EXPLANATION

The purpose of this request is to modify the scope of work for the existing contracts to expand the pool of potential home visitors for the Comprehensive Family Support Services (CFSS) program by reducing the minimum education requirement for Paraprofessional Home Visitors from a bachelor's degree to an associate's degree. Due to the supervisory levels and management structure, quality of services will not be impacted. Comprehensive Family Support Services promotes family wellness, decreasing family stressors, preventing child abuse and neglect, juvenile justice involvement, and providing education and support to parents and caregivers. Families are provided with assistance to access services they need and want in their home communities that strengthen the family and provide parents with an opportunity to learn and grow. Specialized training for staff is provided to ensure comprehensive knowledge, quality skills and abilities are applied in these services.

Approximately 1,200 families are served annually.

Contractors will continue serving pregnant and parenting women, and families with children under the age of 21 years old, who are in need of assistance and support with parenting, health and nutrition, education, and employment. Families served may be experiencing stressors such as, but not limited to, unemployment, social isolation, substance misuse, and health issues.

Contractors will continue providing evidence-informed, trauma-informed, integrated, whole family services with the goal of promoting and strengthening family health and wellness, and preventing child maltreatment. Contractors will continue assisting families with accessing a variety of parenting, economic, and public health supports based on the needs presented. All services are strength-based, focus on the whole family, voluntary, and guided by the family.

The Department will continue monitoring services by:

- Reviewing consumer satisfaction data, which must indicate a minimum of 80% favorable rating.
- Monitoring long-term program outcomes, including increasing outreach to high-risk populations, increasing the share of referred families who enroll in services, and increasing service completion rates.

Should the Governor and Executive Council not authorize this request, the flexibility of community-based family services may not be available to address the needs of children and families throughout the state, which could cause an increase of involvement of services through the Division for Children, Youth and Families, as these services help to prevent child maltreatment and promote child and family wellbeing.

EXPLANATION

This request is **Retroactive** because the Department did not have the fully executed contract documents in time for Governor and Executive Council approval to prevent a lapse in coverage between these new contracts and the existing contracts which expired June 30, 2020. The Department extended the deadline for the submittal of proposals due to the COVID-19 pandemic. Proposals were initially due at the start of the State of Emergency; the prospective proposers needed additional time to respond to the Request for Proposal. The Department's decisions to allow proposers additional time to respond caused the original timeline to be extended.

The purpose of this request is to provide Comprehensive Family Support Services (CFSS) by promoting family wellness, decreasing family stressors and preventing child abuse, neglect, as well as, juvenile justice involvement, and by providing education and support. Services are designed to enable families to access the services they need and want in their home communities. These prevention services strengthen parents, enabling families an opportunity to learn and grow.

The population to be served will be pregnant, parenting women and families with children under the age of 21 years, who are in need of assistance and support with parenting, health and nutrition; education; and employment. Families served may be experiencing stressors such as, but not limited to, unemployment, social isolation; substance misuse; and health issues.

Approximately 1200 families will be served each year.

These Contractors will support families by providing evidence-informed, trauma-informed, integrated, whole family services. Primary goals are to promote and strengthen family health and wellness, and to prevent child maltreatment. Contractors will assist families with accessing a variety of parenting, economic, and public health supports based on the needs presented. All services are strength-based, focus on the whole family, voluntary and guided by the family.

The Department will monitor contracted services by:

- Reviewing consumer satisfaction data, which must indicate a minimum of 80% favorable rating.
- Monitoring long-term program outcomes, including increasing outreach to high-risk populations; increasing the share of referred families who enroll in services; and increasing service completion rates.

The Department selected the Contractors through a competitive bid process using a Request for Proposals (RFP) that was posted on the Department's website from 3/3/2020 through 4/8/2020. The Department received 11 responses that were reviewed and scored by a team of qualified individuals. The Scoring Sheet is attached.

As referenced in Exhibit A, Revisions to Standard Contract Provisions, of the attached contracts, the parties have the option to extend the agreements for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties, and Governor and Council approval.

Should the Governor and Council not authorize this request, the flexibility of community-based family services may not be available to address the needs of children and families throughout the state, which could cause an increase of involvement of services through the Division for Children, Youth and Families, as these services help to prevent child maltreatment and promote child and family wellbeing.

2. SERVICES TO BE PERFORMED. The State of New Hampshire, acting through the agency identified in block 1.1 ("State"), engages contractor identified in block 1.3 ("Contractor") to perform, and the Contractor shall perform, the work or sale of goods, or both, identified and more particularly described in the attached EXHIBIT B which is incorporated herein by reference ("Services").

3. EFFECTIVE DATE/COMPLETION OF SERVICES.

3.1 Notwithstanding any provision of this Agreement to the contrary, and subject to the approval of the Governor and Executive Council of the State of New Hampshire, if applicable, this Agreement, and all obligations of the parties hereunder, shall become effective on the date the Governor and Executive Council approve this Agreement as indicated in block 1.17, unless no such approval is required, in which case the Agreement shall become effective on the date the Agreement is signed by the State Agency as shown in block 1.13 ("Effective Date").

3.2 If the Contractor commences the Services prior to the Effective Date, all Services performed by the Contractor prior to the Effective Date shall be performed at the sole risk of the Contractor, and in the event that this Agreement does not become effective, the State shall have no liability to the Contractor, including without limitation, any obligation to pay the Contractor for any costs incurred or Services performed. Contractor must complete all Services by the Completion Date specified in block 1.7.

4. CONDITIONAL NATURE OF AGREEMENT.

Notwithstanding any provision of this Agreement to the contrary, all obligations of the State hereunder, including, without limitation, the continuance of payments hereunder, are contingent upon the availability and continued appropriation of funds affected by any state or federal legislative or executive action that reduces, eliminates or otherwise modifies the appropriation or availability of funding for this Agreement and the Scope for Services provided in EXHIBIT B, in whole or in part. In no event shall the State be liable for any payments hereunder in excess of such available appropriated funds. In the event of a reduction or termination of appropriated funds, the State shall have the right to withhold payment until such funds become available, if ever, and shall have the right to reduce or terminate the Services under this Agreement immediately upon giving the Contractor notice of such reduction or termination. The State shall not be required to transfer funds from any other account or source to the Account identified in block 1.6 in the event funds in that Account are reduced or unavailable.

5. CONTRACT PRICE/PRICE LIMITATION/ PAYMENT.

5.1 The contract price, method of payment, and terms of payment are identified and more particularly described in EXHIBIT C which is incorporated herein by reference.

5.2 The payment by the State of the contract price shall be the only and the complete reimbursement to the Contractor for all expenses, of whatever nature incurred by the Contractor in the performance hereof, and shall be the only and the complete compensation to the Contractor for the Services. The State shall have no liability to the Contractor other than the contract price.

5.3 The State reserves the right to offset from any amounts otherwise payable to the Contractor under this Agreement those liquidated amounts required or permitted by N.H. RSA 80:7 through RSA 80:7-c or any other provision of law.

5.4 Notwithstanding any provision in this Agreement to the contrary, and notwithstanding unexpected circumstances, in no event shall the total of all payments authorized, or actually made hereunder, exceed the Price Limitation set forth in block 1.8.

6. COMPLIANCE BY CONTRACTOR WITH LAWS AND REGULATIONS/ EQUAL EMPLOYMENT OPPORTUNITY.

6.1 In connection with the performance of the Services, the Contractor shall comply with all applicable statutes, laws, regulations, and orders of federal, state, county or municipal authorities which impose any obligation or duty upon the Contractor, including, but not limited to, civil rights and equal employment opportunity laws. In addition, if this Agreement is funded in any part by monies of the United States, the Contractor shall comply with all federal executive orders, rules, regulations and statutes, and with any rules, regulations and guidelines as the State or the United States issue to implement these regulations. The Contractor shall also comply with all applicable intellectual property laws.

6.2 During the term of this Agreement, the Contractor shall not discriminate against employees or applicants for employment because of race, color, religion, creed, age, sex, handicap, sexual orientation, or national origin and will take affirmative action to prevent such discrimination.

6.3. The Contractor agrees to permit the State or United States access to any of the Contractor's books, records and accounts for the purpose of ascertaining compliance with all rules, regulations and orders, and the covenants, terms and conditions of this Agreement.

7. PERSONNEL.

7.1 The Contractor shall at its own expense provide all personnel necessary to perform the Services. The Contractor warrants that all personnel engaged in the Services shall be qualified to perform the Services, and shall be properly licensed and otherwise authorized to do so under all applicable laws.

This provision shall survive termination of this Agreement.

8.3. No failure by the State to enforce any provisions hereof after any Event of Default shall be deemed a waiver of its rights with regard to that Event of Default, or any subsequent Event of Default. No express failure to enforce any Event of Default shall be deemed a waiver of the right of the State to enforce each and all of the provisions hereof upon any further or other Event of Default on the part of the Contractor.

9. TERMINATION.

9.1 Notwithstanding paragraph 8, the State may, at its sole discretion, terminate the Agreement for any reason, in whole or in part, by thirty (30) days written notice to the Contractor that the State is exercising its option to terminate the Agreement.

   I. For the proper management and administration of the Business Associate;
   II. As required by law, pursuant to the terms set forth in paragraph d. below; or
   III. For data aggregation purposes for the health care operations of Covered Entity.

Associate shall refrain from disclosing the PHI until Covered Entity has exhausted all remedies.

e. If the Covered Entity notifies the Business Associate that Covered Entity has agreed to be bound by additional restrictions over and above those uses or disclosures or security safeguards of PHI pursuant to the Privacy and Security Rule, the Business Associate shall be bound by such additional restrictions and shall not disclose PHI in violation of such additional restrictions and shall abide by any additional security safeguards.

(3) **Obligations and Activities of Business Associate.**

a. The Business Associate shall notify the Covered Entity's Privacy Officer immediately after the Business Associate becomes aware of any use or disclosure of protected health information not provided for by the Agreement including breaches of unsecured protected health information and/or any security incident that may have an impact on the protected health information of the Covered Entity.

b. The Business Associate shall immediately perform a risk assessment when it becomes aware of any of the above situations. The risk assessment shall include, but not be limited to:

- The nature and extent of the protected health information involved, including the types of identifiers and the likelihood of re-identification;
- The unauthorized person used the protected health information or to whom the disclosure was made;

d. Business Associate shall make available all of its internal policies and procedures, books and records relating to the use and disclosure of PHI received from, or created or received by the Business Associate on behalf of Covered Entity to the Secretary for purposes of determining Covered Entity's compliance with HIPAA and the Privacy and Security Rule.

f. Within five (5) business days of receipt of a written request from Covered Entity, Business Associate shall make available during normal business hours at its offices all records, books, agreements, policies and procedures relating to the use and disclosure of PHI to the Covered Entity, for purposes of enabling Covered Entity to determine Business Associate's compliance with the terms of the Agreement.

j. Within ten (10) business days of receiving a written request from Covered Entity for a request for an accounting of disclosures of PHI, Business Associate shall make available to Covered Entity such information as Covered Entity may require to fulfill its obligations to provide an accounting of disclosures with respect to PHI in accordance with 45 CFR Section 164.528.

k. In the event any individual requests access to, amendment of, or accounting of PHI directly from the Business Associate, the Business Associate shall within two (2) business days forward such request to Covered Entity. INDEPENDENT AUDITORS' REPORT

To the Board of Directors of
Lakes Region Community Services Council, Inc.

Opinion

We have audited the accompanying financial statements of Lakes Region Community Services Council, Inc. (a nonprofit organization), which comprise the statements of financial position as of June 30, 2024 and 2023, and the related statements of cash flows, and notes to the financial statements for the years then ended, and the related statements of activities and functional expenses for the year ended June 30, 2024.

In our opinion, the financial statements present fairly, in all material respects, the financial position of Lakes Region Community Services Council, Inc. as of June 30, 2024 and 2023, and the changes in its cash flows for the years then ended, and the changes in its net assets for the year ended June 30, 2024 in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Lakes Region Community Services Council, Inc. and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Lakes Region Community Services Council, Inc.'s ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Lakes Region Community Services Council, Inc.'s internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Lakes Region Community Services Council, Inc.'s ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The schedule of functional revenues on pages 21-23 is presented for purposes of additional analysis and is not a required part of the financial statements. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of functional revenues and the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 13, 2024, on our consideration of Lakes Region Community Services Council, Inc.'s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Lakes Region Community Services Council, Inc.'s internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Lakes Region Community Services Council, Inc.'s internal control over financial reporting and compliance.

Report on Summarized Comparative Information

We have previously audited the Lakes Region Community Services Council, Inc.'s June 30, 2023 financial statements, and we expressed an unmodified opinion on those audited financial statements in our report dated January 15, 2024. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2023, is consistent, in all material respects, with the audited financial statements from which it has been derived.

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

Lakes Region Community Services Council, Inc. (the Council) is a New Hampshire nonprofit corporation organized exclusively for charitable purposes to ensure there is a coordinated and efficient program of human services dealing effectively with the problems and needs of the developmentally impaired of Belknap County, lower Grafton County and the surrounding communities.

Basis of Accounting

The financial statements of Lakes Region Community Services Council, Inc. have been prepared on the accrual basis of accounting.

Basis of Presentation

The financial statements of the Council have been prepared in accordance with U.S. generally accepted accounting principles (US GAAP), which require the Council to report information regarding its financial position and activities according to the following net asset classifications:

Net assets without donor restrictions – Net assets that are not subject to donor-imposed restrictions and may be expended for any purpose in performing the primary objectives of the Council. These net assets may be used at the discretion of the Council's management and board of directors.

Net assets with donor restrictions – Net assets subject to stipulations imposed by donors and grantors. Some donor restrictions are temporary in nature; those restrictions will be met by actions of the Council or by passage of time. Other donor restrictions are perpetual in nature, whereby the donor has stipulated the funds be maintained in perpetuity.

Donor restricted contributions are reported as increases in net assets with donor restrictions. When a restriction expires, net assets are reclassified from net assets with donor restrictions to net assets without donor restrictions in the statement of activities.

As of June 30, 2024 and 2023, the Council had net assets with donor restrictions and net assets without donor restrictions.

Cash and Cash Equivalents

For the purposes of the Statements of Cash Flows, the Council considers all demand deposits, money market funds, and short-term investments with original maturities of three months or less to be cash equivalents.

Certificates of Deposit

During the year ended June 30, 2023, the Council opened a certificate of deposit account. Interest was stated at 4.02% and maturity was seven months from the issue date. The Certificate of deposit matured in May 2024. Certificates of deposit are carried at fair value. Interest is accrued and recognized in income when earned.

Accounts Receivable

Accounts receivable are stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible amounts through a charge to activities and a credit to a valuation allowance based on historical account write-off patterns by the payor, adjusted as necessary to reflect current conditions. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to accounts receivable.

The Council has no policy for charging interest on overdue accounts nor are its accounts receivable pledged as collateral, except as disclosed in Note 4.

It is the policy of the Council to provide services to all eligible residents of central New Hampshire without regard to ability to pay. As a result of this policy, all charity care write-offs are recorded as reductions in revenue in the period in which services are provided. The accounts receivable allowance includes the estimated amount of charity care and contractual allowances included in the accounts receivable balances. The computation of the contractual allowance is based on historical ratios of fees charged to amounts collected.

Contributions

All contributions are considered to be available for unrestricted use unless specifically restricted by the donor. Amounts received that are restricted by the donor for future periods or for specific purposes are reported as net assets with donor restrictions, depending on the nature of the restrictions. However, if a restriction is fulfilled in the same period in which the contribution is received, the Council reports the support as net assets without donor restrictions.

Property and Depreciation

Property and equipment are recorded at cost or, if contributed, at estimated fair value at the date of contribution. Material assets with a useful life in excess of one year are capitalized. Depreciation is provided for using the straight-line method in amounts designed to amortize the cost of the assets over their estimated useful lives as follows:

Buildings and improvements	5 - 40 Years
Furniture, fixtures and equipment	3 - 10 Years

Costs for repairs and maintenance are expensed when incurred and betterments are capitalized. Assets sold or otherwise disposed of are removed from the accounts, along with the related accumulated depreciation, and any gain or loss is recognized.

Fair Value of Financial Instruments

FASB ASC Topic No. 820-10, Financial Instruments, provides a definition of fair value which focuses on an exit price rather than an entry price, establishes a framework in generally accepted accounting principles for measuring fair value which emphasizes that fair value is a market-based measurement, not an entity-specific measurement, and requires expanded disclosures about fair value measurements. In accordance with ASC 820-10, the Council may use valuation techniques consistent with market, income and cost approaches to measure fair value. As a basis for considering market participant assumptions in fair value measurements, Topic 820-10 establishes a fair value hierarchy, which prioritizes the inputs used in measuring fair values. The hierarchy gives the highest priority to Level 1 measurements and the lowest priority to Level 3 measurements. The three levels of the fair value hierarchy under ASC Topic 820-10 are described as follows:

> **Level 1** – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date.
>
> ***Level 2*** - Inputs to the valuation methodology are other than quoted market prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies.
>
> ***Level 3*** - Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

The carrying amount of cash, certificates of deposit, short-term receivables and payables, and customer deposits, approximates fair value because of the short maturity of those instruments.

Refundable Advances

Grants received in advance are recorded as refundable advances and recognized as revenue in the period in which the related services or expenditures are incurred.

Summarized Financial Information

The financial statements include certain prior-year summarized comparative information in total but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the Council's financial statements for the year ended June 30, 2023, from which the summarized information was derived.

Accrued Earned Time

The Council has accrued a liability for future compensated leave time that its employees have earned and which is vested with the employee.

Revenue Recognition

In May of 2014, the FASB issued Accounting Standards Update (ASU) 2014-09, *Revenue from Contracts with Customers (Topic 606).* This ASU is a comprehensive revenue recognition model that requires an organization to recognize revenue to depict the transfer of goods or services to a customer at an amount that reflects the consideration it expects to receive in exchange for those goods or services. Contracts and transactions with customers predominantly contain a single performance obligation.

The Council records the following exchange transaction revenue in its statements of activities for the years ended June 30, 2024 and 2023:

Day Services – The Council provides certain services which range from birth through lifespan. Examples of these services are early supports and services, respite, family support, in home supports, service coordination, employment services, supported independent living, non-medical support for the elderly in their home, and self-directed services. All revenue is recognized upon completion of the service.

Residential Services – The Council provides certain residential assistance through contractual arrangements with other vendor providers as well as the shared family living model and Lakes Region Community Services staffed homes with 24-hour supervision. All revenue is recognized upon completion of the service.

Income Taxes

The Council is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code. The Internal Revenue Service has determined the Council to be other than a private foundation.

Management has evaluated the Council's tax positions and concluded that the Council has maintained its tax-exempt status and has taken no uncertain tax positions that would require adjustment to the financial statements.

Advertising

The Council expenses advertising costs as incurred.

Functional Allocation of Expenses

The costs of providing the various programs and other activities have been summarized on a functional basis. Accordingly, costs have been allocated among the program services and supporting activities benefited. Such allocations have been determined by management on an equitable basis.

Docusign Envelope ID: DB743178-0106-4C94-BD47-43D4DCEB1607

The expenses that are allocated include the following:

Expense	Method of allocation
Salaries and benefits	Time and effort
Occupancy	Square footage
Depreciation	Direct assignment
All other expenses	Direct assignment

Accounting Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

New Accounting Pronouncement

As of July 1, 2023, the Council adopted the provisions of the Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) 2016-13, *Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments,* as amended, which modifies the measurement of expected credit losses on certain financial instruments. The Council adopted this new guidance utilizing the modified retrospective transition method. The adoption of this Standard did not have a material impact on the Council's financial statements but did change how the allowance for credit losses is determined.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Directors of
Lakes Region Community Services Council, Inc.

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Lakes Region Community Services Council, Inc. (a New Hampshire nonprofit organization), which comprise the statements of financial position as of June 30, 2024 and 2023, and the related statements of cash flows, and the related notes to the financial statements for the years then ended, and the related statements of activities and functional expenses for the year ended June 30, 2024, and have issued our report thereon dated December 13, 2024.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Lakes Region Community Services Council, Inc.'s internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Lakes Region Community Services Council, Inc.'s internal control. Accordingly, we do not express an opinion on the effectiveness of Lakes Region Community Services Council, Inc.'s internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Docusign Envelope ID: DB743178-0106-4C94-BD47-43D4DCEB1607

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Lakes Region Community Services Council, Inc.'s financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

LAKES REGION COMMUNITY SERVICES COUNCIL, INC.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Board of Directors of
Lakes Region Community Services Council, Inc.

Opinion on Each Major Federal Program

We have audited Lakes Region Community Services Council, Inc.'s compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Lakes Region Community Services Council, Inc.'s major federal programs for the year ended June 30, 2024. Lakes Region Community Services Council, Inc.'s major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, Lakes Region Community Services Council, Inc. complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2024.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Lakes Region Community Services Council, Inc. and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Lakes Region Community Services Council, Inc.'s compliance with the compliance requirements referred to above.

Docusign Envelope ID: DB743178-0106-4C94-BD47-43D4DCEB1607

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Lakes Region Community Services Council, Inc.'s federal programs.

Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Lakes Region Community Services Council, Inc.'s compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Lakes Region Community Services Council, Inc.'s compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Lakes Region Community Services Council, Inc.'s compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.

- Obtain an understanding of Lakes Region Community Services Council, Inc.'s internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Lakes Region Community Services Council, Inc.'s internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

EXPLANATION

The purpose of this request is for the Contractors to ensure the continuity of Comprehensive Family Support Services (CFSS) by providing home visiting services statewide to pregnant and parenting caregivers and families with children under 18 years of age. Home visiting services provide access to a variety of parenting, economic, and public health supports based on individuals' needs.

Docusign Envelope ID: DB743178-0106-4C94-BD47-43D4DCEB1607

Contractors will expand services by designating staff as "Newborn Navigators" within the CFSS program. Newborn Navigators will focus on outreach and engagement of families with newborns through a one-time, postpartum home visit. This service will allow the Contractors to reach more families and increase newborn families' connections to community-based resources that support maternal, family, and child health outcomes, as well as reduce the risk of child maltreatment.

The CFSS home visiting program provides preventative services at no cost to families, including household management, child development and maternal depression screenings, case management, and resource referrals such as nutrition support, childcare, and economic mobility support.

Approximately 1,250 families will be served each year. As a result, an average of 2,242 children and 1,592 adults will engage in services annually.

The Department will monitor services by:

- Reviewing the activities and outcome measures identified in the quarterly reports submitted by the Contractor.
- Quarterly meetings with the Contractor to ensure continued compliance with contractual requirements.
- Reviewing Contractor expenditures and conducting data quality assurance activities every month.
- Reviewing consumer satisfaction data, which must indicate an 80% favorable rating at minimum.
- Monitoring long-term program outcomes, including increasing outreach to high-risk populations, increasing the share of referred families who enroll in services, and increasing service completion rates.

As referenced in Exhibit A, Revisions to Standard Contract Provisions, of the original agreements, the parties have the option to extend the agreements for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and Governor and Council approval. The Department is exercising its option to renew services for two (2) years of the two (2) years available.

Should the Governor and Council not authorize this request, the Department will have limited capacity to provide community-based home-visiting services to children and families statewide which help prevent child maltreatment and promote child and family wellbeing.

In the event that the Federal Funds become no longer available, additional General Funds will not be requested to support this program.

Respectfully submitted,

Lori A. Weaver
Commissioner

EXPLANATION

The purpose of this request is to modify the scope of work for the existing contracts to expand the pool of potential home visitors for the Comprehensive Family Support Services (CFSS) program by reducing the minimum education requirement for Paraprofessional Home Visitors from a bachelor's degree to an associate's degree. Due to the supervisory levels and management structure, quality of services will not be impacted. Comprehensive Family Support Services promotes family wellness, decreasing family stressors, preventing child abuse and neglect, juvenile justice involvement, and providing education and support to parents and caregivers. Families are provided with assistance to access services they need and want in their home communities that strengthen the family and provide parents with an opportunity to learn and grow. Specialized training for staff is provided to ensure comprehensive knowledge, quality skills and abilities are applied in these services.

Approximately 1,200 families are served annually.

Contractors will continue serving pregnant and parenting women, and families with children under the age of 21 years old, who are in need of assistance and support with parenting, health and nutrition, education, and employment. Families served may be experiencing stressors such as, but not limited to, unemployment, social isolation, substance misuse, and health issues.

Contractors will continue providing evidence-informed, trauma-informed, integrated, whole family services with the goal of promoting and strengthening family health and wellness, and preventing child maltreatment. Contractors will continue assisting families with accessing a variety of parenting, economic, and public health supports based on the needs presented. All services are strength-based, focus on the whole family, voluntary, and guided by the family.

The Department will continue monitoring services by:

- Reviewing consumer satisfaction data, which must indicate a minimum of 80% favorable rating.
- Monitoring long-term program outcomes, including increasing outreach to high-risk populations, increasing the share of referred families who enroll in services, and increasing service completion rates.

Should the Governor and Executive Council not authorize this request, the flexibility of community-based family services may not be available to address the needs of children and families throughout the state, which could cause an increase of involvement of services through the Division for Children, Youth and Families, as these services help to prevent child maltreatment and promote child and family wellbeing.

EXPLANATION

This request is **Retroactive** because the Department did not have the fully executed contract documents in time for Governor and Executive Council approval to prevent a lapse in coverage between these new contracts and the existing contracts which expired June 30, 2020. The Department extended the deadline for the submittal of proposals due to the COVID-19 pandemic. Proposals were initially due at the start of the State of Emergency; the prospective proposers needed additional time to respond to the Request for Proposal. The Department's decisions to allow proposers additional time to respond caused the original timeline to be extended.

The purpose of this request is to provide Comprehensive Family Support Services (CFSS) by promoting family wellness, decreasing family stressors and preventing child abuse, neglect, as well as, juvenile justice involvement, and by providing education and support. Services are designed to enable families to access the services they need and want in their home communities. These prevention services strengthen parents, enabling families an opportunity to learn and grow.

The population to be served will be pregnant, parenting women and families with children under the age of 21 years, who are in need of assistance and support with parenting, health and nutrition; education; and employment. Families served may be experiencing stressors such as, but not limited to, unemployment, social isolation; substance misuse; and health issues.

Approximately 1200 families will be served each year.

These Contractors will support families by providing evidence-informed, trauma-informed, integrated, whole family services. Primary goals are to promote and strengthen family health and wellness, and to prevent child maltreatment. Contractors will assist families with accessing a variety of parenting, economic, and public health supports based on the needs presented. All services are strength-based, focus on the whole family, voluntary and guided by the family.

