price shall be the only and the complete reimbursement to the Contractor for all expenses, of whatever nature incurred by the Contractor in the performance hereof, and shall be the only and the complete compensation to the Contractor for the Services. The State shall have no liability to the Contractor other than the contract price.

5.3 The State reserves the right to offset from any amounts otherwise payable to the Contractor under this Agreement those liquidated amounts required or permitted by N.H. RSA 80:7 through RSA 80:7-c or any other provision of law.

5.4 Notwithstanding any provision in this Agreement to the contrary, and notwithstanding unexpected circumstances, in no event shall the total of all payments authorized, or actually made hereunder, exceed the Price Limitation set forth in block 1.8.

6. COMPLIANCE BY CONTRACTOR WITH LAWS AND REGULATIONS/ EQUAL EMPLOYMENT OPPORTUNITY.

6.1 In connection with the performance of the Services, the Contractor shall comply with all applicable statutes, laws, regulations, and orders of federal, state, county or municipal authorities which impose any obligation or duty upon the Contractor, including, but not limited to, civil rights and equal employment opportunity laws. In addition, if this Agreement is funded in any part by monies of the United States, the Contractor shall comply with all federal executive orders, rules, regulations and statutes, and with any rules, regulations and guidelines as the State or the United States issue to implement these regulations. The Contractor shall also comply with all applicable intellectual property laws.

6.3. The Contractor agrees to permit the State or United States access to any of the Contractor's books, records and accounts for the purpose of ascertaining compliance with all rules, regulations and orders, and the covenants, terms and conditions of this Agreement.

7. PERSONNEL.

7.1 The Contractor shall at its own expense provide all personnel necessary to perform the Services. The Contractor warrants that all personnel engaged in the Services shall be qualified to perform the Services, and shall be properly licensed and otherwise authorized to do so under all applicable laws.

8.1.3 failure to perform any other covenant, term or condition of this Agreement.

8.2.2 give the Contractor a written notice specifying the Event of Default and suspending all payments to be made under this Agreement and ordering that the portion of the contract price which would otherwise accrue to the Contractor during the period from the date of such notice until such time as the State determines that the Contractor has cured the Event of Default shall never be paid to the Contractor;

8.3. No failure by the State to enforce any provisions hereof after any Event of Default shall be deemed a waiver of its rights with regard to that Event of Default, or any subsequent Event of Default. No express failure to enforce any Event of Default shall be deemed a waiver of the right of the State to enforce each and all of the provisions hereof upon any further or other Event of Default on the part of the Contractor.

9. TERMINATION.

9.1 Notwithstanding paragraph 8, the State may, at its sole discretion, terminate the Agreement for any reason, in whole or in part, by thirty (30) days written notice to the Contractor that the State is exercising its option to terminate the Agreement.

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of
Riverbend Community Mental Health, Inc.
Concord, New Hampshire

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Riverbend Community Mental Health, Inc. (a nonprofit organization), which comprise the statement of financial position as of June 30, 2024 and 2023, and the related statements of operations and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements present fairly, in all material respects, the financial position of Riverbend Community Mental Health, Inc. as of June 30, 2024 and 2023, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Riverbend Community Mental Health, Inc. and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Riverbend Community Mental Health, Inc.'s ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and Government Auditing Standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Riverbend Community Mental Health, Inc.'s internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Riverbend Community Mental Health, Inc.'s ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedule of functional revenues, schedule of functional expenses, analysis of BBH revenues, receipts and receivables, analysis of client service fees and schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of functional revenues, schedule of functional expenses, analysis of BBH revenues, receipts and receivables, analysis of client service fees and schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated September 26, 2024, on our consideration of Riverbend Community Mental Health, Inc.'s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Riverbend Community Mental Health, Inc.'s internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Riverbend Community Mental Health, Inc.'s internal control over financial reporting and compliance.

Riverbend Community Mental Health, Inc. (Riverbend) is a nonprofit corporation, organized under New Hampshire law to provide services in the areas of mental health, and related non-mental health programs. The organization qualifies for the charitable contribution deduction under Section 170 (b)(1)(a) and has been classified as an organization that is not a private foundation under Section 509(a)(2). It operates in the Merrimack and Hillsborough counties of New Hampshire.

Income Taxes

Riverbend is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code. Therefore, it is exempt from income taxes on its exempt function income.

Consideration has been given to uncertain tax positions. The federal income tax returns for the years ended after June 30, 2021, remain open for potential examination by major tax jurisdictions, generally for three years after they were filed.

Related Organizations

Riverbend is an affiliate of Capital Region Health Care (CRHC). CRHC is a comprehensive healthcare service system consisting of one hospital, one visiting nurse association, real estate holding companies and a variety of physician service companies. The affiliation exists for the purpose of integrating and improving the delivery of healthcare services to the residents of the central New Hampshire area.

Basis of Presentation

The financial statements have been prepared on the accrual basis in accordance with accounting principles generally accepted in the United States of America. The financial statements are presented in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 958 dated August 2016, and the provisions of the American Institute of Certified Public Accountants (AICPA) "Audit and Accounting Guide for Not-for-Profit Organizations" (the "Guide"). (ASC) 958-205 was effective January 1, 2018.

Under the provisions of the Guide, net assets and revenues and gains and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, the net assets of Riverbend and changes therein are classified as follows:

Net assets without donor restrictions: Net assets that are not subject to donor-imposed restrictions and may be expended for any purpose in performing the primary objectives of Riverbend. Riverbend's board may designate assets without restrictions for specific operational purposes from time to time.

Net assets with donor restrictions: Net assets subject to stipulations imposed by donors and grantors. Some donor restrictions are temporary in nature; those restrictions will be met by actions of the Non-Profit Organization or by the passage of time. Other donor restrictions are perpetual in nature, whereby the donor has stipulated the funds be maintained in perpetuity.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Property
Property is recorded at cost or, if donated, at fair market value at the date of donation. Depreciation is provided using both straight-line and accelerated methods, over the estimated useful lives of the assets.

Depreciation
The cost of property, equipment and leasehold improvements is depreciated over the estimated useful life of the assets using the straight-line method. Estimated useful lives range from 3 to 40 years.

Grants
Riverbend receives a number of grants from and has entered into various contracts with the State of New Hampshire and the federal government related to the delivery of mental health services.

Vacation Pay and Fringe Benefits
Vacation pay is accrued and charged to the programs when earned by the employee. Fringe benefits are allocated to the appropriate program expense based on the percentage of actual time spent on the programs.

In-Kind Donations
Various public and private entities have donated facilities for Riverbend's operational use. The estimated fair value of such donated services is recorded as offsetting revenues and expenses in the accompanying statement of revenue support and expenses of general funds.

Revenue
Grant revenue received by Riverbend is deferred until the related services are provided.

Accounts Receivable
Accounts receivables are recorded based on the amount billed for services provided, net of respective allowances.

Reclassifications
Certain reclassifications have been made to last year's financial statements to conform to the presentations used in the current year.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Client Service Revenue

Riverbend recognizes client service revenue in accordance with ASC Topic 606. Client Service Revenue is reported at the amount that reflects the consideration the corporation expects to receive in exchange for the services provided. These amounts are due from patients or third-party payers and include variable consideration for retroactive adjustments, if any, under reimbursement programs. Performance obligations are determined based on the nature of the services provided. Client service revenue is recognized as performance obligations are satisfied. Riverbend recognized revenue for mental health services in accordance with ASC 606, Revenue for contracts with Customers. Riverbend has determined that these services included under the daily or monthly fee have the same timing and pattern of transfer and are a series of distinct services that are considered one performance obligation which is satisfied over time. Riverbend receives revenues for services under various third-party payer programs which include Medicaid and other third-party payers. The transaction price is based on standard charges for services provided to residents, reduced by applicable contractual adjustments, discounts, and implicit pricing concessions. The estimates of contractual adjustments and discounts are based on contractual agreements, discount policy, and historical collection experience. The corporation estimates the transaction price based on the terms of the contract with the payer, correspondence with the payer and historical trends.

Client service revenue (net of contractual allowances and provision for bad debts) recognized during the year ended June 30, 2024 totaled $24,912,218, of which $23,571,421 was revenue from third-party payors and $1,340,797 was revenue from self-pay clients.

Riverbend has agreements with third-party payors that provide payments to Riverbend at established rates. These payments include:

New Hampshire Medicaid

Riverbend is reimbursed for services rendered to Medicaid clients on the basis of fixed Fee for Service rates.

New Hampshire Healthy Families

This is a managed care organization that reimburses Riverbend Medicaid funds for services rendered on a fee for service and capitated structure.

Beacon Wellsense

This is a managed care organization that reimburses Riverbend Medicaid funds for services rendered on a fee for service and capitated structure.

Amerihealth

This is a managed care organization that reimburses Riverbend Medicaid funds for services rendered on a fee for service and capitated structure.

State of New Hampshire

Riverbend is reimbursed for certain expenses through support from the State of New Hampshire general funds accounts. Assertive Continuous Treatment Teams (ACT) for both adults and children, Mobile Crisis Teams, Refugee Interpreter Services are such accounts.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Concord Hospital
Riverbend is reimbursed for certain projects through support from the Concord Hospital for behavioral health services rendered in the emergency room inpatient psychiatric unit and for general administrative services. All are reimbursed on a contractual basis.

Approximately 81% of net client service revenue is from participation in the state-sponsored Medicaid programs for the year ended June 30, 2024 and 2023, respectively. Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation and change. As a result, it is possible that recorded estimates could change materially in the near term.

Interest Rate Swap Agreements
Riverbend uses an interest-rate swap to mitigate interest-rate risk on our bonds payable (Note 8). The related liability or asset is reported at fair value in the statements of financial position, and unrealized gains or losses are included in the statement's operations.

Advertising
Advertising costs are expensed as incurred. Total costs were $29,972 and $148,829 at June 30, 2024 and 2023, respectively.

New Accounting Standards – Adoption of ASU 2016-02
In February 2016, the FASB issued ASU 2016-02, *Leases (Topic 842)*, which supersedes existing guidance for accounting for leases under *Topic 840, Leases*. The FASB also subsequently issues the following additional ASUs, which amend and clarify Topic 842: ASU 2018-01, *Land Easement Practical Expedient for Transitions to Topic 842*; ASU 2018-10, *Codification Improvements to Topic 842*, Leases; ASU 2018-20, *Narrow-scope Improvements for Lessors*; and ASU 2019-01, *Leases (Topic 842): Codification Improvements*. The most significant change in the new leasing guidance is the requirement to recognize the right-to-use (ROU) assets and lease liabilities for operating leases on the balance sheet.

Riverbend elected to adopt these ASUs effective July 1, 2022, and utilized all of the practical expedients. The adoption had a material impact on Riverbend's balance sheet but did not have a material impact on the income statement. The most significant impact was the recognition of ROU assets and lease liabilities for operating leases. The accounting for finance leases remained substantially unchanged. Adoption of the standard required Riverbend to restate amounts as of July 1, 2022, resulting in an increase in operating lease ROU assets of $220,101, and increase in operating lease liabilities of $220,101.

New Accounting Standards - Adoption of FASB ASU 2016-13 and Related Standards
On July 1, 2023, Riverbend adopted FASB ASU 2016-03, Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments, as amended, which modifies the measurement of expected credit losses on certain financial instruments. Riverbend adopted this new guidance utilizing the modified retrospective transition method. The adoption of this Standard did not have a material impact on Riverbend's financial statements but did change how the allowance for doubtful accounts and credit losses is determined.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Accounts Receivable and Allowance for Credit Losses

In evaluating the collectability of accounts receivable, Riverbend uses relevant available information, from internal and external sources, relating to past events, current conditions, reasonable and supportable forecasts, and analyzes trends for each major payer source of revenue for the purpose of estimating the appropriate amounts of the allowance for doubtful accounts. Data in each major payer source is regularly reviewed to evaluate the adequacy of the allowance for doubtful accounts. Specifically, for receivables relating to services provided to clients having third-party coverage, an allowance for doubtful accounts and a corresponding provision for bad debts are established for amounts outstanding for an extended period of time and for third-party payers experiencing financial difficulties; for receivables relating to self-pay clients, a provision for bad debts is made in the period services are rendered based on experience indicating the inability or unwillingness of clients to pay amounts for which they are financially responsible.

Riverbend has tracked historical loss information for its accounts receivable and compiled historical credit loss percentages for different aging categories (current, 1-30 days past due, 31-60 days past due, 61-90 days past due, and more than 90 days past due). Riverbend believes the historical loss information it has compiled is a reasonable base on which to determine expected credit losses for accounts receivable held at June 30, 2024 because the compositions of the accounts receivable at those dates are consistent with that used in developing the historical credit-loss percentages (i.e., the similar risk characteristics of its services provided to clients have not changed significantly over time). Additionally, Riverbend has determined that the current and reasonable and supportable forecasted economic conditions are consistent with the economic conditions included in the historical information. As a result, the historical loss rates have not been adjusted for differences in current conditions or forecasted changes. Accordingly, the allowance for doubtful accounts was $2,480,206 and $774,999 as of June 30, 2024 and 2023, respectively. The allowance for doubtful accounts represents 53% and 31% of total client service accounts receivable as of June 30, 2024 and 2023, respectively. The increase in the allowance between the two fiscal years of 22% is due to the Medicaid unwind increasing client gross fees by 205%.

Changes in the allowance for credit losses for receivables for the year ended June 30, 2024 as follows:

Allowance for credit losses, beginning of year	$ 774,999
Provisions for credit losses	2,662,128
Charge-offs	(1,082,938)
Recoveries	126,017

NOTE 5 FAIR VALUE MEASUREMENTS

Professional accounting standards established a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Basis of Fair Value Measurement

Level 1- Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2- Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly.

Level 3- Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

NOTE 5 FAIR VALUE MEASUREMENTS (continued)

All investments are categorized as Level 1 and recorded at fair value, as of June 30, 2024. As required by professional accounting standards, investment assets are classified in their entirety based upon the lowest level of input that is significant to the fair value measurement.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Directors
Riverbend Community Mental Health, Inc.
Concord, New Hampshire

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Riverbend Community Mental Health, Inc. (a nonprofit organization), which comprise the statement of financial position as of June 30, 2024, and the related statements of operations and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated January 22, 2025.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Riverbend Community Mental Health, Inc.'s internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Riverbend Community Mental Health, Inc.'s internal control. Accordingly, we do not express an opinion on the effectiveness of Riverbend Community Mental Health, Inc.'s internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Riverbend Community Mental Health, Inc.'s financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Board of Directors of
Riverbend Community Mental Health, Inc.
Concord, New Hampshire

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Riverbend Community Mental Health, Inc.'s compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of Riverbend Community Mental Health, Inc.'s major federal programs for the year ended June 30, 2024. Riverbend Community Mental Health, Inc.'s major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Riverbend Community Mental Health, Inc. complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2024.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Riverbend Community Mental Health, Inc. and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Riverbend Community Mental Health, Inc.'s compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Riverbend Community Mental Health, Inc.'s federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Riverbend Community Mental Health, Inc.'s compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Riverbend Community Mental Health, Inc.'s compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Riverbend Community Mental Health, Inc.'s compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Riverbend Community Mental Health, Inc.'s internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Riverbend Community Mental Health, Inc.'s internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

EXPLANATION

This request is **Sole Source** because the Contractors are the only authorized contractors able to provide the necessary services. The Department contracts for mental health services through these ten (10) Community Mental Health Centers, which are designated by the Department to service towns and cities within specified geographic regions, as outlined in the NH Revised Statutes Annotated (RSA) 135-C, New Hampshire Mental Health Services System, and NH Administrative Rule He-M 403, Approval and Operation of Community Mental Health Programs.

The purpose of this request is to provide community mental health services for individuals in New Hampshire. Community Mental Health Centers provide community-based mental health services to adults, children, and families to build resiliency, promote recovery, and reduce inpatient hospital utilizations, and improve community tenure. These contracts provide both Federal grant funds and General Funds that enable delivery of services not otherwise covered by Medicaid. For example, technology, training, and system upgrades, delivery of some Assertive Community Treatment services, and care coordination with other systems such as the Division of Children, Youth, and Families, Department of Education, and Division of Long Term Supports and Services. The majority of the General Funds are allocated to ensure that individuals who are uninsured have full access to NH Rapid Response crisis services.

Approximately 20,700 individuals will be served annually.

The populations served include children with Serious Emotional Disturbances and adults with Serious Mental Illness/Serious and Persistent Mental Illness, including individuals with Mental Illness and co-occurring substance use disorders per NH Administrative Rule He-M 401 Eligibility Determination and Individuals Service Planning.

The Contractors will provide crisis services, individual and group psychotherapy, targeted case management, medication services, Functional Support Services, Illness Management and Recovery, supported employment, Assertive Community Treatment, Wraparound services for children, community residential services, and acute care services to individuals experiencing psychiatric emergencies while awaiting admission to a designated receiving facility. All contracts include provisions for Mental Health Services required by NH RSA 135-C and with State Regulations applicable to the mental health system as outlined in He-M 400, as well as in compliance with the Community Mental Health Agreement (CMHA).

The Department will monitor services by:

- Conducting performance reviews and utilization reviews as necessary and appropriate based on applicable licensing, certifications and service provisions.
- Conducting quarterly meetings to review submitted quarterly data and reports to identify ongoing programmatic improvements.
- Reviewing monthly financial statements provided by the Contractors for ongoing evaluation of program fiscal integrity.

