The Honorable Ken Weyler, Chairman
 Fiscal Committee of the General Court and

Her Excellency, Governor Kelly A. Ayotte
 and the Honorable Council
 State House
 Concord, New Hampshire 03301

REQUESTED ACTION

Pursuant to RSA 14:30-a, VI, authorize the Department of Natural and Cultural Resources, Divisions of Forests and Lands to **retroactively** amend Fiscal item #FIS 24-309, originally approved by Fiscal Committee on September 13, 2024, and item #102, approved by Governor and Council on September 25, 2024, by extending the end date from June 30, 2025 to June 30, 2027 for grant funds in the amount of \$28,217 from the US Department of Agriculture United State Forest Service to be used in support of the DNCR wildland fire program in accordance with the terms of the grant known as the State Fire Assistance (SFA) BIL/IUJA, effective upon Fiscal Committee and Governor and Council approval. 100% Federal Funds.

EXPLANATION

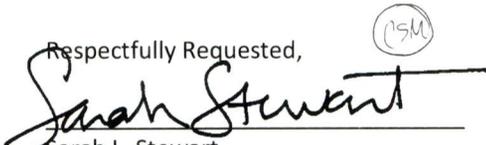

This request is **retroactive** due to an administrative record accountability oversight to capture this particular grant as an eligible BIL grant which was allowed to be extended prior to the end of the FY 2024-2025 biennium. Therefore, we are seeking approval to proceed forward with completion of use of this funding within the new FY 2026-2027 biennium.

These grant funds will allow the Division of Forests and Lands to continue providing wildland fire prevention, detection, suppression, and prescribed fire services throughout the state. The State of New Hampshire is the second most forested state in the United States, with approximately 4.8 million acres of forestland covering roughly 84% of the land area. The Division is responsible by state law for providing wildland fire detection, prevention, and suppression on all lands in the state, except within the boundaries of the White Mountain National Forest. This accounts for over 4.1 million acres that fall under state jurisdiction for wildland fire protection. The State is committed to a safe and aggressive attack on all wildland fires, with the objective of keeping the number of wildfires and acreage burned to a minimum.

These funds will be used to support and expand the overall operations of the Division's wildland fire management program statewide. Projects funded through this grant will hopefully result in reduced number of wildfire ignitions, reduced number of illegal or unwanted fires, reduced acreage burned, increased safety of firefighters, and increased protection for communities. The state will also try and implement the tenets of the regional and national cohesive wildland fire management strategies into its work through managing our natural resources by restoring and maintaining landscapes; promoting fire-adapted communities to protect homes, communities and other values at risk; and providing safe, efficient, and effective wildfire response.

In the event Federal Funds are no longer available, General Funds will not be requested to support this program.

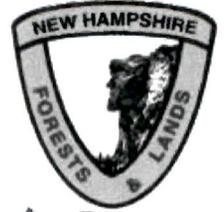

Respectfully Requested,

 Sarah L. Stewart

EXPLANATION

This request is being presented before the Fiscal Committee for approval as funds have been previously accepted into this account and this request brings the cumulative acceptance over \$100,000 in Fiscal Year 2025.

The Division of Forests and Lands (Division) requests authorization to accept and expend additional SFA BIL/IIJA Grant funds in the amount of \$33,725. These grant funds will allow the Division of Forests and Lands to continue providing wildland fire prevention, detection, suppression, and prescribed fire services throughout the state. The State of New Hampshire is the second most forested state in the United States, with approximately 4.8 million acres of forestland covering roughly 84% of the land area. The Division is responsible by state law for providing wildland fire detection, prevention, and suppression on all lands in the state, except within the boundaries of the White Mountain National Forest. This accounts for over 4.1 million acres that fall under state jurisdiction for wildland fire protection. The State is committed to a safe and aggressive attack on all wildland fires, with an objective of keeping the number of wildfires and acreage burned to a minimum.

These funds will be used to support and expand the overall operations of the Division's wildland fire management program statewide. Projects funded through this grant will hopefully result in reduced number of wildfire ignitions, reduced number of illegal or unwanted fires, reduced acreage burned, increased safety of firefighters, and increased protection for communities. The state will also try and implement the tenets of the regional and national cohesive wildland fire management strategies into its work through managing our natural resources by restoring and maintaining landscapes; promoting fire-adapted communities to protect homes, communities and other values at risk; and providing safe, efficient, and effective wildfire response.