The Department will monitor contracted services by:

- Reviewing consumer satisfaction data, which must indicate a minimum of 80% favorable rating.
- Monitoring long-term program outcomes, including increasing outreach to high-risk populations; increasing the share of referred families who enroll in services; and increasing service completion rates.

The Department selected the Contractors through a competitive bid process using a Request for Proposals (RFP) that was posted on the Department's website from 3/3/2020 through 4/8/2020. The Department received 11 responses that were reviewed and scored by a team of qualified individuals. The Scoring Sheet is attached.

As referenced in Exhibit A, Revisions to Standard Contract Provisions, of the attached contracts, the parties have the option to extend the agreements for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties, and Governor and Council approval.

Should the Governor and Council not authorize this request, the flexibility of community-based family services may not be available to address the needs of children and families throughout the state, which could cause an increase of involvement of services through the Division for Children, Youth and Families, as these services help to prevent child maltreatment and promote child and family wellbeing.

The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

f. Within five (5) business days of receipt of a written request from Covered Entity, Business Associate shall make available during normal business hours at its offices all records, books, agreements, policies and procedures relating to the use and disclosure of PHI to the Covered Entity, for purposes of enabling Covered Entity to determine Business Associate's compliance with the terms of the Agreement.

Independent Auditors' Report

To the Board of Directors of
TLC Family Resource Center, Inc.
Claremont, New Hampshire

Opinion

We have audited the accompanying financial statements of TLC Family Resource Center, Inc. (a nonprofit corporation, the "Center"), which comprise the statement of financial position as of June 30, 2024, and the related statements of activities and changes in net assets, functional expenses and cash flows for the year then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of TLC Family Resource Center, Inc. as of June 30, 2024, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibility section of our report. We are required to be independent of the Center and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Center's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists.

Docusign Envelope ID: 8613DB3D-0358-49D9-A47F-339D07299BB8

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Misstatements, including omissions, are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Center's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Center's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Report on Summarized Comparative Information

We have previously audited the Center's 2023 financial statements and we expressed an unmodified opinion on them in our report dated February 23, 2024. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2023, is consistent, in all material respects, with the audited financial statements from which it has been derived.

TLC Family Resource Center, Inc.
Notes to Financial Statements
June 30, 2024 and 2023

1. Summary of Operations and Significant Accounting Policies

TLC Family Resource Center, Inc., (the "Center") is a non-profit organization established in 2004 for the purpose of promoting the physical and emotional health and safety of women and families expecting infants or with young children. In 2012, services were expanded to include youth programming for teens, and in 2018, Recovery Support services were added. The Center serves individuals in New Hampshire's Sullivan and lower Grafton counties. Approximately 35% of the Center's revenue and support comes from governmental financial assistance, 47% from program services, and 18% from contributions.

(a) Basis of Accounting

The accompanying financial statements are prepared using the accrual basis of accounting under U.S. generally accepted accounting principles (U.S. GAAP). Under the accrual basis of accounting, revenues are recorded as earned and expenses are recorded at the time liabilities are incurred.

(b) Financial Statement Presentation

The Center reports information regarding its financial position and activities according to two classes of net assets: net assets with donor restrictions, which represent resources restricted by donors as to purpose or by the passage of time; and net assets without donor restrictions, which represent the expendable resources that are available for operations at management's discretion.

(c) Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(d) Property and Equipment

Property and equipment are stated at cost. Donations of property and equipment are recorded at their estimated fair value. Depreciation is computed using the straight-line method over the assets' estimated useful lives. Additions and betterments with a value in excess of $2,500 and with a useful life greater than one year are capitalized, and expenditures for repairs and maintenance are expensed when incurred. Upon sale or retirement, the costs and related accumulated depreciation are eliminated from the respective accounts, and the resulting gain or loss is included in income.

(e) Accrued Compensated Absences

The Center provides each eligible employee with vacation time, which is accumulated on a pro-rata basis as actual hours are worked. Compensated absences accrue when amounts can be reasonably estimated and payment of compensation is probable.

Summary of Operations and Significant Accounting Policies (continued)

(f) Cash and cash equivalents

Cash and cash equivalents include all certificates of deposits and highly liquid investments with maturities of three months or less at the date of purchase. The Center maintains cash and cash equivalents in bank deposit accounts which, at times, may exceed federally insured limits. The Center has not experienced any losses with these accounts. In January 2023 the Center opened a sweep account which allows the Center's cash accounts to maintain balances below the federally insured limits. Management believes the Center is not exposed to any significant credit risk on cash.

(g) Comparative Data

The financial statements include certain prior year summarized comparative information in total but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with U.S. GAAP. Accordingly, such information should be read in conjunction with the Center's financial statements for the year ended June 30, 2023 from which the summarized information was derived

(h) Revenue Recognition

The Center's fees for programs and services provided are recognized when earned, which is within the time period covered by the services or program. The Center records contributions as with donor restrictions or without donor restrictions support depending on the existence or nature of donor restrictions. The Center reports gifts and grants of cash or other assets as restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is when a stipulated restriction ends or purpose restriction is accomplished, net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statement of activities as net assets released from restrictions.

Contributions of non-cash assets are recorded at their fair values in the period received. Contributions of services that create or enhance non-financial assets or that require specialized skills, which are provided by individuals possessing those skills and would typically need to be purchased if not provided by donation, are recorded at their fair values in the period received. Donated investments are also reported at fair value at the date of receipt, which is then treated as the Center's cost basis.

(i) Functional Expenses

The costs of providing programs and other activities have been summarized on a functional basis in the statements of activities and changes in net assets and functional expenses. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

The financial statements report certain categories of expenses that are attributed to more than one program or supporting function. Therefore, expenses require allocation on a reasonable basis that is consistently applied. Most expenses are allocated on the basis of estimates of average time and effort. Certain prior year amounts have been reclassified for consistency with the current period presentation. These reclassifications had no effect on the reported changes in net assets.

Summary of Operations and Significant Accounting Policies (continued)

(j) Receivables

On July 1, 2023, the Center adopted FASB ASU 2016-13, *Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments*, as amended which modifies the measurement of expected credit losses on certain financial instruments. The Center adopted this new guidance utilizing the modified retrospective transition method. The adoption of this standard did not have a material impact on the Center's financial statements but did change how the allowance for credit losses is determined.

Receivables are stated at unpaid balances, less an allowance for credit losses. The measurement of expected credit losses is based on relevant information about past events, including historical experience, current conditions, and reasonable and supportable forecasts that affect the collectability of the reported amount. Management uses judgement in determining the relevant information and estimation methods that are appropriate in its circumstances. Receivables balances are written off against the allowance if a final determination of collectability is made. Management has not recorded an allowance as of June 30, 2024 and 2023 as management believes all amounts are deemed collectible. Accounts and grants receivable as of June 30, 2024, 2023 and July 1, 2022 were $453,644, $487,055, and $367,355, respectively.

(k) Income Taxes

The Center is a not-for-profit organization as described under Section 501(c)(3) of the Internal Revenue Code and is exempt from federal income taxes on income related to the fulfillment of the Center's mission. Accordingly, no provision for income taxes has been recorded in the accompanying financial statements.

The Center annually files an Internal Revenue Service Form 990, Return of Organization Exempt From Income Tax, tax return in the U.S. Federal jurisdiction. The Center is no longer subject to U.S. Federal income tax examination by tax authorities for the years prior to June 30, 2021. In the normal course of business, the Center is subject to examination by various taxing authorities. Although the outcome of tax audits is always uncertain, the management of the Center believes that there are no significant unrecognized tax liabilities at June 30, 2024.

(l) Leases

The Center recognizes a right-of-use (ROU) asset and lease liability on the statements of financial position for all leases with terms longer than 12 months. Leases are classified as operating or financing, with classification affecting the expense recognition on the statement of activities.

Leases that have a term of twelve months or less upon commencement are considered short-term in nature. Short-term leases are not included on the statements of financial position and are expensed on a straight-line basis over the lease term. The Center has also elected to not separate lease and non-lease components for all classes of assets.

The Center primarily leases office space. The Center determines if an arrangement is an operating or financing lease at inception. In evaluating whether an agreement constitutes a lease, management reviews the contractual terms to determine which party obtains both the economic benefits and control of the assets. In arrangements where the Center controls the assets and obtains the economic benefits, the Center accounts for the contract as a lease.

Docusign Envelope ID: 8613DB3D-0358-49D9-A47F-339D07299BB8

Summary of Operations and Significant Accounting Policies (continued)

As the leases do not provide an implicit borrowing rate, the Center uses either the risk-free rate ("RFR") or the estimated incremental borrowing rate ("IBR") to determine the present value of the lease payments. The IBR is the rate of interest that the Center would have to pay to borrow on a collateralized basis over a similar term an amount equal to the lease payments in a similar economic environment. In determining that rate, the Center considers prevailing economic conditions at the commencement date and factors such as company-specific credit risk, term of the lease and options, and the effect of collateralization based on the nature and quality of the underlying asset. The Center uses the IBR for office space.

Operating leases may include fixed minimum lease payments and variable lease payments based on an index or rate. Variable lease payments not based on an index or rate are not included in the operating lease liability as they cannot be reasonably estimated and are recognized in the period in which the obligation for those payments is incurred.

(m) Subsequent Events

Management has evaluated subsequent events through November 22, 2024, which is the date the financial statements were available to be issued.

2. Fair Value Measurements

In accordance with FASB ASC 820, *Fair Value Measurements and Disclosures*, the Center is required to disclose certain information about its financial assets and liabilities. As of June 30, 2024 and 2023, the Center had no financial instruments subject to the disclosure requirements. Cash and cash equivalents, grants and accounts receivable, accounts payable, accrued expenses, and advances refundable are reported in the statements of financial position approximate fair values because of the short maturities of those instruments or because of the fixed rate of interest required to be paid.

3. Concentration of Support

The Center receives a significant portion of its support from federal and state programs. A significant reduction in the level of this support, if this were to occur, may have an effect on the Center's ability to continue its program and activities.

4. Net Assets With Donor Restrictions

Net assets subject to donor imposed restrictions were $334,262 and $469,512 at June 30, 2024 and 2023, respectively. At June 30, 2024 and 2023, net assets are restricted for the following purposes: Recovery, Youth Programming, and Family Support Services.

Docusign Envelope ID: 8613DB3D-0358-49D9-A47F-339D07299BB8

5. Retirement Plan

The Center has established a Simple IRA Retirement Plan for which all employees are eligible to participate in the Plan. Under the Plan, the Center provides a contribution equal to 2% of the employee's compensation. Employees are eligible to participate in the Plan on the next entry date following the date of their employment. Total retirement plan expense was $30,196 and $24,570 for the years ending June 30, 2024 and 2023, respectively.

6. Commitments and Contingencies

The Center receives funds under various state and federal programs. Under the terms of these programs, the Center is required to expend the funds within the designated period for purposes specified in the grant proposal. If expenditures of the funds are found not in compliance with the proposal, the Center may be required to return those funds to the grantor. The amount, if any, of expenses which may be disallowed by the granting agency cannot be determined at this time, although the Center expects such amounts, if any, to be insignificant.

7. Liquidity and Availability

Financial assets available for general expenditure, that is, without donor or other restrictions limiting their use, within one year of the financial position date, comprise the following:

	2024	2023
Cash and cash equivalents	$ 470,179	$ 716,487
Accounts and grants receivable	308,644	190,805
Total financial assets	$ 778,823	$ 907,292

The Center regularly monitors liquidity required to meet its operating needs and other contractual commitments, while also striving to maximize the investment of its available funds. The Center has various sources of liquidity at its disposal, including cash and cash equivalents, and various receivables.

In addition to financial assets available to meet general expenditures over the next 12 months, the Center operates with a balanced budget and anticipates collecting sufficient revenue to cover general expenditures. The Center strives to maintain liquid cash reserves sufficient to cover 90 days of general expenditures. General expenditures include administrative, fundraising and operating expenses.

The Center receives the majority of its funding from grants and contributions which are available to meet annual cash needs for general expenditures. Some funding sources are restricted to specific programs, and are used in accordance with the associated purpose restrictions.

EXPLANATION

The purpose of this request is for the Contractors to ensure the continuity of Comprehensive Family Support Services (CFSS) by providing home visiting services statewide to pregnant and parenting caregivers and families with children under 18 years of age. Home visiting services provide access to a variety of parenting, economic, and public health supports based on individuals' needs.

Docusign Envelope ID: 8613DB3D-0358-49D9-A47F-339D07299BB8

Contractors will expand services by designating staff as "Newborn Navigators" within the CFSS program. Newborn Navigators will focus on outreach and engagement of families with newborns through a one-time, postpartum home visit. This service will allow the Contractors to reach more families and increase newborn families' connections to community-based resources that support maternal, family, and child health outcomes, as well as reduce the risk of child maltreatment.

The CFSS home visiting program provides preventative services at no cost to families, including household management, child development and maternal depression screenings, case management, and resource referrals such as nutrition support, childcare, and economic mobility support.

Approximately 1,250 families will be served each year. As a result, an average of 2,242 children and 1,592 adults will engage in services annually.

The Department will monitor services by:

- Reviewing the activities and outcome measures identified in the quarterly reports submitted by the Contractor.
- Quarterly meetings with the Contractor to ensure continued compliance with contractual requirements.
- Reviewing Contractor expenditures and conducting data quality assurance activities every month.
- Reviewing consumer satisfaction data, which must indicate an 80% favorable rating at minimum.
- Monitoring long-term program outcomes, including increasing outreach to high-risk populations, increasing the share of referred families who enroll in services, and increasing service completion rates.

As referenced in Exhibit A, Revisions to Standard Contract Provisions, of the original agreements, the parties have the option to extend the agreements for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and Governor and Council approval. The Department is exercising its option to renew services for two (2) years of the two (2) years available.

Should the Governor and Council not authorize this request, the Department will have limited capacity to provide community-based home-visiting services to children and families statewide which help prevent child maltreatment and promote child and family wellbeing.

In the event that the Federal Funds become no longer available, additional General Funds will not be requested to support this program.

Respectfully submitted,

Lori A. Weaver
Commissioner

EXPLANATION

The purpose of this request is to modify the scope of work for the existing contracts to expand the pool of potential home visitors for the Comprehensive Family Support Services (CFSS) program by reducing the minimum education requirement for Paraprofessional Home Visitors from a bachelor's degree to an associate's degree. Due to the supervisory levels and management structure, quality of services will not be impacted. Comprehensive Family Support Services promotes family wellness, decreasing family stressors, preventing child abuse and neglect, juvenile justice involvement, and providing education and support to parents and caregivers. Families are provided with assistance to access services they need and want in their home communities that strengthen the family and provide parents with an opportunity to learn and grow. Specialized training for staff is provided to ensure comprehensive knowledge, quality skills and abilities are applied in these services.

Approximately 1,200 families are served annually.

Contractors will continue serving pregnant and parenting women, and families with children under the age of 21 years old, who are in need of assistance and support with parenting, health and nutrition, education, and employment. Families served may be experiencing stressors such as, but not limited to, unemployment, social isolation, substance misuse, and health issues.

Contractors will continue providing evidence-informed, trauma-informed, integrated, whole family services with the goal of promoting and strengthening family health and wellness, and preventing child maltreatment. Contractors will continue assisting families with accessing a variety of parenting, economic, and public health supports based on the needs presented. All services are strength-based, focus on the whole family, voluntary, and guided by the family.

The Department will continue monitoring services by:

- Reviewing consumer satisfaction data, which must indicate a minimum of 80% favorable rating.
- Monitoring long-term program outcomes, including increasing outreach to high-risk populations, increasing the share of referred families who enroll in services, and increasing service completion rates.

Should the Governor and Executive Council not authorize this request, the flexibility of community-based family services may not be available to address the needs of children and families throughout the state, which could cause an increase of involvement of services through the Division for Children, Youth and Families, as these services help to prevent child maltreatment and promote child and family wellbeing.

Respectfully submitted,

Lori A. Shibinette

Funds are available in the following accounts for State Fiscal Year 2021, and are anticipated to be available in State Fiscal Years 2022, 2023 and 2024, upon the availability and continued appropriation of funds in the future operating budget, with the authority to adjust budget line items within the price limitation and encumbrances between state fiscal years through the Budget Office, if needed and justified.

See attached fiscal details.

EXPLANATION

This request is Retroactive because the Department did not have the fully executed contract documents in time for Governor and Executive Council approval to prevent a lapse in coverage between these new contracts and the existing contracts which expired June 30, 2020. The Department extended the deadline for the submittal of proposals due to the COVID-19 pandemic. Proposals were initially due at the start of the State of Emergency; the prospective proposers needed additional time to respond to the Request for Proposal. The Department's decisions to allow proposers additional time to respond caused the original timeline to be extended.

The purpose of this request is to provide Comprehensive Family Support Services (CFSS) by promoting family wellness, decreasing family stressors and preventing child abuse, neglect, as well as, juvenile justice involvement, and by providing education and support. Services are designed to enable families to access the services they need and want in their home communities. These prevention services strengthen parents, enabling families an opportunity to learn and grow.

The population to be served will be pregnant, parenting women and families with children under the age of 21 years, who are in need of assistance and support with parenting, health and nutrition; education; and employment. Families served may be experiencing stressors such as, but not limited to, unemployment, social isolation; substance misuse; and health issues.

Approximately 1200 families will be served each year.

These Contractors will support families by providing evidence-informed, trauma-informed, integrated, whole family services. Primary goals are to promote and strengthen family health and wellness, and to prevent child maltreatment. Contractors will assist families with accessing a variety of parenting, economic, and public health supports based on the needs presented. All services are strength-based, focus on the whole family, voluntary and guided by the family.

The Department will monitor contracted services by:

- Reviewing consumer satisfaction data, which must indicate a minimum of 80% favorable rating.
- Monitoring long-term program outcomes, including increasing outreach to high-risk populations; increasing the share of referred families who enroll in services; and increasing service completion rates.

The Department selected the Contractors through a competitive bid process using a Request for Proposals (RFP) that was posted on the Department's website from 3/3/2020 through 4/8/2020. The Department received 11 responses that were reviewed and scored by a team of qualified individuals. The Scoring Sheet is attached.

As referenced in Exhibit A, Revisions to Standard Contract Provisions, of the attached contracts, the parties have the option to extend the agreements for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties, and Governor and Council approval.

Should the Governor and Council not authorize this request, the flexibility of community-based family services may not be available to address the needs of children and families throughout the state, which could cause an increase of involvement of services through the Division for Children, Youth and Families, as these services help to prevent child maltreatment and promote child and family wellbeing.

The Vendor identified in Section 1.3 of the General Provisions agrees to comply with the provisions of Sections 5151-5160 of the Drug-Free Workplace Act of 1988 (Pub. L. 100-690, Title V, Subtitle D; 41 U.S.C. 701 et seq.), and further agrees to have the Contractor's representative, as identified in Sections 1.11 and 1.12 of the General Provisions execute the following Certification:

ALTERNATIVE I - FOR GRANTEES OTHER THAN INDIVIDUALS

US DEPARTMENT OF HEALTH AND HUMAN SERVICES - CONTRACTORS

This certification is required by the regulations implementing Sections 5151-5160 of the Drug-Free Workplace Act of 1988 (Pub. L. 100-690, Title V, Subtitle D; 41 U.S.C. 701 et seq.). The January 31, 1989 regulations were amended and published as Part II of the May 25, 1990 Federal Register (pages 21681-21691), and require certification by grantees (and by inference, sub-grantees and sub-contractors), prior to award, that they will maintain a drug-free workplace. The Vendor identified in Section 1.3 of the General Provisions agrees to comply with the provisions of Executive Office of the President, Executive Order 12549 and 45 CFR Part 76 regarding Debarment, Suspension, and Other Responsibility Matters, and further agrees to have the Contractor's representative, as identified in Sections 1.11 and 1.12 of the General Provisions execute the following Certification:

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.

7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

b. Business Associate may use or disclose PHI:
   I. For the proper management and administration of the Business Associate;
   II. As required by law, pursuant to the terms set forth in paragraph d. below; or
   III. For data aggregation purposes for the health care operations of Covered Entity.

d. e. If the Covered Entity notifies the Business Associate that Covered Entity has agreed to be bound by additional restrictions over and above those uses or disclosures or security safeguards of PHI pursuant to the Privacy and Security Rule, the Business Associate shall be bound by such additional restrictions and shall not disclose PHI in violation of such additional restrictions and shall abide by any additional security safeguards.

d. Business Associate shall make available all of its internal policies and procedures, books and records relating to the use and disclosure of PHI received from, or created or received by the Business Associate on behalf of Covered Entity to the Secretary for purposes of determining Covered Entity's compliance with HIPAA and the Privacy and Security Rule.

pursuant to this Agreement, with rights of enforcement and indemnification from such business associates who shall be governed by standard Paragraph #13 of the standard contract provisions (P-37) of this Agreement for the purpose of use and disclosure of protected health information.

f. Within five (5) business days of receipt of a written request from Covered Entity, Business Associate shall make available during normal business hours at its offices all records, books, agreements, policies and procedures relating to the use and disclosure of PHI to the Covered Entity, for purposes of enabling Covered Entity to determine Business Associate's compliance with the terms of the Agreement.

j. Within ten (10) business days of receiving a written request from Covered Entity for a request for an accounting of disclosures of PHI, Business Associate shall make available to Covered Entity such information as Covered Entity may require to fulfill its obligations to provide an accounting of disclosures with respect to PHI in accordance with 45 CFR Section 164.528.

k. In the event any individual requests access to, amendment of, or accounting of PHI directly from the Business Associate, the Business Associate shall within two (2) business days forward such request to Covered Entity. Covered Entity shall have the responsibility of responding to forwarded requests. However, if forwarding the individual's request to Covered Entity would cause Covered Entity or the Business Associate to violate HIPAA and the Privacy and Security Rule, the Business Associate shall instead respond to the individual's request as required by such law and notify Covered Entity of such response as soon as practicable.

l. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity, all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. If return or destruction is not feasible, or the disposition of the PHI has been otherwise agreed to in the Agreement, Business Associate shall continue to extend the protections of the Agreement, to such PHI and limit further uses and disclosures of such PHI to those purposes that make the return or destruction infeasible, for so long as Business

Associate maintains such PHI. If Covered Entity, in its sole discretion, requires that the Business Associate destroy any or all PHI, the Business Associate shall certify to Covered Entity that the PHI has been destroyed.

(4) Obligations of Covered Entity

a. Covered Entity shall notify Business Associate of any changes or limitation(s) in its Notice of Privacy Practices provided to individuals in accordance with 45 CFR Section 164.520, to the extent that such change or limitation may affect Business Associate's use or disclosure of PHI.

b. Covered Entity shall promptly notify Business Associate of any changes in, or revocation of permission provided to Covered Entity by individuals whose PHI may be used or disclosed by Business Associate under this Agreement, pursuant to 45 CFR Section 164.506 or 45 CFR Section 164.508.

c. Covered entity shall promptly notify Business Associate of any restrictions on the use or disclosure of PHI that Covered Entity has agreed to in accordance with 45 CFR 164.522, to the extent that such restriction may affect Business Associate's use or disclosure of PHI.

(5) Termination for Cause

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

(6) Miscellaneous

a. Definitions and Regulatory References. All terms used, but not otherwise defined herein, shall have the same meaning as those terms in the Privacy and Security Rule, amended from time to time. A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.

c. Data Ownership. The Business Associate acknowledges that it has no ownership rights with respect to the PHI provided by or created on behalf of Covered Entity.

INDEPENDENT AUDITOR'S REPORT

Board of Directors
Home Healthcare, Hospice & Community Services, Inc. and Affiliate

Opinion

We have audited the accompanying consolidated financial statements of Home Healthcare, Hospice & Community Services, Inc. and Affiliate (the Association), which comprise the consolidated balance sheets as of June 30, 2024 and 2023, and the related consolidated statements of operations, changes in net assets, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Association as of June 30, 2024 and 2023, and the results of their operations, changes in their net assets and their cash flows for the years then ended in accordance with U.S. generally accepted accounting principles.

Basis for Opinion

We conducted our audits in accordance with U.S. generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are required to be independent of the Association and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Change in Accounting Principle

As discussed in Note 1 to the consolidated financial statements, the Association has adopted Financial Accounting Standards Board Accounting Standards Update No. 2016-13, *Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments*, and related guidance as amended, during the year ended June 30, 2024. Our opinion is not modified with respect to that matter.

Responsibilities of Management for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with U.S. generally accepted accounting principles, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Association's ability to continue as a going concern within one year after the date that the consolidated financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with U.S. generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the consolidated financial statements.

In performing an audit in accordance with U.S. generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Association's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Association's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Recently Adopted Accounting Principle

FASB issued Accounting Standards Update No. 2016-13, *Financial Instruments - Credit Losses* (Topic 326): *Measurement of Credit Losses on Financial Instruments*, and related guidance as amended, which replaces the incurred loss methodology with an expected loss methodology that is referred to as the current expected credit loss (CECL) methodology. The measurement of expected credit losses under the CECL methodology is applicable to financial assets measured at amortized cost, which includes patient accounts receivable. The adoption of Topic 326 during the year ended June 30, 2024 did not have a material impact on the consolidated financial statements of the Association as a significant portion of the payors to the Association either have the full faith and backing of the U.S. government or are credit worthy with limited to no credit risk associated with them. Other than patient accounts receivable, there are no other financial assets that are measured at amortized cost.

Basis of Presentation

Net assets and revenues, expenses, gains, and losses are classified as follows based on the existence or absence of donor-imposed restrictions in accordance with FASB ASC Topic 958, *Not-for-Profit Entities*. Under FASB ASC Topic 958 and FASB ASC Topic 954, *Health Care Entities,* all not-for profit healthcare organizations are required to provide a balance sheet, a statement of operations, a statement of changes in net assets, and a statement of cash flows. FASB ASC Topic 954 requires reporting amounts for an organization's total assets, liabilities, and net assets in a balance sheet; reporting the change in an organization's net assets in statements of operations and changes in net assets; and reporting the change in its cash and cash equivalents in a statements of cash flows.

Net assets without donor restrictions: Net assets that are not subject to donor-imposed restrictions and may be expended for any purpose in performing the primary objectives of the Association. These net assets may be used at the discretion of the Association's management and the Board of Directors (Board).

Net assets with donor restrictions: Net assets subject to stipulations imposed by donors and grantors. Some donor restrictions are temporary in nature; those restrictions are to be met by actions of the Association or by the passage of time. Other donor restrictions are perpetual in nature, whereby the donor has stipulated the funds be maintained in perpetuity.

