REQUESTED ACTION

Authorize the Department of Military Affairs and Veterans Services to exercise its first contract renewal option with The H.L. Turner Group Inc. (VC #156919), Concord, NH, for professional architectural services for the planning and design of various projects as necessary and required by the Department by increasing the price limitation by \$500,000.00 from \$1,000,000.00 to \$1,500,000.00 and extending the completion date from June 30, 2025, to June 30, 2026, effective July 1, 2025, or upon the date of Governor and Executive Council approval, whichever is later. The original contract was approved by Governor and Council on June 28, 2023, item #101.

Projects completed under this contract will be funded from accounts specific to each particular project. The majority of projects requiring this type of work are maintenance/repair and Capital Budget projects.

EXPLANATION

The HL Turner Group River has performed well during this contract period, meeting all performance goals and project milestones within the scope of services of this contract. The HL Turner Group River has provided eight designs and two studies over the initial two-year contractual period. We are hoping to continue their contractual arrangement that would allow us to move forward with several needed projects while maintaining the same design team, reducing redesign and reeducation efforts that a new design team would require. As federal and state funds become available, we will also need proposals for several new projects within the next one-year contractual period. Previous and future projects are spread across our Concord, Pembroke, and Manchester locations, and a couple of statewide projects.

The Department seeks to retain The H.L. Turner Group Inc. to expedite its project workload and provide appropriate technical expertise as required for future projects. This contract will enable the Department to respond quickly to unscheduled project requests and possible emergencies regarding architectural and

building issues. The decision as to which projects will be assigned will be made on a case-by-case basis, depending on the particular expertise required and the vendor's current workload.

A Request for Qualifications was advertised on the Statewide Bids and Proposals public website for a two-year contract term with the option for two one-year renewal terms to be negotiated and mutually agreed upon by the Department and the vendor. Five vendors submitted responses, and a short list was drafted in accordance with RSA 21-1:22. The Department then negotiated with the four most qualified vendors to determine fair and reasonable hourly rates of compensation.

Federal Funds may be used to pay for these contract services and are provided to the State of New Hampshire, Department of Military Affairs and Veterans Services by the National Guard Bureau pursuant to a Federal-State Master Cooperative Agreement for the mutual support of the New Hampshire Army National Guard. Approving this contract ensures the Department is able to maintain its daily operations, modernize its facilities, and rapidly respond to unforeseen emergencies.

This contract has been approved for form, substance, and execution by the Attorney General's Office.

Projects shall be executed in accordance with the following project execution methodology:

3.1. Scope of Work

The Department shall determine project needs, develop a Scope of Work, or collaborate with the Contractor to develop a Scope of Work. The Scope of Work shall include, at a minimum, general project information, tasks to be completed, deliverables to be provided, and a timetable for completion.

3.2. Proposal and Project Fee Estimate

If determined necessary by the Department, a request may be made of the Contractor to provide a short proposal and project fee estimate.

3.3. Cost Proposal

The Contractor shall prepare a Cost Proposal. Cost Proposals will be based on the labor and materials rates (as well as overhead and profit costs if broken out separately) in accordance with the approved rates established in Section 4 of Exhibit C, Price and Terms of Payment.

3.4. Department Evaluation of Cost Proposal

The Department will technically evaluate the Cost Proposal and determine its reasonableness. If the Cost Proposal is determined to be reasonable, the Department will issue a Notice to Proceed memorandum. If the Cost Proposal is not determined to be reasonable, the Department will request a justified modification from the Contractor. Once an agreed upon Cost Proposal is established, the Department will issue a Notice to Proceed memorandum. The Notice to Proceed will include copies of the approved Scope of Work and Cost Proposal for the respective project.

3.5. Project Kick-Off Meeting

The Department and the Contractor shall attend a project kick-off meeting to clarify the manner of conducting the project, to review a proposed project schedule, a proposed outline of the project tasks to be executed, and confirmation of expected deliverables.

3.6. Status Reports

The Department may request monthly status reports for any project that exceeds one month in length, and/or between deliverables for specific project tasks. Status reports shall include the specific project tasks that were completed, funds spent to date, a general outline of work to be completed in the coming month, and any issues that need to be addressed.

3.7. Contractor Invoices

The Contractor will submit invoices as specific project tasks and deliverables are completed and delivered to the Department's Project Manager. Invoices for project costs beyond the approved Cost Proposal will not be accepted without prior approval from the State Business Office and a written notice of the cost increase approval issued by the Project Manager to the Contractor. Invoicing and payment are further outlined in Exhibit C, Price and Terms of Payment.

3.8. Department Project Review

The Contractor shall notify the Project Manager once it accomplishes all project tasks in accordance with the project Scope of Work. The Project Manager shall review the work performed to ensure all deliverables were provided. If the Project Manager determines that all deliverables have been met to the Department's satisfaction, the project shall be considered completed and final payment will be issued to the Contractor in accordance with Exhibit C, Price and Terms of Payment.

**EXHIBIT D
ENVIRONMENTAL MANAGEMENT SYSTEM NOTICE**

SUBJECT: Professional Architectural Services

SECTION 1: ENVIRONMENTAL MANAGEMENT SYSTEM

The New Hampshire Army National Guard (NHARNG) has implemented an environmental Management System (eMS), in accordance with Executive Orders 13423 and 13514, to guide its operations in an environmentally sound manner. Under its eMS, the NHARNG has identified significant activities, products or services that can interact with the environment (known as aspects) and potential environmental impacts from its operations. The significant environmental aspects are listed below:

- Energy Use
- Vehicle Travel (fleet) Between Workstations

These significant aspects and their associated impacts are closely monitored by the NHARNG. Further, the NHARNG is tracking the success of the implementation plans established to achieve the NHARNG's objectives.

For the purposes of this notice, applicability is limited to those actions that the contractor or subsequent employees are likely to perform on NHARNG properties.

The primary purpose of this notice is to communicate the three basic tenets of the NHARNG's eMS policy:

- eMS (ISO 14001) is the management system the NHARNG uses to implement the Adjutant General's Environmental Policy;
- The eMS Environmental Policy commits the NHARNG to comply with environmental laws and regulations, to prevent pollution and to promote continual improvement of the eMS; and
- Contractors are responsible for knowing the environmental impacts of their services and must understand the management requirements for any activities that could affect any of NHARNG's significant aspects, or that could result in potential environmental impacts.

SECTION 2: ENERGY USE

The NHARNG is committed to reducing its consumption of energy. Reducing energy consumption may be realized by turning off electrical equipment when not in use, reducing heating temperatures and/or increasing cooling temperatures, using alternative fuels (if available, such as E85 or biodiesel); etc. Contracts that include the use or installation of equipment will seek the most energy efficient technology within the scope of the contract.

SECTION 3: VEHICLE TRAVEL (FLEET) BETWEEN WORKSTATIONS

The NHARNG is committed to preventing pollution through monitoring of Federal GSA Fleet vehicle usage. Usage of fleet vehicles by contractors is prohibited.

SECTION 4: CONTACT INFORMATION

The Department of Military Affairs and Veterans Services Environmental staff can be contacted via telephone at (603) 227-1439.

SECTION 5: RESOURCES PROVIDED UPON CONTRACTOR REQUEST

- NHARNG Integrated Cultural Resources Management Plan (ICRMP)
- NHNG Green Procurement Plan