There are many partners involved with implementation of the objectives accomplished through SFA. Partners include community fire departments, the White Mountain National Forest, NH Division of Homeland Security and Emergency Preparedness, NH Fish and Game Department, NH Department of Military Affairs and Veterans Services, NH Department of Environmental Services, the National Weather Service, NH Association of Fire Chiefs, NH Forest Fire Warden's Associations, Northeast Forest Fire Protection Compact, Northeast Interagency Coordination Center, The Nature Conservancy, the University of New Hampshire Cooperative Extension program, and many others.

The following appropriation adjustments are being requested:

Class 020 – Current Expenses – Appropriation increased to pay for wildland fire suppression supplies;

Class 040 – Indirect Costs – Appropriation increased to pay indirect costs associated with the grant;

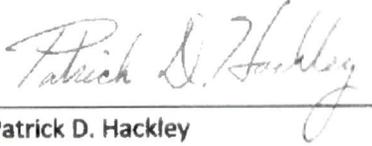

Class 041 – Audit Fund Set Aside – Appropriation increased to pay audit fund set aside for this grant portion;

Class 050 - Personal Service-Temp/Appointe – Appropriation increased to support existing parttime prescribed fire coordinator position; and

Class 060 – Benefits – Appropriation increased to pay associated fringe benefits to support existing parttime prescribed fire coordinator position.

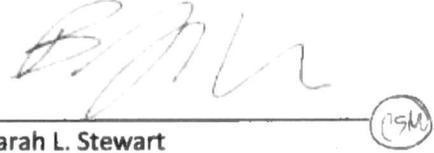

In the event Federal Funds are no longer available, General Funds will not be requested to support this request.

- R. **DEBARMENT AND SUSPENSION.** The Recipient shall immediately inform the Forest Service if they or any of their principals are presently excluded, debarred, or suspended from entering into covered transactions with the federal government according to the terms of 2 CFR Part 180. Additionally, should the Recipient or any of their principals receive a transmittal letter or other official federal notice of debarment or suspension, then they shall notify the Forest Service without undue delay. This applies whether the exclusion, debarment, or suspension is voluntary or involuntary. The Recipient shall adhere to 2 CFR Part 180 Subpart C in regards to review of sub-recipients or contracts for debarment and suspension.
- All subrecipients and contractors must complete the form AD-1048, Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion, Lower Tier Covered Transactions. Blank forms are available electronically. Completed forms must be kept on file with the primary recipient.

- T. **SCIENTIFIC INTEGRITY:** USDA is committed to the highest levels of integrity in all of our scientific activities and decision making. This includes to performing, recording and reporting the results of scientific activities with honesty, objectivity, and transparency. All persons performing under this agreement shall adhere to the principles of scientific integrity described in Departmental Regulation (DR) 1074-001.
- U. **GEOSPATIAL DATA.** All data collected will meet the requirements of the Geospatial Data Act of 2018 where applicable. This will always include the documentation of all relevant metadata standards, use of standard data formats; description of quantitative measures of uncertainty and source of uncertainty and sources of uncertainty associated with the data. Additionally, the data must meet specific standards specified elsewhere to ensure the data is useful to support the USDA's mission. The recipient/cooperator agrees to comply with USDA's Department-wide enterprise geospatial data management policy implemented in Departmental Regulation 3465-001 which establishes the USDA policy for defining the strategic direction necessary to optimize the management of the USDA

geospatial data and geospatial infrastructure, including all geospatial data created for, by, and enhanced by USDA.

- V. **PUBLIC ACCESS TO SCHOLARLY PUBLICATIONS AND DIGITAL SCIENTIFIC RESEARCH DATA.** The recipient agrees to comply with USDA's Department-wide public access policy implemented in Departmental Regulation 1020-006 which establishes the USDA policy for public access to scholarly publications and digital scientific research data assets. The USDA will make all peer-reviewed, scholarly publications and digital scientific research data assets arising from unclassified scientific research supported wholly or in part by the USDA accessible to the public, to the extent practicable.

- W. **BUY AMERICA BUILD AMERICA.** Recipients of an award of Federal financial assistance from a program for infrastructure are hereby notified that none of the funds provided under this award may be used for an infrastructure project unless:

(1) All iron and steel used in the project are produced in the United States—this means all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States;

(2) All manufactured products used in the project are produced in the United States— this means the manufactured product was manufactured in the United States; and the cost of the components of the manufactured product that are mined, produced, or manufactured in the United States is greater than 55 percent of the total cost of all components of the manufactured product, unless another standard that meets or exceeds this standard has been established under applicable law or regulation for determining the minimum amount of domestic content of the manufactured product; and

(3) All construction materials are manufactured in the United States—this means that all manufacturing processes for the construction material occurred in the United States. The construction material standards are listed below.

Incorporation into an infrastructure project. The Buy America Preference only applies to articles, materials, and supplies that are consumed in, incorporated into, or affixed to an infrastructure project. As such, it does not apply to tools, equipment, and supplies, such as temporary scaffolding, brought to the construction site and removed at or before the completion of the infrastructure project. Nor does a Buy America Preference apply to equipment and furnishings, such as movable chairs, desks, and portable computer equipment, that are used at or within the finished infrastructure project, but are not an integral part of the structure or permanently affixed to the infrastructure project.

Categorization of articles, materials, and supplies. An article, material, or supply should only be classified into one of the following categories: (i) Iron or steel products; (ii) Manufactured products; (iii) Construction materials; or (iv) Section 70917(c) materials. An article, material, or supply should not be considered to fall into multiple categories. In some cases, an article, material, or supply may not fall under any of the categories listed in this paragraph. The classification of an article, material, or supply as falling into one of the categories listed in this paragraph must be made based on its status at the time it is brought to the work site for incorporation into an infrastructure project. In general, the work site is the location of the infrastructure project at which the iron, steel, manufactured products, and construction materials will be incorporated.

Application of the Buy America Preference by category. An article, material, or supply incorporated into an infrastructure project must meet the Buy America Preference for only the single category in which it is classified.

Determining the cost of components for manufactured products. In determining whether the cost of components for manufactured products is greater than 55 percent of the total cost of all components, use the following instructions:

(a) For components purchased by the manufacturer, the acquisition cost, including transportation costs to the place of incorporation into the manufactured product (whether or not such costs are paid to a domestic firm), and any applicable duty (whether or not a duty-free entry certificate is issued); or

(b) For components manufactured by the manufacturer, all costs associated with the manufacture of the component, including transportation costs as described in paragraph (a), plus allocable overhead costs, but excluding profit. Cost of components does not include any costs associated with the manufacture of the manufactured product.

Construction material standards. The Buy America Preference applies to the following construction materials incorporated into infrastructure projects. Each construction material is followed by a standard for the material to be considered "produced in the United States." Except as specifically provided, only a single standard should be applied to a single construction material.

(1) Non-ferrous metals. All manufacturing processes, from initial smelting or melting through final shaping, coating, and assembly, occurred in the United States.

(2) Plastic and polymer-based products. All manufacturing processes, from initial combination of constituent plastic or polymer-based inputs, or, where applicable, constituent composite materials, until the item is in its final form, occurred in the United States.

(3) Glass. All manufacturing processes, from initial batching and melting of raw materials through annealing, cooling, and cutting, occurred in the United States.

(4) Fiber optic cable (including drop cable). All manufacturing processes, from the initial ribboning (if applicable), through buffering, fiber stranding and jacketing, occurred in the United States. All manufacturing processes also include the standards for glass and optical fiber, but not for non-ferrous metals, plastic and polymer-based products, or any others.

(5) Optical fiber. All manufacturing processes, from the initial preform fabrication stage through the completion of the draw, occurred in the United States.

(6) Lumber. All manufacturing processes, from initial debarking through treatment and planning, occurred in the United States.

(7) Drywall. All manufacturing processes, from initial blending of mined or synthetic gypsum plaster and additives through cutting and drying of sandwiched panels, occurred in the United States.

(8) Engineered wood. All manufacturing processes from the initial combination of constituent materials until the wood product is in its final form, occurred in the United States.

Waivers. When necessary, recipients may apply for, and the agency may grant, a waiver from these requirements. The agency should notify the recipient for information on the process for requesting a waiver from these requirements.

When the Federal agency has made a determination that one of the following exceptions applies, the awarding official may waive the application of the Buy America Preference in any case in which the agency determines that:

- (1) applying the Buy America Preference would be inconsistent with the public interest;
- (2) the types of iron, steel, manufactured products, or construction materials are not produced in the United States in sufficient and reasonably available quantities or of a satisfactory quality; or

(3) the inclusion of iron, steel, manufactured products, or construction materials produced in the United States will increase the cost of the overall project by more than 25 percent.

