EXPLANATION

The Agreement listed above is one of three (3) Statewide Agreements (44954, 44955, 44956), each of which has specific qualifications in the field of architectural history. The need for such services is in response to the National Environmental Policy Act of 1969, P.L. 91-910, which directs that, during the development of a project, a systematic interdisciplinary approach be used to assess beneficial and adverse social, economic, and environmental effects of projects. It also addresses the requirements of the National Historic Preservation Act of 1966, as amended in 2006, and NH RSA 227-C:9 to identify and evaluate historic resources and the effect of

projects upon such resources. Three (3) agreements are proposed to assure timely services as required to meet Department design and construction scheduled.

Three (3) existing on-call architectural history services agreements will expire on March 31, 2025.

Lisa Mausolf	\$200,000	\$102,026.79

In pursuing this Agreement, the Department followed a pre-qualified, low-bid selection procedure in accordance with the Department's *Consultant Procurement Manual, Section 2.2, Statewide Low Bid Contracts*, dated August 29, 2024, and pursuant to RSAs 21-1:22-c, 21-1:22-d, 228:4, and 228:5-a. To enable proper comparison of bids, a sample project with hypothetical tasks for work to be conducted under the Agreement was provided to all bidders. Bids were received from the six (6) pre-qualified firms. Agreements in the amount of \$250,000 each will be awarded to the A, B, and C low bidders. The contract type of fee is a specific rate of pay at the bid hourly rate for each classification of employee directly engaged in the work. The Agreement will be administered by the Bureau of Environment. The Federal Highway Administration may participate in these costs depending upon the funding of the individual projects undertaken.

The Department met on October 17, 2024, reviewed the qualifications of seven (7) firms submitting a Statement of Qualifications, and prequalified six (6) firms that met the minimum requirements. Invitations to Bid were extended to these firms on December 5, 2024, for the Bid Opening on January 9, 2025.

Lisa Mausolf, Preservation Consultant, is the B low bidder and is recommended for one of these contracts. Ms. Mausolf has an excellent reputation and has demonstrated its capability to perform the required services in similar contracts previously with the Department and/or with other agencies.

Lisa Mausolf, Preservation Consultant, has agreed to furnish the on-call services for an amount not to exceed \$250,000. The cost for individual Task Orders assigned under this contract will be negotiated and use specific rates of pay in accordance with the contract labor rates used on the hypothetical bid tasks. This Agreement (Statewide, 44955 On-Call Architectural History Services) has been approved by the Attorney General as to form and execution. The Department has verified that the necessary funds are available. Copies of the fully executed Agreement are on file at the Secretary of State's Office and the Department of Administrative Services, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

It is respectfully requested that authority be given to enter into this Agreement for consulting services as outlined above.

Sincerely,

Section 106 of the National Historic Preservation Act requires all federal agencies and their agents to take into account the impacts of their undertakings on properties eligible for or listed in the National Register of Historic Places and affords the Advisory Council on Historic Preservation the opportunity to comment on the undertakings prior to the project's execution.

EXHIBIT B SERVICES TO BE PERFORMED

The types of technical and professional services required under the terms of the AGREEMENT shall be those architectural history assessment efforts deemed necessary by the DEPARTMENT to identify historic properties potentially affected by project undertakings and the effects on these historic resources. These services shall include:

- Identification of historic properties;

The objective of the work proposed under the AGREEMENT is to obtain architectural and/or historical data in areas where transportation improvement studies and projects are being considered so that an assessment of the potential existing resources and impacts of a transportation improvement may be addressed. Studies under this AGREEMENT may consist of preparation of any of the following, using the NH Division of Historical Resources Guidelines, and EMMIT+, when applicable:

The Advisory Council on Historic Preservation regulation, 36 CFR 800, governs the process of review and comment for federally supported projects that affect historic properties and serves to implement the provisions of Section 106 of the National Historic Preservation Act of 1966.

