July 30, 2025

Her Excellency, Governor Kelly A. Ayotte
and the Honorable Council
State House
Concord, New Hampshire 03301

REQUESTED ACTION

Authorize the Department of Environmental Services to amend an American Rescue Plan Act grant (PO# 1095341) to the Loon Estates Cooperative, Inc., Northwood, NH (VC# 352335-B001) by extending the completion date to May 1, 2026 from September 1, 2025, upon Governor and Council approval. The original grant was approved by Governor and Council on September 6, 2023, Item #50. This is a no cost time extension. 100% federal funds.

EXPLANATION

We are requesting approval of this amendment to provide the Loon Estates Cooperative, Inc. additional time due to unanticipated delays in the hydrogeologic assessment of a potential new well source, as outlined in the original scope. These delays are primarily the result of setbacks in the schedule for drilling a new monitoring well onsite. The monitoring well will assess the feasibility of constructing a new water supply source for the community, to ensure adequate water capacity and quality will be provided. The hydrology work is now anticipated to be completed by spring of 2026. To date, \$596 of the original \$50,000 ARPA grant has been spent.

In the event federal funds become no longer available, general funds will not be requested to support this program. This grant amendment has been approved by the Attorney General's Office as to form, substance, and execution.

We respectfully request your approval of this item.

Robert R. Scott
Commissioner

REQUESTED ACTION

Authorize the Department of Environmental Services to award a Strategic Planning grant to the Loon Estates Cooperative, Inc., Northwood, NH, (Vendor code #352335-B001) totaling \$50,000 to improve public water system sustainability, effective upon Governor and Council approval through September 1, 2025. 100% Federal Funds.

Activity Code: 00FRF6020WB4401A

FY 2024
\$50,000

EXPLANATION

During the Fall of 2022, NHDES went out for solicitation of interest to community water systems serving a population greater than 150 people. Forty-six (46) proposals were received, evaluated, and ranked based on criteria included in the request for proposals, such as the ability to demonstrate a "shovel-ready" drinking water infrastructure project following the planning efforts and an ability to make improvements to the sustainability of the system. Out of the forty-six project proposals, twenty-three (23) were selected to be funded under the American Rescue Plan Act (ARPA) funds. See attachment A for the proposal rankings and list of reviewers.

Loon Estates Cooperative, Inc. will use the funds to assess their existing well sources and assess a potential new well source for the community, to ensure an adequate water capacity and quality is being provided. Through the strategic planning efforts, the results of the assessment will provide a path forward to better improve the community's capacity and water quality.

ARPA of 2021 is a \$1.9 trillion economic stimulus bill passed by the 117th United States Congress and signed into law by President Biden on March 11, 2021, to speed up the United States' recovery from the economic and health effects of the COVID-19 pandemic and the resultant recession. The Act defines

eligible uses of the state and local funding, including responding to public health emergencies, responding to workers performing essential work during the COVID-19 emergency, providing revenue relief to states and making investments in water, sewer, and broadband infrastructure. This is an allowable use of ARP FRF funds under Section 602 (c)(1)(D) to make necessary investments in water, sewer, or broadband infrastructure.

In the event grant funds become no longer available, general funds will not be requested to support this program. These grant agreements have been approved by the Attorney General's Office as to form, substance, and execution.

 - 11.2.1 Give the Grantee a written notice specifying the Event of Default and requiring it to be remedied within, in the absence of a greater or lesser specification of time, thirty (30) days from the date of the notice; and if the Event of Default is not timely remedied, terminate this Agreement, effective two (2) days after giving the Grantee notice of termination; and

 - 11.2.4 Treat the agreement as breached and pursue any of its remedies at law or in equity, or both.
12. TERMINATION.
- 12.1. - 12.3. In the event of Termination under paragraphs 10 or 12.4 of these general provisions, the approval of such a Termination Report by the State shall in no event relieve the Grantee from any and all liability for damages sustained or incurred by the State as a result of the Grantee's breach of its obligations hereunder.
- 12.4. Notwithstanding anything in this Agreement to the contrary, either the State or, except where notice default has been given to the Grantee hereunder, the Grantee, may terminate this Agreement without cause upon thirty (30) days written notice.

20. **AMENDMENT.** This Agreement may be amended, waived or discharged only by an instrument in writing signed by the parties hereto and only after approval of such amendment, waiver or discharge by the Governor and Council of the State of New Hampshire, if required or by the signing State Agency.
21. **CONSTRUCTION OF AGREEMENT AND TERMS.** This Agreement shall be construed in accordance with the law of the State of New Hampshire, and is binding upon and inures to the benefit of the parties and their respective successors and assignees. The captions and contents of the "subject" blank are used only as a matter of convenience, and are not to be considered a part of this Agreement or to be used in determining the intent of the parties hereto.
22. **THIRD PARTIES.** The parties hereto do not intend to benefit any third parties and this Agreement shall not be construed to confer any such benefit.
23. **ENTIRE AGREEMENT.** This Agreement, which may be executed in a number of counterparts, each of which shall be deemed an original, constitutes the entire agreement and understanding between the parties, and supersedes all prior agreements and understandings relating hereto.

demoted, or otherwise discriminated against as a reprisal for disclosing to a person or body described in paragraph (2) information that the employee reasonably believes is evidence of gross mismanagement of a Federal contract or grant, a gross waste of Federal funds, an abuse of authority relating to a Federal contract or grant, a substantial and specific danger to public health or safety, or a violation of law, rule, or regulation related to a Federal contract (including the competition for or negotiation of a contract) or grant.”

