Her Excellency, Governor Kelly A. Ayotte
and the Honorable Council
State House
Concord, New Hampshire 03301

REQUESTED ACTION

Authorize the Department of Health and Human Services, Office of Health Equity , to enter into a **Sole Source** amendment to an existing contract with Ascentria Community Services, Inc. (VC#222201), Concord, NH to enable continued critical supports to the Office of Refugee Resettlement eligible individuals, by increasing the price limitation by \$517,727 from \$770,786 to \$1,288,513 with no change to the contract completion date of September 30, 2026, effective July 1, 2025, upon Governor and Council approval. 100% Federal Funds.

The original contract was approved by Governor and Council on June 26, 2024, item #62.

Funds are anticipated to be available in the following accounts for State Fiscal Year 2026 and 2027, upon the availability and continued appropriation of funds in the future operating budget, with the authority to adjust budget line items within the price limitation and encumbrances between state fiscal years through the Budget Office, if needed and justified.

See attached fiscal details.

EXPLANATION

This request is **Sole Source** because MOP 150 requires all amendments to agreements originally approved as sole source to be identified as sole source. The Contractor is one of four qualified providers that has the necessary cultural and linguistic expertise, comprehensive client information, and established client relationships to serve the eligible individuals.

The purpose of this request is to continue essential employment, health, school and other supportive services to Office of Refugee Resettlement eligible individuals resettled in the State for up to five (5) years from the date of eligibility, including targeted services for Afghans resettled through Operation Allies Welcome, through the US Department of Homeland Security and Ukrainian humanitarian parolees displaced from the Russia-Ukraine war.

Approximately 300 Office of Refugee Resettlement eligible individuals will be served annually.

Supportive services, including case management, will be provided to individuals from all ORR-eligible populations. The services are needed to help individuals achieve economic self-sufficiency, well-being, and successful integration in the United States. The support encompasses the four key areas of (1) Health and Behavioral health (promoting health through education, care coordination, and wellness groups); (2) Employment and Economic/Social Stability (providing

employment and job and advancement retention services that lead to sustainable forms of income and economic mobility); (3) Social Adjustment and Integration (facilitating connections between individuals and their communities and participation in social and economic systems); and (4) Children and Youth (promoting access to child care; providing support to help children succeed in formal schooling, strengthen their academic performance, and aid in the social adjustment of youth and their families).

The Department will monitor services by reviewing required programmatic reports, performing in-person agency monitoring and conducting file reviews to ensure the Contractor provides all required services.

Should the Governor and Council not authorize this request the Office of Refugee Resettlement eligible individuals resettled in the State will not have access to foundational case management and economic support services that impact their ability to become self-sufficient and achieve sustained social and economic wellbeing.

Area served: Statewide.

INDEPENDENT AUDITORS' REPORT

Board of Directors
Ascentria Community Services, Inc. and Subsidiary
Worcester, Massachusetts

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of Ascentria Community Services, Inc. and Subsidiary (the Organizations), which comprise the consolidated statements of financial position as of June 30, 2024 and 2023, and the related consolidated statements of activities, changes in net assets, functional expenses, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Ascentria Community Services, Inc. and Subsidiary, as of June 30, 2024 and 2023, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Ascentria Community Services, Inc. and Subsidiary and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Ascentria Community Services, Inc. and Subsidiary's ability to continue as a going concern for one year after the date the consolidated financial statements are available to be issued.

Board of Directors
Ascentria Community Services, Inc. and Subsidiary

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the consolidated financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Ascentria Community Services, Inc. and Subsidiary's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Ascentria Community Services, Inc. and Subsidiary's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

**NOTE 1 ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
(CONTINUED)**

Basis of Consolidation

The accompanying consolidated financial statements present the consolidated financial position, results of operations, changes in net assets, cash flows, and functional expenses of the Organizations. Material intercompany transactions and balances have been eliminated in consolidation.

Method of Accounting

The consolidated financial statements of the Organizations have been prepared on the accrual method of accounting. Accordingly, assets are recorded when the Organizations obtain the rights of ownership or is entitled to claims for receipt and liabilities are recorded when the obligation is incurred.