Income Taxes

The Association is a public charity under Section 501(c)(3) of the Internal Revenue Code (IRC). As a public charity, the Association is exempt from state and federal income taxes on income earned in accordance with its tax-exempt purpose. Unrelated business income is subject to state and federal income tax. Management has evaluated the Association's tax positions and concluded that the Association has no unrelated business income or uncertain tax positions that require adjustment to the consolidated financial statements.

Use of Estimates

The preparation of consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include highly liquid investments with an original maturity of three months or less, excluding assets limited as to use.

Docusign Envelope ID: DAF56A7B-F515-472C-B9EF-95D0FA5D2118

The Association has cash deposits in a major financial institution which may exceed federal depository insurance limits. The Association has not experienced any losses in such accounts. Management believes it is not exposed to any significant risk with respect to these accounts.

Patient Accounts Receivable

Accounts receivable are stated at the amount management expects to collect from outstanding balances. Management provides a reserve for payment adjustments by analyzing past history and identification of trends for all funding sources in the aggregate. Management regularly reviews data about revenue in evaluating the sufficiency of the reserve which is netted against accounts receivable. Amounts not collected after all reasonable collection efforts have been exhausted are applied against the allowance for payment adjustments.

Patient accounts receivable, net were $1,765,713, $2,096,258, and $1,788,549 at June 30, 2024, 2023, and 2022, respectively.

Investments

Investments in short-term investment options are reported as current assets. Investments held for long-term return are reported as non-current assets.

The Association reports investments at fair value and has elected to report all gains and losses in the excess of revenue over expenses to simplify the presentation of these amounts in the consolidated statement of operations, unless otherwise stipulated by the donor or State law.

Investments, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. As such, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the consolidated balance sheets.

Assets Limited as to Use

Assets limited as to use include designated assets set aside by the Board of Directors and donor contributions.

Property and Equipment

Property and equipment are carried at cost less accumulated depreciation and amortization. Maintenance, repairs and minor renewals are expensed as incurred and renewals and betterments are capitalized. Depreciation and amortization expense is computed using the straight-line method over the useful lives of the related assets.

Property is reviewed for impairment whenever events or changes in circumstances indicate the related carrying amount may not be recoverable. When required, impairment losses on assets to be held and used are recognized based on the excess of the assets' carrying amount over the fair value of the asset.

Net Patient Service Revenue

Services to all patients are recorded as revenue when services are rendered at the estimated net realizable amounts from patients, third-party payors and others, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and in future periods as final settlements are determined. Patients unable to pay full charge, who do not have other third-party resources, are charged a reduced amount based on the Association's published sliding fee scale. Reductions in full charge are recognized when the service is rendered.

Performance obligations are determined based on the nature of the services provided by the Association. Revenue for performance obligations satisfied over time is recognized based on actual services rendered. Generally, performance obligations satisfied over time relate to patients receiving skilled and non-skilled services in their home or facility. The Association measures the period over which the performance obligation is satisfied from admission to the point when it is no longer required to provide services to that patient, which is generally at the time of discharge.

Providers of home health services to clients eligible for Medicare home health benefits are paid on a prospective basis, with no retrospective settlement. The prospective payment is based on the scoring attributed to the acuity level of the client at a rate determined by federal guidelines. As the performance obligations for home health services are met, revenue is recognized based upon the portion of the transaction price allocated to the performance obligation. The transaction price is the prospective payment determined for the medically necessary services.

Providers of hospice services to clients eligible for Medicare hospice benefits are paid on a per-diem basis, with no retrospective settlement, provided the Association's aggregate annual Medicare reimbursement is below a predetermined aggregate capitated rate. Revenue is recognized as the services are performed based on the fixed rate amount. As the performance obligations for hospice services are met, revenue is recognized based upon the portion of the transaction price allocated to the performance obligation. The transaction price is the predetermined aggregate capitated rate per day.

Because all of the Association's performance obligations relate to short-term periods of care, the Association has elected to apply the optional exemption provided in FASB ASC Subtopic 606-10-50-14 (a) and, therefore, is not required to disclose the aggregate amount of the transaction price allocated to performance obligations that are unsatisfied or partially unsatisfied at the end of the reporting period.

Contributions

Unconditional promises to give cash and other assets are reported at fair value at the date the promise is received, which is then treated as cost. The gifts are reported as net assets with donor restrictions if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, net assets with donor restrictions are reclassified as net assets released from restrictions. Donor-restricted contributions whose restrictions are met in the same year as received are reflected as contributions without donor restrictions in the accompanying consolidated financial statements.

COVID-19 Relief Funding

On March 11, 2020, the World Health Organization declared the Coronavirus disease (COVID-19) a global pandemic. In response to the global pandemic, The Centers for Medicare & Medicaid Services implemented certain relief measures and also issued guidance for limiting the spread of COVID-19.

The U.S. government has responded with several phases of relief legislation as a response to the COVID-19 outbreak. Legislation enacted into law on March 27, 2020, called the Coronavirus Aid, Relief, and Economic Security Act (CARES Act), a statute to address the economic impact of the COVID-19 outbreak. The CARES Act, among other things, 1) authorizes emergency loans to distressed businesses by establishing, and providing funding for, forgivable bridge loans; 2) provides additional funding for grants and technical assistance; 3) delays due dates for employer payroll taxes and estimated tax payments for corporations; and 4) revises provisions of the IRC, including those related to losses, charitable deductions, and business interest.

American Rescue Plan Act

On March 11, 2021, the U.S. government enacted the American Rescue Plan Act (ARPA). ARPA, amongst other things, provided support for health and human services workforce development in response to COVID-19 and broader economic impacts of the pandemic. The Association received $16,307 in grant funding under ARPA through the State of New Hampshire Home and Community Based Service fund during the year ended June 30, 2023, for the purpose of workforce investment. The Association incurred qualifying recruitment and retention expenses of $13,715 and $2,592 during the years ended June 30, 2024 and 2023, respectively, which is recognized as COVID-19 relief funding and other operating revenue in the consolidated statements of operations. The unspent ARPA funds as of June 30, 2023 were $13,715 which was included in COVID-19 refundable advances and other deferred revenue on the consolidated balance sheets. There were no unspent funds at June 30, 2024.

Employee Retention Tax Credit

The CARES Act provides an employee retention tax credit (ERTC), which is a refundable tax credit against certain employment taxes up to $10,000 per employee for eligible employees. For 2020, the tax credit is equal to 50% of qualified wages paid to employees during the calendar year, capped at $10,000 of qualified wages per employee. Additional relief provisions were passed by the U.S. government, which extended and expanded the qualified wage caps on these credits through September 30, 2021. Based on these additional provisions, the tax credit was increased to 70% of qualified wages paid to employees during each quarter, and the limit on qualified wages per employee increased to $10,000 of qualified wages per calendar quarter.

Management determined that the Association qualified for the ERTC under the under the government orders test and estimated that they will receive $2,775,767 based on amended tax filings submitted in January 2024. On September 14, 2023, the Internal Revenue Service announced an immediate moratorium at least through the end of calendar year 2023 to add more safeguards to prevent abuse and protect businesses from predatory tactics. As a result, the Association is uncertain whether the ERTC funds will be received, the Association has not recognized any portion of the funds in the consolidated statements of operations for the year ended June 30, 2024.

2. Availability and Liquidity of Financial Assets

As of June 30, 2024, the Association has working capital of $1,037,440 and average days (based on normal expenditures) cash on hand of 5.

Financial assets and liquidity resources available within one year for general expenditure, such as operating expenses and capital acquisitions not financed with debt or restricted funds (unfunded capital expenditures), were as follows:

	2024	2023
Cash and cash equivalents	$ 269,107	$ 1,015,708
Patient accounts receivable, net	1,765,713	2,096,258
Other receivables	262,396	443,698
Financial assets available to meet cash needs for general expenditures within one year	$ 2,297,216	$ 3,555,664

The Association has board designated long-term investments that could be made available for general expenditure upon Board approval. Since these investments are currently intended for long-term investments, they have not been included in the information above. The Association has other long-term investments and assets for restricted use, more fully described in Note 3, which are not available for general expenditure within the next year and are not reflected in the amount above.

Docusign Envelope ID: DAF56A7B-F515-472C-B9EF-95D0FA5D2118

The Association has a $1,000,000 line of credit available to meet short-term needs, as disclosed in Note 5.

Fair Value

FASB ASC Topic 820, *Fair Value Measurement*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants and also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The fair value hierarchy within FASB ASC Topic 820 distinguishes three levels of inputs that may be utilized when measuring fair value:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect an entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability. The Association did not have any Level 3 assets or liabilities as of June 30, 2024 or 2023.

The fair values of all of the Association's investments, which are presented in the following table, are measured on a recurring basis using Level 1 inputs with the exception of corporate bonds which are valued based on quoted market prices of similar investments and categorized as Level 2 investments.

	Assets at Fair Value as of June 30, 2024

7. Endowments

The Association has interpreted the Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds, absent explicit donor stipulations to the contrary. As a result of this interpretation, the Association classifies as a donor-restricted endowment (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent donor-restricted endowment gifts, and (c) accumulations to the donor-restricted endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund is classified as net assets with donor restrictions until those amounts are appropriated for expenditure by the Association in a manner consistent with the standard of prudence prescribed by UPMIFA.

In accordance with the UPMIFA, the Association considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

(1) The duration and preservation of the fund.
(2) The purposes of the organization and the donor-restricted endowment fund.
(3) General economic conditions.
(4) The possible effect of inflation and deflation.
(5) The expected total return from income and the appreciation of investments.
(6) Other resources of the Association.
(7) The investment policies of the Association.
(8) The spending policy.
(9) Funds with deficiencies.

Return Objectives and Risk Parameters

The investment portfolio is managed to provide for the long-term support of the Association. Accordingly, these funds are managed with disciplined, longer-term investment objectives and strategies designed to meet cash flow and spending requirements. Management of the assets is designed to attain the maximum total return consistent with acceptable and agreed-upon levels of risk. The Association benchmarks its portfolio performance against a number of commonly used indices.

Strategies Employed for Achieving Objectives

To satisfy its long-term rate-of-return objectives, the Association relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Association targets an asset allocation strategy wherein assets are diversified among several asset classes. The pursuit of maximizing total return is tempered by the need to minimize the volatility of returns and preserve capital. As such, the Association seeks broad diversification among assets having different characteristics with the intent to endure lower relative performance in strong markets in exchange for greater downside protection in weak markets.

Funds with Deficiencies

From time to time, the fair value of the assets associated with individual donor-restricted endowments may fall below the level of the donors' original gift(s). The Board's policy does not permit spending from underwater endowments. Any deficiencies are reported in net assets with donor restrictions. There were no such deficiencies at June 30, 2024 and 2023.

Spending Policy

The Association has a spending policy of appropriating a distribution annually up to 7% of the endowment fund's average market value over the previous 36 months. Appropriations are determined and made on an annual basis at year-end.

The following summarizes changes in endowment assets:

		With Donor Restrictions		
	Without Donor Restrictions	Purpose Restrictions	Perpetual in Nature	Total

8. Net Patient Service Revenue

Net patient service revenue is as follows:

	2024	2023
Medicare	$ 13,215,173	$ 12,760,296
Medicaid	806,276	907,321
Other third-party payers	1,130,134	1,244,667
Private pay	241,819	245,023
Total	$ 15,393,402	$ 15,157,307

Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. Compliance with such laws and regulations can be subject to future government review and interpretation as well as significant regulatory action including fines, penalties and exclusion from the Medicare and Medicaid programs. The Association believes that it is in substantial compliance with all applicable laws and regulations. However, there is at least a reasonable possibility that recorded estimates could change by a material amount in the near term. Differences between amounts previously estimated and amounts subsequently determined to be recoverable or payable are included in net patient service revenue in the year that such amounts become known.

The Association provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. Because the Association does not pursue collection of amounts determined to qualify as charity care, they are not reported as revenue.

The Association provided services in other health-related activities, primarily to indigent patients, at rates substantially below cost. For certain activities, services were provided without charge. The Association estimates the costs associated with providing the other health-related activities by applying Medicare cost report methodology to determine program costs less any net patient revenue generated by the program. The estimated costs incurred in these activities amounted to $1,525,817 and $1,585,931 for the years June 30, 2024 and 2023, respectively.

The Association is able to provide these services with a component of funds received through local community support and state grants. Local community support consists of contributions received directly from the public, United Way, municipal appropriations, and investment income earned from assets limited as to use. Federal and state grants consisted of monies received from the State of New Hampshire.

In assessing collectability, the Association has elected the portfolio approach. This portfolio approach is being used as the Association has similar contracts with similar classes of patients. The Association reasonably expects that the effect of applying a portfolio approach to a group of contracts would not differ materially from considering each contract separately. Management's judgment to group the contracts by portfolio is based on the payment behavior expected in each portfolio category. As a result, management believes aggregating contracts (which are at the patient level) by the particular payor or group of payors results in the recognition of revenue approximating that which would result from applying the analysis at the individual patient level.

9. Functional Expenses

The Association provides various services to residents within its geographic location. Expenses related to providing these services are as follows:

	2024	2023
Program services		
Salaries and benefits	$ 12,393,112	$ 12,088,234
Program supplies	827,424	914,679

Contract services	1,180,499	1,061,658
Other operating expenses	1,262,257	1,235,334
Depreciation and amortization	213,551	259,781
Total program services	16,248,744	15,965,062

Total administrative and general	3,965,557	3,348,305
Total	$ 20,214,301	$ 19,313,367

Management's estimate of cost allocations at a functional level is based on Medicare cost report methodology.

10. Commitments and Contingencies

Leases

The Association's operating leases are for its office facilities with varying expiration dates. The following is a schedule, by fiscal year, of future minimum lease payments and reconciliation to the consolidated balance sheet:

2025	$ 59,249
2026	3,300
Total lease payments	62,549
Less present value discount	824
Operating lease obligations	$ 61,725

Operating lease costs incurred amounted to $70,816 in 2024 and $65,007 in 2023, which approximated the cash paid for leases. For the years ended June 30, 2024 and 2023, the weighted average remaining lease term in years is 0.99 and 3.51, respectively, and the weighted average discount rate is 3.05%.

Malpractice Insurance

The Association maintains medical malpractice insurance coverage on a claims-made basis. The Association is subject to complaints, claims, and litigation due to potential claims which arise in the normal course of business. U.S. GAAP requires the Association to accrue the ultimate cost of malpractice claims when the incident that gives rise to claim occurs, without consideration of insurance recoveries. Expected recoveries are presented as a separate asset. The Association has evaluated its exposure to losses arising from potential claims and determined no such accrual is necessary at June 30, 2024 and 2023. The Association intends to renew coverage on a claims-made basis and anticipates that such coverage will be available in future periods.

11. Retirement Plan

The Association sponsors a defined contribution plan. The retirement contributions by the Association amounted to $209,415 in 2024 and $187,557 in 2023.

12. Concentration of Risk

The Association grants credit without collateral to its patients, most of whom are local residents and are insured under third-party payer agreements. Following is a summary of accounts receivable, by funding source:

	2024	2023
Medicare	69 %	69 %
Medicaid	3	2
Other payers	23	26
Private pay	5	3
Total	100 %	100 %

To Whom It May Concern,

Attached is a copy of my most recent resume. You may note that there are several gaps in my employment history, ranging the course of my working life. Certain positions have been removed in an effort to highlight the most current and most pertinent duties and responsibilities related to the social work field.

Additionally, it should be noted that in my previous career as a political organizer, positions last the duration of a campaign cycle, with no prospect of future employment, even if a candidate is successful in their bid for office. My various roles and responsibilities on the campaign trail demonstrate a deep and overwhelming commitment to positive political change and, thus, the betterment of the lives of individuals, a commitment I bring to the field of social work. The candidates I served worked towards equity, environmental and social justice, and a compassionate understanding of the struggles faced by their constituents. Their platforms and ideologies reflect my own: a sincere belief in the connectedness of communities and a dedication to equity, inclusion, and compassionate governance.

As I work towards obtaining my Masters of Social Work, I reflect on my time as a Legislative Aide, a role that allowed me to aid constituents in accessing resources, advocating for important social causes, and writing and passing meaningful legislation. These particular responsibilities were deeply gratifying and signified a time in my career when I felt most fulfilled. I hope that you will find my varied work history both relevant and meaningful. I am happy to answer questions regarding my work history and will gladly provide references upon request. Please feel free to reach me via phone or email, as listed above.

Very Sincerely,

Megan Harris

EXPLANATION

The purpose of this request is for the Contractors to ensure the continuity of Comprehensive Family Support Services (CFSS) by providing home visiting services statewide to pregnant and parenting caregivers and families with children under 18 years of age. Home visiting services provide access to a variety of parenting, economic, and public health supports based on individuals' needs.

Docusign Envelope ID: DAF56A7B-F515-472C-B9EF-95D0FA5D2118

Contractors will expand services by designating staff as "Newborn Navigators" within the CFSS program. Newborn Navigators will focus on outreach and engagement of families with newborns through a one-time, postpartum home visit. This service will allow the Contractors to reach more families and increase newborn families' connections to community-based resources that support maternal, family, and child health outcomes, as well as reduce the risk of child maltreatment.

The CFSS home visiting program provides preventative services at no cost to families, including household management, child development and maternal depression screenings, case management, and resource referrals such as nutrition support, childcare, and economic mobility support.

Approximately 1,250 families will be served each year. As a result, an average of 2,242 children and 1,592 adults will engage in services annually.

The Department will monitor services by:

- Reviewing the activities and outcome measures identified in the quarterly reports submitted by the Contractor.
- Quarterly meetings with the Contractor to ensure continued compliance with contractual requirements.
- Reviewing Contractor expenditures and conducting data quality assurance activities every month.
- Reviewing consumer satisfaction data, which must indicate an 80% favorable rating at minimum.
- Monitoring long-term program outcomes, including increasing outreach to high-risk populations, increasing the share of referred families who enroll in services, and increasing service completion rates.

As referenced in Exhibit A, Revisions to Standard Contract Provisions, of the original agreements, the parties have the option to extend the agreements for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and Governor and Council approval. The Department is exercising its option to renew services for two (2) years of the two (2) years available.

Should the Governor and Council not authorize this request, the Department will have limited capacity to provide community-based home-visiting services to children and families statewide which help prevent child maltreatment and promote child and family wellbeing.

In the event that the Federal Funds become no longer available, additional General Funds will not be requested to support this program.

Respectfully submitted,

Lori A. Weaver

EXPLANATION

The purpose of this request is to modify the scope of work for the existing contracts to expand the pool of potential home visitors for the Comprehensive Family Support Services (CFSS) program by reducing the minimum education requirement for Paraprofessional Home Visitors from a bachelor's degree to an associate's degree. Due to the supervisory levels and management structure, quality of services will not be impacted. Comprehensive Family Support Services promotes family wellness, decreasing family stressors, preventing child abuse and neglect, juvenile justice involvement, and providing education and support to parents and caregivers. Families are provided with assistance to access services they need and want in their home communities that strengthen the family and provide parents with an opportunity to learn and grow. Specialized training for staff is provided to ensure comprehensive knowledge, quality skills and abilities are applied in these services.

Approximately 1,200 families are served annually.

Contractors will continue serving pregnant and parenting women, and families with children under the age of 21 years old, who are in need of assistance and support with parenting, health and nutrition, education, and employment. Families served may be experiencing stressors such as, but not limited to, unemployment, social isolation, substance misuse, and health issues.

Contractors will continue providing evidence-informed, trauma-informed, integrated, whole family services with the goal of promoting and strengthening family health and wellness, and preventing child maltreatment. Contractors will continue assisting families with accessing a variety of parenting, economic, and public health supports based on the needs presented. All services are strength-based, focus on the whole family, voluntary, and guided by the family.

The Department will continue monitoring services by:

- Reviewing consumer satisfaction data, which must indicate a minimum of 80% favorable rating.
- Monitoring long-term program outcomes, including increasing outreach to high-risk populations, increasing the share of referred families who enroll in services, and increasing service completion rates.

Should the Governor and Executive Council not authorize this request, the flexibility of community-based family services may not be available to address the needs of children and families throughout the state, which could cause an increase of involvement of services through the Division for Children, Youth and Families, as these services help to prevent child maltreatment and promote child and family wellbeing.

EXPLANATION

This request is Retroactive because the Department did not have the fully executed contract documents in time for Governor and Executive Council approval to prevent a lapse in coverage between these new contracts and the existing contracts which expired June 30, 2020. The Department extended the deadline for the submittal of proposals due to the COVID-19 pandemic. Proposals were initially due at the start of the State of Emergency; the prospective proposers needed additional time to respond to the Request for Proposal. The Department's decisions to allow proposers additional time to respond caused the original timeline to be extended.

The purpose of this request is to provide Comprehensive Family Support Services (CFSS) by promoting family wellness, decreasing family stressors and preventing child abuse, neglect, as well as, juvenile justice involvement, and by providing education and support. Services are designed to enable families to access the services they need and want in their home communities. These prevention services strengthen parents, enabling families an opportunity to learn and grow.

The population to be served will be pregnant, parenting women and families with children under the age of 21 years, who are in need of assistance and support with parenting, health and nutrition; education; and employment. Families served may be experiencing stressors such as, but not limited to, unemployment, social isolation; substance misuse; and health issues.

Approximately 1200 families will be served each year.

These Contractors will support families by providing evidence-informed, trauma-informed, integrated, whole family services. Primary goals are to promote and strengthen family health and wellness, and to prevent child maltreatment. Contractors will assist families with accessing a variety of parenting, economic, and public health supports based on the needs presented. All services are strength-based, focus on the whole family, voluntary and guided by the family.

The Department will monitor contracted services by:

- Reviewing consumer satisfaction data, which must indicate a minimum of 80% favorable rating.
- Monitoring long-term program outcomes, including increasing outreach to high-risk populations; increasing the share of referred families who enroll in services; and increasing service completion rates.

The Department selected the Contractors through a competitive bid process using a Request for Proposals (RFP) that was posted on the Department's website from 3/3/2020 through 4/8/2020. The Department received 11 responses that were reviewed and scored by a team of qualified individuals. The Scoring Sheet is attached.

As referenced in Exhibit A, Revisions to Standard Contract Provisions, of the attached contracts, the parties have the option to extend the agreements for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties, and Governor and Council approval.

Should the Governor and Council not authorize this request, the flexibility of community-based family services may not be available to address the needs of children and families throughout the state, which could cause an increase of involvement of services through the Division for Children, Youth and Families, as these services help to prevent child maltreatment and promote child and family wellbeing.

2. SERVICES TO BE PERFORMED. The State of New Hampshire, acting through the agency identified in block 1.1 ("State"), engages contractor identified in block 1.3 ("Contractor") to perform, and the Contractor shall perform, the work or sale of goods, or both, identified and more particularly described in the attached EXHIBIT B which is incorporated herein by reference ("Services").

3. EFFECTIVE DATE/COMPLETION OF SERVICES.

3.1 Notwithstanding any provision of this Agreement to the contrary, and subject to the approval of the Governor and Executive Council of the State of New Hampshire, if applicable, this Agreement, and all obligations of the parties hereunder, shall become effective on the date the Governor and Executive Council approve this Agreement as indicated in block 1.17, unless no such approval is required, in which case the Agreement shall become effective on the date the Agreement is signed by the State Agency as shown in block 1.13 ("Effective Date").

3.2 If the Contractor commences the Services prior to the Effective Date, all Services performed by the Contractor prior to the Effective Date shall be performed at the sole risk of the Contractor, and in the event that this Agreement does not become effective, the State shall have no liability to the Contractor, including without limitation, any obligation to pay the Contractor for any costs incurred or Services performed. Contractor must complete all Services by the Completion Date specified in block 1.7.

4. CONDITIONAL NATURE OF AGREEMENT.

Notwithstanding any provision of this Agreement to the contrary, all obligations of the State hereunder, including, without limitation, the continuance of payments hereunder, are contingent upon the availability and continued appropriation of funds affected by any state or federal legislative or executive action that reduces, eliminates or otherwise modifies the appropriation or availability of funding for this Agreement and the Scope for Services provided in EXHIBIT B, in whole or in part. In no event shall the State be liable for any payments hereunder in excess of such available appropriated funds. In the event of a reduction or termination of appropriated funds, the State shall have the right to withhold payment until such funds become available, if ever, and shall have the right to reduce or terminate the Services under this Agreement immediately upon giving the Contractor notice of such reduction or termination. The State shall not be required to transfer funds from any other account or source to the Account identified in block 1.6 in the event funds in that Account are reduced or unavailable.

5. CONTRACT PRICE/PRICE LIMITATION/ PAYMENT.

5.1 The contract price, method of payment, and terms of payment are identified and more particularly described in EXHIBIT C which is incorporated herein by reference.

5.2 The payment by the State of the contract price shall be the only and the complete reimbursement to the Contractor for all expenses, of whatever nature incurred by the Contractor in the performance hereof, and shall be the only and the complete compensation to the Contractor for the Services. The State shall have no liability to the Contractor other than the contract price.

5.3 The State reserves the right to offset from any amounts otherwise payable to the Contractor under this Agreement those liquidated amounts required or permitted by N.H. RSA 80:7 through RSA 80:7-c or any other provision of law.

5.4 Notwithstanding any provision in this Agreement to the contrary, and notwithstanding unexpected circumstances, in no event shall the total of all payments authorized, or actually made hereunder, exceed the Price Limitation set forth in block 1.8.

6. COMPLIANCE BY CONTRACTOR WITH LAWS AND REGULATIONS/ EQUAL EMPLOYMENT OPPORTUNITY.

6.1 In connection with the performance of the Services, the Contractor shall comply with all applicable statutes, laws, regulations, and orders of federal, state, county or municipal authorities which impose any obligation or duty upon the Contractor, including, but not limited to, civil rights and equal employment opportunity laws. In addition, if this Agreement is funded in any part by monies of the United States, the Contractor shall comply with all federal executive orders, rules, regulations and statutes, and with any rules, regulations and guidelines as the State or the United States issue to implement these regulations. The Contractor shall also comply with all applicable intellectual property laws.

6.2 During the term of this Agreement, the Contractor shall not discriminate against employees or applicants for employment because of race, color, religion, creed, age, sex, handicap, sexual orientation, or national origin and will take affirmative action to prevent such discrimination.

6.3. The Contractor agrees to permit the State or United States access to any of the Contractor's books, records and accounts for the purpose of ascertaining compliance with all rules, regulations and orders, and the covenants, terms and conditions of this Agreement.