As referenced in Exhibit A, Revisions to Standard Agreement Provisions Section 1, Revisions to Form P-37, General Provisions, Subsection 1.2 of the attached agreements, the parties have the option to extend the agreements for up to four (4) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties, and Governor and Council approval.

Should the Governor and Council not authorize this request, approximately 12,300 adults, and 8,400 children in the state will not have access to critical community mental health services as required by NH RSA 135-C:13. As a result, these individuals may experience an increase in symptoms causing them to seek more costly services at hospital emergency departments due to risk of harm to themselves or others and may have increased contact with law enforcement, correctional programs, or primary care physicians, none of which have the necessary services or supports available to provide necessary assistance. Lack of these services may also increase the likelihood of inpatient hospitalizations and death by suicide.

Source of Federal Funds: Assistance Listing Number #93.243, FAIN # H79SM080245; Assistance Listing Number #93.958, FAIN # B09SM087375; Assistance Listing Number #93.043, FAIN #2201NHOAPH; Assistance Listing Number #93.959, FAIN # TI085821; Assistance Listing Number #93.829, FAIN # H79SM087622.

In the event that the Federal Funds become no longer available, additional General Funds will not be requested to support this program.

Respectfully submitted,

Lori A. Weaver
Interim Commissioner

The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors of
Monadnock Family Services

Opinion

We have audited the accompanying financial statements of Monadnock Family Services (a New Hampshire nonprofit organization), which comprise the statements of financial position as of June 30, 2024 and 2023, and the related statements of cash flows, and the notes to the financial statements for the years then ended, and the related statements of activities and functional expenses for the year ended June 30, 2024.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Monadnock Family Services as of June 30, 2024 and 2023, and its cash flows for the years then ended, and the change in its net assets for the year ended June 30, 2024 in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Monadnock Family Services and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Monadnock Family Services' ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Monadnock Family Services' internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Monadnock Family Services' ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Report on Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The schedule of functional revenues on pages 21 - 23 is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Report on Summarized Comparative Information

We have previously audited Monadnock Family Services' June 30, 2023 financial statements, and we expressed an unmodified opinion on those audited financial statements in our report dated November 1, 2024. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2023, is consistent, in all material respects, with the audited financial statements from which it has been derived.

1. ORGANIZATION OF THE CORPORATION

Monadnock Family Services (the Organization) is a nonprofit corporation, organized under New Hampshire law to provide services in the areas of mental health, and related non-mental health programs.

The Organization operates in the Monadnock region of the State of New Hampshire.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of Monadnock Family Services have been prepared on the accrual basis of accounting.

Basis of Presentation

The financial statements of the Organization have been prepared in accordance with U.S. generally accepted accounting principles (US GAAP), which require the Organization to report information regarding its financial position and activities according to the following net asset classifications:

Net assets without donor restrictions – Net assets that are not subject to donor-imposed restrictions and may be expended for any purpose in performing the primary objectives of the Organization. These net assets may be used at the discretion of the Organization's management and board of directors.

Net assets with donor restrictions – Net assets subject to stipulations imposed by donors and grantors. Some donor restrictions are temporary in nature; those restrictions will be met by actions of the Organization or by passage of time. Other donor restrictions are perpetual in nature, whereby the donor has stipulated the funds be maintained in perpetuity.

Donor restricted contributions are reported as increases in net assets with donor restrictions. When a restriction expires, net assets are reclassified from net assets with donor restrictions to net assets without donor restrictions in the statement of activities.

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash Equivalents

The Organization considers all highly liquid financial instruments with original maturities of three months or less to be cash equivalents.

Accounts Receivable

Accounts receivables are stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible amounts through a charge to activities and a credit to a valuation allowance based on historical account write-off patterns by the payor, adjusted as necessary to reflect current conditions. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and credit to accounts receivable. The Organization has no policy for charging interest on overdue accounts nor are its accounts receivable pledged as collateral, except as disclosed in Note 6.

Property and Depreciation

Property and equipment are recorded at cost or, if donated, at estimated fair value at the date of donation. Material assets with a useful life in excess of one year are capitalized. Depreciation is provided for using the straight-line method in amounts designed to amortize the cost of the assets over their estimated useful lives as follows:

Furniture, fixtures and equipment	3 - 10 Years
Vehicles	5 - 10 Years
Building and leasehold improvements	5 - 40 Years

Costs for repairs and maintenance are expensed when incurred and betterments are capitalized. Assets sold or otherwise disposed of are removed from the accounts, along with the related accumulated depreciation, and any gain or loss is recognized.

Depreciation expense was $91,703 and $76,878 for the years ended June 30, 2024 and 2023, respectively.

Accrued Earned Time

At June 30, 2024 and 2023 the Organization has accrued a liability for future compensated leave time in the amount of $345,668 and $310,540, respectively, that its employees have earned and which is vested with the employee.

Refundable Advances

Grants received in advance are recorded as refundable advances and recognized as revenue in the period in which the related services are provided or expenditures are incurred.

Revenue Recognition

In May of 2014, the FASB issued Accounting Standards Update (ASU) 2014-09, *Revenue from Contracts with Customers (Topic 606)*. This ASU is a comprehensive revenue recognition model that requires an organization to recognize revenue to depict the transfer of goods or services to a customer at an amount that reflects the consideration it expects to receive in exchange for those goods or services. Contracts and transactions with customers predominantly contain a single performance obligation.

The Organization records the following exchange transaction revenue in its statements of activities for the years ended June 30, 2024 and 2023:

Mental Health Services
The Organization provides a variety of mental health services to its patients. All mental health services revenue recognized upon completion of the service provided.

Contract Balances
Contract balances as a result of contracts and transactions with customers primarily consist of receivables included in accounts receivable in the Organization's statements of financial position. The Organization's receivables from transactions with customers amounted to $345,202 and $345,166 for the years ended June 30, 2024 and 2023, respectively.

Rental Income
Revenue from rental of residential apartments is recognized over time.

Net patient revenue is reported at the estimated net realizable amounts from patients, third-party payors and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and are adjusted in future periods, as final amounts are determined.

A significant portion of patient revenue is derived from services to patients insured by third-party payors. The Organization receives reimbursement from Medicare, Medicaid and private third-party payors at defined rates for services rendered to patients covered by these programs. The difference between established billing rates and the actual rate of reimbursement is recorded as an allowance when received. A provision for estimated contractual allowances is provided on outstanding patient receivables at the statement of financial position date.

Contributions
All contributions are considered to be available for unrestricted use unless specifically restricted by the donor. Amounts received that are restricted by the donor for future periods or for specific purposes are reported as net assets with donor restrictions, depending on the nature of the restrictions. However, if a restriction is fulfilled in the same period in which the contribution is received, the Organization reports the support as net assets without donor restrictions.

Advertising
The Organization expenses advertising costs as incurred.

Summarized Financial Information

The financial statements include certain prior year summarized comparative information in total but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the Organization's financial statements for the year ended June 30, 2023, from which the summarized information was derived.

Functional Allocation of Expenses

The costs of providing the various programs and other activities have been summarized on a functional basis. Accordingly, costs have been allocated among the program services and supporting activities benefited. Such allocations have been determined by management on an equitable basis.

The expenses that are allocated include the following:

Expense	Method of allocation
Salaries and benefits	Time and effort
Occupancy	Square footage
Depreciation	Square footage
All other expenses	Direct assignment

Fair Value of Financial Instruments

FASB ASC Topic No. 820-10, *Financial Instruments*, provides a definition of fair value which focuses on an exit price rather than an entry price, establishes a framework in generally accepted accounting principles for measuring fair value which emphasizes that fair value is a market-based measurement, not an entity-specific measurement, and requires expanded disclosures about fair value measurements. In accordance with ASC 820-10, the Organization may use valuation techniques consistent with market, income and cost approaches to measure fair value. As a basis for considering market participant assumptions in fair value measurements, Topic 820-10 establishes a fair value hierarchy, which prioritizes the inputs used in measuring fair values. The hierarchy gives the highest priority to Level 1 measurements and the lowest priority to Level 3 measurements. The three levels of the fair value hierarchy under ASC Topic 820-10 are described as follows:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date.

Level 2 - Inputs to the valuation methodology are other than quoted market prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies.

Level 3 - Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

The carrying amount of cash, prepaid expense, other assets and current liabilities, approximates fair value because of the short maturity of those instruments.

Management has determined the beneficial interest in net assets held by Monadnock Regional Foundation for Family Services, Inc. to be in Level 2 of the fair value hierarchy as defined above (also see Note 5).

Income Taxes

The Organization is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code. In addition, the Organization qualifies for the charitable contribution deduction under Section 170(b)(1)(a) and has been classified as an Organization that is not a private foundation under Section 509(a)(2). Accordingly, no provision for income taxes has been recorded in the accompanying financial statements.

Management has evaluated the Organization's tax positions and concluded that the Organization has maintained its tax-exempt status and has taken no uncertain tax positions that would require adjustment to the financial statements.

New Accounting Pronouncements

As of July 1, 2023, the Organization adopted the provisions of the Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) 2016-03, *Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments,* as amended, which modifies the measurement of expected credit losses on certain financial instruments. The Organization adopted this new guidance utilizing the modified retrospective transition method. The adoption of this Standard did not have a material impact on the Organization's financial statements but did change how the allowance for credit losses is determined.

RESEARCH STATEMENT

My area of expertise in basic science research is in redox-regulation of transcription factors and associated adaptive responses, particular in the area of neurotoxicology. I discovered the mechanism by which dopamine signals neurons to either adapt or initiate apoptosis. The model I created to study dopamine-related signaling effects in the brain is still being utilized by investigators studying Parkinson's Disease, but I no longer do research in the field. Now, my research focus is on the development of specialty clinical programs and technical assistance for treatment of individuals with serious mental illness, especially in underserved areas of North

Carolina. Reducing healthcare disparities among those with serious mental illness is a large part of this initiative.

TEACHING STATEMENT

I engage in a variety of teaching activities ranging from lecture-style education to chalk-talks to bedside rounds to assigning learners into groups to help one another work through challenging cases. My overall goal as an educator is to shape today's learners into critical thinkers who do not lose sight of the power of compassion, who appreciate the limits of scientific evidence and understand the wisdom gained by clinical experience, and never forget that the most important thing is to provide everyone with the same level of care regardless of race, socioeconomic status, or diagnoses.

DEI STATEMENT

I have increased team-wide discussions on cultural competency and am mindful to pause to discuss issues related to diverse patient backgrounds and experiences when the opportunity presents itself. I use literature that demonstrates where large disparities in care remain within the field of SMI to educate learners and encourage them to become someone who can make a difference in narrowing the gap. I am also a supervisor for MS2 students participating in the Kenan Urban Scholar Program.

EXPLANATION

This request is **Sole Source** because the Contractors are the only authorized contractors able to provide the necessary services. The Department contracts for mental health services through these ten (10) Community Mental Health Centers, which are designated by the Department to service towns and cities within specified geographic regions, as outlined in the NH Revised Statutes Annotated (RSA) 135-C, New Hampshire Mental Health Services System, and NH Administrative Rule He-M 403, Approval and Operation of Community Mental Health Programs.

The purpose of this request is to provide community mental health services for individuals in New Hampshire. Community Mental Health Centers provide community-based mental health services to adults, children, and families to build resiliency, promote recovery, and reduce inpatient hospital utilizations, and improve community tenure. These contracts provide both Federal grant funds and General Funds that enable delivery of services not otherwise covered by Medicaid. For example, technology, training, and system upgrades, delivery of some Assertive Community Treatment services, and care coordination with other systems such as the Division of Children, Youth, and Families, Department of Education, and Division of Long Term Supports and Services. The majority of the General Funds are allocated to ensure that individuals who are uninsured have full access to NH Rapid Response crisis services.

Approximately 20,700 individuals will be served annually.

The populations served include children with Serious Emotional Disturbances and adults with Serious Mental Illness/Serious and Persistent Mental Illness, including individuals with Mental Illness and co-occurring substance use disorders per NH Administrative Rule He-M 401 Eligibility Determination and Individuals Service Planning.

The Contractors will provide crisis services, individual and group psychotherapy, targeted case management, medication services, Functional Support Services, Illness Management and Recovery, supported employment, Assertive Community Treatment, Wraparound services for children, community residential services, and acute care services to individuals experiencing psychiatric emergencies while awaiting admission to a designated receiving facility. All contracts include provisions for Mental Health Services required by NH RSA 135-C and with State Regulations applicable to the mental health system as outlined in He-M 400, as well as in compliance with the Community Mental Health Agreement (CMHA).

The Department will monitor services by:

- Conducting performance reviews and utilization reviews as necessary and appropriate based on applicable licensing, certifications and service provisions.
- Conducting quarterly meetings to review submitted quarterly data and reports to identify ongoing programmatic improvements.
- Reviewing monthly financial statements provided by the Contractors for ongoing evaluation of program fiscal integrity.

As referenced in Exhibit A, Revisions to Standard Agreement Provisions Section 1, Revisions to Form P-37, General Provisions, Subsection 1.2 of the attached agreements, the parties have the option to extend the agreements for up to four (4) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties, and Governor and Council approval.

Should the Governor and Council not authorize this request, approximately 12,300 adults, and 8,400 children in the state will not have access to critical community mental health services as required by NH RSA 135-C:13. As a result, these individuals may experience an increase in symptoms causing them to seek more costly services at hospital emergency departments due to risk of harm to themselves or others and may have increased contact with law enforcement, correctional programs, or primary care physicians, none of which have the necessary services or supports available to provide necessary assistance. Lack of these services may also increase the likelihood of inpatient hospitalizations and death by suicide.

Source of Federal Funds: Assistance Listing Number #93.243, FAIN # H79SM080245; Assistance Listing Number #93.958, FAIN # B09SM087375; Assistance Listing Number #93.043, FAIN #2201NHOAPH; Assistance Listing Number #93.959, FAIN # TI085821; Assistance Listing Number #93.829, FAIN # H79SM087622.

In the event that the Federal Funds become no longer available, additional General Funds will not be requested to support this program.

Respectfully submitted,

Lori A. Weaver
Interim Commissioner

However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

INDEPENDENT AUDITOR'S REPORT

Board of Directors
The Community Council of Nashua, NH, Inc.
d/b/a Greater Nashua Mental Health

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of The Community Council of Nashua, NH, Inc. d/b/a Greater Nashua Mental Health (the Organization), which comprise the statement of financial position as of June 30, 2024, and the related statements of activities and changes in net assets, functional revenues and expenses, and cash flows for the year then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Organization as of June 30, 2024, and the changes in its net assets and its cash flows for the year then ended in accordance with U.S. generally accepted accounting principles (U.S. GAAP).

Basis for Opinion

We conducted our audit in accordance with U.S. generally accepted auditing standards (U.S. GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Organization and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Change in Accounting Principle

As discussed in Note 1 to the financial statements, the Organization adopted Financial Accounting Standards Board Accounting Standards Update No. 2016-13, *Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments*, and related guidance as amended, during the year ended June 30, 2024. Our opinion is not modified with respect to that matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Organization's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with U.S. GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with U.S. GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Organization's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedule of expenditures of federal awards (SEFA), as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and related notes to the SEFA, is presented for purposes of additional analysis and is not a required part of the financial statements. Such supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The supplementary information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such supplementary information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with U.S. GAAS. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole.

Report on Summarized Comparative Information

We have previously audited the Organization's 2023 financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated November 6, 2023. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2023 is consistent, in all material respects, with the audited financial statements from which it has been derived.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 2, 2024 on our consideration of the Organization's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Organization's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Organization's internal control over financial reporting and compliance.

Organization

The Community Council of Nashua, NH, Inc. d/b/a Greater Nashua Mental Health (the Organization) is a comprehensive community health center located in Nashua, New Hampshire. The Organization's mission is to work with the community to meet the mental health needs of its residents by offering evaluation, treatment, resource development, education and research. The Organization is dedicated to clinical excellence and advocacy with its Child and Adolescent, Adult Outpatient Services, Older Adult Services, Deaf Services, Substance Abuse, Medical Services, and other programs.

1. Summary of Significant Accounting Policies

Newly Adopted Accounting Principle

Financial Accounting Standards Board (FASB) issued Accounting Standards Update No. 2016-13, *Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments*, and related guidance as amended, which replaces the incurred loss methodology with an expected loss methodology that is referred to as the current expected credit loss (CECL) methodology. The measurement of expected credit losses under the CECL methodology is applicable to financial assets measured at amortized cost, which includes accounts receivable. The adoption of Topic 326 during the year ended June 30, 2024 did not have a material impact on the financial statements of the Organization as a significant portion of the payors to the Organization either have the full faith and backing of the U.S. government or are credit worthy with limited to no credit risk associated with them. Other than accounts receivable, there are no other financial assets that are measured at amortized cost.

Basis of Presentation

The financial statements of the Organization have been prepared in accordance with U.S. generally accepted accounting principles (U.S. GAAP), which require the Organization to report information regarding its financial position and activities according to the following net asset classifications:

Net assets without donor restrictions: Net assets that are not subject to donor-imposed restrictions and may be expended for any purpose in performing the primary objectives of the Organization. These net assets may be used at the discretion of the Organization's management and the Board of Directors.

Net assets with donor restrictions: Net assets subject to stipulations imposed by donors and grantors. Some donor restrictions are temporary in nature; those restrictions will be met by actions of the Organization or by the passage of time. Other donor restrictions are perpetual in nature, whereby the donor has stipulated the funds be maintained in perpetuity.

