EXPLANATION

This request is **Sole Source** because the Department is amending the scope of services and increasing funding to add Family Resource Center (FRC) services and Kinship Navigation services to the existing contracts for Comprehensive Family Support Services (CFSS). These changes will allow for continuity of all services while the Department executes a new competitive procurement for CFSS, Kinship Navigation, and FRC services during SFY26 to be awarded for the start of SFY27. The CFSS contractors were all awarded through a competitive bid in July 2020. The FRC and Kinship Navigation services were previously provided through an agreement that expires on June 30, 2025.

The purpose of this request is to continue to provide services for pregnant and parenting caregivers and families with children under the age of 18 years of age, statewide. By amending the current CFSS contracts with FRC and Kinship programs, the Department will be able to preserve statewide infrastructure, avoid disruption in services, and continue to provide critical supports for families. The CFSS contractors implemented much of the FRC and Kinship Navigation Programs through subrecipient agreements and this direct engagement with the Department will allow the Contractors to continue to provide quality services to families and implement staff training, recruitment, and retention activities across programs.

Family Resource Centers are a statewide network of community-based hubs that provide services to families with no income or eligibility requirements. FRCs are designed to help stabilize families before crisis and provide home visiting services, parenting education, support groups, kinship navigation, early supports and services, developmental screening, childcare, and access and referrals to community-based and financial services. They also support families in navigating the application process for programs through NH EASY. Aligning the funding and scope within these contracts ensures individualized support to meet every family's needs and increase access to a range of FRC community services. FRCs measure and demonstrate positive family outcomes such as improved parenting practices, enhanced child development outcomes, and reductions in child welfare involvement.

In addition, the Contractors will maintain statewide implementation of CFSS home visiting program services including Newborn Navigation at no cost to participating families. Services are available to all families in the state who pursue them and include parenting support and education, child development resources, maternal depression screening, and resource referrals such as nutrition support and economic mobility support. These services will be monitored through metrics that monitor for a reduction in child welfare involvement, increases in maternal depression and child development screenings, and an increase in access to available social services.

Approximately 7,030 New Hampshire Families will continue to be served through June 30, 2026, through the Family Resource Centers across all programs.

Approximately 1,225 families will be served through June 30, 2026, through CFSS, including an average of 2,072 children, 1,520 adults and 640 referrals from DCYF.

Additionally, 550 families will be served through June 30, 2026, through the Kinship Navigation program. Approximately 100 referrals to Kinship Navigation come from DCYF.

The Department will continue to monitor services through:

- Annual site visits to assess program implementation in compliance with contractual requirements.
- Reviewing Contractor expenditures and conducting data quality assurance activities monthly.
- Consumer satisfaction data, which must indicate an 80% favorable rating at minimum.
- Monitoring long-term program outcomes, including increasing outreach to high-risk populations, increasing the share of referred families who enroll in services, and increasing service completion rates.

Should the Governor and Executive Council not authorize this request, the Department will have limited capacity for community-based home-visiting services, Kinship Navigation, and Family Resource Center services, which help promote child and family wellbeing and prevent child maltreatment.

Volunteer Experience:

The Trevor Project: Crisis Counselor

Volunteering for the Trevor Project has allowed me to work with youth who are experiencing crisis in many ways. The Trevor Project is the nation's leading suicide prevention organization for LGBTQIA+ youth. Volunteering has involved taking chats with youth who are experiencing thoughts of self harm, suicide, struggling with sexual or gender identity, and cultural barriers in their families or communities, among many other social issues that have impacted their wellbeing. This work involves talking through strategies to stay safe,de-escalate, and allows young people a place to voice their concerns and gain access to several other programs in their area that can potentially help them navigate their specific setbacks and concerns.

Tapestry Gives: Volunteer Captain

Coordinating all volunteer efforts set by our store to participate in a company wide initiative called "Tapestry Gives". Tapestry Gives is a company initiative to meet 100,000 hours of volunteerism by the year 2025. Each volunteer hour is logged in a database that I am in charge of maintaining and organizing.

One of the most successful events in our store included fundraising efforts to supply women and children in our community with hygiene products.

EXPLANATION

The purpose of this request is for the Contractors to ensure the continuity of Comprehensive Family Support Services (CFSS) by providing home visiting services statewide to pregnant and parenting caregivers and families with children under 18 years of age. Home visiting services provide access to a variety of parenting, economic, and public health supports based on individuals' needs.

Docusign Envelope ID: 9967F35E-6C57-423D-9B20-00C79E0F6B81

Contractors will expand services by designating staff as "Newborn Navigators" within the CFSS program. Newborn Navigators will focus on outreach and engagement of families with newborns through a one-time, postpartum home visit. This service will allow the Contractors to reach more families and increase newborn families' connections to community-based resources that support maternal, family, and child health outcomes, as well as reduce the risk of child maltreatment.

The CFSS home visiting program provides preventative services at no cost to families, including household management, child development and maternal depression screenings, case management, and resource referrals such as nutrition support, childcare, and economic mobility support.

Approximately 1,250 families will be served each year. As a result, an average of 2,242 children and 1,592 adults will engage in services annually.

The Department will monitor services by:

- Reviewing the activities and outcome measures identified in the quarterly reports submitted by the Contractor.
- Quarterly meetings with the Contractor to ensure continued compliance with contractual requirements.
- Reviewing Contractor expenditures and conducting data quality assurance activities every month.
- Reviewing consumer satisfaction data, which must indicate an 80% favorable rating at minimum.
- Monitoring long-term program outcomes, including increasing outreach to high-risk populations, increasing the share of referred families who enroll in services, and increasing service completion rates.

As referenced in Exhibit A, Revisions to Standard Contract Provisions, of the original agreements, the parties have the option to extend the agreements for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and Governor and Council approval. The Department is exercising its option to renew services for two (2) years of the two (2) years available.

Should the Governor and Council not authorize this request, the Department will have limited capacity to provide community-based home-visiting services to children and families statewide which help prevent child maltreatment and promote child and family wellbeing.

In the event that the Federal Funds become no longer available, additional General Funds will not be requested to support this program.

Respectfully submitted,

Lori A. Weaver
Commissioner

EXPLANATION

The purpose of this request is to modify the scope of work for the existing contracts to expand the pool of potential home visitors for the Comprehensive Family Support Services (CFSS) program by reducing the minimum education requirement for Paraprofessional Home Visitors from a bachelor's degree to an associate's degree. Due to the supervisory levels and management structure, quality of services will not be impacted. Comprehensive Family Support Services promotes family wellness, decreasing family stressors, preventing child abuse and neglect, juvenile justice involvement, and providing education and support to parents and caregivers. Families are provided with assistance to access services they need and want in their home communities that strengthen the family and provide parents with an opportunity to learn and grow. Specialized training for staff is provided to ensure comprehensive knowledge, quality skills and abilities are applied in these services.

Approximately 1,200 families are served annually.

Contractors will continue serving pregnant and parenting women, and families with children under the age of 21 years old, who are in need of assistance and support with parenting, health and nutrition, education, and employment. Families served may be experiencing stressors such as, but not limited to, unemployment, social isolation, substance misuse, and health issues.

Contractors will continue providing evidence-informed, trauma-informed, integrated, whole family services with the goal of promoting and strengthening family health and wellness, and preventing child maltreatment. Contractors will continue assisting families with accessing a variety of parenting, economic, and public health supports based on the needs presented. All services are strength-based, focus on the whole family, voluntary, and guided by the family.

The Department will continue monitoring services by:

- Reviewing consumer satisfaction data, which must indicate a minimum of 80% favorable rating.
- Monitoring long-term program outcomes, including increasing outreach to high-risk populations, increasing the share of referred families who enroll in services, and increasing service completion rates.

Should the Governor and Executive Council not authorize this request, the flexibility of community-based family services may not be available to address the needs of children and families throughout the state, which could cause an increase of involvement of services through the Division for Children, Youth and Families, as these services help to prevent child maltreatment and promote child and family wellbeing.

EXPLANATION

This request is **Retroactive** because the Department did not have the fully executed contract documents in time for Governor and Executive Council approval to prevent a lapse in coverage between these new contracts and the existing contracts which expired June 30, 2020. The Department extended the deadline for the submittal of proposals due to the COVID-19 pandemic. Proposals were initially due at the start of the State of Emergency; the prospective proposers needed additional time to respond to the Request for Proposal. The Department's decisions to allow proposers additional time to respond caused the original timeline to be extended.

The purpose of this request is to provide Comprehensive Family Support Services (CFSS) by promoting family wellness, decreasing family stressors and preventing child abuse, neglect, as well as, juvenile justice involvement, and by providing education and support. Services are designed to enable families to access the services they need and want in their home communities. These prevention services strengthen parents, enabling families an opportunity to learn and grow.

The population to be served will be pregnant, parenting women and families with children under the age of 21 years, who are in need of assistance and support with parenting, health and nutrition; education; and employment. Families served may be experiencing stressors such as, but not limited to, unemployment, social isolation; substance misuse; and health issues.

Approximately 1200 families will be served each year.

These Contractors will support families by providing evidence-informed, trauma-informed, integrated, whole family services. Primary goals are to promote and strengthen family health and wellness, and to prevent child maltreatment. Contractors will assist families with accessing a variety of parenting, economic, and public health supports based on the needs presented. All services are strength-based, focus on the whole family, voluntary and guided by the family.

The Department will monitor contracted services by:

- Reviewing consumer satisfaction data, which must indicate a minimum of 80% favorable rating.
- Monitoring long-term program outcomes, including increasing outreach to high-risk populations; increasing the share of referred families who enroll in services; and increasing service completion rates.

The Department selected the Contractors through a competitive bid process using a Request for Proposals (RFP) that was posted on the Department's website from 3/3/2020 through 4/8/2020. The Department received 11 responses that were reviewed and scored by a team of qualified individuals. The Scoring Sheet is attached.

As referenced in Exhibit A, Revisions to Standard Contract Provisions, of the attached contracts, the parties have the option to extend the agreements for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties, and Governor and Council approval.

Should the Governor and Council not authorize this request, the flexibility of community-based family services may not be available to address the needs of children and families throughout the state, which could cause an increase of involvement of services through the Division for Children, Youth and Families, as these services help to prevent child maltreatment and promote child and family wellbeing.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors
Community Action Partnership of Strafford County and Affiliate

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of Community Action Partnership of Strafford County (a New Hampshire nonprofit organization) and Affiliate, which comprise the consolidated statements of financial position as of December 31, 2023 and 2022, and the related consolidated statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

In our opinion, based on our audits and the report of the other auditors, the consolidated financial statements present fairly, in all material respects, the financial position of Community Action Partnership of Strafford County and Affiliate as of December 31, 2023 and 2022, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of Academy Street Family Housing, LLC a wholly owned subsidiary, for the year ended December 31, 2023, which statements reflect total assets constituting 8.45 percent of consolidated total assets at December 31, 2023, and total revenues constituting 0.31 percent of consolidated total revenues for the year then ended. Those statements were audited by other auditors, whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for Academy Street Family Housing, LLC, is based solely on the report of the other auditors.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Community Action Partnership of Strafford County and Affiliate and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Docusign Envelope ID: C038D8AA-1B7E-4639-9B69-2C95ED5EB897

In preparing the consolidated financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Community Action Partnership of Strafford County and Affiliate's ability to continue as a going concern within one year after the date that the consolidated financial statements are available to be issued.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the consolidated financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Community Action Partnership of Strafford County and Affiliate's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Community Action Partnership of Strafford County and Affiliate's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Docusign Envelope ID: C038D8AA-1B7E-4639-9B69-2C95ED5EB897

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the consolidated financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated June 5, 2024, on our consideration of Community Action Partnership of Strafford County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Community Action Partnership of Strafford County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Community Action Partnership of Strafford County's internal control over financial reporting and compliance.

NOTE 1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Organization and Principles of Consolidation

Community Action Partnership of Strafford County (the Agency) is a 501(c)(3) private New Hampshire non-profit organization established under the provisions of the Equal Opportunity Act of 1964. Without services provided by the Agency, many local residents would be without a means to provide for their basic needs, including food, education, child care, utilities assistance, transportation, housing, emergency shelter and access to other services. The mission of the Agency is to educate, advocate and assist people in Strafford County to help meet their basic needs and promote self-sufficiency. The vision of the Agency is to eliminate poverty in Strafford County through compassion, education, self-sufficiency, transparency, accountability, team work, client focus and professionalism.

Academy Street Family Housing, LLC (Academy Street) is a limited liability company which is consolidated because the Agency is the sole member of Academy Street. All significant intercompany items and transactions have been eliminated from the consolidated financial statements.

In addition to the Agency's administrative office located in Dover, the Agency maintains its outreach capacity by operating program offices in Farmington, Milton, Rochester, Dover and Somersworth. The Agency is funded by Federal, state, county and local funds, as well as United Way grants, public utilities, foundation and charitable grant funds, fees for service, private business donations, and donations from individuals. The Agency is governed by a tripartite board of directors made up of elected officials, community leaders from for-profit and non-profit organizations and residents who are low income. The board is responsible for assuring that the Agency continues to assess and respond to the causes and conditions of poverty in its community, achieve anticipated family and community outcomes, and remain administratively and fiscally sound. The Agency administers a wide range of coordinated programs to more than 15,000 people annually, and the programs are designed to have a measurable impact on poverty and health status among the most vulnerable residents: those under the age of 6, the elderly and those living in poverty. This coordinated approach is accomplished by providing a broad array of services that are locally defined, planned and managed with community agencies.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2023 AND 2022

Basis of Accounting

The consolidated financial statements have been prepared using the accrual basis of accounting in accordance with Generally Accepted Accounting Principles (GAAP) of the United States.

Financial Statement Presentation

The consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (US GAAP), which require the Agency to report information regarding its financial position and activities according to the following net asset classifications:

Net assets without donor restrictions: Net assets that are not subject to donor-imposed restrictions and may be expended for any purpose in performing the primary objectives of the Agency. These net assets may be used at the discretion of the Agency's management and board of directors.

Net assets with donor restrictions: Net assets subject to stipulations imposed by donors and grantors. Some donor restrictions are temporary in nature; those restrictions will be met by actions of the Agency or by passage of time. Other donor restrictions are perpetual in nature, whereby the donor has stipulated the funds be maintained in perpetuity.

Donor restricted contributions are reported as increases in net assets with donor restrictions. When restriction expires, net assets are reclassified from net assets with donor restrictions to net assets without donor restrictions in the statement of activities.

At December 31, 2023 and 2022, the Agency had net assets without donor and with donor restrictions.

Refundable Advances

Grants received in advance are recorded as refundable advances and recognized as revenue in the period in which the related services are performed or expenditures are incurred.

Docusign Envelope ID: C038D8AA-1B7E-4639-9B69-2C95ED5EB897

Contributions
All contributions are considered to be available for unrestricted use unless specifically restricted by the donor. Amounts received that are restricted by the donor for future periods or for specific purposes are reported as temporarily restricted or permanently restricted support, depending on the nature of the restriction. However, if a restriction is fulfilled in the same period in which the contribution is received, the Agency reports the support as unrestricted.

Contributed Services
Donated services are recognized as contributions in accordance with FASB ASC No. 958, *Accounting for Contributions Received and Contributions Made,* if the services (a) create or enhance non-financial assets or (b) require specialized skills and would otherwise be purchased by the Agency.

Volunteers provided various services throughout the year that are not recognized as contributions in the financial statements since the recognition criteria under FASB ASC No. 958 were not met.

Fair Value of Financial Instruments
Unless otherwise indicated, fair values of all reported assets and liabilities that are financial instruments approximate the carrying values of such amounts.

Inventory
Inventory materials are fixtures for installation and recorded at cost or net realizable value or if donated, at approximate fair value at date of donation, using the first-in, first-out method.

Property and Depreciation
Property and equipment, which have a cost greater than $5,000, are capitalized at cost or, if donated, at the approximate fair value at the date of donation. Specific grants and awards may have a threshold lower than this amount and that program will abide by those guidelines. Assets are depreciated over their estimated useful lives using the straight-line method as follows:

Buildings and improvements	15 - 40 years
Furniture, equipment and machinery	3 - 10 years
Vehicles	5 - 7 years

Depreciation expense aggregated $248,629 and $239,035 for the years ended December 31, 2023 and 2022, respectively.

Accrued Earned Time
The Agency has accrued a liability of $193,093 and $205,528 at December 31, 2023 and 2022, respectively, for future compensated leave time that its employees have earned and which is vested with the employee.

Docusign Envelope ID: C038D8AA-1B7E-4639-9B69-2C95ED5EB897

Income Taxes
The Agency is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code. The Internal Revenue Service has determined the Agency to be other than a private foundation. The Agency is also exempt from the New Hampshire Business Enterprise Tax.

Accounting Standard Codification No. 740, "Accounting for Income Taxes", establishes the minimum threshold for recognizing, and a system for measuring, the benefits of tax return positions in financial statements. Management has analyzed the Agency's tax position taken on its information returns for the previous three tax years and has concluded that no additional provision for income taxes is necessary in the Agency's financial statements.

Cash and Cash Equivalents
The Agency considers all highly liquid financial instruments with original maturities of three months or less to be cash equivalents.

Revenue Recognition Policy
The Agency derives revenue from grants, fees for services, donations, public support, and fundraising. Revenues are recognized when control of these services are transferred to customers, in an amount that reflects the consideration the Agency expects to be entitled to in exchange for those services. Cost incurred to obtain a contract will be expensed as incurred when the amortization period is less than a year.

Academy Street derives revenue from the rental of apartment units. Revenues are recognized as income, monthly, when rents become due and control of the apartment units is transferred to the lessees. Control of the leased units is transferred to the lessee in an exchange for the leased units. The cost incurred to obtain a lease will be expensed as incurred.

Use of Estimates
The presentation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Advertising Expenses
The Agency expenses advertising costs as they are incurred. Total advertising costs for the years ended December 31, 2023 and 2022 amounted to $10,426 and $72,759, respectively.

Docusign Envelope ID: C038D8AA-1B7E-4639-9B69-2C95ED5EB897

Debt Issuance Costs

As required under FASB Accounting Standards Update No. 2015-03, amortization expense for the years ended December 31, 2023 and 2022 amounted to $3,376 and has been included with interest expense in the consolidated statement of activities for each year. The unamortized deferred financing costs have been included as a reduction of the long term debt (see Note 10).

In-kind Donations

The Agency pays below-market rent for the use of certain facilities. In accordance with generally accepted accounting principles, the difference between amounts paid for the use of the facilities and the fair value of the rental space has been recorded as an in-kind donation and as an in-kind expense in the accompanying consolidated financial statements. The estimated fair value of the donation was determined to be $103,356 and $14,772 for the years ended December 31, 2023 and 2022, respectively.

The Agency also receives contributed food commodities and other goods that are required to be recorded in accordance with FASB ASC No. 958. The estimated fair value of these food commodities and goods was determined to be $457,049 and $116,368, respectively, for the year ended December 31, 2023. For the year ended December 31, 2022, the estimated fair value of these food commodities and goods was determined to be $968,268 and $5,040, respectively.

The Agency also receives contributed professional services and volunteer time that are required to be recorded in accordance with FASB ASC No. 958. The estimated fair value of these services was determined to be $90,451 for the year ended December 31, 2023. There were no contributed professional services for the year ended December 31, 2022.

Functional Allocation of Expenses

The costs of providing the various programs and other activities have been summarized on a functional basis. Accordingly, costs have been allocated among the program services and supporting activities benefited. Occupancy costs have been grouped and allocated to the programs as a line item. Such allocations have been determined by management on an equitable basis.

The expenses that are allocated include the following:

Expense	Method of allocation
Salaries and benefits	Time and effort
Occupancy	Square footage/revenues
Depreciation	Square footage
All other expenses	Approved indirect rate

Docusign Envelope ID: C038D8AA-1B7E-4639-9B69-2C95ED5EB897

New Accounting Pronouncement

At the beginning of 2023, the Organization adopted FASB ASU 2016-13, *Financial Instruments–Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments*, as amended, which modifies the measurement of expected credit losses on certain financial instruments. The Agency adopted this new guidance utilizing the modified retrospective transition method. The adoption of this Standard did not have a material impact on the Agency's financial statements.

Docusign Envelope ID: C038D8AA-1B7E-4639-9B69-2C95ED5EB897

Insurance and Real Estate Tax Escrows

Academy Street is required to establish a reserve to fund tax and insurance payments in the project. Amounts are to be deposited on a monthly basis to accrue a sufficient balance to pay future tax and insurance bills of the project. As of December 31, 2023 and 2022, the balance in the reserves for tax and insurance escrows was properly funded.

NOTE 4. LIQUIDITY AND AVAILABILITY

The following represents the Agency's financial assets as of December 31, 2023 and 2022:

	2023	2022

The Agency's goal is generally to maintain financial assets to meet 30 days of operating expenses. As part of its liquidity plan, excess cash is invested in short-term investments, including money market accounts.

NOTE 5. ACCOUNTS RECEIVABLE

Accounts receivable are stated at the amount management expects to collect from balances outstanding at year end. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to accounts receivable. The Agency uses historical loss information based on the aging of receivables as the basis to determine expected credit losses for receivables and believes that the composition of receivables at year-end is consistent with historical conditions.

Docusign Envelope ID: C038D8AA-1B7E-4639-9B69-2C95ED5EB897

The allowance for uncollectible accounts was estimated to be zero at December 31, 2023 and 2022. The Agency has no policy for charging interest on overdue accounts.

NOTE 6. CONTRIBUTIONS RECEIVABLE

Contributions receivable represent promises to give, which have been made by donors but have not yet been received by the Agency. The Agency considers contributions receivable to be fully collectible; accordingly, no allowance for contributions receivable has been recorded.

Total unconditional promises to give were as follows at December 31, 2023 and 2022:

	2023	2022
Within one year	$ 20,000	$ 30,000

Gafney Home, L.P. (Gafney) is a low-income housing tax credit property. The general partner (0.01%) of Gafney is 100% owned by the Agency. The $519,890 included in due from Gafney Home, L.P. on the consolidated statement of financial position for the year ended December 31, 2023 represents amounts that the Agency has paid on behalf of Gafney for the construction that is underway.

NOTE 8. PLEDGED ASSETS

The note is collateralized by all the assets of the Agency. There was no outstanding balance on the demand note payable as of December 31, 2023 and 2022.

NOTE 12. OPERATING LEASES

Facilities occupied by the Agency for its community service programs are rented under the terms of various leases with expiration dates through 2032. For the years ended December 31, 2023 and 2022, the annual lease/rent expense for the leased facilities was $69,901 and $90,501, respectively.

The Agency accounts for its operating leases under ASU 2016-02, *Leases (Topic 842)*. As such, the right of use (ROU) assets represent the Agency's right to use underlying assets for the lease term, and the lease liabilities represent the Agency's obligation to make lease payments arising from these leases. The ROU assets and lease liabilities, all of which arise from operating leases, were calculated based on the present value of future lease payments over the lease terms. The discount rate related to the Agency's lease liability as of December 31, 2023 was 3.75%, which is based upon the risk-free borrowing rates commensurate with the lease terms. At December 31, 2023, the ROU asset and lease liability is $81,312. At December 31, 2022, the ROU asset and lease liability is $146,825.

The weighted average lease term at December 31, 2023 is 5.44 years. The weighted average discount rate at December 31, 2023 is 3.75%.

Common expenses, classified as occupancy costs in the accompanying consolidated financial statements, are considered a non-lease component under FASB ASC 842 and are recognized as costs as incurred.

Academy Street leases property from the Agency under a lease agreement for an annual rent amount of $1. The lease expires during April 2045. Unless either party serves the other with a 180 day written notice prior to the expiration of the initial term, at the end of the initial term, the lease shall be automatically extended for an additional 25 year term.

Thereafter	24,144

NOTE 13. RETIREMENT PLAN

The Agency maintains a 403(b) Plan and Trust (the Plan) covering substantially all employees. Employee contributions to the Plan are made at predetermined rates elected by employees. Additionally, the Agency provides a matching contribution equal to 25% of the employee's contribution up to 5% of the employee's compensation. Effective April 1, 2016, the Agency instituted an auto enrollment feature mandating a minimum 1% employee contribution; however, employees reserve the right to decline the auto enrollment. Employer matching contributions for the years ended December 31, 2023 and 2022 totaled $33,241 and $32,526, respectively.

NOTE 14. CONCENTRATION OF RISK

The Agency receives a majority of its support from federal and state governments. For the years ended December 31, 2023 and 2022, approximately 89% and 96%, respectively, of the Agency's total revenue was received from federal and state governments. If a significant reduction in the level of support were to occur, it would have a significant effect on the Agency's programs and activities.

Docusign Envelope ID: C038D8AA-1B7E-4639-9B69-2C95ED5EB897

NOTE 15. CONCENTRATION OF CREDIT RISK

The Agency maintains its cash balances at several financial institutions in New Hampshire. The balances are insured by the Federal Deposit Insurance Corporation up to $250,000. The Agency maintains an agreement with its primary financial institution to collateralize the balances in excess of $250,000.

NOTE 16. CONTINGENCIES

The Agency receives grant funding from various sources. Under the terms of these agreements, the Agency is required to use the funds within a certain period and for purposes specified by the governing laws and regulations. If expenditures were found not to have been made in compliance with the laws and regulations, the Agency might be required to repay the funds. No provisions have been made for this contingency because specific amounts, if any, have not been determined or assessed as of December 31, 2023 and 2022.

NOTE 17. RENTAL INCOME RECEIVABLE

During the year ended December 31, 2023, and subsequent to year end, Academy Street entered into four separate rental agreements for use of their four apartments. The rental agreements have differing expirations ranging from April 2024 through April 2025. Monthly payments for the agreements ranged from $1,168 to $1,394 and are due the first day of each month. At December 31, 2023 and 2022, $2,587 and $1,412, respectively, is outstanding from tenants for rent and is included in accounts receivable in the accompanying consolidated statements of financial position.

The approximate future rental payments owed on the above leases are as follows:

Year Ended December 31	Amount
2024	$ 51,598
2025	15,824
Total	$ 67,422

NOTE 18. ACQUISITION OF PROPERTY AND LAND

During the year ended December 31, 2023, the Agency acquired property and land relating to a transitional housing program from another nonprofit organization. The value of the building and land received in the acquisition totaled $675,570 and $269,944, respectively.

Docusign Envelope ID: C038D8AA-1B7E-4639-9B69-2C95ED5EB897

As part of the acquisition of the property and land, the Agency also acquired the related note payable of $225,000, payable to New Hampshire Housing Finance Authority (see **Note 10**). The Agency has been running the operations of the transitional housing program since the acquisition.

NOTE 19. SUBSEQUENT EVENTS

Subsequent events are events or transactions that occur after the statement of financial position date, but before financial statements are available to be issued. Recognized subsequent events are events or transactions that provide additional evidence about conditions that existed at the statement of financial position date, including the estimates inherent in the process of preparing financial statements. Nonrecognized subsequent events are events that provide evidence about conditions that did not exist at the statement of financial position date but arose after that date. Management has evaluated subsequent events through June 5, 2024, the date the consolidated financial statements were available for issuance.

Subsequent to year end, on May 1, 2024, the Agency acquired the Home for Now Shelter, which is a homeless center in Strafford County, from another nonprofit organization. The value of the property acquired totaled $1,502,600. The Agency will acquire all other remaining assets from the nonprofit organization once their dissolution is finalized.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Directors of
Community Action Partnership of Strafford County

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the consolidated financial statements of Community Action Partnership of Strafford County (a New Hampshire nonprofit organization) and Affiliate, which comprise the consolidated statements of financial position as of December 31, 2023 and 2022, and the related consolidated statements of activities, functional expenses, and cash flows, and the related notes to the consolidated financial statements, and have issued our report thereon dated June 5, 2024.

Internal Control Over Financial Reporting

In planning and performing our audit of the consolidated financial statements, we considered Community Action Partnership of Strafford County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the consolidated financial statements, but not for the purpose of expressing an opinion on the effectiveness of Community Action Partnership of Strafford County's internal control. Accordingly, we do not express an opinion on the effectiveness of Community Action Partnership of Strafford County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Docusign Envelope ID: C038D8AA-1B7E-4639-9B69-2C95ED5EB897

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We identified a deficiency in internal control, described in the accompanying schedule of findings and questioned costs as item 2023-001, that we consider to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Community Action Partnership of Strafford County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards.*

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

COMMUNITY ACTION PARTNERSHIP OF STRAFFORD COUNTY

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Board of Directors of
Community Action Partnership of Strafford County

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Community Action Partnership of Strafford County's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of Community Action Partnership of Strafford County's major federal programs for the year ended December 31, 2023. Community Action Partnership of Strafford County's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, Community Action Partnership of Strafford County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2023.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

Docusign Envelope ID: C038D8AA-1B7E-4639-9B69-2C95ED5EB897

We are required to be independent of Community Action Partnership of Strafford County and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Community Action Partnership of Strafford County's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Community Action Partnership of Strafford County's federal programs.

Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Community Action Partnership of Strafford County's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Community Action Partnership of Strafford County's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Community Action Partnership of Strafford County's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Community Action Partnership of Strafford County's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Community Action Partnership of Strafford County's internal control over compliance. Accordingly, no such opinion is expressed.

Docusign Envelope ID: C038D8AA-1B7E-4639-9B69-2C95ED5EB897

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

COMMUNITY ACTION PARTNERSHIP OF STRAFFORD COUNTY

SCHEDULE OF FINDINGS AND QUESTIONED COSTS
FOR THE YEAR ENDED DECEMBER 31, 2023

A. SUMMARY OF AUDITORS' RESULTS

1. The auditors' report expresses an unmodified opinion on whether the consolidated financial statements of Community Action Partnership of Strafford County and Affiliate were prepared in accordance with GAAP.

2. One significant deficiency relating to the audit of the consolidated financial statements is reported in the *Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards.* No material weaknesses are reported.

3. No instances of noncompliance material to the financial statements of Community Action Partnership of Strafford County, which would be required to be reported in accordance with *Government Auditing Standards*, were disclosed during the audit.

4. No significant deficiencies in internal control over major federal award programs are reported in the *Independent Auditors' Report on Compliance for Each Major Program and on Internal Control Over Compliance Required by the Uniform Guidance.* No material weaknesses are reported.

5. The auditors' report on compliance for the major federal award programs for Community Action Partnership of Strafford County expresses an unmodified opinion on all major federal programs.

6. There were no audit findings that would be required to be reported in accordance with 2 CFR section 200.516(a).

7. The programs tested as major were: U.S. Department of Health and Human Services, Low Income Home Energy Assistance Program, ALN 93.568 and U.S. Department of the Treasury, Emergency Rental Assistance Program, ALN 21.023, Coronavirus State and Local Fiscal Recovery Funds, ALN 21.027, U.S Department of Energy, Weatherization Assistance for Low-Income Persons, ALN 81.042.

B. FINDINGS – FINANCIAL STATEMENTS AUDIT

2023-001

Condition: Accounts receivable was not reconciled to the aging report and uncollectible amounts were not written off timely. Bad debt expense was recognized in the current year as a result.

Docusign Envelope ID: C038D8AA-1B7E-4639-9B69-2C95ED5EB897

Criteria: Internal controls should be in place to ensure that accounts receivable are reconciled frequently to the aging report and accounts receivable are reviewed for collectability regularly. This reconciliation should be reviewed and approved by the CFO.

Cause: There has been a great deal of staff turnover in the Agency and the difficulty in hiring qualified people into the fiscal department has made proper accounting controls hard to achieve.

Effect: An entry in the amount of $97,154 was posted to the current year bad debt expense. As nearly all accounts receivable is driven by billing for expenses under grants, it is normally deemed 100% collectible. As such, revenue in a prior year was overstated by the $97,154.

Recommendation: We recommend that accounts receivable be reviewed regularly and any amounts that are deemed uncollectible are written off timely and/or establish an allowance for doubtful accounts. We also recommend that procedures are implemented to ensure that monthly reconciliations for accounts receivable are being performed in a timely manner.

Views of Responsible Officials and Planned Corrective Actions: As previously discussed during the fieldwork and noted in the report, staff turnover at CAPSC caused delays in some reconciliations due to training and hiring processes. There were no incorrect actions or processes; the delay in writing off outstanding accounts receivable was primarily due to staff turnover. With our newly completed fiscal team, we are now positioned to thoroughly research and resolve all outstanding accounts receivable balances. We are confident that our established procedures for monthly reviews and follow-up activities will effectively address this issue.

To whom it may concern,

I'm writing to provide an overview of the work we are doing within the Comprehensive Family Support and Kinship Home Visiting Program, and to highlight the invaluable contributions our team is making to improve the well-being of families and caregivers in our community.

Our team's mission is simple but powerful: to meet families where they are and offer the tools, support, and guidance needed to foster long-term resilience and stability. Through trauma-informed care, reflective supervision, and strengths-based approaches, we can address the unique challenges faced by kinship caregivers and other vulnerable families.

The work we do every day is built on strong relationships with families and stakeholders. Whether it's through direct home visits, group facilitation, or collaborative team efforts, we are making measurable impacts on both individual family members and the broader community. Our goal is always to empower families to thrive independently, with a lasting foundation of support.

In addition to direct services, our team has been focusing on strengthening internal processes, including reflective conversations with peers, utilizing data to inform decision-making, and adapting programs to be more accessible and effective. This includes training colleagues, adjusting program offerings, and constantly refining our approach to meet the needs of the families we serve.

I truly believe in the work we do, and I'm proud to be part of a team that is making such a meaningful difference in the lives of families. Thank you for your ongoing support, and I look forward to continuing our efforts to strengthen the community together.

Warm regards,
Brittney Pelletier, CRSW

EXPLANATION

The purpose of this request is for the Contractors to ensure the continuity of Comprehensive Family Support Services (CFSS) by providing home visiting services statewide to pregnant and parenting caregivers and families with children under 18 years of age. Home visiting services provide access to a variety of parenting, economic, and public health supports based on individuals' needs.

Docusign Envelope ID: C038D8AA-1B7E-4639-9B69-2C95ED5EB897

Contractors will expand services by designating staff as "Newborn Navigators" within the CFSS program. Newborn Navigators will focus on outreach and engagement of families with newborns through a one-time, postpartum home visit. This service will allow the Contractors to reach more families and increase newborn families' connections to community-based resources that support maternal, family, and child health outcomes, as well as reduce the risk of child maltreatment.

The CFSS home visiting program provides preventative services at no cost to families, including household management, child development and maternal depression screenings, case management, and resource referrals such as nutrition support, childcare, and economic mobility support.

Approximately 1,250 families will be served each year. As a result, an average of 2,242 children and 1,592 adults will engage in services annually.

The Department will monitor services by:

- Reviewing the activities and outcome measures identified in the quarterly reports submitted by the Contractor.
- Quarterly meetings with the Contractor to ensure continued compliance with contractual requirements.
- Reviewing Contractor expenditures and conducting data quality assurance activities every month.
- Reviewing consumer satisfaction data, which must indicate an 80% favorable rating at minimum.
- Monitoring long-term program outcomes, including increasing outreach to high-risk populations, increasing the share of referred families who enroll in services, and increasing service completion rates.

As referenced in Exhibit A, Revisions to Standard Contract Provisions, of the original agreements, the parties have the option to extend the agreements for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and Governor and Council approval. The Department is exercising its option to renew services for two (2) years of the two (2) years available.

Should the Governor and Council not authorize this request, the Department will have limited capacity to provide community-based home-visiting services to children and families statewide which help prevent child maltreatment and promote child and family wellbeing.

In the event that the Federal Funds become no longer available, additional General Funds will not be requested to support this program.

Respectfully submitted,

Lori A. Weaver
Commissioner

EXPLANATION

The purpose of this request is to modify the scope of work for the existing contracts to expand the pool of potential home visitors for the Comprehensive Family Support Services (CFSS) program by reducing the minimum education requirement for Paraprofessional Home Visitors from a bachelor's degree to an associate's degree. Due to the supervisory levels and management structure, quality of services will not be impacted. Comprehensive Family Support Services promotes family wellness, decreasing family stressors, preventing child abuse and neglect, juvenile justice involvement, and providing education and support to parents and caregivers. Families are provided with assistance to access services they need and want in their home communities that strengthen the family and provide parents with an opportunity to learn and grow. Specialized training for staff is provided to ensure comprehensive knowledge, quality skills and abilities are applied in these services.

Approximately 1,200 families are served annually.

Contractors will continue serving pregnant and parenting women, and families with children under the age of 21 years old, who are in need of assistance and support with parenting, health and nutrition, education, and employment. Families served may be experiencing stressors such as, but not limited to, unemployment, social isolation, substance misuse, and health issues.

Contractors will continue providing evidence-informed, trauma-informed, integrated, whole family services with the goal of promoting and strengthening family health and wellness, and preventing child maltreatment. Contractors will continue assisting families with accessing a variety of parenting, economic, and public health supports based on the needs presented. All services are strength-based, focus on the whole family, voluntary, and guided by the family.

The Department will continue monitoring services by:

- Reviewing consumer satisfaction data, which must indicate a minimum of 80% favorable rating.
- Monitoring long-term program outcomes, including increasing outreach to high-risk populations, increasing the share of referred families who enroll in services, and increasing service completion rates.

Should the Governor and Executive Council not authorize this request, the flexibility of community-based family services may not be available to address the needs of children and families throughout the state, which could cause an increase of involvement of services through the Division for Children, Youth and Families, as these services help to prevent child maltreatment and promote child and family wellbeing.

EXPLANATION

This request is **Retroactive** because the Department did not have the fully executed contract documents in time for Governor and Executive Council approval to prevent a lapse in coverage between these new contracts and the existing contracts which expired June 30, 2020. The Department extended the deadline for the submittal of proposals due to the COVID-19 pandemic. Proposals were initially due at the start of the State of Emergency; the prospective proposers needed additional time to respond to the Request for Proposal. The Department's decisions to allow proposers additional time to respond caused the original timeline to be extended.

The purpose of this request is to provide Comprehensive Family Support Services (CFSS) by promoting family wellness, decreasing family stressors and preventing child abuse, neglect, as well as, juvenile justice involvement, and by providing education and support. Services are designed to enable families to access the services they need and want in their home communities. These prevention services strengthen parents, enabling families an opportunity to learn and grow.

The population to be served will be pregnant, parenting women and families with children under the age of 21 years, who are in need of assistance and support with parenting, health and nutrition; education; and employment. Families served may be experiencing stressors such as, but not limited to, unemployment, social isolation; substance misuse; and health issues.

Approximately 1200 families will be served each year.

These Contractors will support families by providing evidence-informed, trauma-informed, integrated, whole family services. Primary goals are to promote and strengthen family health and wellness, and to prevent child maltreatment. Contractors will assist families with accessing a variety of parenting, economic, and public health supports based on the needs presented. All services are strength-based, focus on the whole family, voluntary and guided by the family.

The Department will monitor contracted services by:

- Reviewing consumer satisfaction data, which must indicate a minimum of 80% favorable rating.
- Monitoring long-term program outcomes, including increasing outreach to high-risk populations; increasing the share of referred families who enroll in services; and increasing service completion rates.

The Department selected the Contractors through a competitive bid process using a Request for Proposals (RFP) that was posted on the Department's website from 3/3/2020 through 4/8/2020. The Department received 11 responses that were reviewed and scored by a team of qualified individuals. The Scoring Sheet is attached.

As referenced in Exhibit A, Revisions to Standard Contract Provisions, of the attached contracts, the parties have the option to extend the agreements for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties, and Governor and Council approval.

Should the Governor and Council not authorize this request, the flexibility of community-based family services may not be available to address the needs of children and families throughout the state, which could cause an increase of involvement of services through the Division for Children, Youth and Families, as these services help to prevent child maltreatment and promote child and family wellbeing.

2. SERVICES TO BE PERFORMED. The State of New Hampshire, acting through the agency identified in block 1.1 ("State"), engages contractor identified in block 1.3 ("Contractor") to perform, and the Contractor shall perform, the work or sale of goods, or both, identified and more particularly described in the attached EXHIBIT B which is incorporated herein by reference ("Services").

3. EFFECTIVE DATE/COMPLETION OF SERVICES.
3.1 Notwithstanding any provision of this Agreement to the contrary, and subject to the approval of the Governor and Executive Council of the State of New Hampshire, if applicable, this Agreement, and all obligations of the parties hereunder, shall become effective on the date the Governor and Executive Council approve this Agreement as indicated in block 1.17, unless no such approval is required, in which case the Agreement shall become effective on the date the Agreement is signed by the State Agency as shown in block 1.13 ("Effective Date").
3.2 If the Contractor commences the Services prior to the Effective Date, all Services performed by the Contractor prior to the Effective Date shall be performed at the sole risk of the Contractor, and in the event that this Agreement does not become effective, the State shall have no liability to the Contractor, including without limitation, any obligation to pay the Contractor for any costs incurred or Services performed. Contractor must complete all Services by the Completion Date specified in block 1.7.

4. CONDITIONAL NATURE OF AGREEMENT.
Notwithstanding any provision of this Agreement to the contrary, all obligations of the State hereunder, including, without limitation, the continuance of payments hereunder, are contingent upon the availability and continued appropriation of funds affected by any state or federal legislative or executive action that reduces, eliminates or otherwise modifies the appropriation or availability of funding for this Agreement and the Scope for Services provided in EXHIBIT B, in whole or in part. In no event shall the State be liable for any payments hereunder in excess of such available appropriated funds. In the event of a reduction or termination of appropriated funds, the State shall have the right to withhold payment until such funds become available, if ever, and shall have the right to reduce or terminate the Services under this Agreement immediately upon giving the Contractor notice of such reduction or termination. The State shall not be required to transfer funds from any other account or source to the Account identified in block 1.6 in the event funds in that Account are reduced or unavailable.

5. CONTRACT PRICE/PRICE LIMITATION/ PAYMENT.
5.1 The contract price, method of payment, and terms of payment are identified and more particularly described in EXHIBIT C which is incorporated herein by reference.
5.2 The payment by the State of the contract price shall be the only and the complete reimbursement to the Contractor for all expenses, of whatever nature incurred by the Contractor in the performance hereof, and shall be the only and the complete compensation to the Contractor for the Services. The State shall have no liability to the Contractor other than the contract price.
5.3 The State reserves the right to offset from any amounts otherwise payable to the Contractor under this Agreement those liquidated amounts required or permitted by N.H. RSA 80:7 through RSA 80:7-c or any other provision of law.
5.4 Notwithstanding any provision in this Agreement to the contrary, and notwithstanding unexpected circumstances, in no event shall the total of all payments authorized, or actually made hereunder, exceed the Price Limitation set forth in block 1.8.

6. COMPLIANCE BY CONTRACTOR WITH LAWS AND REGULATIONS/ EQUAL EMPLOYMENT OPPORTUNITY.
6.1 In connection with the performance of the Services, the Contractor shall comply with all applicable statutes, laws, regulations, and orders of federal, state, county or municipal authorities which impose any obligation or duty upon the Contractor, including, but not limited to, civil rights and equal employment opportunity laws. In addition, if this Agreement is funded in any part by monies of the United States, the Contractor shall comply with all federal executive orders, rules, regulations and statutes, and with any rules, regulations and guidelines as the State or the United States issue to implement these regulations. The Contractor shall also comply with all applicable intellectual property laws.
6.2 During the term of this Agreement, the Contractor shall not discriminate against employees or applicants for employment because of race, color, religion, creed, age, sex, handicap, sexual orientation, or national origin and will take affirmative action to prevent such discrimination.
6.3. The Contractor agrees to permit the State or United States access to any of the Contractor's books, records and accounts for the purpose of ascertaining compliance with all rules, regulations and orders, and the covenants, terms and conditions of this Agreement.

