May 21, 2025

Her Excellency, Governor Kelly A. Ayotte
and the Honorable Council
State House
Concord, NH 03301

REQUESTED ACTION

Authorize the New Hampshire Department of Energy (Department) to amend an existing grant agreement with Laconia Area Community Land Trust, Inc. d/b/a Lakes Region Community Developers, Vendor # 156571, by extending the completion date from June 30, 2025, to December 31, 2025, for the installation and operation of eight rooftop solar arrays that will benefit low and moderate income tenants of affordable housing units in Laconia, NH, effective upon Governor and Executive Council approval. The original grant was approved by the Governor and Executive Council on June 14, 2023, Item #86. The original price limitation amount was \$124,748. No additional funding is involved in this time extension. **100% Other (Renewable Energy Fund).**

EXPLANATION

With the grant funds, Laconia Area Community Land Trust, Inc. d/b/a Lakes Region Community Developers will work with a developer to install and operate rooftop solar photovoltaic (PV) systems interconnected to eight affordable housing units in Laconia. The PV systems will provide electricity to the tenants of the buildings. Due to having to secure alternative funding for roof renovations, installation of the project has been delayed.

Laconia Area Community Land Trust, Inc. d/b/a Lakes Region Community Developers has asked for a grant extension in order to fully complete the project and receive all committed grant funds. The Department therefore is requesting a six-month, no-cost extension for Laconia Area Community Land Trust, Inc. d/b/a Lakes Region Community Developers. All other provisions of the grant remain in effect pursuant to the approval contract.

Respectfully submitted,

Jared S. Chicoine
Commissioner

REQUESTED ACTION

Authorize the New Hampshire Department of Energy (Department) to award a grant to Laconia Area Community Land Trust, Inc. d/b/a Lakes Region Community Developers (VC# 156571) in the amount of \$124,748 to install and operate eight rooftop solar arrays that will benefit low and moderate income (LMI) tenants of affordable housing units located in Laconia, NH, effective upon Governor and Council approval through June 30, 2025. **100% Other (Renewable Energy Fund)**

Funding is available in account Renewable Energy Fund as follows:

	<u>FY2023</u>
02-52-52-520010-18900000-073-500579 - Grants Non-Federal	\$124,748

EXPLANATION

Pursuant to RSA 362-F:10, the Department is charged with administering the Renewable Energy Fund (REF), the purpose of which is to support thermal and electrical renewable energy initiatives. On March 16, 2023, the Department issued a Request for Proposals (RFP) #2023-004 pursuant to RSA 362-F:10, X. That statute requires the Department to provide no less than fifteen percent of the REF funds annually to benefit low-moderate income (LMI) residential customers through financing or leveraging of financing for, including but not limited to, the development of community solar projects in manufactured housing communities or in multi-family rental housing.

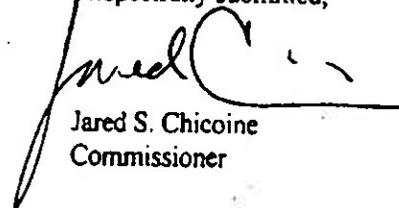

The Department received two proposals requesting a total of \$281,213 in funds in response to the RFP, one of which was incomplete and deemed ineligible. Laconia Area Community Land Trust, Inc. d/b/a Lakes Region Community Developers has been selected to receive a total of \$124,748 in this funding round. Additional information on the grant review and award process is provided along with a summary of the grant award.

With these funds, Laconia Area Community Land Trust, Inc. d/b/a Lakes Region Community Developers will work with a developer to install and operate solar photovoltaic (PV) systems

interconnected to eight affordable housing units in Laconia. The PV systems will provide electricity to the tenants of the buildings. Attachment 1, Project and Program Overview, provides a description of the project and summarizes the direct net benefits provided to LMI residential customers.

The grant is contingent on sufficient REF funds being available upon the effective date of the grant agreement. The funds have been allocated for this contract and are being held in the fund. In the event that the REF funds are insufficient or are no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Jared S. Chicoine
Commissioner

**RFP 2023-004 – LOW-MODERATE INCOME COMMUNITY SOLAR COMPETITIVE GRANT
REVIEW PROCESS AND SCORING TEAM**

The Department of Energy (Department) issued a Request for Proposals (RFP) on March 16, 2023 for community solar photovoltaic (PV) projects providing direct benefits to low, moderate, or low and moderate-income (LMI) residential electric customers who reside within the same electric distribution utility service territory. Pursuant to RSA 362-F:10, X “no less than 15 percent of the funds shall annually benefit low-moderate income residential customers, including, but not limited to, the financing or leveraging of financing for low-moderate income community solar projects in manufactured housing communities or in multi-family rental housing.” The RFP required that projects result in quantifiable direct benefits to a minimum of three LMI participants.

The RFP was circulated electronically to members of the Energy Efficiency and Sustainable Energy Board (ESEE Board), regular attendees at ESEE Board meetings, additional stakeholders known to have an interest in energy policy and programs. The RFP was posted on the Department website for the full submission period, and was advertised in the New Hampshire Union Leader on March 20, 21, and 22, 2023. All responses were due by March 30, 2023. The Department received two proposals requesting a total of \$281,213 in grant funds for projects with combined estimated total project costs of \$343,860. One proposal was deemed ineligible and therefore was not scored.