All contributions are considered to be available for operational use unless specifically restricted by the donor. Amounts received that are designated for future periods or restricted by the donor for specific purposes are reported as donor restricted support that increases that net asset class. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, donor restricted net assets are reclassified to net assets without donor restrictions and reported in the statement of activities and changes in net assets as net assets released from restrictions. The Organization records donor restricted contributions whose restrictions are met in the same reporting period as support without donor restrictions in the year of the gift.

The Organization reports contributions of land, buildings or equipment as support without donor restrictions, unless a donor places explicit restriction on their use. Contributions of cash or other assets that must be used to acquire long-lived assets are reported as donor restricted support and reclassified to net assets without donor restrictions when the assets are acquired and placed in service.

The financial statements include certain prior year summarized comparative information in total, but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with U.S. GAAP. Accordingly, such information should be read in conjunction with the Organization's June 30, 2023 financial statements, from which the summarized information was derived.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include highly liquid investments with an original maturity of three months or less, excluding investments.

The Organization has cash deposits in major financial institutions which may exceed federal depository insurance limits. The Organization has not experienced any losses in such accounts. Management believes it is not exposed to any significant risk with respect to these accounts.

Accounts and Grants Receivable

Accounts receivable are stated at the amount management expects to collect from outstanding balances reduced by an allowance for uncollectible accounts. In evaluating the collectability of accounts receivable, the Organization monitors the amount of actual cash collected during each month against the Organization's outstanding accounts receivable balances, as well as the aging of balances. The Organization analyzes its past history and identifies supportable future trends for each of its major payer sources of revenue to estimate the appropriate allowance for credit losses and provision for bad debts. Management, as well as the Finance Committee of the Organization, regularly reviews the aging and collection rate of major payer sources. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to the trade accounts receivable. Accounts receivable, net amounted to $1,356,320 as of July 1, 2022.

Leases

At the inception of an arrangement, the Organization determines if an arrangement is, or contains, a lease based on the unique facts and circumstances present in that arrangement. Lease classification, recognition and measurement are then determined as of the lease commencement date. For arrangements that contain a lease, the Organization (i) identifies lease and non-lease components, (ii) determines the consideration in the contract, (iii) determines whether the lease is an operating or finance lease, and (iv) recognizes the lease ROU asset and liability. Lease obligations and their corresponding ROU assets are recorded based on the present value of lease payments over the expected lease term. The interest rate implicit in lease contracts is typically not readily determinable, and as such, the Organization used the risk free rate based on the information available at the lease commencement date, a rate which represents one that would be incurred to borrow, on a collateralized basis, over a similar term, an amount equal to the lease payments in a similar economic environment.

Some leases include options to renew and/or terminate the lease, which can impact the lease term. The exercise of these options is at the Organization's discretion and the Organization does not include any of these options within the expected lease term where it is not reasonably certain that these options will be exercised.

Fixed, or in-substance fixed, lease payments on operating leases are recognized over the expected term of the lease on a straight-line basis. Variable lease expenses that are not considered fixed, or in-substance fixed, are recognized as incurred. Fixed and variable lease expense on operating leases is recognized within other operating expenditures in the statement of functional revenues and expenses. The Organization has elected the short-term lease exemption and, therefore, does not recognize a ROU asset or corresponding lease liability for lease arrangements with an original term of 12 months or less.

Investments

Investments in marketable securities and debt instruments with readily determined market values are carried at fair value. Fair values are based on quoted market prices, if available, or estimated using quoted market prices for similar securities.

Dividends, interest, and net realized and unrealized gains (losses) arising from investments are reported as follows:

- Increases (decreases) in net assets with donor restrictions if the terms of the gift require that they be maintained with the corpus of a donor restricted endowment fund;
- Increases (decreases) in net assets with donor restrictions if the terms of the gift or state law imposes restrictions on the use of the allocated investment income (loss); and
- Increases (decreases) in net assets without donor restrictions in all other cases.

During 2023, the Organization initiated a short-term investment strategy by transferring balances from cash and cash equivalents to a short-term investment portfolio in response to an improving rate environment and the opportunity to earn additional interest on excess cash.

Short-term investments are reported at fair value using quoted prices (unadjusted) for identical assets in active markets that the Organization has the ability to access as of year-end. The investments consist primarily of U.S. Treasury bills with maturities of greater than 90 days and less than 12 months from the date of purchase.

Property and Equipment

Property and equipment are carried at cost, if purchased, or at estimated fair value at date of donation in the case of gifts, less accumulated depreciation. The Organization's policy is to capitalize assets greater than $5,000, while minor maintenance and repairs are charged to expense as incurred. Depreciation is recorded using the straight-line method over the following estimated lives as follows:

Furniture and equipment	3-10 years
Buildings and improvements	15-50 years
Computer equipment and software	3-10 years
Vehicles	5 years

Estimated Third-Party Liability

The Organization's estimated third-party liability consists of estimated amounts due to Medicaid under capitation contract agreements. During 2023, the Managed Care Organizations (MCO's) authorized the Organization to use 50% of any unmet minimum threshold levels for the period from July 1, 2022 to December 31, 2022 and 30% of any unmet minimum thresholds for the period from January 1, 2023 to June 30, 2023 to be used to invest for workforce improvements. During 2024, the MCO's authorized the Organization to use 50% of any unmet minimum threshold levels to be used to invest for workforce improvements.

Revenue Recognition

Program service fees, net revenue is reported at the estimated net realizable amount that reflects the consideration to which the Organization expects to be entitled in exchange for providing client services. These amounts are due from third-party payors (including health insurers and government programs), and others, and include variable consideration for retroactive revenue adjustments due to settlement of audits, reviews, and investigations. Generally, the Organization bills third-party payors several days after services are provided. Revenue is recognized as performance obligations are satisfied. It is the Organization's expectation that the period between the time the service is provided to a client and the time a third-party payor pays for that service will be one year or less.

Under the Organization's contractual arrangements, the Organization provides services to clients for an agreed-upon fee. The Organization recognizes revenue for client services in accordance with the provisions of FASB Accounting Standards Codification (ASC) Topic 606, *Revenue from Contracts with Customers.*

Performance obligations are determined based on the nature of the services provided by the Organization. Revenue for performance obligations satisfied over time is recognized based on actual services rendered. Generally, performance obligations are satisfied over time when services are provided. The Organization measures the performance obligation from when the Organization begins to provide services to a client to the point when it is no longer required to provide services to that client, which is generally at the time of notification to the Organization.

Each performance obligation is separately identifiable from other promises in the contract with the client. As the performance obligations are met, revenue is recognized based upon allocated transaction price. The transaction price is allocated to separate performance obligations based upon the relative stand-alone selling price.

Because all of its performance obligations relate to short-term contracts, the Organization has elected to apply the optional exemption provided in FASB ASC Subtopic 606-10-50-14(a), and therefore, is not required to disclose the aggregate amount of the transaction price allocated to performance obligations that are unsatisfied or partially unsatisfied at the end of the reporting period.

Functional Allocation of Expenses

The costs of providing various programs and other activities have been summarized on a functional basis in the statements of functional revenues and expenses. Accordingly, certain costs have been allocated among the programs and supporting services benefited. General and administrative costs were allocated based on a percentage of relative revenue by program. Program expenses are allocated based on client count.

Income Taxes

The Organization is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code. There was no unrelated business income tax incurred by the Organization for the years ended June 30, 2024 and 2023. Management has evaluated the Organization's tax positions and concluded the Organization has maintained its tax-exempt status, does not have any significant unrelated business income and has taken no uncertain tax positions that require adjustment to, or disclosure within, the accompanying financial statements.

Subsequent Events

For purposes of the preparation of these financial statements in conformity with U.S. GAAP, management has considered transactions or events occurring through December 2, 2024, which is the date that the financial statements were available to be issued.

2. Availability and Liquidity of Financial Assets

The Organization regularly monitors liquidity required to meet its operating needs and other contractual commitments, while also striving to optimize its available funds. The Organization has various sources of liquidity at its disposal, including cash and cash equivalents, investments and a line of credit.

For purposes of analyzing resources available to meet general expenditures over a 12-month period, the Organization considers all expenditures related to its ongoing operating activities as well as the conduct of services undertaken to support those operating activities.

In addition to financial assets available to meet general expenditures over the next 12 months, the Organization operates with a board approved budget and anticipates collecting sufficient revenue to cover expenditures not covered by donor-restricted resources or, where appropriate, borrowings. Refer to the statement of cash flows, which identifies the sources and uses of the Organization's cash and cash equivalents.

The following financial assets are expected to be available within one year of the statement of financial position date to meet general expenditures as of June 30:

	2024	2023
Cash and cash equivalents available for operations	$ 573,883	$ 5,438,388
Accounts receivable, net	547,537	406,996
Grants receivable, net	2,980,485	970,436
Short-term investments	3,232,039	9,084,186
Financial assets available to meet general expenditures within one year	$ 7,333,944	$ 15,900,006

Cash and cash equivalents in the statement of financial position includes amounts that are part of the endowment and Board-designated funds reserved for future capital expenditures, and thus are excluded from the above table.

The Organization's Board of Directors has designated a portion of its resources without donor restrictions to act as endowment funds. These funds are invested for long-term appreciation and current income but remain available and may be spent at the discretion of the Board of Directors.

The Organization has an available line of credit of $1,000,000 which had $750,000 drawn on it at June 30, 2024. See Note 7.

3. Program Service Fees and Concentrations of Credit Risk

For the years ended June 30, 2024 and 2023, approximately 79% and 77%, respectively, of the revenues and support of the Organization was derived from MCO contracts. As of June 30, 2024 and 2023, gross accounts receivable due from government grants was approximately 74% and 61%, respectively.

4. Fair Value of Financial Instruments

FASB ASC Topic 820, *Fair Value Measurement*, defines fair value as the exchange price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants and also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

The fair value hierarchy within FASB ASC Topic 820 distinguishes three levels of inputs that may be utilized when measuring fair value:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect an entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability. The Organization did not have any Level 3 assets as of June 30, 2024 and 2023, respectively.

The following table sets forth by level, within the fair value hierarchy, the Organization's assets measured at fair value on a recurring basis as of June 30:

2024	Level 1	Level 2	Total
Common stock	$ 924,080	$ -	$ 924,080
Equity mutual funds	285,240	-	285,240
U.S. Treasury bonds	4,131,372	-	4,131,372
Corporate bonds	-	253,897	253,897
	$ 5,340,692	$ 253,897	$ 5,594,589

2023	Level 1	Level 2	Total
Common stock	$ 810,093	$ -	$ 810,093
Equity mutual funds	244,966	-	244,966
U.S. Treasury bonds	9,837,632	-	9,837,632
Corporate bonds	-	234,516	234,516
	$10,892,691	$ 234,516	$11,127,207

The fair value for Level 2 assets is primarily based on market prices of comparable or underlying securities, interest rates, and credit risk, using the market approach for the Organization's investments.

5. Property and Equipment

Property and equipment consists of the following:

	2024	2023
Land, buildings and improvements	$ 11,205,313	$ 6,026,105
Furniture and equipment	584,720	489,357
Computer equipment	559,278	498,683
Software	713,587	713,587
Vehicles	79,121	79,121
Construction in process	429,634	30,345
	13,571,653	7,837,198
Less accumulated depreciation	(5,027,505)	(4,665,246)
Property and equipment, net	$ 8,544,148	$ 3,171,952

6. Endowment

The Organization's endowment primarily consists of funds established for certain programs provided by the Organization. Its endowment includes both donor-restricted endowment funds and funds designated by the Board of Directors to function as endowments. As required by U.S. GAAP, net assets associated with endowment funds, including funds designated by the Board of Directors to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

Interpretation of Relevant Law

The Organization has interpreted the State of New Hampshire Uniform Prudent Management of Institutional Funds Act (the Act) as allowing the Organization to spend or accumulate the amount of an endowment fund that the Organization determines is prudent for the uses, benefits, purposes and duration for which the endowment fund is established, subject to the intent of the donor as expressed in the gift agreement. As a result of this interpretation, the Organization has included in net assets with perpetual donor restrictions (1) the original value of gifts donated to be maintained in perpetuity, (2) the original value of subsequent gifts to be maintained in perpetuity, and (3) the accumulation to the gifts to be maintained in perpetuity made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. If the donor-restricted endowment assets earn investment returns beyond the amount necessary to maintain the endowment assets' contributed value, that excess is included in net assets with donor restrictions until appropriated by the Board of Directors and, if applicable, expended in accordance with the donors' restrictions. The Organization has interpreted the Act to permit spending from funds with deficiencies in accordance with the prudent measures required under the Act. Funds designated by the Board of Directors to function as endowments are classified as net assets without donor restrictions.

In accordance with the Act, the Organization considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

(1) The duration and preservation of the fund;
(2) The purposes of the Organization and the donor-restricted endowment fund;
(3) General economic conditions;
(4) The possible effect of inflation and deflation;
(5) The expected total return from income and the appreciation of investments;
(6) Other resources of the Organization; and
(7) The investment policies of the Organization.

Spending Policy

The Organization has a total return spending rate policy which limits the amount of investment income used to support current operations. The long-term target is to limit the use of the endowment to 4% of the moving average of the market value of the investments over the previous 12 quarters ending June 30 of the prior fiscal year. There were no appropriations during 2024 or 2023.

Return Objectives and Risk Parameters

The Organization has adopted investment policies, approved by the Board of Directors, for endowment assets that attempt to maintain the purchasing power of those endowment assets over the long term. Accordingly, the investment process seeks to achieve an after-cost total real rate of return, including investment income as well as capital appreciation, which exceeds the annual distribution with acceptable levels of risk. Endowment assets are invested in a well-diversified asset mix, which includes equity and debt securities, that is intended to result in a consistent inflation-protected rate of return that has sufficient liquidity to make an annual distribution of accumulated interest and dividend income to be reinvested or used as needed, while growing the funds if possible. Actual returns in any given year may vary from this amount. Investment risk is measured in terms of the total endowment fund; investment assets and allocation between asset classes and strategies are managed to reduce the exposure of the fund to unacceptable levels of risk.

Funds with Deficiencies

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor or the Act requires the Organization to retain as a fund of perpetual duration. Deficiencies result from unfavorable market fluctuations that occurred shortly after the investment of new contributions with donor-imposed restrictions to be maintained in perpetuity and continued appropriation for certain programs that was deemed prudent by the Board of Directors. The Organization has a policy that permits spending from underwater endowment funds, unless specifically prohibited by the donor or relevant laws and regulations. Any deficiencies are reported in net assets with donor-imposed restrictions. There were no deficiencies of this nature as of June 30, 2024 and 2023.

Endowment Composition and Changes in Endowment

The endowment net asset composition by type of fund as of June 30, 2024 was as follows:

	Without Donor Restrictions	With Donor Restrictions	Total
Donor-restricted endowment funds	$ -	$ 351,747	$ 351,747
Board-designated endowment funds	2,587,969	-	2,587,969
	$ 2,587,969	$ 351,747	$ 2,939,716

The changes in endowment net assets for the year ended June 30, 2024 were as follows:

	Without Donor Restrictions	With Donor Restrictions	Total
Endowment net assets, June 30, 2023	$ 2,402,168	$ 326,494	$ 2,728,662
Investment return, net of fees	185,801	25,253	211,054
Endowment net assets, June 30, 2024	$ 2,587,969	$ 351,747	$ 2,939,716

The endowment net asset composition by type of fund as of June 30, 2023 was as follows:

	Without Donor Restrictions	With Donor Restrictions	Total

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Board of Directors
The Community Council of Nashua, NH, Inc.
d/b/a Greater Nashua Mental Health

We have audited, in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of The Community Council of Nashua, NH, Inc. d/b/a Greater Nashua Mental Health (the Organization), which comprise the statement of financial position as of June 30, 2024, and the related statements of activities and changes in net assets, functional revenues and expenses, and cash flows for the year then ended, and the related notes to the financial statements and have issued our report thereon dated December 2, 2024.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Organization's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control. Accordingly, we do not express an opinion on the effectiveness of the Organization's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Organization's financial statements will not be prevented, or detected and corrected, on a timely basis.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. We identified a deficiency in internal control, described in the accompanying schedule of findings and questioned costs as item 2024-001 that we consider to be a material weakness.

Board of Directors
The Community Council of Nashua, NH, Inc.
d/b/a Greater Nashua Mental Health

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Organization's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The Organization's Response to the Finding

Government Auditing Standards require the auditor to perform limited procedures on the Organization's response to the finding identified in our audit and described in the accompanying schedule of findings and questioned costs. The Organization's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR THE MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Board of Directors
The Community Council of Nashua, NH, Inc.
d/b/a Greater Nashua Mental Health

Report on Compliance for the Major Federal Program

Opinion on the Major Federal Program

We have audited The Community Council of Nashua, NH, Inc. d/b/a Greater Nashua Mental Health's (the Organization) compliance with the types of compliance requirements described in the *Office of Management and Budget Compliance Supplement* that could have a direct and material effect on the Organization's major federal program for the year ended June 30, 2024. The Organization's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the Organization complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended June 30, 2024.

Basis for Opinion on the Major Federal Program

We conducted our audit of compliance in accordance with U.S. generally accepted auditing standards (U.S. GAAS); the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the Organization and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for the major federal program. Our audit does not provide a legal determination of the Organization's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the Organization's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Organization's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with U.S. GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the Organization's compliance with the requirements of its major federal program as a whole.

In performing an audit in accordance with U.S. GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the Organization's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the Organization's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Board of Directors
The Community Council of Nashua, NH, Inc.
d/b/a Greater Nashua Mental Health

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Schedule of Findings and Questioned Costs (Concluded)

Year Ended June 30, 2024

Section II. - Findings Relating to the Financial Statements Which are Required to be Reported in Accordance with *Government Auditing Standards*

Finding 2024-001

Criteria:

Management is responsible for the design, implementation, and maintenance of effective internal control over financial reporting that provides reasonable assurance the internal control will prevent misstatements, intentional or unintentional, from occurring, or detect and correct misstatements on a timely basis. Additionally, the Organization is responsible for maintaining complete and accurate financial records.

Condition:

For the period from October 2023 to March 2024, the Organization, did not perform reconciliations on certain statement of financial position accounts, such as accounts receivable and grants receivable, in a timely manner. Those reconcilations were performed in May of 2024.

Cause:

There was turnover in the finance department at the Organization which resulted in a delay in completion and review of statement of financial position reconciliations. The Organization caught up on monthly reconciliations when they had adequate staffing.

Potential Effect:

Internal controls over financial reporting were not operating effectively for the majority of the year and as a result, an intentional or unintentional misstatement may not have been prevented or detected and corrected by management on a timely basis.

Recommendation:

We recommend that the Organization implement a month end checklist to help track which reconciliations have been prepared and reviewed to aid in accurate financial reporting.

Management's Response:

Management agrees with the finding and the recommendation. See Corrective Action Plan.

EXPLANATION

This request is **Sole Source** because the Contractors are the only authorized contractors able to provide the necessary services. The Department contracts for mental health services through these ten (10) Community Mental Health Centers, which are designated by the Department to service towns and cities within specified geographic regions, as outlined in the NH Revised Statutes Annotated (RSA) 135-C, New Hampshire Mental Health Services System, and NH Administrative Rule He-M 403, Approval and Operation of Community Mental Health Programs.

The purpose of this request is to provide community mental health services for individuals in New Hampshire. Community Mental Health Centers provide community-based mental health services to adults, children, and families to build resiliency, promote recovery, and reduce inpatient hospital utilizations, and improve community tenure. These contracts provide both Federal grant funds and General Funds that enable delivery of services not otherwise covered by Medicaid. For example, technology, training, and system upgrades, delivery of some Assertive Community Treatment services, and care coordination with other systems such as the Division of Children, Youth, and Families, Department of Education, and Division of Long Term Supports and Services. The majority of the General Funds are allocated to ensure that individuals who are uninsured have full access to NH Rapid Response crisis services.

Approximately 20,700 individuals will be served annually.

The populations served include children with Serious Emotional Disturbances and adults with Serious Mental Illness/Serious and Persistent Mental Illness, including individuals with Mental Illness and co-occurring substance use disorders per NH Administrative Rule He-M 401 Eligibility Determination and Individuals Service Planning.

The Contractors will provide crisis services, individual and group psychotherapy, targeted case management, medication services, Functional Support Services, Illness Management and Recovery, supported employment, Assertive Community Treatment, Wraparound services for children, community residential services, and acute care services to individuals experiencing psychiatric emergencies while awaiting admission to a designated receiving facility. All contracts include provisions for Mental Health Services required by NH RSA 135-C and with State Regulations applicable to the mental health system as outlined in He-M 400, as well as in compliance with the Community Mental Health Agreement (CMHA).

The Department will monitor services by:

- Conducting performance reviews and utilization reviews as necessary and appropriate based on applicable licensing, certifications and service provisions.
- Conducting quarterly meetings to review submitted quarterly data and reports to identify ongoing programmatic improvements.
- Reviewing monthly financial statements provided by the Contractors for ongoing evaluation of program fiscal integrity.

As referenced in Exhibit A, Revisions to Standard Agreement Provisions Section 1, Revisions to Form P-37, General Provisions, Subsection 1.2 of the attached agreements, the parties have the option to extend the agreements for up to four (4) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties, and Governor and Council approval.

Should the Governor and Council not authorize this request, approximately 12,300 adults, and 8,400 children in the state will not have access to critical community mental health services as required by NH RSA 135-C:13. As a result, these individuals may experience an increase in symptoms causing them to seek more costly services at hospital emergency departments due to risk of harm to themselves or others and may have increased contact with law enforcement, correctional programs, or primary care physicians, none of which have the necessary services or supports available to provide necessary assistance. Lack of these services may also increase the likelihood of inpatient hospitalizations and death by suicide.

In the event that the Federal Funds become no longer available, additional General Funds will not be requested to support this program.

Respectfully submitted,

Lori A. Weaver
Interim Commissioner

2. SERVICES TO BE PERFORMED. The State of New Hampshire, acting through the agency identified in block 1.1 ("State"), engages contractor identified in block 1.3 ("Contractor") to perform, and the Contractor shall perform, the work or sale of goods, or both, identified and more particularly described in the attached EXHIBIT B which is incorporated herein by reference ("Services").

3. EFFECTIVE DATE/COMPLETION OF SERVICES.

3.1 Notwithstanding any provision of this Agreement to the contrary, and subject to the approval of the Governor and Executive Council of the State of New Hampshire, if applicable, this Agreement, and all obligations of the parties hereunder, shall become effective on the date the Governor and Executive Council approve this Agreement as indicated in block 1.17, unless no such approval is required, in which case the Agreement shall become effective on the date the Agreement is signed by the State Agency as shown in block 1.13 ("Effective Date").

3.2 If the Contractor commences the Services prior to the Effective Date, all Services performed by the Contractor prior to the Effective Date shall be performed at the sole risk of the Contractor, and in the event that this Agreement does not become effective, the State shall have no liability to the Contractor, including without limitation, any obligation to pay the Contractor for any costs incurred or Services performed. Contractor must complete all Services by the Completion Date specified in block 1.7.

4. CONDITIONAL NATURE OF AGREEMENT.

Notwithstanding any provision of this Agreement to the contrary, all obligations of the State hereunder, including, without limitation, the continuance of payments hereunder, are contingent upon the availability and continued appropriation of funds affected by any state or federal legislative or executive action that reduces, eliminates or otherwise modifies the appropriation or availability of funding for this Agreement and the Scope for Services provided in EXHIBIT B, in whole or in part. In no event shall the State be liable for any payments hereunder in excess of such available appropriated funds. In the event of a reduction or termination of appropriated funds, the State shall have the right to withhold payment until such funds become available, if ever, and shall have the right to reduce or terminate the Services under this Agreement immediately upon giving the Contractor notice of such reduction or termination. The State shall not be required to transfer funds from any other account or source to the Account identified in block 1.6 in the event funds in that Account are reduced or unavailable.

5.2 The payment by the State of the contract price shall be the only and the complete reimbursement to the Contractor for all expenses, of whatever nature incurred by the Contractor in the performance hereof, and shall be the only and the complete compensation to the Contractor for the Services. The State shall have no liability to the Contractor other than the contract price.

5.3 The State reserves the right to offset from any amounts otherwise payable to the Contractor under this Agreement those liquidated amounts required or permitted by N.H. RSA 80:7 through RSA 80:7-c or any other provision of law.

5.4 Notwithstanding any provision in this Agreement to the contrary, and notwithstanding unexpected circumstances, in no event shall the total of all payments authorized, or actually made hereunder, exceed the Price Limitation set forth in block 1.8.

6. COMPLIANCE BY CONTRACTOR WITH LAWS AND REGULATIONS/ EQUAL EMPLOYMENT OPPORTUNITY.

6.1 In connection with the performance of the Services, the Contractor shall comply with all applicable statutes, laws, regulations, and orders of federal, state, county or municipal authorities which impose any obligation or duty upon the Contractor, including, but not limited to, civil rights and equal employment opportunity laws. 8.1.3 failure to perform any other covenant, term or condition of this Agreement.

8.2.2 give the Contractor a written notice specifying the Event of Default and suspending all payments to be made under this Agreement and ordering that the portion of the contract price which would otherwise accrue to the Contractor during the period from the date of such notice until such time as the State determines that the Contractor has cured the Event of Default shall never be paid to the Contractor;

No express failure to enforce any Event of Default shall be deemed a waiver of the right of the State to enforce each and all of the provisions hereof upon any further or other Event of Default on the part of the Contractor.

9. TERMINATION.

9.1 Notwithstanding paragraph 8, the State may, at its sole discretion, terminate the Agreement for any reason, in whole or in part, by thirty (30) days written notice to the Contractor that the State is exercising its option to terminate the Agreement.

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

j. Within ten (10) business days of receiving a written request from Covered Entity for a request for an accounting of disclosures of PHI, Business Associate shall make available to Covered Entity such information as Covered Entity may require to fulfill its obligations to provide an accounting of disclosures with respect to PHI in accordance with 45 CFR Section 164.528.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors
Manchester Mental Health
Foundation, Inc. and Affiliates

Opinion

We have audited the consolidated financial statements of Manchester Mental Health Foundation, Inc. and Affiliates (the Organization), which comprise the consolidated statements of financial position as of June 30, 2023 and 2022, the related consolidated statements of activities and changes in net assets, functional expenses, and cash flows for the years then ended, and the related notes to the consolidated financial statements (collectively, the financial statements).

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Organization as of June 30, 2023 and 2022, and the results of their operations, changes in net assets and cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Organization and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Organization's ability to continue as a going concern for a period of one year after the date that the financial statements are issued or available to be issued.

To the Board of Directors
Manchester Mental Health
Foundation, Inc. and Affiliates

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Organization's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

1. Summary of Significant Accounting Policies

Nature of Operations

The Mental Health Center of Greater Manchester, Inc. (the Center) is a not-for-profit corporation organized under New Hampshire law to provide services in the areas of mental health, and related nonmental health programs. The Center is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code. Amoskeag Residences, Inc. (Amoskeag), a not-for-profit corporation formed through the Center, was organized to acquire real property in Manchester, New Hampshire and to operate thereon a project group home under a Section 202 direct loan of the National Housing Act. The project is regulated by the United States Department of Housing and Urban Development (HUD), and serves on average 12 chronically mentally ill individuals in New Hampshire. Amoskeag received funding under Section 8 of the National Housing Act and is subject to a housing assistance payments agreement.

In July 1990, the Center was reorganized and Manchester Mental Health Foundation, Inc. (the Foundation) became the sole corporate member of the Center. The Foundation is also a 501(c)(3). The Foundation's purpose is to raise and invest funds for the benefit of the Center.

In July 2017, the Center acquired commercial real estate in Manchester, New Hampshire that it previously leased a portion of. As of June 30, 2023, the Center occupies approximately 40,000 square feet of the approximately 65,000 square feet in the building (the Center occupied 44,000 square feet as of June 30, 2022). The remaining square footage is leased to unrelated third parties.

Basis of Presentation and Principles of Consolidation

The consolidated financial statements include the accounts of the Foundation, the Center and Amoskeag, collectively referred to as the Organization. All inter-company transactions and accounts have been eliminated in consolidation.

Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

1. **Summary of Significant Accounting Policies (Continued)**

Income Taxes

The Organization consists of not-for-profit entities as described in Section 501(c)(3) of the Internal Revenue Code, and is exempt from federal income taxes on related income pursuant to Section 501(a) of the Code. The Organization believes that it has appropriate support for the income tax positions taken and to be taken, and that its accruals for tax liabilities are adequate for all open tax years based on an assessment of many factors including experience and interpretations of tax laws applied to the facts of each matter. Management evaluated the Organization's tax positions and concluded the Organization has maintained its tax-exempt status, does not have any significant unrelated business income, has taken no significant uncertain tax positions that require disclosure in the accompanying consolidated financial statements and has no material liability for unrecognized tax benefits.

Cash, Cash Equivalents, Restricted Cash and Certificates of Deposit

The Organization considers cash in bank and all other highly liquid investments with an original maturity of three months or less to be cash and cash equivalents. The Organization maintains its cash in bank deposit accounts which, at times, may exceed federally insured limits. The Organization has not experienced any losses in such accounts and believes it is not exposed to any significant risk on these accounts.

Restricted cash consists of cash received by the Organization for resident deposits and replacement reserves as required by HUD. The cash received is recorded as restricted cash and a corresponding payable or deposit liability is recorded in the accompanying consolidated statements of financial position. The Organization maintains its restricted cash in bank deposit accounts which, at times, may exceed federally insured limits. The Organization has not experienced losses in such accounts and believes it is not exposed to any significant risks on these accounts.

Certificates of deposit that are reported as current have a maturity of twelve months or less, while those reported as long-term have a maturity of over twelve months.

In accordance with Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) No. 2016-18, *Statement of Cash Flows (Topic 230): Restricted Cash (a consensus of the FASB Emerging Issues Task Force)*, cash and restricted cash are presented together in the consolidated statement of cash flows.

The following table provides a reconciliation of cash and cash equivalents and restricted cash reported within the consolidated statements of financial position at that sum to the total of the same such amounts shown in the consolidated statements of cash flows:

	2023	2022
Cash and cash equivalents	$ 3,632,213	$10,840,998
Restricted cash	132,313	137,480
Total cash, cash equivalents and restricted cash	$ 3,764,526	$10,978,478

Patient Accounts Receivable

Patient accounts receivable for which the unconditional right to payment exists are receivables if the right to consideration is unconditional and only the passage of time is required before payment of that consideration is due. The estimated uncollectible amounts are generally considered implicit price concessions that are a direct reduction to accounts receivable rather than an allowance for doubtful accounts. Implicit price concessions relate primarily to amounts due directly from patients. Estimated implicit price concessions are recorded for all uninsured accounts, regardless of the aging of those accounts. Accounts are written off when all reasonable internal and external collection efforts have been performed. The estimates for implicit price concessions are based upon management's assessment of historical writeoffs and expected net collections, business and economic conditions, and other collection indicators. Management relies on the results of detailed reviews of historical write-offs and collections as a primary source of information in estimating the collectability of its accounts receivable. Management believes its regular updates to the implicit price concession amounts provide reasonable estimates of revenues and valuations of accounts receivable. These routine, regular changes in estimates have not resulted in material adjustments to the valuations of accounts receivable or period-to-period comparisons of operations.

Other Accounts Receivable

Other accounts receivable consists of amounts due from various grants and contracts entered into with the State of New Hampshire and federal government related to providing mental health services, amounts due from third-party managed care organizations and amounts due for services provided to other not-for-profit organizations. The amounts due from not-for-profit organizations and state and federal grants billed to the respective agencies are expected to be fully collectible. Accordingly, no allowance for doubtful amounts has been established. Amounts due from third-party managed care organizations represent management's best estimate of variable consideration expected to be received, and has been constrained to ensure a significant reversal of revenue will not occur.

Property and Equipment and Construction Commitments

Property and equipment are carried at cost if purchased or at estimated fair value at date of donation in the case of gifts, less accumulated depreciation. The cost of property, equipment and improvements is depreciated over the estimated useful life of the assets using the straight line method. Assets deemed to have a useful life greater than three years are deemed capital in nature. Estimated useful lives range from 3 to 40 years. Maintenance and repairs are charged to expense as incurred. At June 30, 2023 and 2022, the Organization has outstanding construction commitments totaling approximately $825,473 and $3,226,495, respectively, to expand an existing facility. Construction of this facility commenced in June 2022 and was completed in August 2023. A construction loan has been entered into to finance this project. See note 9.

1. **Summary of Significant Accounting Policies (Continued)**

Debt Issuance Costs

Costs associated with the issuance of long-term debt are initially capitalized and amortized to interest expense over the respective life of the related obligation. The unamortized portion of debt issuance costs is presented as a component of long-term debt.

Vacation Pay and Fringe Benefits

Vacation pay is accrued and charged to the programs when earned by the employee. Fringe benefits are allocated to the appropriate program expense based on the percentage of actual time spent on the programs.

Program Service Fees

Program service fee revenue is reported at the amount that reflects the consideration to which the Organization expects to be entitled in exchange for providing patient care. These revenues generally relate to contracts with patients in which the Organization's performance obligations are to provide health care services to patients. Revenues are recorded during the period obligations to provide health care services are satisfied. Performance obligations for services are generally satisfied over a period of less than one day.

The contractual relationships with patients, in most cases, also involve a third-party payor (Medicaid, Medicare, managed care organizations and commercial insurance companies) and the transaction prices for the services provided are dependent upon the terms provided by Medicaid, Medicare, managed care organizations and commercial insurance companies, the third-party payors. The payment arrangements with third-party payors for the services provided to related patients typically specify payments at amounts less than standard charges. The Organization receives reimbursement from Medicare, Medicaid and insurance companies at defined rates for services to clients covered by such third-party payor programs. Management continually reviews the revenue recognition process to consider and incorporate updates to laws and regulations and the frequent changes in managed care contractual terms resulting from contract renegotiations and renewals.

Settlements with third-party payors are considered variable consideration and are included in the determination of the estimated transaction price for providing patient care. These settlements are estimated based on the terms of the payment agreement with the payor, correspondence from the payor and the Organization's historical settlement activity, including an assessment to ensure that it is probable that a significant reversal in the amount of cumulative revenue recognized will not occur when the uncertainty associated the adjustment is subsequently resolved. Estimated settlements are adjusted in future periods as adjustments become known.

1. **Summary of Significant Accounting Policies (Continued)**

Rental Income

Rental income from operating leases leased by third parties is recognized over time on a straight-line basis in nonoperating revenue (expenses) over the noncancelable term of the related leases. Recognition of rental income commences when the tenant takes control of the space. Judgment is required to determine when a tenant takes control of the space, and accordingly, when to commence the recognition of rent. The Organization's leases generally provide for minimum rent and contain renewal options.