7. PERSONNEL.
7.1 The Contractor shall at its own expense provide all personnel necessary to perform the Services. The Contractor warrants that all personnel engaged in the Services shall be qualified to perform the Services, and shall be properly licensed and otherwise authorized to do so under all applicable laws.
7.2 Unless otherwise authorized in writing, during the term of this Agreement, and for a period of six (6) months after the Completion Date in block 1.7, the Contractor shall not hire, and shall not permit any subcontractor or other person, firm or corporation with whom it is engaged in a combined effort to perform the Services to hire, any person who is a State employee or official, who is materially involved in the procurement, administration or performance of this Agreement. This provision shall survive termination of this Agreement.

8.2.2 give the Contractor a written notice specifying the Event of Default and suspending all payments to be made under this Agreement and ordering that the portion of the contract price which would otherwise accrue to the Contractor during the period from the date of such notice until such time as the State determines that the Contractor has cured the Event of Default shall never be paid to the Contractor;

8.2.3 give the Contractor a written notice specifying the Event of Default and set off against any other obligations the State may owe to the Contractor any damages the State suffers by reason of any Event of Default; and/or

8.2.4 give the Contractor a written notice specifying the Event of Default, treat the Agreement as breached, terminate the Agreement and pursue any of its remedies at law or in equity, or both.

8.3. No failure by the State to enforce any provisions hereof after any Event of Default shall be deemed a waiver of its rights with regard to that Event of Default, or any subsequent Event of Default. No express failure to enforce any Event of Default shall be deemed a waiver of the right of the State to enforce each and all of the provisions hereof upon any further or other Event of Default on the part of the Contractor.

9. TERMINATION.

9.1 Notwithstanding paragraph 8, the State may, at its sole discretion, terminate the Agreement for any reason, in whole or in part, by thirty (30) days written notice to the Contractor that the State is exercising its option to terminate the Agreement.

9.2 In the event of an early termination of this Agreement for any reason other than the completion of the Services, the Contractor shall, at the State's discretion, deliver to the Contracting Officer, not later than fifteen (15) days after the date of termination, a report ("Termination Report") describing in detail all Services performed, and the contract price earned, to and including the date of termination. The January 31, 1989 regulations were amended and published as Part II of the May 25, 1990 Federal Register (pages 21681-21691), and require certification by grantees (and by inference, sub-grantees and sub-contractors), prior to award, that they will maintain a drug-free workplace.    - 1.5. Notifying the agency in writing, within ten calendar days after receiving notice under subparagraph 1.4.2 from an employee or otherwise receiving actual notice of such conviction. Employers of convicted employees must provide notice, including position title, to every grant officer on whose grant activity the convicted employee was working, unless the Federal agency

CERTIFICATION REGARDING DEBARMENT, SUSPENSION AND OTHER RESPONSIBILITY MATTERS

The Vendor identified in Section 1.3 of the General Provisions agrees to comply with the provisions of Executive Office of the President, Executive Order 12549 and 45 CFR Part 76 regarding Debarment, Suspension, and Other Responsibility Matters, and further agrees to have the Contractor's representative, as identified in Sections 1.11 and 1.12 of the General Provisions execute the following Certification:

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

See the attached definitions.

6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.

7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

8. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

e. If the Covered Entity notifies the Business Associate that Covered Entity has agreed to be bound by additional restrictions over and above those uses or disclosures or security safeguards of PHI pursuant to the Privacy and Security Rule, the Business Associate shall be bound by such additional restrictions and shall not disclose PHI in violation of such additional restrictions and shall abide by any additional security safeguards.

c. The Business Associate shall comply with all sections of the Privacy, Security, and Breach Notification Rule.

d. Business Associate shall make available all of its internal policies and procedures, books and records relating to the use and disclosure of PHI received from, or created or received by the Business Associate on behalf of Covered Entity to the Secretary for purposes of determining Covered Entity's compliance with HIPAA and the Privacy and Security Rule.

f. Within five (5) business days of receipt of a written request from Covered Entity, Business Associate shall make available during normal business hours at its offices all records, books, agreements, policies and procedures relating to the use and disclosure of PHI to the Covered Entity, for purposes of enabling Covered Entity to determine Business Associate's compliance with the terms of the Agreement.

j. Within ten (10) business days of receiving a written request from Covered Entity for a request for an accounting of disclosures of PHI, Business Associate shall make available to Covered Entity such information as Covered Entity may require to fulfill its obligations to provide an accounting of disclosures with respect to PHI in accordance with 45 CFR Section 164.528.

k. In the event any individual requests access to, amendment of, or accounting of PHI directly from the Business Associate, the Business Associate shall within two (2) business days forward such request to Covered Entity. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity, all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. If return or destruction is not feasible, or the disposition of the PHI has been otherwise agreed to in the Agreement, Business Associate shall continue to extend the protections of the Agreement, to such PHI and limit further uses and disclosures of such PHI to those purposes that make the return or destruction infeasible, for so long as Business

Associate maintains such PHI. If Covered Entity, in its sole discretion, requires that the Business Associate destroy any or all PHI, the Business Associate shall certify to Covered Entity that the PHI has been destroyed.

(4) Obligations of Covered Entity

a. Covered Entity shall notify Business Associate of any changes or limitation(s) in its Notice of Privacy Practices provided to individuals in accordance with 45 CFR Section 164.520, to the extent that such change or limitation may affect Business Associate's use or disclosure of PHI.

c. Covered entity shall promptly notify Business Associate of any restrictions on the use or disclosure of PHI that Covered Entity has agreed to in accordance with 45 CFR 164.522, to the extent that such restriction may affect Business Associate's use or disclosure of PHI.

(5) Termination for Cause

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.

b. Amendment. Covered Entity and Business Associate agree to take such action as is necessary to amend the Agreement, from time to time as is necessary for Covered Entity to comply with the changes in the requirements of HIPAA, the Privacy and Security Rule, and applicable federal and state law.

c. Data Ownership. The Business Associate acknowledges that it has no ownership rights with respect to the PHI provided by or created on behalf of Covered Entity.

d. Interpretation. The parties agree that any ambiguity in the Agreement shall be resolved to permit Covered Entity to comply with HIPAA, the Privacy and Security Rule.

e. Segregation. If any term or condition of this Exhibit I or the application thereof to any person(s) or circumstance is held invalid, such invalidity shall not affect other terms or conditions which can be given effect without the invalid term or condition; to this end the terms and conditions of this Exhibit I are declared severable.

Provisions in this Exhibit I regarding the use and disclosure of PHI, return or destruction of PHI, extensions of the protections of the Agreement in section (3) I, the defense and indemnification provisions of section (3) e and Paragraph 13 of the standard terms and conditions (P-37), shall survive the termination of the Agreement.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors of
Family Resource Center at Gorham

Opinion

We have audited the accompanying financial statements of Family Resource Center at Gorham (a New Hampshire nonprofit organization), which comprise the statements of financial position as of June 30, 2024 and 2023, and the related statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements present fairly, in all material respects, the financial position of Family Resource Center at Gorham as of June 30, 2024 and 2023, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Family Resource Center at Gorham and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Family

Resource Center at Gorham's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Family Resource Center at Gorham's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Family Resource Center at Gorham's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 10, 2024, on our consideration of Family Resource Center at Gorham's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Family Resource Center at Gorham's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Family Resource Center at Gorham's internal control over financial reporting and compliance.

Cash and Cash Equivalents
Cash and cash equivalents include all monies in banks and liquid investments with maturity dates of less than three months. The carrying value of cash and cash equivalents approximates fair value because of the short maturities of those financial instruments.

Certificates of Deposits
The certificates of deposits are carried at fair value. Interest is accrued and recognized in income when earned.

Grants Receivable
Grants receivable from various public and other nonprofit organizations at **June 30, 2024** and 2023 were considered fully collectable and therefore no provisions for bad debts have been made in these financial statements.

Investments
Investments are accounted for according to Accounting Standards Codification (ASC) 958-320 *Not For Profit Entities – Investments – Debt and Equity Securities.* Under ASC 958-320, investments in marketable securities with readily determinable fair values and all investments in debt securities are valued at their fair values in the statement of financial position. Unrealized gains and losses are included in the change in net assets. Fair values of investments are based on quoted prices in active markets for identical investments.

Property and Equipment
Property and equipment is recorded at cost if purchased and at fair value if donated. Depreciation is computed using the straight-line method over the estimated useful lives of the related assets as follows:

Furniture and equipment	5 - 15 years
Leasehold improvements	20 years
Buildings	39 years

The Resource Center's policy is to capitalize all assets over $2,500 with an expected life of one year or longer. Assets sold or otherwise disposed of are removed from the accounts, along with the related depreciation allowance, and any gain or loss is recognized.

Refundable Advances
The Resource Center records grant/contract revenue as a refundable advance until it is expended for the purpose of the grant/contract, at which time it is recognized as revenue.

Revenue Recognition
In May of 2014, the FASB issued Accounting Standards Update (ASU) 2014-09, *Revenue from Contracts with Customers (Topic 606).* This ASU is a comprehensive revenue recognition model that requires an organization to recognize revenue to depict the transfer of goods or services to a customer at an amount that reflects the consideration it expects to receive in exchange for those goods or services. Contracts and transactions with customers predominantly contain a single performance obligation.

Docusign Envelope ID: 5555E231-5AB3-4B8F-9737-BC0CC335C532

The Resource Center records the following exchange transaction revenue in its statements of activities for the years ended June 30, 2024 and 2023:

Program Service Fees – Revenue from providing family support services under the State of New Hampshire's Medicaid program. Revenue from providing family support services is recognized at the completion of providing such services.

Agency Rents – Revenue from the rental of office space is recognized over time.

Contributions

Contributions received are recorded as increases in net assets without donor restrictions or net assets with donor restrictions depending on the existence and/or nature of any donor or time restrictions. A purpose restriction permits the Resource Center to use contributed assets as specified for a particular purpose. Net assets restricted in perpetuity are those that are required to be permanently maintained, but income from such investments may be used for specified purposes. All donor restricted support is reported as an increase in net assets with donor restrictions, depending on the nature of the restriction. When a restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), net assets are reclassified to net assets without donor restrictions and reported in the statement of activities as net assets released from restrictions.

Contributions of donated non-cash assets are recorded at their fair values in the period received. Contributions of donated services that create or enhance non-financial assets or that require specialized skills, which are provided by the individuals possessing those skills, and would typically need to be purchased if not provided by donations, are recorded at their fair values in the period received.

Functional Allocation of Expenses

The costs of providing the various programs and other activities have been summarized on a functional basis. Accordingly, costs have been allocated among the program services and supporting activities benefited. Such allocations have been determined by management on an equitable basis.

The expenses that are allocated include the following:

Expense	Method of Allocation
Salaries and benefits	Time and effort
Occupancy	Square footage
Depreciation	Square footage

Fair Value of Financial Instruments
ASC Topic No. 820-10, *Fair Value Measurement*, provides a definition of fair value which focuses on an exit price rather than an entry price, establishes a framework in generally accepted accounting principles for measuring fair value which emphasizes that fair value is a market based measurement, not an entity specific measurement, and requires expanded disclosures about fair value measurements. In accordance with FASB ASC 820-10, the Resource Center may use valuation techniques consistent with market, income and cost approaches to measure fair value. As a basis for considering market participant assumptions in fair value measurements, ASC Topic 820-10 establishes a fair value hierarchy, which prioritizes the inputs used in measuring fair values. The hierarchy gives the highest priority to Level 1 measurements and the lowest priority to Level 3 measurements. The three levels of the fair value hierarchy under ASC Topic 820-10 are described as follows:

> ***Level 1*** – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date.
>
> ***Level 2*** - Inputs to the valuation methodology are other than quoted market prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies.
>
> ***Level 3*** - Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

At June 30, 2024 and 2023, the Resource Center's investments were all classified as Level 1 and were based on fair value.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Docusign Envelope ID: 5555E231-5AB3-4B8F-9737-BC0CC335C532

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2024 and 2023.

Equities: Valued at the closing market price on the stock exchange where they are traded (primarily the New York Stock Exchange).

Mutual Funds: Valued at the net asset value (NAV) of shares held by the Resource Center at year-end.

The preceding method may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Resource Center believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

New Accounting Pronouncement

As of July 1, 2023, the Resource Center adopted FASB ASU 2016-13, *Financial Instruments-Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments*, as amended, which modifies the measurement of expected credit losses on certain financial instruments. The Resource Center adopted this new guidance utilizing the modified retrospective transition method. The adoption of this Standard did not have a material impact on the Resource Center's financial statements but did change how the allowance for credit losses is determined.

The Resource Center's goal is generally to maintain financial assets to meet 90 days of operating expenses (approximately $880,000) As part of its liquidity plan, excess cash is invested in short-term investments, including money market accounts and certificates of deposits.

3. INVESTMENTS

Investments presented in the financial statements are stated at fair value. Realized gains and losses are determined on the specific identification method. Gains and losses (realized and unrealized) are reported in the statement of activities as increases or decreases to net assets without donor restrictions, except for those investments for which their use is restricted. Information on investments at June 30, 2024 and 2023 is presented as follows:

9. NET ASSETS WITHOUT DONOR RESTRICTIONS – BOARD DESIGNATED

By vote of the Board of Directors, funds have been designated for long-term building maintenance. Net assets without donor restrictions designated by the board was $46,110 and $46,325 at June 30, 2024 and 2023, respectively.

10. ENDOWMENT FUND

In 2007, the Resource Center established a permanent endowment fund for the organization with the intent of accumulating donations and interest earnings of one million dollars. Per the laws of the State of New Hampshire (RSA 292-B:4), 7% of the fair market value of the endowment fund, calculated on the basis of fair market value determined at least quarterly and averaged over a period of not less than three years may be appropriated for operating account expenditures. No distributions were taken during the years ended June 30, 2024 and 2023.

The Not-for-Profit Entities Topic of the FASB ASC (ASC 958-205 and subsections) intends to improve the quality of consistency of financial reporting of endowments held by not-for-profit organizations. This Topic provides guidance on classifying the net assets associated with donor-restricted endowment funds held by organizations that are subject to an enacted version of the Uniform Prudent Management Institutional Funds Act (UPMIFA). New Hampshire has adopted UPMIFA. The Topic also requires additional financial statement disclosures on endowments and related net assets.

The Resource Center has followed an investment and spending policy to ensure a total return (income plus capital change) necessary to preserve the principal of the fund and at the same time, provide a dependable source of support to help build healthier families and stronger communities.

