**REQUESTED ACTION**

Authorize the Department of Health and Human Services, Division of Public Health Services, to enter into a **Sole Source** amendment to an existing contract with Eurofins Environment Testing Radon, LLC. (VC# 159136), Dover, DE, to continue to provide radon test kits to New Hampshire residents, by exercising a contract renewal option by increasing the price limitation by \$120,000 from \$179,069 to \$299,069 and extending the completion date from June 30, 2025 to June 30, 2028, effective July 1, 2025, upon Governor and Council approval. 100% Federal Funds.

The original contract was approved by Governor and Council on July 14, 2021, item #17.

Funds are anticipated to be available in State Fiscal Years 2026, 2027, and 2028, upon the availability and continued appropriation of funds in the future operating budget, with the authority to adjust budget line items within the price limitation and encumbrances between state fiscal years through the Budget Office, if needed and justified.

**EXPLANATION**

This request is **Sole Source** because MOP 150 requires all amendments to agreements originally approved as sole source to be identified as sole source. The Department previously published a Request for Bids in September 2020 and notified a pool of potential vendors for these services but did not receive any responses. The Department subsequently identified the Contractor as qualified, willing, and able to provide the required services. The Department is requesting to exercise an available contract renewal option to ensure there is no interruption to radon kits being provided to interested residents. The Contractor has provided consistent and reliable services and met contract requirements over the duration of the agreement.

The purpose of this request is to continue to provide free radon test kits to individuals statewide to identify potential environmental health hazards in their homes. The Contractor will continue to accept orders from the public for radon test kits via the Department's website. Individuals who place orders for free test kits receive instructions on how to complete the test and a pre-paid return envelope to return the test for analysis. If test results come back at or above the recommended action level for mitigation identified by federal guidelines, materials are sent to the individual who submitted the test kit with recommendations for radon mitigation, as well as an offer of a second free test kit to confirm their results.

All individuals with a valid state address are eligible for one (1) short-term radon air test kit, and one (1) confirmation test kit if their original result is greater than or equal to the federal action level. Approximately 9,000 kits will be distributed during State Fiscal Years 2026, 2027, and 2028.

The Department will monitor services by obtaining and reviewing the results of returned radon tests and monitoring the return rate for tests distributed.

As referenced in Exhibit A of the original agreement, the parties have the option to extend the agreement for up to three (3) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and Governor and Council approval. The Department is exercising its option to renew services for three (3) of the three (3) years available.

Should the Governor and Council not authorize this request, the Department will not be able to provide free radon test kits to individuals across the state to identify potential health risks on their property for potential mitigation.

Area served: Statewide.

**REQUESTED ACTION**

Authorize the Department of Health and Human Services, Division of Public Health Services, to enter into a **Sole Source** contract with Enviro Sciences, Inc. DBA Alpha Energy Labs, Inc. (VC#TBD), Carrollton, TX, in the amount of \$179,069 for provision of short-term radon in air test kits, which include shipping, data collection and laboratory analysis, with the option to renew for up to three (3) additional years, effective upon Governor and Council approval through June 30, 2025. 100% Federal Funds.

Funds are anticipated to be available in the following account for State Fiscal Years 2022, 2023, 2024, and 2025, upon the availability and continued appropriation of funds in the future operating budget, with the authority to adjust budget line items within the price limitation and encumbrances between state fiscal years through the Budget Office, if needed and justified.

**EXPLANATION**

This request is **Sole Source** because the Contractor is the only vendor able to provide the Department with short-term radon in air test kits and provide a web portal for New Hampshire residents to request a test kit. The Department published a Request For Bids for these services on September 10, 2020. On the scheduled closing date of October 8, 2020 there were no bids received. The Department extended the closing date to November 5, 2020 and sent a mass email to all potential vendors. No bids were received.

His Excellency, Governor Christopher T. Sununu  
and the Honorable Council  
Page 2 of 2

The purpose of this request is for the Department to obtain 40,000 short-term radon in air test kits that are approved by the American Association of Radon Scientists and Technologists National Radon Proficiency Program (AARST-NRPP) and/or the National Radon Safety Board (NRSB). The test kits including shipping, data collection and laboratory analysis.

Seasonal or permanent residents of New Hampshire are eligible for one (1) short-term radon air test kit. Approximately 40,000 individuals will be served from the date of Governor and Council approval to June 30, 2025.

The Contractor will develop a custom website to accept orders for short-term radon kits and provide a URL link that can be imbedded in the Department's website, which will be accessed by NH residents when requesting short-term radon test kits. Individuals will receive instructions on how to complete the test. The kit includes a pre-paid return envelope to send in the test to the laboratory. Test results will be provided to the qualifying individual within ten (10) business days of the test analysis with contact information for the New Hampshire Division of Public Health Services, Radon Program. If test results come back 4.0 pCi or higher, the qualifying individual will be sent a second test with information that recommends seeking radon mitigation using the National Radon Proficiency (NRPP).

The Department will monitor contracted services by obtaining and reviewing the results of the radon test.

As referenced in Exhibit A, Revisions to Standard Contract Provisions, Section 1, Subsection 1.1 of the attached contract, the parties have the option to extend the agreement for up three (3) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and Governor and Council approval.

Should the Governor and Council not authorize this request the Department will not be able to send seasonal or permanent residents of New Hampshire short-term radon in air test kits, which will lead to less awareness of radon and potentially increase long term effects of radon if it is not found.

AND OTHER RESPONSIBILITY MATTERS**

The Contractor identified in Section 1.3 of the General Provisions agrees to comply with the provisions of Executive Office of the President, Executive Order 12549 and 45 CFR Part 76 regarding Debarment, Suspension, and Other Responsibility Matters, and further agrees to have the Contractor's representative, as identified in Sections 1.11 and 1.12 of the General Provisions execute the following Certification:

**INSTRUCTIONS FOR CERTIFICATION**

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549; 45 CFR Part 76. See the attached definitions.
6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.
7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

- 10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

PRIMARY COVERED TRANSACTIONS

- 11. The prospective primary participant certifies to the best of its knowledge and belief, that it and its principals:
  - 11.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;

  - 11.3. are not presently indicted for otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in paragraph (I)(b) of this certification; and
  - 11.4. have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.
- 12. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal (contract).

LOWER TIER COVERED TRANSACTIONS

- 13. By signing and submitting this lower tier proposal (contract), the prospective lower tier participant, as defined in 45 CFR Part 76, certifies to the best of its knowledge and belief that it and its principals:
