	Total Expenses	\$26,010	\$15,000	\$41,010

EXPLANATION

The Division of Historical Resources (DHR) is requesting \$15,000 in carry forward funds from the Enhanced Mapping and Management Information Tool (EMMIT) account to be appropriated for FY 2025.

New Hampshire’s EMMIT is a publicly accessible Geographic Information System administered by the DHR. This system gives subscribers a convenient means of accessing records pertaining to the state’s historic and archaeological resources. Subscribers have the ability to perform searches based on locational parameters as well as user-specified attribute criteria. The purpose of this system is to provide these materials to its subscribers in an efficient way, while maintaining a comprehensive archive of the statewide survey of historic properties in an ongoing initiative. The information contained in EMMIT represents the State’s sole comprehensive, up-to-date inventory of the State’s historic and archaeological resources.

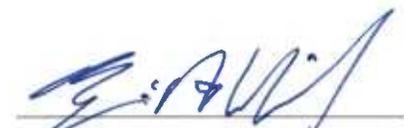

DHR requires an annual maintenance contract with a vendor in order to cover the costs for hosting, updating, and maintaining the EMMIT system and tools. The DHR created EMMIT as a user-subscription service in order to cover these costs. These costs are not covered by any other funding source.

The following appropriation authorities are being requested:

Class 103 – Contracts for Op Services – Appropriation established for needed maintenance costs related to platform upgrades and technical support.

Respectfully submitted,

Concurred,

Benjamin H. Wilson

Director / State Historic Preservation Officer

Sarah L. Stewart

Commissioner