7. PERSONNEL.

7.1 The Contractor shall at its own expense provide all personnel necessary to perform the Services. The Contractor warrants that all personnel engaged in the Services shall be qualified to perform the Services, and shall be properly licensed and otherwise authorized to do so under all applicable laws.

7.2 Unless otherwise authorized in writing, during the term of this Agreement, and for a period of six (6) months after the Completion Date in block 1.7, the Contractor shall not hire, and shall not permit any subcontractor or other person, firm or corporation with whom it is engaged in a combined effort to perform the Services to hire, any person who is a State employee or official, who is materially involved in the procurement, administration or performance of this Agreement. This provision shall survive termination of this Agreement.

7.3 The Contracting Officer specified in block 1.9, or his or her successor, shall be the State's representative. In the event of any dispute concerning the interpretation of this Agreement, the Contracting Officer's decision shall be final for the State.

8. EVENT OF DEFAULT/REMEDIES.

8.1 Any one or more of the following acts or omissions of the Contractor shall constitute an event of default hereunder ("Event of Default"):

8.1.1 failure to perform the Services satisfactorily or on schedule;

8.1.2 failure to submit any report required hereunder; and/or

8.1.3 failure to perform any other covenant, term or condition of this Agreement.

8.2 Upon the occurrence of any Event of Default, the State may take any one, or more, or all, of the following actions:

8.2.1 give the Contractor a written notice specifying the Event of Default and requiring it to be remedied within, in the absence of a greater or lesser specification of time, thirty (30) days from the date of the notice; and if the Event of Default is not timely cured, terminate this Agreement, effective two (2) days after giving the Contractor notice of termination;

8.2.2 give the Contractor a written notice specifying the Event of Default and suspending all payments to be made under this Agreement and ordering that the portion of the contract price which would otherwise accrue to the Contractor during the period from the date of such notice until such time as the State determines that the Contractor has cured the Event of Default shall never be paid to the Contractor;

8.2.3 give the Contractor a written notice specifying the Event of Default and set off against any other obligations the State may owe to the Contractor any damages the State suffers by reason of any Event of Default; and/or

8.2.4 give the Contractor a written notice specifying the Event of Default, treat the Agreement as breached, terminate the Agreement and pursue any of its remedies at law or in equity, or both.

8.3. No failure by the State to enforce any provisions hereof after any Event of Default shall be deemed a waiver of its rights with regard to that Event of Default, or any subsequent Event of Default. No express failure to enforce any Event of Default shall be deemed a waiver of the right of the State to enforce each and all of the provisions hereof upon any further or other Event of Default on the part of the Contractor.

9. TERMINATION.

9.1 Notwithstanding paragraph 8, the State may, at its sole discretion, terminate the Agreement for any reason, in whole or in part, by thirty (30) days written notice to the Contractor that the State is exercising its option to terminate the Agreement.

9.2 In the event of an early termination of this Agreement for any reason other than the completion of the Services, the Contractor shall, at the State's discretion, deliver to the Contracting Officer, not later than fifteen (15) days after the date of termination, a report ("Termination Report") describing in detail all Services performed, and the contract price earned, to and including the date of termination. The form, subject matter, content, and number of copies of the Termination Report shall be identical to those of any Final Report described in the attached EXHIBIT B. In addition, at the State's discretion, the Contractor shall, within 15 days of notice of early termination, develop and submit to the State a Transition Plan for services under the Agreement.

10. DATA/ACCESS/CONFIDENTIALITY/ PRESERVATION.

10.1 As used in this Agreement, the word "data" shall mean all information and things developed or obtained during the performance of, or acquired or developed by reason of, this Agreement, including, but not limited to, all studies, reports, files, formulae, surveys, maps, charts, sound recordings, video recordings, pictorial reproductions, drawings, analyses, graphic representations, computer programs, computer printouts, notes, letters, memoranda, papers, and documents, all whether finished or unfinished.

10.2 All data and any property which has been received from the State or purchased with funds provided for that purpose under this Agreement, shall be the property of the State, and shall be returned to the State upon demand or upon termination of this Agreement for any reason.

10.3 Confidentiality of data shall be governed by N.H. RSA chapter 91-A or other existing law. Disclosure of data requires prior written approval of the State.

11. CONTRACTOR'S RELATION TO THE STATE. In the performance of this Agreement the Contractor is in all respects an independent contractor, and is neither an agent nor an employee of the State. Neither the Contractor nor any of its officers, employees, agents or members shall have authority to bind the State or receive any benefits, workers' compensation or other emoluments provided by the State to its employees.

12. ASSIGNMENT/DELEGATION/SUBCONTRACTS.

12.1 The Contractor shall not assign, or otherwise transfer any interest in this Agreement without the prior written notice, which shall be provided to the State at least fifteen (15) days prior to the assignment, and a written consent of the State. For purposes of this paragraph, a Change of Control shall constitute assignment. "Change of Control" means (a) merger, consolidation, or a transaction or series of related transactions in which a third party, together with its affiliates, becomes the direct or indirect owner of fifty percent (50%) or more of the voting shares or similar equity interests, or combined voting power of the Contractor, or (b) the sale of all or substantially all of the assets of the Contractor.

12.2 None of the Services shall be subcontracted by the Contractor without prior written notice and consent of the State. The State is entitled to copies of all subcontracts and assignment agreements and shall not be bound by any provisions contained in a subcontract or an assignment agreement to which it is not a party.

Contractor, or subcontractors, including but not limited to the negligence, reckless or intentional conduct. The State shall not be liable for any costs incurred by the Contractor arising under this paragraph 13. This covenant in paragraph 13 shall survive the termination of this Agreement.

14. INSURANCE.

14.1 The Contractor shall, at its sole expense, obtain and continuously maintain in force, and shall require any subcontractor or assignee to obtain and maintain in force, the following insurance:

(2) **Business Associate Use and Disclosure of Protected Health Information.**

a. Business Associate shall not use, disclose, maintain or transmit Protected Health Information (PHI) except as reasonably necessary to provide the services outlined under Exhibit A of the Agreement. Further, Business Associate, including but not limited to all its directors, officers, employees and agents, shall not use, disclose, maintain or transmit PHI in any manner that would constitute a violation of the Privacy and Security Rule.

b. Business Associate may use or disclose PHI:
   I. For the proper management and administration of the Business Associate;
   II. As required by law, pursuant to the terms set forth in paragraph d. below; or
   III. For data aggregation purposes for the health care operations of Covered Entity.

c. To the extent Business Associate is permitted under the Agreement to disclose PHI to a third party, Business Associate must obtain, prior to making any such disclosure, (i) reasonable assurances from the third party that such PHI will be held confidentially and used or further disclosed only as required by law or for the purpose for which it was disclosed to the third party; and (ii) an agreement from such third party to notify Business Associate, in accordance with the HIPAA Privacy, Security, and Breach Notification Rules of any breaches of the confidentiality of the PHI, to the extent it has obtained knowledge of such breach.

d. The Business Associate shall not, unless such disclosure is reasonably necessary to provide services under Exhibit A of the Agreement, disclose any PHI in response to a request for disclosure on the basis that it is required by law, without first notifying Covered Entity so that Covered Entity has an opportunity to object to the disclosure and to seek appropriate relief. If Covered Entity objects to such disclosure, the Business

Associate shall refrain from disclosing the PHI until Covered Entity has exhausted all remedies.

e. If the Covered Entity notifies the Business Associate that Covered Entity has agreed to be bound by additional restrictions over and above those uses or disclosures or security safeguards of PHI pursuant to the Privacy and Security Rule, the Business Associate shall be bound by such additional restrictions and shall not disclose PHI in violation of such additional restrictions and shall abide by any additional security safeguards.

(3) Obligations and Activities of Business Associate.

a. The Business Associate shall notify the Covered Entity's Privacy Officer immediately after the Business Associate becomes aware of any use or disclosure of protected health information not provided for by the Agreement including breaches of unsecured protected health information and/or any security incident that may have an impact on the protected health information of the Covered Entity.

b. The Business Associate shall immediately perform a risk assessment when it becomes aware of any of the above situations. The risk assessment shall include, but not be limited to:

- The nature and extent of the protected health information involved, including the types of identifiers and the likelihood of re-identification;
- The unauthorized person used the protected health information or to whom the disclosure was made;
- Whether the protected health information was actually acquired or viewed
- The extent to which the risk to the protected health information has been mitigated.

The Business Associate shall complete the risk assessment within 48 hours of the breach and immediately report the findings of the risk assessment in writing to the Covered Entity.

c. The Business Associate shall comply with all sections of the Privacy, Security, and Breach Notification Rule.

d. Business Associate shall make available all of its internal policies and procedures, books and records relating to the use and disclosure of PHI received from, or created or received by the Business Associate on behalf of Covered Entity to the Secretary for purposes of determining Covered Entity's compliance with HIPAA and the Privacy and Security Rule.

e. Business Associate shall require all of its business associates that receive, use or have access to PHI under the Agreement, to agree in writing to adhere to the same restrictions and conditions on the use and disclosure of PHI contained herein, including the duty to return or destroy the PHI as provided under Section 3 (l). The Covered Entity shall be considered a direct third party beneficiary of the Contractor's business associate agreements with Contractor's intended business associates, who will be receiving PHI

pursuant to this Agreement, with rights of enforcement and indemnification from such business associates who shall be governed by standard Paragraph #13 of the standard contract provisions (P-37) of this Agreement for the purpose of use and disclosure of protected health information.

f. Within five (5) business days of receipt of a written request from Covered Entity, Business Associate shall make available during normal business hours at its offices all records, books, agreements, policies and procedures relating to the use and disclosure of PHI to the Covered Entity, for purposes of enabling Covered Entity to determine Business Associate's compliance with the terms of the Agreement.

g. Within ten (10) business days of receiving a written request from Covered Entity, Business Associate shall provide access to PHI in a Designated Record Set to the Covered Entity, or as directed by Covered Entity, to an individual in order to meet the requirements under 45 CFR Section 164.524.

h. Within ten (10) business days of receiving a written request from Covered Entity for an amendment of PHI or a record about an individual contained in a Designated Record Set, the Business Associate shall make such PHI available to Covered Entity for amendment and incorporate any such amendment to enable Covered Entity to fulfill its obligations under 45 CFR Section 164.526.

i. Business Associate shall document such disclosures of PHI and information related to such disclosures as would be required for Covered Entity to respond to a request by an individual for an accounting of disclosures of PHI in accordance with 45 CFR Section 164.528.

j. Within ten (10) business days of receiving a written request from Covered Entity for a request for an accounting of disclosures of PHI, Business Associate shall make available to Covered Entity such information as Covered Entity may require to fulfill its obligations to provide an accounting of disclosures with respect to PHI in accordance with 45 CFR Section 164.528.

k. In the event any individual requests access to, amendment of, or accounting of PHI directly from the Business Associate, the Business Associate shall within two (2) business days forward such request to Covered Entity. Covered Entity shall have the responsibility of responding to forwarded requests. However, if forwarding the individual's request to Covered Entity would cause Covered Entity or the Business Associate to violate HIPAA and the Privacy and Security Rule, the Business Associate shall instead respond to the individual's request as required by such law and notify Covered Entity of such response as soon as practicable.

l. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity, all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. If return or destruction is not feasible, or the disposition of the PHI has been otherwise agreed to in the Agreement, Business Associate shall continue to extend the protections of the Agreement, to such PHI and limit further uses and disclosures of such PHI to those purposes that make the return or destruction infeasible, for so long as Business

Associate maintains such PHI. If Covered Entity, in its sole discretion, requires that the Business Associate destroy any or all PHI, the Business Associate shall certify to Covered Entity that the PHI has been destroyed.

(4) Obligations of Covered Entity

a. Covered Entity shall notify Business Associate of any changes or limitation(s) in its Notice of Privacy Practices provided to individuals in accordance with 45 CFR Section 164.520, to the extent that such change or limitation may affect Business Associate's use or disclosure of PHI.

b. Covered Entity shall promptly notify Business Associate of any changes in, or revocation of permission provided to Covered Entity by individuals whose PHI may be used or disclosed by Business Associate under this Agreement, pursuant to 45 CFR Section 164.506 or 45 CFR Section 164.508.

c. Covered entity shall promptly notify Business Associate of any restrictions on the use or disclosure of PHI that Covered Entity has agreed to in accordance with 45 CFR 164.522, to the extent that such restriction may affect Business Associate's use or disclosure of PHI.

(5) Termination for Cause

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

(6) Miscellaneous

a. Definitions and Regulatory References. All terms used, but not otherwise defined herein, shall have the same meaning as those terms in the Privacy and Security Rule, amended from time to time. A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.

b. Amendment. Covered Entity and Business Associate agree to take such action as is necessary to amend the Agreement, from time to time as is necessary for Covered Entity to comply with the changes in the requirements of HIPAA, the Privacy and Security Rule, and applicable federal and state law.

c. Data Ownership. The Business Associate acknowledges that it has no ownership rights with respect to the PHI provided by or created on behalf of Covered Entity.

d. Interpretation. The parties agree that any ambiguity in the Agreement shall be resolved to permit Covered Entity to comply with HIPAA, the Privacy and Security Rule.

e. Segregation. If any term or condition of this Exhibit I or the application thereof to any person(s) or circumstance is held invalid, such invalidity shall not affect other terms or conditions which can be given effect without the invalid term or condition; to this end the terms and conditions of this Exhibit I are declared severable.

f. Survival. Provisions in this Exhibit I regarding the use and disclosure of PHI, return or destruction of PHI, extensions of the protections of the Agreement in section (3) I, the defense and indemnification provisions of section (3) e and Paragraph 13 of the standard terms and conditions (P-37), shall survive the termination of the Agreement.

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of Waypoint, which comprise the consolidated statement of financial position as of December 31, 2023, and the related consolidated statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the consolidated financial statements.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of Waypoint as of December 31, 2023, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are required to be independent of Waypoint and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Waypoint's ability to continue as a going concern for one year after the date that the consolidated financial statements are available to be issued.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the consolidated financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Waypoint's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Waypoint's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The Consolidated Schedules of Operating Expenses for 2023 and 2022 are presented for purposes of additional analysis and are not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards

generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

Report on Summarized Comparative Information

The consolidated financial statements of Waypoint as of and for the year ended December 31, 2022, were audited by Melanson, whose report dated May 10, 2023 expressed an unmodified opinion on those statements. In our opinion, the summarized comparative information presented herein as of and for the year ended December 31, 2022 is consistent, in all material respects, with the audited consolidated financial statements from which it has been derived.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated May 20, 2024 on our consideration of Waypoint's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Waypoint's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Waypoint's internal control over financial reporting and compliance.

NOTE 1 - ORGANIZATION

Waypoint (the Organization) is a nonprofit organization, founded in 1850, with a mission to empower people of all ages through an array of human services and advocacy. Waypoint adheres to the highest standards of practice and is the only organization in New Hampshire to be accredited by the Council on Accreditation.

Waypoint has historically been the first service provider to respond to the state's most pressing needs – responding to child labor of the 1900s, child abuse in the 1940s, the spike in youth homelessness in the 1960s, human trafficking in the 2010s, and continues that trend today. Each year we serve an average of 7,500 individuals, children, and families across New Hampshire. Nearly 90% of our clients live in poverty or with very low incomes.

These services span the life cycle from prenatal to seniors, and fall under four core care areas:

FAMILY PRESERVATION AND STRENGTHENING

Intensive home-based programs in partnership with the Division of Children, Youth, and Families to restore positive family functioning for youth and families involved with the child welfare and juvenile justice systems as well as voluntary services for families that are at risk to stabilize families. Programs are delivered in the home, schools, or community, and include mental health counseling and substance abuse treatment, as well as a complex system of family stabilization and preservation programs. Waypoint empowers families with the skills and resources they need to provide for their children and become self-sufficient.

EARLY CHILDHOOD AND FAMILY SUPPORT

Education and support to improve parenting, strengthen families, prevent child abuse, and neglect, and ensure the healthy development of children are provided in homes and through Family Resource Centers throughout New Hampshire. This includes home visiting services that support families and support and therapy for infants and toddlers with, or at-risk of, developmental disabilities and delays. Waypoint also operates a childcare center (the Children's Place and Parent Education Center) providing a unique combination of educational and family support. Young children starting life at a disadvantage receive critical services to ensure a good beginning and to optimize their chances for life-long success.

NOTE 1 - ORGANIZATION (CONTINUED)

HOMELESS YOUTH AND YOUNG ADULTS

A continuum of care designed to support youth and young adults (12-25) in exiting homelessness and finding long-term independence and stability. Services feature street-based outreach, basic needs fulfillment at drop-in centers, crisis intervention, educational and vocational advocacy, housing, and case management. Waypoint operates the only low-barrier emergency shelter specifically for adults aged 18-24 who are experiencing or are at-risk of homelessness.

HOMECARE

In-home support for seniors and adults with disabilities so they can maintain their independence safely in their community, and family-strengthening support and resources, for children with chronic health condition and their families. Waypoint provides services delivered by personal care service providers, nurses, and LNAs in homes that help with everything from cooking and cleaning to personal hygiene, medication reminders, mobility, and help with daily tasks.

Waypoint provides additional support for children, families, and individuals through a strong advocacy program, established in 1971. The combination of advocacy and direct service practice uniquely positions Waypoint to serve the best interests of New Hampshire children.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies used in preparing and presenting the accompanying consolidated financial statements.

BASIS OF FINANCIAL STATEMENT PRESENTATION

The consolidated financial statements of the Organization have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Docusign Envelope ID: F0D8160B-2692-4A08-941A-7253A1915A41

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

CHANGE IN ACCOUNTING PRINCIPLE

ASC 326, Current Expected Credit Losses

In June 2016, the Financial Accounting Standards Board (FASB) issued Accounting Standards Codification (ASC) 326, *Current Expected Credit Losses,* which changed how entities will measure credit losses for most financial assets and certain other instruments that are not measured at fair value through net income. The most significant change in this standard is a shift from the incurred loss model to the expected loss model. Under the standard, disclosures are required to provide users of the financial statements with useful information in analyzing an entity's exposure to credit risk and the measurement of credit losses. Financial assets held by the Organization that are subject to the guidance in FASB ASC 326 are trade accounts receivable.

The Organization adopted the standard effective January 1, 2023. The impact of the adoption was not considered material to the consolidated financial statements and primarily resulted in new/enhanced disclosures only.

PRINCIPLES OF CONSOLIDATION

The consolidated financial statements include Waypoint and Child and Family Realty Corporation, commonly controlled organizations. All inter-organization transactions have been eliminated. Unless otherwise noted, these consolidated entities are hereinafter referred to as "the Organization".

COMPARATIVE FINANCIAL INFORMATION

The accompanying consolidated financial statements include certain prior-year summarized comparative information in total, but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with GAAP Accordingly, such information should be read in conjunction with the audited consolidated financial statements for the year ended December 31, 2022, from which the summarized information was derived.

CASH AND CASH EQUIVALENTS

All cash and highly liquid financial instruments with original maturities of three months or less, and which are neither held for nor restricted by donors for long-term purposes, are considered to be cash and cash equivalents. Cash and highly liquid financial instruments invested for long-term purposes, including endowments that are perpetual in nature, are excluded from this definition.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

ACCOUNTS RECEIVABLE AND CREDIT POLICIES

At the end of each reporting period, the Organization estimates the current expected credit loss (CECL) per ASC 326. The Organization utilizes the loss rate methodology to determine historical credit losses. The loss rate method estimate is derived from a review of the Organization's historical write-offs as a percentage of average accounts receivable. The estimate is adjusted for management's assessment of current conditions, reasonable and supportable forecasts regarding future events, and any other factors deemed relevant. The Organization believes historical loss information is a reasonable starting point for calculating the expected allowance for credit losses, as the Organization's programs have remained consistent since inception. Based on economic indicators, including 2023 and general overall economic conditions, the Organization is not anticipating a change in the historical credit loss rate from what it has been in the past.

GRANTS RECEIVABLE

Grants receivable, that is, those with a measurable performance or other barrier, and a right of return, are not recognized until the conditions on which they depend have been substantially met. Amounts recorded as grants receivable represent cost-reimbursable contracts and grants, which the incurrence of allowable qualifying expenses and/or the performance of certain requirements have been met or performed. The allowance for uncollectible grants receivable is based on historical experience and a review of subsequent collections. Management has determined that no allowance is necessary.

CONTRIBUTIONS RECEIVABLE

Unconditional contributions that are expected to be collected within one year are recorded at net realizable value. Unconditional contributions that are expected to be collected in future years are initially recorded at fair value using present value techniques incorporating risk-adjusted discount rates designed to reflect the assumptions market participants would use in pricing the asset. In subsequent years, amortization of the discounts is included in contribution revenue in the Consolidated Statement of Activities. The allowance for uncollectable contributions is based on historical experience, an assessment of economic conditions, and a review of subsequent collections. Contributions are written off when deemed uncollectable. Management has determined that no allowance is necessary.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

INVESTMENTS

Investment purchases are recorded at cost, or if donated, at fair value on the date of donation. Thereafter, investments are reported at their fair value in the Consolidated Statement of Financial Position. Net investment return/(loss) is reported in the Consolidated Statement of Activities and consists of interest and dividend income, realized and unrealized gains and losses, less external investment expenses.

The Organization maintains pooled investment accounts for its endowment. Realized and unrealized gains and losses are allocated to the individual endowments based on the relationship of the market value of each endowment to the total market value of the pooled investment accounts, as adjusted for additions to or deductions from those accounts, and taking into consideration donor restrictions related to the treatment of investment earnings.

BENEFICIAL INTEREST HELD IN TRUSTS

The Organization is the beneficiary of perpetual charitable trusts. The beneficial interest in trusts is reported at its fair value, which is estimated as the fair value of the underlying trust assets. Distributions of income from trust assets are restricted as to use and are reported as increases in net assets with donor restrictions until expended in accordance with restrictions. The value of the beneficial interest in the trusts is adjusted annually for the change in its estimated fair value. Those changes in value are reported as increases in net assets with donor restrictions. The assets in the trusts will never be distributed to the Organization.

PROPERTY AND EQUIPMENT, NET

Property and equipment additions over $5,000 are recorded at cost, if purchased, and at fair value at the date of donation, if donated. Depreciation is computed using the straight-line method over the estimated useful lives of the assets ranging from 5 to 50 years. When assets are sold or otherwise disposed of, the cost and related depreciation is removed, and any resulting gain or loss is included in the Consolidated Statement of Activities. Costs of maintenance and repairs that do not improve or extend the useful lives of the respective assets are expensed. Assets not in service are not depreciated.

The carrying values of property and equipment are reviewed for impairment whenever events or circumstances indicate that the carrying value of an asset may not be recoverable from the estimated future cash flows expected to result from its use and eventual disposition. When considered impaired, an impairment loss is recognized to the extent carrying value exceeds the fair value of the asset. There were no indicators of asset impairment in 2023 or 2022.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

LEASES

The Organization is a lessee in several noncancellable operating leases, for office space and equipment. The Organization determines if an arrangement is a lease, or contains a lease, at inception of a contract and when the terms of an existing contract are changed. The Organization recognizes a lease liability and a right-of-use (ROU) asset at the commencement date of the lease. The lease liability is initially and subsequently recognized based on the present value of its future lease payments. Variable payments are included in the future lease payments when those variable payments depend on an index or a rate. The Organization generally does not have access to the rate implicit in the lease and, therefore, the Organization utilizes a risk-free rate as the discount rate at the lease commencement date for all classes of underlying assets. The ROU asset is subsequently measured throughout the lease term at the amount of the remeasured lease liability (i.e., present value of the remaining lease payments), plus unamortized initial direct costs, plus (minus) any prepaid (accrued) lease payments, less the unamortized balance of lease incentives received, and any impairment recognized. Lease cost for lease payments is recognized on a straight-line basis over the lease term.

The Organization has elected, for all underlying classes of assets, to not recognize ROU assets and lease liabilities for short-term leases that have a lease term of 12 months or less at lease commencement, and do not include an option to purchase the underlying asset that the Organization is reasonably certain to exercise. The Organization recognizes lease costs associated with short-term leases on a straight-line basis over the lease term.

The Organization has lease agreements with lease and non-lease components, which are generally accounted for separately. The Organization has elected, for all underlying classes of assets, to account for each separate lease component of a contract and its associated non-lease components (repairs and maintenance) as a single lease component. For arrangements accounted for as a single lease component, there may be variability in future lease payments as the amount of the non-lease components is typically revised from one period to the next. These variable lease payments are recognized in operating expenses in the period in which the obligation for those payments was incurred.

INTEREST RATE SWAP

An interest rate swap is utilized to mitigate interest rate risk on bonds payable. The related liability is reported at fair value in the Consolidated Statement of Financial Position, and unrealized gains or losses are included in the Consolidated Statement of Activities.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

NET ASSETS

Net assets, revenues, gains, and losses are classified based on the existence or absence of donor or grantor-imposed restrictions.

Net Assets Without Donor Restrictions

Net assets without donor restrictions are net assets available for use in general operations and not subject to donor (or certain grantor) imposed restrictions. The Board has designated, from net assets without donor restrictions, net assets for a Board-designated endowment.

Net Assets With Donor Restrictions

Net assets with donor restrictions are net assets subject to donor (or certain grantor) imposed restrictions. Some donor-imposed restrictions are temporary in nature, such as those that will be met by the passage of time or other events specified by the donor. Other donor-imposed restrictions are perpetual in nature, where the donor stipulates that resources be maintained in perpetuity while permitting the Organization to expend the income generated by the assets in accordance with the provisions of additional donor-imposed stipulations or a Board approved spending policy. Donor-imposed restrictions are released when a restriction expires, that is, when the stipulated time has elapsed, when the stipulated purpose for which the resource was restricted has been fulfilled, or both.

The Organization recognizes revenue from contributions and grants that were initially conditional, which became unconditional with restrictions during the reporting period, and for which those restrictions were met during the reporting period, as net assets without donor restrictions.

REVENUE RECOGNITION

A portion of the Organization's revenue is derived from cost-reimbursable contracts and grants, which are conditioned upon certain performance requirements and/or the incurrence of allowable qualifying expenses. Amounts received are recognized as revenue when the Organization has incurred expenditures in compliance with specific contract or grant provisions. Amounts received prior to incurring qualifying expenditures are reported as refundable advances in the Consolidated Statement of Financial Position.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

REVENUE RECOGNITION (CONTINUED)

The Organization recognizes contributions when cash, securities or other assets; an unconditional promise to give; or a notification of a beneficial interest is received. Conditional promises to give—that is, those with a measurable performance or other barrier and a right of return—are not recognized until the conditions on which they depend have been met.