State and Federal Grant Revenue and Expenditures

The Center receives a number of grants from, and has entered into various contracts with, the State of New Hampshire and Federal government related to providing mental health services. Revenues and expenses under state and federal grant programs are recognized over time as the related expenditure is incurred. Grant monies that are advanced to the Organization prior to fiscal year end are recorded as deferred revenue until such time funds are expended.

Other Income

Other income predominately pertains to the portion of Medicaid capitated payments that exceed the standard fee for service reimbursement (based on a Department of Health and Human Services rate schedule) that the Center receives. Capitation is a payment methodology under which a provider receives a fixed amount per person to provide health care services to a specified population of patients during a specified time period. The Center is paid the fixed amount per person regardless of whether that person receives services or not. Other components of other income include meaningful use revenues, Medicaid directed payments, and other miscellaneous sources of income that are recognized when earned or upon receipt if the ultimate payment to be received is not estimable.

Performance Indicator

Excess of revenues over expenses is comprised of operating revenues and expenses and nonoperating revenues and expenses. For purposes of display, transactions deemed by management to be ongoing, major or central to the provision of health care services are reported as operating revenue and expenses. Peripheral or incidental transactions are reported as nonoperating revenues or expenses, which include contributions, rental activities, net investment return, other nonoperating expenses, and contributions to charitable organizations.

Net Assets With Donor Restrictions

Gifts are reported as restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires (when a stipulated time restriction ends or purpose restriction is accomplished), restricted net assets are reclassified as net assets without donor restrictions and reported in the consolidated statement of operations as either net assets released from restrictions for operations (for noncapital-related items) or net assets released from restrictions for property, plant and equipment (for capital-related items). Some restricted net assets have been restricted by donors to be maintained by the Organization in perpetuity.

1. **Summary of Significant Accounting Policies (Continued)**

Except for contributions related to capital purchases, donor-restricted contributions whose restrictions are met within the same year as received are reported as contributions without donor restrictions in the accompanying consolidated financial statements.

Assets Whose Use is Limited or Restricted

Assets whose use is limited or restricted consist of donor-restricted funds.

Investments and Investment Income

Investments, including assets whose use is limited or restricted, are measured at fair value in the consolidated statements of financial position. Interest income on operating cash is reported within operating revenues. Net investment return on investments and assets whose use is limited or restricted (including realized and unrealized gains and losses on investments, investment fees and interest and dividends) is reported as nonoperating revenues and expenses. The Organization has elected to reflect changes in the fair value of investments and assets whose use is limited or restricted, including both increases and decreases in value whether realized or unrealized in nonoperating revenues or expenses.

Investment Return Objectives, Risk Parameters and Strategies

The Foundation has board designated and endowment assets. The Foundation has adopted investment policies, approved by the Board of Directors, for endowment assets that attempt to maintain the purchasing power of those endowment assets over the long term. Accordingly, the investment process seeks to achieve an after-cost total real rate of return, including investment income as well as capital appreciation, which exceeds the annual distribution with acceptable levels of risk. Endowment assets are invested in a well-diversified asset mix, which includes equity and debt securities, that is intended to result in a consistent inflation-protected rate of return that has sufficient liquidity to make an annual distribution of accumulated interest and dividend income to be reinvested or used as needed, while growing the funds if possible. Actual returns in any given year may vary from this amount. Investment risk is measured in terms of the total endowment fund; investment assets and allocation between asset classes and strategies are managed to reduce the exposure of the fund to unacceptable levels of risk.

Spending Policy for Appropriation of Assets for Expenditure

The Board of Directors of the Foundation determines the method to be used to appropriate endowment funds for expenditure. As a guideline, approximately 5% of the total value of the three year quarterly average of available funds is intended to be distributed annually. The corresponding calculated spending allocations are distributed in an annual installment from the current net total or accumulated net total investment returns for individual endowment funds. In establishing this policy, the Board of Directors considered the expected long-term rate of return on its endowment.

Retirement Benefits

The Center maintains a tax-sheltered annuity benefit program, which covers substantially all employees. Eligible employees may contribute up to maximum limitations (set annually by the IRS) of their annual salary. After one year's employment, the employee's contributions are matched by the Center up to 5% of their annual salary. The combined amount of employee and employer contributions is subject by law to yearly maximum amounts. The employer match was $748,014 and $754,330 for the years ended June 30, 2023 and 2022, respectively.

Extended Illness Leave Plan

The Center sponsors an unfunded extended illness leave plan for employees. Employees with at least 10 years of service are eligible to receive a lump sum payout of up to 100% of any accrued unused extended illness leave, based upon years of service at retirement. The Center incurred extended illness leave expenses totaling $53,370 and $64,478 during the years ended June 30, 2023 and 2022, respectively. The Center expects to make employer contributions totaling $34,500 for the fiscal year ending June 30, 2024. Liabilities recognized are based on a third party actuarial analysis.

The following table sets forth the change in the Center's extended illness leave plan liability during the years ended June 30:

	2023	2022
Statement of financial position liability at beginning of year	$(446,234)	$(489,022)
Net actuarial gain arising during the year	17,521	17,759
Increase from current year service and interest cost	(60,559)	(64,478)
Contribution made during the year	9,466	89,507
Statement of financial position liability at end of year	$(479,806)	$(446,234)

Postretirement Health Benefit Plan

The Center sponsors an unfunded defined benefit postretirement plan covering certain of its employees (employed prior to January 1, 1997). In 2007, all eligible active employees were offered and accepted a buyout of the program leaving the plan to provide medical benefits to eligible retired employees. As a result, no additional employees will be enrolled in the plan. Only current retirees participate in the plan.

During 1997, the Center amended the plan to freeze monthly premiums at their December 31, 1996 level and to no longer provide the postretirement benefit to employees hired after December 31, 1996. The Center recognized a net postretirement health benefit totaling $633 and $833 during the years ended June 30, 2023 and 2022, respectively. The Center expects to make employer contributions totaling $10,400 for the fiscal year ending June 30, 2024.

1. **Summary of Significant Accounting Policies (Continued)**

The following table sets forth the change in the Center's postretirement health benefit plan liability, as calculated by a third party actuary during the years ended June 30:

	2023	2022
Statement of financial position liability at beginning of year	$ (63,525)	$ (58,514)
Net actuarial gain (loss) arising during the year	740	(17,706)
Increase from current year service and interest cost	(2,584)	(1,531)
Contributions made during the year	14,226	14,226
Statement of financial position liability at end of year	$ (51,143)	$ (63,525)

Malpractice Loss Contingencies

The Center has an occurrence basis policy for its malpractice insurance coverage. An occurrence basis policy provides specific coverage for claims resulting from incidents that occur during the policy term, regardless of when the claims are reported to the insurance carrier. The possibility exists, as a normal risk of doing business, that malpractice claims in excess of insurance coverage may be asserted against the Center. In the event a loss contingency should occur, the Center would give it appropriate recognition in its consolidated financial statements.

Functional Expense Allocation

The costs of providing program services and other activities have been summarized on a functional basis in the consolidating statement of functional expenses. Accordingly, costs have been allocated among program services and supporting services benefitted.

Leases

In February 2016, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2016-02, *Leases (Topic 842)*. Under ASU 2016-02, at the commencement of a long-term lease, lessees are required to recognize a liability equivalent to the discounted payments due under the lease agreement, as well as an offsetting right-of-use asset. The guidance is effective for the Organization on July 1, 2022. Subsequently, the FASB issued ASU 2018-11, *Leases (Topic 842): Targeted Improvements*, which is intended to reduce costs and ease implementation of the leases standard for financial statement preparers. Under these standards, lessees (for capital and operating leases) may initially apply the new leases standard at the adoption date and recognize a cumulative-effect adjustment at the opening balance of shareholders' equity while continuing to present comparative periods in accordance with current U.S. GAAP in Topic 841, *Leases*. The Organization adopted these standards on July 1, 2022. See note 10 for a discussion of the Organization's adoption of these standards and its impact on the financial statements and related disclosures.

1. Summary of Significant Accounting Policies (Continued)

At inception of a contract, the Organization determines if a contract meets the definition of a lease. A lease is a contract, or part of a contract, that conveys the right to control the use of identified property, plant, or equipment (an identified asset) for a period of time in exchange for consideration. The Organization determines if the contract conveys the right to control the use of an identified asset for a period of time. The Organization assesses throughout the period of use whether the Organization has both of the following: (1) the right to obtain substantially all of the economic benefits from use of the identified asset, and (2) the right to direct the use of the identified asset. This determination is reassessed if the terms of the contract are changed. Leases are classified as operating or finance leases based on the terms of the lease agreement and certain characteristics of the identified asset. Right-of-use assets and lease liabilities are recognized at lease commencement date based on the present value of the minimum future lease payments.

The Organization applies ASC 842, *Leases*, to account for its operating leases. Operating lease liabilities are recognized at the lease commencement date based on the present value of lease payments over the lease term. The Organization uses the risk-free rate based on the information available at the lease commencement date determining the present value of future payments because the implicit rate of the lease is generally not known. The expected lease term for leases commencing after the adoption of ASC 842 includes noncancelable lease periods and, when applicable, periods covered by an option to extend the lease if the Organization is reasonably certain to exercise that option, as well as periods covered by an option to terminate the lease if the Organization is reasonably certain not to exercise that option. Operating lease right-of-use (ROU) assets related to the operating lease liabilities are measured at lease inception based on the initial measurement of lease liability, plus any prepaid lease payments and less any lease incentives. The ROU assets are amortized as operating lease expense generally on a straight-line basis over the lease term, and both the lease amortization and imputed interest are classified as operating expenses.

Subsequent Events

Events occurring after the consolidated statement of financial position date are evaluated by management to determine whether such events should be recognized or disclosed in the consolidated financial statements. Management has evaluated subsequent events through January 26, 2024 which is the date the consolidated financial statements were available to be issued.

2. Program Service Fees From Third-Party Payors

The Center has agreements with third-party payors that provide payments to the Center at established rates. These payments include:

New Hampshire and Managed Medicaid - The Center is reimbursed for services from the State of New Hampshire and Managed Care Organizations for services rendered to Medicaid clients on the basis of fixed fee for service and case rates.

2. Program Service Fees From Third-Party Payors (Continued)

Approximately 79% and 78% of program service fee revenue is from participation in the state and managed care organization sponsored Medicaid programs for the years ended June 30, 2023 and 2022, respectively. Laws and regulations governing the Medicaid programs are complex and subject to interpretation and change. As a result, it is reasonably possible that recorded estimates could change materially in the near term.

5. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. In determining fair value, the use of various valuation approaches, including market, income and cost approaches, is permitted.

A fair value hierarchy has been established based on whether the inputs to valuation techniques are observable or unobservable. Observable inputs reflect market data obtained from sources independent of the reporting entity and unobservable inputs reflect the entity's own assumptions about how market participants would value an asset or liability based on the best information available. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. The standard describes a fair value hierarchy based on three levels of inputs, of which the first two are considered observable and the last unobservable, that may be used to measure fair value.

The following describes the hierarchy of inputs used to measure fair value and the primary valuation methodologies used by the Organization for financial instruments measured at fair value on a recurring basis. The three levels of inputs are as follows:

Level 1 - Observable inputs such as quoted prices in active markets;

Level 2 - Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and

Level 3 - Unobservable inputs in which there is little or no market data.

Assets and liabilities measured at fair value are based on one or more of three valuation techniques. The three valuation techniques are as follows:

- *Market approach* – Prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities;
- *Cost approach* – Amount that would be required to replace the service capacity of an asset (i.e., replacement cost); and
- *Income approach* – Techniques to convert future amounts to a single present amount based on market expectations (including present value techniques).

In determining the appropriate levels, the Organization performs a detailed analysis of the assets and liabilities. There have been no changes in the methodologies used at June 30, 2023 or 2022.

The following is a description of the valuation methodologies used:

5. Fair Value Measurements (Continued)

Certificates of Deposit and Fixed Income Securities

The fair value is determined by using broker or dealer quotations, external pricing providers, or alternative pricing sources with reasonable levels of price transparency, which are primarily classified as Level 1 within the fair value hierarchy.

Mutual Funds

Mutual funds are valued based on the closing net asset value (NAV) of the fund as reported in the active market in which the security is traded, which generally results in classification as Level 1 within the fair value hierarchy.

Alternative Investments Measured at NAV

The Organization invests in certain alternative investments that may include limited partnership interests in investment funds, which, in turn, invest in diversified portfolios predominantly comprised of equity and fixed income securities, as well as options, futures contracts, and some other less liquid investments. Management has approved procedures pursuant to the methods in which the Organization values these investments at fair value, which ordinarily will be the amount equal to the pro-rata interest in the net assets of the limited partnership, as such value is supplied by, or on behalf of, each investment from time to time, usually monthly and/or quarterly by the investment manager. These investments are classified at net asset value.

Organization management is responsible for the fair value measurements of alternative investments reported in the consolidated financial statements. Such amounts are generally determined using audited financial statements of the funds and/or recently settled transactions. Because of inherent uncertainty of valuation of certain alternative investments, the estimate of the fund manager or general partner may differ from actual values, and differences could be significant. Management believes that reported fair values of its alternative investments at the consolidated statement of financial position dates are reasonable.

5. **Fair Value Measurements (Continued)**

The following table presents by level, within the fair value hierarchy, the Foundation investments and assets limited as to use, as of June 30, 2023 and 2022. As required by professional accounting standards, investment assets are classified in their entirety based upon the lowest level of input that is significant to the fair value measurement.

The line is secured by all business assets of the Center and was not utilized as of June 30, 2023. These funds are available with interest charged at TD Bank, N.A. base rate (3.25% as of June 30, 2023). The line of credit is due on demand and is set to expire on April 30, 2024.

9. Long-Term Debt

On April 20, 2020, the Organization entered into a promissory note for an unsecured loan in the amount of $4,390,000 through the Paycheck Protection Program (PPP) established by the CARES Act and administered by the U.S. Small Business Administration (SBA). The PPP provides loans to qualifying organizations for amounts up to 2.5 times the average monthly payroll expenses of the qualifying organization. The loan and accrued interest had original terms that were forgivable as long as the borrower used the loan proceeds for eligible purposes, including payroll, benefits, rent and utilities, and maintains its payroll levels for an eight-week period or a 24-week covered period, as defined. The amount of loan forgiveness would be reduced if the borrower terminated employees or reduced salaries during the covered period. Certain modifications to PPP loan terms were signed into law in June 2020 and October 2020 that changed the forgiveness, covered period, deferral period and forgiveness periods. The PPP loan was made for the purpose of securing funding for salaries and wages of employees that may have otherwise been displaced by the outbreak of COVID-19 and the resulting detrimental impact on the Organization's operations. The loan bore interest at 1.0%, with principal and interest payments deferred until the date the SBA remits forgiveness to the lender or ten months following the end of the covered period. After that, the loan and interest would be paid back over a period of two years, if the loan is not forgiven under the terms of the PPP.

On August 2, 2021, the Organization received approval for full forgiveness from the SBA. Upon receiving full forgiveness during the year ended June 30, 2022, the Organization recorded a gain on extinguishment of long-term debt for the full $4,390,000 and forgiven accrued interest of $52,424 for a total amount recognized of $4,442,424.

On May 25, 2022, the Organization entered into a promissory note with the New Hampshire Housing Finance Authority (NHHFA). NHHFA provides for construction advances and will provide up to $1,500,000 interest free for the use of construction and renovations of 323 Manchester Street in the City of Manchester, New Hampshire. If the Organization remains compliant with the note's requirements, the note will be extinguished in full after a term of thirty years. As of June 30, 2023, the full $1,500,000 of the loan has been drawn against incurred construction costs to date.

9. **Long-Term Debt (Continued)**

Long-term debt consisted of the following at June 30:

	2023	2022
Bond payable to a bank, due July 2027, with interest only payments at 3.06% through February 2026. Fixed principal payments commence March 2026. Secured by specific real estate	$5,760,000	$5,760,000

Less unamortized debt issuance costs	(53,176)	(53,176)
	$7,692,614	$6,457,883

In connection with the line of credit, note payable and bond payable agreements, the Center is required to comply with certain restrictive financial covenants including, but not limited to, debt service coverage and days cash on hand ratios. At June 30, 2023, the Organization was in compliance with these restrictive covenants.

Aggregate principal payments on long-term debt due within the next five years and thereafter are as follows:

Year ending June 30:	
2024	$ 248,019
2025	247,362
2026	314,486
2027	292,857

	$7,993,809

Interest expense for the years ending June 30, 2023 and 2022 was $227,163 and $253,531, respectively. In accordance with ASU 2015-03, the amortization of debt issuance costs of $10,461 is reflected in interest expense at June 30, 2022. The remaining balance of $227,163 and $243,070, respectively, is interest related to the above debt for the years ended June 30, 2023 and 2022, respectively.

10. Leases

Adoption of ASC Topic 842, Leases (ASC 842)

ASC 842 became effective for the Organization on July 1, 2022 and was adopted using the modified retrospective method for all leases that had commenced as of the effective date, along with certain available practical expedients. The Organization elected to recognize any effects of applying the new standards as a cumulative-effect adjustment to the opening balance of retained earnings in the period of adoption, which there were none. In addition, the Organization elected to adopt the package of practical expedients permitted under the transition guidance within the new standard. The practical expedient package applied to leases that commenced prior to the effective date of the new standard and permits a reporting entity not to: 1) reassess whether any expired or existing contracts are or contain leases, ii) reassess the historical lease classification for any expired or existing leases, and iii) reassess initial direct costs for any existing leases. The reporting results for 2023 reflect the application of ASC 842 guidance while the historical results for 2022 were prepared under the guidance of ASC 842. The adoption of the new standard did not have a significant impact upon the Organization's statements of operations and cash flows. The adoption of the new standard resulted in the following impact to the statements of financial position: the recording of right-of-use assets and corresponding lease liabilities pertaining to the Organization's operating leases on the statements of financial position.