Cash and Cash Equivalents

The Organizations consider all short-term debt securities purchased with an original maturity of three months or less to be cash equivalents.

Accounts and Contracts Receivable

Accounts and contracts receivable are recorded net of an allowance of expected losses. The allowance is estimated from historical performance and projections of trends. Credit is extended to customers and collateral is not required. When the accounts become past due, historically, the Organizations have not charged interest to these accounts.

Changes in the allowance for credit losses for the years ended June 30 were as follows:

	2024	2023
Balance - Beginning of Year	\$ 676,006	\$ 412,456
Provision for Credit Losses	449,685	289,787
Amounts Written Off	(232,422)	(26,237)
Balance - End of Year	\$ 893,269	\$ 676,006

Inventory

Vehicles identified for the purpose of being delivered to program participants are valued based on the average contract reimbursement rate for the reporting period which approximates the lower of cost or net realized value.

Program vehicles expected to be sold at retail are recorded based on trade-in value.

Vehicles expected to be sold at wholesale are valued using the average sales proceeds for all vehicles sold during the reporting period.

Vehicles are recorded as donated vehicles or donated vehicles – wholesale when the vehicle is received.

Property and Equipment

Property and equipment are recorded at cost. Assets with an estimated useful life of more than one year and a historical cost in excess of \$2,500 are capitalized. The Organizations capitalize acquisitions and improvements, while expenditures for maintenance and repairs that do not extend the useful lives of the assets are charged to operations. Donated property and equipment are recorded at its fair market value at date of donation. Gifts of long-lived assets are reported as net assets without donor restriction support unless donor stipulations specify how the assets are to be used, and gifts of cash or other assets that must be used to acquire long-lived assets are reported as restricted support. Absent explicit donor stipulation about how long those assets must be maintained, expiration of donor restrictions are reported when the donated or acquired long-lived assets are placed into service. Depreciation is computed using the straight-line method over the estimated useful life of the assets.

Related Party Loans Receivable

The Organizations' loan portfolio is comprised on unsecured related party loans receivable that are noninterest-bearing and have no fixed repayment terms, as detailed in Note 3, and is considered a single portfolio class. Related party loans receivable are recorded net of an allowance for expected loan losses (allowance). The Organizations establish an allowance as an estimate of inherent risk in the Organizations' loan portfolio. Although management believes the allowance to be adequate, ultimate losses may vary from its estimates.

The allowance is established through a provision for loan losses that is charged to expense. Loan losses are charged off against the allowance when the Organizations determine the loan balance to be uncollectible. Proceeds received on previously charged off amounts are recorded as recovery in the year of receipt. During the year ended June 30, 2024, all related party loans receivable were forgiven and recognized as an equity transfer in the statement of activities.

The Organizations review the adequacy of the allowance, including consideration of the relevant risks in the loan portfolio, current economic conditions, and other factors periodically. The Organizations internally monitor related party borrowers to assess the risk of nonperformance. The Organizations determine that changes are warranted based on those reviews, the allowance is adjusted.

All of the Organization's Beneficial Interest in Net Assets of Related Parties are measured at Level 3, as outlined in Note 11.

Some donor-imposed restrictions are temporary in nature, such as those that will be met either by actions of the Organizations and/or the passage of time. Other donor-imposed restrictions are perpetual in nature when the donor stipulates that resources be maintained in perpetuity. Donor-imposed restrictions are released when a restriction expires, that is, when the stipulated time has elapsed, when the stipulated purpose for which the resource was restricted has been fulfilled, or both. Net assets with donor restrictions consist of \$2,059,236 and \$2,128,958 for beneficial interest in net assets of related party and \$90,825 and \$90,825 other program restrictions for the years ended June 30, 2024 and 2023, respectively. Accordingly, the Organizations are subject to the regulations and reporting requirements of the applicable governmental and grantor agencies. Amounts received are recognized as earned and are reported as revenue when the Organizations have incurred expenditures in compliance with specific contract or grant provisions. As of June 30, 2024 and 2023, there was \$15,231,614 and \$10,926,595, respectively, of conditional contributions that have yet to be recognized in the consolidated financial statements.

Program Service Revenue

To determine revenue recognition for the arrangements that the Organizations considers within the scope of Topic 606, the Organizations performs the following five steps: (1) identify the contract(s) with a customer, (2) identify the performance obligation(s) in the contract, (3) determine the transaction price, (4) allocate the transaction price to the performance obligation(s) in the contract, and (5) recognize revenue when the Organizations satisfy a performance obligation. Program service revenue is from private pay services, translation services, and interpretation services. Program service revenue is recognized as customer services are provided over time. Payments received in advance of services are reported as deferred revenue.

The Organization's accounts receivables related to program service revenue under Topic 606 that are included in the accounts and contracts receivable on the statement of financial position were as follows:

	2024	2023
Beginning Balance, Accounts Receivables	\$ 793,200	\$ 1,384,711
Ending Balance, Accounts Receivables	634,507	793,200

There were no contract liabilities related to exchange transactions as of June 30, 2024 and 2023.

Advertising Costs

Advertising costs are expensed as incurred. Advertising costs paid for by the Organizations amounted to \$205,614 and \$188,312 for the years ended June 30, 2024 and 2023, respectively. Contributions of advertising are recorded at the estimated fair value on the date of the contribution. The Organizations received contributions of advertising estimated to have a value of \$50,863 and \$47,006 for the years ended June 30, 2024 and 2023, respectively.

Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

ASCENTRIA COMMUNITY SERVICES, INC. AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2024 AND 2023

NOTE 1 ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
(CONTINUED)

Functional Allocation of Expenses

The cost of providing the various programs and services are summarized on a functional basis. Costs are generally identified as to program site and are then allocated between programs and supporting services that benefited based on total direct expenses. Salaries and benefits are allocated on the basis of time and effort. The expenses that are allocated are the portions of depreciation and interest expense that are not directly attributable to specific programs or services. These expenses are allocated on a square footage basis.

Income Taxes

The Organizations are nonprofit corporations as described in Section 501(c)(3) of the IRC and are exempt from federal and state income taxes on related income pursuant to Section 501(a) of the IRC.

Fair Value Measurements

In accordance with professional standards, assets and liabilities measured and recorded at fair value are required to be categorized into a three-level hierarchy based on the priority of the inputs to the valuation technique used to determine fair value.

The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used in the determination of the fair value measurement fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement. Assets and liabilities measured and recorded at fair value by the Organizations are categorized as follows:

Level 1 – Inputs that utilize quoted prices (unadjusted) in active markets for identical assets or liabilities that an entity has the ability to access.

Level 2 – Inputs that include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument. Fair values for these instruments are estimated using pricing models, quoted prices of securities with similar characteristics, or discounted cash flows.

Level 3 – Inputs that are unobservable inputs for the asset or liability, which are typically based on an entity's own assumptions, as there is little, if any, related market activity.

Fair Value Measurements (Continued)

In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in valuation methodology used at June 30, 2024 and 2023.

Leases

The Organizations determine if an arrangement is a lease at inception. Operating leases are included in right-of-use (ROU) assets – operating and lease liability – operating in the consolidated statement of financial position. Finance leases are included in right-of-use (ROU) asset financing and lease liability – financing on our consolidated statement of financial position.

ROU assets represent the Organizations' right to use an underlying asset for the lease term, and lease liabilities represent the Organizations' obligation to make lease payments arising from the lease. ROU assets and liabilities are recognized at commencement date based on the present value of lease payments over the lease term using an appropriate risk-free discount rate.

The individual lease contracts do not provide information about the discount rate implicit in the lease. Therefore, the Organizations have elected to use a risk-free discount rate (applicable U.S. Department of Treasury risk-free treasury rate) determined using a period comparable with that of the lease term for computing the present value of lease liabilities. Lease terms may include options to extend or terminate the lease when it is reasonably certain that the Organizations will exercise that option.

Lease costs for operating lease payments are recognized on a straight-line basis over the lease term. The Organizations have elected not to separate nonlease components from lease components and instead accounts for each separate lease component and the nonlease component as a single lease component. The Organizations recognize payments for short-term leases with a lease term of 12 months or less as expense as incurred.

Adoption of New Accounting Standard

The Organizations have adopted Accounting Standards Update (ASU) No. 2016-13, *Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments*, as amended, which modifies the measurement of unexpected credit losses. The Organizations adopted this new guidance utilizing the modified retrospective transition method. The adoption of this Standard did not have a material impact on the Organization's financial statements but did change how the allowance for credit losses is determined.

NOTE 10. CONTINGENCIES

A significant portion of the Organizations' net revenues and accounts receivable are derived from services reimbursable under Medicaid programs. There are numerous health care reform proposals being considered on federal and state levels. The Organizations cannot predict at this time whether any of these proposals will be adopted or, if adopted and implemented, what effect such proposals would have on the Organizations.

A significant portion of the Organizations' revenues are derived from services reimbursable under Medicaid programs. The base year costs utilized in calculating the Medicaid rates are subject to audit which could result in a retroactive rate adjustment for all years in which that cost base was used in calculating the rates. It is not possible at this time to determine whether the Organizations will be audited or if a retroactive rate adjustment would result.

Effective June 2022, the Organizations and subsidiaries entered into a line of credit agreement and a term note payable with a financial institute and paid off the previous line of credit balance.

The term note payable has a balance of \$1,295,000 and resides on the books of a related party as of June 30, 2024. All borrowers are jointly and severally liable for payment of the debt which is due June 30, 2027. The note is secured by certain assets, payable in monthly payments of principal plus interest through maturity, commencing on July 29, 2022. Interest rate is fixed at 5.06% annually. The line of credit has a limit of \$1,900,000 with a variable rate of interest of the Wall Street Journal published U.S. Prime Rate, with a floor of 3.25%. The rate was 8.50% at June 30, 2024. The line is collateralized by various business assets. There was no balance on the line of credit at June 30, 2024. The agreements include a covenant to maintain a debt service coverage ratio, as defined in the agreement, of at least 1.10. The Organization believes that it has met the required ratio at June 30, 2024.

The Organizations are subject to legal proceedings and claims that arise in the ordinary course of business. In the opinion of management, the ultimate resolution of these matters is not expected to have a material adverse effect on the Organization's financial position, results of operations or liquidity.

NOTE 11 FAIR VALUE MEASUREMENT

The Organizations use fair value measurements to record fair value adjustments to certain assets and liabilities to determine fair value disclosures. For additional information on how the Organizations measure fair value refer to Note 1 – Organization and Summary of Significant Accounting Policies.

NOTE 11 FAIR VALUE MEASUREMENT (CONTINUED)

The following tables present the Organizations' fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis as of June 30:

		2024			
		Total	Level 1	Level 2	Level 3
Beneficial Interest in Net					
Assets of Related Party:		\$ 2,059,236	\$ -	\$ -	\$ 2,059,236

		Total	Level 1	Level 2	Level 3
Beneficial Interest in Net					
Assets of Related Party:		\$ 2,128,958	\$ -	\$ -	\$ 2,128,958
Total		\$ 2,128,958	\$ -	\$ -	\$ 2,128,958

The following table provides a summary of changes in fair value of the Organizations' Level 3 financial assets for the years ended June 30:

		2024	2023
Contributions		\$ 264,600	\$ 346,574
Payments		(334,322)	(894,908)

Since these funds are held by a third party that pools the Organizations' interest with other related organization's assets, management has determined that the inputs are unobservable and therefore, valued using a Level 3 methodology. The principal valuation technique is the fair value of the underlying investments and the unobservable input is the term of distributions.

NOTE 12 AVAILABLE RESOURCES AND LIQUIDITY

The Organizations regularly monitors liquidity required to meet its operating needs and other commitments. For purposes of analyzing resources available to meet general expenditures over a 12-month period, the Organizations consider all expenditures related to its ongoing program activities as well as the services undertaken to support those activities to be general expenditures.

See attached fiscal details.

