EXPLANATION

The purpose of this request is for the Contractor to provide courier services, statewide, to ensure the safe and prompt delivery of laboratory supplies, time or temperature-sensitive clinical specimens, and environmental samples to and from the Department and other Department-approved locations. The Contractor will also follow protocols that ensure the integrity, security, and chain of custody of all transported materials throughout the delivery process.

The Contractor will provide on-demand same-day delivery of samples and laboratory supplies for clinical diagnosis, emergency outbreak response, and wastewater surveillance to and from Department-approved locations. The Contractor will maintain a reliable method of communication with the Department at all times while transporting specimens and samples to enable real-time updates on the status and location of deliveries, notification of any delays or incidents during transit, and immediate coordination in the event of emergencies or special handling requirements. These services are critical to ensuring the timely and efficient transport of materials needed for laboratory testing and supporting the rapid detection, monitoring, and response to public health risk to the public.

The Department anticipates the Contractor will complete approximately 750 deliveries per State Fiscal Year.

The Department will monitor services by:

Her Excellency, Governor Kelly A. Ayotte
and the Honorable Council
Page 2 of 2

- Evaluating the promptness and reliability of deliveries and pickups, especially for same-day and emergency requests.
- Verifying that courier services are consistently available 24/7 to meet public health demands.
- Monitoring responsiveness and clarity of communication during transport and reviewing incident reports or delivery deviations as necessary.

The Department selected the Contractor through a competitive bid process using a Request for Proposals (RFP) that was posted on the Department's website from February 13, 2025, through March 19, 2025. The Department received five (5) responses that were reviewed and scored by a team of qualified individuals. The Scoring Sheet is attached.

As referenced in Exhibit A, Revisions to Standard Contract Provisions, of the attached contract, the parties have the option to extend the agreement for up to four (4) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties, and Governor and Council approval.

Should the Governor and Council not authorize this request, the Department will not have access to services for the safe, reliable transit of laboratory supplies and specimens which will impact the Department's ability to perform timely testing and notification of public health threats to New Hampshire residents.