In recognition of the prudence required of fiduciaries, the Resource Center only invests the fund in cash and mutual funds. The Resource Center has taken a risk adverse approach to managing the endowment fund in order to mitigate financial market risk such as interest rate, credit and overall market volatility, which could substantially impact the fair value of the endowment fund at any given time.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Directors of
Family Resource Center at Gorham

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Family Resource Center at Gorham (a New Hampshire nonprofit organization), which comprise the statements of financial position as of June 30, 2024 and 2023, the related statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the financial statements, and have issued our report thereon dated October 10, 2024.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Family Resource Center at Gorham's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Family Resource Center at Gorham's internal control. Accordingly, we do not express an opinion on the effectiveness of Family Resource Center at Gorham's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Docusign Envelope ID: 5555E231-5AB3-4B8F-9737-BC0CC335C532

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Family Resource Center at Gorham's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Board of Directors of
Family Resource Center at Gorham

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Family Resource Center at Gorham's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of Family Resource Center at Gorham's major federal programs for the year ended June 30, 2024. Family Resource Center at Gorham's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, Family Resource Center at Gorham complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2024.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Family Resource Center at Gorham and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Family Resource Center at Gorham's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Family Resource Center at Gorham's federal programs.

Docusign Envelope ID: 5555E231-5AB3-4B8F-9737-BC0CC335C532

Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Family Resource Center at Gorham's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Family Resource Center at Gorham's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Family Resource Center at Gorham's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Family Resource Center at Gorham's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Family Resource Center at Gorham's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Docusign Envelope ID: 5555E231-5AB3-4B8F-9737-BC0CC335C532

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

EXPLANATION

The purpose of this request is for the Contractors to ensure the continuity of Comprehensive Family Support Services (CFSS) by providing home visiting services statewide to pregnant and parenting caregivers and families with children under 18 years of age. Home visiting services provide access to a variety of parenting, economic, and public health supports based on individuals' needs.

Docusign Envelope ID: 5555E231-5AB3-4B8F-9737-BC0CC335C532

Contractors will expand services by designating staff as "Newborn Navigators" within the CFSS program. Newborn Navigators will focus on outreach and engagement of families with newborns through a one-time, postpartum home visit. This service will allow the Contractors to reach more families and increase newborn families' connections to community-based resources that support maternal, family, and child health outcomes, as well as reduce the risk of child maltreatment.

The CFSS home visiting program provides preventative services at no cost to families, including household management, child development and maternal depression screenings, case management, and resource referrals such as nutrition support, childcare, and economic mobility support.

Approximately 1,250 families will be served each year. As a result, an average of 2,242 children and 1,592 adults will engage in services annually.

The Department will monitor services by:

- Reviewing the activities and outcome measures identified in the quarterly reports submitted by the Contractor.
- Quarterly meetings with the Contractor to ensure continued compliance with contractual requirements.
- Reviewing Contractor expenditures and conducting data quality assurance activities every month.
- Reviewing consumer satisfaction data, which must indicate an 80% favorable rating at minimum.
- Monitoring long-term program outcomes, including increasing outreach to high-risk populations, increasing the share of referred families who enroll in services, and increasing service completion rates.

As referenced in Exhibit A, Revisions to Standard Contract Provisions, of the original agreements, the parties have the option to extend the agreements for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and Governor and Council approval. The Department is exercising its option to renew services for two (2) years of the two (2) years available.

Should the Governor and Council not authorize this request, the Department will have limited capacity to provide community-based home-visiting services to children and families statewide which help prevent child maltreatment and promote child and family wellbeing.

EXPLANATION

The purpose of this request is to modify the scope of work for the existing contracts to expand the pool of potential home visitors for the Comprehensive Family Support Services (CFSS) program by reducing the minimum education requirement for Paraprofessional Home Visitors from a bachelor's degree to an associate's degree. Due to the supervisory levels and management structure, quality of services will not be impacted. Comprehensive Family Support Services promotes family wellness, decreasing family stressors, preventing child abuse and neglect, juvenile justice involvement, and providing education and support to parents and caregivers. Families are provided with assistance to access services they need and want in their home communities that strengthen the family and provide parents with an opportunity to learn and grow. Specialized training for staff is provided to ensure comprehensive knowledge, quality skills and abilities are applied in these services.

Approximately 1,200 families are served annually.

Contractors will continue serving pregnant and parenting women, and families with children under the age of 21 years old, who are in need of assistance and support with parenting, health and nutrition, education, and employment. Families served may be experiencing stressors such as, but not limited to, unemployment, social isolation, substance misuse, and health issues.

Contractors will continue providing evidence-informed, trauma-informed, integrated, whole family services with the goal of promoting and strengthening family health and wellness, and preventing child maltreatment. Contractors will continue assisting families with accessing a variety of parenting, economic, and public health supports based on the needs presented. All services are strength-based, focus on the whole family, voluntary, and guided by the family.

The Department will continue monitoring services by:

- Reviewing consumer satisfaction data, which must indicate a minimum of 80% favorable rating.
- Monitoring long-term program outcomes, including increasing outreach to high-risk populations, increasing the share of referred families who enroll in services, and increasing service completion rates.

Should the Governor and Executive Council not authorize this request, the flexibility of community-based family services may not be available to address the needs of children and families throughout the state, which could cause an increase of involvement of services through the Division for Children, Youth and Families, as these services help to prevent child maltreatment and promote child and family wellbeing.

Respectfully submitted,

Lori A. Shibinette
Commissioner

EXPLANATION

This request is **Retroactive** because the Department did not have the fully executed contract documents in time for Governor and Executive Council approval to prevent a lapse in coverage between these new contracts and the existing contracts which expired June 30, 2020. The Department extended the deadline for the submittal of proposals due to the COVID-19 pandemic. Proposals were initially due at the start of the State of Emergency; the prospective proposers needed additional time to respond to the Request for Proposal. The Department's decisions to allow proposers additional time to respond caused the original timeline to be extended.

The purpose of this request is to provide Comprehensive Family Support Services (CFSS) by promoting family wellness, decreasing family stressors and preventing child abuse, neglect, as well as, juvenile justice involvement, and by providing education and support. Services are designed to enable families to access the services they need and want in their home communities. These prevention services strengthen parents, enabling families an opportunity to learn and grow.

The population to be served will be pregnant, parenting women and families with children under the age of 21 years, who are in need of assistance and support with parenting, health and nutrition; education; and employment. Families served may be experiencing stressors such as, but not limited to, unemployment, social isolation; substance misuse; and health issues.

Approximately 1200 families will be served each year.

These Contractors will support families by providing evidence-informed, trauma-informed, integrated, whole family services. Primary goals are to promote and strengthen family health and wellness, and to prevent child maltreatment. Contractors will assist families with accessing a variety of parenting, economic, and public health supports based on the needs presented. All services are strength-based, focus on the whole family, voluntary and guided by the family.

The Department will monitor contracted services by:

- Reviewing consumer satisfaction data, which must indicate a minimum of 80% favorable rating.
- Monitoring long-term program outcomes, including increasing outreach to high-risk populations; increasing the share of referred families who enroll in services; and increasing service completion rates.

The Department selected the Contractors through a competitive bid process using a Request for Proposals (RFP) that was posted on the Department's website from 3/3/2020 through 4/8/2020. The Department received 11 responses that were reviewed and scored by a team of qualified individuals. The Scoring Sheet is attached.

As referenced in Exhibit A, Revisions to Standard Contract Provisions, of the attached contracts, the parties have the option to extend the agreements for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties, and Governor and Council approval.

Should the Governor and Council not authorize this request, the flexibility of community-based family services may not be available to address the needs of children and families throughout the state, which could cause an increase of involvement of services through the Division for Children, Youth and Families, as these services help to prevent child maltreatment and promote child and family wellbeing.

2. SERVICES TO BE PERFORMED. The State of New Hampshire, acting through the agency identified in block 1.1 ("State"), engages contractor identified in block 1.3 ("Contractor") to perform, and the Contractor shall perform, the work or sale of goods, or both, identified and more particularly described in the attached EXHIBIT B which is incorporated herein by reference ("Services").

3. EFFECTIVE DATE/COMPLETION OF SERVICES.

3.1 Notwithstanding any provision of this Agreement to the contrary, and subject to the approval of the Governor and Executive Council of the State of New Hampshire, if applicable, this Agreement, and all obligations of the parties hereunder, shall become effective on the date the Governor and Executive Council approve this Agreement as indicated in block 1.17, unless no such approval is required, in which case the Agreement shall become effective on the date the Agreement is signed by the State Agency as shown in block 1.13 ("Effective Date").

3.2 If the Contractor commences the Services prior to the Effective Date, all Services performed by the Contractor prior to the Effective Date shall be performed at the sole risk of the Contractor, and in the event that this Agreement does not become effective, the State shall have no liability to the Contractor, including without limitation, any obligation to pay the Contractor for any costs incurred or Services performed. In no event shall the State be liable for any payments hereunder in excess of such available appropriated funds. In the event of a reduction or termination of appropriated funds, the State shall have the right to withhold payment until such funds become available, if ever, and shall have the right to reduce or terminate the Services under this Agreement immediately upon giving the Contractor notice of such reduction or termination. The State shall have no liability to the Contractor other than the contract price.

5.3 The State reserves the right to offset from any amounts otherwise payable to the Contractor under this Agreement those liquidated amounts required or permitted by N.H. RSA 80:7 through RSA 80:7-c or any other provision of law.

The January 31, 1989 regulations were amended and published as Part II of the May 25, 1990 Federal Register (pages 21681-21691), and require certification by grantees (and by inference, sub-grantees and sub-contractors), prior to award, that they will maintain a drug-free workplace. b. Business Associate may use or disclose PHI:
   I. For the proper management and administration of the Business Associate;
   II. As required by law, pursuant to the terms set forth in paragraph d. below; or
   III. For data aggregation purposes for the health care operations of Covered Entity.

e. If the Covered Entity notifies the Business Associate that Covered Entity has agreed to be bound by additional restrictions over and above those uses or disclosures or security safeguards of PHI pursuant to the Privacy and Security Rule, the Business Associate shall be bound by such additional restrictions and shall not disclose PHI in violation of such additional restrictions and shall abide by any additional security safeguards.

c. The Business Associate shall comply with all sections of the Privacy, Security, and Breach Notification Rule.

d. Business Associate shall make available all of its internal policies and procedures, books and records relating to the use and disclosure of PHI received from, or created or received by the Business Associate on behalf of Covered Entity to the Secretary for purposes of determining Covered Entity's compliance with HIPAA and the Privacy and Security Rule.

j. Within ten (10) business days of receiving a written request from Covered Entity for a request for an accounting of disclosures of PHI, Business Associate shall make available to Covered Entity such information as Covered Entity may require to fulfill its obligations to provide an accounting of disclosures with respect to PHI in accordance with 45 CFR Section 164.528.

k. In the event any individual requests access to, amendment of, or accounting of PHI directly from the Business Associate, the Business Associate shall within two (2) business days forward such request to Covered Entity. l. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity, all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. If return or destruction is not feasible, or the disposition of the PHI has been otherwise agreed to in the Agreement, Business Associate shall continue to extend the protections of the Agreement, to such PHI and limit further uses and disclosures of such PHI to those purposes that make the return or destruction infeasible, for so long as Business

Associate maintains such PHI. If Covered Entity, in its sole discretion, requires that the Business Associate destroy any or all PHI, the Business Associate shall certify to Covered Entity that the PHI has been destroyed.

(4) **Obligations of Covered Entity**

a. Covered Entity shall notify Business Associate of any changes or limitation(s) in its Notice of Privacy Practices provided to Individuals in accordance with 45 CFR Section 164.520, to the extent that such change or limitation may affect Business Associate's use or disclosure of PHI.

b. Covered Entity shall promptly notify Business Associate of any changes in, or revocation of permission provided to Covered Entity by Individuals whose PHI may be used or disclosed by Business Associate under this Agreement, pursuant to 45 CFR Section 164.506 or 45 CFR Section 164.508.

c. Covered entity shall promptly notify Business Associate of any restrictions on the use or disclosure of PHI that Covered Entity has agreed to in accordance with 45 CFR 164.522, to the extent that such restriction may affect Business Associate's use or disclosure of PHI.

(5) **Termination for Cause**

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

(6) **Miscellaneous**

A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.

b. Amendment. Covered Entity and Business Associate agree to take such action as is necessary to amend the Agreement, from time to time as is necessary for Covered Entity to comply with the changes in the requirements of HIPAA, the Privacy and Security Rule, and applicable federal and state law.

c. Data Ownership. The Business Associate acknowledges that it has no ownership rights with respect to the PHI provided by or created on behalf of Covered Entity.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors of
Family Resource Center at Gorham

Opinion

We have audited the accompanying financial statements of Family Resource Center at Gorham (a New Hampshire nonprofit organization), which comprise the statements of financial position as of June 30, 2024 and 2023, and the related statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements present fairly, in all material respects, the financial position of Family Resource Center at Gorham as of June 30, 2024 and 2023, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Family Resource Center at Gorham and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Family

Resource Center at Gorham's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Family Resource Center at Gorham's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Family Resource Center at Gorham's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 10, 2024, on our consideration of Family Resource Center at Gorham's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Family Resource Center at Gorham's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Family Resource Center at Gorham's internal control over financial reporting and compliance.

The financial statements have been prepared on the accrual basis of accounting.

Basis of Presentation

The financial statements of the Resource Center have been prepared in accordance with U.S. generally accepted accounting principles (US GAAP), which require the Resource Center to report information regarding its financial position and activities according to the following net asset classifications:

Net assets without donor restrictions – Net assets that are not subject to donor-imposed restrictions and may be expended for any purpose in performing the primary objectives of the Resource Center. These net assets may be used at the discretion of the Resource Center's management and board of directors.

Net assets with donor restrictions – Net assets subject to stipulations imposed by donors and grantors. Some donor restrictions are temporary in nature; those restrictions will be met by actions of the Resource Center or by passage of time. Other donor restrictions are perpetual in nature, whereby the donor has stipulated the funds be maintained in perpetuity.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents
Cash and cash equivalents include all monies in banks and liquid investments with maturity dates of less than three months. The carrying value of cash and cash equivalents approximates fair value because of the short maturities of those financial instruments.

Certificates of Deposits
The certificates of deposits are carried at fair value. Interest is accrued and recognized in income when earned.

Grants Receivable
Grants receivable from various public and other nonprofit organizations at **June 30, 2024** and 2023 were considered fully collectable and therefore no provisions for bad debts have been made in these financial statements.