The Organization records special events revenue equal to the fair value of direct benefits to donors, and contribution income for the excess received when the event takes place.

Revenues derived from providing program services are recognized as the services are provided. Program service fees paid in advance are deferred to the period to which they relate. All other amounts paid in advance are deferred to the period in which the underlying event or rental takes place. Due to the nature and timing of the performance and/or transfer of services, certain contract liabilities at December 31 of each year are recognized in the following year.

DONATED SERVICES AND IN-KIND CONTRIBUTIONS

Volunteers contribute significant amounts of time to program services, administration, and fundraising and development activities; however, the financial statements do not reflect the value of these contributed services because they do not meet recognition criteria prescribed by GAAP. GAAP allows recognition of contributed services only if (a) the services create or enhance nonfinancial assets or (b) the services would have been purchased if not provided by contribution, require specialized skills, and are provided by individuals possessing those skills.

Donated professional services are recorded at the respective fair value of the services received. Contributed goods are recorded at fair value at the date of donation and as expenses when placed in service or distributed. Donated use of facilities is reported as a contribution and as an expense at the estimated fair value of similar space for rent under similar conditions. If the use of the space is promised unconditionally for a period greater than one year, the amount is reported as a contribution and an unconditional promise to give at the date of the gift, and the expense is reported over the term of use.

ADVERTISING COSTS

Advertising costs are expensed as incurred and are reported in the Consolidated Statement of Activities and Consolidated Statement of Functional Expenses.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

FUNCTIONAL ALLOCATION OF EXPENSES

The costs of program and supporting services activities have been summarized on a functional basis in the Consolidated Statement of Activities. The Consolidated Statement of Functional Expenses presents the natural classification detail of expenses by function.

The consolidated financial statements report certain categories of expenses that are attributed to more than one program or supporting function. Therefore, expenses require allocation on a reasonable basis that is consistently applied. The expenses that are allocated include salary and benefits, which are allocated based on time and effort estimates, and occupancy costs and depreciation which are allocated based on personnel count at the location.

MEASURE OF OPERATIONS

The Consolidated Statement of Activities reports all changes in net assets, including changes in net assets from operating and nonoperating activities. Operating activities consist of those items attributable to the Organization's ongoing programs and services and include the Organization's annual endowment transfer to support operations. Nonoperating activities are limited to resources outside of those programs and services and are comprised of non-recurring gains and losses on sales and dispositions, investment income, changes in the value of beneficial interests and interest rate swaps, and employee retention tax credit net of applicable expenses.

INCOME TAXES

Waypoint has been recognized by the Internal Revenue Service (IRS) as exempt from federal income taxes under Internal Revenue Code (IRC) Section 501(a) as an organization described in IRC Section 501(c)(3), qualifies for charitable contribution deductions, and has been determined not to be a private foundation. Child and Family Realty Corporation is exempt from federal income tax under Section 501(a) of the IRC as an organization described in Section 501(c)(25).

Each entity is annually required to file a Return of Organization Exempt from Income Tax (Form 990) with the IRS. In addition, each is subject to income tax on net income that is derived from business activities that are unrelated to their exempt purpose.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

INCOME TAXES (CONTINUED)

The Organization accounts for uncertain tax provisions under FASB ASC 740, *Income Taxes*, which provides a framework for how entities should recognize, measure, present, and disclose uncertain tax positions in their financial statements. The Organization may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. Management has reviewed the Organization's reporting and believes they have not taken tax positions that are more likely than not to be determined to be incorrect by the IRS and, therefore, no adjustments or disclosures are required. The Organization is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods pending or in progress.

ESTIMATES

The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates.

FINANCIAL INSTRUMENTS AND CREDIT RISK

Deposit concentration risk is managed by placing cash deposits with financial institutions believed to be creditworthy. At times, amounts on deposit may exceed insured limits. To date, no losses have been experienced in any of these accounts. Credit risk associated with receivables is considered to be limited due to high historical collection rates. Investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the Consolidated Statement of Financial Position. Although the fair value of investments are subject to fluctuation on a year-to-year basis, the Investment Committee believes that the investment policies and guidelines are prudent for the long-term welfare of the Organization.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

FAIR VALUE MEASUREMENTS AND DISCLOSURES

Certain assets and liabilities are reported at fair value in the consolidated financial statements. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal, or most advantageous, market at the measurement date under current market conditions regardless of whether that price is directly observable or estimated using another valuation technique. Inputs used to determine fair value refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability based on the best information available. A three-tier hierarchy categorizes the inputs as follows:

- Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities that are accessible at the measurement date.
- Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability, and market-corroborated inputs.
- Level 3 – Unobservable inputs for the asset or liability. In these situations, inputs are developed using the best information available in the circumstances.

In some cases, the inputs used to measure the fair value of an asset or a liability might be categorized within different levels of the fair value hierarchy. In those cases, the fair value measurement is categorized in its entirety at the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. Assessing the significance of a particular input to entire measurement requires judgment, taking into account factors specific to the asset or liability. The categorization of an asset or liability within the hierarchy is based upon the pricing transparency of the asset or liability and does not necessarily correspond to the assessment of the quality, risk, or liquidity profile of the asset or liability.

Docusign Envelope ID: F0D8160B-2692-4A08-941A-7253A1915A41

NOTE 3 - LIQUIDITY AND AVAILABILITY (CONTINUED)

The Board-designated endowment is subject to an annual spending rate as determined by the Board. Although there is no intention to spend from the Board-designated endowment (other than amounts appropriated for general expenditure as part of the Board's annual budget approval and appropriation), these amounts could be made available if necessary.

As part of its liquidity management plan, the Organization also has a $1,500,000 revolving line of credit available to meet cash flow needs.

NOTE 4 - INVESTMENTS

Investments measured at fair value on a recurring basis, consisted of the following at December 31, 2023 and 2022:

	2023	2022	Fair Value Hierarchy
Mutual funds	$ 20,644,755	$ 18,568,769	Level 1
Closely held securities	750,000	--	Level 3
Total	$ 21,394,755	$ 18,568,769	

During 2023 and 2022, the Organization recognized $2,463,878 and $(4,596,536), respectively, of net gains and (losses) on investments. Of those amounts, $2,155,130 and $(4,768,167) were recognized as unrealized gains and (losses) on investments of equity securities held at December 31, 2023 and 2022, respectively.

Under the terms of the Organization's line of credit agreement (Note 7), the Organization has agreed not to pledge the mutual funds as security on any other debt.

The Organization's policy is to avail itself of a Board-approved percentage of investment income from mutual fund investments for operations with any remaining interest, dividends, or appreciation reinvested. The spending policy approved by the Board of Trustees is a percentage of the average total endowment value over the previous 12 quarters, with a 1% contingency margin with Board approval. In 2023 and 2022, the approved rate was 5.00%.

NOTE 5 - BENEFICIAL INTEREST HELD IN TRUSTS

The Organization is the sole beneficiary of four funds that are administered by the New Hampshire Charitable Foundation (NHCF). Income from the funds is to provide assistance to children attending camp and for capital improvements to the camp, and to support the Early Supports and Services program based in the Stratham office. The fund's resolutions provide that distributions from the funds can be made at the discretion of the NHCF Board of Directors.

At December 31, 2023 and 2022, the fair market value of the funds, which approximates the present value of future benefits expected to be received, was $1,245,254 and $1,152,876, respectively.

In addition, the Organization has a split-interest in three charitable remainder trusts. The assets are held in trust by banks as permanent trustees of the trusts. The fair value of these beneficial interests is determined by applying the Organization's percentage interest to the fair value of the trust assets as reported by the trustee.

Trust	Percentage Interest	2023	2022
Greenleaf	100%	$ 353,987	$ 335,096
Spaulding	100%	324,126	300,889
Cogswell	50%	241,776	231,880
Total		$ 919,889	$ 867,865

Beneficial interest held in trusts is reported at fair value, which is estimated as the present value of expected future cash inflows on a recurring basis. As discussed in Note 2, the valuation technique used by the Organization is a Level 3 measure because there are no observable market transactions.

NOTE 6 - PROPERTY AND EQUIPMENT, NET

Property and equipment, net was comprised of the following at December 31, 2023 and 2022:

	2023	2022
Land and land improvements	$ 958,884	$ 958,884

Total	$ 9,675,555	$ 10,105,143

In March 2023, the Organization entered into a purchase and sales agreement to sell the Camp Spaulding asset held for sale. The sale is expected to close in 2024.

NOTE 7 - LINE OF CREDIT

The Organization has a $1,500,000 revolving line of credit agreement with a bank, which is payable on demand. The line is secured by a first lien on accounts receivable, double negative pledge on all investments of the borrower, and carries a variable rate of interest at the Wall Street Journal prime rate (8.5% at December 31, 2023), adjusted daily. At December 31, 2023 and 2022, there was no outstanding balance on this line of credit.

NOTE 8 - BONDS PAYABLE

During 2007, the New Hampshire Health and Education Facilities Authority (the "Authority") sold $5,540,000 of its Revenue Bonds, Child and Family Services Issue, Series 2007, and loaned the proceeds of the bonds to the Organization to refund its Series 1999 Series Bonds and to finance certain improvements to the Organization's facilities. The Series 2007 Bonds were issued with a variable interest rate determined on a weekly basis. Prior to issuing the Bonds, the Organization entered into an interest rate swap agreement (the "Swap Agreement") with Citizens Bank of NH (the "Counterparty") for the life of the bond issue to hedge the interest rate risk associated with the Series 2007 Bonds. The interest rate swap agreement requires the Organization to pay the Counterparty a rate of interest per annum equal to the product of (a) .68 multiplied by (b) the sum of Term SOFR, plus 2.75%".

Docusign Envelope ID: F0D8160B-2692-4A08-941A-7253A1915A41

NOTE 8 - BONDS PAYABLE (CONTINUED)

Counterparty payments to the Organization were intended to offset the Organization's payments of variable rate interest to bondholders. Counterparty credit worthiness and market variability can impact the variable rates received and paid by the Organization, with the potential of increasing Organization's interest payments. As a result, the cost of the interest rate swap for 2023 and 2022 is added to interest expense in the Consolidated Statement of Functional Expenses. The bonds mature in 2038 and can be repaid at any time.

The Organization is required to include the fair value of the swap in the Consolidated Statement of Financial Position, and annual changes, if any, in the fair value of the swap in the Consolidated Statement of Activities. For example, during the bond's 30-year holding period, the annually calculated value of the swap will be reported as an asset if interest rates increase above those in effect on the date of the swap was entered into (and as an unrealized gain in the Consolidated Statement of Activities), which will generally be indicative that the net fixed rate the Organization is paying on the swap is below market expectations of rates during the remaining term of the swap. The swap will be reported as a liability (and as an unrealized loss in the Consolidated Statement of Activities) if interest rates decrease below those in effect on the date the swap was entered into, which will generally be indicative that the net fixed rate the Organization is paying on the swap is above market expectations of rates during the remaining term of the swap. The annual accounting adjustments of value changes in the swap transaction are non-cash recognition requirements, the net effect of which will be zero at the end of the bond's 30-year term. At December 31, 2023 and 2022, the Organization recorded the swap liability position of $380,838 and $399,935, respectively. During 2009, there occurred a downgrading of the credit rating of the Counterparty to the letter of credit reimbursement agreement, which triggered a mandatory tender of the Series 2007 Bonds in whole and a temporary conversion of one hundred percent of the principal amount to a bank purchase mode under the terms of said letter of credit reimbursement agreement. Since it became evident that the credit markets would not soon return to normalcy, the Organization elected to convert the Series 2007 Bonds from a weekly rate mode to a bank purchase mode. This new bank purchase mode created a rate period in which the Series 2007 Bonds bear interest at the tax adjusted bank purchase rate of 68% of the sum of the term secured overnight financing rate (SOFR) plus 275 basis points. The bank purchase mode commenced on July 31, 2009 and expired on July 31, 2014; however, the expiration date was extended by the Counterparty and the Organization had the option to convert back to the weekly rate mode. The Series 2007 Bond documents require the Organization to comply with certain financial covenants. As of December 31, 2023 and 2022, the Organization was in compliance with these covenants.

NOTE 12 - ENDOWMENT FUNDS

TYPES OF FUNDS

The Organization's endowment consists of various individual funds established for a variety of purposes. The endowment includes both donor-restricted funds and funds designated by the Board of Trustees to function as endowments. As required by GAAP, net assets associated with endowment funds, including funds designated by the Board of Trustees to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

Board-Designated Endowment

As of December 31, 2023 and 2022, the Board of Trustees had designated $16,173,416 and $14,896,850, respectively, of net assets without donor restrictions as a general endowment fund to support the mission of the Organization.

NOTE 12 - ENDOWMENT FUNDS (CONTINUED)

TYPES OF FUNDS (CONTINUED)

Donor-Designated Endowments

The Board of Trustees of the Organization has interpreted the Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date for donor-restricted perpetual endowment funds, absent explicit donor stipulations to the contrary. As a result of this interpretation, the Organization classifies as perpetually restricted net assets (a) the original value of gifts donated to the endowment, (b) the original value of subsequent gifts to the endowment, and (c) accumulations to the endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added. The remaining portion of the donor-restricted endowment fund that is not classified as perpetually restricted is classified as net assets with donor restrictions until those amounts are appropriated for expenditure by the Organization in a manner consistent with the standard of prudence prescribed by UPMIFA. In accordance with UPMIFA, the Organization considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (1) the duration and preservation of the various funds, (2) the purposes of the donor-restricted endowment funds, (3) general economic conditions, (4) the possible effect of inflation and deflation, (5) the expected total return from income and the appreciation of investments, (6) other resources of the Organization, and (7) the Organization's investment policies.

FUNDS WITH DEFICIENCIES

The Organization considers a fund to be underwater if the fair value of the fund is less than the sum of (a) the original value of initial and subsequent gift amounts donated to the fund, and (b) any accumulations to the fund that are required to be maintained in perpetuity in accordance with the direction of the applicable donor gift instrument. The Organization complies with UPMIFA and has interpreted UPMIFA to permit spending from underwater funds in accordance with prudent measures required under the law. The Organization had no underwater endowment funds at December 31, 2023 or 2022.

INVESTMENT POLICY

The Organization has adopted an investment and spending policy to ensure a total return (income plus capital change) necessary to preserve and enhance the principal of the fund and, at the same time, provide a dependable source of support for current operations and programs. The withdrawal from endowment funds in support of current operations is expected to remain a constant percentage of the endowment funds, adjusted for new gifts to the endowment fund.

NOTE 12 - ENDOWMENT FUNDS (CONTINUED)

INVESTMENT POLICY (CONTINUED)

In recognition of the prudence required of fiduciaries, reasonable diversification is sought where possible. Experience has shown financial markets and inflation rates are cyclical and, therefore, control of volatility will be achieved through investment styles. Asset allocation parameters have been developed for various funds within the structure, based on investment objectives, liquidity needs, and time horizon for intended use.

Measurement of investment performance against policy objectives will be computed on a total return basis, net of management fees and transaction costs. Total return is defined as dividend or interest income plus realized and unrealized capital appreciation or depreciation at fair market value.

SPENDING POLICY

The Organization's spending policy rate is a percentage of the average total endowment value over the trailing 12 quarters with a 1% contingency margin with Board approval. This includes interest and dividends paid out to the Organization. In 2023 and 2022, the approved rate was 5.00%.

NOTE 15 - EMPLOYEE RETENTION TAX CREDIT (ERTC)

The Employee Retention Tax Credit (ERTC), established as part of the Coronavirus Aid, Relief and Economic Security Act (CARES Act), enacted March 27, 2020, amended by the Consolidated Appropriations Act, 2021 (CAA), enacted on December 27, 2020, and further amended by the American Rescue Plan Act (ARPA), enacted March 11, 2021, provides for financial relief to eligible employers through refundable tax credits. INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Trustees
Waypoint

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the consolidated financial statements of Waypoint, (the Organization), which comprise the consolidated statement of financial position as of December 31, 2023, and the related consolidated statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the consolidated financial statements, and have issued our report thereon dated May 20, 2024.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the consolidated financial statements, we considered the Organization's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control. Accordingly, we do not express an opinion on the effectiveness of the Organization's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Organization's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM; REPORT ON INTERNAL CONTROL OVER COMPLIANCE; AND REPORT ON SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY THE UNIFORM GUIDANCE

To the Board of Trustees
Waypoint

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Waypoint's (the Organization) compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the Organization's major federal programs for the year ended December 31, 2023. The Organization's major federal programs are identified in the summary of auditors' results section of the accompanying Schedule of Findings and Questioned Costs.

In our opinion, Waypoint complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2023.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States *(Government Auditing Standards);* and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the Organization and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the Organization's compliance with the compliance requirements referred to above.

Docusign Envelope ID: F0D8160B-2692-4A08-941A-7253A1915A41

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the Organization's federal programs.

Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material, noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Organization's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the Organization's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the Organization's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the Organization's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of

Docusign Envelope ID: F0D8160B-2692-4A08-941A-7253A1915A41

compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the consolidated financial statements of Waypoint as of and for the year ended December 31, 2023, and have issued our report thereon dated May 20, 2024, which contained an unmodified opinion on those consolidated financial statements. Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

EXPLANATION

The purpose of this request is for the Contractors to ensure the continuity of Comprehensive Family Support Services (CFSS) by providing home visiting services statewide to pregnant and parenting caregivers and families with children under 18 years of age. Home visiting services provide access to a variety of parenting, economic, and public health supports based on individuals' needs.

Docusign Envelope ID: F0D8160B-2692-4A08-941A-7253A1915A41

Contractors will expand services by designating staff as "Newborn Navigators" within the CFSS program. Newborn Navigators will focus on outreach and engagement of families with newborns through a one-time, postpartum home visit. This service will allow the Contractors to reach more families and increase newborn families' connections to community-based resources that support maternal, family, and child health outcomes, as well as reduce the risk of child maltreatment.

The CFSS home visiting program provides preventative services at no cost to families, including household management, child development and maternal depression screenings, case management, and resource referrals such as nutrition support, childcare, and economic mobility support.

Approximately 1,250 families will be served each year. As a result, an average of 2,242 children and 1,592 adults will engage in services annually.

The Department will monitor services by:

- Reviewing the activities and outcome measures identified in the quarterly reports submitted by the Contractor.
- Quarterly meetings with the Contractor to ensure continued compliance with contractual requirements.
- Reviewing Contractor expenditures and conducting data quality assurance activities every month.
- Reviewing consumer satisfaction data, which must indicate an 80% favorable rating at minimum.
- Monitoring long-term program outcomes, including increasing outreach to high-risk populations, increasing the share of referred families who enroll in services, and increasing service completion rates.

As referenced in Exhibit A, Revisions to Standard Contract Provisions, of the original agreements, the parties have the option to extend the agreements for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and Governor and Council approval. The Department is exercising its option to renew services for two (2) years of the two (2) years available.

Should the Governor and Council not authorize this request, the Department will have limited capacity to provide community-based home-visiting services to children and families statewide which help prevent child maltreatment and promote child and family wellbeing.

In the event that the Federal Funds become no longer available, additional General Funds will not be requested to support this program.

Respectfully submitted,

Lori A. Weaver
Commissioner

EXPLANATION

The purpose of this request is to modify the scope of work for the existing contracts to expand the pool of potential home visitors for the Comprehensive Family Support Services (CFSS) program by reducing the minimum education requirement for Paraprofessional Home Visitors from a bachelor's degree to an associate's degree. Due to the supervisory levels and management structure, quality of services will not be impacted. Comprehensive Family Support Services promotes family wellness, decreasing family stressors, preventing child abuse and neglect, juvenile justice involvement, and providing education and support to parents and caregivers. Families are provided with assistance to access services they need and want in their home communities that strengthen the family and provide parents with an opportunity to learn and grow. Specialized training for staff is provided to ensure comprehensive knowledge, quality skills and abilities are applied in these services.

Approximately 1,200 families are served annually.

Contractors will continue serving pregnant and parenting women, and families with children under the age of 21 years old, who are in need of assistance and support with parenting, health and nutrition, education, and employment. Families served may be experiencing stressors such as, but not limited to, unemployment, social isolation, substance misuse, and health issues.

Contractors will continue providing evidence-informed, trauma-informed, integrated, whole family services with the goal of promoting and strengthening family health and wellness, and preventing child maltreatment. Contractors will continue assisting families with accessing a variety of parenting, economic, and public health supports based on the needs presented. All services are strength-based, focus on the whole family, voluntary, and guided by the family.

The Department will continue monitoring services by:

- Reviewing consumer satisfaction data, which must indicate a minimum of 80% favorable rating.
- Monitoring long-term program outcomes, including increasing outreach to high-risk populations, increasing the share of referred families who enroll in services, and increasing service completion rates.

Should the Governor and Executive Council not authorize this request, the flexibility of community-based family services may not be available to address the needs of children and families throughout the state, which could cause an increase of involvement of services through the Division for Children, Youth and Families, as these services help to prevent child maltreatment and promote child and family wellbeing.

Respectfully submitted,

Lori A. Shibinette

EXPLANATION

This request is **Retroactive** because the Department did not have the fully executed contract documents in time for Governor and Executive Council approval to prevent a lapse in coverage between these new contracts and the existing contracts which expired June 30, 2020. The Department extended the deadline for the submittal of proposals due to the COVID-19 pandemic. Proposals were initially due at the start of the State of Emergency; the prospective proposers needed additional time to respond to the Request for Proposal. The Department's decisions to allow proposers additional time to respond caused the original timeline to be extended.

The purpose of this request is to provide Comprehensive Family Support Services (CFSS) by promoting family wellness, decreasing family stressors and preventing child abuse, neglect, as well as, juvenile justice involvement, and by providing education and support. Services are designed to enable families to access the services they need and want in their home communities. These prevention services strengthen parents, enabling families an opportunity to learn and grow.

The population to be served will be pregnant, parenting women and families with children under the age of 21 years, who are in need of assistance and support with parenting, health and nutrition; education; and employment. Families served may be experiencing stressors such as, but not limited to, unemployment, social isolation; substance misuse; and health issues.

Approximately 1200 families will be served each year.

These Contractors will support families by providing evidence-informed, trauma-informed, integrated, whole family services. Primary goals are to promote and strengthen family health and wellness, and to prevent child maltreatment. Contractors will assist families with accessing a variety of parenting, economic, and public health supports based on the needs presented. All services are strength-based, focus on the whole family, voluntary and guided by the family.

The Department will monitor contracted services by:

- Reviewing consumer satisfaction data, which must indicate a minimum of 80% favorable rating.
- Monitoring long-term program outcomes, including increasing outreach to high-risk populations; increasing the share of referred families who enroll in services; and increasing service completion rates.

The Department selected the Contractors through a competitive bid process using a Request for Proposals (RFP) that was posted on the Department's website from 3/3/2020 through 4/6/2020. The Department received 11 responses that were reviewed and scored by a team of qualified individuals. The Scoring Sheet is attached.

As referenced in Exhibit A, Revisions to Standard Contract Provisions, of the attached contracts, the parties have the option to extend the agreements for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties, and Governor and Council approval.

Should the Governor and Council not authorize this request, the flexibility of community-based family services may not be available to address the needs of children and families throughout the state, which could cause an increase of involvement of services through the Division for Children, Youth and Families, as these services help to prevent child maltreatment and promote child and family wellbeing.

2. SERVICES TO BE PERFORMED. The State of New Hampshire, acting through the agency identified in block 1.1 ("State"), engages contractor identified in block 1.3 ("Contractor") to perform, and the Contractor shall perform, the work or sale of goods, or both, identified and more particularly described in the attached EXHIBIT B which is incorporated herein by reference ("Services").

3. EFFECTIVE DATE/COMPLETION OF SERVICES.

3.1 Notwithstanding any provision of this Agreement to the contrary, and subject to the approval of the Governor and Executive Council of the State of New Hampshire, if applicable, this Agreement, and all obligations of the parties hereunder, shall become effective on the date the Governor and Executive Council approve this Agreement as indicated in block 1.17, unless no such approval is required, in which case the Agreement shall become effective on the date the Agreement is signed by the State Agency as shown in block 1.13 ("Effective Date").

3.2 If the Contractor commences the Services prior to the Effective Date, all Services performed by the Contractor prior to the Effective Date shall be performed at the sole risk of the Contractor, and in the event that this Agreement does not become effective, the State shall have no liability to the Contractor, including without limitation, any obligation to pay the Contractor for any costs incurred or Services performed. Contractor must complete all Services by the Completion Date specified in block 1.7.

4. CONDITIONAL NATURE OF AGREEMENT.

Notwithstanding any provision of this Agreement to the contrary, all obligations of the State hereunder, including, without limitation, the continuance of payments hereunder, are contingent upon the availability and continued appropriation of funds affected by any state or federal legislative or executive action that reduces, eliminates or otherwise modifies the appropriation or availability of funding for this Agreement and the Scope for Services provided in EXHIBIT B, in whole or in part. In no event shall the State be liable for any payments hereunder in excess of such available appropriated funds. In the event of a reduction or termination of appropriated funds, the State shall have the right to withhold payment until such funds become available, if ever, and shall have the right to reduce or terminate the Services under this Agreement immediately upon giving the Contractor notice of such reduction or termination. The State shall not be required to transfer funds from any other account or source to the Account identified in block 1.6 in the event funds in that Account are reduced or unavailable.

5.2 The payment by the State of the contract price shall be the only and the complete reimbursement to the Contractor for all expenses, of whatever nature incurred by the Contractor in the performance hereof, and shall be the only and the complete compensation to the Contractor for the Services. The State shall have no liability to the Contractor other than the contract price.

5.3 The State reserves the right to offset from any amounts otherwise payable to the Contractor under this Agreement those liquidated amounts required or permitted by N.H. RSA 80:7 through RSA 80:7-c or any other provision of law.

6. COMPLIANCE BY CONTRACTOR WITH LAWS AND REGULATIONS/ EQUAL EMPLOYMENT OPPORTUNITY.

6.1 In connection with the performance of the Services, the Contractor shall comply with all applicable statutes, laws, regulations, and orders of federal, state, county or municipal authorities which impose any obligation or duty upon the Contractor, including, but not limited to, civil rights and equal employment opportunity laws. The Contractor shall also comply with all applicable intellectual property laws.

6.2 During the term of this Agreement, the Contractor shall not discriminate against employees or applicants for employment because of race, color, religion, creed, age, sex, handicap, sexual orientation, or national origin and will take affirmative action to prevent such discrimination.