The Department employed a three-tier grant review process to evaluate the proposals. The scoring team:

Department Low-Moderate Income Competitive Grant Program Scoring Team			
Initial Review Team			
Name	Position	Agency	Experience
Tanya Wayland	Analyst IV	Department of Energy	Renewable energy grant program management
Amanda Noonan	Administrator IV	Department of Energy	Electric assistance program
Brittany Mitchell	Weatherization Program Specialist	Department of Energy	Weatherization program
Griffin Roberge	State Energy Program Manager	Department of Energy	Federal Grants
Second Review Team			
Joshua Elliott	Director of Policy & Programs	Department of Energy	DOE leadership team
Christopher Ellms, Jr.	Deputy Commissioner	Department of Energy	DOE leadership team
Jared Chicoine	Commissioner	Department of Energy	DOE leadership team

The initial review team scored the proposal using the scoring criteria set forth in the RFP and those requirements set forth in N.H. Code of Administrative Rules Puc 2508.02 (b) and (c), and developed a score for the proposal from 0-100 points, and assigned values for the factors outlined in the RFP which resulted in the final scores, ranks, and funding recommendations. Based on proposal score and the program budget, the initial review team recommended funding a reduced amount based on eligible project expenses.

The Sustainable Energy staff submitted a funding recommendation memorandum and provided project scores, descriptions, and recommendations for funding, and the second review team had an opportunity to ask questions. The second review team reviewed the initial recommendation to endorse a grant award for the proposal. The second review team approved grant funding for the renewable energy project in the total amount of \$124,748.

SCORING CRITERIA, SCORES AND PROPOSED AWARDEES

Laconia Area Community Land Trust, Inc. d/b/a Lakes
Region Community Developers
Project and Program Overview

The Laconia Area Community Land Trust, Inc. d/b/a Lakes Region Community Developers (LRCD) program model is structured to maximize direct benefits to low-moderate income (LMI) residents residing in affordable housing. The project is designed to install eight roof-mounted solar photovoltaic (PV) systems behind the meters of eight residential units. The Renewable Energy Fund (REF) grant award provides the financing necessary to enable the project to move forward and provides long term benefits to LRCD residents.

The LRCD project consists of multiple rooftop arrays across multiple buildings, which will result in eight residential PV interconnections. The energy generated from the PV on each building will power the unit that it is connected to.

Currently, the residents pay their own electrical costs. Under this program, LRCD will increase monthly tenant rent by a nominal amount of \$30 to cover debt service costs. In addition, LRCD will assume full responsibility of the 8 residents' electric bills. This will provide the LMI residents with net positive monthly savings and will not impact their eligibility for other assistance programs.

Direct LMI Benefits:

Number of LMI Participants:	8 LMI Households
Annual Average Estimated Savings per LMI Participant:	\$ 776
Total Projected Annual Savings:	\$ 6,213

Project Technical Specifications:

Nameplate Rating: No smaller than 24 kW_{DC} (20 kW_{AC}) Roof-mounted PV Systems
Projected Energy Generation: 30,497 kilowatt hours per year

Funding Analysis:

Total Project Cost:	\$ 203,860 (includes roof upgrades)
REF Grant Amount:	\$ 124,748
Leveraged Funds:	\$ 79,112

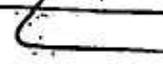

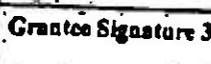

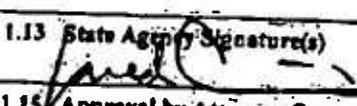

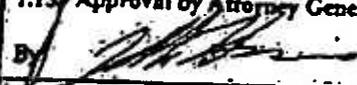

Other Benefits:

- Warranty includes a 5-year labor warranty, as required by RFP 2023-004
- System life expectancy of 30+ years
- The system will generate 30 Class II renewable energy certificates (RECs) per year
- Supports fuel diversity and keeps energy dollars in state
- Reduces the amount of greenhouse gases, nitrogen oxides and particulate matter emissions; thereby improving air quality and public health

14. **GRANTOR'S RELATION TO THE STATE.** In the performance of this Agreement the Grantee, its employees, and any subcontractor or subgrantee of the Grantee are in all respects independent contractors, and are neither agents nor employees of the State. Neither the Grantee nor any of its officers, employees, agents, members, subcontractors or subgrantees, shall have authority to bind the State nor are they entitled to any of the benefits, workman's compensation or emoluments provided by the State to its employees.
15. **ASSIGNMENT AND SUBCONTRACTS.** The Grantee shall not assign, or otherwise transfer any interest in this Agreement without the prior written consent of the State. None of the Project Work shall be subcontracted or subgranted by the Grantee other than as set forth in Exhibit B without the prior written consent of the State.
16. **INDEMNIFICATION.** The Grantee shall defend, indemnify and hold harmless the State, its officers and employees, from and against any and all losses suffered by the State, its officers and employees, and any and all claims, liabilities or penalties asserted against the State, its officers and employees, by or on behalf of any person, on account of, based on, resulting from, arising out of (or which may be claimed to arise out of) the acts or omissions of the Grantee or subcontractor, or subgrantee or other agent of the Grantee. Notwithstanding the foregoing, nothing herein contained shall be deemed to constitute a waiver of the sovereign immunity of the State, which immunity is hereby reserved to the State. No express waiver of any Event of Default shall be deemed a waiver of any provisions hereof. No such failure of waiver shall be deemed a waiver of the right of the State to enforce each and all of the provisions hereof upon any further or other default on the part of the Grantee.