Investments
Investments are accounted for according to Accounting Standards Codification (ASC) 958-320 *Not For Profit Entities – Investments – Debt and Equity Securities.* Under ASC 958-320, investments in marketable securities with readily determinable fair values and all investments in debt securities are valued at their fair values in the statement of financial position. Unrealized gains and losses are included in the change in net assets. Fair values of investments are based on quoted prices in active markets for identical investments.

Property and Equipment
Property and equipment is recorded at cost if purchased and at fair value if donated. Depreciation is computed using the straight-line method over the estimated useful lives of the related assets as follows:

Furniture and equipment	5 - 15 years
Leasehold improvements	20 years
Buildings	39 years

The Resource Center's policy is to capitalize all assets over $2,500 with an expected life of one year or longer. Assets sold or otherwise disposed of are removed from the accounts, along with the related depreciation allowance, and any gain or loss is recognized.

Refundable Advances
The Resource Center records grant/contract revenue as a refundable advance until it is expended for the purpose of the grant/contract, at which time it is recognized as revenue.

Revenue Recognition
In May of 2014, the FASB issued Accounting Standards Update (ASU) 2014-09, *Revenue from Contracts with Customers (Topic 606).* This ASU is a comprehensive revenue recognition model that requires an organization to recognize revenue to depict the transfer of goods or services to a customer at an amount that reflects the consideration it expects to receive in exchange for those goods or services. Contracts and transactions with customers predominantly contain a single performance obligation.

Docusign Envelope ID: 562672FE-01BD-49E7-9CCA-EF20A9731C49

The Resource Center records the following exchange transaction revenue in its statements of activities for the years ended June 30, 2024 and 2023:

Program Service Fees – Revenue from providing family support services under the State of New Hampshire's Medicaid program. Revenue from providing family support services is recognized at the completion of providing such services.

Agency Rents – Revenue from the rental of office space is recognized over time.

Contributions

Contributions received are recorded as increases in net assets without donor restrictions or net assets with donor restrictions depending on the existence and/or nature of any donor or time restrictions. A purpose restriction permits the Resource Center to use contributed assets as specified for a particular purpose. Net assets restricted in perpetuity are those that are required to be permanently maintained, but income from such investments may be used for specified purposes. All donor restricted support is reported as an increase in net assets with donor restrictions, depending on the nature of the restriction. When a restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), net assets are reclassified to net assets without donor restrictions and reported in the statement of activities as net assets released from restrictions.

Contributions of donated non-cash assets are recorded at their fair values in the period received. Contributions of donated services that create or enhance non-financial assets or that require specialized skills, which are provided by the individuals possessing those skills, and would typically need to be purchased if not provided by donations, are recorded at their fair values in the period received.

Functional Allocation of Expenses

The costs of providing the various programs and other activities have been summarized on a functional basis. Accordingly, costs have been allocated among the program services and supporting activities benefited. Such allocations have been determined by management on an equitable basis.

The expenses that are allocated include the following:

Expense	Method of Allocation
Salaries and benefits	Time and effort
Occupancy	Square footage
Depreciation	Square footage
All other expenses	Direct assignment

Income Taxes

The Resource Center is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code. In addition, the Resource Center qualifies for the charitable contribution deduction under Section 170(b)(1)(a) and has been classified as an organization that is not a private foundation.

Docusign Envelope ID: 562672FE-01BD-49E7-9CCA-EF20A9731C49

Management has evaluated the Resource Center's tax positions and concluded that the Resource Center has maintained its tax-exempt status and has taken no uncertain tax positions that would require adjustment to the financial statements.

Advertising
Advertising costs are expensed as incurred.

Reclassifications
Certain amounts in the prior year financial statements have been reclassified for comparative purposes to conform with the presentation in the current year financial statements.

Fair Value of Financial Instruments
ASC Topic No. 820-10, *Fair Value Measurement*, provides a definition of fair value which focuses on an exit price rather than an entry price, establishes a framework in generally accepted accounting principles for measuring fair value which emphasizes that fair value is a market based measurement, not an entity specific measurement, and requires expanded disclosures about fair value measurements. In accordance with FASB ASC 820-10, the Resource Center may use valuation techniques consistent with market, income and cost approaches to measure fair value. As a basis for considering market participant assumptions in fair value measurements, ASC Topic 820-10 establishes a fair value hierarchy, which prioritizes the inputs used in measuring fair values. The hierarchy gives the highest priority to Level 1 measurements and the lowest priority to Level 3 measurements. The three levels of the fair value hierarchy under ASC Topic 820-10 are described as follows:

> ***Level 1*** – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date.
>
> ***Level 2*** - Inputs to the valuation methodology are other than quoted market prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies.
>
> ***Level 3*** - Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

At June 30, 2024 and 2023, the Resource Center's investments were all classified as Level 1 and were based on fair value.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Docusign Envelope ID: 562672FE-01BD-49E7-9CCA-EF20A9731C49

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2024 and 2023.

Equities: Valued at the closing market price on the stock exchange where they are traded (primarily the New York Stock Exchange).

Mutual Funds: Valued at the net asset value (NAV) of shares held by the Resource Center at year-end.

The preceding method may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Resource Center believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

New Accounting Pronouncement

As of July 1, 2023, the Resource Center adopted FASB ASU 2016-13, *Financial Instruments-Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments*, as amended, which modifies the measurement of expected credit losses on certain financial instruments. The Resource Center adopted this new guidance utilizing the modified retrospective transition method. The adoption of this Standard did not have a material impact on the Resource Center's financial statements but did change how the allowance for credit losses is determined.

3. INVESTMENTS

Investments presented in the financial statements are stated at fair value. Realized gains and losses are determined on the specific identification method. Gains and losses (realized and unrealized) are reported in the statement of activities as increases or decreases to net assets without donor restrictions, except for those investments for which their use is restricted. This line of credit agreement was closed in May 2023.

6. CONCENTRATION OF CREDIT RISK - CASH

The Resource Center maintains cash balances that, at times, may exceed federally insured limits. The cash balances are insured by the Federal Deposit Insurance Corporation (FDIC) up to $250,000 per bank at June 30, 2024 and 2023. The Resource Center has not experienced any losses in such accounts and believes it is not exposed to any significant risk with these accounts. Cash balances in excess of FDIC insured limits amounted to $469,037 and $1,136,663 at June 30, 2024 and June 30, 2023, respectively.

During the year ended June 30, 2024, the Resource Center deposited over $1,000,000 into an ICS money market account to obtain FDIC insurance on funds in excess of $250,000.

7. CONCENTRATION OF RISK

For the years ended June 30, 2024 and 2023, approximately 38% and 46% of the total revenue was derived from Medicaid, respectively.

In order for the Resource Center to receive Medicaid funding, they must be formally approved by the State of New Hampshire, Department of Health and Human Services, Division of Community Based Care Services, Bureau of Behavioral Health, and Bureau of Developmental Services as the provider of services for individuals with mental health illnesses and developmentally disabled individuals, for that region.

Medicaid receivables comprise approximately 19% and 11% of the total accounts receivable balances at June 30, 2024 and 2023, respectively.

8. NET ASSETS

Net assets with donor restrictions were as follows for the years ended **June 30, 2024** and 2023:

9. NET ASSETS WITHOUT DONOR RESTRICTIONS – BOARD DESIGNATED

10. ENDOWMENT FUND

In 2007, the Resource Center established a permanent endowment fund for the organization with the intent of accumulating donations and interest earnings of one million dollars. Per the laws of the State of New Hampshire (RSA 292-B:4), 7% of the fair market value of the endowment fund, calculated on the basis of fair market value determined at least quarterly and averaged over a period of not less than three years may be appropriated for operating account expenditures. No distributions were taken during the years ended June 30, 2024 and 2023.

The Not-for-Profit Entities Topic of the FASB ASC (ASC 958-205 and subsections) intends to improve the quality of consistency of financial reporting of endowments held by not-for-profit organizations. This Topic provides guidance on classifying the net assets associated with donor-restricted endowment funds held by organizations that are subject to an enacted version of the Uniform Prudent Management Institutional Funds Act (UPMIFA). New Hampshire has adopted UPMIFA. The Topic also requires additional financial statement disclosures on endowments and related net assets.

The Resource Center has followed an investment and spending policy to ensure a total return (income plus capital change) necessary to preserve the principal of the fund and at the same time, provide a dependable source of support to help build healthier families and stronger communities.

In recognition of the prudence required of fiduciaries, the Resource Center only invests the fund in cash and mutual funds. The Resource Center has taken a risk adverse approach to managing the endowment fund in order to mitigate financial market risk such as interest rate, credit and overall market volatility, which could substantially impact the fair value of the endowment fund at any given time.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Directors of
Family Resource Center at Gorham

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Family Resource Center at Gorham (a New Hampshire nonprofit organization), which comprise the statements of financial position as of June 30, 2024 and 2023, the related statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the financial statements, and have issued our report thereon dated October 10, 2024.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Family Resource Center at Gorham's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Family Resource Center at Gorham's internal control. Accordingly, we do not express an opinion on the effectiveness of Family Resource Center at Gorham's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Docusign Envelope ID: 562672FE-01BD-49E7-9CCA-EF20A9731C49

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Family Resource Center at Gorham's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Family Resource Center at Gorham's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of Family Resource Center at Gorham's major federal programs for the year ended June 30, 2024. Family Resource Center at Gorham's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, Family Resource Center at Gorham complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2024.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Family Resource Center at Gorham and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Family Resource Center at Gorham's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Family Resource Center at Gorham's federal programs.

Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Family Resource Center at Gorham's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Family Resource Center at Gorham's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Family Resource Center at Gorham's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Family Resource Center at Gorham's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Family Resource Center at Gorham's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Docusign Envelope ID: 562672FE-01BD-49E7-9CCA-EF20A9731C49

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

EXPLANATION

The purpose of this request is for the Contractors to ensure the continuity of Comprehensive Family Support Services (CFSS) by providing home visiting services statewide to pregnant and parenting caregivers and families with children under 18 years of age. Home visiting services provide access to a variety of parenting, economic, and public health supports based on individuals' needs.

Docusign Envelope ID: 562672FE-01BD-49E7-9CCA-EF20A9731C49

Contractors will expand services by designating staff as "Newborn Navigators" within the CFSS program. Newborn Navigators will focus on outreach and engagement of families with newborns through a one-time, postpartum home visit. This service will allow the Contractors to reach more families and increase newborn families' connections to community-based resources that support maternal, family, and child health outcomes, as well as reduce the risk of child maltreatment.

The CFSS home visiting program provides preventative services at no cost to families, including household management, child development and maternal depression screenings, case management, and resource referrals such as nutrition support, childcare, and economic mobility support.

Approximately 1,250 families will be served each year. As a result, an average of 2,242 children and 1,592 adults will engage in services annually.

The Department will monitor services by:

- Reviewing the activities and outcome measures identified in the quarterly reports submitted by the Contractor.
- Quarterly meetings with the Contractor to ensure continued compliance with contractual requirements.
- Reviewing Contractor expenditures and conducting data quality assurance activities every month.
- Reviewing consumer satisfaction data, which must indicate an 80% favorable rating at minimum.
- Monitoring long-term program outcomes, including increasing outreach to high-risk populations, increasing the share of referred families who enroll in services, and increasing service completion rates.

As referenced in Exhibit A, Revisions to Standard Contract Provisions, of the original agreements, the parties have the option to extend the agreements for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and Governor and Council approval. The Department is exercising its option to renew services for two (2) years of the two (2) years available.

Should the Governor and Council not authorize this request, the Department will have limited capacity to provide community-based home-visiting services to children and families statewide which help prevent child maltreatment and promote child and family wellbeing.

In the event that the Federal Funds become no longer available, additional General Funds will not be requested to support this program.

Respectfully submitted,

Lori A. Weaver
Commissioner

EXPLANATION

The purpose of this request is to modify the scope of work for the existing contracts to expand the pool of potential home visitors for the Comprehensive Family Support Services (CFSS) program by reducing the minimum education requirement for Paraprofessional Home Visitors from a bachelor's degree to an associate's degree. Due to the supervisory levels and management structure, quality of services will not be impacted. Comprehensive Family Support Services promotes family wellness, decreasing family stressors, preventing child abuse and neglect, juvenile justice involvement, and providing education and support to parents and caregivers. Families are provided with assistance to access services they need and want in their home communities that strengthen the family and provide parents with an opportunity to learn and grow. Specialized training for staff is provided to ensure comprehensive knowledge, quality skills and abilities are applied in these services.

Approximately 1,200 families are served annually.

Contractors will continue serving pregnant and parenting women, and families with children under the age of 21 years old, who are in need of assistance and support with parenting, health and nutrition, education, and employment. Families served may be experiencing stressors such as, but not limited to, unemployment, social isolation, substance misuse, and health issues.

Contractors will continue providing evidence-informed, trauma-informed, integrated, whole family services with the goal of promoting and strengthening family health and wellness, and preventing child maltreatment. Contractors will continue assisting families with accessing a variety of parenting, economic, and public health supports based on the needs presented. All services are strength-based, focus on the whole family, voluntary, and guided by the family.

The Department will continue monitoring services by:

- Reviewing consumer satisfaction data, which must indicate a minimum of 80% favorable rating.
- Monitoring long-term program outcomes, including increasing outreach to high-risk populations, increasing the share of referred families who enroll in services, and increasing service completion rates.

Should the Governor and Executive Council not authorize this request, the flexibility of community-based family services may not be available to address the needs of children and families throughout the state, which could cause an increase of involvement of services through the Division for Children, Youth and Families, as these services help to prevent child maltreatment and promote child and family wellbeing.

EXPLANATION

This request is **Retroactive** because the Department did not have the fully executed contract documents in time for Governor and Executive Council approval to prevent a lapse in coverage between these new contracts and the existing contracts which expired June 30, 2020. The Department extended the deadline for the submittal of proposals due to the COVID-19 pandemic. Proposals were initially due at the start of the State of Emergency; the prospective proposers needed additional time to respond to the Request for Proposal. The Department's decisions to allow proposers additional time to respond caused the original timeline to be extended.

The purpose of this request is to provide Comprehensive Family Support Services (CFSS) by promoting family wellness, decreasing family stressors and preventing child abuse, neglect, as well as, juvenile justice involvement, and by providing education and support. Services are designed to enable families to access the services they need and want in their home communities. These prevention services strengthen parents, enabling families an opportunity to learn and grow.

The population to be served will be pregnant, parenting women and families with children under the age of 21 years, who are in need of assistance and support with parenting, health and nutrition; education; and employment. Families served may be experiencing stressors such as, but not limited to, unemployment, social isolation; substance misuse; and health issues.

Approximately 1200 families will be served each year.

These Contractors will support families by providing evidence-informed, trauma-informed, integrated, whole family services. Primary goals are to promote and strengthen family health and wellness, and to prevent child maltreatment. Contractors will assist families with accessing a variety of parenting, economic, and public health supports based on the needs presented. All services are strength-based, focus on the whole family, voluntary and guided by the family.