It is intended that close cooperation be maintained between the CONTRACTOR and the DEPARTMENT and that the Federal Highway Administration (FHWA) shall be afforded full opportunity to observe and review all authorized work. The work actually assigned to the CONSULTANT, if any, may vary and may consist of a portion of the items described in the scope of work.

Task Orders

As needs develop, the STATE will issue specific Task Orders to the CONTRACTOR. A Task Order is an individually funded order with its own unique scope of work issued against the basic contract services, terms and conditions, to carry out a specific project for the STATE. These Task Orders may be initiated by a phone call, email, or a Request for Proposal (RFP) letter that may include a detailed description of the project or elements of work, an outline of the services required, responsibilities of the parties, materials to be supplied by the STATE, specified accuracy requirements, and other information necessary to complete the work for the Task Order. The CONTRACTOR shall then submit to the STATE for approval a scope of work and fee proposal and a tentative work schedule and completion date for each Task Order assigned. The STATE will review the CONTRACTOR'S proposal and schedule negotiations, if necessary, to clarify the proposed scope of work, the number of work hours needed, and any other associated proposed costs in order to establish the final not-to-exceed or lump-sum amount for the Task Order. Upon approval of the CONTRACTOR'S proposal by the STATE and FHWA, or other lead federal agency as may be determined for a project (if applicable), the STATE will issue a Task Order Authorization to Proceed Letter. The CONTRACTOR shall sign the Authorization to Proceed Letter and return it to the STATE. A conference may be required to turn over a Task Order to the CONTRACTOR. Costs associated with the CONTRACTOR'S preparation of a scope of work and fee for a Task Order are non-reimbursable.

If revisions to a Task Order scope of work, and/or the fee summary or completion date included in the Task Order Authorization to Proceed is/are required, it shall be documented in writing by a Bureau-level amendment. The amendment will be filed with the Authorization to Proceed in the AGREEMENT.

Submission of Reports, Plans and Documents

Each submission shall be supplemented with such drawings, illustrations and descriptive matter as are necessary to facilitate a comprehensive review of proposed concepts. Any and all CAD/D-related work during the course of this project shall be performed in conformance with the DEPARTMENT'S CAD/D Procedures and Requirements in effect at the time of execution of this AGREEMENT, which will be coordinated on each assignment.

1. Performance of Services Outlined in the Scope of Work

Upon notification to proceed, the CONTRACTOR shall perform such work as defined in the Authorization to Proceed Letter and the project-specific scope of work. Work to be accomplished shall be prosecuted within the definition provided in this AGREEMENT.

It is the intent of the DEPARTMENT under this AGREEMENT that the CONTRACTOR shall furnish all professional and technical services and personnel and other such services and equipment as are necessary to perform the authorized work.

2. Architectural/Historical Evaluations

The forms, reports, or other products documenting the findings of the work performed shall be filed in a timely manner with the DEPARTMENT upon completion of the authorized work. The products shall follow the format provided to the CONTRACTOR in the notification to proceed. Draft products must be reviewed and found acceptable to the DEPARTMENT and final products with requested change may be requested.

3. Disposition of Artifacts Found

The CONTRACTOR will recommend the location for storage and describe provisions for handling the artifacts collected during the work. It will be the responsibility of the CONTRACTOR to deliver, and prepare the artifacts for storage, to the approved location. The expense of shipping objects to the nearest point at which suitable transportation or storage is available and preparing such artifacts may be included in the work provided under this AGREEMENT. In general, artifacts are deposited at the Airport Road Laboratory of the NH Division of Historical Resources. The CONTRACTOR will be expected to support its design proposals in any issues resulting from review by the DEPARTMENT or in the public participation phase (including agency coordination), with alternative studies and reasonably itemized study cost comparisons for alternate schemes.

Deliverables

All work and supporting documents under this AGREEMENT shall be developed by the CONTRACTOR and delivered to the STATE according to the following formats:
