As needs develop, the STATE will issue specific Task Orders to the CONTRACTOR. A Task Order is an individually funded order with its own unique scope of work issued against the basic contract services, terms and conditions, to carry out a specific project for the STATE. These Task Orders may be initiated by a phone call, email, or a Request for Proposal (RFP) letter that may include a detailed description of the project or elements of work, an outline of the services required, responsibilities of the parties, materials to be supplied by the STATE, specified accuracy requirements, and other information necessary to complete the work for the Task Order. The CONTRACTOR shall then submit to the STATE for approval a scope of work and fee proposal and a tentative work schedule and completion date for each Task Order assigned. The STATE will review the CONTRACTOR'S proposal and schedule negotiations, if necessary, to clarify the proposed scope of work, the number of work hours needed, and any other associated proposed costs in order to establish the final not-to-exceed or lump-sum amount for the Task Order. Upon approval of the CONTRACTOR'S proposal by the STATE and FHWA (if applicable), the STATE will issue a Task Order Authorization to Proceed Letter. The CONTRACTOR shall sign the Authorization to Proceed Letter and return it to the STATE. A conference may be required to turn over a Task Order to the CONTRACTOR. Costs associated with the CONTRACTOR'S preparation of a scope of work and fee for a Task Order are non-reimbursable.

If revisions to a Task Order scope of work, and/or the fee summary or completion date included in the Task Order Authorization to Proceed is/are required, it shall be documented in writing by a Bureau-level amendment. The amendment will be filed with the Authorization to Proceed in the AGREEMENT.

Submission of Reports, Plans and Documents

Each submission shall be supplemented with such drawings, illustrations and descriptive matter as are necessary to facilitate a comprehensive review of proposed concepts. Any and all CAD/D-related work

during the course of this project shall be performed in conformance with the DEPARTMENT'S CAD/D Procedures and Requirements in effect at the time of execution of this AGREEMENT, which will be coordinated on each assignment.

Deliverables

All work and supporting documents under this AGREEMENT shall be developed by the CONTRACTOR and delivered to the STATE according to the following formats:

Electronic Transfer of Data

The STATE requires the following to ensure compatibility with software used by the STATE and to ensure the efficient and timely exchange of computer files between the STATE and the CONTRACTOR. All files submitted must be fully compatible with the formats listed in this document without any conversion or editing by the STATE. Any files requiring conversion and/or editing by the STATE will not be accepted. All files shall be virus free. All files shall use the STATE'S file naming convention.

Word Processing, Spreadsheet, and Database Files

All relevant files shall be provided in a format fully compatible, as appropriate, with the following:

Word Processing:	Microsoft Word 2016 or NHDOT compatible version

Databases:	Microsoft Access 2016 or NHDOT compatible version

Geographic Information System (GIS)

All GIS shapefiles shall be fully compatible with Arc GIS/Arc Map Version 10.3.1 (the version being used by the DEPARTMENT).

These specifications will be updated as necessary to reflect changes in STATE software such as adding new software or updating to new versions of existing software. In such instances, the CONTRACTOR will be promptly notified.

Upon completion of the AGREEMENT, the CONTRACTOR shall turn over all documentation, including, but not limited to, all reports, test results, drawings, plans, and all financial supporting documentation in the formats described above.