Operating Leases

On July 1, 2022, the Organization recorded new operating lease right-of-use assets and operating lease liabilities of $51,126 for its leases. The operating leases are included in the operating lease right-of-use assets, current portion of operating lease liabilities, and operating lease liabilities on the accompanying statements of financial position as of June 30, 2023. EXPLANATION

This request is **Sole Source** because the Contractors are the only authorized contractors able to provide the necessary services. The Department contracts for mental health services through these ten (10) Community Mental Health Centers, which are designated by the Department to service towns and cities within specified geographic regions, as outlined in the NH Revised Statutes Annotated (RSA) 135-C, New Hampshire Mental Health Services System, and NH Administrative Rule He-M 403, Approval and Operation of Community Mental Health Programs.

The purpose of this request is to provide community mental health services for individuals in New Hampshire. Community Mental Health Centers provide community-based mental health services to adults, children, and families to build resiliency, promote recovery, and reduce inpatient hospital utilizations, and improve community tenure. These contracts provide both Federal grant funds and General Funds that enable delivery of services not otherwise covered by Medicaid. For example, technology, training, and system upgrades, delivery of some Assertive Community Treatment services, and care coordination with other systems such as the Division of Children, Youth, and Families, Department of Education, and Division of Long Term Supports and Services. The majority of the General Funds are allocated to ensure that individuals who are uninsured have full access to NH Rapid Response crisis services.

Approximately 20,700 individuals will be served annually.

The populations served include children with Serious Emotional Disturbances and adults with Serious Mental Illness/Serious and Persistent Mental Illness, including individuals with Mental Illness and co-occurring substance use disorders per NH Administrative Rule He-M 401 Eligibility Determination and Individuals Service Planning.

The Contractors will provide crisis services, individual and group psychotherapy, targeted case management, medication services, Functional Support Services, Illness Management-and Recovery, supported employment, Assertive Community Treatment, Wraparound services for children, community residential services, and acute care services to individuals experiencing psychiatric emergencies while awaiting admission to a designated receiving facility. All contracts include provisions for Mental Health Services required by NH RSA 135-C and with State Regulations applicable to the mental health system as outlined in He-M 400, as well as in compliance with the Community Mental Health Agreement (CMHA).

The Department will monitor services by:

- Conducting performance reviews and utilization reviews as necessary and appropriate based on applicable licensing, certifications and service provisions.
- Conducting quarterly meetings to review submitted quarterly data and reports to identify ongoing programmatic improvements.
- Reviewing monthly financial statements provided by the Contractors for ongoing evaluation of program fiscal integrity.

As referenced in Exhibit A, Revisions to Standard Agreement Provisions Section 1, Revisions to Form P-37, General Provisions, Subsection 1.2 of the attached agreements, the parties have the option to extend the agreements for up to four (4) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties, and Governor and Council approval.

Should the Governor and Council not authorize this request, approximately 12,300 adults, and 8,400 children in the state will not have access to critical community mental health services as required by NH RSA 135-C:13. As a result, these individuals may experience an increase in symptoms causing them to seek more costly services at hospital emergency departments due to risk of harm to themselves or others and may have increased contact with law enforcement, correctional programs, or primary care physicians, none of which have the necessary services or supports available to provide necessary assistance. Lack of these services may also increase the likelihood of inpatient hospitalizations and death by suicide.

Source of Federal Funds: Assistance Listing Number #93.243, FAIN # H79SM080245; Assistance Listing Number #93.958, FAIN # B09SM087375; Assistance Listing Number #93.043, FAIN #2201NHOAPH; Assistance Listing Number #93.959, FAIN # TI085821; Assistance Listing Number #93.829, FAIN # H79SM087622.

In the event that the Federal Funds become no longer available, additional General Funds will not be requested to support this program.

Respectfully submitted,

Lori A. Weaver
Interim Commissioner

CERTIFICATION REGARDING DEBARMENT, SUSPENSION AND OTHER RESPONSIBILITY MATTERS

The Contractor identified in Section 1.3 of the General Provisions agrees to comply with the provisions of Executive Office of the President, Executive Order 12549 and 45 CFR Part 76 regarding Debarment, Suspension, and Other Responsibility Matters, and further agrees to have the Contractor's representative, as identified in Sections 1.11 and 1.12 of the General Provisions execute the following Certification:

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.

6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.

7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

PRIMARY COVERED TRANSACTIONS

11. The prospective primary participant certifies to the best of its knowledge and belief, that it and its principals:
    - 11.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;

    - 11.4. have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.

12. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal (contract).

LOWER TIER COVERED TRANSACTIONS

13. By signing and submitting this lower tier proposal (contract), the prospective lower tier participant, as defined in 45 CFR Part 76, certifies to the best of its knowledge and belief that it and its principals:

pursuant to this Agreement, with rights of enforcement and indemnification from such business associates who shall be governed by standard Paragraph #13 of the standard contract provisions (P-37) of this Agreement for the purpose of use and disclosure of protected health information.

f. Within five (5) business days of receipt of a written request from Covered Entity, Business Associate shall make available during normal business hours at its offices all records, books, agreements, policies and procedures relating to the use and disclosure of PHI to the Covered Entity, for purposes of enabling Covered Entity to determine Business Associate's compliance with the terms of the Agreement.

j. Within ten (10) business days of receiving a written request from Covered Entity for a request for an accounting of disclosures of PHI, Business Associate shall make available to Covered Entity such information as Covered Entity may require to fulfill its obligations to provide an accounting of disclosures with respect to PHI in accordance with 45 CFR Section 164.528.

k. In the event any individual requests access to, amendment of, or accounting of PHI directly from the Business Associate, the Business Associate shall within two (2) business days forward such request to Covered Entity. Covered Entity shall have the responsibility of responding to forwarded requests. However, if forwarding the individual's request to Covered Entity would cause Covered Entity or the Business Associate to violate HIPAA and the Privacy and Security Rule, the Business Associate shall instead respond to the individual's request as required by such law and notify Covered Entity of such response as soon as practicable.

l. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity, all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. If return or destruction is not feasible, or the disposition of the PHI has been otherwise agreed to in the Agreement, Business Associate shall continue to extend the protections of the Agreement, to such PHI and limit further uses and disclosures of such PHI to those purposes that make the return or destruction infeasible, for so long as Business

Associate maintains such PHI. If Covered Entity, in its sole discretion, requires that the Business Associate destroy any or all PHI, the Business Associate shall certify to Covered Entity that the PHI has been destroyed.

(4) Obligations of Covered Entity

a. Covered Entity shall notify Business Associate of any changes or limitation(s) in its Notice of Privacy Practices provided to individuals in accordance with 45 CFR Section 164.520, to the extent that such change or limitation may affect Business Associate's use or disclosure of PHI.

b. Covered Entity shall promptly notify Business Associate of any changes in, or revocation of permission provided to Covered Entity by individuals whose PHI may be used or disclosed by Business Associate under this Agreement, pursuant to 45 CFR Section 164.506 or 45 CFR Section 164.508.

c. Covered entity shall promptly notify Business Associate of any restrictions on the use or disclosure of PHI that Covered Entity has agreed to in accordance with 45 CFR 164.522, to the extent that such restriction may affect Business Associate's use or disclosure of PHI.

(5) Termination for Cause

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.

b. Amendment. Covered Entity and Business Associate agree to take such action as is necessary to amend the Agreement, from time to time as is necessary for Covered Entity to comply with the changes in the requirements of HIPAA, the Privacy and Security Rule, and applicable federal and state law.

c. Data Ownership. The Business Associate acknowledges that it has no ownership rights with respect to the PHI provided by or created on behalf of Covered Entity.

d. Interpretation. The parties agree that any ambiguity in the Agreement shall be resolved to permit Covered Entity to comply with HIPAA, the Privacy and Security Rule.

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of
Seacoast Mental Health Center, Inc.
Portsmouth, New Hampshire

Opinion

We have audited the accompanying financial statements of Seacoast Mental Health Center, Inc. (a nonprofit organization) which comprise the statement of financial position as of June 30, 2024, and the related statements of activities and changes in net assets and cash flows for the year then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Seacoast Mental Health Center, Inc. as of June 30, 2024, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Seacoast Mental Health Center, Inc. and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

Seacoast Mental Health Center, Inc. (the Center) is a not-for-profit corporation, organized under New Hampshire law to provide services in the areas of mental health, and related non-mental health programs; it is exempt from income taxes under Section 501 (c)(3) of the Internal Revenue Code. In addition, the organization qualifies for the charitable contribution deduction under Section 170 (b)(1)(a) and has been classified as an organization that is not a private foundation under Section 509(a)(2).

Basis of Presentation

The financial statements of the Center have been prepared on the accrual basis in accordance with accounting principles generally accepted in the United States of America. The financial statements are presented in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 958 dated August 2016, and the provisions of the American Institute of Certified Public Accountants (AICPA) "Audit and Accounting Guide for Not-for-Profit Organizations" (the "Guide"). (ASC) 958-205 was effective July 1, 2018.

Under the provisions of the Guide, net assets and revenues and gains and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, the net assets of the Center and changes therein are classified as follows:

Net assets without donor restrictions: Net assets that are not subject to donor- imposed restrictions and may be expended for any purpose in performing the primary objectives of the Center. The Center's board may designate assets without restrictions for specific operational purposes from time to time.

Net assets with donor restrictions: Net assets subject to stipulations imposed by donors and grantors. Some donor restrictions are temporary in nature; those restrictions will be met by actions of the Non-Profit Organization or by the passage of time. Other donor restrictions are perpetual in nature, whereby the donor has stipulated the funds be maintained in perpetuity.

Basis of Accounting

Income and expenses are reported on the accrual basis, which means that income is recognized as it is earned, and expenses are recognized as they are incurred whether or not cash is received or paid out at that time.

Income Taxes

Consideration has been given to uncertain tax positions. The federal income tax returns for the years ended after June 30, 2021, remain open for potential examination by major tax jurisdictions, generally for three years after they were filed.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Related Organizations
The Center leases property and equipment from Seacoast Mental Health Center Resource Group, Inc. - a related non-profit corporation formed in 1985 for the benefit of Seacoast Mental Health Center, Inc. Seacoast Mental Health Center Resource Group was formed to support the operations of Seacoast Mental Health Center, Inc. by managing and renting property and raising other funds on its behalf.

Depreciation
The cost of property, equipment and leasehold improvements is depreciated over the estimated useful life of the assets using the straight line method. Assets deemed to have a useful life greater than three years are deemed capital in nature. Estimated useful lives range from 3 to 30 years.

State Grants
The Center receives a number of grants from and has entered into various contracts with the State of New Hampshire related to the delivery of mental health services.

Vacation Pay and Fringe Benefits
Vacation pay is accrued and charged to the programs when earned by the employee. Fringe benefits are allocated to the appropriate program expense based on the percentage of actual time spent on the programs.

Cash and Cash Equivalents
For purposes of the statement of cash flows, the Center considers all short-term debt securities purchased with a maturity of three months or less to be cash equivalents.

Accounts Receivable
Accounts receivable are recorded based on the amount billed for services provided, net of respective allowances.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Client Service Revenue

The Center recognizes client service revenue in accordance with ASC Topic 606. Client Service Revenue is reported at the amount that reflects the consideration the corporation expects to receive in exchange for the services provided. These amounts are due from patients or third-party payers and include variable consideration for retroactive adjustments, if any, under reimbursement programs. Performance obligations are determined based on the nature of the services provided. Client service revenue is recognized as performance obligations are satisfied. The Center recognized revenue for mental health services in accordance with ASC 606, Revenue for contracts with Customers. The Center has determined that these services included under the daily or monthly fee have the same timing and pattern of transfer and are a series of distinct services that are considered one performance obligation which is satisfied over time. The Center receives revenues for services under various third-party payer programs which include Medicaid and other third-party payers. The transaction price is based on standard charges for services provided to residents, reduced by applicable contractual adjustments, discounts, and implicit pricing concessions. The estimates of contractual adjustments and discounts are based on contractual agreements, discount policy, and historical collection experience. The corporation estimates the transaction price based on the terms of the contract with the payer, correspondence with the payer and historical trends.

Client service revenue (net of contractual allowances and discounts but before taking account of the provision for bad debts) recognized during the year ended June 30, 2024 totaled $18,326,732 of which $17,730,226 was revenue from third-party payors and $596,506 was revenue from self-pay clients.

Third Party Contractual Arrangements

A significant portion of patient revenue is derived from services to patients insured by third-party payors. The center receives reimbursement from Medicare, Medicaid, Blue Cross, and other third-party insurers at defined rates for services rendered to patients covered by these programs.

The difference between the established billing rates and the actual rate of reimbursement is recorded as allowances when recorded. A provision for estimated contractual allowances is provided on outstanding patient receivables at the balance sheet date.

New Accounting Standards - Adoption of FASB ASU 2016-13 and Related Standards

On July 1, 2023, the Center adopted FASB ASU 2016-03, Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments, as amended, which modifies the measurement of expected credit losses on certain financial instruments. The Center adopted this new guidance utilizing the modified retrospective transition method. The adoption of this Standard did not have a material impact on the center's financial statements but did change how the allowance for doubtful accounts and credit losses is determined.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Accounts Receivable and Allowance for Credit Losses

In evaluating the collectability of accounts receivable, the Center uses relevant available information, from internal and external sources, relating to past events, current conditions, reasonable and supportable forecasts, and analyzes trends for each major payer source of revenue for the purpose of estimating the appropriate amounts of the allowance for doubtful accounts. Data in each major payer source is regularly reviewed to evaluate the adequacy of the allowance for doubtful accounts. Specifically, for receivables relating to services provided to clients having third-party coverage, an allowance for doubtful accounts and a corresponding provision for bad debts are established for amounts outstanding for an extended period of time and for third-party payers experiencing financial difficulties; for receivables relating to self-pay clients, a provision for bad debts is made in the period services are rendered based on experience indicating the inability or unwillingness of clients to pay amounts for which they are financially responsible.

The Center has tracked historical loss information for its accounts receivable and compiled historical credit loss percentages for different aging categories (current, 1-30 days past due, 31-60 days past due, 61-90 days past due, and more than 90 days past due). The center believes the historical loss information it has compiled is a reasonable base on which to determine expected credit losses for accounts receivable held at June 30, 2024 because the compositions of the accounts receivable at those dates are consistent with that used in developing the historical credit-loss percentages (i.e., the similar risk characteristics of its services provided to clients have not changed significantly over time). Additionally, the center has determined that the current and reasonable and supportable-forecasted economic conditions are consistent with the economic conditions included in the historical information. As a result, the historical loss rates have not been adjusted for differences in current conditions or forecasted changes. Accordingly, the allowance for doubtful accounts was $448,963 for the year ended June 30, 2024.

NOTE 2 CLIENT SERVICE REVENUES FROM THIRD PARTY PAYORS

The Center has agreements with third-party payors that provide payments to the Center at established rates. These payments include:

New Hampshire and Managed Medicaid

The Center is reimbursed for services from the State of New Hampshire and Managed Care Organizations (MCOs) for services rendered to Medicaid clients. Payments for these services are received in the form of monthly capitation amounts that are predetermined in a contractual agreement with the MCOs.

Approximately 81% of net client service revenue is from participation in the state and managed care organization sponsored Medicaid programs for the year ended June 30, 2024. Laws and regulations governing the programs are complex and subject to interpretation and change. As a result, it is reasonably possible that recorded estimates could change materially in the near term.

NOTE 2 CLIENT SERVICE REVENUES FROM THIRD PARTY PAYORS (continued)

As part of the contractual arrangement with the MCOs, the Center is required to provide a specific amount of services under an arrangement referred to as a Maintenance of Effort (MOE). Under the MOE, if levels of service are not met the Center may be subject to repayment of a portion of the revenue received. The MOE calculation is subject to interpretation and a source of continued debate and negotiations with MCOs. This MOE calculation may result in a liability that would require a payback to the MCOs. Due to workforce challenges and a significant retroactive rate adjustments throughout the year, the Center was unable to meet the MOE requirements for all three MCO's. The Center's estimated total payback of $601,529 is recorded as an accrued expense.

NOTE 5 FAIR VALUE MEASUREMENTS

Professional accounting standards established a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy are described below:

Basis of Fair Value Measurement

- Level 1- Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;
- Level 2- Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly.
- Level 3- Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

NOTE 5 FAIR VALUE MEASUREMENTS (continued)

All investments are categorized as Level 1 and recorded at fair value, as of June 30, 2024. As required by professional accounting standards, investment assets are classified in their entirety based upon the lowest level of input that is significant to the fair value measurement.

EXPLANATION

This request is **Sole Source** because the Contractors are the only authorized contractors able to provide the necessary services. The Department contracts for mental health services through these ten (10) Community Mental Health Centers, which are designated by the Department to service towns and cities within specified geographic regions, as outlined in the NH Revised Statutes Annotated (RSA) 135-C, New Hampshire Mental Health Services System, and NH Administrative Rule He-M 403, Approval and Operation of Community Mental Health Programs.