6.3. The Contractor agrees to permit the State or United States access to any of the Contractor's books, records and accounts for the purpose of ascertaining compliance with all rules, regulations and orders, and the covenants, terms and conditions of this Agreement.

7. PERSONNEL.

7.1 The Contractor shall at its own expense provide all personnel necessary to perform the Services. The Contractor warrants that all personnel engaged in the Services shall be qualified to perform the Services, and shall be properly licensed and otherwise authorized to do so under all applicable laws.

8.2.2 give the Contractor a written notice specifying the Event of Default and suspending all payments to be made under this Agreement and ordering that the portion of the contract price which would otherwise accrue to the Contractor during the period from the date of such notice until such time as the State determines that the Contractor has cured the Event of Default shall never be paid to the Contractor;

No express failure to enforce any Event of Default shall be deemed a waiver of the right of the State to enforce each and all of the provisions hereof upon any further or other Event of Default on the part of the Contractor.

9. TERMINATION.

9.1 Notwithstanding paragraph 8, the State may, at its sole discretion, terminate the Agreement for any reason, in whole or in part, by thirty (30) days written notice to the Contractor that the State is exercising its option to terminate the Agreement.

CERTIFICATION REGARDING DEBARMENT, SUSPENSION AND OTHER RESPONSIBILITY MATTERS

The Vendor identified in Section 1.3 of the General Provisions agrees to comply with the provisions of Executive Office of the President, Executive Order 12549 and 45 CFR Part 76 regarding Debarment, Suspension, and Other Responsibility Matters, and further agrees to have the Contractor's representative, as identified in Sections 1.11 and 1.12 of the General Provisions execute the following Certification:

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.

7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

INDEPENDENT AUDITORS' REPORT

To the Board of Trustees
Waypoint

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of Waypoint, which comprise the consolidated statement of financial position as of December 31, 2023, and the related consolidated statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the consolidated financial statements.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of Waypoint as of December 31, 2023, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are required to be independent of Waypoint and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Waypoint's ability to continue as a going concern for one year after the date that the consolidated financial statements are available to be issued.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the consolidated financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Waypoint's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Waypoint's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The Consolidated Schedules of Operating Expenses for 2023 and 2022 are presented for purposes of additional analysis and are not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards

Docusign Envelope ID: F0D8160B-2692-4A08-941A-7253A1915A41

generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

Report on Summarized Comparative Information

The consolidated financial statements of Waypoint as of and for the year ended December 31, 2022, were audited by Melanson, whose report dated May 10, 2023 expressed an unmodified opinion on those statements. In our opinion, the summarized comparative information presented herein as of and for the year ended December 31, 2022 is consistent, in all material respects, with the audited consolidated financial statements from which it has been derived.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated May 20, 2024 on our consideration of Waypoint's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Waypoint's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Waypoint's internal control over financial reporting and compliance.

NOTE 1 - ORGANIZATION

Waypoint (the Organization) is a nonprofit organization, founded in 1850, with a mission to empower people of all ages through an array of human services and advocacy. Waypoint adheres to the highest standards of practice and is the only organization in New Hampshire to be accredited by the Council on Accreditation.

Waypoint has historically been the first service provider to respond to the state's most pressing needs – responding to child labor of the 1900s, child abuse in the 1940s, the spike in youth homelessness in the 1960s, human trafficking in the 2010s, and continues that trend today. Each year we serve an average of 7,500 individuals, children, and families across New Hampshire. Nearly 90% of our clients live in poverty or with very low incomes.

These services span the life cycle from prenatal to seniors, and fall under four core care areas:

FAMILY PRESERVATION AND STRENGTHENING

Intensive home-based programs in partnership with the Division of Children, Youth, and Families to restore positive family functioning for youth and families involved with the child welfare and juvenile justice systems as well as voluntary services for families that are at risk to stabilize families. Programs are delivered in the home, schools, or community, and include mental health counseling and substance abuse treatment, as well as a complex system of family stabilization and preservation programs. Waypoint empowers families with the skills and resources they need to provide for their children and become self-sufficient.

EARLY CHILDHOOD AND FAMILY SUPPORT

Education and support to improve parenting, strengthen families, prevent child abuse, and neglect, and ensure the healthy development of children are provided in homes and through Family Resource Centers throughout New Hampshire. This includes home visiting services that support families and support and therapy for infants and toddlers with, or at-risk of, developmental disabilities and delays. Waypoint also operates a childcare center (the Children's Place and Parent Education Center) providing a unique combination of educational and family support. Young children starting life at a disadvantage receive critical services to ensure a good beginning and to optimize their chances for life-long success.

NOTE 1 - ORGANIZATION (CONTINUED)

HOMELESS YOUTH AND YOUNG ADULTS

A continuum of care designed to support youth and young adults (12-25) in exiting homelessness and finding long-term independence and stability. Services feature street-based outreach, basic needs fulfillment at drop-in centers, crisis intervention, educational and vocational advocacy, housing, and case management. Waypoint operates the only low-barrier emergency shelter specifically for adults aged 18-24 who are experiencing or are at-risk of homelessness.

HOMECARE

In-home support for seniors and adults with disabilities so they can maintain their independence safely in their community, and family-strengthening support and resources, for children with chronic health condition and their families. Waypoint provides services delivered by personal care service providers, nurses, and LNAs in homes that help with everything from cooking and cleaning to personal hygiene, medication reminders, mobility, and help with daily tasks.

Waypoint provides additional support for children, families, and individuals through a strong advocacy program, established in 1971. The combination of advocacy and direct service practice uniquely positions Waypoint to serve the best interests of New Hampshire children.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies used in preparing and presenting the accompanying consolidated financial statements.

BASIS OF FINANCIAL STATEMENT PRESENTATION

The consolidated financial statements of the Organization have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

CHANGE IN ACCOUNTING PRINCIPLE

ASC 326, Current Expected Credit Losses

In June 2016, the Financial Accounting Standards Board (FASB) issued Accounting Standards Codification (ASC) 326, *Current Expected Credit Losses,* which changed how entities will measure credit losses for most financial assets and certain other instruments that are not measured at fair value through net income. The most significant change in this standard is a shift from the incurred loss model to the expected loss model. Under the standard, disclosures are required to provide users of the financial statements with useful information in analyzing an entity's exposure to credit risk and the measurement of credit losses. Financial assets held by the Organization that are subject to the guidance in FASB ASC 326 are trade accounts receivable.

The Organization adopted the standard effective January 1, 2023. The impact of the adoption was not considered material to the consolidated financial statements and primarily resulted in new/enhanced disclosures only.

PRINCIPLES OF CONSOLIDATION

The consolidated financial statements include Waypoint and Child and Family Realty Corporation, commonly controlled organizations. All inter-organization transactions have been eliminated. Unless otherwise noted, these consolidated entities are hereinafter referred to as "the Organization".

COMPARATIVE FINANCIAL INFORMATION

The accompanying consolidated financial statements include certain prior-year summarized comparative information in total, but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with GAAP Accordingly, such information should be read in conjunction with the audited consolidated financial statements for the year ended December 31, 2022, from which the summarized information was derived.

CASH AND CASH EQUIVALENTS

All cash and highly liquid financial instruments with original maturities of three months or less, and which are neither held for nor restricted by donors for long-term purposes, are considered to be cash and cash equivalents. Cash and highly liquid financial instruments invested for long-term purposes, including endowments that are perpetual in nature, are excluded from this definition.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

ACCOUNTS RECEIVABLE AND CREDIT POLICIES

At the end of each reporting period, the Organization estimates the current expected credit loss (CECL) per ASC 326. The Organization utilizes the loss rate methodology to determine historical credit losses. The loss rate method estimate is derived from a review of the Organization's historical write-offs as a percentage of average accounts receivable. The estimate is adjusted for management's assessment of current conditions, reasonable and supportable forecasts regarding future events, and any other factors deemed relevant. The Organization believes historical loss information is a reasonable starting point for calculating the expected allowance for credit losses, as the Organization's programs have remained consistent since inception. Based on economic indicators, including 2023 and general overall economic conditions, the Organization is not anticipating a change in the historical credit loss rate from what it has been in the past.

GRANTS RECEIVABLE

Grants receivable, that is, those with a measurable performance or other barrier, and a right of return, are not recognized until the conditions on which they depend have been substantially met. Amounts recorded as grants receivable represent cost-reimbursable contracts and grants, which the incurrence of allowable qualifying expenses and/or the performance of certain requirements have been met or performed. The allowance for uncollectible grants receivable is based on historical experience and a review of subsequent collections. Management has determined that no allowance is necessary.

CONTRIBUTIONS RECEIVABLE

Unconditional contributions that are expected to be collected within one year are recorded at net realizable value. Unconditional contributions that are expected to be collected in future years are initially recorded at fair value using present value techniques incorporating risk-adjusted discount rates designed to reflect the assumptions market participants would use in pricing the asset. In subsequent years, amortization of the discounts is included in contribution revenue in the Consolidated Statement of Activities. The allowance for uncollectable contributions is based on historical experience, an assessment of economic conditions, and a review of subsequent collections. Contributions are written off when deemed uncollectable. Management has determined that no allowance is necessary.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

INVESTMENTS

Investment purchases are recorded at cost, or if donated, at fair value on the date of donation. Thereafter, investments are reported at their fair value in the Consolidated Statement of Financial Position. Net investment return/(loss) is reported in the Consolidated Statement of Activities and consists of interest and dividend income, realized and unrealized gains and losses, less external investment expenses.

The Organization maintains pooled investment accounts for its endowment. Realized and unrealized gains and losses are allocated to the individual endowments based on the relationship of the market value of each endowment to the total market value of the pooled investment accounts, as adjusted for additions to or deductions from those accounts, and taking into consideration donor restrictions related to the treatment of investment earnings.

BENEFICIAL INTEREST HELD IN TRUSTS

The Organization is the beneficiary of perpetual charitable trusts. The beneficial interest in trusts is reported at its fair value, which is estimated as the fair value of the underlying trust assets. Distributions of income from trust assets are restricted as to use and are reported as increases in net assets with donor restrictions until expended in accordance with restrictions. The value of the beneficial interest in the trusts is adjusted annually for the change in its estimated fair value. Those changes in value are reported as increases in net assets with donor restrictions. The assets in the trusts will never be distributed to the Organization.

PROPERTY AND EQUIPMENT, NET

Property and equipment additions over $5,000 are recorded at cost, if purchased, and at fair value at the date of donation, if donated. Depreciation is computed using the straight-line method over the estimated useful lives of the assets ranging from 5 to 50 years. When assets are sold or otherwise disposed of, the cost and related depreciation is removed, and any resulting gain or loss is included in the Consolidated Statement of Activities. Costs of maintenance and repairs that do not improve or extend the useful lives of the respective assets are expensed. Assets not in service are not depreciated.

The carrying values of property and equipment are reviewed for impairment whenever events or circumstances indicate that the carrying value of an asset may not be recoverable from the estimated future cash flows expected to result from its use and eventual disposition. When considered impaired, an impairment loss is recognized to the extent carrying value exceeds the fair value of the asset. There were no indicators of asset impairment in 2023 or 2022.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

LEASES

The Organization is a lessee in several noncancellable operating leases, for office space and equipment. The Organization determines if an arrangement is a lease, or contains a lease, at inception of a contract and when the terms of an existing contract are changed. The Organization recognizes a lease liability and a right-of-use (ROU) asset at the commencement date of the lease. The lease liability is initially and subsequently recognized based on the present value of its future lease payments. Variable payments are included in the future lease payments when those variable payments depend on an index or a rate. The Organization generally does not have access to the rate implicit in the lease and, therefore, the Organization utilizes a risk-free rate as the discount rate at the lease commencement date for all classes of underlying assets. The ROU asset is subsequently measured throughout the lease term at the amount of the remeasured lease liability (i.e., present value of the remaining lease payments), plus unamortized initial direct costs, plus (minus) any prepaid (accrued) lease payments, less the unamortized balance of lease incentives received, and any impairment recognized. Lease cost for lease payments is recognized on a straight-line basis over the lease term.

The Organization has elected, for all underlying classes of assets, to not recognize ROU assets and lease liabilities for short-term leases that have a lease term of 12 months or less at lease commencement, and do not include an option to purchase the underlying asset that the Organization is reasonably certain to exercise. The Organization recognizes lease costs associated with short-term leases on a straight-line basis over the lease term.

The Organization has lease agreements with lease and non-lease components, which are generally accounted for separately. The Organization has elected, for all underlying classes of assets, to account for each separate lease component of a contract and its associated non-lease components (repairs and maintenance) as a single lease component. For arrangements accounted for as a single lease component, there may be variability in future lease payments as the amount of the non-lease components is typically revised from one period to the next. These variable lease payments are recognized in operating expenses in the period in which the obligation for those payments was incurred.

INTEREST RATE SWAP

An interest rate swap is utilized to mitigate interest rate risk on bonds payable. The related liability is reported at fair value in the Consolidated Statement of Financial Position, and unrealized gains or losses are included in the Consolidated Statement of Activities.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

NET ASSETS

Net assets, revenues, gains, and losses are classified based on the existence or absence of donor or grantor-imposed restrictions.

Net Assets Without Donor Restrictions

Net assets without donor restrictions are net assets available for use in general operations and not subject to donor (or certain grantor) imposed restrictions. The Board has designated, from net assets without donor restrictions, net assets for a Board-designated endowment.

Net Assets With Donor Restrictions

Net assets with donor restrictions are net assets subject to donor (or certain grantor) imposed restrictions. Some donor-imposed restrictions are temporary in nature, such as those that will be met by the passage of time or other events specified by the donor. Other donor-imposed restrictions are perpetual in nature, where the donor stipulates that resources be maintained in perpetuity while permitting the Organization to expend the income generated by the assets in accordance with the provisions of additional donor-imposed stipulations or a Board approved spending policy. Donor-imposed restrictions are released when a restriction expires, that is, when the stipulated time has elapsed, when the stipulated purpose for which the resource was restricted has been fulfilled, or both.

The Organization recognizes revenue from contributions and grants that were initially conditional, which became unconditional with restrictions during the reporting period, and for which those restrictions were met during the reporting period, as net assets without donor restrictions.

REVENUE RECOGNITION

A portion of the Organization's revenue is derived from cost-reimbursable contracts and grants, which are conditioned upon certain performance requirements and/or the incurrence of allowable qualifying expenses. Amounts received are recognized as revenue when the Organization has incurred expenditures in compliance with specific contract or grant provisions. Amounts received prior to incurring qualifying expenditures are reported as refundable advances in the Consolidated Statement of Financial Position.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

REVENUE RECOGNITION (CONTINUED)

The Organization recognizes contributions when cash, securities or other assets; an unconditional promise to give; or a notification of a beneficial interest is received. Conditional promises to give—that is, those with a measurable performance or other barrier and a right of return—are not recognized until the conditions on which they depend have been met.

The Organization records special events revenue equal to the fair value of direct benefits to donors, and contribution income for the excess received when the event takes place.

Revenues derived from providing program services are recognized as the services are provided. Program service fees paid in advance are deferred to the period to which they relate. All other amounts paid in advance are deferred to the period in which the underlying event or rental takes place. Due to the nature and timing of the performance and/or transfer of services, certain contract liabilities at December 31 of each year are recognized in the following year.

DONATED SERVICES AND IN-KIND CONTRIBUTIONS

Volunteers contribute significant amounts of time to program services, administration, and fundraising and development activities; however, the financial statements do not reflect the value of these contributed services because they do not meet recognition criteria prescribed by GAAP. GAAP allows recognition of contributed services only if (a) the services create or enhance nonfinancial assets or (b) the services would have been purchased if not provided by contribution, require specialized skills, and are provided by individuals possessing those skills.

Donated professional services are recorded at the respective fair value of the services received. Contributed goods are recorded at fair value at the date of donation and as expenses when placed in service or distributed. Donated use of facilities is reported as a contribution and as an expense at the estimated fair value of similar space for rent under similar conditions. If the use of the space is promised unconditionally for a period greater than one year, the amount is reported as a contribution and an unconditional promise to give at the date of the gift, and the expense is reported over the term of use.

ADVERTISING COSTS

Advertising costs are expensed as incurred and are reported in the Consolidated Statement of Activities and Consolidated Statement of Functional Expenses.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

FUNCTIONAL ALLOCATION OF EXPENSES

The costs of program and supporting services activities have been summarized on a functional basis in the Consolidated Statement of Activities. The Consolidated Statement of Functional Expenses presents the natural classification detail of expenses by function.

The consolidated financial statements report certain categories of expenses that are attributed to more than one program or supporting function. Therefore, expenses require allocation on a reasonable basis that is consistently applied. The expenses that are allocated include salary and benefits, which are allocated based on time and effort estimates, and occupancy costs and depreciation which are allocated based on personnel count at the location.

MEASURE OF OPERATIONS

The Consolidated Statement of Activities reports all changes in net assets, including changes in net assets from operating and nonoperating activities. Operating activities consist of those items attributable to the Organization's ongoing programs and services and include the Organization's annual endowment transfer to support operations. Nonoperating activities are limited to resources outside of those programs and services and are comprised of non-recurring gains and losses on sales and dispositions, investment income, changes in the value of beneficial interests and interest rate swaps, and employee retention tax credit net of applicable expenses.

INCOME TAXES

Waypoint has been recognized by the Internal Revenue Service (IRS) as exempt from federal income taxes under Internal Revenue Code (IRC) Section 501(a) as an organization described in IRC Section 501(c)(3), qualifies for charitable contribution deductions, and has been determined not to be a private foundation. Child and Family Realty Corporation is exempt from federal income tax under Section 501(a) of the IRC as an organization described in Section 501(c)(25).

Each entity is annually required to file a Return of Organization Exempt from Income Tax (Form 990) with the IRS. In addition, each is subject to income tax on net income that is derived from business activities that are unrelated to their exempt purpose.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

INCOME TAXES (CONTINUED)

The Organization accounts for uncertain tax provisions under FASB ASC 740, *Income Taxes*, which provides a framework for how entities should recognize, measure, present, and disclose uncertain tax positions in their financial statements. The Organization may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. Management has reviewed the Organization's reporting and believes they have not taken tax positions that are more likely than not to be determined to be incorrect by the IRS and, therefore, no adjustments or disclosures are required. The Organization is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods pending or in progress.

ESTIMATES

The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates.

FINANCIAL INSTRUMENTS AND CREDIT RISK

Deposit concentration risk is managed by placing cash deposits with financial institutions believed to be creditworthy. At times, amounts on deposit may exceed insured limits. To date, no losses have been experienced in any of these accounts. Credit risk associated with receivables is considered to be limited due to high historical collection rates. Investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the Consolidated Statement of Financial Position. Although the fair value of investments are subject to fluctuation on a year-to-year basis, the Investment Committee believes that the investment policies and guidelines are prudent for the long-term welfare of the Organization.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

FAIR VALUE MEASUREMENTS AND DISCLOSURES

Certain assets and liabilities are reported at fair value in the consolidated financial statements. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal, or most advantageous, market at the measurement date under current market conditions regardless of whether that price is directly observable or estimated using another valuation technique. Inputs used to determine fair value refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability based on the best information available. A three-tier hierarchy categorizes the inputs as follows:

- Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities that are accessible at the measurement date.
- Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability, and market-corroborated inputs.
- Level 3 – Unobservable inputs for the asset or liability. In these situations, inputs are developed using the best information available in the circumstances.

In some cases, the inputs used to measure the fair value of an asset or a liability might be categorized within different levels of the fair value hierarchy. In those cases, the fair value measurement is categorized in its entirety at the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. Assessing the significance of a particular input to entire measurement requires judgment, taking into account factors specific to the asset or liability. The categorization of an asset or liability within the hierarchy is based upon the pricing transparency of the asset or liability and does not necessarily correspond to the assessment of the quality, risk, or liquidity profile of the asset or liability.

Docusign Envelope ID: F0D8160B-2692-4A08-941A-7253A1915A41

NOTE 3 - LIQUIDITY AND AVAILABILITY (CONTINUED)

The Board-designated endowment is subject to an annual spending rate as determined by the Board. Although there is no intention to spend from the Board-designated endowment (other than amounts appropriated for general expenditure as part of the Board's annual budget approval and appropriation), these amounts could be made available if necessary.

As part of its liquidity management plan, the Organization also has a $1,500,000 revolving line of credit available to meet cash flow needs.

NOTE 4 - INVESTMENTS

Investments measured at fair value on a recurring basis, consisted of the following at December 31, 2023 and 2022:

	2023	2022	Fair Value Hierarchy
Mutual funds	$ 20,644,755	$ 18,568,769	Level 1
Closely held securities	750,000	--	Level 3
Total	$ 21,394,755	$ 18,568,769	

During 2023 and 2022, the Organization recognized $2,463,878 and $(4,596,536), respectively, of net gains and (losses) on investments. Of those amounts, $2,155,130 and $(4,768,167) were recognized as unrealized gains and (losses) on investments of equity securities held at December 31, 2023 and 2022, respectively.

Under the terms of the Organization's line of credit agreement (Note 7), the Organization has agreed not to pledge the mutual funds as security on any other debt.

The Organization's policy is to avail itself of a Board-approved percentage of investment income from mutual fund investments for operations with any remaining interest, dividends, or appreciation reinvested. The spending policy approved by the Board of Trustees is a percentage of the average total endowment value over the previous 12 quarters, with a 1% contingency margin with Board approval. In 2023 and 2022, the approved rate was 5.00%.

Docusign Envelope ID: F0D8160B-2692-4A08-941A-7253A1915A41

NOTE 5 - BENEFICIAL INTEREST HELD IN TRUSTS

The Organization is the sole beneficiary of four funds that are administered by the New Hampshire Charitable Foundation (NHCF). Income from the funds is to provide assistance to children attending camp and for capital improvements to the camp, and to support the Early Supports and Services program based in the Stratham office. The fund's resolutions provide that distributions from the funds can be made at the discretion of the NHCF Board of Directors.

At December 31, 2023 and 2022, the fair market value of the funds, which approximates the present value of future benefits expected to be received, was $1,245,254 and $1,152,876, respectively.

In addition, the Organization has a split-interest in three charitable remainder trusts. The assets are held in trust by banks as permanent trustees of the trusts. The fair value of these beneficial interests is determined by applying the Organization's percentage interest to the fair value of the trust assets as reported by the trustee.

Trust	Percentage Interest	2023	2022
Greenleaf	100%	$ 353,987	$ 335,096
Spaulding	100%	324,126	300,889
Cogswell	50%	241,776	231,880
Total		$ 919,889	$ 867,865

Beneficial interest held in trusts is reported at fair value, which is estimated as the present value of expected future cash inflows on a recurring basis. As discussed in Note 2, the valuation technique used by the Organization is a Level 3 measure because there are no observable market transactions.

In March 2023, the Organization entered into a purchase and sales agreement to sell the Camp Spaulding asset held for sale. The sale is expected to close in 2024.

NOTE 7 - LINE OF CREDIT

The Organization has a $1,500,000 revolving line of credit agreement with a bank, which is payable on demand. The line is secured by a first lien on accounts receivable, double negative pledge on all investments of the borrower, and carries a variable rate of interest at the Wall Street Journal prime rate (8.5% at December 31, 2023), adjusted daily. At December 31, 2023 and 2022, there was no outstanding balance on this line of credit.

NOTE 8 - BONDS PAYABLE

During 2007, the New Hampshire Health and Education Facilities Authority (the "Authority") sold $5,540,000 of its Revenue Bonds, Child and Family Services Issue, Series 2007, and loaned the proceeds of the bonds to the Organization to refund its Series 1999 Series Bonds and to finance certain improvements to the Organization's facilities. The Series 2007 Bonds were issued with a variable interest rate determined on a weekly basis. Prior to issuing the Bonds, the Organization entered into an interest rate swap agreement (the "Swap Agreement") with Citizens Bank of NH (the "Counterparty") for the life of the bond issue to hedge the interest rate risk associated with the Series 2007 Bonds. The interest rate swap agreement requires the Organization to pay the Counterparty a rate of interest per annum equal to the product of (a) .68 multiplied by (b) the sum of Term SOFR, plus 2.75%".

NOTE 8 - BONDS PAYABLE (CONTINUED)

Counterparty payments to the Organization were intended to offset the Organization's payments of variable rate interest to bondholders. Counterparty credit worthiness and market variability can impact the variable rates received and paid by the Organization, with the potential of increasing Organization's interest payments. As a result, the cost of the interest rate swap for 2023 and 2022 is added to interest expense in the Consolidated Statement of Functional Expenses. The bonds mature in 2038 and can be repaid at any time.

The Organization is required to include the fair value of the swap in the Consolidated Statement of Financial Position, and annual changes, if any, in the fair value of the swap in the Consolidated Statement of Activities. For example, during the bond's 30-year holding period, the annually calculated value of the swap will be reported as an asset if interest rates increase above those in effect on the date of the swap was entered into (and as an unrealized gain in the Consolidated Statement of Activities), which will generally be indicative that the net fixed rate the Organization is paying on the swap is below market expectations of rates during the remaining term of the swap. The swap will be reported as a liability (and as an unrealized loss in the Consolidated Statement of Activities) if interest rates decrease below those in effect on the date the swap was entered into, which will generally be indicative that the net fixed rate the Organization is paying on the swap is above market expectations of rates during the remaining term of the swap. The annual accounting adjustments of value changes in the swap transaction are non-cash recognition requirements, the net effect of which will be zero at the end of the bond's 30-year term. At December 31, 2023 and 2022, the Organization recorded the swap liability position of $380,838 and $399,935, respectively. During 2009, there occurred a downgrading of the credit rating of the Counterparty to the letter of credit reimbursement agreement, which triggered a mandatory tender of the Series 2007 Bonds in whole and a temporary conversion of one hundred percent of the principal amount to a bank purchase mode under the terms of said letter of credit reimbursement agreement. Since it became evident that the credit markets would not soon return to normalcy, the Organization elected to convert the Series 2007 Bonds from a weekly rate mode to a bank purchase mode. This new bank purchase mode created a rate period in which the Series 2007 Bonds bear interest at the tax adjusted bank purchase rate of 68% of the sum of the term secured overnight financing rate (SOFR) plus 275 basis points. The bank purchase mode commenced on July 31, 2009 and expired on July 31, 2014; however, the expiration date was extended by the Counterparty and the Organization had the option to convert back to the weekly rate mode. The Series 2007 Bond documents require the Organization to comply with certain financial covenants. As of December 31, 2023 and 2022, the Organization was in compliance with these covenants.

