April 9, 2025

Her Excellency, Governor Kelly A. Ayotte
and The Honorable Council
State House
Concord, NH 03301

REQUESTED ACTION

Authorize the Department of Environmental Services (NHDES) to amend a grant agreement (PO#9006067) with the Town of Amherst (VC# 177351 B001), by extending the completion date to May 31, 2026 from May 31, 2025 to complete a project to better protect drinking water from contamination. This is a no cost time extension. The grant agreement was originally approved by Governor and Council on April 10, 2024 as Item #67. 100% Federal Funds.

EXPLANATION

We are requesting approval of this amendment to the grant agreement in order to provide the Town of Amherst additional time in which to complete the agreed upon scope of services. The reason for the requested extension is to allow the town more time to prepare local groundwater ordinance updates as the town's community development director, responsible for completing work under this grant, vacated the position during the grant period. To date, \$2,325 of the original grant award of \$30,000 has been spent.

All other conditions of the original agreement will remain in full effect. This amendment has been approved as to form, substance, and execution by the Office of the Attorney General. In the event that federal funds become no longer available, general funds will not be requested to support this program.

We respectfully request your approval of this item.

Robert R. Scott, Commissioner

ITEM # 67

REQUESTED ACTION

Authorize the Department of Environmental Services to award a Local Source Water Protection grant to the Town of Amherst, NH (VC # 370932 B001) in the amount of \$30,000 to complete a project to protect public drinking water supplies in Amherst, effective upon Governor and Council approval through May 31, 2025. 100% Federal Funds.

Funding is available in the following account:

Dept. Environmental Services, DWSRF BIL Administration, Grants- Federal

FY2024
\$30,000

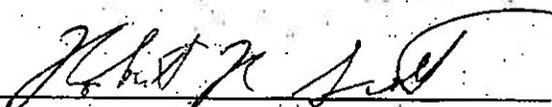

EXPLANATION

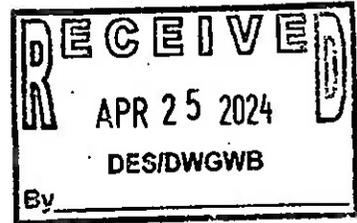

The Department of Environmental Services issued a request for proposals for 2024 Local Source Water Protection Grants. These grants are funded by set-asides under the Drinking Water State Revolving Loan Fund. Twenty-one proposals were received. The proposals were evaluated and ranked based on criteria included in the request for proposals, such as whether the project fulfills a component of a source water protection program, that the proposed project addresses appropriate threats, and that the project will deliver a valuable and useful product. Based on eligibility and the available federal funding, the Department determined that it could offer grants to thirteen source protection planning projects and two source security projects. See Attachment A for the full list of grants awarded and list of reviewers.

The Town of Amherst will use the source water protection grant funds to develop a Source Water Master Plan that will address water availability, groundwater protection, stormwater management, and mitigation for climate change impacts. This project will create town-wide GIS files related to water resources as well as a final report with suggestions for future implementation strategies.

This agreement has been approved as to form, substance, and execution by the Office of the Attorney General. In the event federal funds are no longer available, general funds will not be requested to support this program.

We respectfully request your approval of this item.