The purpose of this request is to provide community mental health services for individuals in New Hampshire. Community Mental Health Centers provide community-based mental health services to adults, children, and families to build resiliency, promote recovery, and reduce inpatient hospital utilizations, and improve community tenure. These contracts provide both Federal grant funds and General Funds that enable delivery of services not otherwise covered by Medicaid. For example, technology, training, and system upgrades, delivery of some Assertive Community Treatment services, and care coordination with other systems such as the Division of Children, Youth, and Families, Department of Education, and Division of Long Term Supports and Services. The majority of the General Funds are allocated to ensure that individuals who are uninsured have full access to NH Rapid Response crisis services.

Approximately 20,700 individuals will be served annually.

The populations served include children with Serious Emotional Disturbances and adults with Serious Mental Illness/Serious and Persistent Mental Illness, including individuals with Mental Illness and co-occurring substance use disorders per NH Administrative Rule He-M 401 Eligibility Determination and Individuals Service Planning.

The Contractors will provide crisis services, individual and group psychotherapy, targeted case management, medication services, Functional Support Services, Illness Management and Recovery, supported employment, Assertive Community Treatment, Wraparound services for children, community residential services, and acute care services to individuals experiencing psychiatric emergencies while awaiting admission to a designated receiving facility. All contracts include provisions for Mental Health Services required by NH RSA 135-C and with State Regulations applicable to the mental health system as outlined in He-M 400, as well as in compliance with the Community Mental Health Agreement (CMHA).

The Department will monitor services by:

- Conducting performance reviews and utilization reviews as necessary and appropriate based on applicable licensing, certifications and service provisions.
- Conducting quarterly meetings to review submitted quarterly data and reports to identify ongoing programmatic improvements.
- Reviewing monthly financial statements provided by the Contractors for ongoing evaluation of program fiscal integrity.

As referenced in Exhibit A, Revisions to Standard Agreement Provisions Section 1, Revisions to Form P-37, General Provisions, Subsection 1.2 of the attached agreements, the parties have the option to extend the agreements for up to four (4) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties, and Governor and Council approval.

Should the Governor and Council not authorize this request, approximately 12,300 adults, and 8,400 children in the state will not have access to critical community mental health services as required by NH RSA 135-C:13. As a result, these individuals may experience an increase in symptoms causing them to seek more costly services at hospital emergency departments due to risk of harm to themselves or others and may have increased contact with law enforcement, correctional programs, or primary care physicians, none of which have the necessary services or supports available to provide necessary assistance. Lack of these services may also increase the likelihood of inpatient hospitalizations and death by suicide.

Source of Federal Funds: Assistance Listing Number #93.243, FAIN # H79SM080245; Assistance Listing Number #93.958, FAIN # B09SM087375; Assistance Listing Number #93.043, FAIN #2201NHOAPH; Assistance Listing Number #93.959, FAIN # TI085821; Assistance Listing Number #93.829, FAIN # H79SM087622.

In the event that the Federal Funds become no longer available, additional General Funds will not be requested to support this program.

Respectfully submitted,

Lori A. Weaver
Interim Commissioner

INDEPENDENT AUDITOR'S REPORT

Board of Directors
Behavioral Health & Developmental Services of Strafford County, Inc.
d/b/a Community Partners of Strafford County and Subsidiaries

Opinion

We have audited the accompanying consolidated financial statements of Behavioral Health & Developmental Services of Strafford County, Inc. d/b/a Community Partners of Strafford County and Subsidiaries (the Organization), which comprise the consolidated statements of financial position as of June 30, 2024 and 2023, and the related consolidated statements of activities, functional revenue and expenses without donor restrictions, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Organization as of June 30, 2024 and 2023, and the changes in their net assets and their cash flows for the years then ended in accordance with U.S. generally accepted accounting principles (U.S. GAAP).

Basis for Opinion

We conducted our audits in accordance with U.S. generally accepted auditing standards (U.S. GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are required to be independent of the Organization and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Change in Accounting Principle

As discussed in Note 1 to the consolidated financial statements, the Organization adopted Financial Accounting Standards Board Accounting Standards Update No. 2016-13, *Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments*, and related guidance, during the year ended June 30, 2024. Our opinion is not modified with respect to that matter.

Responsibilities of Management for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with U.S. GAAP, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Organization's ability to continue as a going concern within one year after the date that the consolidated financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with U.S. GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the consolidated financial statements.

In performing an audit in accordance with U.S. GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Organization's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The consolidating statements of financial position and consolidating statements of activities (collectively, supplementary information) are presented for purposes of additional analysis, rather than to present the financial position and changes in net assets of the individual entities and are not a required part of the consolidated financial statements. Such supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The supplementary information has been subjected to the auditing procedures applied in the audits of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with U.S. GAAS. In our opinion, the supplementary information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

Principles of Consolidation

The consolidated financial statements include the accounts of Community Partners, Lighthouse Management Services, Inc., and the Foundation (collectively, the Organization). All material intercompany balances and transactions have been eliminated in consolidation.

The Organization prepares its consolidated financial statements in accordance with U.S. generally accepted accounting principles (U.S. GAAP) established by Financial Accounting Standards Board (FASB). References to U.S. GAAP in these notes are to the FASB Accounting Standards Codification (ASC).

Recently Adopted Accounting Principle

FASB issued Accounting Standards Update No. 2016-13, *Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments*, and related guidance as amended, which replaces the incurred loss methodology with an expected loss methodology that is referred to as the current expected credit loss (CECL) methodology. The measurement of expected credit losses under the CECL methodology is applicable to financial assets measured at amortized cost, which includes patient accounts receivable. The adoption of Topic 326 during the year ended June 30, 2024 did not have a material impact on the consolidated financial statements of the Organization as a significant portion of the payors to the Organization either have the full faith and backing of the U.S. government or are credit worthy with limited to no credit risk associated with them. Other than accounts receivable, there are no other financial assets that are measured at amortized cost.

Use of Estimates

The preparation of consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Basis of Presentation

The consolidated financial statements of the Organization have been prepared in accordance with U.S. GAAP, which require the Organization to report information regarding their consolidated financial position and activities according to the following net asset classifications:

Net assets without donor restrictions: Net assets that are not subject to donor-imposed restrictions and may be expended for any purpose in performing the primary objectives of the Organization. These net assets may be used at the discretion of the Organization's management and the Board of Directors.

Net assets with donor restrictions: Net assets subject to stipulations imposed by donors and grantors. Some donor restrictions are temporary in nature; those restrictions will be met by actions of the Organization or by the passage of time. Other donor restrictions are perpetual in nature, whereby the donor has stipulated the funds be maintained in perpetuity. At June 30 2024 and 2023, the Organization did not have any funds to be maintained in perpetuity. Net assets with donor restrictions consisted of grants and contributions temporary in nature to support program expenses.

Grants and Contributions

Grants awarded and contributions received in advance of expenditures are reported as public support and revenue with donor restrictions if they are received with stipulations that limit the use of the grants or contributions. When a grant or contribution restriction expires, that is, when a stipulated time restriction ends or a purpose restriction is accomplished, net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the consolidated statements of activities as net assets released from restrictions. The Organization records restricted grants and contributions whose restrictions are met in the same reporting period as public support and revenue without donor restrictions in the year of the gift.

Income Taxes

The Organization is exempt from income taxes under Section 501(c)(3) of the U.S. Internal Revenue Code to operate as a not-for-profit organization.

FASB ASC Topic 740, *Income Taxes*, establishes financial accounting and disclosure requirements for recognition and measurement of tax positions taken or expected to be taken. Management has reviewed the tax provisions for the Organization under FASB ASC Topic 740 and determined it did not have a material impact on the Organization's consolidated financial statements.

Cash and Cash Equivalents

The Organization considers all highly liquid investments with an original maturity date of less than three months to be cash equivalents. The cash equivalents represent money market accounts and repurchase agreements as of June 30, 2024 and 2023.

The Organization maintains its cash in bank deposit accounts which, at times, may exceed federally insured limits. It has not experienced any losses in such accounts. Management believes it is not exposed to any significant risk on cash and cash equivalents.

Accounts Receivable

Accounts receivable are stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible accounts after considering each category of receivable individually and estimates an allowance for credit losses according to the nature of the receivable. Allowances for credit losses are estimated from historical performance and projected trends. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to trade accounts receivable. Accounts receivable, net amounted to $2,135,448 as of July 1, 2022.

Leases

At the inception of an arrangement, the Organization determines if an arrangement is, or contains, a lease based on the unique facts and circumstances present in that arrangement. Lease classification, recognition and measurement are then determined as of the lease commencement date. For arrangements that contain a lease, the Organization (i) identifies lease and non-lease components, (ii) determines the consideration in the contract, (iii) determines whether the lease is an operating or finance lease, and (iv) recognizes the lease ROU asset and lease obligation. Lease obligations and their corresponding ROU assets are recorded based on the present value of lease payments over the expected lease term. The interest rate implicit in lease contracts is typically not readily determinable, and as such, the Organization used the risk free rate based on the information available at the lease commencement date, a rate which represents one that would be incurred to borrow, on a collateralized basis, over a similar term, an amount equal to the lease payments in a similar economic environment.

Some leases include options to renew and/or terminate the lease, which can impact the lease term. The exercise of these options is at the Organization's discretion and the Organization does not include any of these options within the expected lease term where it is not reasonably certain that these options will be exercised.

Fixed, or in-substance fixed, lease payments on operating leases are recognized over the expected term of the lease on a straight-line basis. Variable lease expenses that are not considered fixed, or in-substance fixed, are recognized as incurred. Fixed and variable lease expense on operating leases is recognized within rent expense in the consolidated statements of functional expenses. The Organization has elected the short-term lease exemption and, therefore, does not recognize a ROU asset or corresponding lease obligation for lease arrangements with an original term of 12 months or less.

Property and Equipment

Property and equipment are recorded at cost, while donations of property and equipment are recorded as support at their estimated fair value at the date of donation. Expenditures for repairs and maintenance are charged against operations. Renewals and betterments which materially extend the life of the assets are capitalized. Assets donated with explicit restrictions regarding their use and contributions of cash that must be used to acquire property and equipment are reported as restricted contributions. Absent donor stipulations regarding how long those donated assets must be maintained, the Organization reports expirations of donor restrictions when the asset is placed into service. The Organization reclassifies net assets with donor restrictions to net assets without donor restrictions at that time.

Depreciation is provided on the straight-line method in amounts designed to depreciate the costs of the assets over their estimated lives as follows:

Buildings and improvements	5-39 years
Equipment and furniture	3-7 years
Vehicles	5 years

Revenue Recognition

Medicaid, Medicare and client resources revenue is reported at the estimated net realizable amount that reflects the consideration to which the Organization expects to be entitled in exchange for providing client services. These amounts are due from third-party payors (including health insurers and government programs), and others, and include variable consideration for retroactive revenue adjustments due to settlement of audits, reviews, and investigations. Generally, the Organization bills third-party payors several days after services are provided. Revenue is recognized as performance obligations are satisfied. It is the Organization's expectation that the period between the time the service is provided to a client and the time a third-party payor pays for that service will be one year or less.

Under the Organization's contractual arrangements with the New Hampshire Department of Health and Human Services (DHHS), the Organization provides services to clients for an agreed upon fee. The Organization recognizes revenue for client services in accordance with the provisions of FASB ASC Topic 606, *Revenue from Contracts with Customers.*

Performance obligations are determined based on the nature of the services provided by the Organization. Revenue for performance obligations satisfied over time is recognized based on actual services rendered. Generally, performance obligations are satisfied over time when services are provided. The Organization measures the performance obligation from when the Organization begins to provide services to a client to the point when it is no longer required to provide services to that client, which is generally at the time of DHHS notification to the Organization.

Each performance obligation is separately identifiable from other promises in the contract with the client and DHHS. As the performance obligations are met, revenue is recognized based upon allocated transaction price. The transaction price is allocated to separate performance obligations based upon the relative stand-alone selling price.

Because all of its performance obligations relate to short-term contracts, the Organization has elected to apply the optional exemption provided in FASB ASC Subtopic 606-10-50-14(a), and therefore, is not required to disclose the aggregate amount of the transaction price allocated to performance obligations that are unsatisfied or partially unsatisfied at the end of the reporting period.

Estimated Third-Party Liabilities

The Organization's estimated third-party liabilities consists of funds received in advance for services to be performed at a later date, known amounts due to DHHS and estimated amounts due to DHHS from eligibility, certification and other audits, and certain pass-through funds. Estimated third-party liabilities amounted to $1,757,667 as of July 1, 2022.

Functional Allocation of Expenses

The Organization's expenses are presented on a functional basis (i.e., program activities and support services). The Organization classifies expenses based on the organizational cost centers in which expenses are incurred. The expenses allocated between support functions and program services based on personnel time includes salaries and related benefits and taxes. The expenses allocated between support functions and program services based on space utilized for the related services includes depreciation, insurance and other occupancy costs.

2. Availability and Liquidity of Financial Assets

The Organization regularly monitors liquidity required to meet its operating needs and other contractual commitments, while also striving to optimize its available funds. The Organization has various sources of liquidity at its disposal, including cash and cash equivalents and lines of credit as disclosed in Note 6.

For purposes of analyzing resources available to meet general expenditures over a 12-month period, the Organization considers all expenditures related to its ongoing operating activities as well as the conduct of services undertaken to support those operating activities.

In addition to financial assets available to meet general expenditures over the next 12 months, the Organization operates with a balanced budget and anticipates collecting sufficient revenue to cover expenditures not covered by donor-restricted resources or, where appropriate, borrowings. Refer to the consolidated statements of cash flows, which identifies the sources and uses of the Organization's cash and cash equivalents.

EXPLANATION

This request is **Sole Source** because the Contractors are the only authorized contractors able to provide the necessary services. The Department contracts for mental health services through these ten (10) Community Mental Health Centers, which are designated by the Department to service towns and cities within specified geographic regions, as outlined in the NH Revised Statutes Annotated (RSA) 135-C, New Hampshire Mental Health Services System, and NH Administrative Rule He-M 403, Approval and Operation of Community Mental Health Programs.

The purpose of this request is to provide community mental health services for individuals in New Hampshire. Community Mental Health Centers provide community-based mental health services to adults, children, and families to build resiliency, promote recovery, and reduce inpatient hospital utilizations, and improve community tenure. These contracts provide both Federal grant funds and General Funds that enable delivery of services not otherwise covered by Medicaid. For example, technology, training, and system upgrades, delivery of some Assertive Community Treatment services, and care coordination with other systems such as the Division of Children, Youth, and Families, Department of Education, and Division of Long Term Supports and Services. The majority of the General Funds are allocated to ensure that individuals who are uninsured have full access to NH Rapid Response crisis services.

Approximately 20,700 individuals will be served annually.

The populations served include children with Serious Emotional Disturbances and adults with Serious Mental Illness/Serious and Persistent Mental Illness, including individuals with Mental Illness and co-occurring substance use disorders per NH Administrative Rule He-M 401 Eligibility Determination and Individuals Service Planning.

The Contractors will provide crisis services, individual and group psychotherapy, targeted case management, medication services, Functional Support Services, Illness Management and Recovery, supported employment, Assertive Community Treatment, Wraparound services for children, community residential services, and acute care services to individuals experiencing psychiatric emergencies while awaiting admission to a designated receiving facility. All contracts include provisions for Mental Health Services required by NH RSA 135-C and with State Regulations applicable to the mental health system as outlined in He-M 400, as well as in compliance with the Community Mental Health Agreement (CMHA).

The Department will monitor services by:

- Conducting performance reviews and utilization reviews as necessary and appropriate based on applicable licensing, certifications and service provisions.
- Conducting quarterly meetings to review submitted quarterly data and reports to identify ongoing programmatic improvements.
- Reviewing monthly financial statements provided by the Contractors for ongoing evaluation of program fiscal integrity.

As referenced in Exhibit A, Revisions to Standard Agreement Provisions Section 1, Revisions to Form P-37, General Provisions, Subsection 1.2 of the attached agreements, the parties have the option to extend the agreements for up to four (4) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties, and Governor and Council approval.

Should the Governor and Council not authorize this request, approximately 12,300 adults, and 8,400 children in the state will not have access to critical community mental health services as required by NH RSA 135-C:13. As a result, these individuals may experience an increase in symptoms causing them to seek more costly services at hospital emergency departments due to risk of harm to themselves or others and may have increased contact with law enforcement, correctional programs, or primary care physicians, none of which have the necessary services or supports available to provide necessary assistance. Lack of these services may also increase the likelihood of inpatient hospitalizations and death by suicide.

Source of Federal Funds: Assistance Listing Number #93.243, FAIN # H79SM080245; Assistance Listing Number #93.958, FAIN # B09SM087375; Assistance Listing Number #93.043, FAIN #2201NHOAPH; Assistance Listing Number #93.959, FAIN # TI085821; Assistance Listing Number #93.829, FAIN # H79SM087622.

In the event that the Federal Funds become no longer available, additional General Funds will not be requested to support this program.