A request to waive the application of the Buy America Preference must be in writing. The agency will provide instructions on the format, contents, and supporting materials required for any waiver request. Waiver requests are subject to public comment periods of no less than 15 days and must be reviewed by the Made in America Office.

There may be instances where an award qualifies, in whole or in part, for an existing waiver described at [USDA Buy America Waivers for Federal Financial Assistance | USDA](#).

Definitions

“Buy America Preference” means the “domestic content procurement preference” set forth in section 70914 of the Build America, Buy America Act, which requires the head of each Federal agency to ensure that none of the funds made available for a Federal award for an infrastructure project may be obligated unless all of the iron, steel, manufactured products, and construction materials incorporated into the project are produced in the United States.

“Construction materials” means articles, materials, or supplies that consist of only one of the items listed in paragraph (1) of this definition, except as provided in paragraph (2) of this definition. END OF ATTACHMENT B: 2 CFR PART 170

ATTACHMENT C: WHISTLEBLOWER NOTICE

Whistleblowers perform an important service to USDA and the public when they come forward with what they reasonably believe to be evidence of wrongdoing. They should never be subject to reprisal for doing so. Federal law protects federal employees as well as personal services contractors and employees of Federal contractors, subcontractors, grantees, and subgrantees against reprisal for whistleblowing. USDA bears the responsibility to ensure that nothing in a non-disclosure agreement which a contractor, subcontractor, grantee, or subgrantee requires their employees to sign should be interpreted as limiting their ability to provide information to the Office of Inspector General (OIG).

41 U.S.C. § 4712 requires the head of each executive agency to ensure that its contractors inform their workers in writing of the rights and remedies under the statute. Accordingly, it is illegal for a personal services contractor or an employee of a Federal contractor, subcontractor, grantee, or subgrantee to be discharged, demoted, or otherwise discriminated against for making a protected whistleblower disclosure. In this context, these categories of individuals are whistleblowers who disclose information that the individual reasonably believes is evidence of one of the following:

- Gross mismanagement of a Federal contract or grant;
- A gross waste of Federal funds;
- An abuse of authority relating to a Federal contract or grant;
- A substantial and specific danger to public health or safety; or
- A violation of law, rule, or regulation related to a Federal contract (including the competition for or negotiation of a contract) or grant.

To be protected under 41 U.S.C. § 4712, the disclosure must be made to one of the following:

- A Member of Congress, or a representative of a committee of Congress;
- The OIG;
- The Government Accountability Office (GAO);
- A Federal employee responsible for contract or grant oversight or management at USDA;
- An otherwise authorized official at USDA or other law enforcement agency;
- A court or grand jury; or
- A management official or other employee of the contractor, subcontractor, or grantee who has the responsibility to investigate, discover, or address misconduct.

Under 41 U.S.C. § 4712, personal services contractors as well as employees of contractors, subcontractors, grantees, or subgrantees may file a complaint with OIG, who will investigate the matter unless they determine that the complaint is frivolous, fails to allege a violation of the prohibition against whistleblower reprisal, or has been addressed in another proceeding. OIG's investigation is then presented to the head of the executive agency who evaluates the facts of the investigation and can order the contractor, subcontractor, grantee, or subgrantee

to take remedial action, such as reinstatement or back pay.

Federal Acquisition Regulation (FAR) Subpart 3.903, *Whistleblower Protections for Contractor Employees, Policy*, prohibits government contractors from retaliating against a contract worker for making a protected disclosure related to the contract. FAR Subpart 3.909-1 prohibits the Government from using funds for a contract with an entity that requires its employees or subcontractors to sign internal confidentiality statements prohibiting or restricting disclosures of fraud, waste, or abuse to designated persons. This prohibition does not contravene agreements pertaining to classified information. The regulation also requires contracting officers to insert FAR clause 52.203-17, *Contractor Employee Whistleblower Rights and Requirement to Inform Employees of Whistleblower Rights*, in all solicitations and contracts that exceed the Simplified Acquisition Threshold as defined in FAR Subpart 3.908. This clause requires notification to contractor employees that they are subject to the whistleblower rights and remedies referenced in 41 U.S.C. § 4712.

In order to make a complaint alleging any of the violations mentioned above, one should complete the OIG Hotline form located at: <https://www.usda.gov/oig/hotline>. For additional information, they may also visit the WPC's webpage at: <https://www.usda.gov/oig/wpc> or they may directly contact the WPC at OIGWPC@oig.usda.gov.