The Department will monitor contracted services by:

- Reviewing consumer satisfaction data, which must indicate a minimum of 80% favorable rating.
- Monitoring long-term program outcomes, including increasing outreach to high-risk populations; increasing the share of referred families who enroll in services; and increasing service completion rates.

The Department selected the Contractors through a competitive bid process using a Request for Proposals (RFP) that was posted on the Department's website from 3/3/2020 through 4/8/2020. The Department received 11 responses that were reviewed and scored by a team of qualified individuals. The Scoring Sheet is attached.

As referenced in Exhibit A, Revisions to Standard Contract Provisions, of the attached contracts, the parties have the option to extend the agreements for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties, and Governor and Council approval.

Should the Governor and Council not authorize this request, the flexibility of community-based family services may not be available to address the needs of children and families throughout the state, which could cause an increase of involvement of services through the Division for Children, Youth and Families, as these services help to prevent child maltreatment and promote child and family wellbeing.

CERTIFICATION REGARDING DRUG-FREE WORKPLACE REQUIREMENTS

The Vendor identified in Section 1.3 of the General Provisions agrees to comply with the provisions of Sections 5151-5160 of the Drug-Free Workplace Act of 1988 (Pub. L. 100-690, Title V, Subtitle D; 41 U.S.C. 701 et seq.), and further agrees to have the Contractor's representative, as identified in Sections 1.11 and 1.12 of the General Provisions execute the following Certification:

ALTERNATIVE I - FOR GRANTEES OTHER THAN INDIVIDUALS

US DEPARTMENT OF HEALTH AND HUMAN SERVICES - CONTRACTORS
US DEPARTMENT OF EDUCATION - CONTRACTORS
US DEPARTMENT OF AGRICULTURE - CONTRACTORS

This certification is required by the regulations implementing Sections 5151-5160 of the Drug-Free Workplace Act of 1988 (Pub. L. 100-690, Title V, Subtitle D; 41 U.S.C. 701 et seq.). The January 31, 1989 regulations were amended and published as Part II of the May 25, 1990 Federal Register (pages 21681-21691), and require certification by grantees (and by inference, sub-grantees and sub-contractors), prior to award, that they will maintain a drug-free workplace. Section 3017.630(c) of the regulation provides that a grantee (and by inference, sub-grantees and sub-contractors) that is a State may elect to make one certification to the Department in each federal fiscal year in lieu of certificates for each grant during the federal fiscal year covered by the certification. The certificate set out below is a material representation of fact upon which reliance is placed when the agency awards the grant. False certification or violation of the certification shall be grounds for suspension of payments, suspension or termination of grants, or government wide suspension or debarment. Contractors using this form should send it to:

Commissioner
NH Department of Health and Human Services
129 Pleasant Street,
Concord, NH 03301-6505

1. The grantee certifies that it will or will continue to provide a drug-free workplace by:

   - 1.2. Establishing an ongoing drug-free awareness program to inform employees about
     - 1.2.1. The dangers of drug abuse in the workplace;
     - 1.2.2. The grantee's policy of maintaining a drug-free workplace;
     - 1.2.3. Any available drug counseling, rehabilitation, and employee assistance programs; and
     - 1.2.4. The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace;

The Vendor identified in Section 1.3 of the General Provisions agrees to comply with the provisions of Executive Office of the President, Executive Order 12549 and 45 CFR Part 76 regarding Debarment, Suspension, and Other Responsibility Matters, and further agrees to have the Contractor's representative, as identified in Sections 1.11 and 1.12 of the General Provisions execute the following Certification:

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.

6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.

7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

PRIMARY COVERED TRANSACTIONS

11. The prospective primary participant certifies to the best of its knowledge and belief, that it and its principals:
    - 11.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;
    - 11.2. have not within a three-year period preceding this proposal (contract) been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or a contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;

    - 11.4. have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.

12. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal (contract).

LOWER TIER COVERED TRANSACTIONS

13. By signing and submitting this lower tier proposal (contract), the prospective lower tier participant, as defined in 45 CFR Part 76, certifies to the best of its knowledge and belief that it and its principals:

e. If the Covered Entity notifies the Business Associate that Covered Entity has agreed to be bound by additional restrictions over and above those uses or disclosures or security safeguards of PHI pursuant to the Privacy and Security Rule, the Business Associate shall be bound by such additional restrictions and shall not disclose PHI in violation of such additional restrictions and shall abide by any additional security safeguards.

k. In the event any individual requests access to, amendment of, or accounting of PHI directly from the Business Associate, the Business Associate shall within two (2) business days forward such request to Covered Entity. l. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity, all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. If return or destruction is not feasible, or the disposition of the PHI has been otherwise agreed to in the Agreement, Business Associate shall continue to extend the protections of the Agreement, to such PHI and limit further uses and disclosures of such PHI to those purposes that make the return or destruction infeasible, for so long as Business

Associate maintains such PHI. If Covered Entity, in its sole discretion, requires that the Business Associate destroy any or all PHI, the Business Associate shall certify to Covered Entity that the PHI has been destroyed.

(4) Obligations of Covered Entity

a. Covered Entity shall notify Business Associate of any changes or limitation(s) in its Notice of Privacy Practices provided to individuals in accordance with 45 CFR Section 164.520, to the extent that such change or limitation may affect Business Associate's use or disclosure of PHI.

c. Covered entity shall promptly notify Business Associate of any restrictions on the use or disclosure of PHI that Covered Entity has agreed to in accordance with 45 CFR 164.522, to the extent that such restriction may affect Business Associate's use or disclosure of PHI.

(5) Termination for Cause

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

INDEPENDENT AUDITOR'S REPORT

Board of Directors
Greater Seacoast Community Health

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Greater Seacoast Community Health (the Organization), which comprise the balance sheets as of December 31, 2023 and 2022, and the related statements of operations, changes in net assets and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Organization as of December 31, 2023 and 2022, and the results of its operations, changes in its net assets, and its cash flows for the years then ended, in accordance with U.S. generally accepted accounting principles.

Basis for Opinion

We conducted our audits in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Organization and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. generally accepted accounting principles, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Organization's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Docusign Envelope ID: 614B197E-16E3-4B62-8360-2B5195029A91

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with U.S. generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with U.S. generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Organization's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Docusign Envelope ID: 614B197E-16E3-4B62-8360-2B5195029A91

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated May 20, 2024 on our consideration of the Organization's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Organization's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Organization's internal control over financial reporting and compliance.

Organization

Greater Seacoast Community Health (the Organization) is a not-for-profit corporation organized in New Hampshire. The Organization is a Federally Qualified Health Center (FQHC), providing fully integrated medical, behavioral, oral health, recovery services and social support for underserved populations. The Organization is a network of community health centers, which includes Families First Health & Support Center and Goodwin Community Health, providing healthcare services to individuals living within the greater seacoast area.

1. Summary of Significant Accounting Policies

Basis of Presentation

The financial statements of the Organization have been prepared in accordance with U.S. generally accepted accounting principles (U.S. GAAP), which requires the Organization to report information in the financial statements according to the following net asset classifications:

Net assets without donor restrictions: Net assets that are not subject to donor-imposed restrictions and may be expended for any purpose in performing the primary objectives of the Organization. These net assets may be used at the discretion of the Organization's management and the Board of Directors.

Net assets with donor restrictions: Net assets subject to stipulations imposed by donors and grantors. Some donor restrictions are temporary in nature; those restrictions will be met by actions of the Organization or by the passage of time. Other donor restrictions are perpetual in nature, whereby the donor has stipulated the funds be maintained in perpetuity.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Income Taxes

The Organization is a public charity under Section 501(c)(3) of the Internal Revenue Code (IRC). As a public charity, the Organization is exempt from state and federal income taxes on income earned in accordance with its tax-exempt purpose. Unrelated business income is subject to state and federal income tax. Management has evaluated the Organization's tax positions and concluded that the Organization has no unrelated business income or uncertain tax positions that require adjustment to the financial statements.

Cash and Cash Equivalents

Cash and cash equivalents consist of demand deposits and petty cash funds.

Docusign Envelope ID: 614B197E-16E3-4B62-8360-2B5195029A91

The Organization maintains cash and cash equivalents accounts at several financial institutions. The balances are insured by the Federal Deposit Insurance Corporation (FDIC) up to $250,000 per financial institution. At various times throughout the year, the Organization's balances may exceed FDIC insurance. The Organization has not experienced any losses in such accounts and management believes it is not exposed to any significant risk.

Revenue Recognition and Patient Accounts Receivable

Net patient service revenue is reported at the amount that reflects the consideration to which the Organization expects to be entitled in exchange for providing patient care. These amounts are due from patients and third-party payers (including commercial insurers and governmental programs). Generally, the Organization bills the patients and third-party payers several days after the services are performed. Revenue is recognized as performance obligations are satisfied.

Performance obligations are determined based on the nature of the services provided by the Organization.

The Organization measures the performance obligations as follows:

- Medical, behavioral health, dental and ancillary services are measured from the commencement of an in-person or virtual encounter with a patient to the completion of the encounter. Ancillary services provided the same day are considered to be part of the performance obligation and are not deemed to be separate performance obligations.
- Contract 340B pharmacy program services are measured when the prescription is dispensed to the patient as reported by the pharmacy administrator.
- In-house pharmacy services are measured when the prescription is dispensed to the patient at one of the Organization's in-house pharmacies.

The majority of the Organization's performance obligations are satisfied at a point in time.

The Organization has determined that the nature, amount, timing and uncertainty of revenue and cash flows are affected by the payer. In assessing collectability, the Organization has elected the portfolio approach. The portfolio approach is being used as the Organization has a large volume of similar contracts with similar classes of customers (patients). The Organization reasonably expects that the effect of applying a portfolio approach to a group of contracts would not differ materially from considering each contract separately. Management's judgment to group the contracts by portfolio is based on the payment behavior expected in each portfolio category. As a result, aggregating all the contracts (which are at the patient level) by the particular payer or group of payers will result in the recognition of the same amount of revenue as applying the analysis at the individual patient level. Payer concentrations are disclosed in Note 3.

A summary of payment arrangements follows:

Medicare

The Organization is primarily reimbursed for medical, behavioral health and ancillary services provided to patients based on the lesser of actual charges or prospectively set rates for all FQHC services furnished to a Medicare beneficiary on the same day when an FQHC furnishes a face-to-face or virtual visit. Certain other services provided to patients are reimbursed based on predetermined payment rates for each Current Procedural Terminology (CPT) code, which may be less than the Organization's public fee schedule.

Medicaid

The Organization is primarily reimbursed for medical, behavioral health and ancillary services provided to patients based on prospectively set rates for all FQHC services furnished to a Medicaid beneficiary on the same day when an FQHC furnishes a face-to-face or virtual visit. Certain other services, including dental services, provided to patients are reimbursed based on predetermined payment rates for each CPT code, which may be less than the Organization's public fee schedule. The Medicaid rate was legislatively mandated to be updated which resulted in an increase in the rate from $215 to $257 effective October 1, 2023.

Commercial Payers

The Organization has also entered into payment agreements with certain commercial insurance carriers, health maintenance organizations, and preferred provider organizations. Under these arrangements, the Organization is reimbursed for services based on contractually obligated payment rates for each CPT code, which may be less than the Organization's public fee schedule.

Patients

The Organization provides care to patients who meet certain criteria under its sliding fee discount program. The Organization estimates the costs associated with providing this care by calculating the ratio of total cost to total charges, and then multiplying that ratio by the gross uncompensated charges associated with providing care to patients eligible for the sliding fee discount program. The estimated cost of providing services to patients under the Organization's sliding fee discount program was approximately $588,341 and $688,027 for the years ended December 31, 2023 and 2022, respectively. The Organization is able to provide these services with a component of funds received through federal and state grants and local support.

For uninsured patients who do not qualify under the Organization's sliding fee discount program, the Organization bills the patient based on the Organization's standard rates for services provided. Patient balances are typically due within 30 days of billing; however, the Organization does, in certain instances, enter into payment agreements with patients that allow payments in excess of one year. For those cases, the financing component is not deemed to be significant to the contract.

340B Pharmacy Program Revenue

The Organization, as an FQHC, is eligible to participate in the 340B Drug Pricing Program. This program requires drug manufacturers to provide outpatient drugs to FQHCs and other covered entities at a reduced price. The Organization operates an in-house pharmacy and contracts with other local pharmacies under this program. The contract pharmacies dispense drugs to eligible patients of the Organization and bill Medicare and commercial insurances on behalf of the Organization. Reimbursement received by the contract pharmacies is remitted to the Organization, less dispensing and administrative fees. The Organization recognizes revenue in the amounts that reflect the consideration to which it expects to be entitled in exchange for the prescription.

Laws and regulations governing the Medicare, Medicaid and 340B programs are complex and subject to interpretation. Management believes that the Organization is in compliance with all laws and regulations. Compliance with such laws and regulations can be subject to future government review and interpretation, as well as significant regulatory action including fines, penalties and exclusion from the Medicare, Medicaid and 340B programs. Differences between amounts previously estimated and amounts subsequently determined to be recoverable or payable are included in patient service revenue in the year that such amounts become known.

Patient Accounts Receivable

Effective January 1, 2023, the Organization adopted Financial Accounting Standards Board Accounting Standards Update (ASU) 2016-13, *Financial Instruments—Credit Losses* (Topic 326): *Measurement of Credit Losses on Financial Instruments*, as amended, which modifies the measurement of expected claims and credit losses on certain financial instruments. Topic 326 requires measurement and recognition of expected versus incurred losses for financial assets held. Financial assets held by the Organization that are subject to ASU 2016-13 include patient accounts receivable. The adoption of this ASU did not have a material impact on the Organization's financial statements.

Patient accounts receivable are stated at the amount management expects to collect from outstanding balances and are reduced by explicit and implicit price concessions. Management estimates implicit price concessions based on its historical collection experience with patients. No additional valuation allowance is necessary for possible credit losses based on historical experience, current conditions, and reasonable and supportable forecasts.

Grant and Other Receivables, and Deferred Revenue

Grant and other receivables are stated at the amount management expects to collect from outstanding balances. All such amounts are considered collectible.

The Organization receives a significant amount of grants from the U.S. Department of Health and Human Services (HHS). For the years ended December 31, 2023 and 2022, grants from HHS (including both direct awards and awards passed through other organizations) represented approximately 69% and 73%, respectively, of the total of grants, contracts, and contributions.

