Department of Environmental Services

88

Robert R. Scott, Commissioner

April 2, 2025

Her Excellency, Governor Kelly A. Ayotte
and the Honorable Council
State House
Concord, New Hampshire 03301

REQUESTED ACTION

Authorize the Department of Environmental Services (NHDES) to **RETROACTIVELY** amend an American Rescue Plan Act grant (PO# 1091229) to the City of Concord, NH (VC# 177376 B001) by extending the completion date to April 1, 2026, from April 1, 2025, effective upon Governor and Council approval. This is a no cost time extension. The original grant was approved by Governor and Council on March 8, 2023, Item# 41 and amended on March 27, 2024, Item #E. 100% Federal Funds.

EXPLANATION

We are requesting approval of this **RETROACTIVE** amendment to provide the City of Concord additional time to complete work related to the City's cybersecurity assessment. The city was awarded grant funding to implement the cybersecurity improvements for the City's Water Department. Some of the improvements have been completed; however, more time is required due to the City's IT Department implementing citywide cybersecurity that must be in place before moving onto the cybersecurity improvements for the Water and Sewer Departments. A delay in the City's schedule did not provide enough time to meet deadlines for the appropriate Governor and Council meeting; therefore, this request is **retroactive**. To date, \$9,913 of the original \$100,000 grant has been expended.

In the event grant funds become no longer available, general funds will not be requested to support this program. The amendment has been approved by the Attorney General's Office as to form, substance, and execution.

We respectfully request your approval of this item.

Robert R. Scott
Commissioner

DATE 3/27/24
ITEM # 5E

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
State House
Concord, New Hampshire 03301

REQUESTED ACTIONS

1. Authorize the Department of Environmental Services (NHDES) to amend a Lead Service Line Inventory Grant (PO# 9005921) to the City of Concord, NH (VC# 177376 B001) by extending the completion date to December 31, 2024 from March 30, 2024, and adjusting the scope of work for lead service line inventories. The original grant was approved by Governor and Council on March 22, 2023, Item# 89. This is a no cost time amendment. 100% Federal Funds.
2. Authorize the Department of Environmental Services (NHDES) to amend an American Rescue Plan Act grant (PO# 1091229) to the City of Concord, NH (VC# 177376 B001) by extending the completion date to April 1, 2025, from June 1, 2024, effective upon Governor and Council approval. No additional funding is involved in this time extension. The original grant was approved by Governor and Council on March 8, 2023, Item# 41. This is a no cost time extension. 100% Federal Funds.

EXPLANATION

We are requesting approval of these amendments to provide the City of Concord (City) additional time to complete water system improvements that will improve cybersecurity and meet lead service line inventory requirements.

The City was awarded grant funding to conduct an analysis of their current drinking water service line records to identify lead service lines, to construct a searchable database, revise their sampling plan and create a replacement plan to address any lead service lines within their distribution system. The timeline and deliverables of the Environmental Protection Agency's (EPA) Lead and Copper Rule Revision (LCRR) are being adjusted based on new regulatory updates. For this reason, NHDES requests an extension to the grant deadline and a modification to the scope to reflect EPA's new required deliverables and timelines. To date, none of the original \$75,000 Lead Service Line grant has been spent.

The City was awarded grant funding to implement the cybersecurity improvements identified in the City's cybersecurity assessment. This work is highly technical requiring vendor assistance. Extension of the completion date is needed to allow for more time to complete the project due to limited availability

from the vendor and possible equipment purchasing delays. To date, none of the original \$100,000 ARPA grant has been spent.

In the event grant funds become no longer available, general funds will not be requested to support this program. These grant agreements have been approved by the Attorney General's Office as to form, substance, and execution.

We respectfully request your approval of this item.

ITEM # 89

REQUESTED ACTION

Authorize the Department of Environmental Services (NHDES) to award a Lead Service Line Inventory Grant to the City of Concord, NH (Vendor Code #177376-B001) in the amount of \$75,000 to develop and implement a water service line inventory, effective upon Governor and Council approval through March 30, 2024. 100% Federal Funds.