EXHIBIT B
SCOPE OF SERVICES

The Loon Estate Cooperative will complete the following outlined tasks. The goal of the project is to assess and test for new well source and both existing wells, providing recommendation and support for the community’s water system.

Task 1 - Well Logging and Preliminary Water Quality Assessment

Deliverables: Assessment, submitted to NHDES in electronic format.

Task 2 - Monitoring of Offsite Wells.

This task shall include measuring and recording water levels of both existing wells and the new well.

Deliverables: Monitoring data of the wells, submitted to NHDES in electronic format.

Task 3 - 72-Hour Pumping Test and Water Quality Analyses

A 72-hour constant rate pumping test is to be carried out, following the requirements of Env-Dw 305.14. The 72-hour pumping test includes the following components, amongst others:

- A constant pumping rate will need to be maintained for three days, with the pumping rate allowed to depart from the target rate by no more than 5%.
- Water levels are to be recorded in the pumping well and in the surrounding wells that have been selected for monitoring and have been made available for monitoring by their owners. Data generated by transducers is to be corrected for changes in atmospheric pressure using barometric measurements.
- The frequency of water level measurements should be as prescribed in NHDES regulations. Measurements are to be made during the 72-hour pumping period, and for a post-pumping 8 aquifer recovery period that typically lasts for 24 to 72 hours, depending on well and aquifer behavior.
- Water samples are to be collected near the end of the pumping test and sent to a NH Statecertified laboratory for analysis of the list of parameters required in Env-Dw 305.15. Because the site is within 200 feet of a surface water body, we assume it will also be necessary to perform a microparticulate analysis (MPA) to assess whether the

Grantee Initials 

Date 7/21/23

well is likely to be under the influence of surface water (i.e., GWUDI, Ground Water Under the Direct Influence of surface water).

Deliverables: Pumping test and water quality analysis, submitted to NHDES in electronic format.

Task 4 - Analyses and NHDES Final Hydrogeologic Report:

HSA will assemble and analyze the data from the pumping test using conventional hydrogeologic procedures for evaluating well hydraulic performance. We will then prepare a Final Report to NHDES as prescribed under EnvDw 305.

The report will document the well construction specifications, the results of the 72-hour pumping test, and water quality analyses. This report is essentially an application for approval to use the new well as a public drinking water source. NHDES approval of the permanent pumping apparatus and water delivery system design and construction is separate. We assume any and all efforts related to the design, NHDES Approvals, and installation/construction of the well pumping system and connection of the new well to the Loon Estates distribution systems will be the responsibilities of others.

The report will include the various NHDES-required components:

- well site characteristics.
- pumping test documentation.
- graphical and analytical analysis of recorded water levels.
- WHPA refinement.
- well construction specifications.
- assessment of pumping impacts, if any.
- monitoring data in tabular form as appendices.
- an updated contaminant source inventory and water use/water resource inventory.
- summary of water quality testing results.
- lab reports from water quality testing included as an appendix.
- hydrogeologic analysis of the test results and proposed permitted production volume for the new well.

Deliverables: Hydrogeological Report, submitted to NHDES in electronic format.

An invitation for NHDES participation in meetings is a requirement. Quarterly progress report forms must be completed by grant recipients or their subcontractor and submitted to NHDES every three months, beginning with the first full 3 month quarter after grant approval from the Governor and Council. **Completion date for the contract will be as listed on the grant agreement (section 1.7).**

EXHIBIT C
BUDGET & PAYMENT METHOD

The NHDES shall pay to the Grantee the total reimbursable program for eligible work which shall not exceed the Grant Limitation of \$50,000.

Reimbursement requests for program costs shall be made no more than once per calendar month by the Grantee using the approved reimbursement form as supplied by the NHDES, which shall be completed and signed by the Grantee. The reimbursement form shall be accompanied by proper supporting documentation based upon direct costs incurred. The Grantee will maintain adequate documentation to substantiate all project related costs. All work shall be performed to the satisfaction of the NHDES before payment is made.

All work must be completed prior to the completion date in this Grant Agreement to be eligible for reimbursement.

A Certificate of Vote of Authorization (COV) is a certificate that states that a grantee is willing to enter into a grant agreement with the State of New Hampshire Department of Environmental Services (NHDES) and that whoever signs the Grant Agreement (provided under separate cover) has the authority to do so. **Do not complete this form until you have received a Grant Agreement from NHDES. Follow the steps below:**

1. Following a funding offer from NHDES, obtain the authority to accept grant funds and assign an Authorized Representative (AR) from the grantees governing body. This will likely require a vote at a meeting of the governing body. A vote may take place any time prior to execution of the Grant Agreement.
2. Once the Grant Agreement has been received from NHDES, someone other than the AR (who can certify actions taken at the referenced meeting) completes and signs the COV. The AR cannot sign the COV. The COV must be signed and notarized on the same date as, or within 30 days of, when the AR signs the Grant Agreement. The 30-day window applies to either side of the execution date.
3. The AR signs the Grant Agreement and initials and dates the bottom of each page including the Exhibits.
4. Mail original COV and Grant Agreement documents to program contact at NHDES.