NOTE 12 - ENDOWMENT FUNDS

TYPES OF FUNDS

The Organization's endowment consists of various individual funds established for a variety of purposes. The endowment includes both donor-restricted funds and funds designated by the Board of Trustees to function as endowments. As required by GAAP, net assets associated with endowment funds, including funds designated by the Board of Trustees to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

Board-Designated Endowment

As of December 31, 2023 and 2022, the Board of Trustees had designated $16,173,416 and $14,896,850, respectively, of net assets without donor restrictions as a general endowment fund to support the mission of the Organization.

NOTE 12 - ENDOWMENT FUNDS (CONTINUED)

TYPES OF FUNDS (CONTINUED)

Donor-Designated Endowments

The Board of Trustees of the Organization has interpreted the Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date for donor-restricted perpetual endowment funds, absent explicit donor stipulations to the contrary. As a result of this interpretation, the Organization classifies as perpetually restricted net assets (a) the original value of gifts donated to the endowment, (b) the original value of subsequent gifts to the endowment, and (c) accumulations to the endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added. The remaining portion of the donor-restricted endowment fund that is not classified as perpetually restricted is classified as net assets with donor restrictions until those amounts are appropriated for expenditure by the Organization in a manner consistent with the standard of prudence prescribed by UPMIFA. In accordance with UPMIFA, the Organization considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (1) the duration and preservation of the various funds, (2) the purposes of the donor-restricted endowment funds, (3) general economic conditions, (4) the possible effect of inflation and deflation, (5) the expected total return from income and the appreciation of investments, (6) other resources of the Organization, and (7) the Organization's investment policies.

FUNDS WITH DEFICIENCIES

The Organization considers a fund to be underwater if the fair value of the fund is less than the sum of (a) the original value of initial and subsequent gift amounts donated to the fund, and (b) any accumulations to the fund that are required to be maintained in perpetuity in accordance with the direction of the applicable donor gift instrument. The Organization complies with UPMIFA and has interpreted UPMIFA to permit spending from underwater funds in accordance with prudent measures required under the law. The Organization had no underwater endowment funds at December 31, 2023 or 2022.

INVESTMENT POLICY

The Organization has adopted an investment and spending policy to ensure a total return (income plus capital change) necessary to preserve and enhance the principal of the fund and, at the same time, provide a dependable source of support for current operations and programs. The withdrawal from endowment funds in support of current operations is expected to remain a constant percentage of the endowment funds, adjusted for new gifts to the endowment fund.

NOTE 12 - ENDOWMENT FUNDS (CONTINUED)

INVESTMENT POLICY (CONTINUED)

In recognition of the prudence required of fiduciaries, reasonable diversification is sought where possible. Experience has shown financial markets and inflation rates are cyclical and, therefore, control of volatility will be achieved through investment styles. Asset allocation parameters have been developed for various funds within the structure, based on investment objectives, liquidity needs, and time horizon for intended use.

Measurement of investment performance against policy objectives will be computed on a total return basis, net of management fees and transaction costs. Total return is defined as dividend or interest income plus realized and unrealized capital appreciation or depreciation at fair market value.

SPENDING POLICY

The Organization's spending policy rate is a percentage of the average total endowment value over the trailing 12 quarters with a 1% contingency margin with Board approval. This includes interest and dividends paid out to the Organization. In 2023 and 2022, the approved rate was 5.00%.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Trustees
Waypoint

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the consolidated financial statements of Waypoint, (the Organization), which comprise the consolidated statement of financial position as of December 31, 2023, and the related consolidated statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the consolidated financial statements, and have issued our report thereon dated May 20, 2024.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the consolidated financial statements, we considered the Organization's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control. Accordingly, we do not express an opinion on the effectiveness of the Organization's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Organization's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM; REPORT ON INTERNAL CONTROL OVER COMPLIANCE; AND REPORT ON SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY THE UNIFORM GUIDANCE

To the Board of Trustees
Waypoint

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Waypoint's (the Organization) compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the Organization's major federal programs for the year ended December 31, 2023. The Organization's major federal programs are identified in the summary of auditors' results section of the accompanying Schedule of Findings and Questioned Costs.

In our opinion, Waypoint complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2023.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States *(Government Auditing Standards);* and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the Organization and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the Organization's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the Organization's federal programs.

Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material, noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Organization's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the Organization's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the Organization's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the Organization's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of

Docusign Envelope ID: F0D8160B-2692-4A08-941A-7253A1915A41

compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the consolidated financial statements of Waypoint as of and for the year ended December 31, 2023, and have issued our report thereon dated May 20, 2024, which contained an unmodified opinion on those consolidated financial statements. Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

EXPLANATION

The purpose of this request is for the Contractors to ensure the continuity of Comprehensive Family Support Services (CFSS) by providing home visiting services statewide to pregnant and parenting caregivers and families with children under 18 years of age. Home visiting services provide access to a variety of parenting, economic, and public health supports based on individuals' needs.

Docusign Envelope ID: B8B485C7-81E6-4B2A-B0A9-BE5C14437C9D

Contractors will expand services by designating staff as "Newborn Navigators" within the CFSS program. Newborn Navigators will focus on outreach and engagement of families with newborns through a one-time, postpartum home visit. This service will allow the Contractors to reach more families and increase newborn families' connections to community-based resources that support maternal, family, and child health outcomes, as well as reduce the risk of child maltreatment.

The CFSS home visiting program provides preventative services at no cost to families, including household management, child development and maternal depression screenings, case management, and resource referrals such as nutrition support, childcare, and economic mobility support.

Approximately 1,250 families will be served each year. As a result, an average of 2,242 children and 1,592 adults will engage in services annually.

The Department will monitor services by:

- Reviewing the activities and outcome measures identified in the quarterly reports submitted by the Contractor.
- Quarterly meetings with the Contractor to ensure continued compliance with contractual requirements.
- Reviewing Contractor expenditures and conducting data quality assurance activities every month.
- Reviewing consumer satisfaction data, which must indicate an 80% favorable rating at minimum.
- Monitoring long-term program outcomes, including increasing outreach to high-risk populations, increasing the share of referred families who enroll in services, and increasing service completion rates.

As referenced in Exhibit A, Revisions to Standard Contract Provisions, of the original agreements, the parties have the option to extend the agreements for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and Governor and Council approval. The Department is exercising its option to renew services for two (2) years of the two (2) years available.

Should the Governor and Council not authorize this request, the Department will have limited capacity to provide community-based home-visiting services to children and families statewide which help prevent child maltreatment and promote child and family wellbeing.

In the event that the Federal Funds become no longer available, additional General Funds will not be requested to support this program.

Respectfully submitted,

Lori A. Weaver

EXPLANATION

The purpose of this request is to modify the scope of work for the existing contracts to expand the pool of potential home visitors for the Comprehensive Family Support Services (CFSS) program by reducing the minimum education requirement for Paraprofessional Home Visitors from a bachelor's degree to an associate's degree. Due to the supervisory levels and management structure, quality of services will not be impacted. Comprehensive Family Support Services promotes family wellness, decreasing family stressors, preventing child abuse and neglect, juvenile justice involvement, and providing education and support to parents and caregivers. Families are provided with assistance to access services they need and want in their home communities that strengthen the family and provide parents with an opportunity to learn and grow. Specialized training for staff is provided to ensure comprehensive knowledge, quality skills and abilities are applied in these services.

Approximately 1,200 families are served annually.

Contractors will continue serving pregnant and parenting women, and families with children under the age of 21 years old, who are in need of assistance and support with parenting, health and nutrition, education, and employment. Families served may be experiencing stressors such as, but not limited to, unemployment, social isolation, substance misuse, and health issues.

Contractors will continue providing evidence-informed, trauma-informed, integrated, whole family services with the goal of promoting and strengthening family health and wellness, and preventing child maltreatment. Contractors will continue assisting families with accessing a variety of parenting, economic, and public health supports based on the needs presented. All services are strength-based, focus on the whole family, voluntary, and guided by the family.

The Department will continue monitoring services by:

- Reviewing consumer satisfaction data, which must indicate a minimum of 80% favorable rating.
- Monitoring long-term program outcomes, including increasing outreach to high-risk populations, increasing the share of referred families who enroll in services, and increasing service completion rates.

Should the Governor and Executive Council not authorize this request, the flexibility of community-based family services may not be available to address the needs of children and families throughout the state, which could cause an increase of involvement of services through the Division for Children, Youth and Families, as these services help to prevent child maltreatment and promote child and family wellbeing.

Respectfully submitted,

Lori A. Shibinette

EXPLANATION

This request is **Retroactive** because the Department did not have the fully executed contract documents in time for Governor and Executive Council approval to prevent a lapse in coverage between these new contracts and the existing contracts which expired June 30, 2020. The Department extended the deadline for the submittal of proposals due to the COVID-19 pandemic. Proposals were initially due at the start of the State of Emergency; the prospective proposers needed additional time to respond to the Request for Proposal. The Department's decisions to allow proposers additional time to respond caused the original timeline to be extended.

The purpose of this request is to provide Comprehensive Family Support Services (CFSS) by promoting family wellness, decreasing family stressors and preventing child abuse, neglect, as well as, juvenile justice involvement, and by providing education and support. Services are designed to enable families to access the services they need and want in their home communities. These prevention services strengthen parents, enabling families an opportunity to learn and grow.

The population to be served will be pregnant, parenting women and families with children under the age of 21 years, who are in need of assistance and support with parenting, health and nutrition; education; and employment. Families served may be experiencing stressors such as, but not limited to, unemployment, social isolation; substance misuse; and health issues.

Approximately 1200 families will be served each year.

These Contractors will support families by providing evidence-informed, trauma-informed, integrated, whole family services. Primary goals are to promote and strengthen family health and wellness, and to prevent child maltreatment. Contractors will assist families with accessing a variety of parenting, economic, and public health supports based on the needs presented. All services are strength-based, focus on the whole family, voluntary and guided by the family.

The Department will monitor contracted services by:

- Reviewing consumer satisfaction data, which must indicate a minimum of 80% favorable rating.
- Monitoring long-term program outcomes, including increasing outreach to high-risk populations; increasing the share of referred families who enroll in services; and increasing service completion rates.

The Department selected the Contractors through a competitive bid process using a Request for Proposals (RFP) that was posted on the Department's website from 3/3/2020 through 4/8/2020. The Department received 11 responses that were reviewed and scored by a team of qualified individuals. The Scoring Sheet is attached.

As referenced in Exhibit A, Revisions to Standard Contract Provisions, of the attached contracts, the parties have the option to extend the agreements for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties, and Governor and Council approval.

Should the Governor and Council not authorize this request, the flexibility of community-based family services may not be available to address the needs of children and families throughout the state, which could cause an increase of involvement of services through the Division for Children, Youth and Families, as these services help to prevent child maltreatment and promote child and family wellbeing.

2. SERVICES TO BE PERFORMED. The State of New Hampshire, acting through the agency identified in block 1.1 ("State"), engages contractor identified in block 1.3 ("Contractor") to perform, and the Contractor shall perform, the work or sale of goods, or both, identified and more particularly described in the attached EXHIBIT B which is incorporated herein by reference ("Services").

3. EFFECTIVE DATE/COMPLETION OF SERVICES.

3.1 Notwithstanding any provision of this Agreement to the contrary, and subject to the approval of the Governor and Executive Council of the State of New Hampshire, if applicable, this Agreement, and all obligations of the parties hereunder, shall become effective on the date the Governor and Executive Council approve this Agreement as indicated in block 1.17, unless no such approval is required, in which case the Agreement shall become effective on the date the Agreement is signed by the State Agency as shown in block 1.13 ("Effective Date").

3.2 If the Contractor commences the Services prior to the Effective Date, all Services performed by the Contractor prior to the Effective Date shall be performed at the sole risk of the Contractor, and in the event that this Agreement does not become effective, the State shall have no liability to the Contractor, including without limitation, any obligation to pay the Contractor for any costs incurred or Services performed. Contractor must complete all Services by the Completion Date specified in block 1.7.

4. CONDITIONAL NATURE OF AGREEMENT.

Notwithstanding any provision of this Agreement to the contrary, all obligations of the State hereunder, including, without limitation, the continuance of payments hereunder, are contingent upon the availability and continued appropriation of funds affected by any state or federal legislative or executive action that reduces, eliminates or otherwise modifies the appropriation or availability of funding for this Agreement and the Scope for Services provided in EXHIBIT B, in whole or in part. In no event shall the State be liable for any payments hereunder in excess of such available appropriated funds. In the event of a reduction or termination of appropriated funds, the State shall have the right to withhold payment until such funds become available, if ever, and shall have the right to reduce or terminate the Services under this Agreement immediately upon giving the Contractor notice of such reduction or termination. The State shall not be required to transfer funds from any other account or source to the Account identified in block 1.6 in the event funds in that Account are reduced or unavailable.

5. CONTRACT PRICE/PRICE LIMITATION/ PAYMENT.

5.1 The contract price, method of payment, and terms of payment are identified and more particularly described in EXHIBIT C which is incorporated herein by reference.

5.2 The payment by the State of the contract price shall be the only and the complete reimbursement to the Contractor for all expenses, of whatever nature incurred by the Contractor in the performance hereof, and shall be the only and the complete compensation to the Contractor for the Services. The State shall have no liability to the Contractor other than the contract price.

5.3 The State reserves the right to offset from any amounts otherwise payable to the Contractor under this Agreement those liquidated amounts required or permitted by N.H. RSA 80:7 through RSA 80:7-c or any other provision of law.

5.4 Notwithstanding any provision in this Agreement to the contrary, and notwithstanding unexpected circumstances, in no event shall the total of all payments authorized, or actually made hereunder, exceed the Price Limitation set forth in block 1.8.

6. COMPLIANCE BY CONTRACTOR WITH LAWS AND REGULATIONS/ EQUAL EMPLOYMENT OPPORTUNITY.

6.1 In connection with the performance of the Services, the Contractor shall comply with all applicable statutes, laws, regulations, and orders of federal, state, county or municipal authorities which impose any obligation or duty upon the Contractor, including, but not limited to, civil rights and equal employment opportunity laws. In addition, if this Agreement is funded in any part by monies of the United States, the Contractor shall comply with all federal executive orders, rules, regulations and statutes, and with any rules, regulations and guidelines as the State or the United States issue to implement these regulations. The Contractor shall also comply with all applicable intellectual property laws.

6.3. The Contractor agrees to permit the State or United States access to any of the Contractor's books, records and accounts for the purpose of ascertaining compliance with all rules, regulations and orders, and the covenants, terms and conditions of this Agreement.

7. PERSONNEL.

7.1 The Contractor shall at its own expense provide all personnel necessary to perform the Services. The Contractor warrants that all personnel engaged in the Services shall be qualified to perform the Services, and shall be properly licensed and otherwise authorized to do so under all applicable laws.

8.3. No failure by the State to enforce any provisions hereof after any Event of Default shall be deemed a waiver of its rights with regard to that Event of Default, or any subsequent Event of Default. No express failure to enforce any Event of Default shall be deemed a waiver of the right of the State to enforce each and all of the provisions hereof upon any further or other Event of Default on the part of the Contractor.

9. TERMINATION.

9.1 Notwithstanding paragraph 8, the State may, at its sole discretion, terminate the Agreement for any reason, in whole or in part, by thirty (30) days written notice to the Contractor that the State is exercising its option to terminate the Agreement.

This certification is required by the regulations implementing Sections 5151-5160 of the Drug-Free Workplace Act of 1988 (Pub. L. 100-690, Title V, Subtitle D; 41 U.S.C. 701 et seq.). The January 31, 1989 regulations were amended and published as Part II of the May 25, 1990 Federal Register (pages 21681-21691), and require certification by grantees (and by inference, sub-grantees and sub-contractors), prior to award, that they will maintain a drug-free workplace. The certificate set out below is a material representation of fact upon which reliance is placed when the agency awards the grant. False certification or violation of the certification shall be grounds for suspension of payments, suspension or termination of grants, or government wide suspension or debarment. Contractors using this form should send it to:

INDEPENDENT AUDITORS' REPORT

To the Board of Trustees
Waypoint

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of Waypoint, which comprise the consolidated statement of financial position as of December 31, 2023, and the related consolidated statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the consolidated financial statements.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of Waypoint as of December 31, 2023, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are required to be independent of Waypoint and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Waypoint's ability to continue as a going concern for one year after the date that the consolidated financial statements are available to be issued.

Docusign Envelope ID: F0D8160B-2692-4A08-941A-7253A1915A41

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the consolidated financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Waypoint's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Waypoint's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The Consolidated Schedules of Operating Expenses for 2023 and 2022 are presented for purposes of additional analysis and are not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards

Docusign Envelope ID: F0D8160B-2692-4A08-941A-7253A1915A41

generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

Report on Summarized Comparative Information

The consolidated financial statements of Waypoint as of and for the year ended December 31, 2022, were audited by Melanson, whose report dated May 10, 2023 expressed an unmodified opinion on those statements. In our opinion, the summarized comparative information presented herein as of and for the year ended December 31, 2022 is consistent, in all material respects, with the audited consolidated financial statements from which it has been derived.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated May 20, 2024 on our consideration of Waypoint's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Waypoint's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Waypoint's internal control over financial reporting and compliance.

NOTE 1 - ORGANIZATION

Waypoint (the Organization) is a nonprofit organization, founded in 1850, with a mission to empower people of all ages through an array of human services and advocacy. Waypoint adheres to the highest standards of practice and is the only organization in New Hampshire to be accredited by the Council on Accreditation.

Waypoint has historically been the first service provider to respond to the state's most pressing needs – responding to child labor of the 1900s, child abuse in the 1940s, the spike in youth homelessness in the 1960s, human trafficking in the 2010s, and continues that trend today. Each year we serve an average of 7,500 individuals, children, and families across New Hampshire. Nearly 90% of our clients live in poverty or with very low incomes.

These services span the life cycle from prenatal to seniors, and fall under four core care areas:

FAMILY PRESERVATION AND STRENGTHENING

Intensive home-based programs in partnership with the Division of Children, Youth, and Families to restore positive family functioning for youth and families involved with the child welfare and juvenile justice systems as well as voluntary services for families that are at risk to stabilize families. Programs are delivered in the home, schools, or community, and include mental health counseling and substance abuse treatment, as well as a complex system of family stabilization and preservation programs. Waypoint empowers families with the skills and resources they need to provide for their children and become self-sufficient.

EARLY CHILDHOOD AND FAMILY SUPPORT

Education and support to improve parenting, strengthen families, prevent child abuse, and neglect, and ensure the healthy development of children are provided in homes and through Family Resource Centers throughout New Hampshire. This includes home visiting services that support families and support and therapy for infants and toddlers with, or at-risk of, developmental disabilities and delays. Waypoint also operates a childcare center (the Children's Place and Parent Education Center) providing a unique combination of educational and family support. Young children starting life at a disadvantage receive critical services to ensure a good beginning and to optimize their chances for life-long success.

NOTE 1 - ORGANIZATION (CONTINUED)

HOMELESS YOUTH AND YOUNG ADULTS

A continuum of care designed to support youth and young adults (12-25) in exiting homelessness and finding long-term independence and stability. Services feature street-based outreach, basic needs fulfillment at drop-in centers, crisis intervention, educational and vocational advocacy, housing, and case management. Waypoint operates the only low-barrier emergency shelter specifically for adults aged 18-24 who are experiencing or are at-risk of homelessness.

HOMECARE

In-home support for seniors and adults with disabilities so they can maintain their independence safely in their community, and family-strengthening support and resources, for children with chronic health condition and their families. Waypoint provides services delivered by personal care service providers, nurses, and LNAs in homes that help with everything from cooking and cleaning to personal hygiene, medication reminders, mobility, and help with daily tasks.

Waypoint provides additional support for children, families, and individuals through a strong advocacy program, established in 1971. The combination of advocacy and direct service practice uniquely positions Waypoint to serve the best interests of New Hampshire children.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies used in preparing and presenting the accompanying consolidated financial statements.

BASIS OF FINANCIAL STATEMENT PRESENTATION

The consolidated financial statements of the Organization have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

CHANGE IN ACCOUNTING PRINCIPLE

ASC 326, Current Expected Credit Losses

In June 2016, the Financial Accounting Standards Board (FASB) issued Accounting Standards Codification (ASC) 326, *Current Expected Credit Losses,* which changed how entities will measure credit losses for most financial assets and certain other instruments that are not measured at fair value through net income. The most significant change in this standard is a shift from the incurred loss model to the expected loss model. Under the standard, disclosures are required to provide users of the financial statements with useful information in analyzing an entity's exposure to credit risk and the measurement of credit losses. Financial assets held by the Organization that are subject to the guidance in FASB ASC 326 are trade accounts receivable.

The Organization adopted the standard effective January 1, 2023. The impact of the adoption was not considered material to the consolidated financial statements and primarily resulted in new/enhanced disclosures only.

PRINCIPLES OF CONSOLIDATION

The consolidated financial statements include Waypoint and Child and Family Realty Corporation, commonly controlled organizations. All inter-organization transactions have been eliminated. Unless otherwise noted, these consolidated entities are hereinafter referred to as "the Organization".

COMPARATIVE FINANCIAL INFORMATION

The accompanying consolidated financial statements include certain prior-year summarized comparative information in total, but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with GAAP Accordingly, such information should be read in conjunction with the audited consolidated financial statements for the year ended December 31, 2022, from which the summarized information was derived.

CASH AND CASH EQUIVALENTS

All cash and highly liquid financial instruments with original maturities of three months or less, and which are neither held for nor restricted by donors for long-term purposes, are considered to be cash and cash equivalents. Cash and highly liquid financial instruments invested for long-term purposes, including endowments that are perpetual in nature, are excluded from this definition.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

ACCOUNTS RECEIVABLE AND CREDIT POLICIES

At the end of each reporting period, the Organization estimates the current expected credit loss (CECL) per ASC 326. The Organization utilizes the loss rate methodology to determine historical credit losses. The loss rate method estimate is derived from a review of the Organization's historical write-offs as a percentage of average accounts receivable. The estimate is adjusted for management's assessment of current conditions, reasonable and supportable forecasts regarding future events, and any other factors deemed relevant. The Organization believes historical loss information is a reasonable starting point for calculating the expected allowance for credit losses, as the Organization's programs have remained consistent since inception. Based on economic indicators, including 2023 and general overall economic conditions, the Organization is not anticipating a change in the historical credit loss rate from what it has been in the past.

GRANTS RECEIVABLE

Grants receivable, that is, those with a measurable performance or other barrier, and a right of return, are not recognized until the conditions on which they depend have been substantially met. Amounts recorded as grants receivable represent cost-reimbursable contracts and grants, which the incurrence of allowable qualifying expenses and/or the performance of certain requirements have been met or performed. The allowance for uncollectible grants receivable is based on historical experience and a review of subsequent collections. Management has determined that no allowance is necessary.

CONTRIBUTIONS RECEIVABLE

Unconditional contributions that are expected to be collected within one year are recorded at net realizable value. Unconditional contributions that are expected to be collected in future years are initially recorded at fair value using present value techniques incorporating risk-adjusted discount rates designed to reflect the assumptions market participants would use in pricing the asset. In subsequent years, amortization of the discounts is included in contribution revenue in the Consolidated Statement of Activities. The allowance for uncollectable contributions is based on historical experience, an assessment of economic conditions, and a review of subsequent collections. Contributions are written off when deemed uncollectable. Management has determined that no allowance is necessary.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

INVESTMENTS

Investment purchases are recorded at cost, or if donated, at fair value on the date of donation. Thereafter, investments are reported at their fair value in the Consolidated Statement of Financial Position. Net investment return/(loss) is reported in the Consolidated Statement of Activities and consists of interest and dividend income, realized and unrealized gains and losses, less external investment expenses.

The Organization maintains pooled investment accounts for its endowment. Realized and unrealized gains and losses are allocated to the individual endowments based on the relationship of the market value of each endowment to the total market value of the pooled investment accounts, as adjusted for additions to or deductions from those accounts, and taking into consideration donor restrictions related to the treatment of investment earnings.

BENEFICIAL INTEREST HELD IN TRUSTS

The Organization is the beneficiary of perpetual charitable trusts. The beneficial interest in trusts is reported at its fair value, which is estimated as the fair value of the underlying trust assets. Distributions of income from trust assets are restricted as to use and are reported as increases in net assets with donor restrictions until expended in accordance with restrictions. The value of the beneficial interest in the trusts is adjusted annually for the change in its estimated fair value. Those changes in value are reported as increases in net assets with donor restrictions. The assets in the trusts will never be distributed to the Organization.

PROPERTY AND EQUIPMENT, NET

Property and equipment additions over $5,000 are recorded at cost, if purchased, and at fair value at the date of donation, if donated. Depreciation is computed using the straight-line method over the estimated useful lives of the assets ranging from 5 to 50 years. When assets are sold or otherwise disposed of, the cost and related depreciation is removed, and any resulting gain or loss is included in the Consolidated Statement of Activities. Costs of maintenance and repairs that do not improve or extend the useful lives of the respective assets are expensed. Assets not in service are not depreciated.

The carrying values of property and equipment are reviewed for impairment whenever events or circumstances indicate that the carrying value of an asset may not be recoverable from the estimated future cash flows expected to result from its use and eventual disposition. When considered impaired, an impairment loss is recognized to the extent carrying value exceeds the fair value of the asset. There were no indicators of asset impairment in 2023 or 2022.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

LEASES

The Organization is a lessee in several noncancellable operating leases, for office space and equipment. The Organization determines if an arrangement is a lease, or contains a lease, at inception of a contract and when the terms of an existing contract are changed. The Organization recognizes a lease liability and a right-of-use (ROU) asset at the commencement date of the lease. The lease liability is initially and subsequently recognized based on the present value of its future lease payments. Variable payments are included in the future lease payments when those variable payments depend on an index or a rate. The Organization generally does not have access to the rate implicit in the lease and, therefore, the Organization utilizes a risk-free rate as the discount rate at the lease commencement date for all classes of underlying assets. The ROU asset is subsequently measured throughout the lease term at the amount of the remeasured lease liability (i.e., present value of the remaining lease payments), plus unamortized initial direct costs, plus (minus) any prepaid (accrued) lease payments, less the unamortized balance of lease incentives received, and any impairment recognized. Lease cost for lease payments is recognized on a straight-line basis over the lease term.

The Organization has elected, for all underlying classes of assets, to not recognize ROU assets and lease liabilities for short-term leases that have a lease term of 12 months or less at lease commencement, and do not include an option to purchase the underlying asset that the Organization is reasonably certain to exercise. The Organization recognizes lease costs associated with short-term leases on a straight-line basis over the lease term.