EXPLANATION

This request is **Sole Source** because the Contractor is one of four qualified providers that has an agreement with the United States Department of State to resettle families via the U.S. Refugee Program and has access to refugee demographic information necessary to perform these services. Through the federal contract, the Contractor develops and implements an integration plan for each refugee arriving in New Hampshire. The Contractor also possesses the cultural and linguistic expertise needed to serve the various refugee populations. The Department will present contracts with the other three federally approved providers as separate requests.

The purpose of this request is to provide healthcare and supportive services to Office of Refugee Resettlement eligible individuals resettled in the State for up to five (5) years from the date of arrival, including targeted services for Afghans resettled through Operation Allies Welcome, through the US Department of Homeland Security and Ukrainian humanitarian parolees displaced from the Russia-Ukraine War. The Contractor will provide the following services:

- Coordination Related to the Domestic Medical Exam – provides coordination of a comprehensive medical exam for new arrivals, including laboratory work, tuberculosis testing, immunizations, and a physical examination.

His Excellency, Governor Christopher T. Sununu
and the Honorable Council

- Afghan Support Services - provides support services to eligible Afghan individuals, including employment assistance, case management, skills training, English as a second language, assistance in applying for Employment Authorization Documents, housing and food assistance.

Approximately 500 Office of Refugee Resettlement eligible individuals will be served annually.

The Department will monitor services by reviewing regular reports and performing in-person agency monitoring and file reviews to ensure the Contractor provide all required services.

As referenced in Exhibit A of the attached agreement, the parties have the option to extend the agreement for up three (3) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and Governor and Council approval.

Should the Governor and Council not authorize this request Office of Refugee Resettlement eligible individuals resettled in the State will not have access to foundational case management and economic support services that impact their ability to become self-sufficient and achieve sustained social and economic wellbeing.

New Hampshire Department of Health and Human Services Exhibit D – Federal Requirements

SECTION A: CERTIFICATION REGARDING DRUG-FREE WORKPLACE REQUIREMENTS

The Contractor identified in Section 1.3 of the General Provisions agrees to comply with the provisions of Sections 5151-5160 of the Drug-Free Workplace Act of 1988 (Pub. L. 100-690, Title V, Subtitle D; 41 U.S.C. 701 et seq.), and further agrees to have the Contractor's representative, as identified in Sections 1.11 and 1.12 of the General Provisions execute the following Certification:

ALTERNATIVE I - FOR CONTRACTORS OTHER THAN INDIVIDUALS

US DEPARTMENT OF HEALTH AND HUMAN SERVICES - CONTRACTORS
US DEPARTMENT OF EDUCATION - CONTRACTORS
US DEPARTMENT OF AGRICULTURE - CONTRACTORS

This certification is required by the regulations implementing Sections 5151-5160 of the Drug-Free Workplace Act of 1988 (Pub. L. 100-690, Title V, Subtitle D; 41 U.S.C. 701 et seq.). The January 31, 1989 regulations were amended and published as Part II of the May 25, 1990 Federal Register (pages 21681-21691), and require certification by contractors (and by inference, sub-contractors), prior to award, that they will maintain a drug-free workplace. Section 3017.630(c) of the regulation provides that a contractor (and by inference, sub-contractors) that is a State may elect to make one certification to the Department in each federal fiscal year in lieu of certificates for each Agreement during the federal fiscal year covered by the certification. The certificate set out below is a material representation of fact upon which reliance is placed when the agency awards the Agreement. False certification or violation of the certification shall be grounds for suspension of payments, suspension or termination of Agreements, or government wide suspension or debarment. Contractors using this form should send it to:

Commissioner
NH Department of Health and Human Services.
129 Pleasant Street
Concord, NH 03301-6505

1. The Contractor certifies that it will or will continue to provide a drug-free workplace by:
 - 1.1. Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession or use of a controlled substance is prohibited in the Contractor's workplace and specifying the actions that will be taken against employees for violation of such prohibition;
 - 1.2. Establishing an ongoing drug-free awareness program to inform employees about
 - 1.2.1. The dangers of drug abuse in the workplace;