Funding is available in the following account:

03-44-44-441018-5564-072-500574
Dept Environmental Services, DWSRF BIL Administration, Grants Federal

FY 2023
\$75,000

EXPLANATION

The Environmental Protection Agency (EPA) published regulatory revisions to the National Primary Drinking Water Regulation (NPDWR) for lead and copper under the authority of the Safe Drinking Water Act (SDWA). These revised requirements provide greater and more effective protection of public health by reducing exposure to lead and copper in drinking water.

NHDES released a solicitation for Lead Service Line Inventory, Sampling Plan and Replacement Plan Grant applications in September of 2022. A total of 24 communities were identified as potential candidates for this grant (see Attachment A for a complete list). Funding for these grants was established from the Bipartisan Infrastructure Law (BIL) funding. The grants are being awarded on a first come, first served basis. The grant amounts were determined by the number of drinking water service connections within the water system. Projects eligible to receive grant funding include in-house or outside services to create lead service line inventories, sampling plans, and replacement plans, digitizing historic records, building inspections, test pits/potholing, and water quality testing.

The City of Concord will use the funding to conduct a complete data mining of their current drinking water service line records to identify lead service lines and to construct a searchable database that will allow the City to communicate more effectively with their stakeholders. In addition, the City of Concord

will revise their sampling plan and create a replacement plan to address lead service lines within their distribution system.

In the event grant funds become no longer available, general funds will not be requested to support this program. This grant agreement has been approved by the Attorney General's Office as to form, substance, and execution.

We respectfully request your approval of this item.

- 12.2. In the event of Termination under paragraphs 10 or 12.4 of these general provisions, the approval of such a Termination Report by the State shall in no event relieve the Grantee from any and all liability for damages sustained or incurred by the State as a result of the Grantee's breach of its obligations hereunder.
- 12.3. Notwithstanding anything in this Agreement to the contrary, either the State or, except where notice default has been given to the Grantee hereunder, the Grantee, may terminate this Agreement without cause upon thirty (30) days written notice.

EXPLANATION

The Cybersecurity Implementation Grant Program is a new program utilizing \$2,000,000 in funds from the American Rescue Plan Act of 2021 (ARPA) to support cybersecurity improvements to New Hampshire drinking water and wastewater systems. Specifically, grant money is available to develop and implement programs to proactively mitigate the risk of cybersecurity attacks on drinking water and/or wastewater systems. The grant is open to community public water systems serving a minimum of 500 people and municipal wastewater systems. Up to \$50,000 of grant funding is available per drinking water or wastewater system with a maximum of \$100,000 for both. Grant funding is available on a first come, first served basis.

The City of Concord will use the ARPA Cybersecurity grant funding to implement the cybersecurity improvements identified in the City's cybersecurity assessment. This includes the installation/upgrades of hardware, software and/or configuration changes, and the implementation of an improved cybersecurity process/strategy/approach.

States' recovery from the economic and health effects of the COVID-19 pandemic and the resultant recession. The Act defines eligible uses of the state and local funding, including responding to public health emergencies, responding to workers performing essential work during the COVID-19 emergency, providing revenue relief to states and making investments in water, sewer, and broadband infrastructure.

This is an allowable use of ARP FRF funds under Section 602 (c)(1)(D) to make necessary investments in water, sewer, or broadband infrastructure.

In accordance with the final rule from the US Treasury Department for water and wastewater infrastructure investments, project eligibility is aligned with the Environmental Protection Agency's Clean Water State Revolving Fund (CWSRF) and Drinking Water State Revolving Fund (DWSRF). This project is an eligible CWSRF and DWSRF Infrastructure project.

In the event that federal funds become no longer available, General funds will not be requested to support this program. This agreement has been approved by the Attorney General's Office as to form, substance, and execution.