The Organization has lease agreements with lease and non-lease components, which are generally accounted for separately. The Organization has elected, for all underlying classes of assets, to account for each separate lease component of a contract and its associated non-lease components (repairs and maintenance) as a single lease component. For arrangements accounted for as a single lease component, there may be variability in future lease payments as the amount of the non-lease components is typically revised from one period to the next. These variable lease payments are recognized in operating expenses in the period in which the obligation for those payments was incurred.

INTEREST RATE SWAP

An interest rate swap is utilized to mitigate interest rate risk on bonds payable. The related liability is reported at fair value in the Consolidated Statement of Financial Position, and unrealized gains or losses are included in the Consolidated Statement of Activities.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

NET ASSETS

Net assets, revenues, gains, and losses are classified based on the existence or absence of donor or grantor-imposed restrictions.

Net Assets Without Donor Restrictions

Net assets without donor restrictions are net assets available for use in general operations and not subject to donor (or certain grantor) imposed restrictions. The Board has designated, from net assets without donor restrictions, net assets for a Board-designated endowment.

Net Assets With Donor Restrictions

Net assets with donor restrictions are net assets subject to donor (or certain grantor) imposed restrictions. Some donor-imposed restrictions are temporary in nature, such as those that will be met by the passage of time or other events specified by the donor. Other donor-imposed restrictions are perpetual in nature, where the donor stipulates that resources be maintained in perpetuity while permitting the Organization to expend the income generated by the assets in accordance with the provisions of additional donor-imposed stipulations or a Board approved spending policy. Donor-imposed restrictions are released when a restriction expires, that is, when the stipulated time has elapsed, when the stipulated purpose for which the resource was restricted has been fulfilled, or both.

The Organization recognizes revenue from contributions and grants that were initially conditional, which became unconditional with restrictions during the reporting period, and for which those restrictions were met during the reporting period, as net assets without donor restrictions.

REVENUE RECOGNITION

A portion of the Organization's revenue is derived from cost-reimbursable contracts and grants, which are conditioned upon certain performance requirements and/or the incurrence of allowable qualifying expenses. Amounts received are recognized as revenue when the Organization has incurred expenditures in compliance with specific contract or grant provisions. Amounts received prior to incurring qualifying expenditures are reported as refundable advances in the Consolidated Statement of Financial Position.

Docusign Envelope ID: F0D8160B-2692-4A08-941A-7253A1915A41

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

REVENUE RECOGNITION (CONTINUED)

The Organization recognizes contributions when cash, securities or other assets; an unconditional promise to give; or a notification of a beneficial interest is received. Conditional promises to give—that is, those with a measurable performance or other barrier and a right of return—are not recognized until the conditions on which they depend have been met.

The Organization records special events revenue equal to the fair value of direct benefits to donors, and contribution income for the excess received when the event takes place.

Revenues derived from providing program services are recognized as the services are provided. Program service fees paid in advance are deferred to the period to which they relate. All other amounts paid in advance are deferred to the period in which the underlying event or rental takes place. Due to the nature and timing of the performance and/or transfer of services, certain contract liabilities at December 31 of each year are recognized in the following year.

DONATED SERVICES AND IN-KIND CONTRIBUTIONS

Volunteers contribute significant amounts of time to program services, administration, and fundraising and development activities; however, the financial statements do not reflect the value of these contributed services because they do not meet recognition criteria prescribed by GAAP. GAAP allows recognition of contributed services only if (a) the services create or enhance nonfinancial assets or (b) the services would have been purchased if not provided by contribution, require specialized skills, and are provided by individuals possessing those skills.

Donated professional services are recorded at the respective fair value of the services received. Contributed goods are recorded at fair value at the date of donation and as expenses when placed in service or distributed. Donated use of facilities is reported as a contribution and as an expense at the estimated fair value of similar space for rent under similar conditions. If the use of the space is promised unconditionally for a period greater than one year, the amount is reported as a contribution and an unconditional promise to give at the date of the gift, and the expense is reported over the term of use.

ADVERTISING COSTS

Advertising costs are expensed as incurred and are reported in the Consolidated Statement of Activities and Consolidated Statement of Functional Expenses.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

FUNCTIONAL ALLOCATION OF EXPENSES

The costs of program and supporting services activities have been summarized on a functional basis in the Consolidated Statement of Activities. The Consolidated Statement of Functional Expenses presents the natural classification detail of expenses by function.

The consolidated financial statements report certain categories of expenses that are attributed to more than one program or supporting function. Therefore, expenses require allocation on a reasonable basis that is consistently applied. The expenses that are allocated include salary and benefits, which are allocated based on time and effort estimates, and occupancy costs and depreciation which are allocated based on personnel count at the location.

MEASURE OF OPERATIONS

The Consolidated Statement of Activities reports all changes in net assets, including changes in net assets from operating and nonoperating activities. Operating activities consist of those items attributable to the Organization's ongoing programs and services and include the Organization's annual endowment transfer to support operations. Nonoperating activities are limited to resources outside of those programs and services and are comprised of non-recurring gains and losses on sales and dispositions, investment income, changes in the value of beneficial interests and interest rate swaps, and employee retention tax credit net of applicable expenses.

INCOME TAXES

Waypoint has been recognized by the Internal Revenue Service (IRS) as exempt from federal income taxes under Internal Revenue Code (IRC) Section 501(a) as an organization described in IRC Section 501(c)(3), qualifies for charitable contribution deductions, and has been determined not to be a private foundation. Child and Family Realty Corporation is exempt from federal income tax under Section 501(a) of the IRC as an organization described in Section 501(c)(25).

Each entity is annually required to file a Return of Organization Exempt from Income Tax (Form 990) with the IRS. In addition, each is subject to income tax on net income that is derived from business activities that are unrelated to their exempt purpose.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

INCOME TAXES (CONTINUED)

The Organization accounts for uncertain tax provisions under FASB ASC 740, *Income Taxes*, which provides a framework for how entities should recognize, measure, present, and disclose uncertain tax positions in their financial statements. The Organization may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. Management has reviewed the Organization's reporting and believes they have not taken tax positions that are more likely than not to be determined to be incorrect by the IRS and, therefore, no adjustments or disclosures are required. The Organization is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods pending or in progress.

ESTIMATES

The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates.

FINANCIAL INSTRUMENTS AND CREDIT RISK

Deposit concentration risk is managed by placing cash deposits with financial institutions believed to be creditworthy. At times, amounts on deposit may exceed insured limits. To date, no losses have been experienced in any of these accounts. Credit risk associated with receivables is considered to be limited due to high historical collection rates. Investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the Consolidated Statement of Financial Position. Although the fair value of investments are subject to fluctuation on a year-to-year basis, the Investment Committee believes that the investment policies and guidelines are prudent for the long-term welfare of the Organization.

FAIR VALUE MEASUREMENTS AND DISCLOSURES

Certain assets and liabilities are reported at fair value in the consolidated financial statements. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal, or most advantageous, market at the measurement date under current market conditions regardless of whether that price is directly observable or estimated using another valuation technique. Inputs used to determine fair value refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability based on the best information available. A three-tier hierarchy categorizes the inputs as follows:

- Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities that are accessible at the measurement date.
- Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability, and market-corroborated inputs.
- Level 3 – Unobservable inputs for the asset or liability. In these situations, inputs are developed using the best information available in the circumstances.

In some cases, the inputs used to measure the fair value of an asset or a liability might be categorized within different levels of the fair value hierarchy. In those cases, the fair value measurement is categorized in its entirety at the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. Assessing the significance of a particular input to entire measurement requires judgment, taking into account factors specific to the asset or liability. The categorization of an asset or liability within the hierarchy is based upon the pricing transparency of the asset or liability and does not necessarily correspond to the assessment of the quality, risk, or liquidity profile of the asset or liability.

NOTE 3 - LIQUIDITY AND AVAILABILITY (CONTINUED)

The Board-designated endowment is subject to an annual spending rate as determined by the Board. Although there is no intention to spend from the Board-designated endowment (other than amounts appropriated for general expenditure as part of the Board's annual budget approval and appropriation), these amounts could be made available if necessary.

As part of its liquidity management plan, the Organization also has a $1,500,000 revolving line of credit available to meet cash flow needs.

NOTE 4 - INVESTMENTS

Investments measured at fair value on a recurring basis, consisted of the following at December 31, 2023 and 2022:

	2023	2022	Fair Value Hierarchy
Mutual funds	$ 20,644,755	$ 18,568,769	Level 1
Closely held securities	750,000	--	Level 3
Total	$ 21,394,755	$ 18,568,769	

During 2023 and 2022, the Organization recognized $2,463,878 and $(4,596,536), respectively, of net gains and (losses) on investments. Of those amounts, $2,155,130 and $(4,768,167) were recognized as unrealized gains and (losses) on investments of equity securities held at December 31, 2023 and 2022, respectively.

Under the terms of the Organization's line of credit agreement (Note 7), the Organization has agreed not to pledge the mutual funds as security on any other debt.

The Organization's policy is to avail itself of a Board-approved percentage of investment income from mutual fund investments for operations with any remaining interest, dividends, or appreciation reinvested. The spending policy approved by the Board of Trustees is a percentage of the average total endowment value over the previous 12 quarters, with a 1% contingency margin with Board approval. In 2023 and 2022, the approved rate was 5.00%.

NOTE 5 - BENEFICIAL INTEREST HELD IN TRUSTS

The Organization is the sole beneficiary of four funds that are administered by the New Hampshire Charitable Foundation (NHCF). Income from the funds is to provide assistance to children attending camp and for capital improvements to the camp, and to support the Early Supports and Services program based in the Stratham office. The fund's resolutions provide that distributions from the funds can be made at the discretion of the NHCF Board of Directors.

At December 31, 2023 and 2022, the fair market value of the funds, which approximates the present value of future benefits expected to be received, was $1,245,254 and $1,152,876, respectively.

In addition, the Organization has a split-interest in three charitable remainder trusts. The assets are held in trust by banks as permanent trustees of the trusts. The fair value of these beneficial interests is determined by applying the Organization's percentage interest to the fair value of the trust assets as reported by the trustee.

Trust	Percentage Interest	2023	2022
Greenleaf	100%	$ 353,987	$ 335,096
Spaulding	100%	324,126	300,889
Cogswell	50%	241,776	231,880
Total		$ 919,889	$ 867,865

Beneficial interest held in trusts is reported at fair value, which is estimated as the present value of expected future cash inflows on a recurring basis. As discussed in Note 2, the valuation technique used by the Organization is a Level 3 measure because there are no observable market transactions.

In March 2023, the Organization entered into a purchase and sales agreement to sell the Camp Spaulding asset held for sale. The sale is expected to close in 2024.

NOTE 7 - LINE OF CREDIT

The Organization has a $1,500,000 revolving line of credit agreement with a bank, which is payable on demand. The line is secured by a first lien on accounts receivable, double negative pledge on all investments of the borrower, and carries a variable rate of interest at the Wall Street Journal prime rate (8.5% at December 31, 2023), adjusted daily. At December 31, 2023 and 2022, there was no outstanding balance on this line of credit.

NOTE 8 - BONDS PAYABLE

During 2007, the New Hampshire Health and Education Facilities Authority (the "Authority") sold $5,540,000 of its Revenue Bonds, Child and Family Services Issue, Series 2007, and loaned the proceeds of the bonds to the Organization to refund its Series 1999 Series Bonds and to finance certain improvements to the Organization's facilities. The Series 2007 Bonds were issued with a variable interest rate determined on a weekly basis. Prior to issuing the Bonds, the Organization entered into an interest rate swap agreement (the "Swap Agreement") with Citizens Bank of NH (the "Counterparty") for the life of the bond issue to hedge the interest rate risk associated with the Series 2007 Bonds. The interest rate swap agreement requires the Organization to pay the Counterparty a rate of interest per annum equal to the product of (a) .68 multiplied by (b) the sum of Term SOFR, plus 2.75%".

NOTE 8 - BONDS PAYABLE (CONTINUED)

Counterparty payments to the Organization were intended to offset the Organization's payments of variable rate interest to bondholders. Counterparty credit worthiness and market variability can impact the variable rates received and paid by the Organization, with the potential of increasing Organization's interest payments. As a result, the cost of the interest rate swap for 2023 and 2022 is added to interest expense in the Consolidated Statement of Functional Expenses. The bonds mature in 2038 and can be repaid at any time.

The Organization is required to include the fair value of the swap in the Consolidated Statement of Financial Position, and annual changes, if any, in the fair value of the swap in the Consolidated Statement of Activities. For example, during the bond's 30-year holding period, the annually calculated value of the swap will be reported as an asset if interest rates increase above those in effect on the date of the swap was entered into (and as an unrealized gain in the Consolidated Statement of Activities), which will generally be indicative that the net fixed rate the Organization is paying on the swap is below market expectations of rates during the remaining term of the swap. The swap will be reported as a liability (and as an unrealized loss in the Consolidated Statement of Activities) if interest rates decrease below those in effect on the date the swap was entered into, which will generally be indicative that the net fixed rate the Organization is paying on the swap is above market expectations of rates during the remaining term of the swap. The annual accounting adjustments of value changes in the swap transaction are non-cash recognition requirements, the net effect of which will be zero at the end of the bond's 30-year term. At December 31, 2023 and 2022, the Organization recorded the swap liability position of $380,838 and $399,935, respectively. During 2009, there occurred a downgrading of the credit rating of the Counterparty to the letter of credit reimbursement agreement, which triggered a mandatory tender of the Series 2007 Bonds in whole and a temporary conversion of one hundred percent of the principal amount to a bank purchase mode under the terms of said letter of credit reimbursement agreement. Since it became evident that the credit markets would not soon return to normalcy, the Organization elected to convert the Series 2007 Bonds from a weekly rate mode to a bank purchase mode. This new bank purchase mode created a rate period in which the Series 2007 Bonds bear interest at the tax adjusted bank purchase rate of 68% of the sum of the term secured overnight financing rate (SOFR) plus 275 basis points. The bank purchase mode commenced on July 31, 2009 and expired on July 31, 2014; however, the expiration date was extended by the Counterparty and the Organization had the option to convert back to the weekly rate mode. The Series 2007 Bond documents require the Organization to comply with certain financial covenants. As of December 31, 2023 and 2022, the Organization was in compliance with these covenants.

NOTE 12 - ENDOWMENT FUNDS

TYPES OF FUNDS

The Organization's endowment consists of various individual funds established for a variety of purposes. The endowment includes both donor-restricted funds and funds designated by the Board of Trustees to function as endowments. As required by GAAP, net assets associated with endowment funds, including funds designated by the Board of Trustees to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

Board-Designated Endowment

As of December 31, 2023 and 2022, the Board of Trustees had designated $16,173,416 and $14,896,850, respectively, of net assets without donor restrictions as a general endowment fund to support the mission of the Organization.

NOTE 12 - ENDOWMENT FUNDS (CONTINUED)

TYPES OF FUNDS (CONTINUED)

Donor-Designated Endowments

The Board of Trustees of the Organization has interpreted the Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date for donor-restricted perpetual endowment funds, absent explicit donor stipulations to the contrary. As a result of this interpretation, the Organization classifies as perpetually restricted net assets (a) the original value of gifts donated to the endowment, (b) the original value of subsequent gifts to the endowment, and (c) accumulations to the endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added. The remaining portion of the donor-restricted endowment fund that is not classified as perpetually restricted is classified as net assets with donor restrictions until those amounts are appropriated for expenditure by the Organization in a manner consistent with the standard of prudence prescribed by UPMIFA. In accordance with UPMIFA, the Organization considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (1) the duration and preservation of the various funds, (2) the purposes of the donor-restricted endowment funds, (3) general economic conditions, (4) the possible effect of inflation and deflation, (5) the expected total return from income and the appreciation of investments, (6) other resources of the Organization, and (7) the Organization's investment policies.

FUNDS WITH DEFICIENCIES

The Organization considers a fund to be underwater if the fair value of the fund is less than the sum of (a) the original value of initial and subsequent gift amounts donated to the fund, and (b) any accumulations to the fund that are required to be maintained in perpetuity in accordance with the direction of the applicable donor gift instrument. The Organization complies with UPMIFA and has interpreted UPMIFA to permit spending from underwater funds in accordance with prudent measures required under the law. The Organization had no underwater endowment funds at December 31, 2023 or 2022.

INVESTMENT POLICY

The Organization has adopted an investment and spending policy to ensure a total return (income plus capital change) necessary to preserve and enhance the principal of the fund and, at the same time, provide a dependable source of support for current operations and programs. The withdrawal from endowment funds in support of current operations is expected to remain a constant percentage of the endowment funds, adjusted for new gifts to the endowment fund.

Docusign Envelope ID: F0D8160B-2692-4A08-941A-7253A1915A41

NOTE 12 - ENDOWMENT FUNDS (CONTINUED)

INVESTMENT POLICY (CONTINUED)

In recognition of the prudence required of fiduciaries, reasonable diversification is sought where possible. Experience has shown financial markets and inflation rates are cyclical and, therefore, control of volatility will be achieved through investment styles. Asset allocation parameters have been developed for various funds within the structure, based on investment objectives, liquidity needs, and time horizon for intended use.

Measurement of investment performance against policy objectives will be computed on a total return basis, net of management fees and transaction costs. Total return is defined as dividend or interest income plus realized and unrealized capital appreciation or depreciation at fair market value.

SPENDING POLICY

The Organization's spending policy rate is a percentage of the average total endowment value over the trailing 12 quarters with a 1% contingency margin with Board approval. This includes interest and dividends paid out to the Organization. In 2023 and 2022, the approved rate was 5.00%.

NOTE 15 - EMPLOYEE RETENTION TAX CREDIT (ERTC)

The Employee Retention Tax Credit (ERTC), established as part of the Coronavirus Aid, Relief and Economic Security Act (CARES Act), enacted March 27, 2020, amended by the Consolidated Appropriations Act, 2021 (CAA), enacted on December 27, 2020, and further amended by the American Rescue Plan Act (ARPA), enacted March 11, 2021, provides for financial relief to eligible employers through refundable tax credits. The ERTC is a refundable tax credit against certain employment taxes equal to 70% of eligible wages and certain health insurance benefits up to $28,000 per employee and $10,000 per quarter through September 30, 2021. Eligible employers can get immediate access to the credit by reducing employment tax deposits they are otherwise required to make. Employers are eligible if they operate a trade or business during January 1, 2021 through September 30, 2021 and experience either: 1) full or partial suspension of the operation of their trade or business during this period because of governmental orders limiting commerce, travel or group meetings due to COVID-19, or 2) decline in gross receipts in a calendar quarter in 2021 where the gross receipts of that calendar quarter are less than 80% of the gross receipts in the same calendar quarter in 2019. For the year ended December 31, 2023, the Organization recognized $4,736,776 of ERTC as income, net of $680,912 of applicable expenses.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Trustees
Waypoint

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the consolidated financial statements of Waypoint, (the Organization), which comprise the consolidated statement of financial position as of December 31, 2023, and the related consolidated statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the consolidated financial statements, and have issued our report thereon dated May 20, 2024.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the consolidated financial statements, we considered the Organization's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control. Accordingly, we do not express an opinion on the effectiveness of the Organization's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Docusign Envelope ID: F0D8160B-2692-4A08-941A-7253A1915A41

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Organization's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM; REPORT ON INTERNAL CONTROL OVER COMPLIANCE; AND REPORT ON SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY THE UNIFORM GUIDANCE

To the Board of Trustees
Waypoint

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Waypoint's (the Organization) compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the Organization's major federal programs for the year ended December 31, 2023. The Organization's major federal programs are identified in the summary of auditors' results section of the accompanying Schedule of Findings and Questioned Costs.

In our opinion, Waypoint complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2023.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States *(Government Auditing Standards);* and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the Organization and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the Organization's compliance with the compliance requirements referred to above.

Docusign Envelope ID: F0D8160B-2692-4A08-941A-7253A1915A41

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the Organization's federal programs.

Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material, noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Organization's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the Organization's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the Organization's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the Organization's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of

Docusign Envelope ID: F0D8160B-2692-4A08-941A-7253A1915A41

compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the consolidated financial statements of Waypoint as of and for the year ended December 31, 2023, and have issued our report thereon dated May 20, 2024, which contained an unmodified opinion on those consolidated financial statements. Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

EXPLANATION

The purpose of this request is for the Contractors to ensure the continuity of Comprehensive Family Support Services (CFSS) by providing home visiting services statewide to pregnant and parenting caregivers and families with children under 18 years of age. Home visiting services provide access to a variety of parenting, economic, and public health supports based on individuals' needs.

Docusign Envelope ID: 2F5B04A7-C850-49FC-913A-A2D2FE52BDAE

Contractors will expand services by designating staff as "Newborn Navigators" within the CFSS program. Newborn Navigators will focus on outreach and engagement of families with newborns through a one-time, postpartum home visit. This service will allow the Contractors to reach more families and increase newborn families' connections to community-based resources that support maternal, family, and child health outcomes, as well as reduce the risk of child maltreatment.

The CFSS home visiting program provides preventative services at no cost to families, including household management, child development and maternal depression screenings, case management, and resource referrals such as nutrition support, childcare, and economic mobility support.

Approximately 1,250 families will be served each year. As a result, an average of 2,242 children and 1,592 adults will engage in services annually.

The Department will monitor services by:

- Reviewing the activities and outcome measures identified in the quarterly reports submitted by the Contractor.
- Quarterly meetings with the Contractor to ensure continued compliance with contractual requirements.
- Reviewing Contractor expenditures and conducting data quality assurance activities every month.
- Reviewing consumer satisfaction data, which must indicate an 80% favorable rating at minimum.
- Monitoring long-term program outcomes, including increasing outreach to high-risk populations, increasing the share of referred families who enroll in services, and increasing service completion rates.

As referenced in Exhibit A, Revisions to Standard Contract Provisions, of the original agreements, the parties have the option to extend the agreements for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and Governor and Council approval. The Department is exercising its option to renew services for two (2) years of the two (2) years available.

Should the Governor and Council not authorize this request, the Department will have limited capacity to provide community-based home-visiting services to children and families statewide which help prevent child maltreatment and promote child and family wellbeing.

In the event that the Federal Funds become no longer available, additional General Funds will not be requested to support this program.

Respectfully submitted,

Lori A. Weaver
Commissioner

EXPLANATION

The purpose of this request is to modify the scope of work for the existing contracts to expand the pool of potential home visitors for the Comprehensive Family Support Services (CFSS) program by reducing the minimum education requirement for Paraprofessional Home Visitors from a bachelor's degree to an associate's degree. Due to the supervisory levels and management structure, quality of services will not be impacted. Comprehensive Family Support Services promotes family wellness, decreasing family stressors, preventing child abuse and neglect, juvenile justice involvement, and providing education and support to parents and caregivers. Families are provided with assistance to access services they need and want in their home communities that strengthen the family and provide parents with an opportunity to learn and grow. Specialized training for staff is provided to ensure comprehensive knowledge, quality skills and abilities are applied in these services.

Approximately 1,200 families are served annually.

Contractors will continue serving pregnant and parenting women, and families with children under the age of 21 years old, who are in need of assistance and support with parenting, health and nutrition, education, and employment. Families served may be experiencing stressors such as, but not limited to, unemployment, social isolation, substance misuse, and health issues.

Contractors will continue providing evidence-informed, trauma-informed, integrated, whole family services with the goal of promoting and strengthening family health and wellness, and preventing child maltreatment. Contractors will continue assisting families with accessing a variety of parenting, economic, and public health supports based on the needs presented. All services are strength-based, focus on the whole family, voluntary, and guided by the family.

The Department will continue monitoring services by:

- Reviewing consumer satisfaction data, which must indicate a minimum of 80% favorable rating.
- Monitoring long-term program outcomes, including increasing outreach to high-risk populations, increasing the share of referred families who enroll in services, and increasing service completion rates.

Should the Governor and Executive Council not authorize this request, the flexibility of community-based family services may not be available to address the needs of children and families throughout the state, which could cause an increase of involvement of services through the Division for Children, Youth and Families, as these services help to prevent child maltreatment and promote child and family wellbeing.

EXPLANATION

This request is **Retroactive** because the Department did not have the fully executed contract documents in time for Governor and Executive Council approval to prevent a lapse in coverage between these new contracts and the existing contracts which expired June 30, 2020. The Department extended the deadline for the submittal of proposals due to the COVID-19 pandemic. Proposals were initially due at the start of the State of Emergency; the prospective proposers needed additional time to respond to the Request for Proposal. The Department's decisions to allow proposers additional time to respond caused the original timeline to be extended.

The purpose of this request is to provide Comprehensive Family Support Services (CFSS) by promoting family wellness, decreasing family stressors and preventing child abuse, neglect, as well as, juvenile justice involvement, and by providing education and support. Services are designed to enable families to access the services they need and want in their home communities. These prevention services strengthen parents, enabling families an opportunity to learn and grow.

The population to be served will be pregnant, parenting women and families with children under the age of 21 years, who are in need of assistance and support with parenting, health and nutrition; education; and employment. Families served may be experiencing stressors such as, but not limited to, unemployment, social isolation; substance misuse; and health issues.

Approximately 1200 families will be served each year.

These Contractors will support families by providing evidence-informed, trauma-informed, integrated, whole family services. Primary goals are to promote and strengthen family health and wellness, and to prevent child maltreatment. Contractors will assist families with accessing a variety of parenting, economic, and public health supports based on the needs presented. All services are strength-based, focus on the whole family, voluntary and guided by the family.

The Department will monitor contracted services by:

- Reviewing consumer satisfaction data, which must indicate a minimum of 80% favorable rating.
- Monitoring long-term program outcomes, including increasing outreach to high-risk populations; increasing the share of referred families who enroll in services; and increasing service completion rates.

The Department selected the Contractors through a competitive bid process using a Request for Proposals (RFP) that was posted on the Department's website from 3/3/2020 through 4/8/2020. The Department received 11 responses that were reviewed and scored by a team of qualified individuals. The Scoring Sheet is attached.

As referenced in Exhibit A, Revisions to Standard Contract Provisions, of the attached contracts, the parties have the option to extend the agreements for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties, and Governor and Council approval.

Should the Governor and Council not authorize this request, the flexibility of community-based family services may not be available to address the needs of children and families throughout the state, which could cause an increase of involvement of services through the Division for Children, Youth and Families, as these services help to prevent child maltreatment and promote child and family wellbeing.

A participant may decide the method and frequency by which it determines the eligibility of its principals.