Docusign Envelope ID: 614B197E-16E3-4B62-8360-2B5195029A91

A portion of the Organization's revenue is derived from cost-reimbursable grants, which are conditioned upon certain performance requirements and/or the incurrence of allowable qualifying expenses. Amounts received are recognized as revenue when the Organization has met the performance requirements or incurred expenditures in compliance with specific contract or grant provisions, as applicable. Amounts received prior to incurring qualifying expenditures are reported as deferred revenue.

The Organization has been awarded cost reimbursable grants from HHS that have not been recognized at December 31, 2023 because qualifying expenditures have not yet been incurred as follows:

	Amount	Available Through
American Rescue Plan Act Funding for Health Centers	$ 110,054	March 31, 2024
Health Center Program	1,320,236	April 30, 2024
FY 2023 Early Childhood Development	171,442	August 31, 2024
FY 2023 Bridge Access Programs	24,787	December 31, 2024

Inventory

Inventory consists primarily of pharmaceuticals and is stated at the lower of cost or retail. Cost is determined on the first-in, first-out method.

Investments and Assets Limited as to Use

Assets limited as to use include investments held for others and donor-restricted contributions to be held in perpetuity and earnings thereon, subject to the Organization's spending policy as further discussed in Note 10.

The Organization reports investments at fair value. Investments include donor endowment funds and assets held for long-term purposes. Accordingly, investments have been classified as non-current assets in the accompanying balance sheets regardless of maturity or liquidity. The Organization has established policies governing long-term investments, which are held within several investment accounts, based on the purposes for those investment accounts and their earnings.

Investment income and the change in fair value are included in the deficiency of revenue over expenses, unless otherwise stipulated by the donor or State Law.

Investments, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. As such, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the balance sheets.

Property and Equipment

Property and equipment are carried at cost less accumulated depreciation. Maintenance, repairs and minor renewals are expensed as incurred and renewals and betterments are capitalized. Provision for depreciation is computed using the straight-line method over the useful lives of the related assets. Property and equipment costing less than $5,000 is charged to expense upon purchase.

Right-of-Use Assets and Lease Liabilities

The Organization determines if an arrangement is a lease or contains a lease at inception of a contract. A contract is determined to be or contain a lease if the contract conveys the right to control the use of identified property, plant, or equipment (an identified asset) in exchange for consideration. The Organization determines these assets are leased because the Organization has the right to obtain substantially all of the economic benefit from and the right to direct the use of the identified asset. Assets in which the supplier or lessor has the practical ability and right to substitute alternative assets for the identified asset and would benefit economically from the exercise of its right to substitute the asset are not considered to be or contain a lease because the Organization determines it does not have the right to control and direct the use of the identified asset. The Organization's lease agreements do not contain any material residual value guarantees or material restrictive covenants.

In evaluating its contracts, the Organization separately identifies lease and non-lease components, such as maintenance costs, in calculating the right-of-use (ROU) assets and lease liabilities for its facility and equipment leases. The Organization has elected the practical expedient to not separate lease and non-lease components and classifies the contract as a lease if consideration in the contract allocated to the lease component is greater than the consideration allocated to the non-lease agreement.

Leases result in the recognition of ROU assets and lease liabilities on the balance sheets. ROU assets represent the right to use an underlying asset for the lease term, and lease liabilities represent the obligation to make lease payments arising from the lease, measured on a discounted basis. The Organization determines lease classification as operating or finance at the lease commencement date.

At lease inception, the lease liability is measured at the present value of the lease payments over the lease term. The ROU asset equals the lease liability adjusted for any initial direct costs, prepaid or deferred rent, and lease incentives. U.S. GAAP requires the use of the implicit rate in the lease when readily determinable. As the leases do not provide an implicit rate, the Organization elected the practical expedient to use the risk-free rate when the rate of the lease is not implicit in the lease agreement.

The lease term may include options to extend or to terminate the lease that the Organization is reasonably certain to exercise. Lease expense for operating leases is recognized on a straight-line basis over the lease term. For finance leases, ROU assets are amortized, with the expense included in depreciation and amorization, and interest costs are expended on the lease liabilities throughout the lease term.

Docusign Envelope ID: 614B197E-16E3-4B62-8360-2B5195029A91

The Organization has elected not to record leases with an initial term of 12 months or less on the balance sheet. Lease expense on such leases is recognized on a straight-line basis over the lease term.

Patient Deposits

Patient deposits primarily consist of payments made by patients in advance of significant dental work based on quotes for the work to be performed.

Contributions

Unconditional promises to give cash and other assets are reported at fair value at the date the promise is received, which is then treated as cost. The gifts are reported as net assets with donor restrictions if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, net assets with donor restrictions are reclassified as net assets without donor restrictions and reported in the statements of operations as net assets released from restriction. Pledges receivable are due in 2024.

The Organization reports gifts of property and equipment as support without donor restrictions unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as support with donor restrictions. Absent explicit donor stipulations about how long those long-lived assets must be maintained, the Organization reports expirations of donor restrictions when the donated or acquired long-lived assets are placed in service.

Deficiency of Revenue Over Expenses

The statements of operations reflect the deficiency of revenue over expenses. Changes in net assets without donor restrictions which are excluded from the deficiency of revenue over expenses include contributions of long-lived assets (including assets acquired using grants and contributions which, by donor restriction, were to be used for the purposes of acquiring such assets) and net assets released from restriction for capital acquisition.

Contribution Expense

In July 2023, the substance abuse recovery and treatment program, named SOS Recovery Community Organization (SOSRCO) that the Organization operated as a program became an independent 501(c)(3) non-profit organization. Operating leases and grant contracts associated with SOSRCO were transferred from the Organization. Additionally, the Organization transferred leasehold improvements of $196,782 and made a cash contribution of $152,189 to SOSRCO. The contributed assets are reported as contribution expense on the accompanying statements of operations.

Subsequent Events

For purposes of the preparation of these financial statements, management has considered transactions or events occurring through May 20, 2024, which is the date the financial statements were available to be issued. Management has not evaluated subsequent events after that date for inclusion in the financial statements.

2. Availability and Liquidity of Financial Assets

The Organization regularly monitors liquidity required to meet its operating needs and other contractual commitments. The Organization has various sources of liquidity at its disposal, including cash and cash equivalents and investments. The Organization had average days cash and cash equivalents on hand (based on normal expenditures) of 113 and 124 at December 31, 2023 and 2022, respectively.

Fair Value of Financial Instruments

U.S. GAAP defines fair value as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants and also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

U.S. GAAP distinguishes three levels of inputs that may be utilized when measuring fair value:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect an entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The following table sets forth by level, within the fair value hierarchy, the Organization's investments at fair value at December 31:

	2023			
	Level 1	Level 2	Level 3	Total

10. Endowment

Interpretation of Relevant Law

The Organization has interpreted the Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds, absent explicit donor stipulations to the contrary. As a result of this interpretation, the Organization classifies as a donor-restricted endowment (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent donor-restricted endowment gifts, and (c) accumulations to the donor-restricted endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund, if any, is classified as net assets with donor restrictions until those amounts are appropriated for expenditure in a manner consistent with the standard of prudence prescribed by UPMIFA.

In accordance with UPMIFA, the Organization considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

(1) The duration and preservation of the fund;
(2) The purposes of the Organization and the donor-restricted endowment fund;
(3) General economic conditions;
(4) The possible effect of inflation and deflation;
(5) The expected total return from income and the appreciation of investments;
(6) Other resources of the Organization; and
(7) The investment policies of the Organization.

Docusign Envelope ID: 614B197E-16E3-4B62-8360-2B5195029A91

Spending Policy

The Organization has a policy of appropriating for expenditure an amount equal to 5% of the endowment fund's average fair market value over the prior 20 quarters. The earnings on the endowment fund are to be used for operations.

Funds with Deficiencies

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor requires the Organization to retain as a fund of perpetual duration (underwater). In the event the endowment becomes underwater, it is the Organization's policy to not appropriate expenditures from the endowment assets until the endowment is no longer underwater. There were no such deficiencies as of December 31, 2023 and 2022.

Return Objectives and Risk Parameters

The Organization has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that the Organization must hold in perpetuity. Under this policy, as approved by the Board of Directors, the endowment assets are invested in a manner that is intended to produce results that exceed or meet designated benchmarks while incurring a reasonable and prudent level of investment risk.

Strategies Employed for Achieving Objectives

To satisfy its long-term rate-of-return objectives, the Organization relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Organization targets a diversified asset allocation that places a balanced emphasis on equity-based and income-based investments to achieve its long-term return objectives within prudent risk constraints.

Endowment Net Asset Composition by Type of Fund

The Organization's endowment consists of assets with donor restrictions only and had the following related activities at December 31:

	2023	2022
Endowments, beginning of year	$ 1,166,748	$ 1,456,481

11. Functional Expenses

Given the Organization is a service organization, expenses are allocated between healthcare, administrative and support and fundraising services based on the percentage of direct care wages to total wages, with the exception of program supplies which are 100% healthcare in nature.

Expenses related to providing these services are as follows:

12. Retirement Plans

The Organization has a defined contribution plan under IRC Section 401(k) that covers substantially all employees. For the years ended December 31, 2023 and 2022, the Organization contributed $245,423 and $260,713, respectively, to the plan.

The Organization has established an unqualified deferred compensation plan under IRC Section 457(b) for certain key employees of the Organization. The Organization contributed $6,000 to the plan during the year ended December 31, 2023. The Organization did not contribute to the plan during the year ended December 31, 2022. The balance of the deferred compensation plan amounted to $73,482 and $59,631 at December 31, 2023 and 2022, respectively.

13. Medical Malpractice Insurance

The Organization is protected from medical malpractice risk as an FQHC under the Federal Tort Claims Act (FTCA). The Organization has additional medical malpractice insurance, on a claims-made basis, for coverage outside the scope of the protection of the FTCA. As of December 31, 2023, there were no known malpractice claims outstanding which, in the opinion of management, will be settled for amounts in excess of both FTCA and additional medical malpractice insurance coverage, nor are there any unasserted claims or incidents which require loss accrual. The Organization intends to renew the additional medical malpractice insurance coverage on a claims-made basis and anticipates that such coverage will be available.

14. Food Vouchers

The Organization acts as a conduit for the State of New Hampshire's Special Supplemental Food Program for Women, Infants and Children (WIC). The value of food vouchers distributed by the Organization was $1,425,107 and $1,310,202 for the years ended December 31, 2023 and 2022, respectively. These amounts are not included in the accompanying financial statements as they are not part of the contract the Organization has with the State of New Hampshire for the WIC program.

15. Litigation

From time-to-time, certain complaints are filed against the Organization in the ordinary course of business. Management vigorously defends the Organization's actions in those cases and utilizes insurance to cover costs over $50,000 per case. In the opinion of management, there are no matters that will materially affect the Organization's financial statements.

Notes to Schedule of Expenditures of Federal Awards

Year Ended December 31, 2023

1. Summary of Significant Accounting Policies

Expenditures reported on the schedule of expenditures of federal awards (the Schedule) are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), wherein certain types of expenditures are not allowable or are limited as to reimbursement.

2. De Minimis Indirect Cost Rate

Greater Seacoast Community Health (the Organization) has elected not to use the 10% de minimis indirect cost rate allowed under the Uniform Guidance.

3. Basis of Presentation

The Schedule includes the federal grant activity of the Organization. The information in this Schedule is presented in accordance with the requirements of the Uniform Guidance. Because the Schedule presents only a selected portion of the operations of the Organization, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the Organization.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Board of Directors
Greater Seacoast Community Health

We have audited, in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Greater Seacoast Community Health (the Organization), which comprise the balance sheet as of December 31, 2023, and the related statements of operations, changes in net assets and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated May 20, 2024.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Organization's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control. Accordingly, we do not express an opinion on the effectiveness of the Organization's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Organization's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR THE MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Board of Directors
Greater Seacoast Community Health

Report on Compliance for the Major Federal Program

Opinion on the Major Federal Program

We have audited Greater Seacoast Community Health's (the Organization) compliance with the types of compliance requirements identified as subject to audit in the Office of Management and Budget *Compliance Supplement* that could have a direct and material effect on its major federal program for the year ended December 31, 2023. The Organization's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the Organization complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended December 31, 2023.

Basis for Opinion on the Major Federal Program

We conducted our audit of compliance in accordance with U.S. generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the Organization and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for the major federal program. Our audit does not provide a legal determination of the Organization's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the Organization's federal programs.

Docusign Envelope ID: 614B197E-16E3-4B62-8360-2B5195029A91

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Organization's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with U.S. generally accepted auditing standards, *Government Auditing Standards* and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the Organization's compliance with the requirements of the major federal program as a whole.

In performing an audit in accordance with U.S. generally accepted auditing standards, *Government Auditing Standards* and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the Organization's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the Organization's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Board of Directors

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

EXPLANATION

The purpose of this request is for the Contractors to ensure the continuity of Comprehensive Family Support Services (CFSS) by providing home visiting services statewide to pregnant and parenting caregivers and families with children under 18 years of age. Home visiting services provide access to a variety of parenting, economic, and public health supports based on individuals' needs.

Docusign Envelope ID: 614B197E-16E3-4B62-8360-2B5195029A91

Contractors will expand services by designating staff as "Newborn Navigators" within the CFSS program. Newborn Navigators will focus on outreach and engagement of families with newborns through a one-time, postpartum home visit. This service will allow the Contractors to reach more families and increase newborn families' connections to community-based resources that support maternal, family, and child health outcomes, as well as reduce the risk of child maltreatment.

The CFSS home visiting program provides preventative services at no cost to families, including household management, child development and maternal depression screenings, case management, and resource referrals such as nutrition support, childcare, and economic mobility support.

Approximately 1,250 families will be served each year. As a result, an average of 2,242 children and 1,592 adults will engage in services annually.

The Department will monitor services by:

- Reviewing the activities and outcome measures identified in the quarterly reports submitted by the Contractor.
- Quarterly meetings with the Contractor to ensure continued compliance with contractual requirements.
- Reviewing Contractor expenditures and conducting data quality assurance activities every month.
- Reviewing consumer satisfaction data, which must indicate an 80% favorable rating at minimum.
- Monitoring long-term program outcomes, including increasing outreach to high-risk populations, increasing the share of referred families who enroll in services, and increasing service completion rates.

As referenced in Exhibit A, Revisions to Standard Contract Provisions, of the original agreements, the parties have the option to extend the agreements for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and Governor and Council approval. The Department is exercising its option to renew services for two (2) years of the two (2) years available.

Should the Governor and Council not authorize this request, the Department will have limited capacity to provide community-based home-visiting services to children and families statewide which help prevent child maltreatment and promote child and family wellbeing.

In the event that the Federal Funds become no longer available, additional General Funds will not be requested to support this program.

Respectfully submitted,

Lori A. Weaver
Commissioner