Respectfully submitted,

Lori A. Weaver
Interim Commissioner

If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

Independent Auditor's Report

To the Board of Directors of
The Mental Health Center for Southern New Hampshire
d/b/a CLM Center for Life Management and Affiliate

Opinion

We have audited the accompanying consolidated financial statements of The Mental Health Center for Southern New Hampshire d/b/a CLM Center for Life Management and Affiliate (a nonprofit organization), which comprise the consolidated statements of financial position as of June 30, 2024 and 2023, and the related consolidated statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of The Mental Health Center for Southern New Hampshire d/b/a CLM Center for Life Management and Affiliate as of June 30, 2024 and 2023, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated financial statements section of our report. We are required to be independent of The Mental Health Center for Southern New Hampshire d/b/a CLM Center for Life Management and Affiliate and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Consolidated financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about The Mental Health Center for Southern New Hampshire d/b/a CLM Center for Life Management and Affiliate's ability to continue as a going concern within one year after the date that the consolidated financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material

misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the consolidated financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of The Mental Health Center for Southern New Hampshire d/b/a CLM Center for Life Management and Affiliate's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about The Mental Health Center for Southern New Hampshire d/b/a CLM Center for Life Management and Affiliate's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying supplementary information on pages 20-26 is presented for purposes of additional analysis and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the consolidated financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 20, 2024, on our consideration of The Mental Health Center for Southern New Hampshire d/b/a CLM Center for Life Management and Affiliate's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of The Mental Health Center for Southern New Hampshire d/b/a CLM Center for Life Management and Affiliate's internal control over financial reporting or on compliance. That report is an

integral part of an audit performed in accordance with *Government Auditing Standards* in considering The Mental Health Center for Southern New Hampshire d/b/a CLM Center for Life Management and Affiliate's internal control over financial reporting and compliance.

Note 1. Nature of organization

The Mental Health Center for Southern New Hampshire d/b/a CLM Center for Life Management (the "Organization") is a not-for-profit corporation, organized under New Hampshire law to provide services in the areas of mental health and related non-mental health programs.

During 2006, the Center for Life Management Foundation (the "Foundation") was established to act for the benefit of, to carry out the functions of, and to assist the Organization. It is affiliated with The Mental Health Center for Southern New Hampshire d/b/a CLM Center for Life Management through common board members and management. In addition, the Organization is the sole member.

The Mental Health Center for Southern New Hampshire d/b/a CLM Center for Life Management and the Center for Life Management Foundation are collectively referred to the "Organization".

Basis of consolidation
The consolidated financial statements include the accounts of The Mental Health Center for Southern New Hampshire d/b/a CLM Center for Life Management and the Center for Life Management Foundation. All intercompany transactions have been eliminated in consolidation.

Note 2. Basis of accounting and summary of significant accounting policies

General
The significant accounting policies of the Organization are presented to assist in understanding the Organization's consolidated financial statements. The consolidated financial statements and the notes are representations of the Organization's management. The Organization is responsible for the integrity and objectivity of the consolidated financial statements.

Basis of accounting
The consolidated financial statements are prepared on the accrual basis of accounting. Under this basis, revenues, other than contributions, and expenses are reported when incurred, without regard to date of receipt or payment of cash. Contributions are reported in accordance with FASB Accounting Standards Codification ("ASC") *Accounting for Contributions Received and Contributions Made.*

Basis of presentation
The Organization's consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles ("US GAAP"), which require the Organization to report information regarding its financial position and activities according to the following net asset classifications:

Net assets without donor restrictions: Net assets that are not subject to donor-imposed restrictions and may be expended for any purpose in performing the primary objectives of the Organization. These net assets may be used at the discretion of the Organization's management and the board of directors.

Note 2. Basis of accounting and summary of significant accounting policies (continued)

Net assets with donor restrictions: Net assets subject to stipulations imposed by donors, and grantors. Some donor restrictions are temporary in nature; those restrictions will be met by actions of the Organization or by the passage of time. Other donor restrictions are perpetual in nature, where by the donor has stipulated the funds be maintained in perpetuity.

Donor restricted contributions are reported as increases in net assets with donor restrictions. When a restriction expires, net assets are reclassified from net assets with donor restrictions to net assets without donor restrictions in the statements of activities.

At June 30, 2024 and 2023, the Organization had net assets without donor restrictions of $11,642,892 and $10,841,440, respectively and had net assets with donor restrictions of $472,961 and $390,538, respectively. See Note 8 for discussion regarding net assets with donor restrictions.

Use of estimates
Management uses estimates and assumptions in preparing these consolidated financial statements in accordance with generally accepted accounting principles. Those estimates and assumptions affect the reported amount of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenue and expenses. Actual results could vary from the estimates that were used.

Cash and cash equivalents
The Organization considers all highly liquid investments purchased with an original maturity of three months or less to be cash and cash equivalents.

Accounts receivable
Accounts receivable are stated at the amount management expects to collect from outstanding balances. Management writes off accounts when they are deemed uncollectible and establishes an allowance for doubtful accounts for estimated uncollectible amounts. The Organization had an allowance for doubtful accounts of $302,947 and $217,379 as of June 30, 2024 and 2023, respectively. Refer to Note 3 for additional discussion of accounts receivable.

Property
Property is recorded at cost, except for donated assets which are recorded at estimated fair value at the date of donation. Depreciation is computed on the straight line basis over the estimated useful lives of the related assets as follows:

Buildings and improvements	15 – 40 years
Automobiles	3 – 15 years
Equipment	5 – 7 years

All equipment valued at $5,000 or more is capitalized. Expenditures for repairs and maintenance are expensed when incurred and betterments are capitalized. Assets sold or otherwise disposed of are removed from the accounts, along with the related accumulated depreciation, and any gain or loss is recognized. Depreciation expense was $383,932 and $332,347 for the years ended June 30, 2024 and 2023, respectively.

Note 2. Basis of accounting and summary of significant accounting policies (continued)

Investments
The Organization follows the Not-For-Profit Entities subtopic of the FASB Accounting Standards Codification with respect to investments. Under this subtopic, investments in marketable securities with readily determinable fair values and all investments in debt securities are reported at their fair values in the statement of financial position. Unrealized gains and losses are included in the change in net assets.

Finance costs
Financing costs are recorded on the statement of position net of accumulated amortization. In accordance with generally accepted accounting principles, the unamortized financing costs are reported as a reduction in long term debt - see Note 8. The costs are amortized over the term of the respective financing arrangement.

Vacation pay and fringe benefits
Vacation pay is accrued and charged to programs when earned by the employee. Fringe benefits are allocated to the appropriate program expense based on the percentage of actual time spent on programs.

Deferred revenue
Amounts included in deferred revenue represent funds received in advance of expenditures incurred under the respective arrangement. The advances are recognized as revenue in the period the expenditure is incurred.

Fair value measurements and financial instruments
The Organization adopted FASB ASC 820, Fair Value Measurements and Disclosures, for assets and liabilities measured at fair value on a recurring basis. The codification established a common definition for fair value to be applied to existing generally accepted accounting principles that requires the use of fair value measurements, establishes a framework for measuring fair value, and expands disclosure about such fair value measurements.

FASB ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Additionally, FASB ASC 820 requires the use of valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. These inputs are prioritized as follows:

- Level 1: Observable market inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: Observable market inputs, other than quoted prices in active markets, that are observable either directly or indirectly; and
- Level 3: Unobservable inputs where there is little or no market data, which require the reporting entity to develop its own assumptions.

The Organization's financial instruments consist primarily of cash, accounts receivables, accounts payable and accrued expenses. The carrying amount of the Organization's financial instruments approximates their fair value due to the short-term nature of such instruments. The carrying value of long-term debt approximates fair value due to their bearing interest at rates that approximate current market rates for notes with similar maturities and credit quality.

Note 2. Basis of accounting and summary of significant accounting policies (continued)

The Organization's interest rate swap agreements are classified as level 2 in the hierarchy, as all significant inputs to the fair value measurement are directly observable, such as the underlying interest rate assumptions.

Third-party contractual arrangements
A significant portion of revenue is derived from services to patients insured by third-party payers. Reimbursements from Medicare, Medicaid, and other commercial payers are at defined service rates for services rendered to patients covered by these programs. The difference between the established billing rates and the actual rate of reimbursement is recorded as an allowance when received. A provision for estimated contractual allowances is provided on outstanding patient receivables at the statement of financial position date.

Advertising expenses
The Organization expenses advertising costs as they are incurred.

Expense allocation
The costs of providing the various programs and other activities have been summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

Contributions
Contributions received are recorded as net assets without donor restrictions or net assets with donor restrictions, depending on the existence and/or nature of any donor-imposed restrictions. Contributions that are restricted by the donor are reported as an increase in net assets without donor restrictions if the restriction expires in the reporting period in which the contribution is recognized. All other donor restricted contributions are reported as an increase in net assets with donor restrictions, depending on the nature of restriction. When a restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statements of activities as net assets released from restrictions.

Contributed property and equipment are recorded at fair value at the date of donation. Contributions with donor-imposed stipulations regarding how long the contributed assets must be used are recorded as net assets with donor restrictions; otherwise, the contributions are recorded as net assets without donor restrictions.

Interest rate swap
The Organization uses an interest rate swap to effectively convert the variable rate on its State Authority Bond to a fixed rate, as described in Note 9. The change in the fair value of the swap agreement and the payments to or receipts from the counterparty to the swap are netted with the interest expense on the bonds. Cash flows from interest rate swap contracts are classified as a financing activity on the statement of cash flows.

Income taxes
The Organization is a non-profit organization exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code. The Organization has also been classified as an entity that is not a private foundation within the meaning of 509(a) and qualifies for deductible contributions.

Note 2. Basis of accounting and summary of significant accounting policies (continued)

The Foundation is a non-profit organization exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code. It is an organization that is organized and operated exclusively for the benefit of the Organization.

These consolidated financial statements follow FASB ASC, *Accounting for Uncertain Income Taxes*, which clarifies the accounting for uncertainty in income taxes and prescribes a recognition threshold and measurement attribute for financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return.

Accounting for Uncertain Income Taxes did not have a material impact on these consolidated financial statements as the Organization believes it has taken no uncertain tax positions that could have an effect on its consolidated financial statements.

Federal Form 990 (Return of an Organization Exempt from Income Tax) for fiscal years 2021 through 2023 are subject to examination by the IRS, generally for three years after filing.

Leases

The Organization determines if an arrangement is or contains a lease at inception. Leases are included in right-of-use (ROU) assets and lease liabilities in the statement of financial position. ROU assets and lease liabilities reflect the present value of the future minimum lease payments over the lease term, and ROU assets also include prepaid or accrued rent, if applicable. Operating lease expense is recognized on a straight-line basis over the lease term. The Organization does not report ROU assets and leases liabilities for its short-term leases (leases with a term of 12 months or less). Instead, the lease payments of those leases are reported as lease expense on a straight-line basis over the lease term.

Subsequent events

The Organization has evaluated all subsequent events through November 20, 2024, the date the consolidated financial statements were available to be issued.

In 2017, the Organization retroactively adopted the requirements of FASB ASC 835-30 to present debt issuance costs as a reduction of the carrying amount of debt rather than as an asset.

Amortization of $18,930 is reported as interest expense in the consolidated statement of activities for the years ended June 30, 2024 and 2023, respectively.

Future maturities to long term debt are as follows:

Note 9. Interest rate swap (continued)

The agreement matures August 2025 and has a notional amount of $2,035,230 and $2,167,730 at June 30, 2024 and 2023, respectively.

In accordance with generally accepted accounting principles, the interest rate swap agreement is recorded at its fair value as an asset or liability, with the changes in fair value being reported as a component of the change in net assets without donor restrictions. Note 11. Employee benefit plan

Discretionary matching contributions to a tax-deferred annuity plan qualified under Section 403(b) of the Internal Revenue Code are contingent upon financial condition. This program covers eligible regular full-time and part-time employees who have successfully completed at least one year of employment and work at least 20 hours per week. Eligible employees may make contributions to the plan up to the maximum amount allowed by the Internal Revenue Code if they wish. Employer contributions and expenses totaled $238,238 and $211,830 for the years ended June 30, 2024 and 2023 respectively.

Note 12. Concentrations

For the years ended June 30, 2024 and 2023, the Organization received approximately 74% and 75%, respectively, of its total revenue in the form of Medicaid reimbursements. Being a State of New Hampshire designated Community Mental Health Center affords the Organization Medicaid provider status. Annual contracting with New Hampshire Department of Health and Human Services-Bureau of Behavioral Health provides a base allocation of state general funds and Federal funding, which are drawn as related expenses are incurred.

Note 13. Lease commitments

The Organization evaluated current contracts to determine which met the criteria of a lease. The right-of-use (ROU) assets represent the Organization's right to use underlying assets for the lease term, and the lease liabilities represent the Organization's obligation to make lease payments arising from these leases. The ROU assets and lease liabilities, all of which arise from operating leases, were calculated based on the present value of future lease payments over the lease terms. The Organization has made an accounting policy election to use it's incremental borrowing rate to discount future lease payments, which was 8.25% as of the lease commencement date.

The following summarizes the Organization's leasing:

- The Organization leases equipment under a leasing arrangement which expires August 2026. The agreement requires an initial $30,000 non-refundable deposit and monthly payments of $1,950 through the term. The lease resulted in a right of use asset and lease liability being recorded in the year of commencement.

The following summarizes amounts in the financial statements associated with the lease during and as of June 30,:

	2024	2023
Statement of Financial Position:		
Current portion of operating lease right of use asset	$ 27,373	$ 27,373

Less: Present value discount	(4,418)
Total	$ 46,282

Note 13. Lease commitments (continued)

- The Organization leases facilities and equipment under various operating leases which are for periods of twelve months or less. In accordance with lease accounting, short-term leases (leases with a term of 12 months or less) are reported as lease expense on a straight-line basis over the lease term. Rent expense recorded under these arrangements was approximately $280,000 for the years ended June 30, 2024 and 2023, respectively.

The Organization regularly monitors liquidity required to meet its operating needs and other contractual commitments, while also striving to maximize the investment of its available funds.

For purposes of analyzing resources available to meet general expenditures over a 12-month period, the Organization considers all expenditures related to its ongoing mission-related activities, as well as the conduct of service undertaken to support those activities, to be general expenditures.

The Organization's primary source of liquidity is its cash and cash equivalents.

In addition to financial assets available to meet general expenditures within one year, the Organization operates with a budget and anticipates collecting sufficient revenue to cover general expenditures not covered by donor-restricted resources.

EXPLANATION

This request is **Sole Source** because the Contractors are the only authorized contractors able to provide the necessary services. The Department contracts for mental health services through these ten (10) Community Mental Health Centers, which are designated by the Department to service towns and cities within specified geographic regions, as outlined in the NH Revised Statutes Annotated (RSA) 135-C, New Hampshire Mental Health Services System, and NH Administrative Rule He-M 403, Approval and Operation of Community Mental Health Programs.

The purpose of this request is to provide community mental health services for individuals in New Hampshire. Community Mental Health Centers provide community-based mental health services to adults, children, and families to build resiliency, promote recovery, and reduce inpatient hospital utilizations, and improve community tenure. These contracts provide both Federal grant funds and General Funds that enable delivery of services not otherwise covered by Medicaid. For example, technology, training, and system upgrades, delivery of some Assertive Community Treatment services, and care coordination with other systems such as the Division of Children, Youth, and Families, Department of Education, and Division of Long Term Supports and Services. The majority of the General Funds are allocated to ensure that individuals who are uninsured have full access to NH Rapid Response crisis services.

Approximately 20,700 individuals will be served annually.

The populations served include children with Serious Emotional Disturbances and adults with Serious Mental Illness/Serious and Persistent Mental Illness, including individuals with Mental Illness and co-occurring substance use disorders per NH Administrative Rule He-M 401 Eligibility Determination and Individuals Service Planning.

The Contractors will provide crisis services, individual and group psychotherapy, targeted case management, medication services, Functional Support Services, Illness Management and Recovery, supported employment, Assertive Community Treatment, Wraparound services for children, community residential services, and acute care services to individuals experiencing psychiatric emergencies while awaiting admission to a designated receiving facility. All contracts include provisions for Mental Health Services required by NH RSA 135-C and with State Regulations applicable to the mental health system as outlined in He-M 400, as well as in compliance with the Community Mental Health Agreement (CMHA).

The Department will monitor services by:

- Conducting performance reviews and utilization reviews as necessary and appropriate based on applicable licensing, certifications and service provisions.
- Conducting quarterly meetings to review submitted quarterly data and reports to identify ongoing programmatic improvements.
- Reviewing monthly financial statements provided by the Contractors for ongoing evaluation of program fiscal integrity.

As referenced in Exhibit A, Revisions to Standard Agreement Provisions Section 1, Revisions to Form P-37, General Provisions, Subsection 1.2 of the attached agreements, the parties have the option to extend the agreements for up to four (4) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties, and Governor and Council approval.

Should the Governor and Council not authorize this request, approximately 12,300 adults, and 8,400 children in the state will not have access to critical community mental health services as required by NH RSA 135-C:13. As a result, these individuals may experience an increase in symptoms causing them to seek more costly services at hospital emergency departments due to risk of harm to themselves or others and may have increased contact with law enforcement, correctional programs, or primary care physicians, none of which have the necessary services or supports available to provide necessary assistance. Lack of these services may also increase the likelihood of inpatient hospitalizations and death by suicide.

Source of Federal Funds: Assistance Listing Number #93.243, FAIN # H79SM080245; Assistance Listing Number #93.958, FAIN # B09SM087375; Assistance Listing Number #93.043, FAIN #2201NHOAPH; Assistance Listing Number #93.959, FAIN # TI085821; Assistance Listing Number #93.829, FAIN # H79SM087622.

In the event that the Federal Funds become no longer available, additional General Funds will not be requested to support this program.

Respectfully submitted,

Lori A. Weaver
Interim Commissioner
